EDITION OF 1917.

Thirty-seventh Year.

THIS publication has now reached its thirty-seventh year. During its existence it has grown greatly in bulk, value and reliability. To the Heads of Public Departments and their Officers, to Managers and Secretaries of Public bodies and Societies and to all who have contributed so willingly and courteously to attain this result, the grateful thanks of the Editors are due, and are offered in recognition and appreciation of their kindness.

Any suggestions from readers and those who may refer to this work, which may increase its usefulness and reliability will be welcomed by the Editors whose aim is to make it as complete and useful as possible, within its present compass.

The present unhappy state of war is again responsible for the incompleteness and uncertainty of information under "Naval and Military." The *personnel* of the Military services may be changed at any moment. Information under "Maritime" Part XII is still largely *pro forma* and names of ships, dates of sailing, rates of passages and freights, must be sought direct from the Steamship agencies as required.

The List of those holding Commissioned rank in H. M. Naval and Military Forces who are either natives of, domiciled in or specially connected with the Island, has been brought up to date and enlarged—while the names of those who have fallen in action or on active service are indicated by a star, and a foot note referring to the Roll of Honour, in which will be found a brief obituary notice of those who have laid down their lives for the glorious cause of the United Empire. To those who have, in the midst of their own sorrow for loss of their relatives and friends, afforded information, the thanks and sympathy of the Editors are due.

NOTE.—All Jewish Sabbaths and Holy Days commence on the previous evening at sunset.

THE MOON'S PHASES.

The times of new moon, first quarter, full moon, and last quarter, are given in the calendar to the nearest local civil day. Thus if new moon occurs on any day between midnight and 5 hr. 7 min. a.m., Greenwich time, the new moon is referred to the previous day in the above calendar.

EQUATION OF TIME.

The equation of time is a correction which must be applied to *apparent* time or time obtained from observation of the Sun, in order to obtain local *mean* time.

The last column in each month of the calendar above gives this correction for every day in the year. Care must be taken to add or to subtract the correction according to the precepts.

For instance on Jan. 4th we must add 5 min. to the time shown by a good sundial in order to obtain local mean time; but on Oct. 4th we must subtract 11 min., and so on.

To obtain standard time as adapted in Jamaica (see p 11) for any place under consideration, the longitude of that place (in time) less 5 hrs. must be added to the local mean time.

SUNRISE AND SUNSET.

The mean time of sunrise and sunset for every day in the year, given in the Calendar above, has been computed for the latitude of Kingston and includes the correction for refraction. It is local mean time for every place on the parallel of 18° N.; and to obtain standard time of sunrise and sunset at any place in Jamaica, the longitude of that place (in time) less 5 hrs. must be added to the time given in the calendar. Thus for the Morant Point and Negril Point Light Houses, 5 and 14 min. must be respectively added to obtain standard time of sunrise and sunset at these places.

TIDES ON THE COASTS OF JAMAICA.

As the rise and fall of the tides round Jamaica do not exceed 10 or 11 inches we clearly do not require the times of high and low water for nautical purposes; but sometimes we want to know, however roughly, when it is high or low water.

From Mr. Charlton Thompson's observations in Kingston harbour it appears that there are two kinds of tides on the coasts of Jamaica. The first and more important kind are *diurnal*, giving high and low water once in every 24 hours; they occur when the moon's declination is greater than 9° north or south. The second kind are *semi-diurnal*, giving high and low water twice in every 24 hours; they occur when the moon's declination is 9° or less, north or south.

For the diurnal tides, when the moon's declination is north, the time of high water does not greatly differ from the time of the moon's lower meridian passage; and when the moon's declination is south, the time of high water does not greatly differ from the time of the moon's upper meridian passage.

For the semi-diurnal tides the times of high water do not greatly differ from the times of the moon's upper and lower meridian passage.

In Kingston harbour the range of the diurnal tide is only 8 inches; and the range of the semi-diurnal tide is only 3 inches; but these small ranges are frequently obscured by larger irregular fluctuations in the ocean level which cannot be attributed to the action of the sun or moon. Further particulars will be found in Weather Report, No. 227.

LATITUDE AND LONGITUDE OF KINGSTON.

During the year 1875 and 1876 the latitude and longitude of Kingston were determined by Commander F. M. Green, U.S.N., with great accuracy.

The station at Kingston was 12 feet west of the centre of the pedestal on which the statue of Lord Rodney was then mounted, and on which the statue of Sir Charles Metcalfe now stands, at the lower end of King Street, near the market-place and overlooking the harbour.

A tablet was inserted in 1893 by the Institute of Jamaica in the north side of the pedestal which states that the above mentioned longitude refers to a point 12 feet west of the centre of the pedestal.

The latitude of this station was obtained from 43 observations of pairs of stars, by means of an instrument suited for the purpose. It was a combination of a transit-instrument and a zenith-sector. The latitude thus found was $17^{\circ} 57' 41.0''$ N.

The longitude of this station was determined by telegraphic signals between Greenwich and Washington, Washington and Key West, and so on to Havana, Santiago de Cuba and Kingston; the three latter sections forming part of the work conducted by Commander Green, U.S.N. The longitude thus found was in arc $76^{\circ} 47' 39.8''$ west of Greenwich; or in time 5 hr. 7m. 10.65 sec.

By notice in the *Gazette*, January 18, 1912, the Governor approved of the adoption of Standard Time in Jamaica, namely Mean Time on 75th meridian west of Greenwich. On 1st February accordingly the chronometer of the Jamaica Time Service was put forward 7 minutes 10.65 seconds, and all Railway and other Government clocks were similarly regulated.

Standard time, correct within a few seconds, is supplied twice a week to the Post Office, and as often as may be required to other Government Offices in Kingston; it is also supplied to Messrs. Thwaites & Co. for their illuminated clock in King Street, for the public benefit.

THE MAGNETIC DECLINATION.

(Or Variation of the Magnetic Needle in Kingston.)

About the year 1890 the variation was decreasing rapidly; then it was found in 1895 that the rate was diminishing; and further observations in 1906 render it necessary to re-adjust the former table.

THE JAMAICA WEATHER SERVICE.

The Observing Station, Kingston, is at the Director of Public Works Office, Port Royal Street.

A Meteorological Service was established in 1880 in order to have the usual instruments read and recorded at Kingston, to encourage the registration of the rainfall throughout the island, and to give warning of approaching hurricanes.

An annual grant of £150 was made for this purpose, and Mr. Maxwell Hall was put in charge of the service: he had to supply the necessary instruments, and to provide for his own assistants.

A first class station was equipped in Kingston; the registration of the rainfall was encouraged by issuing a monthly Weather Report to all the contributors. Mr., now Sir Daniel Morris, established a very fine high-level station at the Cinchona Plantation, 4,900 feet above sea-level, and also took readings on the Blue Mountain Peak.

A large number of investigations referring to such matters as cyclones, wind movements, earthquakes, lightning, magnetic variation, tides, &c., were published from time to time in the Weather Reports, which were so arranged that they could be bound into volumes.

In 1892 rainfall maps of Jamaica were published by the Institute of Jamaica; the coloured maps were based upon observations made at about 153 stations for about twenty years, and they show the average distribution over the Island for each month, and for the year. A second edition entitled "The Rainfall of Jamaica from about 1870 to end of 1909 with maps" was published in 1911.

In 1898 the United States Weather Bureau established a first class station at Halfway Tree, as a part of their service in the West Indies and South America. All their stations reported more or less continuously to Washington, and storm-warnings were issued from Washington which were of great service to the whole of the West Indies. The local Weather Service was discontinued at the end of the financial year, and an annual grant of £50 was made to continue the Weather Reports. The observers at Halfway Tree were recalled, and the instruments were sent to the offices of the Direct Cable Co. in Kingston. The hurricane of 1903 occurred: and the earthquake of 1907 wrecked the instruments.

In 1907 the Weather Service was re-established; the United States Weather Bureau undertook to establish a first class station at the Public Works Office, and the Kingston observer was to supply them with cablegrams during the hurricane months. Mr. J. F. Brennan of the Public Works Department was appointed as observer in Kingston and Mr. Maxwell Hall was given charge of the whole service.

The new service commenced under very different auspices; not only had the rainfall maps been published, but in 1904 the more important results of observation as detailed in the Weather Reports, which were issued monthly between 1881 and 1902, and which form Vols. I, II and III of the *Jamaica Meteorological Observations*, were published in the form of a small pamphlet by the Institute of Jamaica.

There are now:—

First class station	..	Kingston.
Second class stations	{	Morant Point Light House
		Negril Point Light House
Climatological stations	{	Castleton Gardens
		Hope Gardens
		Stony Hill Industrial School
		Hill Gardens

Storm warnings are based on the general circulars issued from Washington, and are modified, if necessary, by the local service; notices are posted at all the telegraph stations, and the shipping in the ports are duly warned, according to the system published at the commencement of each hurricane season.

Government Meteorologist—Maxwell Hall, M.A., F.R.A.S., Montego Bay P.O.—£100, and an assistant £25.

Head of Shipping Department.—T. H. Holt.

The Crown Agents for the Colonies are appointed by the Secretary of State for the Colonies, and act as commercial and financial agents in England for all colonial Governments which do not possess an Agent-General. The self-governing colonies cannot avail themselves of the services of the Crown Agents and have established Agents of their own. The Crown Agents are paid by fixed salaries settled by the Secretary of State and derived from moneys paid by the colonies for services rendered. The office is self-supporting. The accounts are audited by the Audit Office and rendered to the Secretary of State.

PART III.

DESCRIPTION OF JAMAICA, POPULATION. &c.

(Description originally written by the late Thomas Harrison, Surveyor General.)

THE island of Jamaica is situated between 17° 43' and 18° 32' N. lat., and 76° 11' and 78° 20' 50" W. long., about 5,000 miles to the south-west of England, 100 miles west of St. Domingo and 90 miles south of Cuba, 445 miles north of Carthage and 540 miles from Colon.

Jamaica is bounded on the north and east by that part of the Caribbean sea which separates the islands of Cuba and St. Domingo from Jamaica and which at its north-eastern part is called the Windward Passage, the waters of which mingle with those of the Atlantic Ocean. On the south and west Jamaica is washed by the Caribbean sea.

The islands of Grand and Little Cayman, with Cayman Brac, are situated the former about 156 miles and the two latter about 110 miles north-west of Negril Point. The Pedro Bank and Cays commence about 40 miles south of Portland Point and extend westerly for 100 miles; this bank is about three fourths of the size of Jamaica. The Morant Cays are 36 miles from Morant Point in a south-easterly direction. These several islands and cays, together with the Turks and Caicos islands, are all dependencies of the Island of Jamaica.

The nearest part of the continent of America to Jamaica is Cape Gracias a Dios, in the Mosquito Territory, which is 310 miles south-west of the west-end of Jamaica.

From its central situation as regards the other West Indian islands and the fact of its being in the direct track between Europe, and the United States and the Isthmus of Panama, Jamaica furnishes special advantages and conveniences for trade and commerce between these points.

The aboriginal Arawak name of Jamaica, *Xaymaca*, which it has retained till to-day, is supposed to imply an overflowing abundance of rivers.

The extreme length of Jamaica is 144 miles, its greatest width is 49 miles and its least width (from Kingston to Annotto Bay) 21½ miles. The island is divided into three counties and fourteen parishes, namely:—

giving a total of 4,207½ square miles, equal to 2,692 587 acres, of which only about 646 square miles, or 413,440 acres, are flat, consisting of alluvium, marl and swamps.

GENERAL GEOLOGICAL FORMATION.

The foundation or basis of the island is composed of igneous rocks, overlaying which are several distinct formations.

COUNTY OF SURREY.

The coast formation is of white and yellow limestone: the interior consists chiefly of the metamorphosed and trappean series, with carbonaceous shales and conglomerate. The greater part of this county is very mountainous; the only flats are the plain of Liguanea (north of Kingston) and the valleys of the Morant and Plantain Garden rivers, and smaller flats at and near the mouths of the other chief rivers. Mineral deposits are numerous in the mountain districts. Iron, copper, lead, manganese and cobalt have been found and worked to some extent, but no profitable industry has been the result. Marble of good quality has also been found at the head of the Blue Mountain Valley.

The only volcanic formation in the island is that at Lowlayton and Retreat estates in the parish of Portland, a mile from the sea; there is, however, no defined crater, and the volcanic materials are the only evidence remaining.

COUNTY OF MIDDLESEX.

The parish of St. Mary exhibits a great diversity of formation, consisting of white and yellow limestone, carbonaceous shales, metamorphosed, porphyritic, granite and conglomerate rocks, with many mineral-bearing rocks. The district of St. Thomas-in-the-Vale is of granitic formation, overlaid considerably by cretaceous and white limestone and marl beds.

St. Catherine possesses an extensive alluvial flat stretching from Kingston harbour to the boundary of Clarendon; the rest of the parish is of white limestone.

In Upper Clarendon the metamorphosed trappean and conglomerate series prevail; the central districts are of white limestone, and the southern part, with the district of Vere, is alluvium, and embraces an area of about 132 square miles, which is the largest continuous flat in the island. The mineral deposits of upper Clarendon are considerable, and, it is believed, offer a fair field for mining enterprise.

The parishes of Manchester and St. Ann consist almost entirely of white limestone.

COUNTY OF CORNWALL.

The parish of St. Elizabeth has an extensive area of alluvium from the boundary of Manchester to the boundary of Westmoreland, narrowing so considerably at Lacovia that the north and south limestones nearly meet; much of this flat is covered by swamp.

In the north-east of the parish there is also an extensive flat called the Nassau valley. The rest of the parish is white limestone with some patches of yellow limestone.

The parish of Westmoreland also presents extensive alluvial deposits and marl beds. The north-western part of the parish furnishes trappean rocks with yellow and cretaceous limestone. The eastern part is chiefly white limestone with some trap formations at the head of the Great River.

In Trelawny the district called "The Black Grounds" consists of trap formation. The rest of the parish is of white limestone with some alluvial valleys; that called "The Queen of Spain's Valley," on the borders of and extending into the parish of St. James, is remarkable for its picturesque beauty and great fertility.

The interior of St. James presents a trappean formation, with some overlaying yellow and cretaceous limestones. The rest is of white limestone with some alluvial deposits round the coast.

The eastern part of Hanover is chiefly white limestone, and the western part black shale, with some metamorphosed rocks and yellow limestone.*

MOUNTAIN RANGES.

The surface of the island is extremely mountainous and attains considerable altitudes, particularly in the eastern part where the central range is known as the Blue Mountains.

The following table will give a general idea of the area in square miles embraced in the different zones of elevation, above sea level, in the several parishes:—

* For a more complete account of the geology of the island, see Sawkins's "Geology of Jamaica" and "Geology and Physical Geography of Jamaica."

From the above table it will be observed that a great diversity of climate is obtainable. From a tropical temperature of 80° to 86° at the sea coast the thermometer falls to 45° and 50° on the tops of the highest mountains, and with a dryness of atmosphere that renders the climate of the mountains of Jamaica particularly delightful and suitable to the most delicate constitution.

The midland parts of the island are the highest. Through the county of Surrey, and partly through Middlesex, there runs the great central chain which trends generally in an east and west direction, the highest part of which is the Blue Mountain Peak attaining an elevation of 7,360 feet.

From this range subordinate ridges or spurs run northerly to the northside of the island, and southerly to the southside; these ridges in their turn are the parents of other smaller ridges, which branch off in every direction with considerable regularity and method; and they again throw off other ridges, until the whole surface of the country is cut up into a series of ridges, with intervening gullies.

Many of the subordinate ridges vie with the main ridge in importance and elevation; such, for instance, as the great ridge starting from Catherine's Peak, above Newcastle, and passing through the parish of St. Andrew in a south-easterly direction, culminating at great elevations at Newton and Bellevue, and expending itself at Albion in the parish of St. Thomas. Also the ridge known as Queensberry Ridge, starting from the Blue Mountain Peak, passing by Arntully, Belle Clair and Windsor Castle, where it is known as Coward's Ridge, and extending to the sea at Belvedere and Creighton Hall, to the north of which place it forms the conspicuous mountain known as Yallahs Hill, 2,318 feet high. On the northern side of the island three great ridges may be mentioned, one extending from the Blue Mountain Peak through the parish of Portland dividing the waters of the Rio Grande from those of the Swift River, and expending itself at St. Margaret's and Hope Bays. Another starting from Silver Hill, dividing the waters of the Buff Bay and Spanish rivers, and the other very high ridge extending from Fox's Gap at the boundary of St. Mary and Portland, north-easterly, culminating in a conspicuous elevation called Hay Cock Hill, 2,500 feet above the sea, and terminating on the coast near Dover.

The John Crow Mountains, which run in a north-westerly and south-easterly direction in the parishes of Portland and St. Thomas, divide the Rio Grande valley from the eastern coast of the island. They form a plateau of about 2,000 feet elevation rather than a mountain range. In their higher parts they are a barren, waterless tract of limestone formation; much of it covered by the sharp rocks known as honeycombed rocks, over which it is almost impossible to walk. These mountains may be said to be an offshoot from the great central range which, from the depression known as the Cuna Cuna Pass, north of the town of Bath, turns suddenly north and forms itself into this plateau.

The central range suffers a considerable depression at Stony Hill, in the parish of St. Andrew, where the main road to the north side crosses it at an elevation of 1,360 feet. Here the range is divided into two ridges; one of limestone formation, extending westerly through the district known as Mamme Hill, reaches a conspicuous elevation known as Lunan Mountain, at Highgate, in St. Catherine, and expends itself at Bog Walk; the other, which is the continuation of the central dividing ridge, is of granite formation and extends in a north-westerly direction. It passes the district of Lawrence Tavern and Mount Charles, where it commences to form the boundary line between the parishes of St. Mary on the north and St. Catherine on the south-side; continuing north-westerly it passes Pear Tree Grove and turns suddenly to the south-west at Windsor Castle and Decoy, and it then joins the limestone formation at Guy's Hill and Middlesex township, continuing as a well-defined range to Mount Diablo, where the main road crosses it at an elevation of 1,800 feet. It continues on to Holly Mount, a little beyond which it unites with the St. John's range, which forms the eastern boundary of Lluídas Vale.

From this point, although these mountains continue as a separate range, they become irregular and broken, chiefly on account of their limestone character, and with this formation they extend through the parish of St. Ann, expending themselves in the Cockpit country to the east of the district called "The Black Grounds," from the rich black soil in contra-distinction to the red soil, of Manchester, in the parish of Trelawny. To the south of this locality, along the borders of Clarendon and Manchester, the trappean series is again met with and two great inland rivers flow there.

Running in an irregular north-westerly line, almost parallel with the last range of mountains described, is another limestone range which may be said to commence from the western bank of the Rio Minho or Dry River above Lime Savanna, and, forming first the range known as Mocho Mountains, it includes the Whitney valley and joins the Manchester Mountain range at Cumberland. Thence trending north-westerly it

passes through the northern district of Manchester and enters the parish of St. Elizabeth at Hector's River Sink; thence it continues on to Accompong and becomes lost in a peculiarly wild formation of what is usually known as Cockpit Land. In this quarter, and extending for a considerable distance into the parishes of Trelawny and St. James the Cockpit land bids defiance to the traveller.

This formation is of white limestone, sharp, irregular and jagged, with little earth, and formed into a series of circular arenas like inverted cones with extremely irregular sides but preserving the circular formation throughout and terminating in most instances with a sink hole in the apex.

These arenas are of all diameters, from half-a-chain to two and three chains. The ridges or edges where these cones unite are, of course, very irregular and sharp, presenting very steep or vertical rocks of considerable height. Such a country may be said to be almost inaccessible.

The May Day and Carpenter's Mountains pass through the parish of Manchester in a diagonal direction. Commencing at the Round Hill in Vere at the south-east extremity of Manchester, they traverse the parish to its north-western angle, where they join the main ridge near the Hector's River Sink; one off-shoot forming the Nassau mountains of St. Elizabeth.

The Santa Cruz mountains in the parish of St. Elizabeth run parallel with the Manchester mountains. They commence at the sea at the precipice called The Lover's Leap, 1,660 feet high, and terminate near Lacovia, where the passage of the Black River produces a break in the hills. These mountains, as well as those of Manchester, are justly considered to be very salubrious.

Another range of mountains, a continuation of the same line as the Santa Cruz Mountains, commences above Lacovia, to the north, and extends to Mulgrave near the line of St. James, and traverses the parish of St. James in a northerly direction, terminating in the hills south of Montego Bay.

The last and most westerly range of mountains, extending through Westmoreland and Hanover, commences about the locality called Middle Quarters and extends northerly, with some irregularities, to Chesterfield at the head of the Great River, which forms the boundary between St. James and Westmoreland; it then trends north-westerly to Chester Castle and Knockalva, near the boundary of the parishes of Westmoreland and Hanover and then westerly, culminating in a conspicuous hill called Dolphin Head, with an elevation of 1,816 feet, and terminating in several small ridges towards the west end of the island. There is also a coastline in Westmoreland called the Bluefields or Surinam Range commencing at Middle Quarters in St. Elizabeth and extending towards Savanna-la-Mar,

RIVERS AND GENERAL DESCRIPTION.

The numerous rivers and springs which abound along the coast in most parts of the island to a considerable extent justify the name of "The Land of Springs," although there are extensive districts in the midland and western parts of the island singularly barren of water.

When it is remembered that the chief range of mountains, or back-bone of the island runs generally east and west, it will be easily understood that the chief rivers, starting from the northern and southern slopes of this range, would generally run, the ones northerly, the others southerly, to the sea. There are some exceptions to this general rule, the chief of which is the Plantain Garden River in the parish of St. Thomas, which, rising in the Cuna Cuna Mountains, runs southerly in its upper course, but suddenly meeting the coast range of hills turns easterly, and flowing through the fertile district to which it gives its name, empties itself at Holland Bay. Another is the Montego river, which, although it flows northerly in its upper course, turns westerly through the greater part of its flow, discharging at Montego Bay.

There are interior rivers (which have no outlet) which are also exceptions to this general rule, such as the Cave and Hector's rivers.

While most of the rivers have generally either northerly or southerly directions, it must not be forgotten that the subordinate ridges which are nearly at right angles to these lines will produce subordinate streams, meeting the rivers on their eastern and western banks.

In consequence of the great elevations from which most of the rivers flow they are very rapid in their descent, and, in times of flood, become formidable torrents, sweeping everything before them and operating as dangerous obstructions to the traveller. Many of these rivers now, however, have substantial bridges erected across them.

Some of the chief of these are the Plantain Garden river already mentioned, and the Morant and Yallahs in the parish of St. Thomas. The Rio Grande, in the parish of Portland, is one of the finest rivers in the island; it flows from the northern slopes of the Blue Mountains. The Back and Stony rivers, two of its great affluents, furnish not only some of the loftiest and most picturesque waterfalls but the wildest and most romantic scenery in the island.

It was on one of these naturally fortified ridges, nearly surrounded by the Stony River that the notorious Nanny, the renowned Maroon leader, held out against the regular troops about the year 1739.

All the upper part of the parish of Portland remains unsettled to the present time in consequence of the steepness of the country and the want of roads, but there is no other part of the island richer in valuable timbers and other natural productions, and possessing greater advantages for the growth of coffee, cacao and cinchona than this district. The character of the soil and climate is the same as that of the St. Andrew and Port Royal Mountains where the best coffee is produced, but where the coffee fields are fast wearing out.

The other rivers of Portland are the Swift, Spanish and Buff Bay, all possessing the same character as the Rio-Grande.

In St. Andrew there is the Wag Water (corruption of Agua Alta) river, which, rising in the mountains back of Stony Hill, runs through the parishes of St. Andrew and St. Mary, debouching at Annotto Bay. The Hope river rises in the hills around Newcastle and joins the sea at the sixth mile stone from Kingston on the windward road; from this river the city of Kingston and district of Liguanea receive part of their water supply. From the Above Rocks district of St. Andrew flow the sources of the Rio Pedro, a large tributary of the Rio-Cobre, which, with its numerous affluents, traverses the parish of St. Catherine. The gorge known as Bog Walk, through which the Rio-Cobre flows, is remarkable for its picturesque scenery. This river is utilised for irrigating the plains of St. Catherine, and for the motive power for the Kingston electric tramways.

The rivers of St. Mary, besides the Wag Water, are the Dry River, the Annotto, the Port Maria, Oracabessa, Rio Nueva and the White river, which latter forms the boundary between the parishes of St. Mary and St. Ann.

The volume of water in the White river is considerable, and the great cascade above Industry and the fall at Prospect are very grand and form objects of attraction to visitors.

The parish of St. Ann, being chiefly of limestone formation, furnishes no rivers of any consequence in the interior. The sea coast rivers are numerous; the Roaring river and the Llandovery river possess large volumes of water.

The cascades on both these rivers are very beautiful, particularly those of the Roaring River where the main road crosses it. In the yellow lime-stone and granite formation at Guy's Hill the Great River flows and sinks at Middlesex township, rising again at Rio Hoe, where it forms the Moneague Lake; the waters of which disappear in sink holes at Walton.

The Cave and Hector's rivers near the junction of the parishes of Clarendon and Manchester with St. Ann and Trelawny, and, running in opposite directions form the northern and southern boundaries of these parishes respectively.

The Cave river, with its affluent the Yankee river, flows easterly, sinking at Greenock estate; thence it is supposed to have a subterranean course of $13\frac{1}{2}$ miles or more and, rising near Dornock pen with considerable volume, is called Rio Bueno, and, with a course of $6\frac{1}{2}$ miles to the sea, forms the boundary between St. Ann and Trelawny.

Hector's river runs westerly and, after a course of about 12 miles terminates in several sinks in a wild and broken country. This river again makes its appearance at Oxford, in Manchester, where it goes by the name of One Eye river, and, again sinking there, it passes through a ridge to the north of the Bogue Hill and rises in considerable body at Mexico and Island estates, from which point to the sea it is called the Black river. This is certainly the finest river in the island. With a tortuous course of about 44 miles it debouches at Black-river bay near the town of that name. It is navigable for boats of considerable size for a distance of about 25 miles, and is used for conveying the produce of a large district to the sea.

The Black river receives several tributaries of considerable size, which are also partially navigable, such as the Y. S., Broad, Grass and Horse Savanna rivers.

The Rio Minho, or Dry river, rises with numerous tributaries in the Clarendon mountains, and, flowing through the entire length of the parish of Clarendon and district of Vere, discharges near Carlisle Bay.

In consequence of the arenaceous character of the soil the water of this river sinks a little below Longville estate, 16 miles from the sea. The lower part of this river, say from Seven Plantations estate to a little above the Alley in Vere, is, therefore, usually dry, except a considerable spring at Parnassus estate where the water flows for a short distance; the water appearing a little above the Alley flows to the sea. In floods this is a most formidable river and formerly, when "down," (as the expression is) all communication along the south side of the island was cut off, until an iron bridge was erected across the river at May Pen.

The Cock Pit and Salt rivers are short but deep rivers. The Milk river, a very fine river, navigable for some miles, supplies a system of canals for the irrigation of Vere. A considerable quantity of logwood and fruit is shipped from it.

Along the foot of the Manchester mountains considerable water rises and, with short channels, flows to the sea. The largest of these rivers are the Alligator Hole, Swift and Gut rivers.

Trelawny furnishes only one river of importance; this is the Martha Brae river. This river rises at Windsor in the interior of the parish and seems to be the waters of the Quashie and Mouth rivers, as well as many other small streams which are interior rivers that rise and sink in the black grounds. The Martha Brae is a fine river, navigable for some distance up, and discharges to the east of Falmouth.

The Montego river rises in the trap formation near Maroon Town and is there called Tangle river. It sinks and re-appears, and after receiving numerous tributaries, enters the sea south of the town of Montego Bay. The Great river is the boundary of St. James next to Hanover and Westmoreland. It is a long river, but has few tributaries, the Lamb's and Seven rivers being the chief.

The rivers of Hanover are the Flint Maggoty, Lucea (east and west), Lance's, Davis, Cove, Pell and Green Island rivers; none of these are large rivers or demand any special notice.

In Westmoreland the chief river is the Cabaritta. This is also a very fine river and, with its tributaries, the Thicket and Morgan's rivers, waters the alluvial districts of the parish. There are also the Dean's Valley or Sweet river, from which the town of Savanna-la-Mar is supplied with water, New Savanna and Negril rivers.

CAVERNS.

The limestone formation, prevalent in Jamaica, furnishes many caverns and sink holes of great size and grandeur, the chief of which is the beautiful cave at the place

called Cave Hall pen, two miles east of Dry Harbour, near the main road. This cave is of great length and has two branches; the various apartments are designated grottoes, halls, domes and galleries; and the stalactites and stalagmites, formed by the dripping of calcareous water, glittering in the torch light, impart a magical effect to the scene.

The Grand Cave at River Head in St. Thomas-in-the-Vale is a very remarkable place. The Rio Cobre, after sinking at Worthy Park, emerges from this cave. It is of great dimensions and in former years was a favorite resort for picnics; it is traversable, with the assistance of a raft to cross some deep water, for a distance of over a quarter of a mile until the "floodgate" is reached where the water gushes from the rock.

The cave at Mexico, in St. Elizabeth, is probably the longest in the island; it is nearly a mile from the One Eye Gulf to Mexico Gulf (the mouth of the cave). The One Eye or Black river passes through this cave.

It has been explored for some distance in, but, in consequence of some deep bodies of water obstructing the passage, less is known of it than of the cave on the Rio Cobre. A thorough exploration of this cave would be most interesting.

The Peru Cave, also in St. Elizabeth, is very beautiful, and the stalactites and stalagmites here show to great effect. There is also a very fine cave at Mount Plenty in St. Ann, which can be traversed for a distance of ten chains; it has two branches and the vaulted chambers are particularly fine. At some distance from the mouth it is illuminated by a sink hole from the top.

Another very fine cave is that from which the Mouth river flows in the black grounds of the parish of Trelawny. There is also a remarkable cave near this at Spring Garden. The cave at Portland, in Vere, is very fine and used formerly to be a great place for picnics.

There is also a remarkable cave and subterranean river at Epping Forest in the parish of Manchester.

There are numerous other caves of smaller dimensions throughout the island. Sink holes, as already stated, are also very numerous. The Light Hole at Tingley's in St. Ann is a sink hole on a large scale. This is a great arena of vertical rocks some three or four chains in diameter and of considerable depth, with large trees growing at the bottom.

Many of the sink holes and caves throughout the island have springs at the bottom, such as the Governor's Cave at Healthshire; a sink hole near Fort Clarence opposite Port Royal; a cave near Salt River; one at Swansea on Lluidas Vale, &c.

MINERAL SPRINGS.

There are many mineral springs in Jamaica, most of them possessing valuable qualities for the cure of various diseases and infirmities of the body.

Two of these are particularly famed, namely, the hot sulphurous spring at Bath and the warm salt spring at Milk River.

There are public institutions maintained at both these springs for the benefit of those unfortunately requiring relief. The spring at Bath in the parish of St. Thomas has a temperature at the fountain head of 126° to 128° F., but the water loses about 9 degrees of heat in its transit to the bath. These waters are sulphuric and contain a large proportion of hydro-sulphate of lime; they are not purgative and are beneficial in gout, rheumatism, gravelly complaints, cutaneous affections and fevers. It is remarkable that a cold spring flows from the same hill-side, near the hot spring, so that cold and hot water are delivered alongside of each other at the bath. (*See "Bath of St. Thomas-the-Apostle."*)

The bath at Milk River in the district of Vere is one of the most remarkable in the world. It is a warm, saline, purgative bath; the temperature is 92° F. It is particularly efficacious in the cure of gout, rheumatism, paralysis and neuralgia; also in cases of disordered liver and spleen. Some wonderful results are on record, and it is believed that if the beneficial effects of these waters were more generally known in Europe and America a large number of sufferers would be attracted to them. The buildings are extensive; and comfortable accommodation at a moderate charge can be obtained by visitors. (*See "Bath, Milk River."*)

The Spa Spring, or Jamaica Spa, as it is called, at Silver Hill in St. Andrew was formerly maintained as a government institution and extensive buildings once existed there but they have long since gone to decay, and the spring is neglected. These waters are chalybeate, aerated, cold, tonic; beneficial in most cases of debility, particularly after fever, dropsy and stomach complaints.

Another similar spring, but not so strong a chalybeate exists at St. Faith in the district of St. John.

There is also a remarkable spring at Moffat, on the White river, a tributary of the Negro river in the Blue Mountain valley. These waters are sulphuric, cold and purgative, useful in itch and all cutaneous diseases. A similar spring exists near the source of the Cabaritta river in Hanover.

The spring at Windsor, near St. Ann's Bay, was once brought into considerable prominence in consequence of some remarkable cures effected by its use. People from all parts of the island visited it and the water was carried away to great distances. It is still a favourite among the peasantry, and it is said to possess wonderful powers in healing ulcers, &c.

There are warm springs at Garbrand Hall on the east branch of the Morant river, and on the Adam's river, near the Blue Mountain Ridge in the parish of St. Thomas, and on the Guava river in Portland.

The well known spring at New Brighton, in St. Catherine, is the favourite bath of the inhabitants of Spanish Town.

A mineral spring also occurs on the sea edge at Manatee Bay, also in St. Catherine, and one at Rock Fort in the parish of Kingston.

Another possessing some qualities of importance is to be found at Golden Vale in Portland; and there are salt springs near the Ferry on the Kingston and Spanish Town road, and at Salt River in Vere; and in many other localities salt-water springs are found and some impregnated with soda or other alkalies.*

POPULATION AND VITAL STATISTICS.

It may be interesting to notice the gradual increase in the population of Jamaica since the earliest period when there was any authentic record. The first regular census was taken in the year 1844; although there had previously been approximate calculations as to the inhabitants of the island. It was estimated that there were in 1655 prior to the English occupation about 1,500 Spaniards and 1,500 slaves. Long tells us that "in 1658 there were about four thousand five hundred whites and one thousand four hundred negroes." An attempt at numbering the people was made in 1660, when "the relicts of the Army" were put down at about 2,200, and the planters, merchants and others, as probably as many more.

On the 23rd of September, 1670, Sir Thomas Modyford sent to Lord Arlington a "Survey of the Island," by Thomas Tothill, Receiver General.† The estimated population of the whole of the parishes was as follows:—

St. Thoma's Parish	590
St. David's Parish	960
St. Andrew's Parish	1,552
St. Catherine's Parish				
[Without St. Jago	2,370
St. John's Parish	996
Clarendon Parish	1,430
Privateers, Hunters, Sloop and Boatmen			..	2,500
Northside (St. Georges, St. Mary, St. Ann's and St. James)				
and St. Elizabeth	1,500
Towns of Port Royal and St. Jago	3,300
				<hr/> 15,198

In 1673, the inhabitants were thus classified:—

Whites—					
Men	4,050
Women	2,006
Children	1,712
Negroes	9,504
					<hr/> 17,272 a

In 1703 Handasyd gave it:—

White men (soldiers and sailors excepted)	3,500
Negroes and mulatta slaves	45,000
			<hr/> 48,500

In 1720 it was estimated by the Assembly that there were—

Negroes	70,000
---------	----	----	----	--------

In 1734 the population stood thus—

Whites	7,644
Slaves	86,546
				<hr/> 94,190 b

In 1764 the population was 166,454 (146,454 slaves).

In 1775 the free coloured people were for the first time accounted for The population was—

Whites	12,737
Free Coloured	4,093
Slaves	192,787
				<hr/> 209,617 c.

In 1791 (sixteen years after the last date) the population was estimated at—

Whites	30,000
Free Blacks and Coloured people	10,000
Maroons, about	1,400
Slaves	250,000
				<hr/> 291,400 d.

In 1807 there were 319,351 slaves in the island.

At the Emancipation in 1834 the Slaves numbered .. 311,070 and the other portion of the population was computed at—

Free Blacks	5,000
Coloured	40,000
Whites	15,000
				<hr/> 371,070

In 1834 it was estimated by the Commissioner of Emigration that there were—

Emancipated Slaves	311,700
Free Coloured	70,000
White	30,000
				<hr/> 411,700

In June, 1844, the first Census was taken by legally appointed Officers, when it was found that there were in the Island:—

Males	..	181,633	White	..	15,729
Females	..	195,800	Coloured	..	68,576
			Black	..	293,128

d. Parliamentary Returns to the House of Lords, March, 1839.

The total population by the Census of 1861 compared with that of 1844 showed an increase of 63,831 in the 17 years notwithstanding the two visitations of Cholera, one of Scarlatina and one of Smallpox which occurred within that period. "These pestilences carried off between fifty and sixty thousand persons by over one hundred daily, while Cholera desolated." *a*.

During the ten years that followed there was no epidemic or other cause to affect the natural increase of the people and the numbers in 1871 were 64,890 in excess of those of 1861 namely:—

Males	..	246,573	White	..	13,101
Females	..	259,581	Coloured	..	100,346
		<hr/>	Black	..	392,707
		506,154			<hr/>
					506,154

Compared with 1861 there was in 1871 a decrease of 715 white inhabitants, and increase of 19,281 coloured and 46,333 black inhabitants.

The population of Jamaica by the Census taken on the 4th April, 1881, was, 580,804, or 74,680 in excess of the population in 1871. The totals were—

Males	..	282,957	White	..	14,432
Females	..	297,847	Coloured	..	109,946
		<hr/>	Black	..	444,186
		580,804	Coolies	..	11,016
			Chinese	..	99
			Not stated	..	1,125
					<hr/>
					580,804

The population according to the Census of 6th April, 1891, was as follows:—

Males	..	305,948	White	..	14,692
Females	..	333,543	Coloured	..	121,955
		<hr/>	Black	..	488,624
		639,491	East Indian	..	10,116
			Chinese	..	481
			Not stated	..	3,625
					<hr/>
					639,491

These figures show an excess of 58,687 over the population of 1881, and of 133,337 over that of 1871.

The population according to the Census of 3rd April, 1911 was as follows:—

Males	..	397,439	White	..	15,605
Females	..	433,944	Coloured	..	163,201
		<hr/>	Black	..	630,181
		831,383	East Indian	..	17,380
			Chinese	..	2,111
			Not stated	..	2,905
					<hr/>
					831,383

These figures show an increase of 191,892 over the population of 1891 and of 250,579 over that of 1881.

The births registered in the year 1915-16 numbered 30,854, giving a rate of 34.6 per 1,000 of the estimated mean population.

The following shows the annual birth-rates for 1914-15 and 1915-16:—

Year		Annual rate per 1,000 Estimated Mean Population.
1914-15	38.9
1915-16	34.6

The deaths registered in the year ended 31st March, 1916, numbered 19,277, being in the proportion of 21.6 to each 1,000 of mean population.

POLITICAL CONSTITUTION.

THE Political Constitution of Jamaica consists of a Governor, a Privy Council, and a Legislative Council.

"The Governor is appointed during His Majesty's pleasure, but his tenure of office is as a rule confined to a period of six years."

The *Privy Council* consists of the Senior Military Officer in the island, not being below the rank of Lieutenant-Colonel, the Colonial Secretary, the Attorney-General, and such other persons, not to exceed eight in number, as may be named by the Sovereign, or provisionally appointed by the Governor, subject to the approval of His Majesty. The tenure of office of members so named or appointed is limited to five years. The Governor is to consult in all cases with the Privy Councillors, excepting only when the matter to be decided would in his judgment sustain material prejudice by consultation, or be too unimportant to require their advice. The Governor is authorised to act in opposition to the advice and decision of the Privy Council, if in any case it shall appear right to do so, and to report to the Secretary of State for the Colonies the grounds and reasons of his opposition and any member may record on the minutes the nature of the advice or opinion offered and rejected.

The *Legislative Council* is constituted by an Order in Council of Queen Victoria, dated 19th May, 1884, which has been modified by subsequent Orders in Council. At present it consists of the President (The Governor), five ex-officio members and ten nominated, and fourteen elected members.

The Order of the 19th May declared that the Legislative Council should consist of the Governor, the Senior Military Officer for the time being in Command of Her Majesty's Regular Troops in Jamaica, the Colonial Secretary, the Attorney General and the Director of Public Works; not more than five members to be nominated by the Crown, and nine members to be elected by the people. By a subsequent Order in Council dated the 30th January, 1893, the Governor ceased to be a member of the Legislative Council and a President was added to be appointed by the Queen or by the Governor under instructions from Her Majesty. At the same time the Collector General was made an ex-officio member of the Council. On the 29th January, 1894, an Order of the Queen in Council was issued, the effect of which was (1) to replace the Governor as President of the Council; (2) to continue the Collector General an ex-officio Member, and (3) to take away the President's deliberative vote, leaving him a casting vote only. [In the Despatch from the Secretary of State of the 28th May, 1884, which appears on a subsequent page, it was proposed, in order not to place the elected members in a minority, that only two nominated members should be appointed.] The elected members were to represent the following electoral districts—one member for Kingston and St. Andrew; one for St. Thomas and Portland; one for St. Mary and St. Ann; and one each for St. Catherine, Clarendon, Manchester, St. Elizabeth; one for Westmoreland and Hanover; one for St. James and Trelawny.

QUALIFICATIONS OF AN ELECTED MEMBER.

By the 9th section of the Order in Council no person shall be capable of being elected a member of the Council, or, having been elected, shall sit or vote in the Council, who—

(1.) Is the holder of any office of emolument under the Crown, or under the Government of Jamaica; or,

(2.) Is not entitled to vote at the election of a member of the Council for some electoral district; or,

(3.) Does not possess one of the following qualifications, viz.:—

(a.) A clear annual income of 150*l.* arising from lands belonging to him in his own right or in the right of his wife.

(b.) A clear annual income of 200*l.* arising partly from lands belonging to him as aforesaid and partly from any freehold office, or any business, after deducting all charges and expenses of such office or business.

(c.) A clear annual income of 300*l.* arising from any freehold office, or any business, after deducting all charges and expenses of such office or business.

(d.) The payment annually of direct taxes or export duty, or both, to the amount of not less than 10*l.*

A further Order in Council, dated 3rd October, 1895, contained the following provisions:—

3. The Council shall consist of the Governor, as President, the Senior Military Officer for the time being in Command of Her Majesty's regular troops in Jamaica and the persons for the time being lawfully exercising the functions of the respective offices of Colo-

nial Secretary, Attorney General, Director of Public Works and Collector General (herein referred to as ex-officio members), such other persons, not exceeding ten in number, as Her Majesty may from time to time appoint by instructions or warrant or warrants under Her sign manual and signet, or as the Governor, in pursuance of the power hereby vested in him, may from time to time provisionally appoint (herein referred to as Nominated Members), and fourteen persons to be elected as herein-after provided (herein referred to as Elected Members).

4. Whenever the number of Nominated Members shall be less than ten the Governor, may, by an instrument under the Broad Seal of the Island, appoint provisionally one or more person or persons to be a Member or Members of the Council, provided that the number of Nominated Members shall not be thereby raised above ten. Every such appointment may be disallowed or confirmed by Her Majesty through one of Her Principal Secretaries of State, and until so confirmed may be revoked by the Governor by an instrument under the said seal.

6. For the purpose of election of Members to serve in the Council, the Island shall be divided into the following fourteen Electoral Districts, that is to say:—

- | | |
|---------------------------------|----------------------------------|
| 1. The parish of Kingston. | 8. The parish of Clarendon. |
| 2. The parish of St. Andrew. | 9. The parish of Manchester. |
| 3. The parish of St. Thomas. | 10. The parish of St. Elizabeth. |
| 4. The parish of Portland. | 11. The parish of Westmoreland. |
| 5. The parish of St. Mary. | 12. The parish of Hanover. |
| 6. The parish of St. Ann. | 13. The parish of St. James. |
| 7. The parish of St. Catherine. | 14. The parish of Trelawny. |

One member shall be elected for each of the said districts.

10. No person shall be capable of being elected a Member of the Legislative Council of Jamaica for any electoral District, or having been elected shall sit or vote in the Council, unless he either has resided in that Electoral District for twelve months immediately preceding the day of election, or possesses a clear annual income of 150*l.* arising from lands in that district belonging to him in his own right or the right of his wife.

The 14th section of the original Order of 19th May, 1884, provided for the property qualification of voters as follows:—

QUALIFICATION OF VOTERS.

14. Every male person shall be entitled to be registered in any year as a voter, and when registered to vote at the election of a member of the Council for any of the said electoral districts, who is qualified as follows, that is to say:—

- (1.) Has attained the age of twenty-one years.
- (2.) Is under no legal incapacity.
- (3.) Is a British subject by birth or naturalization.
- (4.) Either—

(a.) is on the 30th day of June in such year, and has during the whole of the preceding twelve calendar months, been an occupier as owner or tenant of a dwelling house within such district; and has during the time of such occupation, been rated in respect of such premises so occupied by him to all poor rates made in respect of such premises, and has, during the said period of twelve calendar months, paid in respect of the same premises alone or in respect of the same premises together with other taxable property owned by him, public or parochial taxes or rates, or taxes and rates, to the amount of not less than one pound; or,

(b.) is on the 30th day of June in such year possessed of property in respect of which he has during the preceding twelve calendar months paid, within such district, public or parochial taxes or rates, or taxes and rates, to the amount of not less than one pound and ten shillings; provided—

(1.) That no person shall be registered as a voter, or be entitled to vote for the election of a member of the Council who has been sentenced by any Court in Her Majesty's Dominions to death, or penal servitude, or imprisonment with hard labour, or for a term exceeding twelve months, and has not either suffered the punishment to which he was sentenced, or such other punishment as by competent authority may have been substituted for the same or received a free pardon from Her Majesty.

(2.) That no person shall be registered as a voter in any year who has within twelve calendar months immediately preceding the 30th day of June in that year received any relief from public or parochial funds.

- (3.) That after the year 1884 no person not then already registered as a voter shall be so registered unless he shall, in the presence of the Registering Officer or of a Magistrate, with his own hand subscribe his name to his claim to be registered, and write thereon the date of such subscription.

The 41st and 42nd sections of the Order in Council declared in regard to proceedings in the Legislative Council that "the Governor, if present, or in his absence any member of the Council appointed by him in writing, shall preside and be possessed of an original vote, and also of a casting vote, if the votes be equally divided." The 43rd and 44th sections of the Order thus regulated the votes of the official and the elected members:—

43. The votes of the *ex officio* and nominated members of the Council shall not be recorded in support of any law, vote, or resolution imposing any new tax, or appropriating any public revenue for any purpose other than the payment of the salary or allowances of any public officer in respect of an office to which he was appointed before the date of this Order, or of the pension or gratuity payable in accordance with the rules in force at the date of this Order affecting pensions and gratuities to any person in respect of an office to which he was appointed before the date of this Order, if not less than six (now nine under Order in Council of 3rd October, 1895) elected members shall have voted against such law, vote or resolution, unless the Governor shall have declared his opinion that the passing of such law, vote or resolution is of paramount importance to the public interest.

44. The votes of the *ex-officio* and nominated members shall not be recorded against the unanimous votes of all the nine (now fourteen under Order of 3rd October, 1895) elected members on any question unless the Governor shall have declared his opinion that the decision of such question in a sense contrary to the votes of the elected members is of paramount importance to the public interest.

Six members, besides the Governor or Presiding Member, were appointed a quorum; and it was declared that "the Council shall not be disqualified for the transaction of business by reason of any vacancy or vacancies among the *ex-officio* or elected members."

In the transaction of business and the passing of laws the Council was required to conform to the instructions from Her Majesty bearing date the 4th June, 1877; but these were superseded by the Royal Instructions dated the 29th July, 1887. By these latter Instructions any member of the Council may propose any question for debate. The Governor is not to assent to any bill of any of the classes hereinafter specified unless such bill shall contain a suspension clause, "or unless the Governor shall have satisfied himself that an urgent necessity exists requiring that such bill be brought into immediate operation, in which case he is authorized to assent to such bill, unless the same shall be repugnant to the law of England or inconsistent with any obligations imposed upon Her Majesty by treaty:—

1. Any bill for the divorce of persons joined together in holy matrimony;
2. Any bill whereby any grant of land or money, or other donation, or gratuity, may be made to himself;
3. Any bill whereby any increase or diminution may be made in the number, salary or allowances of the public officers;
4. Any bill affecting the currency of Jamaica or relating to the issue of bank notes;
5. Any bill establishing any banking association, or amending or altering the constitution, powers or privileges of any banking association;
6. Any bill imposing differential duties;
7. Any bill the provisions of which shall appear inconsistent with obligations imposed upon Her Majesty by treaty;
8. Any bill interfering with the discipline or control of Her Majesty's Forces in the island by land and sea;
9. Any bill of an extraordinary nature and importance whereby the Queen's prerogative, or the rights or property of her subjects not residing in the island, or the trade, or shipping of the United Kingdom and its dependencies, may be prejudiced;
10. Any bill whereby persons not of European birth or descent may be subjected or made liable to any disabilities or restrictions to which persons of European birth or descent are not also subjected or made liable;
11. Any bill containing provisions to which Her Majesty's assent has been once refused, or which have been disallowed by Her Majesty.

No private bill is to be passed whereby the property of any private person may be affected in which there is not the saving of the rights of Her Majesty, her heirs and such ~~cessors~~, and of all bodies politic and corporate, and of all other persons except such as

are mentioned in the said bill and those claiming by, from, through, and under them. The Governor is not to assent to any such private bill until proof has been made before him in Privy Council and entered in the Privy Council books that adequate and timely notification was made by public advertisement, or otherwise, of the parties' intention to apply for such bill before it was brought into the Legislative Council; and a certificate must be annexed to every private bill signifying that such notification has been given and declaring the manner of giving the same. The laws are to be styled "Laws enacted by the Governor and Legislative Council of Jamaica."

PRESENT QUALIFICATION OF VOTERS.

The first registration of voters under the Order in Council of 19th May, 1884 took place in the month of July, 1884, and the Courts for the revision and final settlement of the lists of Voters were held in the succeeding month of August. The revised lists showed that there was one elector to every 62 persons in the island.

Since then important changes have been made in the qualifications of electors.

Law 52 of 1908 consolidates previous Laws and was further amended by Sec. 2 of Law 28 of 1909.

The qualifications are now as follows:—

Every male person shall be entitled to be registered in any year as a voter for a division of a parish who is qualified as follows, that is to say:—

- (1.) Has attained the age of twenty-one years.
- (2.) Is under no legal incapacity.
- (3.) Is a British subject by birth or naturalization.
- (4.) Either—
 - (a.) is on the 31st day of January in such year, and has since the 1st day of April then preceding, been an occupier as owner, or tenant of a dwelling house, or in possession of real property within such parish capable of being, during such occupation or possession, rated in respect of the parish general rates, and has during the said period paid taxes to the amount of not less than ten shillings,
 - (b.) is on the 31st day of January in such year possessed of personal property in respect of which he has, since the preceding first day of April, paid within such parish taxes to the amount of not less than one pound and ten shillings, and ordinarily resides within such division of such parish, or
 - (c.) possesses a salary qualification, that is to say, is in the parish in which he claims to be registered as a voter in the receipt of salary or wages aggregating fifty pounds a year or upwards; or
 - (d.) possesses an income qualification, that is to say, is in the parish in which he claims to be registered as a voter, tenant of a dwelling house or part of a dwelling house or of a tenement or part thereof in which he carries on his business or practices his profession and in respect of which he pays rent amounting to not less than ten pounds during the year and is in receipt of an income amounting to fifty pounds a year and upwards.

Provided—

- (1.) That no person shall be registered as a voter who has been sentenced by any Court in His Majesty's Dominions to death, or penal servitude, or imprisonment with hard labour, or for a term exceeding twelve months, and has not either suffered the punishment to which he was sentenced, or such other punishment as by competent authority may have been substituted for the same, or received a free pardon from His Majesty;
- (2.) That no person shall be registered as a voter in any year who has, since the preceding first day of August, received any relief from public or parochial funds.

The first registration under Law 22 of 1886 was in August, 1887. The revised lists showed that there was one elector to every 25 persons in the island.

At the General Election, January, 1896, there were 38,376 registered voters. The *estimated* population on 31st March, 1896, was 694,865.

At the General Election, January, 1901, there were 16,256 registered voters. The Registrar General's *estimate* of population on 31st March, 1901, was 755,730.

The number of registered voters on the lists of 1905-06 was 8,607.

The Registrar General *estimated* the total population on 31st March, 1906 at 820,437.

The *estimated* population in 1910 on 31st March, was 862,422.

The following table shows the number of voters on the Electoral Lists in force on the occasion of the General Election in January, 1906, and that of 1911. The population as ascertained at the last census (1911) is also given:—

APPENDIX A.

The following is the Despatch from the Secretary of State forwarding the Order in Council of 19th May, 1884,* and explaining its provisions:—

(*Despatch from the Right Honourable the Secretary of State for the Colonies.*)

Jamaica—No. 161.

Downing Street, 28th May, 1884.

SIR,—I have the honour to transmit to you, herewith, an Order of Her Majesty in Council reconstituting the Legislative Council of Jamaica in the manner indicated by my Despatch No. 285 of the 1st December last.†

2. The new Council will consist of the Governor and four other *ex-officio* members, viz., the three officers who are *ex-officio* members of the existing Council and the Director of Public Works; not more than five members to be nominated by the Crown or provisionally by the Governor, and nine elected members.

3. Following a suggestion made by you, and in furtherance of the policy enunciated in my Despatch of the 1st of December, Her Majesty's Government have thought it advisable that the number of nominated members should not be fixed by the Order in Council; the Legislative Council can therefore be in the first instance so constituted as not to place the elected members in a minority, while the power is reserved to Her Majesty or Her Representative of securing in case of necessity a control over its decisions by raising the number of nominated members to the prescribed maximum.

4. It is proposed that in the first instance only two nominated members should be appointed, and I have to request that you will furnish me with the names of two gentlemen whom you would recommend for that purpose. You will, however, clearly understand that in the case, which I trust is not likely to happen, of your considering it really necessary to add to the number within the prescribed limits by provisional appointments under the fifth clause of the Order you have full authority for doing so.

* For Order in Council see Handbook of '84-85, page 485.

† For Despatch see Handbook of '84-85, page 71.

5. The seats of the nominated members will be vacated by a dissolution but they may be re-appointed.

6. Public officers hereafter appointed will hold their offices on condition of serving as nominated members of the Council if so required.

7. Provision is made for the suspension by the Governor (subject to disallowance by the Queen) of nominated members, and for provisionally supplying the places of nominated members suspended or incapacitated or absent from the colony.

8. In prescribing the property qualifications for a seat in the Council as an elected member Her Majesty's Government, with your concurrence, have adopted those which were required for a seat in the former Legislative Assembly, and the holders of offices of emolument under the Crown or the Colonial Government are declared ineligible.

9. In my Despatch of the 1st of December it was suggested that each of the three counties of Jamaica should return three members of the Council. The Commissioners, however, whom you appointed to report on the franchise, expressed the opinion that the adoption of the counties as electoral districts would give undue predominance in the representation to the inhabitants of the larger towns. After receiving a further report on the subject from five of the Commissioners, and separate reports from another of them, and from the gentleman who was Secretary to the Commission, all of which you have transmitted to me, and after deliberating on the question with the Privy Council, you decided to recommend the division of the island into nine electoral districts, each returning one member and consisting of one or two parishes.

10. On full consideration of the matter I have arrived at the conclusion that the scheme of electoral districts which you have proposed is calculated to secure the fairest representation of all interests, and it has been adopted in the Order in Council.

11. Upon the important question of the Franchise I have had no hesitation in adopting the property qualifications and the grounds of disqualifications unanimously recommended by the Royal Commissioners and by you. The majority of the Commissioners further recommend that ability to read and write should be made a necessary condition for the exercise of the Franchise. Of the minority of three who dissented from that recommendation two proposed that the requirements of an educational qualification should be deferred for a stated period, while the third, Mr. Stiebel, in a separate report stated with much force and ability his objections to an educational test which would exclude a considerable number of negro and coloured inhabitants, who are in other respects well fitted to be entrusted with votes, but who from no fault of their own have not received any education.

12. I learn from your Despatch No. 75 of the 23rd of February that in your opinion, and in that of the great majority of persons whose views you have been able to ascertain, the imposition of an educational test is desirable, but that it would be unjust and inexpedient to apply that test to the persons referred to in Mr. Stiebel's report, and you therefore recommend that on the first registration of voters, the condition of being able to read and write should be dispensed with, but that it should be imposed in future years on all persons seeking to be registered for the first time. This proposal appears to me to afford the best solution of the question, and the Order in Council accordingly provides that after the present year no one shall be registered as a voter for the first time without signing his name to the claim and adding the date of signature in the presence of the Registering Officer or of a Magistrate.

13. The Order provides that the voting at election of members of the Council shall be by ballot and that a Judge of the Supreme Court shall be the tribunal for determining questions of disputed elections, and it contains provisions adopted from the English Statute Law for the prevention of bribery, treating, undue influence, personation, interference with the secrecy of voting and other election offences. It leaves the necessary regulations in matters of detail relating to registration and election, for the framing of which local knowledge and experience are essential to be supplied by the Governor's Proclamation in the first instance, and afterwards by colonial legislation.

14. The 43rd and 44th clauses of the Order give effect to the views of Her Majesty's Government expressed in the 5th and 6th paragraphs of my despatch of the 1st of December last, by securing that with a reservation for protecting vested interests votes of two-thirds of the elected members shall govern the decision of the Council on financial questions, and that the unanimous opinion of the elected members on other questions shall not be overruled, unless in either case the Governor declares that in his opinion a contrary decision is of paramount importance to the public interest. Whenever the Governor makes such a declaration he is required to report it with his reason to the Secretary of State. I trust it will be rarely or never necessary for the Governor to exercise

the power of over-riding the votes of the elected members, but it must be clearly understood that it is his duty to do so if in his opinion the public interest absolutely requires it. Six members are to be a quorum, and neither the existence of vacancies among the *ex-officio* or elected members, nor the non-attendance of elected members, will affect the proceedings of the Council, if the Governor thinks it necessary to proceed with the despatch of business with the prescribed quorum. The duration of the Council is limited to five years, but the Governor is empowered to dissolve it at any time.

15. A moderate civil list comprising the salaries of the Governor and his Private Secretary and some of the principal officers in the civil service of the colony is reserved by the Order.

16. The Governor is required to reserve for the signification of Her Majesty's pleasure bills which repeal, alter or amend, or are inconsistent with any provision of the Order, and power is reserved to Her Majesty, by Order in Council, to revoke, alter, or amend the Order.

17. Having now noticed the principal provisions of the Order in Council it only remains for me to request you to issue the necessary Proclamations under the 25th and 53rd clauses so as to enable the first election of members to be held at the earliest practicable date.

I have, &c.,

(Signed)

DERBY.

Governor Sir Henry Norman, K.C.B., C.I.E., &c., &c., &c.

COLONIAL SECRETARY'S OFFICE.

[*The Colonial Secretary's Office is at Headquarters House, Duke Street, Kingston.*]

As a consequence of the change in the Constitution of the Island in 1865 one of the first steps taken was the reconstruction of the administrative system, in conformity with the form of government to be brought into operation.

By an Order of the Queen in Council, dated 11th June, 1866, the offices of Colonial Secretary and of Financial Secretary were created and the duties up to that time exercised by the Executive Committee, together with those previously performed by the Governor's Secretary and new duties arising out of the altered form of administration, devolved upon these officers, who were each assigned, by Law 3 of 1866, a salary of £1,500.

The office of Revenue Commissioner was also created by Law 8 of 1866, the performance of the duties thereof, which were in the nature of a direct supervision of the Revenue Department, being required of the Financial Secretary.

As in 1870 the finances of the colony had been satisfactorily re-organized, and a complete reconstruction of the Revenue Departments had been secured, whereby the necessity for the special services of a Financial Secretary no longer existed, the opportunity was taken on the occurrence of a vacancy in the office of Colonial Secretary to abolish the office of Financial Secretary and to transfer its duties to the Colonial Secretary, whose salary was then fixed, upon special grounds, at £2,000 per annum, £1,500 being fixed as the stipend of any future holder of the office. This change was effected by Law 7 of 1870, and provision was at the same time made for the appointment of an Assistant Colonial Secretary. The staff of the two Secretariats was then united. On the occurrence of a vacancy in 1883 in the office of Colonial Secretary by the resignation of Mr. Newton, Mr. Walker was appointed to the office at the reduced salary of £1,300 a year, and, as the result of the Report of the Royal Commissioners, the salaries of the offices of Assistant Colonial Secretary and of Chief Clerk were in 1884 reduced to £700 and £500 a year, respectively, and in December, 1897, the Governor appointed Mr. Cork Assistant Colonial Secretary, at a salary of £600, rising to £700. In August, 1898, owing to the need for economy, the office of Chief Clerk was abolished. The late Mr. H. C. Bourne was in 1904 appointed Colonial Secretary at the reduced salary of £1,200 per annum. On Mr. T. L. Roxburgh's appointment as Assistant Colonial Secretary the salary of that office was reduced to £600. Mr. R. Johnstone was appointed in December, 1906 to succeed Mr. Roxburgh at the same salary but since 1st April, 1912, the salary of the Assistant Colonial Secretary has been restored to the former rate of £600 rising to £700.

From the 28th December, 1914, Major (now Lt.-Col.) Bryan has been on leave of absence from the Island for Military Service during the period of the Great War and Mr. Johnstone is acting as Colonial Secretary in his place during such period.

Similarly four other members of the staff of the office have been given leave for the same purpose, one of whom (M. L. Wortley) has been killed in action and other three are shown below.

PUBLIC WORKS DEPARTMENT.

[Head Office, Port Royal St., Kingston.]

MAIN ROADS AND BRIDGES.

AMONG the first of the statutes that were passed after the English conquest of Jamaica was "An Act for the High-ways" (1681). These highways were kept in repair at the expense of the respective parishes through which they ran, but as the progressive spirit of the new settlers induced them to go further inland in search of land "to plant," the parochial funds became insufficient and had to be supplemented by annual grants from the Legislature and tollage on the great highways. This system continued until the year 1836 when the Justices and Vestry of each parish were entrusted with the power of raising money at their discretion for repairing roads other than roads laid out and maintained under turnpike trusts. But this arrangement was not satisfactory and a Committee of the House of Assembly reported in 1843 against its continuance. Their report was not agreed to and the annual grants were continued, the amount for each parish being made payable to the members of Assembly of such parish. The result was that, notwithstanding the large sums voted, the roads were, to quote Phillippo's "Jamaica, its past and present state," "a disgrace to a civilized community and militated considerably against the agricultural prosperity of the country. Even the lines of communication between the principal towns were very little better than river courses which placed the life of every traveller in jeopardy: deaths from this cause indeed were of frequent occurrence."

In 1851 the Legislature, with the hope of permanently improving the highways, passed a law repealing all former road laws and settling a new system for the management of these roads. The system comprised a Board of Commissioners of Highways and Bridges in each parish. To this Board was entrusted the exclusive care of all roads and bridges not being turnpikes. This system of road supervision continued until 1857, but without any appreciable benefit to the highways. In the latter year "it was thought advisable, with a view to facilitate the means of communication between the several parts of the island," to transfer the most important sections of roads (including the turnpike roads) to the care of a body styled the Main Road Commissioners, and to provide for the appointment of County Engineers. To carry out this new system a main road fund was constituted, to which the land-tax and the land-tax redemption and all tolls and special grants for road purposes were transferred. Besides these sources of revenue loans were authorised, for the interest and eventual re-payment of which the general revenue was made liable.

In 1859 a loan of £56,000 was raised, but a much larger sum was required to effect a solid reconstruction of the roads and to provide for the bridging of more than one rapid and dangerous river. Other loans were accordingly raised and the work of reconstruction was proceeded with. The whole scheme, however, soon failed.

The law granting the power to redeem the land-tax was repealed in the session of 1862, and the toll bars which had become a fruitful source of discontent—in some parishes leading to open riot—were abolished in October, 1863. Consequently, when the Main Road Commissioners ceased to exist (on the change in the form of government) and their functions were transferred to the Director of Roads, the main road fund was hopelessly insolvent and the roads were but tolerably good. The Government had to assume the entire debt, which at the time that this was finally effected (1870) amounted to £133,045—£100,350 being for loans and £32,695 for overdrafts from the Treasury.

From that time until 1890, the expenditure on main roads was defrayed from the General Revenue of the Island with the exception of a few cases in which roads and bridges were constructed by grants from the Parochial Road Revenue Fund and afterwards taken over and maintained as main roads. A number of bridges were erected during this period.

The most important of these bridges is that over the Dry River, at May Pen which was completed in the year 1874. The necessity for this structure had long been felt. The river had been known to rise as high as 37 feet above the bed within a few hours. The bridge

consists of three spans, the centre span being 150 feet in the clear and the two outer ones 75 feet each, the underside of the girders is 46 feet above the bed of the river, that is, nine feet above the highest known level of the flood water. The cost of this structure was £16,901, exclusive of the cost of land and of approaches. This was subsequently used as a Railway bridge as well as a Highway bridge.

By Law 7 of 1881, power was given to raise a loan for building Bridges over the Yallahs and Morant or Johnson Rivers in St. Thomas, and the Rio Grande, Buff Bay, Spanish and Swift Rivers in Portland, but this power remained for several years in abeyance. By Law 33 of 1887 power was given to apply a portion of the above-mentioned loan to the building of Bridges over Roach's Gully, the Devil's River, and Harbour Head River in St. Thomas. Priestman's River, and White River in Portland and the Dry River and Pencar River in St. Mary. In 1888, Sir Henry Norman, with the approval of the Secretary of State, ordered the construction of all the Bridges in Portland and St. Mary named in the above Laws, and of the Bridges in St. Thomas named in Law 33 of 1887. The works were begun in the Spring of 1889, and the several Bridges were completed and opened to the public during 1890-91.

All these bridges have wrought iron superstructures, and, with the exception of the Harbour Head Bridge, which is carried on screw piles, all are supported on concrete piers and abutments. The bridges over the seven rivers between Annotto Bay and Port Antonio are all of one type, differing only in the number of openings which are all of 76 feet clear span.

The Rio Grande Bridge was the last of these bridges completed, and is one of the largest in the island, being 520 feet long, and having six openings. The easternmost pier is founded at a depth of 33 feet below low water and has a total height of 48 feet. Its completion was a source of satisfaction to the inhabitants of the parish, who had suffered greatly by the frequent interruptions of communication caused by floods in these dangerous rivers.

It was ultimately found inadvisable to carry out the erection of the bridges over the Yallahs and Morant Rivers in the manner contemplated at the time of the passing of Law 7 of 1881, and Law 1 of 1891 was then passed, under the powers of which a new main road was constructed from the 11th mile post on the Windward Road by Cambridge Hill, Ramble, Cedar Valley and Trinity Ville to Morant Bay on the line of which the following bridges were erected, viz., at Easington, Ramble, Negro River, Allan Spring, Palmetto Gully, York River, Sandy Gully and Johnson's River. On the completion of this road, an extension from the point where it crossed the Johnson's River Bridge to the town of Bath, and a branch road from where the interior road crossed the Negro River Bridge through Belvedere, to join the coast road on the western side of the Johnson's River were constructed under authority of Law 7 of 1894.

The loans for the system of roads and bridges authorized by these four laws above-mentioned amounted to £120,000, the principal and interest being made a charge against General Revenue.

The rapid growth of the cultivation and export of fruit and the consequent call for improved means of communication induced Sir Henry Blake to provide for the transfer of a considerable mileage of the more important Parochial Roads to the category of Main Roads, and for improved maintenance of the remainder by the consequent relief given to the road funds of the several parishes by the passing of Law 17 of 1890. Under this Law certain taxes were appropriated for providing interest and sinking fund on a loan of £140,000 to be expended in reconstructing the roads so taken over as Main Roads, and also an annuity equal to about £20 per mile per annum for their maintenance. In the succeeding three years an aggregate length of 981 miles were thus added to the schedule of Main Roads. The revenue raised by the appropriated taxes fell off very appreciably in the years 1896-97, and at the same time the average allowance of £20 per mile proved inadequate for the maintenance of the roads. Law 4 of 1898 was therefore passed providing for the maintenance of all the Main Roads from General Revenue and for the merging therein of the net revenue from the appropriated taxes after paying interest and

sinking fund on the loan. [*For a list of some of the principal roads so taken over see Handbooks prior to 1909.*]

By Law 20 of 1892 a Loan of £100,000 was authorized to be raised chargeable against General Revenue for the erection of bridges over the rivers, on the most important roads of the island, and under the provisions of this Law many bridges were erected. [*For a list see Handbooks prior to 1909.*]

By Law 13 of 1895 authority was given for a loan to be raised for the construction of Mountain Roads in St. Andrew, St. Thomas and Portland, and a new driving road was made from the Cooperage near Gordon Town, via New Castle and over Hardware Gap to Buff Bay in Portland, with a branch to Silver Hill Gap. Surveys were also made of the road from Gordon Town via Guava Ridge to Windsor Forrest, and from Bath via the Cuna Cuna Mountains to the line of Portland, near Moore Town. During the period of the relief works following the hurricane of 1903, the construction of this road was somewhat advanced, and it was completed as far as Mavis Bank in 1908.

In addition to the work under Loan Laws many bridges and roads were constructed and improved by funds provided by General Revenue during the last 24 years.

In the year 1911, in order to facilitate a growing traffic, it was considered advisable and feasible to construct a driving bridge further down the Johnson River and a short distance above the old Main Road fording near Morant Bay. This Bridge was constructed of reinforced concrete piles, with a superstructure of steel beams and concrete floor, having 16 spans of 50 feet each, giving a total length of 800 feet, being the longest in the Island. The total cost including road approaches amounted to £6,450. It was opened in the early part of 1912 by H. E. Sir Sydney Olivier and it is known as the Olivier bridge.

Many other bridges of less magnitude have been built on all important roads including a ferro-concrete spandril arch bridge at Tucker's river, St. Mary, 50 feet span, and Chepstow Bridge over the Spanish river, in Portland of 80 ft. span—as well as many smaller ones.

It became necessary in 1914, owing to the continued filling up of the bed of the Yallahs River at Ramble to replace the old bridge by a new structure 220 feet in length and of similar construction to the Olivier bridge, at a more favourable site just above the junction of the Shooting River.

The main roads have in many places been widened and improved and there are now 2,213 miles open for traffic, which include about 160 miles of Parochial roads taken over as compensation for rebate on the tax on donkeys.

The average cost per mile for ordinary maintenance, excluding flood damages, for the financial year ended 31st March, 1915, was £33 17s. 0d.

PUBLIC BUILDINGS.

On the inauguration of the new Constitution in 1866, the Director of Roads also assumed the charge and supervision of the Public Buildings. But no new permanent buildings were taken in hand until the year 1870. Since then various buildings have been erected by the department for the accommodation of the public service in different parts of the island, including court houses, police stations, public hospitals, industrial and other schools, residences for inspectors of police, &c.

Other public buildings have been enlarged and improved.

The new public buildings are situated on the east and west sides of King Street between Barry Street and Tower Street in the City of Kingston.

They form part of a general scheme for the rehousing of the Government offices, the remainder of the scheme includes laying out the land (purchased by the Government after the Earthquake) which lies as a square between Peter's Lane on the west, and Church Street on the east; Barry Street on the north and Tower Street on the south.

The two blocks of buildings are laid out so as to leave a strip of grass and trees about 71 feet wide and 187 feet long on either side of King Street, at the north end both blocks

are wider and approach to within 61 feet of the centre line of King Street, so that even here the open space is 122 feet wide. This narrower portion is 124 feet long (N. and S.). The following is the general arrangement:—

ARRANGEMENT OF DEPARTMENTS.

Western Block.

The Post Office Department.

On ground floor—

Circulation Branch. With access for the public to the following:— Stamp selling department, Registered letters, Post Restante, Newspapers, Telegraphs, Parcels post, Money Orders and P. O. Orders and enquiry office; and also the private letter boxes (and call bell for urgent telegrams at night; the latter is situated in Peter's Lane on N. W. side of building).

1st floor—

Telegraph operators, &c. Postmaster's private office. Post Office Correspondence and accounting branches, and Electrical Inspector's Office.

On top floor—

G. P. O. Archives. Resident Telegraphist's quarters. Caretaker's quarters.

In Financial Offices.

Ground Floor—

Surveyor of Customs; Stamp Office; Treasury and Collector General's Vaults.

1st floor—

Treasury; Savings Bank; Collector of Taxes and Loan Board.; Collector of Customs.

1st floor—

Supreme Court and Registry; Attorney General's Office; Law Library; Kingston Court and Offices.

Top floor—

Director of Education; Board of Education; Surveyor General; Registrar of Titles.

The two blocks of buildings are of similar design and are constructed throughout of re-inforced concrete on the coignet system. The architectural work was done by Messrs. Nicholson & Corlette, of London.

Work was begun on the western block in November, 1908, and the building was taken over from the contractor, in April, 1910. The total cost exclusive of furniture and fittings was about £31,000.

The second block on the east side of King Street, was completed in November, 1912.

OTHER WORKS.

Among the other important works carried out by the Department are the establishment of the extensive Irrigation Works in connection with the Rio Cobre; the construction of the Vere Irrigation Works; the erection of the Post Office Telegraph lines; the erection of a large and convenient Market in Kingston, with public landing places on the harbour; the enclosing and laying out of the Square as a Public Garden; the erection of Gas Works in Kingston; the purchase of the rights of the Kingston Water Company and the improvement of the Works, whereby Kingston has been given a constant water service which is excelled in few places either for quality, quantity or pressure; the erection of Slaughter Houses for Kingston; and the establishment and working of a system of water supply for Spanish Town, Old Harbour, Morant Bay, Port Antonio, Port Maria, St. Ann's Bay and Montego Bay; improvement to that at Falmouth and the erection of a concrete dam 45 feet in height at Port Antonio to form a large impounding reservoir.

THE JAMAICA GOVERNMENT RAILWAY.

[Kingston Terminus: Barry Street.]

THE Jamaica Railway, under a private Company, was opened for traffic in 1845 to Angels Station—a distance of 14 miles 5 furlongs. In 1869 an extension from Spanish Town to Old Harbour was opened—a distance of eleven miles. In 1879 the Jamaica Railway Company was bought out by the Government of the island for the sum of £93,932, which at the time of the sale represented a capital expenditure of upwards of £267,000. The extension to Porus, 24½ miles from Old Harbour, was opened for traffic in 1885, and that from Angels to Ewarton, 14½ miles, later in the same year.

The Government sold the Railway in 1890 to an American syndicate, for £800,000,

under covenants for the extension of the line to Montego Bay and Port Antonio. In 1894 the extension to Montego Bay was completed—66 miles. In 1896 the extension to Port Antonio was opened—54½ miles.

Under the powers reserved to the Government by the conditions of the agreement for the sale, the line was forfeited to the Government for default in payment of interest on the mortgage Bonds on which the capital was raised, and in 1900 the Supreme Court signed the order vesting the Jamaica Railway in the Government of the Island. It has since been administered as a department of the Government.

In 1913 an extension of 13 miles of line from May Pen to Chapelton up the Rio Minho Valley was opened for traffic, making the total length of line 197½ miles.

CROWN LANDS DEPARTMENT.

[Office: Public Buildings, King St., (East Block) Kingston.]

SHORTLY after the commencement of Sir John Grant's administration a Survey and Lands Division of the Public Works Department was established and the Director of Roads was constituted its head. The officer in charge of the division was styled the Government Surveyor.

On the 1st October, 1890, the Survey Branch was organised as a separate service, and the Government Surveyor was appointed head of the Department under the designation of Surveyor General.

Government lands have now all been classified, their histories and titles (most of which were previously unknown) inquired into and surveys made and possession taken, in cases where, formerly, the lands had been either unpossessed or in adverse possession. In addition, the titles to lands held by trustees for certain Government purposes and those strictly parochial have been enquired into and verified, and the lands have been surveyed and placed upon stable and certain tenure, and those not required for Government purposes have been leased at fair rentals.

There were also at the time of the establishment of the Lands Department numerous properties all over the island in the possession of squatters, and there were vast tracts on which ordinary quit rents had not been paid for many years. Much of this land was either unowned or unrepresented.

By successive acts from 1867 to 1887 the Government became the trustees of all lands in the possession of persons without any legal or equitable title. The owners may recover the lands upon payment of the expenses incurred by the Government, but after seven

years the Government have the power to sell. In this way 27,073 acres have been recovered from 1,600 squatters. These lands are situated in various parts of the island and consist chiefly of abandoned estates and plantations, whose owners were either not known or who had so neglected their properties that they fell into the hands of squatters. Of this land much has been restored to its legitimate owners, much has been sold after the expiration of the seven years' trusteeship, and the remainder is still in the possession of the Government and leased to various persons. The rents from these lands and other amounted to £3,190 12s. 9d. for the financial year 1915-16.

Law 5 of 1871, and its amendments up to 1896, regulate the forfeiture of lands for non-payment of quit rents. Under these Laws the particulars of no less than 962,803 acres have been investigated, the areas and boundaries ascertained, and the lands advertised as liable to forfeiture. Of this nearly 253,463 acres have been actually forfeited to the Crown; the quit rents on a great deal of the rest have been paid and much remains in process of forfeiture. These forfeited lands are located chiefly in the interior of the island and much of it is very advantageously situated and suitable for new settlements. A large part of it extends over the north-eastern portion of the parish of Portland and the central parts of Trelawny and St. Ann. All these regions consist of virgin lands and much is well watered with numerous springs, possessing a most salubrious climate, ranging from 2,000 to 6,000 feet in height, and embracing some of the finest coffee lands in the island. The geological formation is chiefly of white limestone series.

On the 16th November, 1895, a scheme for the sale of Crown Lands to small settlers was brought into operation. Under this scheme not less than 5 acres nor more than 50 can be sold to any one person. A deposit of one-fifth of the purchase money for the land required must be made by the applicant, after which a survey of the land is made and the applicant is placed in possession, the remaining four-fifths of purchase money, together with £2 for the cost of survey, being payable in ten years by 10 equal yearly instalments. If within the period of 10 years the purchaser shall have brought one-fifth of his acreage into good bearing in kola, coffee, oranges or other permanent crop-producing plants, he is released from payment of, or is refunded, as the case may require, one-fifth of the purchase money. The scheme had been partly suspended during the past few years owing to the large amount of land that was out on credit, and on 3rd December, 1914, it was started afresh under amended rules. Under the new Rules Land Boards have been created, and no more than 300 acres will be granted to one purchaser, nor less than 3 acres, except in cases specially approved by the Governor. Up to 31st March, 1916, 4,390 lots covering 35,327 acres have been sold and put in possession of instalment and out right purchasers who have paid £36,196. This excludes 424 lots covering 3,700 acres taken back from defaulting purchasers and sold afresh.

The following table shows the Government lands that are under lease; those that are unoccupied, and the parishes in which they are situated:—

Note.—For Rules as to sale of Government Lands see Part XIX at end of volume.

The stir created by the Government in regard to lands squatted on and land liable to forfeiture for non-payment of quit rents, has induced many people to look after properties which they before deemed almost valueless; and it is believed that many more squatters have been evicted by private individuals than by the Government, and numbers of persons have been induced to pay up the quit rents upon their outlying land.

From time to time about 143,550 acres have been actually surveyed and 1,194 leases have been effected, covering 140,441 acres.

The Government have realized £54,124 from sales of land, while the lands escheated have been valued at £3,087.

The Survey Department has also had numerous references from the Colonial Secretary's Office and other Departments, involving considerable investigations; searches in the Island Record Office and reports; also correspondence with and instructing the several Government Bailiffs in possession of Government lands all over the island, and receiving and checking their accounts.

Numerous plans, of particular places as well as of districts, for the use of the Government in various ways, have been prepared; and surveys for the Rio Cobre Canal, Railway extension, and for new roads, &c., have from time to time been made.

The Survey Branch has also prepared, in duplicate, cadastral plans, on a scale of four inches to one mile, for the use of the Collectors of Taxes, of all the parishes of the island. These plans represent every property and parcel of land from ten acres and upwards, and show correctly their extent, area, boundaries and names as well as the names of the owners; also the roads, rivers and other topographical details.

In 1889, when the Jamaica Railway was sold to Mr. Frederick Wesson and his associates on condition that the existing lines were extended to Montego Bay and Port Antonio from Porus and Bog Walk, respectively, the Surveyor-General was charged with the duty of acquiring lands for the tracks of these extensions. The tracks are 120 miles long and cover 1,160½ acres of land acquired from 915 landowners, and cost, to 31st March, 1905, £82,639 8s.

Under the 34th section of the agreement attached to Law 12 of 1889, the Promoters of the Railway were entitled to one square mile of Government land for each mile of Railway constructed, and 74,443 acres, or 116½ square miles of land were conveyed to them, leaving 2,367 acres, or 3½ square miles selected by the Promoters, and to be conveyed to them on forfeiture. These lands which were in the hands of the Administrator-General on behalf of the Receivers of the West India Improvement Company of New York, have recently passed back into the hands of the Government by purchase at 5/ per acre. A large part of them extends over the northern portion of the parish of St. Thomas and the southern part of Portland. All this region consists of virgin lands and is well watered with numerous springs and rivers. It possesses a most salubrious climate and ranges from 2,000 to 6,000 feet in height, and it embraces some of the finest coffee land in the island. The geological formation is chiefly of trappean and metamorphosed series, and it is of the same character as the once rich coffee lands of the parishes of St. Andrew and St. Thomas; but as these are getting worn out this land is the only remaining coffee land of a first class character in the island. It is rich in minerals: copper, cobalt, lead and manganese having already been discovered in several places. The climate in the higher parts is extremely cool and is suited to the labour of white men in the open air. European fruits have been cultivated in some of these localities.

AUDIT OFFICE.

[Public Buildings (West Block), King Street.]

The expenditure in the various Government Departments is checked and examined every month.

Under a law passed in 1888, the Parochial Boards' Accounts are subjected to an examination in the Audit Office, and half-yearly inspection of the Accounts is made locally by an officer of the Audit Office. The value of these local inspections has been fully demonstrated. In September, 1914, the audit of the Railway accounts was placed under the direction of the Auditor General.

The financial year of the colony is from the 1st of April till the 31st of March.

TREASURY.

[Public Buildings (West Block), King Street.]

THE Receiver General's Office, the headquarters for the collection of all duties, was one of the most ancient institutions of the colony. It was at first established at Port Royal and the records narrowly escaped destruction in the great fire of 1703. In that year it was (with other public offices) transferred to Kingston.

In 1733 a law was passed requiring the Receiver General or his Deputy to attend at his office on all working days from 9 to 11, and from 2 to 4, under a penalty of £20 for every default; and in 1802 he was granted a salary of £7,900 currency (equal to £4,200 sterling) in lieu of commissions, except the five per cent. payable to him under the Permanent Revenue Act of 1728. Subsequently the salary was reduced to £3,000 which was the amount received by John Edwards, the last patentee of the office.

The Receiver General was, by a law passed in 1733, prohibited from lending out the public moneys or of being concerned in any commercial or other transaction, or of holding any other office or appointment whatsoever. His salary was reduced to £1,000 in consequence of the appointment of an Auditor General, but in 1851 it was increased to £1,200 per annum, and the commissions payable to him under the Permanent Revenue Act, and all such fees as he had been accustomed to receive were made payable into the Treasury for the use of the island.

Law 4 of 1868 repealed the previous Law, in which the rate of interest payable by the Bank on the daily cash balances was specified, and enacted "that the Governor, with the advice of the Privy Council shall from time to time establish such rules and regulations

as may be necessary for keeping the accounts of the Receiver General with such bank or banking institution, and also for the payment and appropriation of the moneys paid therein." Under one of the rules now in force the same rate of interest as heretofore namely, 3 per cent., is payable by the Bank on the daily cash balances.

Law 3 of 1868 granted to the Governor the power of prescribing regulations and forms for the guidance of all parties having the receipt, collection and payment of the public revenue, and repealed all previous acts detailing these duties.

Law 10 of 1868 abolished the office of Receiver General and created the office of Treasurer giving him all the power and charging him with all the duties hitherto performed by the first named officer. The third clause of this law placed the Treasurer's department under the supervision and control of the Revenue Commissioner appointed under Law 8 of 1866. At the same time the Customs was formed as an independent department. Until the earthquake of January, 1907, the Treasury was in Harbour Street, where it was first established in 1703.

A Parochial Treasury was established in every parish in 1868, the Collector of Taxes being placed in charge as Local Treasurer. Formerly there was no means of making local payments, however small the amount, except by bills on Kingston. Persons receiving small salaries and all others who had to receive small sums of public money, such as parochial road contractors for example, were seriously inconvenienced under this system, for they could not get their Bills cashed on the spot, without submitting to a heavy charge by way of discount. The smaller the bill and the poorer the holder the more discount he had to pay to get his own money; and this occurred while the Collector of the parish might be put to some risk and difficulty in remitting his collections to Kingston. Under the new system all local payments, so far as local receipts may make it possible to do so, are paid at the Parochial Treasuries under orders, general or special from the Chief Treasurer.

On the 1st May, 1879, an Inland Money Order System was also established in connection with the Treasury. Orders obtained at the office in Kingston are payable at any Parochial Treasury, and each Parochial Treasurer is authorized to issue orders payable at the Treasury in Kingston or at the following Parochial Treasuries: Morant Bay, Port Antonio, Port Maria, St. Ann's Bay, Spanish Town, May Pen, Mandeville, Black River, Savanna-la-Mar, Falmouth, Montego Bay, Lucea. The commissions chargeable are as follows:—

For sums of £10 1s. and 6d. for each additional £10 or fractional part of £10 up to £50.

SAVINGS BANK BRANCH.

SAVINGS BANKS were first established in this island in the year 1837 under the Act 7th William IV chapter 6

These Banks were managed by a Board of Officers consisting of a President, Vice-President, Trustees, Managers, Auditor, and Treasurer or Secretary, the rules framed for their government being approved and certified by a Revising Barrister. The deposits received by the Bank were invested in the Island Treasury at 6 per cent. interest while the depositors received interest at the rate of $\frac{1}{2}$ per cent., the interest to depositors being payable half-yearly. The following were the Banks that existed under the old law, each of which was opened once a week for the transaction of business:

Kingston established	1838	Hanover established	1856
St. James "	1838	St. Mary "	1856
Trelawny "	1842	Westmoreland "	1865
St. Ann "	1845	Vere "	not known.

These Banks did good service and enjoyed the confidence of the public until the Secretary of the Trelawny Bank committed a series of forgeries, for which he was indicted and sentenced to 14 years' penal servitude. The depositors then learnt that their savings were not secure and a panic ensued. The Government intervened and towards the end of the year 1870 obtained the passing of a law to establish a Government Savings Bank, with branches throughout the island. The direct security of the public chest was given for the due re-payment of all moneys deposited, and for the regular payment of the interest thereon, the rate being fixed at 4 per cent. calculated to the 30th September

in each year. In the session of 1880 the interest to depositors was reduced to 3 per cent. and in December 1897 to $2\frac{1}{2}$ per cent.

Law 33 of 1882 provides that a deposit shall not be of a less amount than 1s. or some multiple of 1s.; also that no depositor shall be entitled to deposit in any one year any sum of money exceeding in the whole £200 nor at any time have in deposit more than £400. Deposits, however, on behalf of a charitable or friendly society may amount to but not exceed £500 in any one year; but the accumulated deposits of any such institution may not exceed at any time £1 000. There is no limit to the amount which may be deposited on account of any public department fund. Secrecy is enforced on all officers engaged in the discharge of the duties of the Bank, and, except in due course of law or to the Revenue Commissioner transactions of a depositor are not disclosed.

Under the provisions of the 3rd section of Law 8 of 1879 deposits may now be made by a married woman, and such deposits are to be deemed her separate property; provided that if any such deposits are made by a married woman by means of moneys of her husband without his consent a Judge may, upon an application under section 6 of the law, order such deposits or any part thereof to be paid to her husband.

Deposits of £10 are re-paid without any previous notice being required, but if the amount exceeds that sum but does not exceed £50 one week's notice is required; over this amount two weeks' notice must be given. The deposits of a deceased person if above £25 can be paid only on the production of the probate of the will or under letters of administration; but any deposits under that amount may be paid by the Manager with the concurrence of the Revenue Commissioner to any person who may appear entitled to the same. The payments made on account of the property of deceased depositors during the year 1915-1916 were as follows:—

	£	s.	d.
Under Letters of Administration	295	2	8
“ Letters Testamentary	574	18	2
“ Revenue Commissioner's authority	106	12	1
“ Power of Attorney			
	£976	13	11

The branches of the Bank were at first open to the Public once in each week, but in order to afford increased facilities they are now opened daily. The sub branches are now opened weekly instead of monthly as heretofore.

The following is a statement of the transactions of the Government Savings Bank from 1902 to 1916:—

STAMP OFFICE.

[Public Buildings West block, King Street.]

STAMP DUTIES, which were first imposed in this colony in the year 1760, have always extended over a wide area, and, following the English Laws, made dutiable mercantile transactions, law proceedings, the transfer of property, probates of wills, legacies, powers of attorney, land surveyor's commissions, policies and various other documents of a similar character.

The Commissioners of Public Accounts were first appointed to superintend the collection of these duties; they were succeeded by two Commissioners of Stamps, and finally the office was confined to one Commissioner, in association with the Receiver-General.

The use of adhesive stamps was added to that of impressed stamps in the year 1855, but they are now legal only on Customs Warrants, Receipts and Bills of Exchange and Promissory Notes drawn abroad and in any manner negotiated in this Island, also letters of allotment and renunciation, and Powers of Attorney for voting by Proxy.

The Governor may appoint Distributors of Stamps; and Collectors and Assistant Collectors of Taxes and District Postmasters are, *ex officio*, Revenue Stamp Distributors. The Collectors and Assistant Collectors are allowed 1 per cent. of their sales, and the District Postmaster 2½ per cent. A discount of 2½ per cent. is allowed on purchases of £5 at a time made by vendors of adhesive stamps; in no other case is discount allowed.

Bills of exchange, inland and foreign, promissory notes and foreign bills of lading can now be stamped within seven days after execution.

Any other document of the description of an agreement, power of attorney, &c. which is not liable to *ad valorem* stamp duty, should be stamped before the expiry of 14 days of its first execution, otherwise a penalty of £5 is incurred.

Any document, on which is payable *ad valorem* stamp duty such as conveyances mortgages, leases, &c., should be stamped before the expiration of 30 days so as to avoid incurring a penalty of £5 and a further penalty equal to the stamp duty thereon.

No penalty is imposed on documents first executed out of the island if stamped within 30 days after arrival in this colony. Spoiled stamps are exchangeable within six months of the spoiling or return to the island of the instrument bearing the stamp.

Unstamped documents, liable to Stamp Duty, are receivable in evidence in criminal proceedings.

A return of the shareholders of all banking co-partnerships, except those established by Royal Charter, is required to be lodged yearly at the Stamp Office. A composition of 3 per cent. is payable on the notes issued by any banking corporation, to whom also a yearly license is issued by the Commissioner of Stamps.

Stamps are affixed upon Petty Sessions process and licenses, indicating the duty thereon. They are not, however, returnable as stamp revenue except a small portion thereof.

Mortgages, conveyances bonds or other securities made or given to or by Building Societies, which were formerly exempt from stamp duty, are now made liable thereto, with the exception of mortgages to Building Societies which are not taxable till they exceed £500.

A stamp duty of two shillings per one hundred pounds, and of one shilling per one hundred pounds is charged for registering and transferring Debentures, respectively, under Law 32 of 1887.

Legacy duty is chargeable on all legacies, the rates varying according to the consanguinity of the legatee to the testator from 1% to 10%. Legacies however for the benefit of the husband or wife of the deceased are exempt. The aggregate value of a legatee's benefit when it does not amount to £20 is also exempt. See Law 14 of 1898. A receipt for legacy must be stamped within twenty-one days from the date thereof. When an executor is entitled to a legacy he must pay the duty before retaining the same.

The duty on a legacy given by way of annuity must be paid by four equal payments, the first of which must be made before or on completing the payment of the first year's annuity; and the three others in like manner, before or on completing the respective payments for the three succeeding years.

The probate duty received for the financial year 1915-16 was £4,930 0s. 8d. The Legacy duty for the same period was £1,766 19s. 5d.

The total collections on account of stamps for the financial year 1915-16, were £26,140 13s. 1d.

Under the provisions of Law 20 of 1898, Stamp Duty is payable on all "Successions" to personal or real property. This Law came into operation in July, 1898.

Duty collected for the year 1915-16 is £2,267 6s. 7d.

Seventeen Laws and parts of Laws were consolidated and repealed by the Stamp Duty Law (40) of 1903.

The following laws are read with or are cognate to this Law—

Law 16 of 1879—Legacy Duty Law.

27 of 1886—Imposing Duty on Building Society Mortgages, &c.

14 of 1898—A Law to Amend the Legacy Duty Law, 1879.

20 of 1898—The Succession Duty Law, 1898.

7 of 1899—A Law to amend the Succession Duty Law, 1898.

6 of 1900—The Succession Duty Law, Amendment Law, 1900.

17 of 1910—The Stamp Duty Amendment Law, 1910.

29 of 1911—A Law to amend 17 of 1910, and further to amend Law 40 of 1903.

3 of 1914—A Law further to amend the Stamp Duty Law of 1903.

Law (17 of 1910) amends Law 40 of 1903, and consolidates and amends other Laws amending this Law. Under section 3 the Collector General becomes Stamp Commissioner, and the Governor has power to appoint a Deputy Stamp Commissioner.

Law 7 of 1916—A Law to increase the Stamp Duty on certain documents.

No Stamp Act was in force during the undermentioned periods:—

From 1st January to 9th May, 1809.

" 1st January to 24th October, 1833.

" 1st January to 31st December, 1842.

The present system of stamping documents is by direct impression upon dies in self recording presses, and also by means of over embossed stamps.

Bond, Covenant or instrument of any kind whatsoever creating a security, conveyance, lease, mortgage, bond, debenture, settlements, transfers, re-conveyances, assignments may be stamped within thirty days from date of execution.

Stamped forms and papers are obtainable at the Stamp Office, Kingston, and at the

offices of the several Collectors and Assistant Collectors of Taxes, and at all Post Offices in the country.

Deeds and other documents may be sent to the Stamp Office, Kingston, through the various Collectors and Assistant Collectors of Taxes upon the full amount of Stamp Duty being paid to the Collector or Assistant Collector of Taxes at the time of handing in the deeds or other documents to be sent to the Stamp Commissioner.

CUSTOMS, EXCISE AND INTERNAL REVENUE.

THE Revenues of the Island—parochial as well as general—are collected and accounted for by a Department under the control and direction of an officer styled the Collector General of customs, excise and internal revenue, in whose office is a staff consisting of a chief clerk and sixteen other clerks, divided into three classes. In the Collector General's office (Public Buildings, King Street) in addition to the duties devolving on a department charged with the management and direction of the officers employed in the collection of a large and varied revenue, the accounts of the collecting officers are thoroughly examined, and the statistical returns for the whole island are compiled.

In Kingston separate establishments are maintained for the collection of customs revenue and the collection of the excise and internal revenues; but in the other parishes the whole of the duties are performed by the collector of taxes or by subordinate officers acting under his supervision.

The staff for the conduct of customs business at the port of Kingston consists of a collector, who is also shipping master and inspector of invoices; four first class clerks; four second class clerks; four assistants; a surveyor, an assistant surveyor who is also chief tide surveyor, ten landing waiters; a tide surveyor at Port Royal and twenty outdoor officers, divided into three classes. The staff for the collection of excise and internal revenue consists of a first class collector; two assistant collectors; a first class locker and gauger; 2 assistants; and two second class lockers and gaugers.

The staff in each of the other parishes consists of a collector, one or more assistant collectors, landing waiters, lockers and gaugers, clerks and assistants.

Each collector of taxes is stationed at the principal town of the parish, and (except in Kingston) besides the duties devolving on him in connection with the collection of revenue he has to discharge the duties of parochial treasurer, and as such has charge of the local treasure chest, into which all local payments pass and from which all local claims against the Government are met. The Collector is *ex officio* manager of the government savings bank, and he issues and pays money orders drawn on and by the Treasurer in Kingston or any other collector of taxes. The collectors do not travel except in special cases when ordered by the head of the department. In their offices are prepared and kept the rolls of taxpayers and collections, the valuation roll, the militia register and the register of licenses.

Assistant collectors of taxes possess the same powers of collecting and enforcing the payment of taxes as collectors. One or more are allotted to each parish, according to its size and importance, and they are stationed either at the collector's office or at some place of importance, in the parish. They are subordinate to the collectors and aid them by receiving money at their offices and at fixed stations throughout the parish, which they visit periodically for the convenience of the taxpayers. The several distilleries in the island are under the inspection of these officers, who visit them at uncertain periods for the purpose of comparing the still house books and vouchers and checking the quantity of rum on hand.

Collectors and assistant collectors of taxes are also distributors of stamps.

All collectors and a few assistant collectors are provided with clerks to assist in filling up in-givings and receipts, keeping the office records, and performing clerical duty generally. These officers are not allowed to receive revenue as they are not under security for that purpose. One clerk in each office is required to act as check officer and is styled treasury clerk. He is required to give security for the faithful performance of his duty. The treasury clerk initials all vouchers in proof of their correctness; he checks and initials the entries in the cash book, counts the cash at the close of the day with the collector to see that the public money in the chest agrees with the cash book and keeps a second key of the chest.

Collectors and assistant collectors are required to enter into substantial security for the proper collection of, and accounting for, money; and are guaranteed by the Jamaica Civil Service Mutual Guarantee Association.

WAREHOUSE RATES.

The charges for storing goods in the King's Warehouse are on a similar scale to those laid down in the Wharfrage Law, 15 of 1895.

These charges cover storage for a period of three months, and for each additional three months or fractional part of three months an additional charge of one-fourth the original rate shall be made.

In case of any expense for carriage having been incurred in conveying the goods to the King's Warehouse, the actual cost thereof, when known, is charged in addition to the rent, but otherwise threepence for a single package and ninepence when more than one, for each quantity not exceeding an estimated single dray load.

No charge for rent or carriage is made for packages for the Government, Army or Royal Navy.

Charges for storing gunpowder at forts or magazines, or some proper place of security, approved by the Governor under Law 18 of 1877, section 95:—2/ per brl. of 100lbs. weight, 1/ per half brl., 6d. qr. brl.

Charges for similarly storing arms, ammunition, and explosive substances other than gunpowder under Law 24 of 1885, section 37: Explosives—6d. per cubic foot for a space not exceeding 8 cubic feet and 3d. for each cubic foot in excess of 8 cubic feet; Arms—6d. per package and 6d. per 112lbs. loose arms.

IMPORT DUTIES.

Law 21 of 1911, 41 of 1914, 3 and 14 of 1916.

The articles enumerated in the third Schedule to this Law when imported into the Island for temporary use either by an owner or by an exhibitor but not for sale, provided that the articles enumerated in items 2 and 3 had been in use abroad, shall be admitted on the security of a deposit of thirty per centum of the duties leviable on similar articles if imported for Island use, such deposit to be refunded on the exportation of the articles by the owner or exhibitor within two months of importation. Should the articles not be exported within two months of importation the Collector shall withhold a sum equal to five per centum of the duty payable at time of importation for each month or part of a month during which such articles are kept in the island beyond the specified period of two months up to the limit of eight months. But if not exported within eight months of the date of importation the articles shall be deemed to have been finally imported for Island use and shall be entered and the duty thereon paid in the manner prescribed by Sections 48 and 49 of Law 1 of 1877, allowance being made for any deductions already taken and brought to account from the amount deposited.

Articles deemed to have been finally imported for Island use, if not entered and duty paid as aforesaid, shall if sold or kept in the Island beyond eight months be liable to be seized as "uncustomed" goods under the provisions of Section 156 of Law 18 of 1877 or the person appearing as the Importer may be proceeded against under Section 34 of Law 24 of 1885.

The ordinary outside casing or covering of any goods, wares, or merchandise liable to a rated duty as set forth in the first Schedule, or exempt from duty as set forth in the second Schedule shall be exempt from duty under this Law, except as hereinafter stated, but in respect of goods liable to duty on the value thereof, the value of all outside and inside coverings or receptacles containing such goods, together with the value of all labels, wrappers, or other attachments, shall be deemed to be a portion of the value of such goods for duty, and shall be included in such value. Provided, that all packages or coverings containing free or rated goods, apparently designed for use other than in the importation of the goods they contain, shall be subject to the same rate of duty as would thereon be levied if imported empty, or separate from their contents.

All outside packages containing goods liable to rated duties as set forth in the First

Schedule as well as goods liable to advalorem duty, shall be liable to advalorem duty and when the package contains advalorem and free goods, the outer package shall be liable to the same rate of duty as such advalorem goods.

Whenever goods liable to duty on importation according to the value thereof are imported, the invoice of such goods shall include the value of all packages, receptacles, coverings and wrappers, in which such goods are packed or contained, together with all charges due or payable in respect of the preparing, packing and putting up of the goods in the condition ready for shipment, and import duty shall be payable on the value of such packages, receptacles, coverings, wrappers and charges.

Wines and malt liquors may be converted into vinegar in any Bonded Warehouse, under such regulations as the Collector General may approve, and thereupon such wines and malt liquors shall be liable to the duty on vinegar only.

Upon the re-importation of articles once exported, of the growth, produce, or manufacture of this Island, upon which no internal tax has been assessed or paid or upon which such tax has been paid and refunded by allowance or drawback, there shall be levied, collected and paid in such manner as the Collector General may direct, a duty equal to the tax imposed by the internal revenue laws upon such articles, if identified as island produce, and if not so identified, then such articles shall be subject to the same rate of duty as other imported articles of the same kind.

Whenever any goods upon which a drawback has been allowed under section 16 of this Law are returned to this Island, there shall be paid as import duty on such return a sum equal to the drawback allowed.

Goods, wares and merchandise upon which any duty under this Law or any previous Law of this Island shall have been paid, if duly exported within two years of their first importation, shall receive a drawback equal to the duty paid on first importation, subject to rules to be made by the Governor in Privy Council for the regulation of such drawbacks.

The duty paid on provisions and stores supplied by local merchants or contractors to His Majesty's Navy or Military authorities in this Island, for the use of His Majesty Navy or Army, or to Naval Officers, or Naval Messes or to other branches of the public Service and to Public Institutions, shall be refunded under such conditions and regulations as may be prescribed by the Governor in Privy Council.

Provided that such drawback or refund shall be limited to such articles as would have been entitled to be admitted free of duty, had they been in the first instance consigned to the purchasers.

There shall be paid a drawback equal to the duty paid on their importation on shipbuilding materials, or accessories of any kind for shipbuilding which shall have been imported into this Island and used in the construction or repairs of foreign going vessels of any kind on presentation to the Chief Officer of Customs at the port of importation of a certificate to the effect that such materials and accessories have been used as aforesaid, under the hand of the builder or repairer of such vessel or boat, who used the same, together with a declaration from such builder or repairer, that he believes such shipbuilding materials and accessories to have been imported into the Island.

Paints and oils used in painting any foreign-going ship while temporarily in port shall be included in the term accessory.

Drawback of duties shall not be payable on goods which have become unmerchantable, subsequent to importation or which have been in actual and *bona fide* use.

Where imported materials on which duty has been paid are used in the manufacture of articles manufactured or produced in this Island there shall be allowed on the exportation of such articles a drawback equal in amount to the duty paid on such materials so used: Provided, that when the articles exported are made in part from domestic materials the imported materials or the parts of the articles made from such materials, shall so appear in the completed articles that the quantity or measure thereof may be ascertained.

Provided also that where the actual quantity or measure cannot be ascertained by ordinary methods it shall be lawful for the Governor in Privy Council by regulation made under section 12 of this Law to approve an approximate scale of drawback.

On the exportation of bread or biscuit manufactured in this Island of imported flour there shall be paid a drawback equal to the duty paid on the flour used in making the same, but not to exceed the duty payable on a like quantity of bread or biscuit imported.

The several drawbacks under this Law shall be subject to the regulations and provisions of the several Acts or Laws for the time being in force with reference to such drawbacks.

Made by the Governor in Privy Council this fourteenth day of May, 1912.

F. L. PEARCE, Clerk Privy Council.

Rule made by the Governor in Privy Council under Section 9 of Law 21 of 1911. "The Tariff Law, 1911."

Concessions made by the Governor in Privy Council under Section 9 of Law 21 of 1911 may be either (a) general or (b) limited. In the former case all articles of the character designated may be passed on ordinary free entry; in the latter the entry must be accompanied by a certificate in the following form signed by the importer, and in which is embodied a declaration to the effect that the goods for which free entry is made fall within the intentions and limits of the concession:

For Original Importer.

Ido solemnly and truly declare that
 I am the importer of the merchandise described in the annexed entry and invoice,
 that the goods have been imported for the purpose of.....

.....

and that I am in a position to make this declaration by virtue of the goods remaining
 under my control until they have been put to the use in connection with which
 exemption from duty has been granted by the Governor in Privy Council under
 Section 9 of Law 21 of 1911.

For Middleman.

Ido solemnly and truly
 declare that I am the importer of the merchandise described in the annexed entry
 and invoice, that the goods have been imported for the purpose of.....

.....

and that I am in a position to make this declaration by virtue of the goods having
 been specially prepared for the purpose and being prima facie unsuitable for other
 purposes than the use in connection with which exemption from duty has been
 granted by the Governor in Privy Council under Section 9 of Law 21 of 1911.

LIGHT DUES.

Island Lights—Law 8 of 1900.—1d. per ton upon the registered tonnage of steamers and
 3d. per ton upon the registered tonnage of sailing vessels that shall enter at any
 port of the Island. Such dues in respect of droghers and other ships, sloops and
 vessels engaged in the coasting trade of the Island, or trading within the tropics
 shall be demandable not oftener than once within any period of twelve calendar

months, and in respect of all other ships not oftener than once within any period of three calendar months.

Ships of War and private pleasure yachts are exempt from Light and Harbour Dues, as well as ships putting into any Port of the Island for repairs or medical assistance and half fees are levied on vessels calling only for orders, coal, water and necessary ships stores—provided no passenger or cargo or ballast is landed or shipped—passengers may only be landed on account of sickness—Law 12 of 1904.

WHARFAGE.

Public Wharfrage is regulated by Law 15 of 1895 and the following Schedules limit the charges of Wharfingers:—

- I. A Wharfinger in Kingston is entitled to Wharfrage in accordance with the rates specified in column 1 of Schedules A and B for goods landed at his Wharf and to half rates for goods shipped from his Wharf.
- II. A Wharfinger out of Kingston is entitled to demand Wharfrage at the rates specified in Column 2 of Schedules A and B either for goods landed and delivered or for goods received and shipped.
- III. A Wharfrage includes receiving from, or delivering to, the ship (if alongside the Wharf) or lighter and stowing, shedding, weighing, skidding, gauging, securing and delivering together with all labour involved therein.
- IV. In Kingston the storing referred to is limited to 14 clear days in respect of goods landed and enumerated in Schedule A and to three months in respect of those landed and included in Schedule B while in respect of goods received for shipment, the rates cover a period of three months prior to the arrival of the Ship in which they are to be shipped.
- V. At Outports the charge for storing goods landed is covered by the Wharfrage rate for a period of three months, the time in cases in which by the terms of the Bills of lading, the goods are to be delivered free of Wharfrage to be calculated from the expiry of 14 clear days and in other cases from the time of landing while in the case of goods received for shipment the rates cover a period of three months as in Kingston.
- VI. For storing goods specified in Schedules A and B for any period in excess of the period of 14 days or three months, as the case may be, a Wharfinger is entitled to charge at the rate of one-fourth the specified rate for every additional month or part of a month.
- VII. For lumber and coal the rates specified in Schedule C shall be charged; column 1 referring to Kingston and column 2 to the outports. In the case of lumber the charge covers a keeping on the Wharf for three months and in the case of coal for six months.
- VIII. Before extra wharfrage shall be charged the person chargeable or his Agent shall be given 3 clear days' notice of the Wharfinger's intention to charge extra wharfrage.
- IX. For use of a Wharf for shipping fruit the Wharfinger shall be entitled to wharfrage at the rates stated in Schedule D.
- X. Any goods not specifically named shall be charged for in proportion to the rates fixed provided that in respect of machinery and other heavy packages exceeding two tons in weight the charge shall be fixed by special agreement.

VALUATION COMMISSIONER.

A VALUATION of all real property in the island was undertaken in 1901, under Law 22 of 1901, to enable the Government to see whether one tax for general, and one for parochial purposes, could be made to take the place of the many different rates then payable by landowners.

Prior to this, holders of real property were required to pay a house tax on its annual value, a property tax on each acre of land according to the cultivation or crop upon it, and a school tax on the annual value of houses. They also paid a quit rent of one penny per acre, and a holding tax according to the size of their holding. In addition to these, poor, sanitary and other rates were levied for municipal purposes.

A Valuation Commissioner was appointed to direct and bring to completion the preparation of the valuation rolls.

This law was a tentative measure to last for five years, but on its expiration in 1906 the condition of the country did not appear to warrant a re-valuation, and the time was extended for a further period of five years. The law was from time to time amended and in 1911 a consolidation and amending permanent law was passed, Law 3 of 1911, under which a general revision of the values previously obtained was made.

Under these laws every person is required to render an ingiving of the description and value of his property, and where no ingiving is made the Collector issues his assessment. For the purpose of settling cases in which the ingiver and Collector cannot agree as to the value of the property, a Board of Assessment for each parish has been appointed. The Board is composed of the Resident Magistrate and the Chairman of the Parochial Board of the parish and three other persons appointed by the Governor. The following persons have been selected for the several parishes:—

KINGSTON.	R. S. Haughton, David Henderson, R. E. H. Melhado.
ST. ANDREW.	H. E. Bolton, G. W. Byrnes.
ST. THOMAS.	C. Hope Levy, W. Dougall, L. G. Harrison.
PORTLAND.	F. B. Brown, L. A. Waites, J. G. Patterson.
ST. MARY.	A. D. Goffe, J. H. Scarlett, F. H. DeLisser
ST. ANN.	H. A. Fowler, C. N. Hemming, A. N. Dixon.
TRELAWNY.	H. B. Sewell, A. L. Delgado, (vacant).
ST. JAMES.	David Mills, Joseph Shore, A. B. Lowe.
HANOVER.	Hon. G. A. L. Sanftleben, A. E. Davis, J. G. Robertson.
WESTMORELAND	J. G. Mennell, R. M. Ewen, C. T. Cahusac.
ST. ELIZABETH.	Stafford Maxwell, C. E. Isaacs, H. M. Farquharson.
MANCHESTER.	R. J. Miller, (vacant), G. W. Wilson.
CLARENDON.	F. G. Sharpe, (vacant), Quintin Logan.
ST. CATHERINE.	Hon. Dugald Campbell, T. H. Sharp, J. S. Powell.
PORT ROYAL.	Ellis Russell, G. W. Clements, Chas. A. Jones,

The Valuation Commissioner is a member of every Board.

Taxes are levied on the value of properties thus obtained, under Laws 15 and 16 of 1903 and 14 of 1907, as set out on page 114.

POST OFFICE.

[Historical details of the development of the Post Office will be found in issues of the Handbook prior to 1898.]

GENERAL POST OFFICE.

The Circulation Branch, the Money Order Office, Parcel Post and Telegraph Offices, are all maintained at the northeast portion of the Public Buildings in King Street. The Control Branch, Cash on Delivery Branch and Telegraph Office are on the first floor of the same building.

The ordinary office hours of the Circulation Branch are from 8 a.m. to 4 p.m.; but the office is opened earlier or later should the arrival or departure of important ship mails render it necessary.

The Money Order and Parcels Post Offices are kept open from 9 a.m. to 3 p.m. each working day.

District Post Offices are open for the transaction of all business from 7 a.m. to 5 p.m. daily.

OVERSEA MAILS.

There is now no regular contract service between Great Britain and Jamaica. Mails are made up by every available opportunity via the United States or by direct steamers.

The United Fruit Co.—Kingston to United States, Canada, etc., three times a week. New York to Kingston weekly on Wednesdays and Saturdays.

The Halifax and West India S. S. Co.—To Halifax twice a month, calling at Turks Island once a month.

REGULATIONS.

Letters—No letters for abroad may be more than two feet in length or one foot in width or depth.

Post Cards.—See Inland Regulations, p. 141 (prepaid rate one penny).

Printed papers and Commercial papers may be sent to any country of the Postal Union under the Book Post regulation.

It is forbidden to send through the Post to a country of the Postal Union—

1st. Any letter or packet containing gold or silver bullion, pieces of money, jewellery, or precious articles, except to Great Britain and certain countries named in the British Postal Guide, but the packet must be sealed and prepaid at **Registered Letter Rates**.

2nd. Any packet whatever containing articles liable to customs duty.

3rd. Any article of a nature likely to stain or injure the correspondence.

* Other than British possessions to which letters can be sent at 1½d. per 1 oz. (see Ante.)

† The sender of a registered article addressed to any country in the Postal Union may obtain an acknowledgment of its receipt by the addressee on payment in advance of a fee of 2d. in addition to the registration fee.

In addition, all kinds of printed, engraved or lithographed matter, legal and commercial documents and music in manuscript may be sent as a book-packet. Proofs of printing or of music may bear correction with a pen, and may have manuscript annexed to them. Circulars, &c., may bear the signature of the sender, his trade or profession, place of residence and a date. A book may have a dedication or complimentary inscription in manuscript; and printed and lithographed stock or share lists, prices current, and market reports may have the prices added in writing.

Commercial papers and printed papers must be sent under band or in an open envelope so as to admit of the contents being easily withdrawn for inspection, but if they present the form and consistency of an unfolded card they may be forwarded without a cover.

No packet of Printed matter or Commercial papers for transmission to countries of the Postal Union must exceed 18 inches in any direction, unless it be in the form of a roll in which case the limits of size will be 30 inches in length and 4 inches in diameter; and no such packet for other places abroad must exceed two feet in length or one foot in width or depth; the extreme limit of *weight* is 4lbs. for a single packet for countries in the Postal Union and 5lbs. for other countries.

Pattern and sample packets for places in the Postal Union must not exceed 1 foot in length, 8 inches in width, 4 inches in depth, unless it be in the form of a roll, in which case the limit of size will be 1 foot in length and 6 inches in diameter. The limit of weight is 8 ounces except when addressed to Argentine Republic, Australia, Belgium, Bolivia, Bulgaria, Congo Free State, Costa Rica, Dominican Republic, Ecuador, Egypt, France, Greece, Guatemala, Hawaii, Holland, Honduras Republic, Hungary, Italy, Japan, Liberia, Luxembourg, Mexico, Persia, Peru, Portugal, Roumania, Salvador, Servia, Siam, Spain, Switzerland, Tunis, the United States of America, and Venezuela, the limits of which are 1 foot in length, 8 inches in width, 4 inches in depth, and 12 ounces in *weight*. To Great Britain and any British colonies or possessions, or for any Non-union Countries, the limit of weight of such packets is 5lbs.

Type samples of unmanufactured tobacco not exceeding 6 oz. in weight received in Great Britain are delivered on payment of 1/ customs duty. No other tobacco is admitted into the United Kingdom by Sample Post.

Perfumed spirits are prohibited from importation into the United Kingdom by Sample Post, but samples of other spirits are admitted (provided they are plainly marked "Spirits not perfumed") and are liable to a charge of 8d. customs duty.

Dutiable articles forwarded by Parcels Post will be liable on delivery to the duty and in certain cases to a fine. Tobacco in its various forms will be liable to a fine, except when sent in parcels in the shape of genuine samples not exceeding 4lbs. in weight of each description of tobacco.

Though under the regulations of the Postal Union the public are not entitled to send *Articles liable to Customs Duty by any other Post than the Parcel Post* in the United Kingdom, in-coming Samples liable to Customs Duty are, as a general rule, not objected to when sent in quantities so small as to have practically no saleable value.

The term "printed papers" has reference to newspapers and periodical works, books stitched or bound, pamphlets, sheets of music, printed visiting cards, address cards, proofs of printing and the manuscript relating thereto, engravings, photographs, cinematograph films, drawings, plans, maps, catalogues, prospectuses, announcements and notices of various kinds, whether printed, engraved, lithographed or autographed; in general, all impressions or copies obtained upon paper, parchment and card board, by means of printing, lithography, autography or any other mechanical process easy to be recognized, *except* the copying press, and the typewriter.

Commercial papers comprise all papers or documents written or drawn wholly or partly by hand (except letters or communications in the nature of letters, or other papers or documents having the character of an actual and personal correspondence) documents of legal procedure, deeds drawn up by public functionaries, copies of extracts from deeds under private seal written on stamped or unstamped paper, way bills, bills of lading, invoices, and other documents of a mercantile character, documents of Insurance and other public Companies, all kinds of manuscript music, the manuscript of books and other literary works, letters and post-cards of old date which have already served their original purpose, and pupils' exercises either in original or with corrections, but without any comment on the work, and other papers of a similar description.

Stamps for pre-payment, whether obliterated or not, as well as all printed articles containing the representative sign of a monetary value are excluded from the reduced postage applicable to "printed papers."

Patterns of merchandize can only be forwarded by the ordinary post under the following conditions:—

They must be placed in bags, boxes or open envelopes, in such manner as to admit of easy inspection.

They must possess no saleable value, nor bear any manuscript beyond the name or social position of the sender, the address of the addressee, a manufacturer's or trade mark, number and prices.

Patterns of merchandize may also be forwarded by Parcel Post subject to the conditions stated hereafter.

Letters tendered for insurance will be accepted by the Post Office on payment of the fee and subject to the conditions stated below:—

Fee—6d. for every £12 of value in addition to the postage and registration fee.

As few stamps as possible should be used to prepay the postage and insurance fee, and the stamps must not be folded over the edge of the cover. When more stamps than one are used they must be affixed with spaces between them.

A letter is the only article of mail matter which will be accepted for insurance. Post Cards Printed Papers, Commercial Papers or Sample Packets will not be accepted.

Letters containing coin, anything made of gold or silver, precious stones, jewellery, or any article liable to Customs duty in the country of destination cannot be insured.

The insurance system is specially applicable to letters which contain bank-notes, coupons securities, &c.

A letter tendered for insurance must NOT be addressed to initials, or in pencil and it must be enclosed in a strong cover, and be securely fastened and sealed with fine wax in such a way that it cannot be opened without leaving traces of violation. Envelopes with black or coloured borders must not be used. Seals must be placed over each flap, or seam, of the cover of a packet; and if the packet is tied round with string or tape, a seal must be placed on the ends where they are tied. All the seals must be of the same kind of wax, and must bear distinct impressions of the same private device. Coins must not be used for sealing; and the device of the seal must not consist merely of straight, crossed, or curved lines which can be imitated readily.

The onus of properly enclosing and sealing the letter lies upon the sender, and the Post Office does not assume liability for loss arising from the defects of the cover or the seals, which may not be observed at the time of posting.

The amount for which a letter is insured must not exceed its actual value, and must be written by the sender both in words and in figures at the top of the address side of the cover, thus:—"Insured for £12, (Twelve Pounds)" or whatever the amount may be.

* Service suspended.

Alteration or erasure of the inscription will not be allowed, if a mistake be made the entry must be completely struck out and a new entry made by the sender. The seals on an ordinary envelope of an insured letter must be placed as shown below:—

Letters which do not fulfil the foregoing conditions will not be accepted for insurance.

Insured letters will have all the safeguards of the Registration system, and a certificate of posting must always be obtained by the sender of an insured letter. An acknowledgement of receipt of the delivery may also be obtained under the same conditions as those applicable to Registered letters, i.e. on payment of a further fee of 2d.

Compensation for the loss in the post of a letter, or of its contents, will not exceed the amount of the actual loss, and will not be paid at all for a letter containing any prohibited article, or for any letter which has been delivered without external trace of injury and has been accepted without remark by the addressee.

Claim for compensation will not be entertained if made more than a year after the date of posting of the letter.

Legal liability to give compensation in respect of any letter for which an insurance fee has been paid will not attach to the Postmaster for Jamaica either personally, or in his official capacity. The final decision upon all questions of compensation rests with the postal administration of the country in which the loss has taken place.

Insured letters will only be forwarded by steamers going direct.

REGULATIONS.

Letters.—No letter for delivery in Jamaica may exceed 18 inches in length, 9 inches in width or 6 inches in depth, except it be sent to or from a Government Office.

Letters, newspapers, prices current and book packets which are *wholly unpaid* will be liable to a surcharge equal to double the prepaid rate; and, if they be insufficiently prepaid, to a surcharge equal to *double the deficiency*.

At the General Post Office, Kingstown, circulars, accounts, &c., (but not newspapers) may be pre-paid in money instead of postage stamps; provided that the articles are chargeable with an uniform rate of postage, that the amount paid is in no case less than 10s. and that they are tied in bundles representing a postage of 2s. 6d. each, with the addresses arranged in the same direction. Such mail matter must be presented at a time pre-arranged with the General Post Office.

Post Cards.—Private Post-cards prepaid by means of one penny postage stamps may be sent by the Inland Post on the following conditions:—They must not exceed $5\frac{1}{2}$ by $3\frac{1}{2}$ inches nor be less than $3\frac{1}{2}$ by $2\frac{1}{4}$ inches. The right hand half of the face is reserved for the postal directions and address; the left hand half is available for the purposes

of the sender, subject to the following restrictions:—In addition to stamps for prepayment post cards may bear small labels showing the name and address of the sender and the addressee; and engravings and photographs on very thin paper may be affixed to the back and left hand half of the address side, provided that they are *completely adherent*. Newspaper cuttings may also be attached to the back and left hand half of the address side.

Cards bearing the title "Post Card," or its equivalent, are admitted at the rate for printed matter, provided that they conform to the general regulations respecting printed papers: if they do not conform either to these regulations or to the rules applicable to post cards they are *treated as letters*.

Cards must be manufactured of cardboard or paper of such consistency as not to hinder manipulation.

Book Packets—A book packet may not exceed 3 pounds in weight, nor 2 feet in length, nor 1 foot in width or depth, except it be intended for transmission as a parcel.

Parcels—The postage on a parcel must be fully prepaid or it cannot be forwarded.

Under Scale (I) a Parcel may not exceed 11lb. in weight, 2 feet in length nor 1 foot in width or depth.

Under Scale (II) a parcel may not exceed 11lbs. in weight nor 1,000 cubic inches in size, three feet in length and 1 foot in width or depth. Nor may it contain anything likely to damage other mail matter.

Rules for foreign parcels apply generally to local parcels.

Newspapers—Newspapers, prices current, book packets and parcels must be posted without a cover, or in a cover open at the ends or sides *so as to admit of the contents being easily withdrawn for examination*. The mere clipping of the corners or of the sides of an envelope or other cover is *insufficient*. They must not contain any letter or communication of the nature of a letter, nor anything that may injure the officers of the Post Office or the contents of the mail bags.

If any letter or communication of the nature of a letter be found in a newspaper, prices-current, book packet or parcel the entire packet will be surcharged at the *unpaid-letter-rate of postage*.

The following may however, be transmitted as printed papers:—

Old Letters which have apparently passed through the Post before and have served their original purpose.

Copies of letters which do not bear a present date and which it is manifest are not serving the purpose of *original letters*.

Letters which are intended for publication in a newspaper or otherwise.

Circulars which, according to internal evidence, are being sent in identical terms to several persons and the whole or greater part of which is printed, engraved or lithographed.

Such letters and circulars must not, however, be closed in any manner and must be so put up as to admit of easy examination of their contents.

Any letter or other mail matter may be registered on pre-payment of the registration fee and postage.

Packets containing money, jewellery or other value, *must be registered and must be prepaid at the letter rate of postage*.

Any Packet found to *contain value*, but not registered, will be liable to a surcharge equal to double the registration fee.

Additional postage is not charged upon any Mail Matter which is re-directed by an Officer of the Post Office, or upon any Letter which may be re-directed and re-posted *intact* at the Post Office of delivery. Post Cards, Newspapers, Prices Current, Book Packets and Parcels which may have been taken out of the Post Office, will, however, when re-directed and re-posted, be charged additional postage, at the prepaid rate.

The fee for detaining and delivering in Kingston, Packet Letters addressed to District

Post Offices, or for detaining and re-directing such Letters to any other Postal Address is 1s. for each service.

Letter Boxes have been also erected at all Railway Stations in the Island. These boxes are cleared ten minutes before the departure of each passenger train.

Passengers on all trains may post letters in the posting boxes provided for the purpose. On the through trains between Montego Bay and Port Antonio stamps, post cards and wrappers may be obtained, also telegraph forms.

REGISTERED CORRESPONDENCE.**COMPENSATION FOR LOSS.**

The Postmaster for Jamaica is not legally liable for any loss or inconvenience which may arise from the loss, damage, delay, non-delivery, or mis-delivery of anything sent by post, and he does not, in any circumstances, pay compensation in respect of unregistered letters, post-cards, printed matter, packets, newspapers or local parcels. But subject to the rules stated below, he pays compensation voluntarily and as an act of grace in those cases and in those cases only in which there has been a total loss of the contents of correspondence of the following descriptions not being loss due to breakage or damage.

FEES.

1. The fees payable over and above the postage, and the respective limits of compensation, are as follows:—

2d., 3d., 4d., 5d., 6d., 7d., 8d., 9d., 10d., 11d., 1s.

Limit of Compensation.

£2, £10, £20, £30, £40, £50, £60, £70, £80, £90, £100.

K

2. These fees include the ordinary registered fee 2d. The highest amount of compensation obtainable for any one packet is £100.

3. No compensation is given in respect of correspondence compulsorily registered.

4. Compensation in respect of money of any kind (coin, notes, orders, cheques, stamps, &c.) will only be given in those cases in which the money is enclosed in one of the Registered Letter envelopes sold by the Post Office and the packet is tendered for transmission by Registered Letter Post. The compensation given in respect of coin, which should be packed in such a way that it cannot move about, will in no case exceed £2.

II.—GENERAL RULES RELATING TO COMPENSATION.

1. It must appear that the loss occurred in the post, and did not arise wholly or in part by the fault of the sender, as, for instance, from inadequate fastening.

2. The compensation given will not exceed the value of the article lost. The right is reserved of reinstating the contents of an envelope instead of giving pecuniary compensation.

3. In the case of loss of contents the envelope should be retained for inspection as nearly as possible in the state in which it was delivered. If complaint be made that the contents of an envelope have been abstracted the envelope must be produced.

4. In the case of Bank Notes, Money and Postal Orders, Cheques, Bonds, and similar documents, particulars sufficient for their identification must be furnished.

5. No compensation for loss is given in respect of an envelope containing anything not legally transmissible by post, or an envelope not posted in the manner prescribed; or in respect of glass, crockery, greases, liquids or semi-liquids, colouring powders, eggs, fish, meat, fruit, or vegetables, sent by Letter Post.

6. No compensation is given for injury or damage consequential upon—i.e., indirectly arising from—the loss of anything sent by post.

7. Without prejudice to any of the preceding rules, the Postmaster for Jamaica will if he thinks fit, refuse to give compensation for loss on any ground on which a common carrier might in like case claim exemption from legal liabilities.

8. The final decision upon all questions of compensation rests with the Postmaster for Jamaica.

9. In these Rules—

The term "money" means

(a) Coin. (b) Paper money.

The term "coin" means coins of all kinds whether or not current in Jamaica or elsewhere.

The term "paper money" means

(a) Notes of the Colonial Bank, Bank of Nova Scotia, or Royal Bank of Canada or of any bank of issue in the United Kingdom, and notes current in any Foreign State or British Possession.

(b) Money orders and postal orders.

(c) Unobliterated postage and revenue stamps.

(d) Exchequer bills, bank post bills, bills of exchange, promissory notes, cheques, credit notes which entitle the holder to money or goods, and all orders and authorities for the payment of money, whether negotiable or not.

(e) Bonds, coupons, and securities for money, whether negotiable or not.

UNINSURED PARCELS.**COMPENSATION FOR LOSS OR DAMAGE OF UNINSURED PARCELS BETWEEN THE UNITED KINGDOM AND JAMAICA.**

The Postmaster for Jamaica will (not in consequence of any legal liability, but voluntarily, and as an act of grace) give compensation for the loss or damage of uninsured parcels sent by Parcels Post between the United Kingdom and Jamaica, when such loss or damage takes place while the parcels are in his custody, and does not arise from any fault or neglect of the senders or from the nature of the contents.

COMPENSATION.

1. In all cases of loss, abstraction, or damage, except such as are beyond control, the sender, or, in default of or at the request of the sender, the addressee shall be entitled to an indemnity corresponding with the actual amount of the loss, abstraction or damage, unless the damage has arisen from the fault or negligence of the sender or from the nature of the article, and provided always that the indemnity does not exceed, in the case of an uninsured parcel, £1, and in the case of an insured parcel, the sum for which it has been insured. The sender of a parcel which has been lost, or of which the contents have been lost or completely destroyed in the post, shall also be entitled to the return of the postage. He is not however entitled to the return of the insurance fee.

2. The obligation of paying the indemnity shall rest with the despatching office, but, until the contrary is shown, the responsibility for the loss, damage, or abstraction, shall rest with the office which, having received the parcel without making any observation cannot prove its delivery in good condition to the addressee, or in the case of a transit parcel, its regular transfer to the next office.

3. The payment of the indemnity to the sender or addressee ought to take place as soon as possible, and at the latest within a year of the date of the application. The administration responsible will be bound to make good without delay, the amount of the indemnity paid.

4. No application for an indemnity will be entertained unless made within a year of the posting of the parcel, and after this term the applicant will have no right to any indemnity

5. If the loss, abstraction, or damage shall have occurred in the course of conveyance between the exchanging offices, and it shall not be possible to ascertain on the territory or in the service of which the loss, abstraction or damage took place the indemnity shall be shared equally.

6. No responsibility will be admitted for parcels of which the owners have accepted delivery.

MAIL COACH REGULATIONS.

PASSENGERS—At intermediate stations a passenger must take his chance of finding a vacant seat in the coach, and must, if there be a vacancy, then pay his fare to the local Postmaster, or Contractor's Agent.

In either case the amount for such ticket must be paid in cash, and the ticket must be handed to the driver or guard of the coach before the passenger takes his seat.

If any person desires to join the coach between stations (there being a vacant seat) he may do so on condition that he first pays to the driver the full amount of fare from the station last passed to his destination.

In all cases if a passenger intends to leave the coach between stations he must pay the fare to the next station beyond.

The **PERSONAL LUGGAGE** of each passenger is limited to 20lbs. by weight or 2,000 cubic inches by size. Any excess must be paid for as freight, and such excess may not exceed 10lbs. in weight, or 1,000 cubic inches in size.

Dogs are not allowed to be carried by coach.

The commissions on Money Orders drawn on the United States of America, Canada, Canal Zone and Philippine Islands, are 1d. in advance of current Bank Rates.

The commissions on Money Orders drawn on Barbados, British Guiana, the Windward Islands, the Leeward Islands, British Honduras, Bermuda, Turks Islands and Trinidad are as under:—

For any sum not exceeding	£2	Os. 6d.
Above £2 and not exceeding	5	1 0
“ 5 “ “	7	1 6
“ 7 “ “	10	2 0

and 6d. for each additional £3 or fractional part thereof.

The limit amount for Money Orders drawn on United Kingdom, Panama, Costa Rica, Barbados, British Guiana, the Windward Islands, the Leeward Islands, British Honduras, Bermuda, Turks Islands, Trinidad and Cayman Islands is £40, and on United States of America, Canada, Canal Zone and Philippine Islands, £20 10s. 8d. or \$100.

No application can be entertained for compensation for alleged injury from the non-payment of a Money Order at the expected time. When a Money Order is applied for it must be on the clear understanding that no such claim will be allowed, and that the Post Office is not liable, under any circumstances, to more than one payment of a Money Order, even when, notwithstanding the precautions that are taken, the Order has been paid to a person not entitled to receive the money. Re-payment to the Remitter of a Money Order cannot be made until the Chief Office of the Paying Country has been communicated with; and applications for re-payment should be accompanied by a sum equal to the original commission on the Order.

A Through Money Order Exchange also exists between Jamaica and certain British Colonies and Foreign Countries via the United Kingdom. Such Through Money Orders are subject on payment to a deduction of 3d. for each £5 or portion of £5. The full name and address of the Payee of a Through Money Order must be given to enable the Chief Money Order Office, London, to forward to the Payee a Money Order for the net amount payable, the Money Order issued to the Remitter being only of value as a receipt for the amount paid and should be retained by the Remitter.

BRITISH POSTAL ORDERS.

AMOUNTS AND POUNDAGE.

The only Postal Orders sold in Jamaica are British Postal Orders, and they are sold at all the Post Offices in the Island. They are available for use in the colony and in most parts of the British Empire.

The commissions charged on orders issued are as follows:—

At 6d, 1s., 1s. 6d., 2s., 2s. 6d.	½d.
At 3s., 3s. 6d., 4s., 4s. 6d., 5s.	1d.
At 7s. 6d.	1½d.
At 8s., 10s.	2d.
At 20s.	4d.

POSTAGE STAMPS AFFIXED TO POSTAL ORDERS.

The sender of a Postal Order, whether made payable in the United Kingdom or elsewhere (excepting Canada), may increase its value by an amount not exceeding 5d. by affixing British Postage Stamps not exceeding three in number to the face of the Order. No credit will be given for stamps which are in excess of three or which are affixed elsewhere than in the spaces provided. Odd half-pence will not be paid. Stamps perforated with initials or marks, or embossed or impressed stamps cut out of envelopes, post-cards, &c. cannot be accepted for this purpose.

Jamaica stamps may be affixed in a similar manner, but are only given credit for within the Island.

Postal Orders are paid at all Post Offices and Parochial Treasuries in the Island.

British Postal Orders are issued and paid in the undermentioned British Possessions and other places abroad:—

PERIOD DURING WHICH ORDERS ARE PAYABLE.

If an order be not paid within three months from the last day of the month of issue, a commission equal to the original poundage will be charged. The commission thus paid must be affixed in Postage Stamps to the back of the Order. Postal Orders which are not presented for payment within six months from the last day of the month of issue are not paid until reference has been made to London.

FILLING IN OF ORDER.

The purchaser of a Postal Order must, before parting with it, fill in the name of the person to whom the amount is to be paid, and is recommended to fill in the name of the Office of Payment as a precaution in case the Order should be lost or stolen. If the purchaser does not know which Post Office is most convenient to the payee, he should insert the name of the town, village or district where the payee resides. The Order will then be paid at any Post Office in the place named.

COUNTERFOILS.

Every person to whom a Postal Order is issued should tear off and retain the counterfoil. Its production will facilitate inquiry if the Order should be lost.

MISCARRIAGE OR LOSS.

The Postmaster cannot undertake to consider any application respecting a Postal Order which has miscarried, or which has been lost or destroyed, unless the counterfoil be produced, and unless proof be given to his satisfaction that the name of the payee was inserted in the Order before the holder parted with it.

After a Postal Order has once been paid, to whomsoever it is paid, the Postmaster will not be liable to any further claim.

PAYMENT TO THE PUBLIC.

Before a Postal Order is paid the name of the payee and the name of the office of payment must have been filled in and the order must be properly receipted.

PAYMENT THROUGH BANKERS.

If a Postal Order be crossed, payment will only be made through a bank; and if the name of a bank be added, payment will only be made through that bank.

* British Postal Orders are paid at certain Offices in Canada, but are not issued in Canada.

REPAYMENT TO SENDER.

The sender of a Postal Order can obtain repayment of the amount (but not the poundage) on presenting the Order and the Counterfoil at the issuing Office. If the Order has been crossed for payment through a bank the sender must first cancel the crossing by writing across the face of the Order the words "Please pay cash" and adding his initials.

ERASURES, ALTERATIONS, &C.

If any erasure or alteration is made, or if the Order is cut, defaced, or mutilated, payment may be refused.

POSTAL ORDERS NOT NEGOTIABLE.

Postal Orders do not, like Bank of England Notes, represent value in themselves. If an Order is lost or stolen no person into whose hands it may fall, though himself innocent, is entitled to receive the amount of the Order. The rightful owner is alone entitled to cash the Order.

PARCEL POST.

A Parcel Post Exchange, between Jamaica and the United Kingdom; certain places via the United Kingdom; British Colonies in the West Indies; British Honduras, Canada the United States of America and Canal Zone is now in operation.

Parcel Post business is transacted at all Post Offices.

Parcel mails for the British Colonies in the West Indies are made up in Kingston whenever opportunity offers—parcels being received up to two hours before the time advertised for closing the ordinary letter mail; and, for the United Kingdom, by direct steamers when occasion offers.

Parcel mails for the United States, Canal Zone, Canada, and Turks Islands are closed for despatch by each *direct* opportunity, the hour of closing being duly notified on each occasion.

REGULATIONS.

The following are the most important *special* regulations and conditions to be observed with respect to parcels for the United Kingdom, British Colonies, &c.:—

The postage must in all cases *be paid in advance*, and by means of postage stamps which must be affixed by the sender, and no parcel will be accepted for transmission which is not sufficiently prepaid.

Each parcel must be plainly directed, such directions setting forth the name and full address of the person for whom the parcel is intended. It should bear the words, "Parcel Post" in the upper left hand corner, and the name and address of the sender. The date of posting should also be added. *A parcel must not be posted in a Letter Box but must be taken into a Post Office and presented at the counter to the Postmaster or person in charge.*

A certificate of posting will be given to the person posting a parcel but no liability attaches to the Post Office in respect thereof.

Parcels will be liable to Customs duties and regulations, and the sender of each parcel will be required to make a Customs declaration, furnishing—upon a special form provided for the purpose, which can be obtained at any Post Office—an accurate statement of the contents and value, the date of posting, and the sender's signature and place of abode. Customs duties will be collected before delivery. For special particulars of filling up the form see heading of list of Rates.

No parcels containing dangerous articles, perishable articles, articles likely to injure other parcels, liquids unless securely packed in proper cases and surrounded with absorbent material or any contraband articles or substances will be accepted for transmission. A parcel must not contain another parcel or other postal packet intended for delivery to a person other than the addressee of the first-named parcel.

If on examination of any parcel there shall be found in or with the same any letter or communication of the nature of a letter such paper or communication will be withdrawn therefrom, and will be forwarded to the addressee thereof; or, if it be not addressed, to the addressee of the parcel in or with which the same was found enclosed, and the said letter will be surcharged for delivery at the unpaid rate of postage.

Parcels containing articles of an aggregate value exceeding £50 will not be accepted for transmission. This does not apply to insured parcels (for the limit of the value of which vide Special Regulations on page 167)

Parcels re-directed or returned from one country to another will be charged a fresh postage at the rate payable to the country of destination.

If a parcel cannot be delivered as addressed, or is refused, the sender, if his address be given on the parcel, will be communicated with by the Post Office as to the manner in which the parcel shall be disposed of.

Parcels which cannot be delivered will be kept for a reasonable time before being finally disposed of.

Parcels should be securely and substantially packed and closed by the sender and in some cases seals may be found necessary. If wax is used it should be of the special quality which will withstand a hot climate.*

Parcels containing coin, anything made of gold or silver or other precious articles cannot be forwarded to a country participating in the insurance scheme except the parcel is insured.

CASH ON DELIVERY SYSTEM.

A Cash on Delivery System of Parcels is in existence between this Colony and the United Kingdom, and the public can order goods of a maximum value of £20 from a merchant in the United Kingdom. The value of the parcel, plus the fees charged for the service, on being paid to the Post Office, is remitted direct to the merchant in the United Kingdom. In like manner an order from the United Kingdom on Jamaica can be executed, and the value of the parcel collected in the United Kingdom and remitted direct to the merchant in Jamaica.

Any further information, including fees to be charged, can be obtained from the Parcel Post Office, Kingston, to which office the service, at present, is limited.

UNITED STATES OF AMERICA AND THE CANAL ZONE.

The following are the Special Regulations which govern the Exchange of parcels:—

A declaration of contents and their value with the sender's signature and address the date of mailing, and the place of address must be made on the authorised form and fixed to the parcel.

An acknowledgement that a parcel to a stated address had been posted will be given to the poster, but no liability attaches to the Post Office in respect thereof.

Letters, postcards and written matter of the nature of personal correspondence *must* not be enclosed in a parcel.

If such be found the letter will be placed in the mails, if separable; and, if the letter be inseparably attached, the whole package will be rejected. If, however, any such should inadvertently be forwarded the country of destination will collect double rate of postage according to the Postal Union Convention.

A parcel may not contain any other parcel intended for delivery at an address other than that borne by the parcel itself. If such enclosed parcel be detected it must be sent forward singly, charged with new and distinct Parcel Post rates.

Publications which violate the Copyright Laws of the country of destination; poisons and explosive or inflammable substances; fatty substances; confections and pastes; live or dead animals, *except* dead insects and reptiles, when thoroughly dried, and live bees put up in wooden boxes closed with a wire screen protected by a moveable wooden lid; fruits and vegetables, and substances which exhale a bad odour; lottery tickets, lottery advertisements or lottery circulars; all obscene or immoral articles; articles which may, in any way, damage or destroy the mails or injure the persons handling them. Cigars in less quantities than 3,000 in a single package must not be enclosed in a parcel.

Each parcel must be so wrapped or enclosed as to permit its contents to be easily examined by any Postmaster or Customs Officer whose duty it may be to do so; and each parcel will be subject in the country of destination to all Customs duties and all Customs regulations in force in that country for the protection of its Customs revenue.

A parcel may be registered on like conditions to those that govern the registration of other correspondence; or, on payment of the sum of twopence additional to the first charge, the sender can obtain a receipt for such parcel from the addressee.

*The rule does not apply to parcels for the U.S. which must not be closed against inspection in any manner whatever.

Parcels must be so carefully packed as to be safely transmitted in the mails of either country, both in going to the Post Office of exchange of the country of origin, as well as to the office of address of the country of destination; and they must **NOT BE SEALED OR CLOSED AGAINST INSPECTION**, that is, they must not be secured by means of wax, screws or nails, or in any manner which would not admit of their easy examination by the Customs Authorities in the United States.

The country of destination, may, at its option, levy and collect from the addressee, for inland service and delivery, a charge not exceeding twopence half-penny (or five cents on each single parcel of whatever weight; and, if the weight exceed one pound, a charge equal to one half-penny (or one cent) for each four ounces or fraction thereof.

If a parcel cannot be delivered as addressed, within 28 days of its receipt, or is refused, it will forthwith be returned to the senders.

Any request that a parcel may be re-addressed or returned must be accompanied by the amount of postage at the original rate for its further pre-payment.

The Post Office Department of either of the contracting countries will not be responsible for the loss or damage of any package; and no indemnity can consequently be claimed by the sender or addressee in either country.

CANADA.

The following are the regulations and conditions with respect to the Parcel Post Exchange:—

A parcel may not exceed eleven pounds in weight, two feet in length and one foot in width or depth.

The postage on parcels *must* be prepaid by Postage Stamps.

All parcels will be subject to the Customs dues, laws and regulations in force in either country; and to each parcel must be affixed a "Customs declaration" containing an accurate statement of the contents and value thereof; the date of posting, and the sender's signature and address.

A parcel may *not* contain the following:—

I. A letter or a communication of the nature of personal correspondence.

II. Any other parcel intended for delivery at an address other than that borne by the parcel itself. If such enclosed parcel be detected it will be sent forward *singly* charged with new and distinct Parcel Post rates.

III. Any explosive, inflammable, or dangerous substance which may in any way damage or destroy other parcels or the mails, or injure the persons handling them.

An undelivered parcel may be re-directed to the sender in the country of origin on payment of a rate equal to that originally paid on it, such additional postage may either be paid in the country from which the parcel is returned or be collected from the sender on delivery.

Parcels which cannot be delivered to the persons to whom they are addressed, or the senders of which cannot be found, will be returned to the country of origin for disposal as undelivered, or "dead" matter.

The Post Office Department of either country will *not* be responsible for the loss or damage of any parcel.

The parcels must be securely and substantially packed.

The exchange of parcels will be effected by means of steamers plying between ports in Canada and Jamaica.

Parcels received at Jamaica from places over sea under the Parcel Post arrangements with the Imperial Post Office are, in terms of the Post Office Law Amendment Law, 1886, opened at the Head Office, Kingston, for the purpose of the amount of import duty on the contents being assessed.

After such assessment the parcels are delivered as under, and the amount of duty collected in the same manner as the postage on unpaid or insufficiently prepaid Mail matter.

In Kingston if addressed to a place within the house delivery limit, by letter carrier, if beyond such limit, at the "Parcel Post Office."

In the country, across the Post Office counter.

The amount of duty assessed on any such parcel must be paid before delivery, or before the delivery of the parcel from the custody of the Post Office.

All complaints relating to Customs duty on parcels should be addressed to the Collector of Customs, Kingston, as the Post Office has no control in the matter of duty.

PREPAYMENT OF CUSTOMS DUTIES.

And other charges on Parcels Post Parcels to the United Kingdom.

Persons sending parcels to the United Kingdom may if they so desire, take upon themselves the prepayment of the Customs duty and other charges which in ordinary cases are leviable on the addressee. The sender will be told at the time of posting what the approximate amount of these charges will be, and a deposit will be taken of the estimated amount. A settlement will subsequently be made when a statement of the total amount of the charges has been received from the British Post Office. The following are the conditions:—

- I. Parcels to be sent under this arrangement must be handed in at the Parcels Post Branch at Kingston, or at any district post office.
- II. The cover must be marked by the sender "To be delivered free of charge."
- III. The sender must fill up and sign a formal undertaking to pay on demand the amount of the charges due. Forms for this declaration may be had on application to the Parcels Post Branch at Kingston.
- IV. Parcels for free delivery will only be accepted from persons whose settled residence is in Jamaica. If the sender is residing only temporarily in Jamaica a parcel cannot be accepted for delivery free of charge.
- V. A fee of 6d. per parcel is charged for the cost of the service in addition to the postage and deposit for duty. This fee must be paid by a stamp or stamps affixed by the sender to his form of undertaking in the place indicated.
- VI. The sender must make such deposit on account of the charges for which he desires to provide as the clerk in charge of the Parcels Post Branch at Kingston or the district postmaster may, in each case, decide. This deposit will, for the present, be the amount of the estimated duty and must be paid by stamps affixed to the form of undertaking in the place indicated.
- VII. When a deposit has been collected the clerk in charge of the Parcels Post Branch at Kingston will fill up and sign the receipt at the foot of the form of undertaking. He will hand it to the sender, if the parcel is despatched from Kingston, or send it to the district postmaster to hand it to the sender, if the parcel is despatched from any other post office.
- VIII. One form of undertaking will suffice for two or three (but not more) parcels posted together by the same sender to the same addressee. In such cases the fee will be 6d. for each parcel.
- IX. The following are the articles liable to duty under the United Kingdom Tariff which are likely to be despatched from Jamaica by Parcels Post, together with the rates of duty thereon:—

INSURANCE OF PARCELS

To the United Kingdom and certain other Countries.

1. Every insured **Parcel** must be packed carefully and substantially, with due regard to the nature of the contents and the length of the journey and must be sealed with wax or lead in such a way that it cannot be opened without either breaking the seal or leaving obvious traces of violation. For instance, seals must be placed over each join and loose flap of the covering of a parcel; and, if string be used in packing, a seal must be placed on the ends of the string where they are tied.

2. All the seals on an insured **parcel** must be of the same kind of wax or lead and must bear distinct impressions of the same private device. Coins must not be used for sealing; and the device must not consist merely of straight, crossed, or curved lines which could readily be imitated.

3. **Parcels** containing coin or bullion (not to exceed £5 in value, except in the case of coins clearly intended for purposes of ornament,) watches, jewellery, or any article of gold or silver must be enclosed in strong boxes or cases, which must be sewn up or otherwise fastened, in wrappers of linen, canvas, strong paper, or other substantial material. In such cases the seals must be placed along the edges of each join and loose flap at distances not more than three inches apart. The address of such parcels must be written on their actual covering.

4. If a **Parcel** tendered for insurance does not, in the opinion of the officer of the Post Office to whom it is tendered, fulfil the foregoing conditions as to packing and sealing, it is his duty to refuse to insure it. Nevertheless the onus of properly enclosing, packing, and sealing the packet lies upon the sender: and the Post Office assumes no liability for loss arising from defects which may not be observed at the time of posting.

5. The amount for which a **parcel** is insured must be written by the sender both in words and in figures at the top of the address side of the cover, thus:—"Insured for fifteen pounds (£15)". No alteration or erasure of the inscription is allowed. If a mistake is made, the entry must be completely obliterated and an entirely new one made by the sender. The amount must be entered on the letter Bill for Kingston.

6. No **parcel** can be insured for more than its actual value, or for more than the sum entered below against the name of the Country or Colony to which it is addressed. A **parcel** of which the contents have no saleable value may, however, be insured for a nominal sum in order to obtain the safeguard. **Over-insurance is an obstacle to compensation.**

7. All parcels post parcels addressed to the United Kingdom (or other places to which the insurance system extends) containing articles of jewellery, watches, bullion or other articles of gold or silver, must be insured and cannot otherwise be forwarded to destination.

8. The countries to which **parcels** may be insured, the sum payable for Insurance in addition to the postage which must be affixed to the parcel and the limit of insured value are:—

Country.	Limit of Insured Value.	Fee to be collected in addition to the postage for every £12 of insured value.	Country.	Limit of Insured Value.	Fee to be collected in addition to the postage for every £12 of insured value.

FOREIGN AND COLONIAL PARCELS POST.

THE Sender of a Parcel for any place abroad must fill up a CUSTOMS DECLARATION on a form provided for the purpose. There are two forms in use—one yellow, and one white. In column 3 below, the letter "W" signifies that the white form must be used, and the letter "Y" that the yellow form must be used. The figure following the letter "W" shows the number of copies of the Customs declaration which are required in each case. When the white form is used, the sender must also fill up a Despatch note (supplied at all Post Offices) which must accompany the parcel.

Every parcel post packet addressed to the United Kingdom or any of His Majesty's Colonies or Dominions will bear an extra tax of 3d., except those which are addressed to members of His Majesty's Navy and Army.

On every parcel or packet containing dutiable matter arriving in the Island through the post a tax of 3d. will be collected.

POST OFFICE TELEGRAPHS.

THE Government Telegraphs are under the control of the Postmaster for Jamaica. The Telegraph Offices are in the same buildings as the Post Offices.

The charge for telegrams throughout Jamaica is ninepence for any number of words up to twelve, and a half-penny for every additional word. The address and signature are both counted. The charge is paid in postage stamps affixed to the message.

If the Addressee reside within one mile of the terminal office the telegram is delivered by messenger without any additional charge; but if beyond that limit the following portage fee must be prepaid:—

a. If the whole distance be under three miles at a charge of sixpence (6d.) per mile counting from boundary of the free delivery.

b. If the distance be over three miles at a charge of one shilling (1s.) per mile, counting from the office.

The charges for the transmission and for portage of telegrams must be pre-paid by means of adhesive stamps.

Persons resident at a place to which the Island Telegraph Line has not yet been extended can benefit by its use on the following conditions:—

1. If the words "By Post" with the name of a telegraph station be written on a message it will be wired to such station and forwarded from thence to its postal address by first post.

2. If a letter marked "On Post Office Telegraph Business" be sent *by post* to the Telegraph Clerk at any station the message enclosed will be promptly forwarded *by wire* from such station. In this case the letter by post must be registered and the cost of the message enclosed in stamps or coin. Telegrams may also be handed to a mail courier on his way to a telegraph office, but the department does not take any liability for miscarriage.

3. No charge will be made in either case for postage or registration.

4. Telegrams addressed to the United Kingdom or to any foreign place with which there is telegraphic communication are accepted at any Telegraph Station in Jamaica on payment of the inland rate, in addition to the amount charged by the Cable Company, which may be ascertained by application at each station.

5. Telegrams may be sent to certain ports for outward transmission as letters. The senders must write "by Post" before the addressee's name, and the name of the terminal Telegraph Office at the end of the address.

For example—

"By Post," Brown, 12 Fifth Avenue, New York, Kingston."

In addition to the ordinary telegraph charge of $\frac{1}{4}$ d. a word, the sender must also pay the postage fee.

In such cases registered addresses cannot be used.

6. The office hours are from 7 a.m. to 5 p.m., daily—Sundays and Bank Holidays excepted.

7. Deferred telegrams in plain language are accepted at all Telegraph Offices at half rates and under the prescribed conditions for the following places:—

Aden, Ascension, Algeria, Australia, Austria, Bathurst, Belgium, Bermuda, Burmah, Brazil and Amazon Stations, B. N. Borneo, B. W. I. Colonies, British Dominions, Canada, Canary Is., Ceylon, Congo (French & Belgium), Cocos Is., Cyprus, Denmark, East Africa, Egypt, France, French Guinea, French Somali Coast, Djibouti and Obok, Germany, German Gold Coast, Greece, Holland, Hungary, Iceland, India, Italy, Labuan, Luxemburg, Madagascar, Mauritius, New Foundland, Nigeria N. & S., Norway, Netherlands, Dutch Indies, North Africa (Spanish Possessions only, excepting Casablanca and Mogador), Perim, Portugal, Reunion, Rodrigues, Servia, Sierraleone, Somaliland, Strait Settlements, St. Helena, Spain, Sweden, Senegal, Soudan, Switzerland, Turks Island, Union of S. Africa, United Kingdom, Uruguay, Zanzibar.

The inland rate for radio telegrams is, minimum 5d. for 10 words and $\frac{1}{2}$ penny for every extra word.

GOVERNMENT MEDICAL SERVICE.

For years the necessity of a Medical Service in Jamaica was pressed on the local Legislature and in opening the Session of 1852 Sir Charles Grey brought the subject prominently under their consideration. He stated that "the want of a sufficient number of Medical Practitioners was universally felt throughout the island by almost the entire body of inhabitants, whether high or low, rich or poor," and he strongly urged the Assembly "to make adequate provision" for such service. He assured them that "in some of the districts medical advice was not to be procured at all; in others only after a long delay and at a cost which virtually rendered it unattainable by the majority of the inhabitants." The loss of life alone (and the consequent loss of labour) which annually resulted from this deficiency," he added "was in itself a sufficient ground to justify any expenditure which it might be necessary to incur in placing the means of obtaining medical assistance within reach of the people generally." In the discussion of the question which ensued the Honourable Mr. Westmoreland stated that "the majority of the medical men were settled on the sea-boards, and those who lived in the country knew that for twenty to thirty miles no doctor was to be found." Doctor Bowerbank assured the House that "the people died from preventable diseases for want of medical aid," and showed that "the whole amount then paid to the members of the medical profession in the different parishes amounted but to £2,300 per annum." This state of things continued until the year 1868 when Sir John Grant made provision to the extent of £3,000 for medical aid, and appointed on the 1st December fifteen Medical Practitioners as Government Medical Officers at salaries ranging from £200 to £300 per annum, chargeable partly to the poor rates and partly to the general revenue. At the close of the year there were forty medical districts defined and thirty-five Medical Officers appointed thereto, five being then vacant as no eligible Medical Practitioners were available.

The Department thus organised was placed under a professional head designated the Superintending Medical Officer, who was also constituted the Adviser of the Government upon medical and sanitary questions.

The Duties of the Medical Officers are specified in the following rules which were framed by the Secretary of State for the Colonies, for the guidance of candidates for employment, and contain the principles on which the service is regulated:—

1. The Colony of Jamaica is divided, for medical purposes, into districts of varying extent and population, to each of which, as a general rule, is attached one Medical Officer who is held responsible for the due discharge of all medical duties within his district.

2. The District Medical Officers, who must reside within the limits of their respective districts, are required in the discharge of their public duties, to undertake the medical charge of the paupers on the parochial rolls, and of any hospital, alms house or prison in their districts; to attend upon the Constabulary; to exercise a general control and superintendence over the Government dispensaries of their districts; to vaccinate and to advise the Government and Parochial Authorities on questions affecting the public health; and for such public duties no fees are receivable by them.

3. Medicines for the Public Service are supplied by the Government.

4. District Medical Officers are expected to provide themselves with a small case of surgical instruments of the best make.

5. The immediate control of the Medical Establishment is exercised by a Superintending Medical Officer.

6. The fixed salaries of the district appointments now vary from £100 to £150 per annum.

7. The District Medical Officers are at liberty to take private practice. The value of the private practice varies from £600 to £150, exclusive of Court and Inquest Fees, and also Vaccination fees, at a rate not exceeding 1s. for each certified successful case after the first 25 in each quarter, subject to the approval of the Governor. It must, however, be clearly understood that these figures are to be taken as only approximate, and that no guarantee as to the value of the private practice is given by the Government, and that it rests entirely with the Medical Officers themselves to develop the private practice of the districts in which they are placed, by securing the confidence of the population with which they are brought in contact.

8. The District Medical Service of Jamaica is, in fact, to be regarded as a system in aid, the object of which is to diffuse medical assistance throughout the several parishes by inducing Practitioners to locate themselves in districts which, without some contribution from Government, would be altogether destitute of medical aid and advice, and the pay received by the Medical Officer from Government may be regarded as a retainer for professional services to be given as a Private Practitioner within the area in which he resides.

9. The gentlemen selected for these appointments must possess qualifications in medicine and surgery, and must be registered in England or Jamaica, and will be required to present themselves to a Physician, who will be named by the Secretary of State for the Colonies, whose duty it will be to report upon their physical qualifications for service in the tropics, and to approve the surgical instruments with which they propose to provide themselves. They will be provided by Government with a passage out to Jamaica, subject, however, to the customary agreement made with the Crown Agents for the Colonies, that the cost of the passage shall be refunded by the Medical Officer, should he within the period of three years from the date of his arrival in the colony quit it without leave, or relinquish his appointment for other cause than bodily or mental incapacity to continue the performance of his duty.

10. Gentlemen who have had no previous experience of the diseases of tropical climates will be attached, on their arrival in the colony, to the Public Hospital in Kingston as Supernumerary Medical Officers, for such a period as the Governor shall in each case direct for the purpose of making themselves acquainted with the features and treatment of tropical disease. During this introductory service they will receive an allowance at the rate of £200 per annum, but will not be permitted to undertake private practice.

11. District Medical Officers will be entitled to leave of absence on half pay for a period of not more than six months after each period of six years service; it will, however, be left to the discretion of the Governor, looking at the exigencies of the service, to decide in each case the exact period at which such leave shall be granted.

12. Medical Officers will also be granted leave on half-pay on account of sickness duly certified by medical authority, in such manner and under such restrictions as the Governor may prescribe.

13. The District Medical Officers hold office subject to summary removal by the Governor for misconduct or for neglect of public duties, or for inattention to the wants of their district in their capacity as Private Practitioners. They will be allowed pensions at the end of 20 years' resident service; the pension to be calculated at the rate of one-sixtieth of the salary, exclusive of any fees, for each year's service, provided that the total amount does not exceed two-thirds of the salary.

14. It is to be understood that the full amount of pensions or indeed any pension will not be claimable as a right; and that it will be in the discretion of the Governor to withhold a pension, or to award a reduced pension, if the circumstances of any individual case appear to him to warrant such a course.

15. Gentlemen appointed Medical Officers will be expected to proceed to Jamaica within two months from the date of their appointment.

16. Candidates for appointment should apply to the Secretary of State for the Colonies, who requires that all applications should be accompanied either by recommendations from persons known to himself, or by satisfactory testimonials from eminent members of the medical profession.

17. District Medical Officers have no vested interest in a district to which they may be appointed, or in the size of such district.

The Governor may at any time, in the interest of the public service, reduce or enlarge the size of any district.

18. District Medical Officers will be available for "any other duties" that the Governor shall call upon them to perform without any extra remuneration.

19. Should there be no hospital in a district, the District Medical Officer is required to keep and dispense drugs for constables and prisoners, paupers and yaws patients.

The drug supply is obtained from the Island Medical Stores.

20. No fees will be allowed to District Medical Officers for attendance on Indentured Immigrants located in the districts. The selection of a medical man to visit and to attend estates is left to the S. M. O. and Protector of Immigrants conjointly.

21. District Medical Officers are prohibited in future from entering into any business engagements unconnected with their profession. This prohibition does not extend to cases where land is necessarily attached to a house occupied by a District Medical Officer, and where he can supplement his income by having the land cultivated, without hampering himself in the discharge of his duties. This rule is to be considered prospective in respect to acquiring additional property on the part of those officers now in the service.

22. Under instructions conveyed in Colonial Secretary's Letter No. 6106/6163, dated the 7th October, 1886, District Medical Officers subsequently appointed are required to regulate their charges by the following tariff of medical fees which has been approved by the Legislative Council.

TARIFF OF MEDICAL FEES.

1. Advice and medicines at the District Medical Officer's residence or private or Government Dispensary—4s.

For each subsequent visit as above in the same case, 2s.

2. For each visit in town from 6 a.m. to 7 p.m., within a radius of one mile from the centre of Town—6s.

3. For each visit in the Country or within a radius of one mile from the District Medical Officer's residence—4s.

4. Mileage in addition to fee for visit for any distance over one mile from District Medical Officer's residence, 1s. 6d. per mile or part of a mile one way; that is to say, the mileage paid for the outward journey to cover the return.

The above charges to include ordinary medicines.

5. For night visits from 7 p.m. to 6 a.m., one half fee and half mileage extra.

6. If asked to stay for a day or night, according to agreement.

7. Consultation as Physician or Surgeon—21s., with mileage at the above rates.

Consultation means "in consultation with another medical man."

Every subsequent consultation on same case with mileage at above rates—10s. 6d.

Consultation by letter and medicines supplied if necessary—6s.

8. A medical certificate—21s.

Ditto ditto if attending patient—10s. 6d.

9. *Midwifery*.—Ordinary cases for attendance at delivery—£2 2s. and mileage. Instrumental cases: extra according to circumstances.

10. *Surgical Operations*.—Minor operations—10s. 6d. Fracture of upper and lower extremities—21s., appliances extra. Major operations according to agreement.

11. This scale of charges is not intended to interfere with any arrangements made between the Medical Officers and their patients and is intended to apply to cash payments only, that is, at the termination of the visit, or monthly, if attendance should be necessary for more than one month.

12. The Tariff does not apply to any *but bona fide residents* in the island.

23. Tariff of Medical Fees for attendance upon families of European sub-officers of Constabulary:—

For each day visit—3s.

Advice at Dispensary—2s.

For each night visit—6s.

Midwifery—£1 1s.

Mileage at 1s. 6d. per mile, when necessary.

24. The Government in medico legal cases before the Courts shall have first claim on the services of all Medical Officers who are in the Government Medical Service, and only such fees, if any, as are allowed by "The Witnesses Expenses Law" or its amendments, shall be given in payment.

In special cases in which a Government Medical Officer is with the consent of the Governor engaged to give expert evidence, such fees not exceeding £5 shall be paid as the Court in the discretion of the Presiding Judge shall allow.

25. Medical Officers joining the service after January, 1909, or on transfer after that date at their own request, are liable to be called upon by the Governor to hold outstations in such parts of their district as the exigencies of the public service appear to need. The Governor may appoint two such stations and no more for weekly visits to be held.

26. On outstation days, District Medical Officers will count mileage as from an outstation when the call is made at the outstation.

27. All Government Medical Officers whose—

(a) whole time is at the disposal of the Government,

(b) whole time is at the disposal of the Government, but who in addition are allowed consulting practice, are liable to perform any duty connected with their profession that the Governor may at any time call upon them to perform and that they reasonably are able to perform.

28. It is the duty of all Government Medical Officers who are in medical charge of Institutions such as Hospitals, Asylums, Sick Homes, Prisons, Penitentiaries, Industrial Schools, Reformatories, Public Schools managed by Trusts, whether under Government or otherwise, for attending which they receive fees or a salary, to call the attention of the responsible authorities of such Institutions to all matters affecting the sanitary condition and general sanitation thereof.

Districts.—There are 41 Medical Districts (including Port Royal) at present under the charge of 41 District Medical Officers, and the affairs of the Public Hospital have been entrusted to the direction of the Superintending Medical Officer, who has under him at that institution a Senior Medical Officer, whose duties are confined to purely professional work, assisted by two Resident Medical Officers, and two Supernumeraries, who, however, are liable to be sent away at any time to fill a temporary or permanent vacancy in any district. During the year 1886-87 the Lunatic Asylum was placed under the direction of the Superintending Medical Officer. A Medical Superintendent and two Assistant Medical Officers are employed and reside at the institution.

Cost of Medical Service.—The actual expenditure for the Medical Service of the colony for the year ending 31st March, 1916, was £72,670 18s. 3d. The receipts were £14,135 14s. 11d., and the actual cost after deduction of the receipts was £58,535 3s. 4d.

Leave and Pensions.—As an outcome of the Report of the Royal Commissioners instructions were issued that District Medical Officers are not to be allowed to engage in any business unconnected with their profession; or to occupy land except in cases where the occupation of the land necessarily accompanies that of the house.

During the first year of the constitution of the Government Medical Service its officers received no concessions from the Government by way of pension or leave of absence. If a Medical Officer requires to quit the island on the ground of ill-health he had to forfeit all his subsidised salary in order to provide a substitute, but in the year 1877 the arrangements set forth in the 11th, 12th and 13th sections of the Regulations given above in respect to leave of absence and pensions were sanctioned by the Secretary of State. Section 24 of the Pension Law, 31 of 1885, preserves the right to pensions to those District Medical Officers who entered the service before the coming into operation of that law, and officers joining the Department since and holding appointment at the time of the passing of the Pensions Regulation Law, 26 of 1892, or who may subsequently be appointed, will be at liberty to contribute to a Pension Fund.

Medical attendance on the poor.—The subject of medical attendance on poor persons who, although not paupers, are unable to pay the fee of four shillings, nominally considered the lowest charge by the Medical Practitioners, having been under consideration for some time, the Governor, pending the establishment of Government Dispensaries throughout the island, passed in September, 1880, certain rules for affording medical aid to them under a ticket-system. These rules, were amended in September, 1904, and stand as below:—

1. The Governor will on the nomination of a Chairman of a Parochial Board or otherwise appoint gentlemen to be Distributors of Medical Relief Tickets, who will be furnished by the Superintending Medical Officer with copies of these Rules and with tickets of the respective values of 3s. and 2s., as respects all parishes other than Kingston and of the values of 2s. and 1s. as respects Kingston; and any appointment so made shall be subject to revocation.

2. Any person not on the Pauper Roll, who is really unable to pay the assumed minimum fee of 4s. may, if considered deserving of the relief, obtain from any of the gentlemen so selected a ticket which, on presentation at the Government Dispensary, or where there is no such Dispensary at the residence of the District Medical Officer, will entitle the holder, on payment of the fee represented on the ticket, to medical advice and medicines.

3. A separate ticket must be presented on the occasion of each application at the Government Dispensary or Medical Officer's residence; but, in the event of a second or third visit being necessary during the treatment of the case, two-thirds only of the amount

represented on the ticket first presented will be demanded, and half for subsequent applications during the continuance of the same illness.

4. Any person in receipt of a ticket who may be unable to attend at the Government Dispensary, or at the Medical Officer's residence, by reason of serious illness or infirmity, (a note to this effect being made on the ticket by the gentleman making the recommendation,) will be attended at home by the District Medical Officer of the district, if the applicant is able to pay the cost of mileage as well as the fee represented on the ticket.

5. Any such ticket presented to the Medical Officer of the district will require him to attend at the home of the patient, on payment of an amount for mileage at the rate of 1s. per mile going and 6d. returning.

6. The fees represented on such ticket must be paid by the applicant for relief, together with the cost of mileage in cases where the Medical Officer is required to attend at the home of the patient.

7. In case of prescriptions prepared at Government Dispensaries, or with Government Drugs, one-third of the fee received with the ticket shall be credited to the Government to cover the cost of the medicines and two-thirds to pay the Medical Officer; when made up by the Medical Officers from their own drugs the entire sum represented on the ticket shall be their fee.

8. Medical Officers having charge of Government Dispensaries will attend to the holders of tickets between the hours of 9 and 11 o'clock a.m. on two days in the week which will be fixed by the Medical Officer.

9. Prescriptions to be made up at Government Dispensaries will be attended to daily, Sundays excepted, between the hours of 11 a.m. and 4 p.m.

Dispensing School.—A Dispensing School has been established at the Public Hospital for the purpose of training efficient Dispensers for the several medical institutions of the colony; there are at present 9 students undergoing a course of instruction.

Hospitals.—The accommodation allowed in the Public General Hospitals and Lepers Home, as far as room for beds is concerned, is as follows, namely:—

Morant Bay Hospital	20 beds	Cave Valley Hospital	6 beds	Chapelton Hospital	30 beds
Hordley Hospital	55 "	Falmouth	14 "	Lionel Town Hospital	100 "
Port Antonio	110 "	Ulster Spring	6 "	Spanish Town Hospital	90 "
Buff Bay	176 "	Montego Bay	46 "	Linstead Hospital	25 "
Annotto Bay	134 "	Lucea	20 "	Lepers Home	120 "
Port Maria	85 "	Sav.-la-Mar	170 "		
St. Ann's Bay	20 "	Black River	25 "		
		Mandeville	25 "		
				Total	1,277

Admissions to the public general hospitals are now restricted to the following classes of cases by order:—

1. Cases of serious accident.
2. Cases of acute disease requiring hospital treatment.
3. Cases likely to be benefited by operation, and, of course, constables and coolies who have to be admitted under the Law.

Accidents and Acute Illness.—Cases of serious accident or acute illness if in a condition to be moved should be sent to the nearest Public General Hospital, where they will be admitted at any hour of the day or night. If the person is too poor to pay for a conveyance the police should be informed and they will in such special cases make the necessary arrangement for removal to the Hospital. The following are the rules governing the admission of patients to the Public Hospital, Kingston, and to Public General Hospitals:—

Regulations for the guidance of the Outdoor Department at Public General Hospitals.

1. There will be an Outdoor Department at each Public General Hospital.
2. The Outdoor Department will be opened daily. Patients must attend between the hours of 9 and 10 a.m., Sundays excepted, or between such other hours as the Governor may sanction, and those patients only who come within those hours will be attended to by the District Medical Officer.

3. (1) Persons entitled by law or regulation to free medical attendance may, on presenting themselves, be treated as outdoor patients without prejudice to any other claim they may have on the services of the Medical Officer, such as persons on the pauper roll, constables, and East Indian immigrants.

- (2) Other persons seeking medical aid under this system must produce a written recommendation from a person authorized by the Governor in that behalf. A

person with a ticket from a Ticket Distributor may also attend under the provisions of sub-section (1).

(3) Medical Officers may also treat under this system

(a) persons who come without a recommendation but whose circumstances are known to them, and who are deserving cases for treatment;

(b) persons seeking admission to Hospital, but whose cases are unsuitable for treatment there;

(c) persons for whom there is no room in Hospital.

(4) Persons presenting tickets from distributors of medical relief tickets may also be treated, and for this purpose distributors are authorised to issue tickets representing fees of 3s., 2s., and 1s., respectively, the amount being determined in accordance with the measure of relief necessary in each case. One-third of these fees is to be credited to Government to cover the cost of drugs, etc., and two-thirds to be retained by the Medical Officer.

4. Any person who, except under the instruction of the District Medical Officer, has allowed more than one month to elapse between visits or applications for medicine must produce a fresh recommendation.

5. Persons authorised to grant recommendations shall be appointed by the Governor, and the Custos or senior Resident Justice of the Peace of each parish may nominate suitable persons to the Governor for such responsibility, and any appointment so made shall only be held during the pleasure of the Governor, who may at any time cancel the appointment.

6. Persons authorised to grant recommendations for outdoor treatment at a Hospital must in each case state from their own personal knowledge that the person recommended is unable to pay any fee for medical attendance.

7. Each patient treated and prescribed for shall have his or her name, age, and sex, with date of attendance, noted in a book to be called the "Register of Outpatients."

8. The treatment given to each patient shall also be entered in the register on each occasion on which he attends hospital, and the name of the patient and date of attendance shall in each case be marked on the bottle or package of medicine delivered. Medicine shall not be prescribed for more than one week at a time.

9. Every patient shall provide his own bottle or may pay 1d. for a bottle.

10. Medicines shall be made up by the Government Dispenser at the Hospital daily.

PUBLIC HOSPITAL, NORTH ST., KINGSTON.

Patients.—The patients are divided into two classes, viz.:—In-door patients, admitted within the Wards of the Institution and out-door patients receiving medical advice and medicines at the Dispensary of the Institution.

Applicants for admission as in-door patients of the Hospital will be seen daily by the Medical Officers between the hours of 10 and 11 o'clock a.m.

Applicants for Medical advice and medicines as out-door patients must bring with them a Ticket of recommendation from the Custos of Kingston or the Inspector of Poor or such other persons as the Governor may nominate and appoint to grant tickets.

By notice in Jamaica Gazette dated September 7th, 1916, it is hereby notified, for general information, that any person who may be suffering from venereal disease (that is gonorrhoea, chancres or syphilis) or from complications of any form of venereal disease will be treated free of cost at the Out-patient Room of the Public Hospital, Kingston, if they attend at 11.30 a.m. Males—on Wednesdays and Saturdays. Females—on Mondays and Thursdays.

Those requiring subsequent dressing will be attended at 7 a.m. in the casualty room any week day.

They will be examined and prescribed for by the Resident Medical Officers at noon as follows:—

Mondays and Thursdays—for Women and Children

Tuesdays and Fridays—for Men

All cases of accident or emergency will be admitted at any hour of the day or night by the Resident Medical Officer on duty.

No seaman, hired, articulated or apprenticed to any vessel, and no person apprenticed to any person, shall be admitted into the hospital except on occasion of serious accident or other extreme emergency, until the consignee of such vessel, or the proprietor or agent of such estate, or the master or employer of the person indentured or apprenticed, shall have given a letter of guarantee to the Chief Medical Officer and Director undertaking to the extent of £20 for the payment of the hos-

pital dues at the rate of 2s. 6d. per diem for each seaman and 1s. 6d. per diem for each apprentice, and for payment also of funeral expenses in case of death.

All persons (other than articulated seamen, indentured immigrants or apprenticed servants) who are admitted into the wards of the hospital for medical treatment as in-door patients, who are not wholly destitute of means may be required to contribute towards their maintenance in the hospital by payment of such proportion of the hospital dues fixed by Law as may be determined by the Chief Medical Officer and Director.

PUBLIC GENERAL HOSPITALS.

Patients.—All applicants for admission (except in case of emergency) shall be seen at the hospital by the medical officer between the hours of 9 and 11 a.m. In the case of immigrants they will be received daily up to 6 p.m.

Applicants for admission who are on the Parochial Pauper Roll shall be admitted free of all charges, provided the medical officer considers them fit subjects for hospital treatment.

Other applicants, not on the Parochial Pauper Roll, but who are unable to contribute towards their maintenance, shall be admitted into Hospital free of all charges on the written recommendation of the Custos or Chairman of Parochial Boards, or the Inspector of Poor or Clerk of Parochial Board, or of any member of Board of Official Visitors of the hospital, provided, on examination, they are found fit subjects for admission, and that there is accommodation available.

Creole and Coolie Labourers on Sugar Plantations shall be admitted free of all charges, provided that, on examination, they are considered by the Medical Officer suitable cases for hospital treatment, and that there is accommodation available for them.

All cases of accident or serious illness will be admitted at any hour of the day or night. Applicants resident in districts other than those served by Public General Hospitals should apply to the District Medical Officer of their District who will, if he considers their case suitable for hospital treatment, furnish a certificate to that effect, which the applicant should present at the nearest Public General Hospital not later, if possible, than 10 a.m. This rule however will not prevent cases of accident or serious illness in special cases being admitted at any hour of the day or night as stated in Rule 74.

THE JAMAICA LUNATIC ASYLUM.

The foundations of the Jamaica New Lunatic Asylum were laid in 1843 for the accommodation of 250 inmates, but, in consequence of the financial embarrassments of the colony, the buildings were not completed and occupied until 1860, when the male patients who were confined at the old asylum—a part of the Kingston General Hospital—were transferred. The female inmates followed two years later.

The management of the old Asylum was vested in a body of Commissioners appointed by the House of Assembly.

Dr. Bowerbank, in 1861 secured the appointment of a commission to investigate the alleged abuses in the treatment of lunatics. In that year, an Act was passed for the proper supervision and government of the new Lunatic Asylum, and a Board of Visitors, an Inspector and Director, with a Medical Superintendent, were appointed to manage the institution.

Dr. Thomas Allen, Senior Assistant Medical Officer to the Suffolk County Asylum, was appointed Medical Superintendent and soon after the duties of Inspector and Director were imposed upon him. He was a most energetic officer, and worked assiduously to ameliorate the condition of the inmates and their surroundings. In a few years he had the satisfaction of seeing the death-rate of the institution reduced by 50 per cent.

In 1893 it was found necessary to extend the boundaries and increase the accommodation. For this purpose £45,000 were borrowed to build a new asylum for the accommodation of 450 female lunatics; the buildings were completed and occupied early in 1906. The congestion from which the asylum had suffered for years was thereby effectually relieved. Subsequently, however, the population increased at such a rate that

a new ward for the accommodation of 100 female patients was completed and occupied in 1912, and at present the increase in lunacy is so marked that the necessity of a further extension of the buildings will, it is feared, have to be seriously considered by the Government in the near future.

The following table shows the most salient features in the management of the institution since 1886. It will be observed that with the growth of its population the maintenance-rate is reduced. The percentage of recoveries has steadily increased.

TRAVELLING DISPENSARY.

This dispensary started work on February 8th, 1915, the Hospital portion being located on Hazelymph Estate on a plot of ground very kindly lent for the purpose, free of charge, by Mr. F. H. Delisser who, in conjunction with his Overseer, Mr. Harris, has done everything possible to help to make the dispensary a success.

The hospital attached to the dispensary contains 12 beds. Up to 12th June 1,498 cases of yaws had been treated by the dispensary and in the hospital, with salvarsan—of these 1,109 were returned as having been cured of symptoms, the remainder being still under cure, while 104 of these cases of yaws were admitted to hospital.

376 cases of Hookworm were treated by means of the dispensary, while 331 patients suffering from Hookworm infection were admitted to the hospital.

The Travelling Dispensary came to an end on June 12th, 1915, owing to the inability to obtain salvarsan.

LEPERS HOME.

The Lepers' Home, situated in the neighbourhood of Spanish Town, is under the direction of the Superintending Medical Officer. This institution contains 120 beds, and during the year 1915-16 148 cases of Leprosy were treated there. The daily average of patients being 126.

VICTORIA JUBILEE LYING IN HOSPITAL, NORTH STREET, KINGSTON.

THIS Institution was founded in commemoration of the Jubilee of Queen Victoria, and the building was raised, to a considerable extent, from small voluntary contributions by the people of Jamaica in token of their loyalty to the late Queen and in honour of the great event, supplemented by a vote by the Legislature from general revenue. The institution, however, is maintained by an annual vote from the Legislature.

It was felt by those best able to judge that great hardship and a large mortality resulted from the want of midwives who could undertake even the most simple cases of labour

and it was considered that there was no more appropriate or useful way of commemorating Her Majesty's Jubilee in Jamaica than by establishing and maintaining an Institution, which tended to alleviate the sufferings of the sex for which Her late Majesty did much.

The Hospital, which was opened at the close of the year 1891, is a substantial brick building with verandahs along the sides in the tropical style. Accommodation was provided in the original building for 20 patients and 8 pupil nurses; it has however now been reduced to 18 patients and 8 pupil nurses. The Matron and two charge nurses are resident.

During the first twelve months only 89 patients were admitted. The number steadily increased year by year and in the year ending March 31st, 1904, 813 patients were treated. Owing, however, to the reduction in the number of beds and increased charges there has been a considerable diminution in the number of patients treated; for the twelve months ending 31st March, 1916, it was 517. The daily average of patients is 13. The total number of nurses trained up to the close of financial year ending 1916, was 200.

Admission to Hospital.—The following are the rules regulating the admission of patients into the Hospital:—

Cases of Instrumental labour and urgent cases will be admitted for treatment at any hour, and for this class of cases two beds shall always be kept in readiness.

In the event of the Institution being full, or from any other cause, it being undesirable to admit fresh inmates, the Matron shall in consultation with the Visiting Surgeon have power to refuse admission to any applicant, but shall at once notify the fact to the Police in order that other arrangements may be made.

Every other poor person desiring to obtain treatment in the Institution will be required to produce:

- (a) a certificate (gratuitous) from the Inspector of Poor that she is unable to pay for her treatment, and from the District Medical Officer that she appears to be a suitable case for admission to the Institution, or,
- (b) an approved agreement to pay 15s. and 1s. per day for every day's maintenance after 10 days in Hospital, as well as any other exceptional expense incurred such as for removal of patient or burial.

The matron will attend daily at the hospital at 10 a.m., to register applicants for treatment and to arrange for their admission.

Payment will, according to the foregoing rules, be required for the treatment and maintenance of any person admitted as an instrumental or urgent case, who may be in position to pay, and when necessary enquiry will be made as soon as practicable of the Inspector of Poor as to the ability of the patient, or her friends, to pay the hospital dues.

Attendance at Homes.—The following are rules regarding action to be taken in cases of childbirth occurring among poor persons who are at the time destitute of the means of procuring such aid and where, at the same time, there is danger to the woman's life:—

- (a) The cases to be relieved under this system must combine the two conditions of danger to the woman's life (or to that of the child) and evidence of destitution of the means to procure medical aid at the time.
- (b) The applicant for this form of relief in all cases where practicable is required to sign a promise to refund to the parish within a specified time the amount of the medical officer's fee and mileage, if any, in such instalments as may be named in the form.
- (c) Should the applicant bring any portion of the fee it should be accepted as an instalment and be brought to account as a refund by the Inspector. In cases where the medical officer receives any money (on being applied to in the absence of the Inspector) he should forward it to the Inspector, and it is in the Inspector's duty to endeavour to procure the remainder, the medical officer being in all cases paid his claim in full by the Parochial Board.

The order to visit should ordinarily be sent to the District Medical Officer. When his services are not immediately available it should be sent to the nearest registered medical practitioner willing to attend for the fee and mileage allowed.

- (e) In the absence of the Inspector (or Assistant Inspector) application should be made to the medical officer direct.
- (f) The fee to a medical officer or practitioner for his services in a case of this kind has been fixed at one guinea, and mileage of 1/6 per mile one way.

The rules respecting Pupil Nurses can be obtained from the Matron.

QUARANTINE.

THE practice of Quarantine in this island has been considerably modified since the official investigation into its working in 1851. The laws now in force are 38 of 1893, 23 of 1894, 23 of 1895, and 6 of 1903, 26 of 1908, 39 of 1909, 8 of 1913 and 28 of 1914.

The Governor in Privy Council is authorised to declare any port or place to be an infected port or place within the meaning of the Quarantine Law of 1893, and vessels arriving from such port or place are liable to quarantine, the duration, &c., of which depends upon the circumstances of each case, and is left to the discretion of the Quarantine Board.

Whenever a vessel arrives at any port in this island, not coming from any place declared by the Governor in Privy Council to be "infected," and not having at the time of arrival any infectious disease on board, or not having had any death from such disease during the voyage, the Health Officer or Visiting Officer is authorised to admit her to pratique.

If a vessel on arrival is not provided with a bill of health from the last port touched at, the Visiting Officer shall, under the provisions of Section 2 of Law 28 of 1914 order such vessel to hoist a Quarantine Flag at anchor at the Quarantine Ground until released.

Vessels arriving with ballast are placed in quarantine pending the decision of the Quarantine Board. Provision is made for the discharge of ballast and subsequent admission to pratique of vessels with or without disinfection as may be ordered.

There is power to the Governor to appoint quarantine stations and to frame rules for the same

Rules.—The following Rules were made in 1874 for carrying out the Quarantine Law:—

1 Ships placed in quarantine by the Health Officer are to hoist the yellow flag at the fore-top-gallant mast head and are to take up an anchorage without delay in the quarantine ground where they are to remain until released by order of the Quarantine Board.

2. The quarantine ground shall be pointed out by the Visiting Officer

3 A Constable is to be placed on board each ship in quarantine and is to see that all Rules and Regulations in respect of quarantine are strictly carried out.

4. No personal communication is to take place between vessels in quarantine and the shore. No boats from the shore or from other boats or vessels, whether in quarantine or not, shall be allowed to have personal communication with a ship in quarantine.

5. No ship shall be allowed to make fast to the quarantine buoy placed to mark the quarantine ground or to anchor within 100 yards of that buoy.

6. Lighters or boats conveying cargo or coals or other supplies to ships in quarantine may be towed to the quarantine buoy; and to prevent personal communication with the ships in quarantine all persons on board such boats or lighters must then quit them and return outside the limits of the quarantine ground.

7. The boats or lighters so left may then be towed alongside the ship in quarantine by her crew and unloaded, but no packages are to be returned to the boats or lighters from the ship. When the boats or lighters are empty they are to be towed back by the crew of the ship to the quarantine buoy, and after the men so employed have left them the persons who may be in charge of such boats or lighters may proceed to the quarantine buoy to fetch them away.

8. All boats belonging to ships in quarantine are to hoist a yellow flag in the bow when absent from their ship.

9. Passengers in ships that are placed in quarantine may, with the sanction of the Visiting Officer, be landed in the ship's boats at such quarantine station or place as may be pointed out by the Visiting Officer and subject to his instructions and supervision.

10. Cases of sickness among the crew or passengers of ships in quarantine may, with the sanction of the Visiting Officer, and under his instruction and supervision, be landed in the ship's boats at the quarantine station.

11. No articles of clothing or bedding that have been used in cases of disease shall be permitted to be landed.

12. The mail bags from a ship in quarantine shall, before being landed, undergo such process of fumigation as the Visiting Officer may consider necessary.

13. Any person who may have died on board a ship in quarantine shall be buried in such place as shall be pointed out by the Visiting Officer.

14. In case of a ship in quarantine proceeding to sea the Constable shall be previously landed at the quarantine station. The Pilot, who accompanies the ship to sea, shall proceed on his return to the quarantine station and both Constable and Pilot shall remain there in quarantine for the same period as the ship would have been kept if she had remained at anchor.

15. In the cases where the Quarantine Board may think that the nature of the contagious or infectious disease is such as to render it unnecessary to keep the ship in which any case of such disease shall have occurred in quarantine for so long a period as fourteen days, or if there be other circumstances to justify any shortening of the period of fourteen days of quarantine the Quarantine Board may, if they shall think fit, admit a vessel to pratique at an earlier period than the period of fourteen days.

16. Any person who may be found guilty of any infringement of any of these Rules and Regulations shall be subject to a penalty not exceeding ten pounds.

The following further Rules were approved by the Governor on the 2nd April, 1884, for carrying out the Quarantine Law:—

"If at any time by reason of the failure to comply with any Rule of this Board, or for any other sufficient reason, it should be found impracticable to receive passengers that are on board a ship placed in quarantine into the Quarantine Station, or other place that may be approved of by the Quarantine Board, such passengers will be required to remain on board until the ship is released from quarantine or until arrangements can be made for removing them from such ship.

QUARANTINE.

"No passenger or other person on board a ship in quarantine will be allowed to leave the ship for the purpose of being landed at the Quarantine Station, or other place that may be approved by the Quarantine Board, before payment has been made to the Visiting Officer of the amount payable, in accordance with the following scale, for the maintenance of such passenger during the period of detention in quarantine:—

The following is the scale of charges for maintenance of persons detained in quarantine approved by the Governor in Privy Council on February 5th, 1908:—

For first class passengers at the rate of 10/6 per day.

For second class passengers at the rate of 5/ per day.

For third class passengers at the rate of 3/ per day.

Labourers 1/6 per day, approved by Governor in Privy Council 30th September, 1913.

Children, according to class, charged as under:—

8 years of age and under 12 years—half rates.

3 years of age and under 8 years—quarter rates

Under 3 years of age—free.

These rates to be increased by half in the case of passengers under treatment in the hospital at the station.

The Governor in Privy Council has allowed a somewhat more liberal dietary being given the occupants of the Quarantine Station. Ice, soup, also coffee and tea at dinner; fruit, jam, marmalade and cocoa for breakfast and luncheon; mutton and English sausages once a week for 1st class passengers. An improvement in the diet scale for 2nd and 3rd class passengers has also been made.

The following Rule was made by the Governor in Privy Council on the 16th January, 1899:—

Should the Master of any vessel that has been ordered into quarantine in any port of the island desire to proceed to any other port of the island before such vessel has per- formed, and been duly discharged from quarantine, he should give notice of such desire to the Visiting Officer of the port at which his vessel is in quarantine, and shall in such notice name the port to which he desires to proceed, and it shall be the duty of the Visiting Officer to furnish to such Master a certificate showing the number of days the vessel has been in quarantine, and the number remaining to complete the quarantine term; and thereupon it shall be lawful for him to proceed to such last mentioned port; but he must enter such port flying the quarantine flag, and proceed straight to the quarantine ground at such port.

The Master of any vessel neglecting or contravening any of the provisions of this rule shall incur a fine or penalty not exceeding ten pounds.

The Governor in Privy Council on the 24th October, 1895, under Section 1 of Law 23 of 1894, declared the diseases of Scarlet Fever, Diphtheria, Measles and Whooping Cough to be diseases against the introduction of which into this Island the provisions of the Quarantine Law 38 of 1893 were intended to provide; and His Excellency in Privy Council fixed the following periods for the purpose of the proviso to Section 2 of Law 38 of 1893. viz.:—

Scarlet Fever	6 days	Measles	18 days
Diphtheria	4 "	Whooping Cough	14 "
Yellow Fever	18 "	Plague	6 "

Fees approved by the Governor for remuneration of District Medical Officers or other Medical Practitioners visiting ships in Quarantine, Gazette—January 4, 1912:—

FEES.			
(a) To diagnose (and treat) a case of illness on board	..	£1	1 0
(b) To thoroughly inspect a ship and crew	..	1	1 0
Ship, crew and passengers	..	2	2 0
(Stowaways included in crew.)	..		

- (c) Mileage at the rate of 1/6 per mile (one way only) for any journey done by land or in so far as it is done by land, in cases where the quarantine ground is far removed from the Medical Officer's residence.
- (d) In the cases of night visits (between the hours of 6 p.m. and 6 a.m.) an additional fee equal to half as much again as the approved fee.
- (e) The mileage and the fee for night visits to be paid by the ship requiring the Medical Officer.

The following Rules for the government and direction of the Quarantine Station at Green Bay are binding on the officers, servants and inmates of the Quarantine Establishment:

1. During the existence of quarantine restrictions the Quarantine Station shall be under the direction of the Health Officer for the ports of Kingston and Port Royal for the time being.

2. It shall be the duty of the Health Officer, during the continuance of such restrictions to visit the Quarantine Station daily, if practicable, or as frequently, as may be deemed necessary with a view to ascertain the health of the inmates; and in case of the existence or outbreak of any contagious or infectious disease as plague cholera, small-pox or yellow fever, the Health Officer shall be empowered to take all necessary measures to secure the separation and isolation of those who are sick of any such infectious disorder from those who are well.

3. It shall be the duty of the Matron to take charge and care of the equipment of the quarantine station to receive and issue stores, and to superintend the ordering and preparation of meals, to direct and contro the nurses and domestic servants placed under her, and to maintain the cleanliness of the wards and dormitories.

4. The inmates of the Quarantine Station are strictly enjoined not to damage or destroy the property of the institution.

5. The inmates are also strictly enjoined to observe all the sanitary arrangements that may be made by the Medical Officer and the domestic arrangements made by the Matron and in case of the violation of any such arrangement any such inmate shall be liable to a fine or penalty not exceeding ten pounds.

6. Smoking within the dormitories is strictly prohibited under a fine or penalty not exceeding forty shillings.

7. All lights in dormitories other than those sanctioned by the Medical Officer shall be extinguished at 10 p.m., after which hour all loud conversation, singing or noise, must cease, and quietude conducive to sleep must be maintained during the night. Any person violating this rule shall be liable to a fine or penalty not exceeding five pounds.

8. It shall be the duty of the Constables placed in charge at the Quarantine Station to see that rules 4, 5, 6 and 7 are strictly observed.

The Quarantine Station which was opened on the 5th April, 1881, is situated at the mouth of the harbour of Kingston at Green Bay, opposite Port Royal, from which it is distant about two miles, its distance from Kingston being six miles. It stands on a projecting cliff overlooking the harbour, and is some 50 to 60 feet above sea-level. The grounds belonging to it are ten acres in extent. The Quarantine Station buildings consist of block standing somewhat apart from one another. The 1st class quarters measures 112 ft. x 21 ft. x 20 ft., and has a spacious piazza on all 4 sides, 22 feet wide. They consist of 24 rooms, 12 for males and 12 for females, with 4 rooms for married couples in addition.

The second class quarters were built to hold 10 male and 5 female passengers.

There are 160 cots for the accommodation of 3rd class passengers.

When the wards are full accommodation can be found in the piazzas for a large number of cots.

Each division is supplied with separate lavatory and bathroom.

The hospital is placed higher up the hill than are any of the other buildings, being about 100 feet above the sea level. Accommodation is provided for 8 male and 6 female patients with a dispensary and room for attendants. The Hospital at the station is now completely mosquito proof screened.

There is a Lyons' Steam Disinfector at the station, where passengers clothes, bedding and other articles may be properly disinfected.

Water is stored in 2 tanks having the following capacities: 13,500 gallons and 10,000 gallons. These have been recently made mosquito proof. A third tank capable of holding 10,000 gallons has been erected alongside the hospital.

A jetty has been erected running out into the sea some 150 feet.

Good fishing is abundant and there is a fine beach for sea bathing and for a promenade. The visitor to the tropics interested in marine life will not find objects of interest wanting.

The immediate neighbourhood of the grounds is an uncultivated hillside; but all the buildings command extensive prospects. There is an uninterrupted sea view to south and south-east, and the inland view to the eastward is striking. Looking across the harbour there is the City of Kingston in the foreground, and beyond it lie the magnificent mountains of the eastern part of Jamaica; conspicuous among them is the Blue Mountain Peak, 7,360 feet above the sea. A fine sea breeze blows during the hottest part of the day, and the nights are cool.

The Secretary of the Quarantine Board is responsible for the interior economy of the establishment; but when it is occupied by passengers the Health Officer at Port Royal is in medical charge. The following staff reside permanently in the Institution: a superintendent, a labourer and a house-cleaner, while a nurse and sewing woman generally reside in the institution, but may be removed when there is no one undergoing quarantine. Other nurses and servants are employed when required during periods of quarantine.

BOARDS OF HEALTH.

From the year 1855, when the Act for the appointment of a Central Board of Health expired, there was no general law in force in the island providing as far as possible against the introduction or spread of contagious or infectious diseases until the passing of Law 6 of 1867. Under that Law the Governor is empowered to appoint a Central Board of Health; and the Municipal Boards of the several parishes, now styled Parochial Boards, are constituted Local Boards of Health, subordinate to the Central Board, with power to adopt all necessary measures for suppressing nuisances and promoting the public health. Law 14 of 1873, amended by Law 8 of 1874, gives these Boards the additional power of dividing their parishes into sanitary districts and of appointing Commissioners of Health for the inspection and control of such districts. This law also empowers the Local Boards to impose a sanitary rate on household property for defraying the expenses incurred by them for sanitary purposes.

In 1874 these provisions were extended. The late Dr. Bowerbank, in a petition to the Legislative Council, stated that "for many years he had been painfully impressed with the great want of legislative action in most important matters affecting the public health;" and with respect to Kingston in particular he expressed the opinion that the "sanitary status was retrograding rather than advancing." He particularly referred

* Absent on Military Service. Dr. D. J. Williams, M.R.C.S., Eng., L.R.C.P., Lon., acting for Dr. Scott.

to the want of legislation for the isolation of persons affected with contagious diseases and for effectually preventing the spread of such diseases, and he drew special attention to the English Sanitary Act of 1866 on these important points. In consequence of these representations Law 8 of 1874, in aid of Law 6 of 1867, was passed by the Legislative Council. For a time these laws were considered ample, but later it became apparent that further legislation was needed. The consequence was the passing of Law 15 of 1887. This law empowers the Central Board of Health to make rules and regulations (with the approval of the Governor in Privy Council) for the prevention or mitigation of contagious or infectious diseases. A principal object of the law is the isolation of houses, streets, lanes, &c. and the keeping isolated therein of any person suffering, or suspected to be suffering, from any such disease. Any person who, on account of poverty, may be without proper lodging, food and nursing, may be removed to any Hospital or other place provided for the reception of persons suffering from contagious or infectious disease.

Under the 30th section of Law 21 of 1874, a law was passed for the establishment, regulation and management of the Kingston Cemetery at May Pen, the Central Board of Health have an important and a responsible duty to perform in the interests of the public health in representing to the Governor, in Privy Council, the places or burial grounds in the City of Kingston in which burials should be discontinued on sanitary grounds. The Governor, in Privy Council, is empowered under the same section of the law, to order that after a certain specified time burials shall be discontinued in the places or burial grounds which form the subject of the Board's representations. The Central Board of Health have largely availed themselves of the discretionary power vested in them by the section of the law, the provisions of which have been extensively resorted to.

The corresponding provisions affecting the towns throughout the island generally are to be found in Law 7 of 1875, "A Law to regulate burials within the limits of towns and to provide for their discontinuance in certain cases."

Under the 5th section of this law the Local Board of Health may empower any Health Officers or Inspectors of Nuisances to enter at all reasonable hours of the day time upon any building or lands within their respective districts for the purpose of inspection, provided in the case of private property that twelve hours' notice of the intention to inspect is given to the occupier; and the 7th section enacts that no grounds or places within the limits of any town or village in the island, not already opened or used as burial grounds or places of burial, shall be so opened or used without a license from the Local Board of Health.

Law 35 of 1910 is a law further to amend Law 6 of 1867 and the other Health Laws, and under this law general bye-laws for securing improved sanitary and hygienic conditions have been framed by the various Local Boards of Health, approved by the Central Board of Health and by the Governor in Privy Council, and now form part of the law. Bye-laws regulating the duties of Medical Officers of Health have also been passed, under this law by the Local Boards of Health, approved by the Central Board and confirmed by the Governor.

Law 31 of 1912 for the notification of Infective Diseases was passed on 21st May, 1912.

POLICE.

In 1866 it was considered necessary to abolish the old police force, dating from 1834, and a law was passed in 1867 (No. 8) establishing a new and improved police or constabulary force. Under that law the Governor is empowered to appoint an Inspector General and a staff of inspectors and sub-inspectors; and the Inspector General is authorized to admit persons as sub-officers and constables. No person is eligible for membership unless he can produce a certificate of character from a magistrate or other gentleman of position and can pass a satisfactory medical examination. He must not be less than five feet eight inches in height and 33 inches round the chest; not less than 20 or more than 25 years of age, and unmarried; and be able to read, without hesitation any printed or written document and to write a fair hand. Every candidate is enrolled for five years (3 months on probation—Law 2 of 1901) and he is bound to serve and reside in any place to which he may be appointed—his native parish and the parish with which he may be connected by marriage or family ties not being one of the districts to which he may be sent.

The Officers, Sub-Officers and men are trained in military exercises for the purpose of enabling them to protect themselves, their prisoners, and their barracks, and to act in unison and with alertness and effect in cases of danger and alarm, such as riots and fires.

But although trained as a semi-military police the constabulary are bound to perform all the duties appertaining to the office of constables. They are required to preserve peace, to detect crimes, to apprehend or summon persons found committing any offence against the criminal or the conservancy laws, to execute all summonses, warrants, subpoenas, and other processes issuing from any Court of Justice or by any Justice of the Peace in a criminal matter, to aid the health and sanitary officers in the execution of their duties, to apprehend smugglers and others found contravening the revenue laws, to seize all contraband goods and all taxable property for the non-payment of taxes, and to keep order at all markets, theatres, courts and other public places and assemblies.

As a preventive force they are required to patrol the town and highways, both by day and by night, and to visit the estates, pens, plantations and villages. To ensure regularity in their patrols the sub-officers and men of each station are so distributed as to furnish the necessary quota for this indispensable and important duty, whilst providing for the due performance of the miscellaneous work of the district.

The constabulary, by means of this effective system of patrol in town and country, not only materially prevent the committal of crime, and especially depredations on property, but are at all times prepared to furnish the authorities with accurate information respecting places, persons, and occurrences. They are required promptly and correctly to report to the Inspector General and to the custodes the approach of any political festival, meeting, assembly, or demonstration, illegal drilling, or other circumstances connected with, or in any wise affecting the peace or tranquility of the country or the safety of life or property.

The Detectives are specially charged with the duty and responsibility of tracing felonies and other serious offences and apprehending offenders. They are aided by the ordinary constabulary and by the district constables, but their actions are greatly facilitated by the system of criminal registration which forms an important element in the present

police arrangements of the colony. The antecedents of every habitual criminal are carefully collected, recorded and circulated, with his photograph, and he is bound once in every month to report himself to a chief officer of police. He is taken under police supervision the moment he leaves the General Penitentiary or other prison and every movement of his is carefully watched and reported. The history and actions of all other persons convicted of crime, but not sentenced to police supervision, are similarly noted and circulated; but criminals of this class are not required to report themselves to the constabulary.

The Water Police of Kingston, Port Antonio, Savanna-la-Mar, Montego Bay and Port Henderson are auxiliaries to the regular Police and are charged with the prevention and detection of larcenies, smuggling, &c., from the wharves and shipping in the harbour and on the rivers of their respective districts.

The District Constabulary Force was organised for the purpose of connecting the main police system with the remote parts of the island. Their principal duty is the suppression of the crime of larceny of growing produce and small stock, but they have all the powers of constables both in the departments of justice and of revenue. They have, in fact, a power in excess of the ordinary constabulary. If a district constable suspects that stolen property is concealed in the house, premises, or lands of any person who has ever been convicted of larceny, or of receiving stolen goods, he can, without a search warrant, enter and search for such property and arrest the offender. The district constables are resident householders of the districts. They report themselves periodically at the nearest constabulary station, where they give and receive information and obtain instructions as to the manner in which they should act for the prevention and discovery of crime. The district constables are distinguished when on duty by a badge and a baton; and the whole force is under the supervision and control of the officers of constabulary.

SUB-INSPECTORS—The following are the main Regulations relating to the appointment of Sub-Inspectors of Police:—

(1) Appointments will in future be made to the posts of Sub-Inspector of Constabulary in British Guiana, Trinidad, and Jamaica, in accordance with the following regulations.

(2) All appointments will be made after examination, which will be either competitive or qualifying (see paragraph 6). A certain proportion of the appointments in each Colony will be reserved for candidates resident in the Colony. Such candidates must receive a nomination from the Governor.

(3) All other candidates must receive a nomination from the Secretary of State for the Colonies. For the steps necessary in order to obtain this nomination see paragraph 15 of this memorandum.

(4) Candidates must be unmarried, and between the ages of 19 and 26 years, and will be liable to removal from the service if they marry except in accordance with the Constabulary Regulations in force in the Colony in which they are serving.

(5) Candidates must be at least five feet eight inches in height with adequate chest measurement, and their physical development must be good in all respects. They will be required to be certified physically fit for service by one of the Medical Advisers to the Colonial Office, or, if nominated by the Governor (see paragraph 2), by the Surgeon of the Colonial Constabulary.

(6) Should the number of suitable applicants for nomination by the Secretary of State exceed the number of vacancies to be filled from this country, the selection will be made by competitive examination, which will be conducted by the Civil Service Commissioners. Otherwise candidates, whether nominated by the Governor or by the Secretary of State, will be required to pass a qualifying examination. The fee for the examination, whether competitive or qualifying, will be £2 for each candidate examined in London, and £3 for each candidate examined elsewhere.

(7) The following will be the subjects of examination, and the maximum number of marks for each subject:—

1. Arithmetic	200
2. English Composition, including Spelling, Handwriting, and Précis	500
3. Geography, with especial reference to that of the British Colonies	150
4. British History, including that of the Constitution	200
5. The Elementary Principles of Law—	
(a) Criminal Law	150
(b) Law of Evidence	150
6. One of the following:—	
Latin Translation and Composition	200
or French Translation, Dictation, Composition, and Conversation	200
	<hr/> 1,550

Candidates must pass to the satisfaction of the Civil Service Commissioners in each of the prescribed subjects.

(8) Candidates who are declared to be successful at the examination, and are certified to be physically fit for service will be required to proceed to Dublin to undergo a course of training at the Depot of the Royal Irish Constabulary. The fees for this course will be paid by the Colonial Governments unless candidates are otherwise informed, each candidate should provide himself with bedding and towels during his course of training.

(9) Such candidates while undergoing instruction at Dublin will receive pay, at the rate of £125 per annum from Colonial Funds. They will be in all respects subject to the same discipline as Cadets of the Royal Irish Constabulary and they will be required to provide themselves with uniform as soon as possible. They will be regarded as on probation, and their ultimate appointment to a Colonial Constabulary will be conditional upon satisfactory reports upon their conduct and efficiency being received from the authorities of the Royal Irish Constabulary.

(10) A candidate on being finally selected for appointment to a Colonial Constabulary, will be provided with a free first class passage to the Colony, upon his entering into an agreement with the Crown Agents for the Colonies by which he will be bound to repay to the Colonial Government the cost of his passage, and also, in the case of British Guiana and Trinidad, the uniform allowance of £35 (Jamaica does not provide any uniform allowance), in the event of his relinquishing his appointment of his own accord within three years of the date of his arrival in the Colony for any other reason than mental or physical infirmity. He will draw half the salary of his appointment from the date of embarkation, and full salary from the date of his arrival in the Colony.

DISTRICT CONSTABLES—The District Constables Law (5 of 1899) gives power to Resident Magistrates, the Inspector General of Police and the officers in charge of parishes to inflict fines on the district constables. All fines so inflicted are paid into the District Constables Fund, which fund will be used for the benefit of the district constables alone, in payment of rewards or in other ways, as the Governor may direct.

LAWS—The Laws affecting the organization, &c., of the Police Force, are as follow:—

22 Vic. chap. 20, Law 8 of 1867, Law 6 of 1869, Law 46 of 1869, Law 34 of 1870, Law 2 of 1879, Law 20 of 1885, Law 18 of 1895, Law 5 of 1899, Law 2 of 1901, Law 28 of 1902, Law 28 of 1903, Law 14 of 1904, Law 19 of 1907, Law 41 of 1908, Law 4 of 1910, Law 8 of 1914 and Law 39 of 1914.

PRISONS AND REFORMATORIES.

PRISONS

THE General Penitentiary at Kingston covers an area of eleven acres within the walls. The outer walls are 22 feet high and five feet six inches thick at the base, tapering to 18 inches at the top. There is accommodation for 638 convicts, male and female, who are all provided with separate cells. The women are entirely separated from the male prisoners.

The men are classified according to their sentences, but they work in association. They are employed in burning bricks, breaking stones, and in working at various trades. A number of them also work at a lime-stone quarry at Rock Fort which forms part of the penitentiary property. All juvenile prisoners—under 21 years of age—are located and worked by themselves and do not come in contact with the adult criminals.

To the north of the Penitentiary are the quarters of the Superintendent and other officers, covering about 13½ acres, a large portion of which has been recently acquired by Government. The brickfield, in which are the lime and brick kilns, is connected with the Penitentiary proper by means of an underground tunnel.

The subordinate officers are now as a rule selected from men who have served with good conduct, either in the army or in the constabulary and who have therefore a knowledge of order and discipline. The mark system as in force in the English convict prisons has been adopted.

Upon the female side of the penitentiary a system of classification is now carried out by the separation of those convicted for the first time from the re-convicted criminals.

There is a District Prison at Spanish Town, which includes a County Gaol and a Debtors Prison, affording accommodation for 612 prisoners with a prison farm and Reformatory attached.

The gross expenditure of the General Penitentiary for the twelve months ended 31st March, 1916, has been £15,772 10 10

The gross expenditure for the St. Catherine District Prison and Gaol has been 8,134 1 3

The gross earnings in cash of the General Penitentiary have been

1,505 0 3

4,308 0 3

£19,598 11 10

The net cost of the Prisons has therefore been £19,598 11s. 10d. The total estimated value of labour yielding no return in money was £9,531 14s. 4d.

In 1885 a new system for affording religious instruction to the prisoners of the General Penitentiary came into operation and the scheme known as the Corporate Chaplaincy ceased to exist. By the new arrangement a separate chaplain is nominated for every denomination of which there are not less than 10 prisoners in the penitentiary, and he receives remuneration according to a fixed scale, 10/ per head per annum for each of the first 50 prisoners and 3/ for each above that number. Under certain restrictions two or more religious bodies may unite and have one chaplain. Provision is made for teaching the prisoners the elements of education.

The Governor is authorized by Law 18 of 1882 to appoint in respect of each of the prisons two or more justices of the peace as visiting justices. The judges of the supreme court, and the resident magistrates are by virtue of their offices visiting justices and severally have and exercise the powers of two visiting justices. The Inspector General of Prisons has also the power of two visiting justices.

The total daily average number of prisoners in custody in the prisons of the Colony in the year ended 31st March, 1916, was 1,483.

INDUSTRIAL SCHOOLS.

IN 1881 the several laws relating to Reformatories were consolidated and amended, the principal provisions of the new enactment (Law 34 of 1881) being the following: For the erection of suitable buildings and premises, separate and distinct from the Reformatory of Stony Hill, as a Reformatory for girls; the establishing of Industrial Schools for boys and girls in the neighbourhood of Kingston and Montego Bay; the committal of criminal children to Reformatories and pauper children to Industrial Schools; and the detention of all children in these institutions until they attain the age of 16.

Under Law 34 of 1881 the St. Mary's Industrial School for girls at Alpha Cottage, Kingston was certified in December 1889, and in May, 1891, an Industrial School for boys at the same place was also certified. Bishop Collins, S.J., of the Roman Catholic Church, is the Manager of both these Schools. An Industrial School for Girls (under Archbishop Nuttall) at Stony Hill was also certified on the 27th Oct., 1892. In January 1891, a Government Industrial School was started at Hope Gardens with 20 boys transferred from the Industrial School at Stony Hill; and in April, 1892 one for girls was opened at Shortwood, St. Andrew. This was the commencement of the movement to separate non-criminal from criminal children, to further which the Industrial Schools were in May, 1891, placed under the Education Department, the Superintending Inspector of Schools being then appointed Inspector of Industrial Schools.

The Reformatories became Industrial Schools by the passing of Law 32 of 1910, and now known as Boys and Girls Industrial School, Stony Hill.

The boys at Stony Hill are trained as tailors, carpenters, masons, blacksmiths, bakers &c., 50 boys and 4 apprentices were employed during the year 1915-1916 in the carpenter's shop; they made articles of furniture, &c., of the value of £361 15s. 10d.; 35 boys, 1 apprentice were employed as masons and bricklayers; they did work valued at £232 16s. 4d. The work in the tailoring branch was performed by 35 to 40 boys; they made all the clothing, coats and mattresses for the institution, valued at £319 2s. 0d. In the back-

smith's shop the value of work was £152 15s. 4d. Other boys worked in the bakery, garden and fields. By their steady application to labour the cultivation which in 1878, was only half-an-acre, is now extended to 43 acres, comprising coffee, vegetables, provisions, guinea grass, bananas, cocoa, oranges, grape-fruit, &c.

The gross cost per head per diem for the 522 inmates who were in the institution during the year ending the 31st March, 1916, was 7.85 and the average earnings per child for that period, £4 14s. 4d.

The girls are taught washing, sewing, house cleaning and some are taught cookery. During the year ending 31st March, 1916, 149,727 pieces of clothing were washed, the work being valued at £623 17s. 3d. The girls made and mended clothing valued at £144 9s. 1d.

REFORMATORY FOR BOYS.

In 1911 a Reformatory for boys was established at the Saint Catherine District Prison, Spanish Town, under the provisions of Law 32 of 1910. The inmates at first consisted of boys transferred from the Industrial School, Stony Hill, for disciplinary treatment, and a Law was passed in 1912, (Law 29 of 1912) authorising the Governor to transfer certain juvenile prisoners from the regular prisons to the Reformatory branch. This has increased the usefulness of the Institution. These boys are separately located and worked on a farm of their own and do not come in contact with the inmates of the District Prison. They attend school daily under the instruction of the Schoolmaster and are taught on the farm the best methods of agriculture.

When due for discharge efforts are made to secure those in need of employment work on plantations. The number of boys in the Reformatory on the 31st December, 1915, was 38. The net cost per inmate per annum was £13 13s. 9d. and the value of the crops raised was £48 9s. 2d.

REGISTRATION.

THE offices of Registrar General, Deputy Keeper of the Records and Registrar of Titles have been amalgamated and are held by Mr. David Balfour. The two first named offices are in Spanish Town and the last is in Kingston.

General Register Office, Spanish Town.

Compulsory registration of births and deaths came into force on 1st April, 1878. During the years 1844 to 1855 there was a voluntary system of registration of births and deaths under the Acts 7 Victoria chapter 54 and 8 Victoria chapter 47. These Acts were repealed in 1855 by the Act 18 Victoria chapter 29 as the voluntary system of registration was found to be ineffectual.

Baptisms and Burials by Ministers of the Church of England were, previous to 1st April, 1878, recorded at the Island Secretary's Office, Spanish Town (now the Island Record Office). These registers have been transferred to the custody of the Registrar General.

From the 1st April, 1878, births and deaths have been registered throughout the island, each parish being divided into registration districts with a Registrar for each district, the central office being at Spanish Town.

The present system of registration of marriages came into operation in 1880. There are in the registry records of marriages by ministers of the Church of England beginning in 1666, and by ministers of other denominations beginning in 1840.

BIRTHS.

When a birth takes place personal information of it must be given within 42 days to the Registrar of the district in which it took place, and the register be signed in his presence by one of the following persons:—

1. The father or mother of the child; if they fail,
2. The occupier of the house in which the birth took place,
3. A person present at the birth; or
4. The person having charge of the child.

The duty of attending to the registration thus rests firstly on the parents. One of them must within 42 days of the birth give to the Registrar *by word of mouth* the information needed and must sign the register in his presence. If they fail, without reasonable cause they become liable to a penalty of forty shillings. In case of their failure one of the other classes of informants above named must give personal information and sign the register within the same period.

If at the end of 42 days registration has not been effected the Registrar may send a requisition to any qualified informant requiring him or her to attend for the purpose and any person who fails to comply with such requisition is liable to a penalty of forty shillings.

After three months a birth can only be registered on the informant's making, before the Registrar and some justice of the peace, or in place of such justice some other respectable witness, a solemn declaration as to the correctness of the particulars required to be registered and on payment of a fee of one shilling to the Registrar.

After twelve months a birth can be registered only on the express authority of the Registrar General and on payment of a fee of ten shillings.

It is often of great importance to persons of all classes to be able to prove their age and the place of their birth. Legal proof of these is to be obtained from the civil registers as kept by law. Parents owe to their children, therefore, a careful attention to registration.

DEATHS.

When a death takes place personal information of it must be given within five days to the Registrar of the district in which it occurred, and the register be signed in his presence by one of the following persons:—

1. The nearest relative of the deceased present at the death, or in attendance during the last illness; if they fail
2. Some other relative of the deceased in the same Registrar's district. In default of any relatives
3. (a) A person present at the death; (b) the occupier of the house in which the death happened. If all the above named fail
4. (a) An inmate of the house; or (b) the person causing the body to be buried.

Relatives present or in attendance are, therefore, firstly required to attend to the registration. One of them must give to the Registrar of the district *by word of mouth* the information needed and sign the register. In case of their failure one of the other persons above named must give personal information and sign the register in their stead.

When a Registered Medical Practitioner has attended the deceased during the last illness the Practitioner must sign and give to some person qualified as an informant a certificate of the cause of death, and the person so receiving the certificate must deliver it to the Registrar at the time of registration. The penalty for not giving or duly delivering the certificate is two pounds.

It is advisable that every death should be registered and a certificate of registry (which is given free of charge) be obtained from the Registrar before the funeral. This certificate should be delivered to the Minister or other person who performs the funeral or religious service.

If no such certificate of registration is thus delivered the Minister or person who buries, or performs any funeral service, or who presides at the burial, must, within seven days after the burial, give notice thereof in writing to the Registrar of the district, and if he fails so to do he is liable to a penalty of ten pounds.

After twelve months a death can be registered only on the Registrar General's express authority and on payment of a fee of two shillings.

A careful attention to these requirements is likely to prove of the highest importance to the surviving relatives and friends of the deceased persons

MARRIAGES.

There are four ways of obtaining the necessary legal authorisation for the performance of a marriage in Jamaica, (Law 25 of 1897 and Law 28 of 1905.)

I.—Publication of Banns.

In this case the persons intending marriage must each give written notice to a Ministerial Marriage Officer of the congregation to which he or she belongs, or to any Ministerial Marriage Officer having charge of a place of worship in the parish in which they reside (when both belong to the same congregation a single notice will suffice, or when one does not reside in Jamaica a single notice by the other will suffice) and thereupon the Marriage Officer, if satisfied that the notice is conformable to law, will publish the banns in legal form for one Sunday, or one Saturday in the case of persons professing the Jewish religion. In addition to such publication the particulars of the marriage notice must be entered on a specified form and affixed on the outside of the principal door of the place of worship at which the banns are published for a period of seven clear days. After due publication the Marriage Officer will give a certificate of the fact to the person who gave the notice and thereupon the marriage may be contracted and solemnized (a) by or before a Ministerial Marriage Officer, according to such form and ceremony as the parties may see fit to adopt, provided that the requirements of the Marriage Laws, as to witnesses, &c., and the form of contracting words be observed; or (b) in the presence of a Civil Registrar of Marriages and two credible witnesses, with the declaration and form of contract provided. No religious service is permitted before the Civil Registrar.

II.—By a License from the Governor.

In this case application must be made and the prescribed form of declaration be furnished to the Colonial Secretary, together with the sum of *five pounds*, the value of the stamp to be borne upon the Governor's license. Immediately upon the issue of such license the marriage may be solemnized by or before a Ministerial Marriage Officer, or in the presence of a Civil Registrar of Marriages as above described in the case of banns.

III.—By Public Notice at the office of a Civil Registrar of Marriages.

In this case residence in the parish for not less than fifteen clear days before the giving of notice is requisite. When both persons intending marriage reside within the same parish a single notice will suffice. When one of them does not reside in Jamaica a single notice by the other will suffice. The notice must be posted up in a conspicuous place on the outside of the Civil Registrar's office during seven clear days, at the end of which time a certificate of due publication will be given by that officer, and the marriage may then be solemnized in either of the ways already described as after publication of banns or Governor's license.

IV.—By License from a Justice of the Peace, &c., Law 28 of 1905.

By special license from a Justice of the Peace for any parish, the Clerk of the Resident Magistrate's Court for the parish in which the parties or one of the parties intending marriage resides, or any person appointed for the purpose. Before the granting of such license there must be produced to such Justice of the Peace, Clerk of the Resident Magistrate's Court, or other appointed person, a notice of marriage signed by the applicants for the license, together with a statutory declaration from some minister of religion (being a marriage officer), stating that the applicants are well known to him and that the statements made by them in their marriage notice are, to the best of his knowledge and belief, in

every particular just and true. Before the issue of any marriage license, the person issuing it must secure that such license be stamped with revenue stamps to the value of two shillings and sixpence, and shall himself cancel the stamps before he delivers the license.

If the marriage is not solemnized within three months from the date of the license or certificate of publication the license or certificate becomes void and of no effect.

REGISTRATION, CERTIFIED COPIES, &c.

Indexes of marriage, birth and death registers, are kept at the General Register Office, Spanish Town. Searches can be made there and certified copies of entries in Registers be given on application and payment of the prescribed fees.

MEDICAL AND SURGICAL PRACTITIONERS.

The office of enrolment of qualified Medical and Surgical Practitioners is the General Register Office, Spanish Town.

A copy of the register corrected to date is published in the Jamaica Gazette in May in each year.

No person not registered can hold any office or appointment in Jamaica as a Physician, Surgeon, Apothecary or other Medical or Surgical Practitioner in the Government Service, or of any Public or Parochial Board or Friendly Society; and unless duly registered he cannot recover in a Court of Law any charge for medical or surgical aid, advice, performance of operation, medicine supplied, &c

The procedure necessary for obtaining registration depends upon the nature of the qualification possessed.

Any person already registered in the United Kingdom can be registered in Jamaica upon producing to the Registrar General the diploma, license or certificate held by him, together with a declaration (B shown below) made by him before a Justice of the Peace, and impressed with a twenty shilling stamp, setting forth that he is the person referred to in such diploma, license, &c., provided that the name of such person appears in the British Medical Register most recently published, or that he produces to the Registrar General a certified copy of the entry of his name in the British Register.

Any person not registered in the United Kingdom but holding a diploma, license or certificate evidencing the possession by him of such qualification as would entitle him to registration therein, can be registered on producing to the Registrar General such diploma, &c., together with a declaration according to Form B., as in the other case above provided.

Any person not qualified as above but holding a diploma, license or certificate granted to him by any University, College or Faculty of Physicians or Surgeons, may become qualified and be registered on obtaining and producing to the Registrar General a certificate in form of schedule C to Law 49 of 1908, setting forth that he has been examined and passed by the Government Board of Examiners.

FORM B.

I, _____ residing at _____ in the parish of _____ do hereby declare that I am a member (or as the case may be) of (here state the College, Faculty or Society) and was authorised by such (here state the College, Faculty or Society) which gave the authority) on the _____ day of _____ 19 to practise medicine and surgery (or to practise medicine, or to practise surgery, as the case may be) as appears by my (here specify the diploma, certificate or other document evidencing such authority) now produced and shown to the undersigned Justice of the Peace.

DENTISTRY.

The Dental Practitioners Law, 1905, (Law 11 of 1905) makes provision for the registration of persons practising dentistry in Jamaica.

Under Section 1 the General Register Office, Spanish Town, is the registry of dental practitioners and the Registrar General of Births and Deaths is the Registrar.

Section 2 provides for the keeping of a Register of qualified dental practitioners.

Section 6 enacts that the following persons upon satisfying the Registrar by such documentary or other evidence of their right to be registered, and upon payment of a registration fee of one guinea, shall be entitled to be registered.

(a) Any person qualified or entitled to practise dentistry in the United Kingdom under any Act for the time being in force.

- (b) Any person who, at the passing of this Law, is *bona fide* engaged in the practice of dentistry in this Island, and who holds a diploma, license, or certificate granted to him by any university, college, or institution recognized by the Governor in Privy Council, after and in consequence of his having passed through the course of study and examination in Dentistry, prescribed by such university, college, or institution.
- (c) Any person who, at the passing of this Law is and has been for not less than three years *bona fide* engaged in the practice of dentistry in this Island, and whom the Governor in Privy Council for special cause shown, permits to be registered without examination.

Sections 8, 9 and 10 provide as follows:—

8—Any person who at the passing of this Law, is *bona fide* engaged in the practice of dentistry in this Island; and also any person not qualified to be registered under Section 6 of this Law, but who holds a diploma, license, or certificate granted to him by any University, College, or Institution recognised by the Governor in Privy Council, after and in consequence of his having passed through the course of study and examination in dentistry prescribed by such University, College, or Institution, and who wishes to be registered under this Law, may make application in writing to the Governor to appoint a Board of Examiners.

9—On receipt of such application the Governor shall appoint three persons, duly registered under this Law, as a Board of Examiners, and the persons so appointed shall thereupon fix a time and place for holding the examination.

10—The Candidate shall first satisfy the Board of Examiners that he was at the date of the passing of this Law *bona fide* engaged in the practice of dentistry in this Island, or that he holds a diploma, license, or certificate granted to him as aforesaid, and the Board of Examiners, if so satisfied, shall with reasonable dispatch fully and fairly examine such candidate accordingly; and, if they find him sufficiently informed and skilled, they shall give him a certificate to that effect, and he shall then be entitled to be registered under this Law, upon payment of the Registration fee.

The Board of Examiners consists of three dental practitioners nominated from the list of registered practitioners and appointed by the Governor from time to time.

A list of the Colleges recognized by the Governor in Privy Council under Section 6, (b) will be found in the Jamaica Gazette of Sept. 21st, 1905 and in the Handbook of Jamaica for 1911 and previous issues.

TRADE MARKS.

Law 37 of 1911 consolidates and amends the Laws relating to Trade Marks. It came into operation on March 1st, 1912, and supersedes Law 17 of 1888 and the Laws amending the same. Rules made thereunder will be found in the Supplement to the Jamaica Gazette of 13th March, 1915.

The Registrar General is the Registrar of Trade Marks, and he keeps a Register of Trade Marks at the General Register Office, Spanish Town.

Any person claiming to be the proprietor of a Trade Mark who is desirous of registering the same must apply in writing to the Registrar in the prescribed form, copies of which can be obtained from the General Register Office.

A registrable trade mark must contain or consist of at least one of the following essential particulars:—

- (1) The name of a company, individual, or firm represented in a special or particular manner;
- (2) The signature of the applicant for registration or some predecessor in his business;
- (3) An invented word or invented words;
- (4) A word or words having no direct reference to the character or quality of the goods, and not being according to its ordinary signification a geographical name or a surname;
- (5) Any other distinctive mark, but a name, signature, or word or words, other than such as fall within the descriptions in the above paragraphs (1), (2), (3), and (4), will not, except by order of the Court, be deemed a distinctive mark.

Special provision is made as to the registration of trade marks used before 1st April, 1889, and of Trade Marks registered in England.

Applications have to be advertized and the procedure to be followed in opposed and unopposed applications is prescribed.

The following Order by the Governor in Privy Council was made June 7th, 1906:

ORDER BY THE GOVERNOR IN PRIVY COUNCIL.

7th June, 1906.

Under the provisions of Section 2 of the Produce Protection Laws Amendment Law, 1906 (Law 9 of 1906) I, the Governor in Privy Council, do hereby prescribe that any person packing any kind of the following articles of agricultural produce, viz.: oranges, lemons, limes, grape fruit, pine apples or mangoes, for exportation for the purposes of trade from this island in any closed package and any person exporting any such produce for the purposes of trade shall register one trade mark under the provisions of Law 17 of 1888 and Law 6 of 1889 or any laws amending the same, and shall mark every package of any such produce packed or exported by him with a representation of such trade mark in a plain and conspicuous manner, with the words "Registered Trade Mark" immediately above the same; and I, the Governor in Privy Council, in further pursuance of the powers conferred on me under the provisions of the said section 2 of Law 9 of 1906, do hereby prohibit from and after the first day of August next the exportation from this island of any packages of any such produce as aforesaid not so marked as aforesaid.

REGISTRATION OF BOOKS.

The Registrar General is also Registrar of Books under Law 2 of 1887. Under this Law three copies of every book printed in the colony must, within one month of the printing thereof, be delivered to the Registrar-General by the printer at the General Register Office, Spanish Town, together with a memorandum of the particulars of the book. A form of the memorandum may be obtained at the General Register Office.

COPYRIGHTS.

The local laws as to Copyrights were repealed in 1913. An Imperial Act on the subject is now in force in the colony, under which no registration is required.

ISLAND RECORD OFFICE.

Spanish Town.

THIS office was established under Law 6 of 1879 in place of what had been the ancient office of "Island Secretary," which had existed for a period of 220 years, and been held under letters patent until the year 1853, after which the Governor exercised the power of appointment, subject to the Queen's approval.

The Chief Justice for the time being is *ex officio* Keeper of the Records and has an official title as such. All public records and all registered deeds and writings formerly in the office of the Island Secretary are under his charge and superintendence, and every office or place in which public records under his charge are deposited is a branch of the Record Office.

The Deputy-Keeper of the Records is appointed by the Governor: his functions are precisely those which belonged to the Island Secretary. All laws wherein reference is made to the Island Secretary's Office or to the Island Secretary take effect as if such reference were made to the Record Office and the Deputy-Keeper of the Records. His duties comprehend the enrolling in proper registers of all deeds and conveyances, patents, wills which have been admitted to probate, annual produce accounts of estates and accounts-current of executors, administrators, trustees, attorneys, agents and persons acting in a fiduciary character, as well as the custody and preservation of the authenticated impression of the laws of the island. Law 23 of 1886 (the Incorporated Companies and Societies Law) requires a register of all Companies incorporated under the provisions of the 27 Vic., sess. 2, chap. 4, of all Friendly Societies established under the provisions of the 6 Vic., chap. 27, and of all Building Societies established under the provisions of the 28 Vic., chap. 17, to be kept in the Record Office. Transcripts of the Rules and Regulations of these Societies (when certified by the Attorney-General) are to be filed in the Record Office; and the annual general statements of the funds and effects of the Societies and certain of the Companies are to be sent to the Deputy-Keeper of the Records and by him published in the Jamaica Gazette.

Deeds affecting unregistered land will not, unless recorded within the prescribed time, be good against other purchasers or mortgagees *bona fide* for valuable consideration of the land, who shall duly prove and record their deeds within the prescribed time. The time allowed for the recording of a deed affecting unregistered land is, in most cases, 90 days from its date. In some cases the period is less and in others it is more.

No instrument passes any estate in land, which has been registered under the Registration of Titles Laws, until the instrument has been registered in the Office of Titles, Kingston.

Abstracts or notes from the registers may be taken by persons interested in searching the records, but copies of all public records must be made and certified as a true copy and sealed with the seal of the office at the cost of the person desiring the same. Office copies so made and certified are evidence in all Courts of Justice, without further proof, in every case in which the original record would have been received as evidence.

Deeds or writings presented for Registration shall, if required, and on production of the receipt, be returned at any time after registration, but if application for the return of the deed or writing be not made within two months after the same has been recorded and the record thereof examined and certified, it shall be returned to the party presenting it by registered letter, addressed to him at the postal address furnished in the declaration of counting.

No public record may be taken out of the Record Office unless under an order of some competent Court.

The expenses of the office, including salaries, are limited to the sum of £1,200 per annum. All revenue is paid over to the Treasury for the use of the public.

OFFICE OF TITLES, PUBLIC BUILDINGS KINGSTON.

THE Registration of Titles Law, 21 of 1888, came into operation on the first October, 1889, and is now extensively used.

The manner of bringing lands under the law is as follows:—

An application describing the lands, stating the value and giving the names and addresses of the persons in possession, and of the owners and occupiers of the adjoining lands is made (on the printed form to be obtained from the Registrar) to bring the lands under the law and to have the certificate of title issued either in the name of the applicant or in that of some other person. The deeds or other documents in support of the title to the lands, with a certificate from the collector of taxes for the parish in which the land is situate, that the taxes on such land have been paid up to the date of the application, must accompany the application. Upon their receipt by the Registrar he enters the application in a book kept for that purpose and then submits the application and papers to one of the Referees of Titles.

After the Referee has given his approval in writing of the applicant's title notices of such application are published in the Jamaica Gazette or newspaper as directed by the Referee and served by registered letter through the post office upon the occupiers of the land, the occupiers and owners of the adjoining lands and such other persons as the Referee may direct. These notices set forth the purport of the application and intimate that unless objection be made, by lodging a caveat in the Office of Titles within the time mentioned in the notice, the land will be brought under the operation of the law and a title will be granted to the applicant, or to the person in whose name the certificate of title is directed to be issued. The Referee may refuse his provisional order of approval or may call for further evidence in support of applicant's title.

If a caveat is lodged the Registrar will suspend proceedings until it is withdrawn or lapses, or until an order in the matter is obtained from the Court.

If no caveat is lodged the land is brought under the law by registering a certificate of title in duplicate. Space is left in these certificates for the endorsement of subsequent dealings with such land. One of the certificates of title is bound up in the Register Book and the other called the duplicate is given to the owner of the land.

Applicants for registration have to contribute $\frac{1}{2}$ d. in the £ upon the value of the land in the case of first registration, and $\frac{1}{2}$ d. in the £ in the case of a transmission, towards an assurance fund. Persons deprived of their land through the registration thereof may in certain events recover compensation out of the assurance fund.

The fees payable are contained in Law 20 of 1889 and Law 6 of 1906.

GOVERNMENT LABORATORY.

(At Hope, St. Andrew.)

ORIGINALLY instituted in 1870 by Governor Sir J. P. Grant, the Laboratory was mainly concerned with analyses for medical and judicial purposes until 1901, when it was made a branch of the Agricultural Services and its work largely extended so as to embrace various aspects of agricultural research and analysis.

The present building was erected in 1902, on the Hope lands, some 200 yards below the main entrance to Hope Gardens and is conveniently situated on the car line.

In 1904 the Laboratory was considerably extended to carry out researches on Sugar and Rum in connection with the scheme for carrying out the provisions of the Sugar Experiment Station Law (45 of 1903).

A Microbiologist and more recently an Entomologist have been added to the staff, and technical work in Mycology, Microbiology and Economic Entomology is now established in suitably equipped Laboratories. A class room equipped with working benches for 36 Students from the Farm School has been equipped on the lower floor. Besides the Chemical, Microbiological and Entomological Laboratories special

facilities for Sugar Analysis, the testing of Canes, the investigation and propagation of the ferments of Rum have been provided

An Experimental Distillery for practical researches on Rum Manufacture has been built and from time to time Special Courses of training for distillers have been held. Apprentices are also received for training.

The Laboratory dealt with 988 samples during the year 1915-16.

The Chemist, Microbiologist and Entomologist are always available for advice and consultation free of charge.

The following scale of fees for analyses performed for private persons are payable to the Treasury.

IMMIGRATION.

Office in Port Royal Street.

SINCE the commencement of Asiatic immigration in 1845, 35,933 East Indian immigrants have been introduced into the colony up to the end of 1915, of whom 11,778 have returned to India. 1,152 Chinese have also been introduced.

In 1871 the system of permitting immigrants returning to India to make remittances by Government bills was inaugurated, and since then 10,412 men, women and children have returned taking bills to the amount of £106,777 13s. 7d.

On the 31st March, 1916, the number of coolie depositors in the Government Savings Bank was 1,383 and the amount of deposits £15,700 0s. 0d.

Under the Immigration Laws any person wishing to employ indentured immigrants is required to pay (as at present fixed) to the Immigration Fund in respect of each immigrant—

(a) £18 16s. 9d. in cash on allotment; or

(b) £2 in cash

£2 2s. at the end of one year, and £4 2s. at the end of two, three, four and five years, equal to a total of £20 10s. by deferred payments;

and any person employing immigrants who have completed their indentures but have not resided for 10 years in the colony, must pay, also into the Immigration Fund, £2 10s. per annum or 1s. per week for each immigrant employed.

The estimated East Indian population on 31st March, 1916, was:

Number serving under indenture ..	2,864
Number who have completed residence of 10 years and others	17,199
Total ..	20,063

GOVERNMENT PRINTING OFFICE.

(Duke Street.)

THE Government Printing Office was established in October, 1879. The whole of the parliamentary and departmental printing is performed by this department as well as a large amount of work for the parochial authorities. The Government Printing Office also imports and distributes the stationery for all public departments.

The Office is situated in Duke Street, Kingston, and conveniently adjoins the Colonial Secretary's Office and the Legislative Council Chamber and Office.

The buildings include the Monotype room, Machine and Press room, the Composing rooms, Bindery, Warehouse, Stereo foundry, Type Store, Photo Process room, and offices:

Superintendent—J. C. Ford, £500, appointed Feb., 1891.

BOARD OF SUPERVISION.

Office in the Parade.

By Law 15 of 1881 certain powers were vested in the Governor in questions of poor relief, but it had not been found practicable to carry out any real supervision under that law, even when the Parochial Boards were nominated by the Governor, and this difficulty was increased when Boards came to be elected, while various circumstances led to the conviction that it was essential to have some central authority to lay down and enforce general principles of poor relief and to interpose when there was neglect.

These requirements were provided by Law 6 of 1886, which vests all matters relating to the poor in a Board of Supervision, consisting of nine members appointed by the Governor. The Board, in so far as its authority goes, is analogous to the Local Government Boards in England, Scotland and Ireland. These latter Boards control the administration of other acts than those of the relief of the poor, notably those relating to the public health, besides many others which it is not necessary to enumerate here.

There was considerable opposition to the local law while it was in progress through the Legislature, chiefly from the Parochial Boards, some of which transmitted petitions against it to the Secretary of State for the Colonies, while on the other hand other Parochial Boards petitioned in favour of the law.

The then Secretary of State (Earl Granville) answered in detail the objections urged against the law and stated that he thought it was "likely to prove a very useful measure," and that he was "unable to agree in the opinion of the petitioners that supervision and control over the Local Bodies entrusted with the administration of poor relief is unnecessary," and that there did not "appear to be reasonable ground for complaint that the system of supervision by a Central Board, established by this law, had been substituted for the much greater power of interference vested in the Governor by the previously existing law." Both the Secretary of State and the Governor expressed the hope that the law would be accepted by the community in a spirit of loyalty and that the various Parochial Boards would continue to conduct that important branch of their duty which embraces poor relief with zeal and good will. With reference to this it may be remarked that the Board of Supervision in its first annual report stated that "it only remains for us to add with gratification, that with very few exceptions the Parochial Boards of the island have accepted the provisions of the law and have joined with more or less cordiality in working with the Board of Supervision under it, realizing no doubt that the interest and aims both of the Parochial Boards and the Board of Supervision are not antagonistic." The Governor also in his report on the Blue Book of the colony for the year 1886-87 addressed to the Secretary of State for the Colonies stated that in their first annual report the Board of Supervision gave "evidence of the good service of organization upon which they have been engaged" and that the opposition to the constitution of this Body had died away in the face of experience of the Board's working, "greatly owing to the tact and good reason which have characterized the proceedings of the Board."

The general duties of the Board of Supervision are thus described in the 10th Section of Law 6 of 1886:—

"It shall be lawful for the Board of Supervision to examine into the manner in which poor relief is administered in the several parishes, and in cases where it shall appear to the Board that the arrangements in any parish are defective to require the Parochial Board of such parish to remedy such defect; to audit the accounts and books of the Paro-

chial Boards in so far as these relate to the relief of the poor, to investigate and determine all charges of misconduct against the Inspectors of the Poor, Masters of Poor Houses, Medical or other officers who may be appointed by the Parochial Boards, and to investigate and report to the Governor any charge preferred against a District Medical Officer, such charge having been brought to its notice in writing and duly authenticated; to settle any question of difference arising between two or more Parochial Boards or the officials of such Boards: to hear and decide appeals from poor persons who have been refused relief, or who may consider the relief afforded them inadequate; and generally it shall be the duty of the Board of Supervision to see the law effectually administered by the several Parochial Boards, without injustice to the persons entitled to relief on the one hand and with due regard to the interest of the taxpayers on the other, and so far as may be to secure unity of system in its practical administration throughout the island."

The total number of paupers on the 1st April, 1916, was 7,505. Increases occurred in the parishes of Kingston, St. Thomas, Portland, St. Elizabeth and St. Catherine.

The percentage of paupers to the population was highest in the parish of Kingston, viz., .26 and lowest in the parish of St. Mary, viz., .03, while the average for the island was 0.8.

The total cost of inspection of the poor in the various parishes allowed by the Board of Supervision on the 31st March, 1916, was £2,842, the area to be inspected 4,207 square miles, the population 891,953, the out-door poor 6,000, the in-door poor 1,496, making a total of 7,505. The total cost of the relief of the poor in 1914-1915 was £57,000.

SECRETARY AND LIBRARIAN—Frank Cundall, F.S.A.

By the earthquake of 1907, the Museum was wrecked, the Library building seriously damaged, and the Art Gallery rendered unsafe. The new Institute, built on the old site, of re-inforced brick and concrete, from designs by Mr. A. E. Herschel, was completed in November, 1911, and the Library and Museum objects were at once removed back from 133 Orange street, which had been their temporary home for upwards of four years, to East street: the new Institute being opened on the 6th January, 1912.

The Library is open daily from 9 a.m. till 9 p.m. The public reading room is in the centre of the ground floor with the books arranged on either side. Upstairs are the

members room, the West India Library, and a Lecture Hall, in which are hung portraits and pictures forming the Jamaica History Gallery, open from 9 a.m. to 5 p.m. The Museum is open daily from 9 a.m. till 5 p.m.

HISTO R.—One of the earliest of the important scientific societies in the island was the Royal Agricultural Society of Jamaica, which was founded as the General Agricultural Society of Jamaica in 1843 during the governorship of the Earl of Elgin, although there had existed from time to time, since 1807, various local agricultural societies in certain of the parishes: and in 1830 the Jamaica Society had taken steps towards founding a natural history museum in Kingston. Eleven years later, 1854, during the administration of Sir Henry Barkly, the Royal Society of Arts was established, under the patronage of Queen Victoria and the Prince Consort. In the year 1864, these two associations were amalgamated, by the passing of Act 27, Vic., chap. 22, with a view "to the augmentation of the sources of public industry and the extension of the arts and manufactures of the colony," and became the Royal Society of Arts and Agriculture, of which the Governor for the time being was President. In 1873, owing partly to the fact that the annual grant of £150 was not sufficient for its needs and partly to the fact that voluntary subscription had failed, the Society was wound up. The articles in the museum were handed over to the Government, and were, with the Sawkins and Brown collection of minerals illustrative of the geology of the island, placed under the care of the Island Chemist in Date Tree Hall (where a Public Library was opened in 1874), and they now form part of the Museum of the Institute.

The Institute of Jamaica was constituted during the governorship of Sir Anthony Musgrave by Law 22 of 1879, which created a Board of Governors consisting of seven members (increased in 1889 to eleven and in 1908 to twelve) appointed by the Governor, their duties being to establish and maintain an institution comprising a library, reading room and museum; to provide for the reading of papers, the delivery of lectures, and the holding of examinations on subjects connected with literature, science and art; to award premiums for the application of scientific and artistic methods to local industries; and to provide for the holding of exhibitions illustrative of the industries of Jamaica. The law above mentioned transferred to the Institute the libraries of the House of Assembly and the old Legislative Council, both of which had ceased to exist in the year 1866, and the museum of the Royal Society of Arts and Agriculture, together with the building in East street, Kingston, known as Date Tree Hall. In 1889 the annual grant made to the Institute by the Government was increased from £1,000 to £1,750 and later to £2,000. It was subsequently reduced to £1,750, then to £1,250; in 1902 to £850, and in 1908 to £800. In April, 1908, the Governor appointed a Commission (of which the Archbishop of the West Indies was chairman) to report on the best methods of carrying on the work of the Institute in the future, in view of the reduction of the annual grant in recent years and the destruction of Date Tree Hall by the earthquake. In July the report of the Commission was referred to a Select Committee of the Legislative Council, and as a result the Board consists of twelve members, four of whom are nominated by the Governor, four nominated by the elected members of the Legislative Council and four elected by members of the Institute. Members of the Board hold office for four years and any casual or recurring vacancy is filled by the person or persons appointing. The vote is at present £1,500, of which the Board surrendered £150 on account of the war.

LIBRARY.—The books, newspapers and maps on Jamaica and books on the West Indies form a special feature in the Library. In addition to the volumes of scientific, historic and general literature, there is a collection of popular works, whilst the quarterly and other leading reviews and periodicals of the day are regularly obtained from Europe and America.

There are 17,600 volumes catalogued in the Library, made up as follows:—

MUSEUM—The collections aim at representing as completely as possible the fauna and flora of the island, along with its geology and anthropology. The Mammals are represented by various species of bats, the Jamaica Coney (*Capromys brachyurus*, Hill), the Manatee, Mongoose, etc. The collection of native Birds is nearly complete, and has, in addition, a series of migrants obtained from America. The Snakes, Lizards, Chelonians, the Crocodile, and the Amphibians of the colony are nearly all represented. The series of Fishes, does not contain all the species known from the surrounding seas. Of the Invertebrates, many Insects, Decapod Crustaceans, Scorpions, Arachnida, and Myriapods are shown, but much yet requires to be done upon these groups. The land Molluscs, abundant in the island, are partly exemplified. The Echinodermata—star fishes, sea-urchins, sea cucumbers—are illustrated, and the Cœlenterates—sea-anemones, corals, sea-fans are represented; but these suffered from the earthquake. Conchology is well represented by the valuable Vendryes collection of the Land and Fresh water Shells of Jamaica. A Herbarium contains examples of many of the dicotyledons, orchids, grasses, sedges and ferns of Jamaica, and is often consulted by amateur collectors for the purpose of naming specimens. Collections of the economic woods of the island have been cut and polished for purposes of reference and there is a collection of water-colour drawings of Jamaica plants.

The mineralogical and palæontological specimens include the collections formed by the Officers of the Geological Survey during the years 1860 to 1866. Tertiary and Cretaceous fossils are represented, but the older formations are almost entirely wanting in Jamaica. The series is so arranged as to show what is obtained from each district in the island, while maps, illustrating the geology of the several parishes, are available for reference. A map of Jamaica, modelled in relief, shows the confirmation of the surface of the island.

The objects connected with the Arawaks, the aboriginal Indian inhabitants include a large series of stone implements, mostly petaloid in shape, all carefully finished, and some highly polished; others are wedge or chisel shaped, while a few are made of shell. From the numerous kitchen-middens or refuse-heaps are shown collections of perforated shells, broken pottery, fish, coney and crab-bones, beads and ashes. The relics from caves consists of human skulls and bones, and the more perfect examples of Indian pottery. Photographs of various rock-carvings are on view, and several examples of aboriginal images. Slavery relics include an iron cage gibbet in which criminals were hung to die of starvation.

Many of the cases have the specimens arranged and described specially for educational purposes. A reduced vote has since 1902 prevented the Board from obtaining the services of a Curator.

ART GALLERIES—The Jamaica History Gallery contains Portraits of Jamaica Governors and other persons celebrated in the history of the island (to the number of 220); and paintings and engravings (including a series of Jamaica scenery, and two water-colour drawings by Pocock and a series of engravings illustrative of Rodney's victory over DeGrasse and the subsequent fate of some of the fleet) and autographs, coins, medals and other works of art: as well as the Spanish bell of the old church of Port Royal, submerged during the earthquake of 1692; the papers found in a shark's maw, which led to the condemnation of the Brig "Nancy" at Kingston in 1799; and the two silver-gilt maces, formerly used on state occasions, one of which was erroneously supposed to be the "Bauble" removed from the House of Commons by order of Cromwell.

MEMBERSHIP—Honorary members, who are subject to no charge, may be elected to the number of twenty, from men distinguished in literature, science or art; or for special services rendered to the Institute. Corresponding members, who are exempt from payment of subscriptions, consists of persons residing outside Jamaica or, under exceptional circumstances, of residents, who can be helpful by correspondence or otherwise in promoting the objects of the Institute. Subscribing members, the number being unlimited, are nominated and elected at the monthly meetings of the Board of Governors; ordinary subscribing members pay an annual subscription of five shillings and life members a single payment of three guineas.

By Law 3 of 1909 the members of the Kingston Athenæum and other similar institutions in other parts of the island are entitled to be admitted as members of the Institute of Jamaica for each current year, without subscription, on their applying to the Secretary and satisfying him that they have paid their subscription to their respective institutions. Members of the Kingston Athenæum, the St. Ann Athenæum, the Library of the Trelawny Citizens Association, the Porus Men's Association, the Vere Young Men's Association, the Annotto Bay Institute and the Kingston Teachers Association have taken advantage of the law. There is in addition a Free Lending Department for borrowers who make a deposit or support their application with a guarantee.

Members have the right of borrowing books and periodicals, and the use of the special reading room referred to above. Members who pay seven shillings and sixpence a year are entitled to borrow four books (of which two only may be new) and two magazines at a time. Members residing outside Jamaica pay half-fees.

Books which may be taken to represent reading for the sake of improvement are sent free by post to and from the Institute.

Subscribers to the Library pay, for three months, two shillings for the right to borrow two books and one magazine, or three shillings for twice that number.

In December, 1916, there were 14 honorary members, 19 corresponding members, 172 subscribing members and 737 free members enrolled under Law 3 of 1909, making a total of 942, with 3 subscribers to the Library and 211 borrowers (78 adults, 133 juniors) in the Free Lending Department, making a grand total of 1,156.

BRANCHES—With a view to enabling those at a distance to participate in the use of the Library, boxes of books are lent at a charge of £1 5s. per 100 volumes per annum to local societies, at Montego Bay (2), Potsdam, St. Ann's Bay, Linstead, Bath, Mandeville, Morant Bay and elsewhere, 1,100 volumes in all.

TEACHERS LIBRARY—Twenty-six sets of 25 books each, 650 volumes in all, form the nucleus of a Teachers Library, the works in which are in circulation amongst Elementary School Teachers Associations at Frankfield, Central Cornwall, Central St. Mary, Port Antonio, East Portland, Porus, Chapelton, Santa Cruz Mountains, North-West Manchester, North Manchester, Falmouth, Claremont, Bath, Mountainside, West Manchester and Blue Mountain Valley.

LECTURES—Various Lectures have been given from time to time at the Institute.

PUBLICATIONS—In November, 1891, was published the first number of a journal of, the Institute, devoted to those objects which the Institute was founded to promote and containing notices of Transactions of the Institute dealing with Literature, Science and Art, and miscellaneous subjects cognate thereto. Fourteen numbers (making two volumes) were issued; but in view of the curtailment of the grant to the Institute the issue had to be suspended. The first of a series of "Annals" dealt with the Decapod Crustacea of Jamaica, by Miss Rathbun of the Smithsonian Institution.

Other publications of the Institute are "On the Geology of Jamaica" and "On Mining in Jamaica," by the Rev. H. Scotland (1890); "The economic Geology of Jamaica," by F. C. Nicholas (1899); "The Mineral Springs of Jamaica," by J. C. Philippo, M.D. (1891); "The Rainfall Atlas of Jamaica," by Maxwell Hall, M.A. (1892); "The Meteorology of Jamaica," by Maxwell Hall (1904); "The Mosquitoes or Culicidæ of Jamaica," by F. V. Theobald, M.A., and M. Grabham, M.A. (1905); "Institute of Jamaica Lectures—Agriculture," (1893); "Systematic Catalogue of the Land and Fresh Water Shells of Jamaica," by Henry Vendryes (1899); "Aboriginal Indian Remains in Jamaica," by J. E. Duerden, A.R.C.Sc., Lond. (1897); and "Catalogue of books in the Library of the Institute" (1895); a Supplement (1915); "Bibliotheca Jamaicensis: Some Account of the principal books on Jamaica in the Library of the Institute" (1895); "Studies in Jamaica History" (1900); "Bibliographia Jamaicensis: a list of Jamaica books and pamphlets, magazine articles, newspapers and maps, most of which are in the Library of the Institute" (1902); a "Supplement" to it (1908); Bibliography of the West Indies (excluding Jamaica) 1909; "The Story of the Life of Columbus and the Discovery of

Jamaica" (1894); "**Biographical Annals of Jamaica**" (1904); "**Political and Social Disturbances in the West Indies: a brief account and Bibliography**" (1906); "**Lady Nugent's Journal: Jamaica one hundred years ago**" (1907); and "**Jamaica Place Names**;" (1909), "**Some Notes on the History of Secondary Education in Jamaica**" (1911); "**Jamaica in 1912**"; "**Catalogue of the Portraits in the Jamaica History Gallery**" (1814) "**Historic Jamaica**" (1915), all by the Secretary; and "**Jamaica Negro Proverbs**" (1910) by Dr. Izett Anderson and the Secretary.

MEMBERS MEETINGS.—On the 4th of November, 1891, there was held the first of a series of Members Meetings. At these, papers are read on matters connected with Literature, Science and Art. Upwards of one hundred of such meetings have since been held.

PREMIUMS.—The Institute has offered the following premiums for essays, &c., on certain subjects connected with the material interests of the island:—*e.g.* specimens of salted meats and preserved fishes, of fibres, of penguin, aloe, rhea, &c., and of cacao; essays on the utilization of fibre plants; a portable machine for treating fibres; a Bibliography of Jamaica; and for Essays on Hygiene. The Institute also gave donations at various times to the prize funds of the Horticultural Society, the St. Catherine Agricultural Show and the Cambridge Local Examinations. At present premiums are only given in connection with the Arts and Crafts Exhibition.

ARTS AND CRAFTS.—In June, 1897, the Institute held Competitions in Literature, Science, Arts and Crafts, and awarded two bronze (Musgrave) medals in addition to numerous other prizes consisting of books, works of art and money; and in, 1902, 1904, 1905, 1906, 1909, 1910, 1911, 1912 and 1915 similar competitions in Arts and Crafts were held, the holding of the competition in 1907 and 1908 being prevented by the earthquake, and in 1913-1915 by lack of room in which to hold it.

KINDRED SOCIETIES.—The holding of the Cambridge Local Examinations in Jamaica was instituted by the Governors of the Institute: during the years 1882-1887, the examinations were held under their auspices: and in 1904 the Secretary of the Institute undertook the duties of Honorary Secretary to the Local General Committee. In 1907 he accepted the position of Honorary Representative in Jamaica of the Associated Board of the Royal Academy of Music and the Royal College of Music, the Examinations of which Board are held in the island yearly.

INTERNATIONAL EXHIBITIONS.—Jamaica has from time to time taken part in International Exhibitions, not infrequently through the instrumentality of the Institute—Paris, 1855; London, 1862; Amsterdam, 1883; London (Fisheries), 1883; New Orleans, 1885; London (Colonial and Indian), 1886; Chicago, 1893, Buffalo, 1901, Crystal Palace (Colonial and Indian, 1905. The Institute is represented on the Permanent Exhibitions Committee by Mr. R. S. Gamble and the Secretary.

Sir Daniel Morris, the then Chairman of the Board of Governors of the Institute as Commissioner for Jamaica at New Orleans, was instrumental in obtaining the removal of quarantine restrictions against Jamaica at New Orleans, which restrictions had been in existence for nearly thirty years. Dr. Salamon, a member of the General Board of Health of Louisiana, visited Jamaica in 1885 and published a report testifying to the healthiness of the climate of Jamaica and the freedom of the island from Yellow Fever and other similar diseases.

RULES FOR ADMISSION TO THE CIVIL SERVICE OF JAMAICA.

WHEREAS it is deemed expedient to alter the Rules under which persons are admitted to the Civil Service of Jamaica, I, the Governor in Privy Council, do hereby order that the Rules made by the order of the Governor of Jamaica in Privy Council and dated the 11th day of May, 1905, for admission to the said Civil Service, shall be and the same are hereby superseded.

1. To fill such vacancies as may occur in the Offices of the Public Service the Governor may employ young men who shall be known as "Assistants" and who shall not be on the permanent Establishment of the Civil Service.

2. An Assistant will be paid salary at the rate of six pounds ten shillings per mensem for the first year and will be granted after 12 months efficient service and good conduct (as to which the Head of the Department in which the Assistant serves shall certify) an increase of 9s. 2d. to his monthly salary, and after each period of 12 months service a further increase of 9s. 2d. per month, until the salary of such Assistant reach £8 6s. 8d. per month.

3. No one shall be admitted to the public service as an Assistant who is under 16 or over

25 years of age: Provided nevertheless that the Governor shall have power to make an exception in any case in which he considers special circumstances justify him in doing so.

4. An Assistant shall be liable to have his services dispensed with at a month's notice, which notice may be given at any time, by the Head of the Department, with the approval of the Governor. In the case of misconduct, he shall be liable to dismissal by the Governor without notice, or to such other and less punishment as the Governor may think fit to order.

5. Subject to the requirements of the Public Service, an Assistant may be granted 4 weeks vacation leave of absence in a year, or not more than 8 weeks leave of absence during and in respect of any two years. He may be granted the same departmental leave and sick leave as are allowed under the local regulations governing the same to officers on the Civil Establishment.

6. As a rule vacancies in the subordinate offices of the permanent offices of the Civil Establishment will be filled by selection from among the Assistants, and while seniority will always be taken into account, it is to be distinctly understood that regard will chiefly be had to superior merit and official qualifications.

7. In addition to Assistants, it shall be in the discretion of the Governor to appoint temporary Officers in any Office or Department as circumstances may require and with such remuneration as His Excellency may see fit.

8. The following are the Rules for the selection of "Assistants."

I. Every candidate will be required to show attainment of a certain educational standard. This standard shall be either

- (a) The certificate of the Cambridge Senior Local Examination, or
- (b) An educational record of equal value in the opinion of the Governor.

II. Each candidate shall obtain a recommendation from either

- (a) a Head of a Department of the Public Service, or
- (b) the Custos of the Parish in which the candidate resides, or
- (c) a Member of the Legislative Council.

and such recommendation shall be in the form of a certificate that the candidate is, in the opinion of the person certifying, a fit and proper person for admission to the Civil Service of Jamaica, and the certificate shall also contain a brief statement by the person certifying of the particulars known to him concerning the antecedents and character of the candidate.

III. Candidates may make their applications at any time and will be notified when their names are entered in the List of approved candidates. They are expected to inform the Colonial Secretary if at any time during the year for which their names have been entered they cease to be candidates for appointment. The List will be made up annually on the 1st April in each year, and only those will be re-entered as candidates who renew their application to the Colonial Secretary before that date.

IV. On a satisfactory compliance with the requirements of Rules I and II the Governor shall cause the candidate's name to be placed on the list of persons from whom Assistants are to be selected, such list to be kept by the Colonial Secretary.

V. When an Assistantship becomes vacant the selection of the person to be recommended to the Governor for appointment to fill the vacancy shall be entrusted to a Public Service Selection Committee to be appointed by the Governor.

VI. Such Public Service Selection Committee shall consist of the following:—

- (a) As permanent members, the Colonial Secretary (Chairman), and two other persons to be appointed by the Governor, to whom shall be added on each occasion as a temporary member.
- (b) the Head of Department in which there is the vacancy, or, if he is already on the Committee, some other person.

For the purposes of this last provision the Attorney General shall be regarded as the Head of the Offices of the Resident Magistrate's Courts.

VII. The permanent Selection Committee shall at some time interview each approved candidate and on the occasion of a vacancy the full Committee specified shall consider the following points in respect of each candidate, viz:—

- (a) his educational record,
- (b) his general fitness,
- (c) any previous service he may have in a Government Department or in outside employment, and
- (d) any reports they may choose to call for, e.g., from the Head Master of a candidate's school or from any referees named by the candidate

and shall then submit to the Governor the name of the candidate whom they recommend for appointment.

The Selection Committee may, if they think it necessary, test the educational qualifications of candidates by special examination.

VIII. The Governor will usually appoint the candidate so recommended, but it shall be open to His Excellency for any cause which may seem to him fit to abstain from so doing and to ask the Committee for another recommendation.

9. These Rules shall come into force on the 1st April, 1911.

Approved by the Governor in Privy Council.

F. L. PEARCE, Clerk Privy Council.

OFFICIAL CORRESPONDENCE.

PERSONS in the colony, whether public functionaries or private individuals, who have any representations to make to Government should address them to the Governor of the colony through the Colonial Secretary. The following are the Local orders on the subject:—

Governor's Secretary's Office, 7th February, 1866.

The Captain-General and Governor-in-Chief requests that all persons having occasion to address His Excellency, or the different Departments of the Government, will do so on foolscap, or large paper, and in official terms.

The practice of writing applications or communications on sheets of note paper, and in the form of private notes, is very inconvenient and contrary to official usage.

His Excellency also requests that persons will sign their names in distinct characters, as much of his time is lost in endeavouring to decipher illegible signatures.

By Command,

EDWARD JORDON, Governor's Secretary.

Colonial Secretary's Office, 5th March, 1878.

The attention of the Governor having been called to the great number of petitions addressed to His Excellency on matters in which he cannot interfere, and to the prevalent practice of affixing to petitions marks purporting to be those of the persons whose names are attached thereto, but unaccompanied by any authentication, and also to the fact, in some instances, that the names of persons have been subscribed to petitions without their knowledge, or that the petitioners have subsequently represented that their case has been mis-stated in their petitions. His Excellency has been pleased to direct

it to be notified for the information of those concerned, that in future no attention will, as a rule, be paid to any petition treating of a purely private matter, or of a question which either is in course of settlement or has been settled by a court of law, and no petition will be entitled to consideration which does not conform to the following rules as respects the signatures:—

1. The marks of persons unable to write their own names must be attested by the signature of some person of position, or of respectable character, as witness to the fact of such marks having been made in his or her presence, and that the person or persons was or were fully aware of the facts and objects of the documents to which the marks are so appended.

2. In the case of the names of persons being written for them in their absence, the name and abode of the persons assuming the power of attaching such signatures must be written at full length, and in the handwriting of such persons.

Ministers of Religion, Schoolmasters, and others who are brought in communication with the humbler classes of petitioners are requested, when opportunity offers to explain this requirement. By Command, E. N. WALKER, Acting Colonial Secretary.

Colonial Secretary's Office, 10th April, 1885.

Petitions having been in many instances addressed in an informal manner to the Governor and to the Governor in Council, it is hereby notified for general information, that petitions can be conveniently addressed to His Excellency on all matters requiring Executive action on the part of the Government; and that it will facilitate the consideration of such petitions if they are enclosed to the Colonial Secretary in the first instance for submission to His Excellency.

2. Petitions to the Governor and Legislative Council may be sent by bodies or by individuals to the Clerk of the Council, or they may be presented by any member of the Council when the Council is in session, as required by the rules.

By Command, J. ALLWOOD, Acting Colonial Secretary.

Colonial Secretary's Office, 15th August, 1890.

The Governor requests that all petitions and letters to His Excellency on questions of an official character, or requiring official action, may be addressed to the Colonial Secretary instead of being addressed to the Governor direct.

By Command, NEALE PORTER, Colonial Secretary.

TRAVELLING ALLOWANCES TO PUBLIC OFFICERS.

THE following Regulations, to take effect from 1st January, 1902, were made in Privy Council by Governor Sir Augustus Hemming in regard to the re-imbursement of expenses to officers in the Public Service who are required to travel on duty:—

The following re-imbursements will be allowed to public officers who travel on duty, on account of their travelling expenditure, under the conditions stated:—

(1) The amount actually disbursed by a Public Officer for hire of conveyance or for keep of a man and horse, or for fares by Railway, Mail Coach, or steamer, will be repaid to him, on an account to be certified by him and to be supported by vouchers where practicable. All expenditure for which it is not possible to produce vouchers must be certified by the Officer concerned.

(2) Officers using their own vehicles and horses for driving instead of travelling by public conveyance will be allowed to receive fifteen shillings for each day or part thereof actually spent in travelling.

Officers riding their own horses, seven shilling and sixpence for each day or part of day so spent.

(3) In addition to any of the re-imbursements provided for in the foregoing paragraph daily allowances to cover all personal expenses on the following scale will be payable:—

To Heads of Departments and Officers drawing salaries			
of £600 a year and upwards	£0 17 6
To other Public Officers	0 13 6

(4) In cases in which the duty involved permits of the Officer returning to his home or office on the same day, only actual expenses disbursed will be allowed.

When an Officer has been travelling for more than one day, he will not be paid any personal allowance for the day on which he returns to his office or home beyond the refund of expenses actually incurred.

Donations to servants, etc., are not to be included in claims for refund of out-of-pocket expenses.

All claims must be accompanied by a daily itinerary of the route travelled.

Until further orders, the following Officers are excepted from the operation of the above rules.

(a.) Resident Magistrates and other Officers of the Court who now receive fixed amounts, allowance or rates.

(b.) Heads of Departments who now receive a fixed travelling allowance.

(c.) Inspectors of Schools.

(d.) Inspectors of Constabulary.

(e.) Superintendents of Public Works.

ALLOWANCES TO OFFICERS ON REMOVAL.

The following Rule regulates the allowances to be made to public officers transferred from one station to another:—

When an officer is removed from one place to another he may, except in the cases hereafter stated, receive a subsistence allowance of one pound per diem, and the actual reasonable and necessary cost of conveyance of himself and family. When the journey occupies less than 6 hours from station to station subsistence allowance cannot be claimed. The cost of removing household furniture will not be allowed; the expense of removing personal baggage will be sanctioned, provided the quantity and charge be reasonable. But under no circumstances will more than 500lbs. weight of personal baggage in the case of a single man and 800lbs. for a married man be allowed. All applications for removal expenses must have proper vouchers attached for all amounts claimed except subsistence allowance, and officers will be required to take the shortest practicable route to their destination, taking advantage of the railway where possible. Officers removed at their own request or under censure will not be allowed removal expenses. When an officer is removed on promotion he has no claim to removal expenses.

REGULATIONS AS TO LEAVE OF ABSENCE.

(Extracts from Colonial Office List.)

84. Subject to the necessities of the service leave of absence on half pay may be granted without any special grounds after six years' resident service from first appointment in the colony. It may be given after a less duration of service in cases of serious indisposition, or of urgent private affairs, if the Governor is satisfied that the indulgence is indispensable. In cases of serious indisposition the state of the Officer's health must be certified by his medical attendant or, if required by the Governor, by a medical board. In cases of urgent private affairs, the nature of such urgent affairs must be stated confidentially to the Governor.

85. In the absence of special grounds half pay leave must not exceed one-sixth of the Officer's resident service in the Colony. On special grounds it may exceed that period by six months.

86. Half-pay leave is primarily intended to enable an officer to recruit his health by change of climate, and it must not be granted to be spent in the Colony except in special circumstances.

87. The Governor may not in any case grant more than twelve months' half-pay leave, but may report to the Secretary of State the period for which the leave may be extended without injury to the public service. The Officer seeking an extension must apply to the Secretary of State in sufficient time, if practicable, to allow of reference to the Colony. Leave will not be extended as a matter of course nor unless public convenience permits.

88. When an officer receives in addition to the salary of his appointment an allowance granted to himself personally and not permanently attached to his office, he may, when absent on half-pay leave, draw only half of such personal allowance, the remaining moiety being left undrawn and lapsing to the Colonial Treasury. The undrawn moiety of the increments of salary of the absent officer will similarly lapse.

89. Governors will report to the Secretary of State each case in which leave of absence has been granted, transmitting a certificate in the form given in Appendix 3. The officer proceeding on leave will be furnished with a duplicate of the certificate to enable him to draw his salary. A third copy of the certificate will be sent direct to the Crown Agents for the Colonies when the officer's salary is to be paid through them, with instructions to issue the salary accordingly as it becomes due.

90. In special cases where an officer has served in one Colony for some years with little or no leave immediately preceding his transfer to another Colony, the Governor of the

latter Colony may, as an act of grace, recommend him for special leave in respect of his service in the former Colony, such recommendation being accompanied by any necessary particulars of former service and of the last leave taken in respect thereof. The amount of leave which should be shown on his leave certificate as his proper claim should be calculated according to the length of service in the Colony in which he is serving.

91. When an officer is entitled to half-pay leave no private arrangement made with the object of securing to him more than half-pay will be allowed.

92. An officer on leave may receive so much of any allowance for house rent as may not be wanted for the acting officer, the amount so allowed being reported on the leave certificate.

93. No part of any horse or travelling allowance and no fees will be paid to an officer on leave.

94. On arriving in this country (England) the officer on leave will report his arrival by letter to the Colonial Office, mentioning his address and he will similarly notify any subsequent change of address. Treasurers and auditors of colonies whose accounts are subject to audit, in this country should also send their addresses to the Comptroller and Auditor General.

95. Except in very special cases, as of unbroken official residence in the same Colony for fifteen years, no extensions will exceed six months at a time, nor will any officer on leave be allowed to receive half salary continuously for more than the following periods in respect of the following Colonies:—

Mediterranean Colonies	9 months.
West Indies, Bermuda, St. Helena and Falkland Islands	18 "
Mauritius, Ceylon, Hong Kong, Straits Settlements and Fiji	24 "

96. The foregoing regulations do not apply to vacation leave not exceeding, in the case of ordinary civil officers, three calendar months during and in respect of any two consecutive years' service. It is not necessary that any specific period should elapse between two successive grants of vacation leave; but an officer will not be granted his full three months at the beginning of a biennial period without some special reason.

97. In the case of judicial or educational officers, such vacation leave may extend to, but must not exceed the ordinary vacations of the court or institution to which they belong; and they may generally when absent on half-pay leave, receive full pay during any ordinary vacation of such court or institution which may occur during the period of their leave of absence. In Colonies where there is no ordinary vacation of the court or no vacation exceeding one month at one time, a judicial officer, may have the leave allowed to ordinary Civil Officers.

98. Vacation leave need not be reported to the Secretary of State unless the officer intends to visit the United Kingdom, in which case his departure must be reported as required when half-pay leave is granted. There is no abatement of salary during vacation leave; but the leave must be duly recorded and arrangements must have been made and approved by the Governor, for the adequate discharge of the officer's duties without cost to the public, except in very special circumstances.

99. Short periods of absence from duty owing to sickness are allowed on full pay, in accordance with the local rules of each Colony, without affecting vacation leave. (In Jamaica for 28 days in periods not exceeding 10 days).

100. An officer applying for leave with the intention of retiring must only receive such term of leave as will allow time for a decision upon his application for retirement; and the Governor giving leave under such circumstances will report the matter to the Secretary of State. An officer's salary will in such case cease and his pension commence when his retirement is sanctioned.

101. If an officer retires during his leave of absence without having originally given notice of his desire to do so, the date at which his half-salary is to cease will be determined according to the circumstances of the case.

102. Leave will count from the date of relinquishment to that of resumption of duty.

In Jamaica a Head of Department is allowed to take and give to members of his staff leave of absence not exceeding six days at a time or a fortnight in a year (conditionally on reporting the same to Government) without such leave interfering with the regular full pay vacation leave referred to in the above regulations; a Resident Magistrate may give himself short departmental leave or take it on informing the Government 24 hours before he intends to leave.

Copyists, Clerical Assistants, Typists and Stenographers, permanently employed in the public service may be allowed a total period of 4 weeks leave of absence on full pay during any one year. Such persons may accumulate their yearly leave, so that in respect of any period of two years they may obtain a total absence on full pay leave of eight weeks. C.S.O Circular 11,054—18.7.13.

RETIREMENT ON ACCOUNT OF AGE.

The following instructions were issued by circular to Heads of Departments and by advertisement in the Jamaica Gazette, January 22nd, 1914.

Colonial Secretary's Office,
9th January, 1914.

Sir,

I am directed by the Governor to inform you that he has had under consideration the question of regulating the retirement of public officers on the ground of age and has decided to adopt the system in force in the Civil Service of the United Kingdom. The general principles governing this system have hitherto been acted on here but they have not been promulgated by Circular.

2. Under Section 10 of Law 24 of 1904 it is competent for the Governor in Privy Council to require any Public Officer to retire from the Public Service of the Colony at any time after he attains the age of 60 years.

Similarly any Public Officer at that age may claim to be allowed to retire from the Public Service.

Officers whose services are not considered to be of sufficient utility to warrant their continuance in Office will at the age mentioned be required to make way for others showing greater capacity or energy.

Officers of approved merit will continue to hold office unless the exigencies of the Service should necessitate their superannuation.

3. Retirement shall be compulsory for every officer on attaining 65 years of age. But in special cases the Governor may extend an Officer's employment for a further period, not exceeding five years, on being satisfied that such Officer's retirement at 65 would be detrimental to the interests of the Public Service.

The main grounds on which it is considered that the retirement of an officer at 65 might be detrimental to the interests of the Public Service are:—

- (1) When the number of Officers in a Department above the prescribed age is such that their simultaneous removal would cause grave inconvenience.
- (2) When an Officer possesses peculiar qualifications which are essential to the performance of the duties of his office and which it would be difficult to replace by a fresh appointment.
- (5) Where an Officer has been entrusted with the execution of a particular duty which is approaching completion and it is found that the transfer of the work to another Officer who is necessarily less familiar with it would be attended with inconvenience.

I have the honour to be,

Sir,

Your obedient Servant,

P. C. CORK,

Colonial Secretary.

PENSIONS AND GRATUITIES.

Up to the time of the passing of Law 34 of 1885 (the 16th November, 1885) all applications from Officers in the Public Service of Jamaica for pensions and gratuities were dealt with under the Imperial Superannuation Acts, the various Treasury Minutes thereunder, and certain Regulations drawn up in the year 1879, known as the "Jamaica Pension Regulations.

A law was passed in 1885 confirming these pensions and further providing for persons in the Public Service at the time of the passing of the law. Another Pension Law, 26 of 1892, was passed enabling public servants who were not provided for in the Law of 1885 to qualify for pension by contributing 2 per cent. of their salaries annually to a Pension Fund. Both these laws were repealed by Law 24 of 1904 which embodies the provisions of both laws and which regulates all Public Service pensions now granted. Law 16 of 1912 provides for payment from General Revenue to subordinate officers of Prisons

WIDOWS AND ORPHANS PENSIONS.

THIS Fund, created by the Public Servants of the Colony under the provisions of Law 11 of 1875, and amending laws, and which at 31st March, 1903, stood at £100,393 11s. 11d. was, under the provisions of Law 32 of 1903, absorbed in the general revenue of the island, the Government thereafter receiving all revenues appropriable for making provision for the Widows and Orphans of deceased Public Officers and assuming all the commitments—immediate and contingent—of the Association, which thereupon ceased to be an independent organization.

By Law 21 of 1904, the several laws having reference to the granting of pensions to Widows and Orphans of Public Officers were revised and consolidated and brought within the compass of a single enactment.

Besides safeguarding rights and privileges acquired under repealed laws, provision is made by this Law for the Widows and Orphans of future public servants, the following being among its main features:—

- I. All Public Officers on being appointed to an office with £100 a year or upwards to contribute 4 per cent. of their salaries to general revenue.
- II. Such contributions to continue for 35 years or to age 65, if Public Officer remains in the public service so long.
- III. Provision is made for adjusting pensions in cases where contributions are increased or reduced from any cause or where they cease before the full number of payments have been made.
- IV. And for refunding a portion of their contributions when leaving the Public Service or completing their term of contribution, to bachelors or childless widowers.
- V. Pensions to Widows and Orphans are calculated under the tables attached to the law, these having been constructed on the actual mortality experience of the late Association during its operation, extending over 28 years.
- VI. Pensions to Widows and Orphans are not concurrent but are payable to the Widows until marriage or death, and are then divided among the Orphans in the following proportions:—
If three in number or less each receives one-fourth; but if more than three the pension is equally divided among them all. The pensions of boys cease at the age of 18 and of girls on marriage or at the age of 21 years.

The administration of the law is vested in an officer styled the Comptroller. Mr. A. H. Miles, Collector General, is the holder of the office and his report for 1915-16 shows that in that year pensions to the extent of £9,095 12s. 2d. were paid; the refunds to members were £21 4s. 8d.

**PART VI.
JUDICIAL AND LEGAL.**

SUPREME COURT OF JUDICATURE.

(Public Buildings, East Block, King Street).

Up to 1879 the Supreme Court of Judicature of this Island was but a Court of Common Law, although under various statutes it exercised jurisdiction in bankruptcy, and in several other matters specially provided for. In the year above-named it underwent a reconstruction and had consolidated with it the High Court of Chancery, the Incumbered Estates Court, the Court of Ordinary, the Court of Divorce and Matrimonial Causes, the Chief Court of Bankruptcy and the Circuit Courts.

By the Judicature Law 1879, Amendment Law, 1909, it is provided that—

Subject to the provisions of this Law the Supreme Court shall be constituted of a Chief Justice and a Puisne Judge.

The Chief Justice shall be the President and Chief Judge of the Court and shall be styled "The Chief Justice of Jamaica."

The Puisne Judge shall be styled the Puisne Judge of the Supreme Court of Judicature of Jamaica.

The full Court of the Supreme Court shall be constituted of the two Judges of the Court and the Judge of the Kingston Court. (See page 238 for Kingston Court.)

The Judge of the Kingston Court shall, while sitting in the Full Court have all the rights and powers, but not otherwise, of a Judge of the Supreme Court and as such shall rank after the Puisne Judge.

The full Court holds a session in Kingston 3 times a year, in the months of March, July and November. A special sitting of the full Court may at any time be appointed by the Chief Justice.

Extracts from Rules and Orders under the Judicature Law, 24 of 1879:—

Except in relation to the matters specified in sections 31 and 32 of the Judicature Law and to causes and matters (other than of an interlocutory nature) under the Divorce Law, a single Judge sitting in Court or in Chambers may exercise the jurisdiction and powers of the full Court: Provided that such Judge may at any time, if he shall think fit, refer any matter before him for the consideration of the full Court.

The duties of the Circuit Court shall be performed by the Judges by arrangement amongst themselves.

Business in equity and for the sale of Incumbered Estates shall be transacted and disposed of in the first instance by a single Judge sitting in Court or in Chambers, such single Judge being ordinarily the Chief Justice.

Business in Bankruptcy (see Bankruptcy Law) shall be transacted and disposed of in the first instance by a single Judge sitting in Court or in Chambers, such single Judge being ordinarily the Puisne Judge.

APPEALS FROM THE SUPREME COURT OF JAMAICA TO HIS MAJESTY IN COUNCIL.

By Order of King Edward VII in Council made (in pursuance of the provisions of the Imperial Statute 7 and 8 Vic. c 69) on the 15th day of February, 1909, it was ordered that any person may appeal to His Majesty, his heirs and successors, in His or their Privy Council.

- (a) as of right, from any final judgment of the Supreme Court of judicature of Jamaica where the matter in dispute on the appeal amounts to or is of the value of £300 sterling or upwards, or where the appeal involves directly or indirectly some claim or question to or respecting property or some civil right amounting to or of the value of £300 sterling or upwards and:—
- (b) at the discretion of the said Court, from any other judgment of the said Court, whether final or interlocutory if, in the opinion of the Court the question involved in the appeal is one which, by reason of its great general or public importance or otherwise, ought to be submitted to His Majesty in Council for decision.

the person feeling aggrieved to apply to the Court by motion or petition for leave to appeal within 21 days from the date of the judgment to be appealed from, notice of the intended appeal to be given to the opposite party. And the Court is empowered to direct that the Judgment appealed from shall be carried into execution, or that execution shall be suspended pending the appeal as to the Court may seem just. In all cases security is to be given by the Appellant in the sum of £500 for the prosecution of the appeal and the payment of any costs which may be awarded to the Respondent—such security to be entered into within a period to be fixed by the Court, but not exceeding three months from the date of the hearing of the application for leave to appeal.

By this Order the Court appealed from is required to certify and transmit to the Privy Council a copy of the evidence, proceedings, judgments, decrees and orders made in the case appealed, under the Seal of the Court, and also a copy of the reasons given by the Judges of the said Court for or against the judgment appealed from.

The order also contains directions as to the transcript records to be sent by the Registrar of the Supreme Court to the Registrar of the Privy Council and the printing of such transcript by the Appellant or his Agent and as to the power of the Judicial Committee of the Privy Council to suspend or relax the regulations of the Order. Directions as to the form and type used in the printing of these proceedings in appeal are also contained in the said Order.

By this Order it is directed that in appeals from any judgment of any Court in the colonies the reasons given by the Judges of such Court for or against such Judgment shall be by the Judges communicated in writing to the Registrar of such Court to be by him transmitted in original to the Registrar of the Privy Council at the same time when the record is transmitted.

INCUMBERED ESTATES COURT.

By an Order of Queen Victoria in Council dated the 28th May, 1889, reciting that the West Indian Incumbered Estates Acts, 1854 to 1872, were then in operation in this Island, and further reciting that an address from the Legislature of this Island had been presented to Her Majesty praying for an Order of Her Majesty in Council to be made directing that the said West Indian Incumbered Estates Acts, 1854 to 1872 shall cease to be in operation in this Island. It was then ordered, that subject as in that order is mentioned the West Indian Incumbered Estates Acts, 1854 to 1872 should cease to be in operation in Jamaica as from the 1st August, 1889, thereafter referred to as the appointed day. It was by the said order further provided (i) That the order should not affect the operation of the said Acts nor anything done thereunder prior to the appointed day. (ii) Proceedings commenced but not completed before the appointed day should be completed as if that order had not been made. (iii) States when proceedings shall be deemed completed. (iv) Provides the transfer of money, stocks and funds to the account of Her Majesty's Paymaster General, and further orders that any money in the Commissariat Chest in Jamaica standing to the account of the Commissioners shall be paid to the Treasurer of Jamaica in trust to attend the Order of the Supreme Court of Jamaica (sects. vi, vii) relates to the disposal of unclaimed moneys and the proceedings with reference thereto.

The Act creating a Local Court (Law 17 of 1873 entitled the Incumbered Estates Law, 1873) which was passed on the 19th June, 1873, and came into operation on the 1st September, 1873, continues in force, but upon coming into operation of the Judicature Law, 1879 (Law 24 of 1879), on the 1st January, 1880, the Local Incumbered Estates Court

was consolidated with other Local Courts under the name of "The Supreme Court of Judicature of Jamaica."

The rules of this Court form a portion of the General Rules and Orders under the Judicature Law, 1879, published in the Jamaica Gazette of the 13th April 1882, and came into operation on the 1st July, 1882, as per notification in the Gazette of the 27th April, 1882.

The result is that the Imperial Court has been abolished in Jamaica and the Local Court has been consolidated in the Supreme Court of which it now forms a portion.

It may not be amiss to state as connected with this subject that consignees or factors' liens were abolished from and after the 31st July, 1886, by Law 17 of 1885, which provides for the registration in the Record Office of all claims to such liens existing at that date.

ADMIRALTY COURT.

(Public Buildings, East Block, King Street.)

UNTIL the 1st July, 1891, Jamaica possessed a Vice-Admiralty Court under the Imperial Statutes 26 Vic., ch. 24, and 30 and 31 Vic., ch. 45. This Court has ceased to exist under the provisions of "The Colonial Courts of Admiralty Act, 1890," 53 and 54 Vic., chap. 27, passed on the 25th July, 1890, published in the Jamaica Gazette of the 20th Nov., 1890, page 741, by which these two Statutes are repealed.

By the second section of the last-mentioned Statute every Court of Law in a British possession that has therein original unlimited Civil Jurisdiction shall be a Court of Admiralty with the jurisdiction therein mentioned and may for the purpose of that jurisdiction exercise all the powers which it possesses for the purpose of its other civil jurisdiction and such Court is in the Statute referred to as a Colonial Court of Admiralty.

By the Statute it is enacted that the jurisdiction of a Colonial Court of Admiralty shall, subject to the provisions of the Statute be over the like places, persons, matters and things as the Admiralty Jurisdiction of the High Court in England, and may exercise such jurisdiction and have the same regard to international law and the comity of nations as the High Court in England.

The Statute also provides for Local Admiralty appeals and appeals to the King in Council, rules of Court, fees and costs, droits of Admiralty and of the Crown, power to the Admiralty to establish Vice-Admiralty Court Judges and other Officers. The 10th section provides that whenever there is not a formally appointed Vice-Admiral in a British possession the Governor of the possession shall be *ex officio* Vice-Admiral thereof, and the 16th section provides that the Act shall come into force in every British possession on the 1st July, 1891. The Admiralty Court is now part of the Supreme Court with the same officers.

By Law 38 of 1894 (23 May, 1894) as amended by Law 18 of 1906 (14 May, 1906) provision is made for the appointment of an Admiralty Bailiff of the Supreme Court.

Rules of Court were prepared by the then Chief Justice under the 7th section of the Law. These rules were approved by Queen Victoria in Council, on 30th January, 1893, and were published in the Jamaica Gazette of 13th April, 1893.

ADMINISTRATOR-GENERAL'S OFFICE.

(Public Buildings, East Block, King St.)

THE want of a duly authorized Officer to take charge of the property of persons who died either intestate, or without leaving executors who will act, having for a considerable time pressed itself on the consideration of the Government, a law was passed in 1873 (Law 34 of 1873) for the appointment of an Administrator-General. Under this Law the Administrator General is bound to administer on the estates, of which the personalty amounts to £50 and upwards, of persons (1) who die intestate without leaving a widower, widow, brother, sister or any lineal ancestor or descendant, or leaving such relative, if no such relative shall take out letters of administration within three months or such other time as may be fixed by the Court; (2) who die leaving a will but leaving no executor, or no executor who will act, if no such relative as aforesaid of such deceased shall take out letters of administration within the same period. He may administer on the estate of any person who shall appoint him the sole executor of his will, but he cannot act as a co-executor with any other person. The Administrator-General may be appointed trustee of any real or personal property in the same way that any other person might

be appointed. He may also be appointed guardian of any infant, committee of any lunatic or idiot, and receiver in chancery.

The Administrator-General is subject to the immediate control of the Supreme Court of Judicature, he being an Officer of that Court and accountable to it for the due and efficient discharge of his duties.

This Department was combined with that of the Stamp Commissioner on the 1st September, 1893, but was again separated on the retirement of Mr. Chapman.

The amending Law, 26 of 1894, provides that the Administrator-General shall be paid such salary as the Governor may from time to time determine; and that all commissions, fees and remuneration of office, other than salary, formerly payable to the Administrator-General, shall be paid into the Public Treasury, and form part of the General Revenue of the Island.

It also provides that all expenses of clerks and assistants, together with all expenses incurred in and about the duties of his office which formerly had to be defrayed personally by the Administrator-General, shall be paid out of the general revenue.

During the twelve months ending 31st March, 1916, Letters of Administration to the estates of five and probate to the estates of two persons were granted to the Administrator-General in the Supreme Court.

There were also granted to him in the various Resident Magistrate's Court, Letters of Administration to the estate of 15 persons, in one case with the Will annexed.

The Administrator-General was also appointed by the Court in manner following:—

Trustee and guardian in the matter of one estate of an infant;

Guardian in the case of two Infants;

Receiver in one estate of a deceased person and interim receiver in one suit.

During the year the effects of three persons who died in the Public Hospitals in the Island were handed over to the Administrator-General.

The estates of 136 labourers and others who died in Panama, Costa Rica and Cuba, were also during this period referred to the Administrator-General to be dealt with under the provisions of Laws 21 of 1906.

At the 31st March, 1916, the amount at credit of the Estates of Deceased Persons, Lunatics, custodian enemy property, Receiverships and Trusts was £153,212 19s. 9½d.

The accounts of the Administrator General are audited and passed half-yearly by the Supreme Court.

BANKRUPTCY.

THE Bankruptcy Law of 1879 declares that the Administrator-General for the time being shall be *ex officio* the Trustee in Bankruptcy in the Supreme Court, and it places the administration of debtors' estates in bankruptcies occurring in that Court in the hands of that officer, who is directly accountable to the Supreme Court of Judicature. The Law as amended by 24 of 1892 places the question of a Bankrupt's discharge, and of the conditions to be attached thereto, in the hands of the Court, and gives the Court the power of inflicting punishment for culpable bankruptcies or other fraudulent transactions. The amending law now in force makes it incumbent on bankrupts to pay 10s. in the £: otherwise their discharge is suspended for two years, and it also provides for the administration of deceased person's estates in bankruptcy.

The following table shows the number of persons who took the benefit of the Insolvent Debtor's Law during each of the eight years previous to 1868:—

1861	16	1863	75	1865	39	1867	64
1862	76	1864	40	1866	47	1868	39

The following table shows the number of persons declared bankrupts in the Supreme Court during each of the last 14 years under the provisions of the new Bankruptcy Law:—

1902	14	1907	3	1912-13	23
1903	13	1908	3	1913-14	27
1904	14	1909-10	7	1914-15	42
1905	25	1910-11	16	1915-16	18
1906	16	1911-12	38		

R

The judicial statistics of the Colony show that the bankruptcies which took place in the period between May, 1840, and May, 1845 (when the full force of Emancipation may be assumed to have been felt) and the 9 years between 1877 and 1885 stood as follows:—in the former period the total amount of liabilities was £1,423,371 7s. 5d. and in the latter period the total amount of liabilities was £241,884 19s. 6d.

During the twelve months ending 31st March, 1916, there were eighteen Provisional Orders in Bankruptcy made in the Supreme Court upon Creditors' Petitions of which twelve were made Absolute, one transferred to the Lower Courts, and two revoked; whilst the remaining four were pending at the end of the year.

An absolute Order was granted by the Supreme Court to one debtor on his own petition during the year.

An absolute Order in respect of proceedings commenced in previous years was made in one case, and in one case a Provisional Order was revoked.

Six debtors against whom provisional orders were made left the Island before the date fixed for the meeting of creditors.

On the 31st March, 1916, the amount at credit of Bankrupt Estates was £12,886 5s. 2½d.

The accounts of the Trustee in Bankruptcy (like those of the Administrator-General) are audited and passed half-yearly by the Supreme Court.

PRIZE COURT.

PRIZE JURISDICTION in Jamaica is vested in and exercised by the Supreme Court, that Court being the Local Court of Admiralty under the Imperial Statute 53 and 54 Vic. c. 27. This jurisdiction is derived from the warrant of the Lords Commissioners

of the Admiralty (published in the Jamaica Gazette of the 7th December, 1905,) authorizing the Supreme Court to act as a Prize Court. The warrant by its terms defines and limits the jurisdiction which became exercisable when the proclamation of the outbreak of war was made. There is an appeal to His Majesty in his Privy Council.

The Order in Council prescribing the Rules and Tables of Fees to be observed and taken in Prize Proceedings is published in the Jamaica Gazette of September 12, 1914.

The Judges of the Court are the Chief Justice (President) and the Puisne Judge; the Registrar is the Registrar of the Supreme Court and the Marshall is Mr. R. E. Seaton.

Since the commencement of the war the following causes have been adjudicated by the Court:—

- (a) "The Bethania" captured at sea by H.M.S. "Essex" (Captain Hugh Dudley Richard Watson). The ship was delivered to the Crown by order of the Court on an undertaking being given. Part of the cargo was condemned and sold, and part released to neutral claimants.
- (b) The Lighters 1/16, 2/16, 3/16 and the "Atlas" (a launch) were seized in the port of Kingston by Officers of the Customs and orders of detention made.

THE KINGSTON COURT.

By Law 36 of 1909, a special Court was created "to transact the civil jurisdiction of the Resident Magistrate's Court for the parishes of Kingston and St. Andrew." This Law came into operation on 1st January, 1910, by proclamation of the Governor, and *Jasper Farmer Cargill, Esq., was appointed to be the judge, under letters patent, during His Majesty's pleasure.

No. 717.

Colonial Secretary's Office,
2nd November, 1916.

UNDER the provisions of Section 2 (1) of Law 24 of 1910, the Governor in Privy Council has approved and fixed the following times for the holding of the Kingston Court at Kingston during the year 1917.

By command,

ROBT. JOHNSTONE,
Acting Colonial Secretary.

January 8, 22; February, 5, 19; March 5, 19, April 2, 16; May 7, 21; June 11, 25; July 2, 16; August 6, 20; September 3, 17; October 8, 22; November 5, 19; December 3, 17.

N.B.—The above dates are only dates on which actions are returnable. Special fixtures are made for contested cases and Judgment Summonses.

RESIDENT MAGISTRATES' COURTS.

On the coming into operation on the 2nd April, 1888, of Law 43 of 1887, the Resident Magistrates Law, 1887, the District Courts, which had been in operation since the year 1867, ceased to exist. Law 43 of 1887, with its amending laws have been consolidated

* See Supreme Court, p. 243.

† And Fees.

by The Resident Magistrates Law, 1904, (Law 28 of 1904). The Resident Magistrate not only presides in the Court of Petty Sessions but holds a Court of his own, where he sits alone. Almost the same jurisdiction as that of the former District Courts is conferred upon the Resident Magistrate's Court, and it is the Intermediate Court between the Supreme Court and the Courts of Petty Sessions. There is a Resident Magistrate's Court for each parish of the Island, with as many stations as may from time to time be fixed by the Governor.

The Governor is empowered to appoint not less than nine and not more than fourteen Resident Magistrates for the Resident Magistrates' Courts, and an Assistant Resident Magistrate for the parish of Kingston. Each Resident Magistrate has the Resident Magistrate's Court of one parish assigned to him. But in addition to this a Resident Magistrate shall, if the Governor so direct, also have and exercise the jurisdiction of the Resident Magistrate's Court in any other parish or parishes, either generally, or at such one or more stations therein as may from time to time be assigned to him by the Governor.

Every Resident Magistrate is Coroner for the parish or parishes to which he is assigned by the Governor.

The qualifications for a Resident Magistrate are that he must be a member of the English or Irish Bar, or of the Faculty of Advocates of Scotland, or a Solicitor of the Supreme Court of Judicature of England, Scotland, Ireland or Jamaica, or a Writer to the Signet of Scotland.

The Resident Magistrates Law also provides for the appointment of Clerks to the Courts in the several parishes, whose qualifications are the same as those of a Resident Magistrate, or the passing by an Assistant Clerk of Courts of an examination equal to that required of an Articled Clerk presenting himself for examination prior to being admitted as a Solicitor, of Assistant Clerks of the Courts, and of Bailiffs of the Resident Magistrates' Courts.

Tariff of Fees in the Resident Magistrates' Courts for Practitioners, for Court Fees, and for Bailiffs' Fees published in the Jamaica Gazette of the 18th February, 1892, 2nd March, 1899, and 11th December, 1902, and referred to in Section 142 of Law 28 of 1904.

FEES FOR PRACTITIONERS.

The following shall be the scale of costs and fees, as well between party and party, as between Solicitor and client, payable in all cases in the Resident Magistrate's Court where Solicitor's costs or Counsel's fees shall be awarded, except where by any Statute or Law special provisions as to costs or fees have been enacted.

Solicitor's costs in contested cases in Common Law and equity, when a Barrister is not employed:—

When the amount recovered or the value of the claim does not exceed £10	£2	2	0
When the amount recovered, or the value of the claim exceeds £10 and does not exceed £20	3	3	0
When the amount recovered, or the value of the claim exceeds £20 and does not exceed £30	4	4	0
When the amount recovered, or the value of the claim exceeds £30 and does not exceed £50	5	5	0
When the amount recovered or the value of the claim exceeds £50 and does not exceed £200	7	7	0

Where a Barrister is employed, one half the above rates.

In cases which are not contested—Common Law.

Where the amount recovered does not exceed £10	0	13	0
Where the amount recovered exceeds £10 and does not exceed £20	0	17	0
Where the amount recovered exceeds £20 and does not exceed £50	1	8	0

Provided that when the defendant satisfies the plaintiff's claim within four clear days of the service of the summons, the defendant will not be liable to pay a larger sum for Solicitor's costs than the amount prescribed in the following table:—

In cases where the claim does not exceed £10	0	8	0
Where the claim exceeds £10 and does not exceed £20	0	12	0
Where the claim exceeds £20 and does not exceed £50	0	18	0

EQUITY.

Cases going by default or settled before hearing	3	3	0

Fees to Counsel.

When the subject matter or the sum recovered does not exceed £10	1	1	0
When the subject matter or the sum recovered exceeds £10 and does not exceed £50	£2	2	0 to 3 3 0

When the subject matter or the sum recovered exceeds £50 .. £5 5 0
 When the trial lasts more than one whole day, or is adjourned for want of time, further consideration, or upon payment of the costs of the day, a refresher may be allowed by order of the Judge not exceeding £1 1s., in cases where the subject matter or sum recovered exceeds £20 and does not exceed £50; and where the subject matter or sum recovered exceeds £50, from £1 1s. to .. 2 2 0-

In Equity Cases where, from the number of attendances or from the difficulty of the case, the Judge shall think the highest of the above fees insufficient remuneration for the services performed, or when any such case shall have required extraordinary skill and labour, and the same has been satisfactorily and speedily disposed of, the Judge may augment the Solicitor's costs and Counsel's fees charged on the basis of this tariff by a further sum not exceeding £10.

In any action in which the title to any real or personal property is bona fide in dispute or which is brought to try a right in addition to or irrespective of a right to damages, the Judge may allow to the successful party such costs as he may think fit, not exceeding in amount what would be allowed if the demand exceeded £200.

In any action where the trial has, in the opinion of the Judge, been unnecessarily protracted by reason of the calling of unnecessary witnesses or otherwise by the conduct of the Solicitor or Counsel in unnecessarily prolonging the proceedings, the Judge shall be empowered to award in addition to the above rates costs not exceeding £3 3s., per day for every day of the trial after the first day.

In Actions under Section 149 of the Resident Magistrates Law, 1904, and Judgment Summonses.

In cases where the claim exceeds £2 and under £10 ..	£0 8 0
Do. do £10 do. £20 ..	0 12 0
Do. do £20 and up to £50 ..	0 18 0
<i>In Judgment Summonses where unpaid debt exceeds £5—</i>	
£5 and under £10 ..	0 10 0
£10 and under £25 ..	0 15 0
£25 and up to £50 ..	0 18 0

Costs as provided by Section 150 of the Resident Magistrates Law, 1901

In cases where an order is made under section 227 of the Resident Magistrates Law 1904, in addition to the costs which may be awarded on the recovery of the amount, Solicitor's costs may be allowed on the following scale:—

Where the judgment debt does not exceed £5 ..	£0 10 0
Exceeding £5 and not exceeding £10 ..	0 15 0
Exceeding £10 and not exceeding £25 ..	0 18 0
Exceeding £25 ..	1 1 0

PROBATE AND ADMINISTRATION.

In non-contentious cases when the real and personal estate does not exceed £100 ..	£2 2 0
Exceeding £100 ..	3 3 0
In contentious cases where the real and personal estate does not exceed £100 ..	5 5 0
Exceeding £100 ..	7 7 0
In contentious cases where a Barrister is employed, one half the above rates.	

Fees to Counsel.

£3 3s. in cases up to £100.
 £5 5s. in cases exceeding £100.

LAND.

In any contested or non-contested suit under the land jurisdiction of the Court, inclusive of any claim for rent or mesne profits (Sections 85 to 106, inclusive, of the Resident Magistrates Law, 1904):—

£2 2s. to £7 7s. in the discretion of the Judge when Counsel is not employed.
 When Counsel is employed £1 1s. to £2 12s. 6d.

Fees to Counsel.

£2 2s. to £5 5s. in the discretion of the Judge.

REPLEVIN AND INTERPLEADER.

£2 2s. to £5 5s. in the discretion of the Judge when Counsel is not employed.

When Counsel is employed, £1 1s. to £2 12s. 6d.

Fees to Counsel

£2 2s. to £5 5s. in the discretion of the Judge.

New Trial.

On every motion for a new trial £0 10 6

Costs of new trial to be allowed on same scale as the original trial

Adjournment.

For attendance in Court when the case is called on and adjourned .. 0 5 0

Arbitration.

Attending reference with Counsel or without Counsel, the same as at the hearing in Court of a contested case.

Fee to Counsel for each sitting, sum paid not exceeding the rate payable on the trial of a case of the same amount in Court.

Witnesses' expenses as provided by Laws 35 of 1896 and 9 of 1899.

Note—Costs of Counsel and Solicitor, or of a Solicitor on attending reference shall be in the award of the arbitrator, unless otherwise provided by the order of reference.

Travelling Expenses.

No travelling expenses shall be allowed for Barristers or Solicitors, except by the special direction of the Judge, which direction the Judge is hereby authorized to give if he thinks the travelling expenses ought to be allowed. When any such direction is given the Judge shall himself fix the amount to be allowed.

Appeal.

Lodging an appeal including all that is required to be done by the appellant before transmission of the papers to the Court of Appeal .. £1 1 0

Note—The costs of an appeal after the transmission of the papers to the Court of Appeal will be regulated by the order of the Court of Appeal.

When the defendant is successful, Solicitor's costs and Counsel's fees shall be on the basis of the above scales, but calculated on the amount claimed, or when the matter does not admit of such calculation, on the value of the property or thing in dispute.

Applications for Sale of Lands under Section 223 of the Resident Magistrates Law, 1904.

In cases where the judgment debt and costs have been satisfied, or the application is withdrawn within 14 days of the service of the order for the sale of the land £2 2 0

In addition to the above fee of £2 2s. in cases where the land sold realizes less than £20 .. 1 1 0

More than £20 but not less than £50 .. 2 2 0

More than £50 but not less than £100 .. 3 3 0

More than £100 .. 5 5 0

Provided that where from the number of parties to be served, or from the course adopted by the owner of the land, or any claimant or encumbrancer, the Judge shall be of opinion that the above scale does not afford sufficient remuneration for the necessary work connected with or incident to the application, he may allow the Solicitor a further sum not exceeding 5 5 0

When costs of parties other than the judgment creditor's are awarded, the Judge shall fix the amount of such costs.

COURT FEES.

The following shall be the scale of fees payable in all cases to the Clerk of the Court by the party requiring anything to be done in respect of which any such fee is payable:

On lodging every plaint and issuing summonses thereon, where amount claimed does not exceed £2 £0 2 0

On lodging every plaint and issuing Summons thereon, where amount claimed exceeds £2 0 0 9

in the £ or part of the £.

This scale shall apply to fees required by Section 154 of the Resident Magistrates Law, 1904, to be paid by any Defendant giving notice of a counter-claim.

Provided that in Plaints for the recovery of damages for trespass to land (other than claims under the Cattle Trespass Law) the minimum fee payable on lodging a Plaint shall be £0 10 0

On each Judgment Summons £0 4 0

The same fee shall be paid on the occasion of giving any notice under Section 227 of the Resident Magistrates Law, 1904

On every application for the sale of land under Section 223 of the Resident Magistrates Law, 1904 0 15 0

Issuing Warrant to Levy, of Commitment, of Attachment of Execution, or any other warrant 0 1 0

Copies of evidence or documents, or extracts from or copies of the books for every sheet of 160 words, or fraction of a sheet 0 0 6

For entering every Appeal 0 10 0

In addition there shall be paid by the Appellant, at the rate above prescribed, for copying the evidence, judgment and such documents as require to be copied for the Court of Appeal before the papers shall be transmitted to the Court of Appeal.

On lodging every plaint or other document requiring transmission through the post 0 0 6

NOTE.—In all plaints for the recovery of any debt or damages the Court fees shall be estimated on the amount of the demand; but where the plaintiff recovers less than the amount of his claim the difference between the Court fees according to that amount, and the Court fees, according to the amount recovered, shall be paid by the plaintiff and shall not be charged as cost against the defendant.

REPLEVIN.

For a warrant to replevy £0 2 6

For a replevin bond, when the claim or value of the property does not exceed £20 0 2 6

Where it exceeds £20 0 5 0

In an action of Replevin where the property sought to be replevied has been seized as a distress, the amount claimed shall be deemed to be the amount of the rent or other claim in respect of which such property has been distrained, or the value of the property sought to be replevied, whichever shall be the smaller amount; in any other case it shall be deemed to be the value of the property sought to be replevied, which value shall in the first instance be assessed by the plaintiff. Provided that the Judge at the hearing shall assess such value, and shall direct by whom, and when and how, any excess over the fees originally paid shall be paid.

INTERPLEADER.

- (b) Where the Assets of the Bankrupt are sworn to exceed in value the sum of £50 then after the rate of two-thirds of the amounts chargeable and allowable for similar work in the Supreme Court.

Note 1—The above scale shall apply as between Solicitor and client, as well as between party and party.

Note 2—All accounts shall be taxed by the Clerk of the Courts, and approved by the Judge. Every such taxation and approval shall be subject to reviewal by the Judge, on the application of any person interested therein but no such reviewal shall be made, unless the person desiring the same shall, within seven days after such approval, give a notice in writing to the Clerk of the Courts, and to the person preferring the account, naming the items to which objection is taken.

The costs of such reviewal shall be in the discretion of the Judge.

CRIMINAL.

In any cases arising out of charges lodged on the part of the public by the Attorney General, or by any person acting under his instruction, or by any Resident Magistrate, or by any two Justices of the Peace, or by any person acting under the instructions of any Parochial Board, or by any Public or Parochial Officer whose duty it is as such to lodge such charge, or by any Officer, Sub-Officer, or Constable of the Jamaica Constabulary Force in any matter in which it is his duty as such to lodge such charge, no Court fee shall be required.

In all other cases the following Court Fees shall be paid:—

In all summary proceedings in a Resident Magistrate's Court the Fees shall be the same as in the Court of Petty Sessions.

The fees payable in Summary Cases, shall be payable in Indictable Cases, in so far as the same are applicable, and in respect of the following proceedings to which no such Fee is applicable; the following Fee shall be paid:—

12. Executing writs of execution against the goods, 1s. in the £, poundage to be on the net proceeds after payment of all incidental expenses of the levy and sale.
13. Mileage (once only) at the rate of 6d. per mile from nearest court house when the bailiff succeeds in satisfying at least 25 per cent. of the amount of the writ.
14. Keeping possession of goods till sale, or until arranged between the parties per day not exceeding 7 days
where the amount of demand does not exceed £10 1s.
where the amount of demand exceeds £10 2s.
15. For the appraisalment of goods distrained, 3d. in the £ on the value.

Bailiff as Auctioneer.

16. In cases other than levies, where the bailiff by order of the Resident Magistrate acts as auctioneer to conduct any sale of property, real or personal, ordered by a Resident Magistrate's Court to be sold, his remuneration shall be according to such special terms as the Resident Magistrate shall fix, not exceeding the rate of 2½ per cent. on the first £100 gross proceeds, and at the rate of 1s. per cent. on any sum in excess of £100: Provided always that in cases where the property to be sold consists wholly or to a great extent of personal effects, or live stock and the like property the Resident Magistrate may award to the Bailiff further remuneration, not exceeding the rate of £2 per centum: provided that such fees shall not include advertisements.

Interpleader Summonses.

17. Where the claimant elects under section 81 of Law 28 of 1904, or otherwise, that the bailiff shall keep possession of the goods until the decision of the Court is obtained then he shall pay to the bailiff as under—
 For the keep of live stock at the rate of 1s. 6d. per day for each animal, until the return day.
 For the keep of dead stock 6d. per day.
 In the event of the trial being postponed the claimant shall also pay the above rates until the day of hearing.

General.

18. When any mileage money shall be payable on the service or execution of any process such mileage money shall be charged and reckoned from that court house of the parish where a Bailiff or Assistant Bailiff is stationed which is nearest to the residence of the person against whom such process shall have been issued.
 19. All necessary expenses out of pocket incurred by a bailiff in performing his duties and not covered by the above fees shall be allowed on taxation by the Clerk of the Courts.

HOLDING OF COURTS.

Under section 69 of Law 28 of 1904 it is the duty of every Resident Magistrate on or before the 31st day of October in each year to fix the times and places for the holding during the ensuing year of Courts of Petty Sessions and Resident Magistrates' Courts throughout the parish or parishes assigned to him by the Governor.

These fixtures are however subject to the approval of the Governor in Privy Council, who may alter the times and places proposed as he may see fit. Should a Resident Magistrate fail to fix the times and places within the time aforesaid, it is lawful for the Governor in Privy Council to fix them without reference to the Resident Magistrate.

The Law also requires that notice of the times and places fixed for the holding of the Courts shall be published in the Gazette, and shall be put up in some conspicuous place in each Court House in the parish and in the Office of the Clerk, at least one month before the time appointed for the holding of the Courts. This provision applies also to any alteration in the times fixed, which it may be found desirable to make, but does not in any way interfere with the powers of the Resident Magistrate or in his absence, of a Justice of the Peace, or failing a Justice, of the Clerk or Assistant Clerk, by declaration in open Court, to adjourn any Court to any day or place whether or not such day or place has been fixed and approved as provided in the first paragraph of Section 69.

The Resident Magistrate has the power also to hold his Court for the exercise of its Criminal Jurisdiction at any time and place that he may see fit.

Power is given by Section 70 to the Resident Magistrate to sit in Chambers and there to make Orders as to the mode of trial of persons brought before him charged with any indictable offence, to hear and determine any application for a change of venue from one station to another in his parish, for any stay of execution, for a habeas corpus to bring up any witness or prisoner, and any application respecting the taxation of costs, and also any unopposed application for Probate or Administration, and also any application that may properly be made *ex parte* and without notice to the other side.

A sitting in Chambers may be fixed by the Resident Magistrate for any place or time, and he has jurisdiction to act without notice of such sitting being given.

In order to provide the means of dealing as early as possible with persons charged with indictable offences, the law enacts that the Resident Magistrate shall at all times be deemed to be sitting in Chambers for the purpose of making Orders as to the mode of trial of such persons.

The Resident Magistrate may refer any matter brought before him in Chambers to be disposed of in Court, if owing to its importance or for any other reason he thinks it should be so disposed of

COURTS OF PETTY SESSIONS.

PETTY SESSIONS COURTS were established in this island shortly after the English conquest of the Island when the judicatories for the peace and good order of the island were settled. They are constituted as in England. Justices of the Peace are appointed to each parish by commission from the Governor under the great seal of the island as conservators of the public peace. They derive their power from their commission and their jurisdiction is conferred by various local laws. Generally one of the body is selected by the Governor and appointed Custos—an office similar to that of Custos Rotulorum in England. Where there is no Custos the Magistrate next in seniority to him or the Senior Magistrate of the parish and resident in the parish and in the habit of acting as a Justice of the Peace therein, is the individual falling under the designation of Custos. (18 Vic., chap. 31, section 6.) The course of procedure in the Courts of Petty Sessions is regulated by the 13th Victoria, chapters 24 and 35, which consolidate the previous provisions on the subject.

By Section 21 of Law 28 of 1904 every Resident Magistrate appointed under that law is *ex officio* a Justice of the Peace for every parish of the island.

The Clerks of the Courts act as Clerks in the Courts of Petty Sessions and in the Resident Magistrates' Courts and Circuit Courts. They are authorised to take information on oath and to issue summonses, warrants and subpoenas in criminal and quasi-criminal cases. The Assistant Clerks possess similar powers when appointed by the Governor to act as Deputy Clerks of the Courts.

PART VII.

JAMAICA FINANCES.

REVENUE AND EXPENDITURE.

THE revenue for the year 1915-16 amounted to £1,132,049 12s. 11½d., and the expenditure was £1,105,942 2s. 11d.

Parochial Revenues, which are devoted to Parochial Roads, Poor Relief, Sanitary and other local services and are administered by the several Parochial Boards, amounted to £168,393 14s. 0½d. This includes amounts borrowed from the public chest.

Parochial Expenditure amounted to £162,880 6s. 5½d., or £4,090 11s. 10½d. less than in the previous year. The re-payment of loans from General Revenue, which amounted to £2,757 8s. 7d., is included in the Expenditure.

Immigration Expenditure amounted during the year to £6,741 16s. 2½d.

DEBT.

The Public Debt directly secured on General Revenue stood as follows at the close of each of the last ten years, after making allowance in each year for the Sinking Funds actually invested for the eventual redemption of debt.

			£	s.	d.
1907	3,247,125	5	11
1908	3,280,830	19	7
1909	3,262,081	17	9
1910	3,289,211	15	4
1911	3,293,684	3	3
1912	3,150,755	5	7
1913	2,994,227	6	7
1914	2,941,521	5	2
1915	2,924,839	2	9
1916	2,859,512	4	0

The above amount was raised at varying rates of interest and the balance at present outstanding is held—

£	s.	d.	
39,342	3	2	(Rectors and Curates Funds) at six per cent.
13,845	18	3	.. at six per cent.
104,676	2	7	.. at four and a half per cent.
1,077,934	16	2	.. at four per cent.
1,473,653	2	0	.. at three and a half per cent.
148,978	17	1	.. at three per cent.
1,081	4	9	.. at two and three-fourths per cent.
2,859,512	4	0	

A considerable portion of the amounts originally raised by debentures has since been converted into inscribed stock under the provisions of Law 13 of 1885, but the present liability is divided as follows:—

Gross Outstanding—

Debentures	£503,945	0	0
Inscribed Stock, England	2,792,648	1	3
Inscribed Stock, Jamaica	273,467	0	0
Imperial Loans	213,851	4	1
Deposits Rectors and Island Curates' Fund	39,342	3	2
					<hr/>		
					£3,823,283	8	6
					<hr/>		

Deducting Sinking Funds—

Debentures	£406,893	4	3
Inscribed Stock, Eng'land	2,003,172	4	2
Inscribed Stock, Jamaica	240,656	6	9
Imperial Loans	169,448	5	8
Deposits, Rectors and Island Curates' Fund	39,342	3	2
					<hr/>		
					£2,859,512	4	0
					<hr/>		

The debenture debt is mainly redeemable by a one per cent. sinking fund which is applied to the redemption of debentures chosen by lot at annual drawings, and the inscribed stock, both English and Jamaica, is to be redeemed by a cumulative sinking fund of one per cent. on the total amount issued, which is calculated to produce sufficient to redeem the stock at its maturity.

Of the total of debt on the 31st March, 1916, £491,400 was on account of the purchase, reconstruction and extension of the Jamaica Railway to Ewarton and Porus, £108,476 on account of the Rio Cobre Canal, £217,000 for the erection of new bridges, £1,223,050 for redemption of Railway Bonds, and £82,250 for the Chapelton Railway extension.

IMPORTS AND EXPORTS.

Imports.—The value of the Imports into the Colony in each of the last six years was as follows:—

1910	..	2,614,943	1913	..	2,837,446
1911	..	2,865,553	1914	..	2,565,820
1912	..	£3,050,479	1915	..	£2,327,458

(a) In 1909 at the request of the Board of Trade the financial period was made to coincide with the calendar year, to bring the Jamaica statistics into line with those of other British possessions.

The Imports for the year last past were apportioned between the five general headings into which all imports are divided in accordance with Board of Trade requirements, thus:—

1. Food, Drink and Tobacco	..	£997,473
2. Raw materials and articles mainly unmanufactured	..	141,083
3. Articles wholly or mainly manufactured	..	1,188,089
4. Miscellaneous and Unclassified	..	693
5. Bullion and Specie	..	120
		<hr/> £2,327,458

Taking the whole of the Imports the Island's Custom was distributed in each of the last three years in the following proportions, viz:—

	1913.	1914.	1915.
United Kingdom	38.5	38.4	33.2
United States	46.7	47.6	54.6
Canada	8.7	8.2	9
Other Countries	6.1	5.8	3.8

Of the total value of goods entered for Imports during the year; the value of Ad-valorem was £887,159 38.1%; Rated value £1,053,232 45.4%; Free, value £387,067 16.5%.

Exports—The total Exports for 1915 are valued at .. £2,228,664.

CURRENCY OF JAMAICA.

THE Acts relating to the metallic currency are 3 Victoria, chap. 39, "to provide for the assimilation of the currency of this island with the currency of the United Kingdom, 5 Victoria, chap. 28; 6 Victoria, chap. 40; 7 Victoria, chap. 51; Law 49 of 1869; and Law 13 of 1880; and the several Proclamations bearing on the coinage are of the following dates: 14th September, 1838, 19th August, 1853, 9th March, 1854, 23rd October, 1863, 10th November, 1866, and 11th November, 1869.

A Proclamation was issued on 23rd October, 1863, calling attention to the fact that the fractional parts of the dollar of Foreign States were not a legal tender, and prohibiting their reception in payment of Customs duties or taxes. Subsequently, under Law 8 of 1876, the silver dollar itself ceased to be a legal tender.

The paper currency within the island consists of the notes of the Colonial Bank, the Bank of Nova Scotia and the Royal Bank of Canada of £1, £5 and £10.

In 1904 the Currency Note Law was passed constituting a Board of Commissioners to issue notes called currency notes for the value of 10s. each, redeemable on demand at the office of the Commissioners. No action has yet been taken under this law.

The Island Act regulating Banks not established under Royal Charter or by Act of Parliament is the Act 7 Victoria, chap. 47.

The money of account in Jamaica is pounds, shillings and pence, sterling. By the present Law of Jamaica all silver coins above the value of sixpence current in Great Britain are legal tender here to any amount while those under 6d. are made legal tender to the extent of forty shillings in one payment, but to no greater extent (7 Vic. chap. 51); and all copper coins current in Great Britain are legal tender here to the extent of twelve pence in one payment, but to no greater extent (6 Vic., chap. 40); but there is now no copper coinage current in Great Britain, and the bronze coinage which has superseded it has not been made current here by Proclamation. The other coins current here are all American gold coins of \$5 and upwards at the rate of £1 0s. 6d. per \$5 (*one dollar* gold pieces are only current at 4s. 1d.); gold coins current in Great Britain and Ireland, and British silver crowns, half-crowns, florins, shillings and sixpences, all of which are legal tender to any extent.

By Law 49 of 1869 the issue of a nickel currency of pennies and half-pennies is authorized, and these coins are a legal tender to the extent of one shilling and of sixpence respectively. Law 13 of 1880 authorizes the issue of nickel farthings, which are a legal tender to the extent of threepence in one payment.

PART VIII.

EDUCATION.

SECONDARY EDUCATION.*

Bequests were from time to time in years gone by made for the education of the children of free people, but these were to a great extent misappropriated and mismanaged, and the trust funds would have all disappeared had not the Government in 1865 taken possession of what remained, paying a high rate of interest.

In 1879 a law was passed putting all these endowments under the control of the Jamaica Schools Commission, and all are now expended in the cause of secondary education. (See below "Schools Commission" and "Endowed Schools.")

The Secondary Education Law of 1892 provided for the establishment of secondary schools in any important centres declared by the Governor in Privy Council, on the recommendation of the Board of Education, to be without adequate provision for secondary education. A secondary school was established under the law at Montego Bay in 1895, and in 1911 it was moved into new buildings at Pleasant Hill with accommodation for boarders, and by an amending law its control was transferred from the Board of Education to the Jamaica Schools Commission. It is doing good work especially in science and agriculture.

During the year 1909 the attention of the Jamaica Schools Commission was drawn to a letter from the Secretary of the Board of Education in England, in which it was stated that amongst other ways of assisting public education in different parts of the Empire, the Board of Education undertook "to meet so far as they could the desire of the Government of any Colony for an English Inspector to go out either to inspect the schools or to consult with the educational authorities as to the best means of improving the educational conditions. In this case the Board would make no charge for the services of the Inspector, but would only ask that the travelling and maintenance expenses should be defrayed by the colony in question."

The Commission communicated with the local governing bodies of the various Trust Schools in the Island on the subject; and, on favourable replies being received from them, a request was sent to the Government, that arrangements might be made by the Government with the Board of Education for the sending out of an English Inspector to inspect the Secondary Schools of the island on the lines indicated above. Besides the schools actually under the control of the Commission at this time, Westwood High School, at its own request, and the Montego Bay Secondary School, with the concurrence of the Board of Education, were included in the scheme. As the result of later negotiations Mr. H. H. Piggott, M.A., H. M. Inspector, arrived in the island on the 20th January 1911, and after inspecting the schools finally left the colony on March 22nd. The report received by the Schools Commission in July, 1911, afforded a most useful account of the state of secondary education in Jamaica and gave wise and helpful advice as to development of secondary education in Jamaica in the future. Another visit by Mr. Piggott which had been arranged for 1915 was abandoned on account of the war.

In 1912 a Jamaica Scholarship for Girls was instituted, and the first scholar went to London in that year. In the Session of the Legislative Council in 1914, a Law consolidating and amending the Laws relating to Secondary Education was passed.

ELEMENTARY EDUCATION.

Elementary education for the people cannot be said to have existed in Jamaica prior to Emancipation in 1834. For five years subsequent to complete emancipation £30,000 a year was granted by the British Parliament to Jamaica for education, and for five years longer the grant was continued on a diminishing scale. There was for a short time great enthusiasm amongst the people, but the schools established being of a very inferior character the results did not fulfil their expectations and the enthusiasm gave place to entire indifference. Although there was a Board of Education appointed by the Government in 1845 this state of affairs—owing in great measures to lack of financial support—may be said to have lasted until 1866-67, when Mr. Savage

* For a fuller account of the History of Secondary Education, see the Handbook for 1911.

was appointed Inspector of Schools, and with the active co-operation of the Governor Sir John Peter Grant, elaborated and established the system which was the foundation of that now in force. Advance from this time on was rapid.

In 1885 a Commission was appointed to consider and report what changes were necessary to be made in the system of elementary education in the colony. This Commission reported in 1886, but it was not till 1892 that two laws were passed by the Legislative Council giving effect to some of its recommendations. The first of these provided for the creation of a Central Board, to be presided over by the Head of the Education Department, the functions of which would be mainly advisory, but without the recommendation of which no new school should receive aid, nor any change be made in the Code of Regulations. Fees were abolished, a special grant made in lieu thereof, and provision made for the enactment by the Governor, in his discretion, on the recommendation of the Board, on or after the 1st January, 1895, of compulsory attendance at elementary schools in such towns or districts as he might designate; for the establishment of small scholarships to assist needy scholars from the elementary schools to obtain higher education in the Secondary schools; and for the enforcement of a conscience clause. At the same time provisions were also made for the gradual reduction of the limits of age of children in elementary schools from 5-16 to 6-14. The Code then in force was to remain so, until altered on the recommendation of the Board.

Together with the passing of these measures and largely as a result of the abolition of school fees, another wave of educational enthusiasm passed over the island. The reduction of the limits of age did not at once take effect, and the enrolment and attendance at elementary schools went up almost at a bound. Number on books 1895, 104,149; average attendance 1894, 64,695. The reaction, powerfully assisted by the gradual putting into force of the reduction in age limits, at once set in, and in spite of the increase in the population, the figures dropped to 86,491 and 50,978 in 1900. From this time attendance has gradually improved, and in 1903 there was every indication of a rapid increase, but the cyclone in August of that year dealt a blow to the schools from which they did not recover for two or three years and the recovery was checked by the earthquake in 1907. The attendance in the year following the cyclone fell to 50,512, below that for 1900. In 1915-16 it reached 65,302.

In December, 1897, in accordance with a resolution of the Legislative Council, another Commission was appointed, similar in purpose to that of 1885. The Commission consisted of His Honour Mr. Justice Lumb, LL.D. (Chairman), the Most Rev. Archbishop-Nuttall, D.D., the Rt. Rev. Bishop Gordon, D.D., two Members of the Legislative Council, viz.:—The Hon. D. S. Gideon and the Hon. Jas. Johnston, M.D., and the Rev. Wm. Gillies, D.D. The Commission held in Kingston and other parts of the island 46 public meetings and examined 277 witnesses, and in November, 1898, presented its report accompanied with the evidence it had taken. The Legislative Council at its session in 1899 passed an amending Education Law, and there was a further amendment of the Code, in both of which were embodied, with modifications, some important features of the report, including some change in the powers and duties of the Board of Education, provision for the closing of schools and amalgamation of schools, change in school age, and special provision for Infant Schools with a view to Kindergarten teaching. The Board of Education having approved of other recommendations in the Report, to wit:—that no new elementary school recognized by Government should be denominational; that both in Training Colleges and in Elementary Schools increased and special attention should be given to agriculture and manual training; and that for the majority of students in Training Colleges a course of two years of training should be provided instead of three; these recommendations were introduced into the Code and came into force, as provided by the Law, during the session of the Legislative Council in 1900. The period of training for students is now ordinarily three years.

The recommendation in the Report of the Commission that schools found to be unnecessary should be closed, and that other schools should be amalgamated, where economy and efficiency could thereby be promoted, was at once carried into effect to a considerable extent, with the result that on the 1st of January, 1900, there were 757 Elementary Schools, including Infant Schools, receiving Government grants.

The Board of Education has met regularly since its appointment, and was, for the first six months, through its Standing Committee and Sub-Committees, constantly at work revising the Code. The Revised Code was finally submitted to His Excellency the Governor in February, 1893, and was approved in Privy Council in July of the same year. Subsequent revisions were approved in 1895, 1899, 1900, 1902 and 1911 and subsequent years. The chief provisions of the present Code are given below.

SCHOOLS ON ANNUAL GRANT LIST.—INSPECTION.

No child is allowed to be admitted into any public elementary school after the completion of his fourteenth year of age; and except as provided in the following paragraph no child under seven years of age may be admitted into a public elementary school before the first inspection of the school next following the completion of his sixth year of age.

No child may be retained in any public elementary school after the inspection of the school next following the completion of his fourteenth year of age or next following the completion of eight years from his first admission into a public elementary school not being an infant school, whichever date may be the earlier: provided that no child may in any case be retained in any public elementary school after the completion of his fifteenth year; except that with the special sanction of the Inspector a limited number of children may be given an extra year at school and serve as monitors. In infant Schools the limit of age is from 4 to 8 years.

Public elementary schools are inspected and examined by Inspectors of Schools, of whom there are in ordinary times ten, each with his own district, and the scholars are examined in the prescribed subjects, and marks are given upon the following scale:—

COURSE OF STUDY AND STANDARDS OF CLASSIFICATION.

All schools on the Annual Grant List are examined according to standards. The maximum marks attainable are only given at inspection when the whole of the subjects mentioned in the syllabus are taken, and when the school, as a whole, is considered to have attained to the highest degree of proficiency that would be possible under any teaching. Every lower degree of proficiency receives a proportionately smaller number of marks which may be fractional.

The schools are ranked in three classes, according to the number of marks that may be awarded to them at the annual inspections, when the results achieved during the year are measured. Speaking generally schools with 56 marks or over are first class; with 44 marks or over but under 56 second class, and with 32 marks or over but under 44 third class; provided that in each case the prescribed proportion of marks is obtained in each of the chief elementary subjects.

Grants are made by the Government, based on the number of marks obtained by each school and the average attendance. The average attendance on which grants are made is the mean of the average attendance of the three preceding calendar years except when the last preceding year's average is higher, in which case this is the basis of calculation: and for the average attendance of each year the best 288 sessions only are taken. Under the Code of 1911 in schools with an average attendance of 60 or over a grant is given of one pound per mark for the principal teacher with possible additions for training Pupil Teachers, for Sewing, Practical Agriculture and Manual Training, to certificated teachers on their certificates according to the success of their work and to all teachers for any excess in the average attendance above 60. In addition to this, grants are made, depending on the average attendance, for the payment of assistants and pupil teachers. For every unit of average attendance above 50 and up to 70, 6/ is the available staff grant, and for every unit of average attendance above 70, 12/. A grant to a sewing mistress is made, if the sewing done is considered to deserve a grant, at a rate not exceeding 3s. per unit of average attendance. Every girl must learn sewing and the sewing class must have been held for 84 hours during a school year of twelve months. Schools with less than 60 in average attendance earn for their principal teacher grants which can in no case be less than 15s. a mark, and which rise gradually from that amount by an addition of 1d. per mark for every unit of average attendance to the full 20s. per mark when the average is 60. Under the 1911 Code the staff grant for the financial year beginning April 1st, is known in the previous January so that arrangements for staffing can be made in good time. The grant for the principal teacher changes after inspection. The grant for school appliances was raised from 6d. to 8d. per unit of average attendance in 1913. It is now 4d.

Pupil Teachers can be engaged in all schools and receive pay depending upon the amount of grant at the disposal of the manager. Any person who pays a fee of 5s. may be examined with the Pupil Teachers of any year, and is informed of the results of his examination: a fee of 2/6 is paid for the Preliminary examination which is largely taken by pupils still in attendance at Elementary Schools. In July, 1916, 483 Pupil Teachers and 2,612 other candidates presented themselves for examination.

Annual building grants of £1,500 were given from 1867 to 1896, inclusive, and £500 was voted in 1897, 1900 and 1901. £250 in 1902, and £500 in 1903. No building grant was given in 1898 or 1899. In 1910 the sum of £1,000 was voted, in 1911 £2,000, in 1912 £4,000, in 1913 £500 and in 1914 £250. None in 1915 or 1916.

After the disastrous cyclone in 1903 a special sum of £3,000 was voted for the rebuilding and repair of school buildings destroyed or injured by the storm, and as not much of this could be spent before the end of the financial year the remainder was reprovided in 1904. A further sum of £3,000 was voted in 1905.

In 1908 £3,000 was voted for repairing schools damaged or destroyed by the earthquake of the 14th January, 1907. In 1909 £800 was voted as a distress grant for the assistance of schools in the districts afflicted by the drought of the two previous years. In 1910 £1,000 was voted for restoring and improving the schools in Kingston, and in 1911 funds were again made available for the same purpose.

After the hurricane of November 1912, the sum of £250 was voted for providing temporary accommodation at schools destroyed (chiefly in the three western parishes) and £3,000 for grants to voluntary schools damaged or destroyed. Out of 126 school houses in St. James, Hanover and Westmoreland, 57 were completely destroyed and 41 more or less seriously damaged in this disaster, and 19 teacher's houses were destroyed and 26 damaged. In addition to the money voted as above £1,300 was made available to complete the restoration of the voluntary schools in the Estimates for 1913-14. Opportunity has been taken to replace many of the voluntary schools with Government Schools where more central situations which rendered amalgamation practicable could be found. Altogether the sum of £14,000 was voted for school buildings for the year 1913-14 apart from the ordinary building grants and £5,000 for the year 1914-15.

In August, 1915, the Government school at Port Maria was destroyed by wind and sea. £500 was voted for a new building and the Legislative Council approved of the expenditure of £1,500 for the repair of damage caused by the hurricane of the 15th August, 1916, to school buildings and teachers' houses.

The control of the Elementary Schools is as follows:—

Government, 101; Church of England, 183; Baptist, 126; Wesleyan, 66; Moravian, 57; Church of Scotland, 6; Presbyterian, 51; Congregational, 22; Methodist, 22; American Missionary, 5; Roman Catholic, 31; Society of Friends, 3; Undenominational, 19; Government (for East Indian children) 3. By an Order in Privy Council dated the 17th November, 1910, school attendance was made compulsory as from 1st January, 1911, for all children between the ages of 7 and 13 within the towns of Kingston, Lucea and Falmouth, and within the parish of Port Royal. The regulations on the subject of Compulsory School Attendance under Section 18 (3) of Law 31 of 1892, and the names of the members of the Kingston, Falmouth, and Lucea School Boards first appointed by the Governor were printed in the Handbook of Jamaica for 1911. In March, 1914, a Law consolidating and amending the Laws relating to Elementary Education was passed.

The following duties were assigned to these Boards by the Board of Education under the provisions of Sec. 8 of Law 3 of 1910, as substituted by Sec. 4 of Law 35 of 1912:—

- (a) To consider and advise the Board of Education upon any matters connected with the working of Public Elementary Schools in the parish, and particularly, any such matters as may from time to time be referred to it by the Education Department or the Board of Education.
- (b) To make recommendations to the Board of Education with regard to the establishment of new schools, Infant Schools or Departments, Continuation Schools and Manual Training Schools or Centres, the closing or amalgamation of Elementary Schools, and generally with regard to the better working of the schools of the parish.

- (c) To make By-Laws, for the conduct of the business of the Board and the regulation of its proceedings in accordance with Section 9 of Law 3 of 1910.
- (d) To make recommendations to the Board of Education as to the introduction of compulsion in any part of the parish, and local regulations concerning the same.
- (e) To be the Board of Appeal in connection with the appointment or dismissal of Attendance Officers.
- (f) To supervise the general working of the Government Schools in the parish, and to act as a Board of Appeal from District School Boards in cases affecting teachers employed in or scholars attending Government Schools in the parish, which within the provisions of the Code admit of such appeal.
- (g) With reference to Voluntary Schools, to consider summaries of the results of Annual Inspections of such schools which shall be forwarded by the Education Department, with a view to the general improvement of the schools in the parish. These reports may, if thought necessary, be sent down by the Parish School Board to the District School Boards for their opinions or suggestions; but all recommendations based upon the consideration of such reports shall in due course be addressed by the Parish School Board to the Department and not to the Managers of such Schools.
- (h) To receive and consider reports from the District School Boards as to the buildings and accommodation, equipment and furnishing, and the staffing of such Schools, and make recommendation to the Department thereupon.
- (i) To negotiate with the Managers of Voluntary Schools when the transfer of such schools from the class of Voluntary Schools to that of Government Schools is offered, with the concurrence of the authorities of the Denomination with which such school is connected. Such transfer shall be made only with the consent of the Education Department and of the Board of Education.

And it is declared that the foregoing provisions may from time to time be repealed altered or varied by the Board of Education with the approval of the Governor.

Under the provisions of Section 4 of Law 35 of 1912 (Section 8 of Law 3 of 1910), the Board of Education has with the approval of the Governor assigned and delegated to each District School Board the following duties and powers in respect of educational matters:—

- (a) To manage all the Government Schools in the District. One member of the Board shall be the Correspondent for each Government School. The same member may act as Correspondent for more than one school. By management shall be meant all those duties which are set forth in Arts. 7, 7a, 7b, 8, 9, 30c, and 38 of the Code of Regulations of the Education Department.
- (b) To appoint from their number or otherwise one or more Visitors for each Government School (Code Art. 6) in the District, who will report to the District School Board (for further report to the Parish School Board if desirable) as to the condition and state of repair of the buildings, sanitary conditions, sufficiency of size in view of average attendance, appliances and fittings; and on such other particulars as are referred to in Art. 7 of the Code.
- (c) To perform such duties as the Parish School Board may from time to time specially delegate to it, and to carry out such orders as the Parish School Board may lawfully issue, and particularly those duties provided for in these Regulations.
- (d) To appoint from their number or otherwise one person acceptable to the Corresponding Manager of a Voluntary School in the District to be a Visitor of such schools: who shall report to the District School Board (for further report to the Parish School Board if desirable) as to the condition and state of repair of the buildings, sanitary condition, sufficiency of size in view of average attendance, appliances and fittings.
- (e) In all cases where a building grant is asked for the District School Board is to be consulted, through the Parish School Board, before the grant is allotted.

When a District School Board has by any Order made under Section 18 of Law 31 of 1892 (and Section 5 of Law 35 of 1912) been named as the Authority to enforce compliance with the Order such District School Board may appoint an Attendance Officer or Officers. Such Officers shall be subject to the control and direction of the District School Board and may, subject to the approval of the Parish School Board, be dismissed by it at any time. They shall receive such remuneration as may be fixed by the Governor on the recommendation of the District School Board forwarded through the Board of Education.

TRAINING COLLEGES.

The following means are also employed by the Government to promote Elementary Education:—

1. 40 men students are supported at the Mico Training College in Kingston who are being trained as schoolmasters. In addition to the number supported by the Government there are also 20 students on the original foundation supported by the Mico Trustees in England. The Trustees, having closed the Mico College in Antigua, now provide also for training 6 students from Antigua at the Mico College in Jamaica; six students are also received for a two years' course from the Government of British Guiana.
2. A Training College is maintained at Shortwood, in St. Andrew, for women, in which 54 students are under training for the work of school-keeping. (*See post.*) Six students are also received for a two years' course from the Government of British Guiana.
3. Provision is also made for a payment to the managers of certain voluntary Training Colleges of £25 a year for each of a specified number of resident students under training, and of an additional £10 for every student, resident or non-resident, who passes the yearly examination. Under this provision 20 women students are trained at Bethlehem, a Moravian College in the Santa Cruz Mountains, and 6 women students at St. Joseph's (Roman Catholic) College in Kingston.

There are also regulations providing for an annual examination of students in Training Colleges and of teachers of Elementary Schools with a view to the granting of Certificates after a period of 4 years probationary work in school to those who are successful. Teachers who are desirous of being permanently registered are required to take certain portions of this examination.

The number of Certified Teachers is about 500.

Between 1900 and 1912 eleven courses of lectures on Agricultural Science and Practical Agriculture were delivered in Kingston and the Santa Cruz Mountains, at which about 562 teachers were present: a few have attended more than one course. A short course of lectures in Domestic Economy was added in 1911. Great interest has been evinced by the teachers in these courses. There are now about 400 School Gardens which receive visits from Agricultural Instructors as well as from the Inspectors of Schools. The special grant for practical agricultural teaching has been increased to a maximum of £6. In 1913 a course of lectures in domestic training, (*viz.*, cookery and laundry) was begun at the Kingston Technical School, and two courses in Kindergarten method for training college students and one course for teachers were held in connection with the Government Infant School.

BOARD OF EDUCATION.

The Board of Education, constituted under Law 31 of 1892, at present consists of—

Hon. F. E. Reed, B.A., acting Director of Education, *Chairman, ex-officio*; Ven. Archdeacon Simms, M.A., *Vice-Chairman*; Right Rev. C. F. G. DeCarteret, D.D., A. B. McFarlane, Rev. S. C. Ashton, G. Hicks, A. Chambers, Rev. E. Price, B.A., B.D., Rev. W. F. O'Hare, S.J., Rev. J. H. Cartwright, Hon. and Rev. W. B. Esson, Mrs. Bourne, Rev. S. McDowell, Miss M. M. Barrows, B.A., Miss K. I. Howson, B.A., *Secretary*, Rev. J. Reinke, D.D.

The Board's functions are—

- (a) To consider and advise upon any matters connected with the working of Public Elementary Schools in Jamaica, particularly:—
 - (1) Any such matters as may from time to time be referred to it by the Governor;
 - (2) Any changes in the Code that it may think desirable to be made or that may be referred to it by the Governor;
 - (3) Any changes that may be necessary for the working of compulsory attendance when brought into force;
 - (4) The establishment of new schools, and the closing of or withdrawal of assistance from superfluous, unnecessary or inefficient schools;
 - (5) Any changes in the Education Laws it may consider advisable to be made.
- (b) To make and alter Bye-Laws for the conduct of its business and the regulation of its proceedings.

It is also provided that when alterations are made in the Code, "all such alterations shall either have been recommended by the Board of Education or shall have been submitted to that Board for its consideration and advice."

MICO TRAINING COLLEGE.

INSTITUTIONS and Schools under the Lady Mico Charity were founded in the year 1834 by the late Sir Thomas Fowell Buxton. The idea was to afford the benefit of education and training to the black and coloured population of this and the other West India Islands, as well as to train out of this population Teachers for their own Schools and the Schools of all denominations of Christians.

Training institutions were established in Jamaica and Antigua; and schools in Trinidad, Demerara, Bahamas, St. Lucia, Mauritius, Seychelle Islands, &c. Of these the Training College in Jamaica alone remains.

The origin of the Charity is as follows:—

Jane Mico, widow of Sir Samuel Mico, Knt., of London a member of the Mercers Company, who died in 1666, bequeathed the sum of £1 000 "to redeem poor slaves." This money was invested by direction of the Court of Chancery in certain London properties which were conveyed to Lady Mico's executors.

The original sum towards the middle of the 19th century increased to £120,000, and in 1834 Sir Thomas Fowell Buxton conceived that the interest of the money might be legitimately applied to the Christian instruction of the children of West Indians, a purpose as charitable as that for which the money was originally left. A charter was obtained, and the British Government added a grant of £17,000 per annum for five years. The system adopted from the commencement was liberal, comprehensive, and undenominational in schools and training colleges.

The original Trustees were:—

James Gibson, The Rt. Hon. Stephen Lushington, D.C.L., Sir Thomas Fowell Buxton, Bart., Thomas Richard Warren, Q.C., John Gurney Hoare, John Elliott Drinkwater Bethune.

The present Trustees are:—

A. F. Buxton, *Chairman*, Andrew Johnston, *Vice-Chairman*, Sir Samuel Hoare, Bart, M.P., *Treasurer*, E. H. Lushington, Guy Lushington, Elliott Howard, Rev John Mac-Innes, J. Barnett, *Secretary*.

The institution in this island belonging to the Charity was for many years situated in Hanover Street, in Kingston, and consisted of a training college for 65 students and a school for 120 scholars. In the year 1894, however, these premises were sold to the Government for a graded elementary school, and the Trustees purchased Quebec Lodge at the north of the race course where they erected a spacious set of buildings at a cost of over £12,000. The college was wrecked by the earthquake of 1907, and was rebuilt. It was destroyed by fire in February, 1910, and again rebuilt in 1911.

The expenditure of the training college and school is about £3,970 per annum. Of this sum £1,650 is allowed by the Local Government for training forty teachers, and the day school earns upwards of £200 per annum from the Government.

Students are admitted once a year, by a strictly competitive examination. They are expected to remain three years and go out as teachers in elementary schools on the completion of their college course. During residence they receive free teaching, board, lodging and medical attendance. Each student pays an entrance fee of £5. There are now sixty students in residence, besides six from the Leeward Islands, six from Demerara and five missionary students.

The objects for which the institution was originally founded are being more and more realized. Its benefits are not confined to the people of any creed, class, or colour. It holds out its advantages to all.

The practising school in connection with this institution occupies a high place among the first class elementary schools of the island, and the results of the annual examinations of training colleges by the Education Department show that the Mico Training College which is the largest school of its kind in the West Indies and the oldest training college for teachers in the Western Hemisphere, is also one of the foremost in respect of the attainments of the young men under training for the office of teacher in the elementary schools of the island.

A fully equipped workshop is fitted up for manual training and the students attend Hope Gardens for practical agriculture. There is a model school garden at the college.

The Governor of the island for the time being is the patron of the institution. It is locally managed by a Board of Directors consisting of fifteen clergymen and laymen.

KINGSTON TECHNICAL AND CONTINUATION SCHOOL.

This school takes the place of the Manual Training School which was established by the Government in January, 1896, as a "model school" and for the purpose of introducing a system of "hand and eye training" into the schools of the island.

Until the earthquake in 1907, the Manual Training School was situated in Hanover Street, Kingston, in premises formerly occupied by the Mico Training College. It included three departments,—Kindergarten, Boys and Girls—having accommodation for 500 pupils and a fully equipped manual training room. After the earthquake the boys' school was removed to new quarters in the Elletson Road and in September 1911 the present school was opened in new buildings at 82 Hanover Street. The manual training work which was at first carried on temporarily in the old Treasury buildings in Harbour Street, was transferred to Hanover Street in 1913: it now includes metal work.

Pupils from the elementary schools in Kingston are received in the school for manual training, and evening classes for other pupils are also held. The classes at the Continuation School are occupied with work of a higher elementary character. Classes for girls both of the Continuation School and from the elementary schools in Kingston in technical subjects (Laundry, Cookery and Housewifery, etc.) are held : also a class for Training College students and teachers.

The head master, in addition to controlling the work of the school, is attached to the teaching staff of the Mico Training College as instructor in hand and eye training; conducts classes for the instruction of teachers in these subjects and, as Organising Inspector of Manual Training, supervises and examines the work of the other Manual Training Centres in the Island.

The Technical School is affiliated with the City and Guilds of London Institute, and many local teachers, having been trained in the school, have gained the full Teachers' Diploma of the Institute for Manual Training (woodwork).

The centres for advanced Manual Training, working in connection with the school, are situated respectively at:—Mico Training College, Mandeville, Porus, Lucea, Falmouth, Port Antonio, Brown's Town, Montego Bay, Old Harbour, Savanna-la-Mar and Spanish Town. Facilities for this advanced manual training are gradually to be established at all the town centres in the island.

The school is under the general control of the Education Department with an Advisory Committee appointed by the Governor.

KINGSTON GOVERNMENT INFANT SCHOOL.

This school was re-opened in September, 1911. It takes the place of the Board (Infant) School which formed a part of what was known comprehensively as the Kingston Manual Training School and was closed after some eleven years work in 1907 when, as a result of the earthquake, the building was needed for other purposes. The aim of this school is to provide suitable instruction in methods of Infant School teaching for Training College Students and Women Teachers as well as to serve as a model Infant School. It is temporarily closed.

Head Mistress.—Vacant.

SHORTWOOD TRAINING COLLEGE FOR WOMEN TEACHERS.

This College was established in September, 1885, to meet the want, long and pressing felt, of a greater number of trained women teachers for the elementary schools of the island. Formerly under the management of a Board of Visitors consisting of ladies and gentlemen appointed by the Governor, it is now under a Board of Directors similarly constituted. The college is strictly undenominational; students are admitted after a competitive examination by a selecting committee which considers also (1) their position in the Pupil Teachers' List, and (2) the recommendation of responsible persons in the districts to which the girls belong. An entrance fee of five pounds is paid on admission. Students are boarded and lodged free of expense during the period of their training, subject to an undertaking on their part to teach in Jamaica elementary schools for six years at least.

The ordinary College course occupies three years, during which the instruction is in accordance with the schedule attached to the Government Rules for Training Colleges. A limited number of students are received each year.

The course of training includes the study of subjects generally taught in the public Elementary Schools and, in addition, History, practice in teaching and the management of a class and Domestic Economy, both theoretical and practical. In addition a limited number of students are received who undergo a course of training for domestic work only, extending over a period of not less than one year, but in special cases this period of training is extended to two years.

Under the will of Michael Cuff Morgan, proved in July, 1889, the sum of £473 19s. 0d. was left to the Jamaica Schools Commission to provide two scholarships of £9 a year each at this college, tenable for three years for two respectable poor girls of the parish of St. Elizabeth, to be nominated by the Custos, or failing him, the senior Justice of the Peace of the parish.

Board of Directors.

Rev. W. Graham, *Chairman*, Rev. W. Priestnal., Rev. Wm. Pratt, M.A., His Lordship the Bishop of Jamaica, Rev. Canon Wortley, Rev. J. L. Ramson, M.A., Rev. J. H. Cartwright, Hon. F. E. Reid, Miss F. C. Burke, Mrs. Gamble, Mrs. Livingston. Mrs. Kirby, Mrs. Henderson, Mrs. J. E. Randall, Mrs. Balfour, E. A. Andrews, *Secretary*.

Teaching Staff.

Lady Principal—Miss A. Whitehead.

First Assistant—Miss J. Faunt; *Assistants*—Miss M. R. Geddes. Miss M. W. Guy; *Schoolmistress*—Miss F. E. Henry; *Matron*—Mrs. M. Cox; *Medical Attendant*—Dr. L. A. Crooks (acting).

MORAVIAN TRAINING COLLEGE FOR WOMEN, BETHLEHEM.

A school for the training of female teachers for service in the day schools belonging to the Moravian Church was opened at Bethabara, in 1831, by the Rev. J. J. Seiler. It is now also made use of for the higher education of the daughters of the native Jamaica ministers and missionaries of the church. In 1885 the School was placed on the Government list of voluntary training colleges, in consequence of which the number of students was increased and the premises at Bethabara were found to be quite inadequate. New buildings were therefore erected by the Moravian Church at Bethlehem in the Santa Cruz Mountains, the school meanwhile being temporarily removed to Salem. The new school was opened in February, 1889. In the course of 1895 the building was considerably enlarged and improved. It has now accommodation for 30 students. The Government granted 20 maintenance scholarships to the school for the current year. Boarders pay £25 annually. All students pay an entrance fee of £5.

Principal—Rev. S. C. Ashton, Bethlehem, Malvern.

Teachers—Miss A. G. Land, Miss A. E. Hamilton, Miss I. M. Morin.

EXAMINATIONS.

UNIVERSITY OF CAMBRIDGE LOCAL EXAMINATIONS.

In 1882, owing to the action of the Institute of Jamaica, these Local Examinations (then confined to Senior and Junior candidates) were first held in Jamaica. In 1895 the Preliminary Examination was first taken; and in 1901 the Higher was taken for the first time. The examination of the Preliminary, Junior and Senior candidates, is held every December; of the Higher at Midsummer or December, as occasion requires.

The Syndicate have decided to establish two examinations, (a) the Higher School Certificate Examination, (b) the Senior Examination, in place of the Senior Examination, which was last held in December, 1916.

(a) The Higher School Certificate Examination will be held for the first time in July, 1918. The general regulations for this Examination will be published later, but it may be stated that it will be designed to test the work of students whose age is about 18, and who will as a rule have given about two years' study mainly but not exclusively to some definite group of subjects.

(b) The Senior Examination will be held in July and December of each year, beginning in July, 1917. It has not yet been decided when it will first be held in Jamaica. This Examination is intended to be a test of general education for pupils in a form of the average age of 15-16½ years before they begin to specialise in any particular branch of study. It is hoped that, for the examination as designed, whole forms may be sent in rather than selected candidates.

The examinations are held in Kingston and at various centres. In December, 1916, there were thirteen centres as follows:—Kingston, Boys (three); Kingston, Girls; Kingston, Scholarship Candidates; Calabar; Jamaica College, Hope; Potsdam; Montego Bay; Brown's Town; Westwood; Savanna-la-Mar; Port Antonio.

Of the 471 Senior, Junior and Preliminary candidates who sat in 1915, 60.08 per cent. passed, 13.37 per cent in honours, and 46.71 not in honours.

The fees are as follows:—*Higher*, University, £1 10/. *Local*, 10/=£2. *Senior and Junior* University, £1 *Local*, 6/=£1 6/. *Preliminary*, University, 10/6. *Local* 4/=14/6. *Life fee*, University, 5/. *Local*, 1/=6/.

The Secretary for Jamaica is Mr. Frank Cundall, Institute of Jamaica.

UNIVERSITY OF LONDON EXAMINATIONS.

The University of London only consents to the holding of these Examinations in the Colonies on the understanding that the Secretary of State for the Colonies and the Governor act as intermediaries. The Jamaica Schools Commission is the body in Jamaica recognized by the Governor as dealing with these Examinations and all applications should be made to the Secretary of the Commission.

The Examinations in Arts and Theology of the University are held in Jamaica—the Matriculation in January; the intermediate Arts in July; the Intermediate Theology in June; the Final Arts in October, and the Final B.D., and Honours B.D. in June. The Intermediate Science Examination can also be taken in the colony. Candidates who wish to take the Matriculation in June must pay an extra Local Fee of £3.

Applications to sit must reach London University three months before the Examination. As they have to be transmitted through the Colonial Secretary's Office at Jamaica and the Secretary of State for the Colonies, they must be in the hands of the Secretary of the Jamaica Schools Commission five months before the holding of the Examination. They must be accompanied by proof that the fees have been lodged with the Island Treasurer; the University Fee to the credit of the Jamaica Government, and the Local Fee to the credit of the Jamaica Schools Commission. Applicants must also give a list of the subjects in which they intend to present themselves for examination, chosen according to the Regulations. For the B.D. Honours Examination applications must reach London University not later than the 14th of February preceding the Examination. They must therefore be in the hands of the Secretary of the Commission by the middle of the previous December.

If a candidate withdraw his name after having entered for, or if he fails to pass or to appear at, the Examination, the fee shall not be returned to him, but he can enter again at a subsequent Examination; for this he must again pay the required fee and make application as above described.

The fees are:—

Matriculation—University, £2. *Local* £1.

Intermediate or Final—University £6. *Local* £3.

EXAMINATIONS IN MUSIC.

In April, 1908, the examinations of the Associated Board of the Royal Academy of Music and the Royal College of Music, of London, England, for local examinations in Music in the British Empire, were held for the first time in Jamaica.

The examinations of the Associated Board are as follows:—

1st School Examinations: (a) for individual certificates (to which students receiving private tuition are also admitted) in four divisions, viz: Primary, Elementary, Lower, and Higher; (b) A general school examination for a collective report on the teaching generally; (c) A class singing examination.

2nd Local Centre Examinations:—Intermediate and advanced grades for individual certificates.

3rd Examinations for the Licentiate of the Associated Board, (a) for teachers; (b) for solo performers of concert standard.

The colonial examinations, which are precisely similar to those held in the United Kingdom, are held in Australia, New Zealand, Canada and elsewhere.

As far back as 1896 the Board of Governors of the Institute of Jamaica, recognising that they were the highest form of musical examinations obtainable, commenced a correspondence having for its object the holding of the examinations of the Associated Board in Jamaica. Arrangements were made to hold the examinations in this colony in 1907, but the earthquake caused their postponement till 1908, when there were 78 candidates. Since then they have been held yearly.

The Board offers annually, to candidates in its Examinations in Jamaica, one Exhibition, entitling its holder to free tuition at the Royal Academy of Music, or the Royal College of Music, London, for two or possibly three years. The Exhibition is

awarded on the recommendation of the Examiner to the Candidate showing the greatest musical promise. Exhibitions were awarded in 1908, 1915 and 1916.

There will be no limit of age, but the Board may decline to award the Exhibition in any year in which, in its opinion, sufficient promise has not been shown by any Candidate.

In 1916, the Examiner of the Associated Board, Dr. Lloyd, conducted the Practical Examinations in pianoforte, violin and singing, at eight centres—Spanish Town, Mandeville, Brown's Town, Westwood, Anchovy, Hampton and Kingston, at which centres the Theory Examinations had been held a few weeks earlier.

As a result of the examination 344 certificates (59 Local Centre and 285 School) were awarded, there being 79 failures (19 Local Centre and 60 School). Seven candidates sat for, and three passed, the L. A. B. Examination, Solo Performers.

The examinations will be held in April, 1917.

The Honorary Local Representative in Jamaica of the Associated Board is Mr. Frank Cundall, Institute of Jamaica.

The following have passed the L. A. B. Examination:—

1910 Miss Stella E. Jacobs.	1914 Miss Hannah J. R. Mordecai.
1911 Miss Lilian A. Trench.	1915 Miss Ethelynde Soutar.
1912 Miss Muriel Sant.	1916 Miss E. I. M. L. Campbell.
1913 Miss Gertrude dePass.	1916 Miss V. Y. Abendana.
1914 Miss Grace M. Fisher.	1916 Miss M. C. Isaacs.

EXAMINATIONS IN DRAWING.

The examinations of the Royal Drawing Society (for the encouragement of the natural development of drawing as an integral part of general education) are held at certain schools in Jamaica. The examinations are held in June at schools of recognized standing which pay a fee of £1 10s. a year and in addition 6d. for each paper drawn upon in the examination. There are seven divisions of the examination, ranging from the Preparatory to Division VI. The examination in Division VI. is in four different parts, including, painting, figure drawing, pictorial composition and decorative composition.

A full Honours Certificate is awarded to these candidates who obtain Honours in Divisions I, II, III, IV, V, and in one part of Division VI.

The general prospectus of the Society can be obtained by payment of 6d. from The Art Director, the Royal Drawing Society, 50 Queen Anne's Gate, Westminster, S.W., England.

SCHOLARSHIPS.

GRANTED BY THE GOVERNMENT OF JAMAICA.

Regulations as to the Scholarships awarded annually.

I.

SCHOLARSHIP OF £60 PER ANNUM FOR THREE YEARS.

1. One Scholarship of £60 per annum, tenable for three years, shall be granted each year to the candidate in the Cambridge Senior Local Examination,

- (a) Who was born in Jamaica, or of parents who were domiciled in Jamaica at the time of the candidate's birth or have been domiciled in Jamaica for at least the five years next preceding the Examination;
- (b) Who has resided in Jamaica for at least the five years next preceding the Examination: provided that short absences from the Island on holiday trips, need not, at the discretion of the Governor, disqualify in this respect;
- (c) Who is not less than sixteen nor more than nineteen years of age on the 15th of December in the year of Examination;
- (d) Who is shown to be of good and steady personal character; and
- (e) Who has written on or before the 1st April in the year of examination, to the Director of Education, stating that he is a candidate for this scholarship, and transmitting satisfactory evidence that he has fulfilled all the foregoing requirements. Along with this application a certificate from a Registered Medical Practitioner approved by the Director of Education must be sent in as to the candidate's fitness to hold this scholarship; and
- (f) Who shall be reported to the Governor by the University of Cambridge Examinations Syndicate as the candidate most deserving of this scholarship among those who have submitted themselves to the special examination for the Jamaica Scholarship (Boys) [see Jamaica Scholarship (Boy) Regulations I (f)] after excluding the winner, if any, of that scholarship and are eligible for and willing to take up this scholarship.

2. The Scholarship shall begin on the first of July in the year in which it is granted and shall be paid quarterly to the scholar on production of a certificate signed by the recognised authority of any efficient College or School in the Island of Jamaica in which he is prosecuting his studies, stating that such scholar is thoroughly well conducted and industrious, and that he is duly proceeding to the Examinations for some Degree of the University of London. A Collegiate Institution or School shall be considered efficient for the purposes of this clause if the Jamaica Schools Commission is satisfied that sufficient provision has been made within the College or School for all tuition required to prepare the scholar for the Degree to which he declares his intention of proceeding.

3. No person shall, under any circumstances, be allowed to hold the Jamaica Scholarship or the Rhodes Scholarship and this Scholarship at the same time.

4. The Jamaica Schools Commission may in any special case, if it is satisfied that the winner of the £60 Scholarship presents a well considered scheme for a course of useful study leading to a definite profession or occupation unconnected with London University in an institution in which success is attested by recognized degrees, certificates, or diplomas, waive the requirement that he shall proceed to a Degree of the London University; and the Jamaica Schools Commission may, in any special case, to be considered on its merits, if it is satisfied that the necessary tuition for attaining any Degree, Certificate or Diploma approved of, whether at London University or elsewhere, cannot be obtained in Jamaica, waive the requirement that the Scholarship shall only be tenable at some College or School in Jamaica; making in each case such alternative conditions as it may think fit.

II.

THE JAMAICA SCHOLARSHIP (BOYS).

1. A Scholarship of (i) £200 per annum, tenable for three years, or (ii) of £150 per annum, tenable for four years, or (iii) £120 per annum, tenable for five years, at the option of the holder and the discretion of the Governor in Privy Council, will be granted each year to the candidate in the Cambridge Senior Examination.

- (a) Who was born in Jamaica, or of parents who were domiciled in Jamaica at the time of the candidate's birth, or have been domiciled in Jamaica for at least five years next preceding the examination;
- (b) Who has resided in Jamaica for at least the five years next preceding the examination; provided that short absences from the island on holiday trips need not, at the discretion of the Governor, disqualify in this respect;
- (c) Who is not less than seventeen nor more than nineteen years of age on the 15th of December in the year of examination;
- (d) Who is shown to be of good and steady personal character;
- (e) Who has written, on or before the 1st April in the year of examination, to the Director of Education, stating that he is a candidate for the Scholarship, and transmitting satisfactory evidence that he has fulfilled all the foregoing requirements. Along with this application a certificate from a Registered Medical Practitioner approved by the Director of Education must be sent in as to the candidate's fitness to hold the Scholarship; and
- (f) Who shall be reported to the Governor by the University of Cambridge Examinations Syndicate as the candidate most deserving of the Scholarship among those (after excluding any candidates who may be or who may have been elected to a Rhodes Scholarship) who have submitted themselves to an examination to be conducted (in Kingston only) in December of each year on the following lines:—

The three subjects, Classics, Mathematics, and Natural Science shall be called Principal Subjects, and an examination shall be conducted in them under the following Regulations:—

The papers in Classics shall include special papers of a standard equivalent to those set in the Latin and Greek sections of the University of Cambridge existing (1916) Senior Examination with the paper in Greek or Roman History of like standard and two additional three-hour papers, as heretofore, one in Latin Translation and Prose Composition with a few critical questions, and one in Greek Translation and Prose Composition with a few critical questions; also an English Essay as a three-hour paper. For the English Essay a considerable selection of subjects shall be offered and in the selection of subjects due weight shall be given to the fact that the candidates who take this examination will have been educated in Jamaica, and that

some of them will offer Classics as their Principal Subject, others Mathematics, and others Science. The value of the Essay is to be the average value of the other papers in the Principal Subject.

The papers in Mathematics shall include special papers of a standard equivalent to those set in the Mathematical section of the University of Cambridge existing (1916) Senior Examination with two additional three-hour papers, as heretofore, covering the subjects of Pure Geometry, Algebra, Trigonometry, Conic Sections, Statics and Dynamics, carried to a higher stage than in the existing (1916) Senior Examination and Differential Calculus; also an English Essay as above.

The papers in Science shall include special papers of a standard equivalent to those set in the same existing (1916) examination in the Chemistry section and two other special papers of a standard equivalent to the two set in Agricultural Science, or any two selected from the Physics and Biology and Physical Geography sections which the Regulations for the examination allow candidates to take in the existing (1916) Senior Examination; with two three-hour papers, one theoretical and one practical, on the subjects of the four papers taken; also an English Essay as above.

There shall be three Subsidiary Subjects, Mathematics, Languages and Science; including in mathematics papers in Arithmetic, Geometry and Algebra; in Languages papers in any two of the following:—Latin, Greek, French, German, Spanish; and in Science the two papers in Chemistry, and one other selected from the Physics Biology, and Physical Geography and Agricultural Science sections, all these papers being special papers of a standard equivalent to those set in the existing (1916) Senior Examination.

Each candidate shall be examined in one Principal and one Subsidiary Subject. No subject taken as a Principal Subject or part of a Principal Subject may be taken again as a subsidiary subject or part of a subsidiary subject and no candidate taking Classics as his Principal Subject may take Languages as his Subsidiary Subject. In the consideration of the Examination results the Examiners shall take the Subsidiary Subject into account by assigning to it a maximum value equal to twenty per cent. of the maximum value assigned to the Principal Subject, exclusive of the English Essay.

(g) The provisions of the preceding sub-section (f) as to the examination on which and the manner in which the Scholarship shall be awarded may be varied at any time by the Governor after not less than twelve month's notice, published in the Jamaica Gazette.

2. No person shall under any circumstances be allowed to hold this Scholarship and a £60 Scholarship or a Rhodes Scholarship at the same time.

3. Candidates for the Scholarship must comply with all requirements of the University of Cambridge as to fees, forms, and date of entrance, &c., as to which information may be obtained from the Secretary of the Cambridge Local Examinations Committee [Mr. F. Cundall, Kingston].

4. The name of the successful candidate will be reported to the Governor by the Secretary of the University of Cambridge Examination Syndicate through the Director of Education, and will be duly announced by him to such candidate, and published in the Jamaica Gazette.

5. The successful candidate shall enter, not later than Michaelmas Term in the year in which the Scholarship is granted, as a student of one of the Universities of Great Britain or Ireland, or of any other University, Agricultural or Engineering College or other institution in the British Empire at which success is attested by recognized degrees, certificates, or diplomas in the pursuit of any course of useful study, to be approved by the Governor on the recommendation of the Jamaica Schools Commission.

If he enters any University or Institution in Great Britain or Ireland, he shall report himself in due course at the Colonial Office, London, and he shall transmit quarterly to the Secretary of State for the Colonies a certificate signed by his College Tutor or other recognized authority, stating that he is thoroughly well conducted and industrious. Subject to the fulfilment of the conditions of which the Secretary of State will advise the Crown Agents for the Colonies, the scholar will be paid quarterly by the Crown Agents, the Scholarship to commence on the 1st of July in the year in which it is granted.

If a Canadian Institution is selected and approved the scholar must transmit to the Colonial Secretary, Kingston, Jamaica, the required quarterly certificate in time for him to instruct the Government Agents in New York* to pay the instalment of the Scholarship due for that quarter.

* At present Messrs. Gillespie Bros. & Co.

Each scholar shall also transmit in the beginning of June in each year to the Secretary of the Jamaica Schools Commission, Kingston, Jamaica, a certificate signed by his Tutor or other authority as aforesaid, stating that he is making satisfactory progress in his studies and is proceeding towards the attainment of such degree, certificate or diploma, as may have been approved as aforesaid; and if he fails to obtain such certificate, or does not read for Honours, in the event of the authorities of his College deciding that he should do so, the Scholarship shall be withdrawn summarily.

6. In all cases of doubt, or questions arising in the Colony or in Great Britain as to the construction of the conditions under which the Scholarship is competed for, and the payments attached to the Scholarship are made, the Governor and the Secretary of State respectively shall have full power and authority finally to decide.

NOTE—In special circumstances, at the discretion of the Governor, an advance not exceeding £30 may be made to the holder of the Scholarship to enable him to proceed abroad. The advance will be recoverable from the amount of the Scholarship.

III

THE JAMAICA SCHOLARSHIP (GIRLS).

1. A Scholarship of £150 per annum beginning on the 1st of July in the year in which it is granted and tenable for three years, will be granted to the candidate,

- (a) who was born in Jamaica, or of parents who were domiciled in Jamaica, at the time of the candidate's birth, or have been domiciled in Jamaica for at least the five years next preceding the examination;
- (b) who has resided in Jamaica for at least the five years next preceding the examination, provided that short absences from the Island on holiday trips need not at the discretion of the Governor, disqualify in this respect;
- (c) who will be not less than eighteen nor more than twenty years of age on the 1st of October in the year in which the Scholarship commences.
- (d) who is shown to be of good and steady personal character;
- (e) who, except in case of illness certified to the satisfaction of the Governor, previously has (1) passed the London Matriculation Examination or (2) has passed in the subjects required to secure exemption therefrom either in the Cambridge Senior Local Examination or in the examination conducted by the Oxford and Cambridge Schools Examination Board for the Higher Certificate or for the School Certificate, (with permission in the last case to substitute one of the additional optional subjects for Greek) or (3) has met the requirements for admission to one of the Women's Colleges at Oxford or Cambridge: provided that before January 31st in the year of award each candidate shall submit certificates entitling her to exemption in all the subjects required for the entrance examination at the University or other Institution of her choice.
- (f) Who has written on or before the 1st April in the year preceding the award to the Director of Education stating (i) that she is a candidate for the Scholarship (ii) the subjects she will take in the examination (see sec. II. below) and (iii) the name of the University in Great Britain or Ireland or other Institution in the British Empire at which she proposes to hold the Scholarship, at the same time transmitting (iv) satisfactory evidence that she has fulfilled the requirements mentioned in (a) (b) (c) (d) above. A form will be supplied by the Director of Education for this purpose. Along with this form (v.) a certificate from a Registered Medical Practitioner must be sent in as to the candidate's fitness to hold the Scholarship and (vi.) a Treasury receipt for an entrance fee of £1 1s. paid by the candidate.
- (g) Who shall be reported to the Governor by the Examining Body as the candidate most deserving of the Scholarship among those duly qualified as above, who have submitted themselves to the Examination hereinafter provided.

II. An examination of the duly qualified candidates shall be conducted in Kingston by means of special papers at the same time as the Cambridge Local Examinations in December: the papers all to be 2½ hours papers except where otherwise provided in these regulations, and of a standard to which candidates may reasonably be expected to attain within twelve months of their having passed in Honours in the Cambridge Senior Local Examination.

The Subjects of examination shall be as follows:—

(i) Compulsory:

- (a) An English Essay, a considerable selection of subjects to be offered and in the selection of subjects due weight to be given to the fact that the candidates will have been educated in Jamaica, and that some of them will offer Languages as their Principal Subject, others Mathematics, and others Science (one paper): (b) A general English Literature paper—the questions being confined to principal authors and their works—for the Scholarship to be awarded in 1914 and each alternate year thereafter in the period 1579-1740, A.D. and for the Scholarship to be awarded in 1915 and each alternate year thereafter in the period 1741-1850 A.D. (one paper).

(ii) Principal subject: any one out of the following three—

- (a) Languages: Latin and Greek or French or German or Spanish (four papers).
 (b) Mathematics, viz., Pure Geometry: Algebra: Plane Trigonometry and one other chosen out of the following:—(a) Elementary Geometrical Conic Sections and Analytical Conic Sections (either or both.) (b) Elementary Statics. (c) Elementary Dynamics. (d) Elements of the Differential and Integral Calculus (four papers).
 (c) Science: any two out of the following three:—
 Physics (Mechanics, Heat and Light): Chemistry: Botany: (four papers—two theoretical, two practical—3 hours).

(iii) Subsidiary subject: any one out of the following (but see below): two papers in each subject—

- (a) Languages—Latin or Greek or French or German or Spanish.
 (b) Mathematics—Geometry and Algebra and Plane Trigonometry.
 (c) Science—Physics or Chemistry or Botany.
 (d) Geography of the British Empire and English History—general questions for the Scholarship to be awarded in 1914 and each alternate year thereafter in the period 1066-1688 A.D.: for the Scholarship to be awarded in 1915 and each alternate year thereafter in the period 1688-1900, A.D.

The questions in the Subsidiary Subject shall be of a lower standard than in the Principal Subject and the papers in this subject shall be two-hour papers. And if ii (a) be taken as Principal Subject, no part of iii (a) may be taken as Subsidiary Subject; if ii (b) be taken as Principal Subject iii (b) may not be taken as Subsidiary Subject; and if ii (c) be taken as Principal Subject no part of iii (c) may be taken as Subsidiary Subject. In the consideration of the examination results the examiners will assign 15% of the maximum marks obtainable in the whole examination to i (a): 10% to i (b): 60% to ii; and 15% to (iii).

III. The successful candidate shall enter, not later than Michaelmas Term in the year of her election as a student in one of the Universities in Great Britain or Ireland or other Institution in the British Empire at which success is attested by recognised degrees, certificates, or diplomas in the pursuit of any course of useful study leading to a definite profession or occupation to be approved by the Governor on the recommendation of the Jamaica Schools Commission.

If she enters any University or Institution in Great Britain or Ireland, she shall report herself in due course at the Colonial Office, London, and she shall transmit quarterly to the Secretary of State for the Colonies a certificate signed by her College Tutor or other recognised authority, stating that she is thoroughly well conducted and industrious. Subject to the fulfilment of the conditions, of which the Secretary of State will advise the Crown Agents for the Colonies, the scholar will be paid quarterly by the Crown Agents.

If a Canadian Institution is selected and approved the scholar must transmit to the Colonial Secretary, Kingston, Jamaica, the required certificate in time for him to instruct the Government Agents in New York* to pay the instalment of the Scholarship due for that quarter.

The scholar shall also transmit in the beginning of June in each year to the Secretary of the Jamaica Schools Commission, Kingston, Jamaica, a certificate signed by her Tutor or other authority as aforesaid, stating that she is making satisfactory progress in her studies and is proceeding towards the attainment of such degree, certificate or diploma as may have been approved as aforesaid; and if she fails to obtain such certificate, or does not read for Honours, in the event of the authorities of her College deciding that she should do so, the Scholarship shall be withdrawn summarily.

IV. In all cases of doubt, or questions arising in the Colony or in Great Britain as to

* At present Messrs. Gillespie Bros. & Co.

the construction of the conditions under which the Scholarship is competed for and the payments attached to the Scholarship are made, the Governor and the Secretary of State respectively shall have full power and authority finally to decide.

V. The provisions as to the examination on which and the manner in which the Scholarship shall be awarded may be varied at any time by the Governor in Privy Council and the Regulations in force for the time being shall be laid on the table of the Legislative Council at the commencement of each Session and liable to amendment in accordance with resolution of the Council: provided that no amendment or alteration shall come into force until 12 months from the date of its publication in the Jamaica Gazette.

NOTE—In special circumstances, at the discretion of the Governor, an advance not exceeding £30 may be made to the holder of the Scholarship to enable her to proceed abroad. The advance will be recoverable from the amount of the Scholarship.

(PART OF LAW 23 OF 1901.)

1. The Legislative Council may by Resolution on or before the 30th April in any year determine that any Scholarship established under this Law shall not be awarded for the year commencing on the first day of January next ensuing, and in that case such Scholarship shall not be awarded for that year, but such Resolution shall not affect any Scholarship previously awarded.

2. A copy of the Regulations in force at the time, setting forth the conditions on which these Scholarships are awarded and held, shall be laid on the table of the Legislative Council at the opening of each Session; and may from time to time be amended in accordance with Resolution of the Council: provided that no amendment shall come into force until twelve months from the date of its adoption.

THE RHODES SCHOLARSHIP.

Under the will* of the late Mr. Cecil Rhodes a Scholarship of £300 a year, tenable for three years at Oxford University, is awarded each year in respect of this colony.

The Trustees of the Will of the late Mr. Cecil Rhodes issued in July, 1909, the following Regulations governing the election of Rhodes Scholars in Jamaica, for the information and guidance of educational authorities and intending Candidates for Scholarships.

1. An annual Scholarship is assigned to Jamaica. Each Scholarship is tenable for three years and is of the value of £300 per annum.

2. A Qualifying Examination accepted by the University of Oxford as equivalent to Responsions, the subjects for which will be furnished year by year, will be held in the City of Kingston in the Autumn of each year, at a date of which due notice will be given. Scholars will be selected from those who have passed this Qualifying Examination. The

* The terms of the Will are given in the Handbook for 1909.

Committee of Selection is free to apply to the Candidates, or to any selected number of them, such further intellectual or other tests as they may consider necessary. The election must be completed by the 31st of the following January, and the Scholar will begin residence at Oxford in October of the same year for which he is elected.

3. Arrangements will be made, if necessary, for candidates educated in England or Canada to take the examination at the same date in years when such candidates are eligible.

COMMITTEE OF SELECTION.

4. The Committee of Selection consists of—

His Excellency the Governor, or Officer administering the Government (Chairman).
The Hon. the Chief Justice.
The Director of Education.
The Chairman of the Jamaica Schools Commission.
Hon. Philip Cork, C.M.G.

The first four members of the Committee hold their place *ex-officio*, and their places will be filled, as vacancies occur, by their successors in office. The fifth member will be elected by co-optation, subject to the approval of the Trustees, when a vacancy occurs. Three members of the Committee shall form a quorum. In all matters before the Committee the Chairman shall have an original as well as a casting vote.

5. The Secretary of the Jamaica Schools Commission for the time being shall act as Secretary for the Committee of Selection. In the event of funds being required to meet expenses in connection with the Committee, the Committee may charge a fee to each candidate with a view to covering such expenses. [The fee at present charged is one guinea.]

ELIGIBILITY OF CANDIDATES.

6. Candidates must be British subjects and unmarried. They must have passed their eighteenth birthday, but must not have passed their twenty-fifth birthday, on the 1st of October of the year for which they are elected.

7. The parents or recognised guardians of candidates must be actually domiciled in Jamaica, such domicile to include at least seven years' residence in Jamaica immediately preceding the election. In cases where during the seven years' period the parent or guardian has taken short holiday trips off the Island, such absences shall not be counted.

8. Candidates must have passed five years of their life, between the ages of 6 and 18 in Jamaica.

9. Every third year the selection of the Rhodes Scholar will be made from candidates who have lived in Jamaica for the whole of the seven years preceding the date of the examination. This restriction will apply to the years 1909, 1912, 1915, and so on. In case of a candidate under this rule having been off the Island for the benefit of his health during this period, the Committee of Selection may decide, if they think fit, that this does not interfere with his eligibility.

10. In any doubtful cases of eligibility the decision of the Committee of Selection shall be final.

METHOD OF SELECTION.

11. In accordance with the wish of Mr. Rhodes, the trustees desire that "in the election of a student to a Scholarship, regard shall be had to (i) his literary and scholastic attainments, (ii) his fondness for and success in manly out-door sports, such as cricket, football, and the like, (iii) his qualities of manhood, truth, courage, devotion to duty, sympathy for and protection of the weak, kindness, unselfishness and fellowship, and (iv) his exhibition during school-days of moral force of character, and of instincts to lead and to take an interest in his schoolmates." Mr. Rhodes suggested that (ii) and (iii) should be decided in any School or College by the votes of fellow-students, and (iv) by the Head of the School or College.

Where circumstances render it impracticable to carry out the letter of these suggestions as to the method of selection, the Trustees hope that every effort will be made to give effect to their spirit, but desire it to be understood that the final decision must rest with the Committee of Selection.

12. Those who desire to be considered as candidates for the Scholarship for any year must make application, on a prescribed form, to the Secretary of the Jamaica Schools Commission, Kingston, Jamaica, not later than the last day of March in the preceding year, stating the classical books in which they propose to be examined, taken from the list furnished from Oxford for the Qualifying Examination, the proposed form to be supplied by the Committee of Selection.

13. For each candidate there must be furnished to the Committee of Selection—

- (a) a certificate of age;
- (b) a full statement of his educational career at school, with his record in athletics; and
- (c) a careful, detailed, confidential report by the master of the school at which the boy has been educated, in answer to a paper of questions framed by the Committee of Selection.

The report should contain the opinion of the senior boys of the school about the candidate, obtained in the best way which the headmaster can devise, and be supplemented by his own comments. In the case of candidates not presented directly from any school, the Committee may require such certificates as they deem necessary.

14. In cases where more than one candidate comes from the same school, the report of the master and the opinions asked of the senior boys should indicate, on the points submitted to them, the relative standing of the candidates in the order of merit.

15. Each candidate must personally present himself to the Committee of Selection before a final decision is made, at a time to be fixed by the Committee of which due notice will be given, unless specially excused by the Committee itself, in which case a statement of the reasons must be sent to the Trustees.

16. The Chairman of the Committee of Selection should at once notify to the Trustees and to Mr. F. J. Wylie, 9, South Parks Road, Oxford, the name of the elected Scholar, and should forward to the latter all the records, credentials and testimonials relating to the Scholar on which the election was made. These papers should be transmitted immediately, as they are used in consulting College authorities in regard to the admission of Scholars. It has been the experience of past years that Scholars have frequently been unable to gain admission to any of the Colleges of their preference owing to remissness in forwarding to Mr. Wylie the necessary information.

17. The Scholarship will be paid in four quarterly instalments: the first on beginning residence at Oxford, and thereafter terminally on the certificate of his College that the work and conduct of a Scholar have been satisfactory. Without such a certificate the Scholarship lapses. A Scholarship which lapses either from the failure of a student to secure this college certificate, from resignation, from marriage, or from any other cause, will not be filled up till the year in which it would naturally expire. This provision is made in order not to interfere with the rota of succeeding Scholars.

Copies of these Regulations, and any further information may be obtained from the Secretary to the Jamaica Schools Commission, Kingston, Jamaica; or from Dr. G. R. Parkin, C.M.G., care of the Rhodes Trustees, Seymour House, Waterloo Place, London, S.W.

The following "Instructions" are framed to indicate the course of procedure by which a Scholar is entered at Oxford.

1. In order to be admitted to the University of Oxford, it is necessary to be first accepted as a member of one of the Colleges which compose the University.

Election to a Rhodes Scholarship does not of itself admit to a College. Every College has its own standard for admission, for Rhodes Scholars as for all other applicants; and accepts or rejects at its own discretion. Moreover, the number of Rhodes Scholars which any one College will admit is strictly limited. Few Colleges will admit more than five in any one year; and in the majority of cases four is the maximum. From the different candidates for admission a College will select those whose records suggest that they are most likely to do credit to the College to which they may belong. It is therefore essential that, in applying for admission to a College, a Scholar should submit the fullest possible evidence.

2. The procedure for a Scholar-elect should be as follows:—

- (1) *Immediately* on receiving notice of his election he should write to Mr. F. J. Wylie 9, South Parks Road, Oxford, stating in order the Colleges which he prefers. The list should contain the names of *at least* six Colleges.
- (2) He should satisfy himself that the credentials which he submitted to the Committee of Selection have been forwarded by the Chairman to Mr. Wylie.

(3) He should himself forward to Mr. Wylie any portion of the following information which may not have been included in the documents submitted to the Committee of Selection:—

- (a) A certificate of age.
- (b) Testimonials as to character.
- (c) *Certified* evidence as to the Courses of Study pursued by the Scholar at his University, and as to the gradings attained to by him in those Courses. This evidence should be signed by the Registrar, or other responsible official, of his University.
- (d) A catalogue of his University.
- (e) Information as to the intentions of the Scholar in regard to the line of study he proposes to follow at Oxford.

It is also desirable that the Scholar should state to what religious denomination he belongs.

This information should reach Mr. Wylie as soon after the *end of January as possible*.

3. When Mr. Wylie has the necessary information in his hands he will attempt to secure for each Scholar admission to the College of his preference. That will not be always possible. When a Scholar fails to gain admission to the College which stands first on his list of preferences, Mr. Wylie will enter into negotiation with the College second on that list, and so on.

Where he is specially requested to do so, Mr. Wylie is prepared to select a College for a Scholar, but it is greatly to be preferred that each Scholar should, so far as possible, choose for himself.

4. Information about Oxford and its various Colleges is to be found in the early chapters of the "Students' Handbook to Oxford," and in "Oxford and the Rhodes Scholarships," by R. Scholz and S. K. Hornbeck. These books can be obtained at the Oxford University Press, 91, Fifth Avenue, New York. Scholars-elect are recommended to get them.

5. A study of Chapter VII. of "Oxford and the Rhodes Scholarships" will afford a rough idea of the cost of life at Oxford, and of the expenses which an Undergraduate has to meet on coming for the first time into residence.

It may be mentioned that, by special arrangement with the Rhodes Trustees, the following Colleges have agreed to demand no caution money from Rhodes Scholars:—

Balliol, Brasenose, Christ Church, Corpus Christi, Exeter, Hertford, Jesus, Lincoln, Magdalen, Merton, Oriel, Pembroke, Queen's, St. John's, and Wadham.

University and Worcester Colleges demand £10 as caution money, Trinity College, £20. The payment under the heading of caution money in the case of New College is as described in the "Students' Handbook."

6. The Scholarship will be paid quarterly. The first payment (£75) will be made at the beginning of the Michaelmas Term. No request for any earlier payment can be considered.

7. The sum of £300 is no more than is necessary to cover the expenses of the year, including vacations as well as term. A scholar must not therefore count on his Scholarship leaving any margin—least of all in his first year, in which, owing to unavoidable initial payments, expenses are heaviest. It is essential that a Scholar should start his life in Oxford unhampered by debt. It is even desirable, in view of initial expenses that he should, if possible, arrive with £25 or so to his credit.

8. For information as to courses of study at Oxford, Scholars elect are recommended to consult "Oxford and the Rhodes Scholarships," and the "Students' Handbook to Oxford," particularly Chapter VI. of the former of these two books.

9. When a scholar has been once accepted by a college he should conduct all further correspondence as to his residence, studies, &c., directly with the College in question. He should, however, keep Mr. Wylie informed of his movements, and in particular of the date at which he proposes to come into residence. Michaelmas Term begins normally in the second week of October. A Scholar must in any case arrive at Oxford not later than the day on which his College assembles.

10. A Rhodes Scholar must reside in College, unless his College is unable to offer him rooms, for at least two years.

THE JAMAICA SCHOOLS COMMISSION.

THE Legislature in 1879 passed a Law (34 of 1879) creating a corporate body called the Jamaica Schools Commission: (1) to be the governing body for the management of a school to be called the Jamaica High School (now called Jamaica College) to be so conducted as to promote the higher education of the country, and (2) to have power to make visitations of endowed schools and to prepare and execute schemes for the reform of governing bodies and the better application of endowments for education throughout the island. The Schools Commission acts as Board of Management of the Jamaica College, and exercises supervision over the other endowed schools of the island. By Law 7 of 1911 it controls the Montego Bay Secondary School. It also advises the Government on matters connected with Secondary Education generally.

Members—The Lord Bishop of Jamaica, *Chairman*, His Honour Mr. Justice Cargill, LL.B., *Vice-Chairman*, C. Leslie Mais, Hon. F. E. Reed, M.A., (acting Director of Education), Rev. Ernest Price, B.A., B.D., President of Calabar College, Hector Josephs, M.C., LL.B., Rev. J. H. Cartwright, T. L. Roxburgh, C.M.G.

Secretary, Frank Cundall.

ENDOWED SCHOOLS.

THE JAMAICA COLLEGE.

Hope.

PROVISION was made by Law 34 of 1879, for the establishment, under the control of the Jamaica Schools Commission, of a School to be called "The Jamaica High School," at which there is provided a good liberal education.

Under this law "The Jamaica Free School" in St. Ann, and all funds and property thereof were absolutely vested in the Schools Commission and are used for the purposes of the Jamaica College.

The School Buildings at Hope, in the parish of St. Andrew, about 5 miles from Kingston, on the car line, were opened by Sir Henry Norman, on the 9th of July, 1885. A

College was opened in September, 1890, in connection with the School. By Law 26 of 1902, the Jamaica High School and University College were amalgamated under the name of the Jamaica College. It contains accommodation for the head master and his family, four other masters, seven students and seventy boarders.

The buildings were much damaged by the earthquake; they were repaired so that they could be used within a few weeks, and were completely restored during the following year with the help of a vote of £2,500 made by the Legislative Council in the session of 1908.

It has an income, irrespective of fees, of £1,696 (£700 Government Grant, £996 Endowment), besides a Government grant of £500 for payment of debentures.

Regulations for the management of the College have been framed by the Schools Commission, of which those of most general interest are the following:—

The College is open to all religious denominations.

Scholars.—The College consists of the following classes of boys:—

- I.—Foundationers. (a) Drax scholars (ten in number), elected from the parish of St. Ann, (b) Foundationers other than Drax Scholars elected from parishes other than St. Ann, thirteen in number. II.—Holders of Endowed Schools' Special Scholarships. III.—Paying Term Boarders. IV.—Paying Weekly Boarders. V.—Paying Day Boys.

Admission of Foundationers.—Foundationers are elected by the Schools Commission subject to the results of an Examination and to their meeting certain requirements:—

1. Boys are eligible as Candidates for admission as Foundationers only in case of the inability of their parents to provide a liberal education for their children.
2. Their age must be between 9 and 13 on the day of examination.
3. Satisfactory testimony must be furnished as to their good character.

Special Scholarships from certain Endowed Schools.—It has been deemed desirable that certain Endowed Schools, which do not provide advanced Secondary Education, should found Scholarships to be held at the Jamaica College or some other School approved by the Commission, which does give such advanced education, by boys and girls entitled to enjoy the benefits of the said Local Endowed Schools. The general qualifications for competition for such Scholarships are fixed and the scholars are elected by the Local Trustees, provided that the boys or girls nominated by them must be prepared at least to pass such Examination as is required by boys coming in to the Jamaica College as paying boarders. At present there are no such scholarships provided.

Exhibitions.—The Schools Commission is prepared to grant exhibitions to paying terminal and weekly boarders either at admission, or on the report of the Examiners and Head Master, to boys already in the School. Exhibitions are given as the reward of merit only, and vary in value according to merit and the financial resources at the disposal of the Commission.

Entrance Examination of Paying Boarders.—Those who come in between the ages of 9 and 11 are subject to an Examination of the same nature as that for Foundationers. Boys entering after the age of 12 years are subject to an examination, which tests their qualifications to take a proper place in the School. Information on this point will be supplied to intending applicants by the Head Master.

Paying Weekly Boarders.—Boys are admitted to the School to remain from Monday morning till Friday evening. The terms of admission as regards examination will be the same as those for term boarders.

School Terms.—The annual work of the School is divided into three Terms. The Lent Term commences on the third Wednesday in January in each year and ends on the second Friday in April, irrespective of the time at which the Easter holiday falls. The Summer Term commences on the fourth Wednesday in April and ends on the third Friday in July. The Christmas Term commences on the second Wednesday in September and ends on the Saturday on which the Cambridge Local Examination ends. In the event of any of these dates falling on a public holiday the Term commences or ends as the case may be on such day nearest thereto as may be most convenient.

Payment for Scholars.—Payments must be made in advance at the beginning of each Term. Term boarders pay at the rate of £13 6s. 8d. per Term if under twelve years of age. If over twelve years of age at the rate of £15 per Term. Payments for weekly boarders are at the rate of £10 13s. 4d. per Term, if under twelve years of age. If over twelve years of age at the rate of £13 6s. 8d. per Term. Day Boys under twelve years of age shall pay for tuition and breakfast at the rate of £3 6s. 8d. per Term; over 12 years at the rate of £4 per Term. Day Boys may have dinner with the boarders for £2 a term. The charges of the School for the holders of Endowed School Scholarships

are at a sum not exceeding £40 each per annum. The whole of this must in each case be paid by the Treasurer of the Endowed School to the Treasurer of the Jamaica College; but it will be a matter for local arrangement whether any portion of such charges be contributed to the Local Trustees by parents or guardians, or whether the Scholarships granted by Local Trustees shall be in all cases sufficient to cover the whole cost of £40.

Secular Instruction.—The School is divided into a Junior and a Senior School.

In the Junior School the subjects of Secular Instruction include the following subjects:—English, Latin, and French, Arithmetic and Mathematics, Geography and History, the elements of Natural Science, Drawing and Bookkeeping, Vocal Music, Drill.

In the Senior School the same subjects are continued and extended and in addition boys shall take such additional subjects as the Head Master may arrange, such as Greek; Commercial Subjects and Political Economy.

Age at which Scholars leave the College.—Foundationers shall not remain in the school after the end of the year in which they attain the age of sixteen years; and no boy shall remain in the school after the end of the year in which he attains the age of eighteen years except with the express permission of the Schools Commission, on the recommendation of the Head Master. The Commission, however, will be prepared, on the advice of the Head Master, to retain at the School any Foundationer showing marked ability or special diligence for such further period beyond the age of sixteen years as they may determine.

At the end of the Christmas Term of 1916 there were in the College 9 Drax foundationers, 12 Open Foundationers, 33 Paying Boarders and 48 Day Boys, making a total of 102.

All communications respecting boys, or on school matters, should be addressed to "The Head Master, Jamaica College, Kingston;" letters on general business matters affecting the school should be addressed to "The Secretary of the Jamaica Schools Commission, Kingston."

TEACHING STAFF.

Head Master—William Cowper, M.A., late Scholar and Prizeman of Pemb. Coll. Camb. Classical Tripos, Part I, 1886, (1st Class). Part II, 1887, (1st Class).

WOLMER'S SCHOOLS.

Marescaux Road, Kingston.

THIS Trust was established in the year 1736 by an Act of the Island Legislature (9 Geo. II. cap. 6) to give effect to the bequest of John Wolmer, of Kingston, a goldsmith, who by will dated the 21st May, 1729, devised, after some small legacies mentioned therein the rest and residue of his estate for the foundation of a Free School in the parish in which he should happen to die.

The school is now administered under the following scheme of the Schools Commission:—

1. Trustees—Six Members of the Mayor and Council of Kingston elected from time to time, and five other persons nominated by the Schools Commission and appointed by the Governor, three of whom are required to be persons of position and influence connected with Kingston, and the remaining two chosen for their scholastic attainment

and experience. The Chairman and Vice-Chairman are elected annually by the Trustees: the quorum consists of five, except in certain specified cases when it is reduced to three.

II. The funds and property are devoted to the maintenance of a modernized Grammar School, with classical and commercial sides, and with additional special subjects suitable to girls. The head master and head mistress are appointed by the trustees, and all other masters and mistresses are appointed by the trustees on the recommendation of the head master and head mistress, respectively. The school consists of such number of foundationers as may be fixed in the by-laws, and of other scholars paying such fee as may be similarly fixed. The boys and girls who are eligible as foundationers are the children of inhabitants of Kingston who are not able to pay for such higher education; and "inhabitants of Kingston" are defined to be persons who have continuously lived in Kingston for not less than two years. The trustees are to arrange for such annual examination of the school as may be satisfactory to the Schools Commission, and they have power to appoint a Committee of Lady Visitors to the Girls' School.

III. Religious teaching is given in all sections of the school, and it is required that this teaching shall aim at securing a knowledge of the leading facts in the Old and New Testaments, especially the history and teaching of the Lord Jesus Christ; but any scholar can be exempted from this on the written request of the parent.

There are three terms in the year. The first term begins on the fourth Monday after the Saturday in the Cambridge Local Examination week, so long as this Examination continues to be held in December, and ends on the Wednesday before Easter Sunday.

The second term begins on the Thursday after Easter Sunday and ends on the second Thursday in July.

The third term begins on the ninth Thursday after the close of the Summer term and ends on the Saturday of December before the Cambridge Local Examination week.

In 1908 a special law was passed empowering the trustees to move the school to the Quebec Lands, in the parish of St. Andrew, north of the Race Course. The new buildings were occupied for the first time for the first term of 1909.

TRUSTEES.

Elected by the Mayor and Council—R. W. Bryant, *Chairman*; Alexander Dixon, G. P. Myers, J. L. King, T. R. McMillan, A. E. DaCosta.

Appointed by the Governor on nomination of the Schools Commission.—Ven. Archdeacon Wm. Simms, M.A., *Vice-Chairman*; F. Cundall, Rev. W. Pratt, M.A., Rev. R. J. Ripley, Rev. J. T. Hudson, B.A., B.D.

Secretary—E. A. Andrews.

Teaching Staff.

BOYS SCHOOL.

Head Master—F. H. Peachell, M.A., King's College Cambridge; 1st Junior Optime, Math. Tripos, 1897.

Second Master—F. W. Day, London Matriculation, University College, Jamaica. Assistant Masters—G. T. Byrne, M.Sc (Manchester), O. G. Brown, (Cambridge Senior Local), P. A. Cover, I. O. B. Shirley.

Drawing Master—J. Tillman.

Head Mistress—Miss Howson, B.A.

Second Mistress—Miss A. M. Swallow, B.Sc.

Assistant Mistresses—Miss A. Hollar, B.A., Mrs. Lepingwell, Cambridge, Modern Languages, Tripos, Miss Forbes, Miss Walter, Miss Samuel, Miss Gardner, Miss Rouse, Miss A. Bell and Miss N. Bell.

At the end of the third term of 1916, there were in the school 149 boys (29 Foundationers and exhibitioners, and 120 Paying Scholars) and 214 girls (30 Foundationers and exhibitioners, and 184 Paying Scholars) making a total of 363 scholars.

MUNRO AND DICKENSON'S FREE SCHOOLS.

ROBERT HUGH MUNRO, of the parish of St. Elizabeth, by his will dated 21st January 1797, and a codicil of 23rd May, 1797, bequeathed the residue of his real and personal estate in certain contingencies in trust to his nephew, Caleb Dickenson, and the churchwardens of the parish of St. Elizabeth, and their successors, to lay out the same in the endowment of a school to be erected and maintained in the said parish for the education of as many poor children of the parish as the funds might be sufficient to provide for and maintain; and if necessary, to apply to the Legislature for an Act for the regulation of the Charity and to carry out his intentions. The Trust maintains two schools situated in the Santa Cruz Mountains.

The income of the Trust is £1,400 4s. 7d. a year as perpetual annuity on the sum of £23,337 sunk under the provisions of the Act 28 Vic. cap. 23, and interest on island debentures to the extent of about £5,000, bought from annual savings since the Act 18 Vic., cap. 52, was passed.

Trustees.

Ex-Officio.—The Custodes of St. Elizabeth and Manchester. The Chairmen of the Parochial Boards of St. Elizabeth and Manchester.

Elected by the Parochial Boards.—O. E. Tomlinson and P. W. Sangster. (St. Elizabeth); W. H. Coke, (Manchester).

Appointed by the Governor.—Hon. John V. Calder, *Chairman*, Henry Maxwell, Rev. Canon Melville, E. T. Forrest, Rev. John Maxwell.

Secretary.—F. B. Bowen.

POTSDAM

Boys between the ages of 9 and 12 years who reside within the limits of the old parish of St. Elizabeth are eligible for admission to the school on the Free and £20 Foundation. There are also 5 vacancies on the £20 foundation tenable by boys from any other parish. Candidates for admission are examined in reading from the Fifth Standard Reading Book, dictation from the same, the first four rules of Arithmetic, Simple and Compound, the outlines of the Geography of Jamaica and Europe, the classifying of words under their parts of speech, and the leading facts of the Old and New Testaments. Boys between 11 and 12 years of age further examined in French and Latin Accidence and Vulgar Fractions, Practice, Proportion and Interest in Arithmetic; but failure in French and Latin will not disqualify for election. Foundationers are required to leave the school on attaining the age of sixteen: but the trustees may, with the advice of the head master, retain at the school any boy shewing marked ability or special diligence, for such further period beyond the age of 16 years as they may determine.

The buildings have been enlarged and accommodation provided for 10 boys who are educated and boarded free of charge, and 20 who are educated and boarded for £20 a year, together with about 70 paying boarders whose fees vary from £40 to £45 per annum. The course is adapted for boys preparing for the Universities, Civil Service, Oxford and Cambridge Local Examinations, and business: it is calculated to combine a sound literary training with the requirements of a modern scientific education.

HAMPTON SCHOOL FOR GIRLS

MOTTO: Summa virtute et humanitate

The Trustees are the same as for Potsdam School.

The Buildings were greatly extended during 1913. They now include the Calder Hall in addition to excellent dormitories and class-rooms, library, eleven music rooms, etc. The provision for games includes a hockey court and four tennis courts.

The aim of the School is to provide a sound and liberal education for girls, morally, intellectually and physically and so to fit them for the duties and responsibilities of their future home life and enable them to use their leisure to the best advantage. A girl wishing to pursue a definite career is prepared adequately for a course at, i, a University; ii, a Secondary Training College for Teachers; iii the Royal Academy of Music or the Royal College of Music, or iv, any other institution offering a course of useful study leading to a profession or occupation.

The examinations taken by the girls during 1917 will be: i. The Girls Island Scholarship Examination; ii. The Examinations of the Oxford and Cambridge Joint Board; iii, The Licentiate; The Advanced and Intermediate Local Centre; The Higher and Lower School Examinations of the Associated Board R.A.M., and R.C.M.; iv. The Seven Grades of the Royal Drawing Society. Girls may also enter for the new Cambridge Senior Certificate and for London Matriculation.

The Numbers in December 1916 were: Foundationers, 17; Boarders, 70; Day Boarders, 1; Total 88

MONTEGO BAY SECONDARY SCHOOL.

The school was opened in September, 1896, at the Barracks, Montego Bay, under the provisions of Law 32 of 1892, the Rev. Adam Thomson being first Chairman of the Local Board of Management. It was removed in 1911 to Pleasant Hill adjoining Spring Hill Hotel. Its object is to furnish boys with a secondary education; the curriculum provides for Religious Instruction, Latin, French or German or Spanish, Arithmetic, Euclid, Algebra, Plane Trigonometry, Book-keeping, History, Geography, Natural Science, Drawing. According to the scheme, the school may, at the discretion of the Schools Commission, comprise a separate department for girls, in which case Needlework is to be added to the curriculum.

The school year consists of three terms:—Jan. 9th to April 10th; April 21st to July 17th; Sept. 18th to Saturday before Cambridge Examination week.

The fees for tuition (payable each term in advance) are £7 10/ per annum, or in the case of members of one family, £6 per annum each.

Boys, before admission, are required to furnish a satisfactory testimonial of age and character, and to pass an entrance examination.

There are 34 acres of land, which are being devoted to agricultural purposes in connection with the school and for a playground.

There were in September, 1916, 48 day boys and 23 boarders. Fees for boarding only £22 per annum; for brothers £21 each.

MANNING'S SCHOOL, SAVANNA-LA-MAR.

THOMAS MANNING, in 1710, left thirteen slaves with land and the produce of a pen in Burnt Savannah and cattle to endow a Free School in the parish of Westmoreland. It was incorporated in the year 1738 and since then has flourished in the town of Savanna-la-Mar, proving of great advantage to the inhabitants of Westmoreland and the neighbouring parishes.

In addition to the fees of paying scholars, the income of the school consists of £471 3s. 3d. per annum, being a perpetual annuity secured to the Charity under the 28 Vic. chap. 23, in lieu of £7,852 14s. 8d. appropriated by the Government.

A new scheme was drawn up in the year 1897 by the Schools Commission for the future management of this School and was approved by the Governor in Privy Council under the 36th section of Law 34 of 1879. The scheme, which has since been amended, provides for the maintenance of both a Boys and a Girls School, furnishing a good middle class education to Cambridge Local Examination standard. There are 43 boys and 44 girls.

By recent amendments of the by-laws, it has been provided that 15 boys and 15 girls shall be on the foundation and shall be educated free of cost; 7 boys and 7 girls shall be elected on the same conditions as the foundationers, but shall pay £4 per annum; while paying scholars are received who pay £8 per annum, with a reduction to £6 in the case where two or more members of a family are in the school at the same time. The head master and the first mistress have authority to receive boarders on such financial terms as may be approved by the trustees. Such boarders pay direct to the trustees the usual school fees. The terms at present in force are £25 per annum for children under 12 years, and £30 for those over that age, including laundry in each case. Weekly boarders are also taken at proportionately reduced rates.

Since 1897 a sub-centre for the Cambridge Local Examinations has been established in connexion with the school, the Trustees making good any monetary deficiency that may arise.

RUSEA'S SCHOOL, LUCEA.

MARTIN RUSEA, a French refugee, in grateful recollection of the hospitality manifested towards him on his arrival and settlement in the colony left by his will dated 23rd July, 1764, all his real and personal estate, which afterwards realized £4,500 (£2,700 sterling), for the establishment of a free school in the parish of Hanover.

The devise was disputed; but in 1777, an Act was passed (18 Geo. 3 cap. 18) settling the Trust and establishing an undenominational school. The income from the endowment amounts to £270 per annum being a perpetual annuity secured to the charity under the Act 18 Vic. chap. 23.

Eight boys and eight girls are received on the free foundation, and the Trustees admit in addition, paying pupils at a maximum fee of £6 6s. 0d. per annum. Only the children of persons belonging to the parish of Hanover are eligible as foundationers.

The school is now held in the Long Barracks, Lucea, where instruction is given to both boys and girls.

There are excellent grounds for recreation surrounding the school premises which are situated in a most healthy locality.

The curriculum includes Latin, Mathematics with the usual English and commercial subjects, and pupils are prepared for the local examinations. Instruction in manual occupation is also given.

The school year is divided into three terms, fees being payable (i) at the re-opening of the school in January; (ii.) at the re-opening in April; (iii.) at the re-opening of the school in September.

TITCHFIELD TRUST AND SCHOOL.

THE Titchfield Trust was established under the Act 26 Geo. III., cap. 7, by which 350 acres of land adjoining the town of Port Antonio, or Titchfield, were vested in certain Trustees for erecting a Free School and for creating a fund for its endowment and support.

The school was in active operation from its foundation till 1855, when it got into difficulties, after which it was relieved by the Government, and in 1884 it was placed under the control of the Schools Commission.

Under authority of Section 39 of Law 34 of 1879, schemes have been drawn up and amended for the better management of the Trust School.

The school is managed locally, subject to the supervision and control of the Jamaica Schools Commission, by a Local Board of nine Managers seven of whom are appointed by the Governor on the recommendation of the Schools Commission, and two are members of the Parochial Board of Portland, elected by the Board.

Under the scheme a Day School for boys and one for girls were established in 1886, under the Head Mastership of Mr W. H. Plant and there have been since added, an Infant Department, 1894, which is now carried on on Kindergarten lines; a Secondary department for boys and girls in 1897; and a Manual Training Department in 1902, with a fully equipped workshop, and a qualified master in charge.

In 1907 an amalgamation of the boys and the girls departments was effected.

The present Departments are: Secondary, Upper, Intermediate, Infant, and Boundbrook Infant School. Marks 78, 79, 74, 67.

The Secondary School gives 16 Local Scholarships, of £6 each open to children of the parish of Portland.

The School is housed in the old Military Barracks at Fort George in Port Antonio, which have been leased to the Commission by the Government. The attendance is over 600.

In 1904 a scheme was perfected by which the schools of the adjoining district, are affiliated to Titchfield, i.e., Norwich, St. Margaret's Bay, Fellowship, Nonsuch, Drapers, Boston and Sherwood Forest.

In connection with the school there are two cricket clubs, a football club, a cadet corps, tennis and basket ball, and a miniature rifle club, a girl's club and a club for present and past boys.

Titchfield Lands.

The Titchfield Lands of 300 acres, are now vested in and managed by Trustees partly ex-officio and partly appointed by the Governor. They are leased to various tenants.

BECKFORD AND SMITH'S GRADED MIDDLE CLASS SCHOOL, SPANISH TOWN.

PETER BECKFORD, of Spanish Town, bequeathed by his will, dated 1735, the sum of £1,000 "to be apply'd towards the building a free school or hospital for the poor, if any person should joyn in such an undertaking." The school was established in 1744. It later received £40 bequeathed by Thomas Barritt. In 1749 the Assembly voted £400 for repairing the premises. By his will, dated 1830, Francis Smith, custos of St. Catherine, bequeathed the sum of "£3 000 to the parish of St. Catherine, to be invested in some institution permanently for the instruction of the poorer classes of all colour, free and slave, in the doctrines of the Church of England and in the promotion of industry." The School was opened in 1833. By Law 30 of 1869 these two Schools were amalgamated under the title of "Beckford and Smith's School" and placed under the control of the Colonial Secretary for the time being, their amalgamation having been recommended by the Charity Commissioners in 1846, and legislation taking place in 1851.

In August, 1876, the School was opened under the title of the "Graded Middle Class School in connection with the Beckford and Smith's Charity:" being changed in October 1894, by order made in Privy Council to "Beckford and Smith's Graded Middle Class School."

FOUNDATIONERS.—There are six Exhibitions open to boys of the parish of St. Catherine for which examinations are held from time to time.

FEES—The fees for boys under 10 years of age are £6 per annum and for boys over 10, £7 10s. per annum. The fees include a supply of all school stationery, &c., and a free use of text-books. Fees must be paid into the Parochial Treasury of St. Catherine on or before the first day of each term, and the Treasurer's receipt handed in, on the re-opening of school, before the pupil can be admitted.

TERMS—The school year is divided into three terms, each averaging 13 weeks in length.

BOARD AND LODGING—For the convenience of those residing out of Spanish Town, the Principal is prepared to receive Boarders at his residence, or arrangements can be made for board and lodging at moderate charges with responsible persons approved of by the Principal and under his supervision.

Assistant—M. P. Rubie.

THE VERE SCHOOLS.

SEVERAL persons of the old parish of Vere, which included a part of the parish of Manchester, having made several charitable donations, consisting of lands, slaves and money for the use of the said parish without giving any particular directions or making any particular appointments touching the management or disposal of the proceeds of these gifts, an Act of the Island Legislature was passed in 1740 vesting the funds of the Charity in certain Trustees for the purpose of erecting buildings and endowing a Free School at the Alley in the then parish of Vere, for the education and maintenance of as many poor children as the Trustees might approve of.

The Trustees of the Vere Free Schools are the Chairman and Vice-Chairman of the Parochial Board of Clarendon; two members of the Parochial Board of Clarendon, to be elected from time to time by the members of the said Board and to hold office during the continuance of the said Board; and five other persons appointed by the Governor, three on the nomination of the Schools Commission and two on the nomination of the Board of Education. The Chairman of the Board of Trustees to be appointed by the Schools Commission from time to time. The funds and property vested in the Trustees of the district schools of Vere are appropriated as follows :—(I) Towards supporting certain schools to be conducted as free elementary schools according to the provisions of the Elementary Education Law by such aid towards the up-keep of the buildings and by such other form of assistance as may be provided by the By-laws. The schools thus maintained are those at the Alley, Portland, Race Course, Milk River, Hayes, Salt River, and Mitchell Town; (II) Towards the provision of scholarships for boys and girls at recognized secondary schools in Jamaica. (Since the inauguration of the Vere Secondary School, no Scholarship have been provided tenable at other Secondary Schools. The Trustees offer six scholarships affording free tuition only at Vere Secondary School.) (III) Towards the maintenance of a Secondary School at the Alley, Vere.

Trustees.—Rev. S. Negus, *Chairman*. J. C. Elliott, *Vice-Chairman*, T. H. Sharp, jr., T. Hart, G. W. Muirhead, appointed by the Governor; the Chairman and Vice-Chairman of the Parochial Board of Clarendon; A. A. Lewis and Joseph Hirst, elected by the Parochial Board.

Secretary—C. C. Lewis, Alley P.O

THE VERE TRUST SECONDARY SCHOOL.

In 1908 provision was made for the establishment of a Secondary School at the Alley.

The school curriculum is adapted to the requirements of the Cambridge Local Examinations and includes (under the provisions of the scheme) (I) Religious Knowledge, (II) English, Latin (or French or Spanish), (III) Arithmetic, Euclid, Algebra, Plane Trigonometry and Book-keeping, (IV) History, Geography and Natural Science, (V) Drawing and Manual Training and (for girls) needlework.

The fees for tuition (payable each term in advance) are £7 10s. per annum, reduced to £6 each, in the case of members of one family.

Candidates for admission are required to furnish a satisfactory testimonial of age and character, and to pass an entrance examination.

The regular age limits are 8 to 16 years, the maximum age of admission for Foundation Scholars being 12.

Reduced fees may be charged in certain specified cases, and six free scholarships are at present awarded to pupils elected from the Vere Elementary Schools. The Headmaster takes boarders, the fees (payable in advance) being £7 10s. per term and £5 per term for weekly boarders.

WESTWOOD HIGH SCHOOL FOR GIRLS.

THIS School was founded in January, 1884, at Manchester Pen. near Stewart Town in the parish of Trelawny, to provide at a moderate cost, on Evangelical and undenominational principles, a higher education and training for Jamaica girls of all classes. In 1881-82 the Rev. William M. Webb Baptist Minister of Stewart Town, brought the need to the notice of Dr. and Mrs. Trestrail of Bristol, who enlisted the aid of other wealthy and influential friends in England, and the result was his being placed in a position to originate "The Trelawny Girls School."

In August 1895, the name of the school was changed to "Westwood High School for Girls," on its removal to Westwood, erected for the purpose, at a cost of over £2,000. These generous English friends stood by the school, and gave financial aid till 1910, when it seemed able to stand alone. Three Scholarships have been established in the school, called respectively, The Trestrail, Underhill and Webb Scholarships, in honour of the founders; and an effort is being made to raise an endowment sufficient to put these on a secure financial base and for general purposes.

The School is entirely undenominational.

LUDFORD'S BEQUEST.

THE following is an extract from the will, date 12th July, 1875, of Thomas Ludford, of the St. Dorothy's district of St. Catherine:—

"And as to the residue and remainder of my said estate, I direct my said executors to pay the same to the Governor of this island, for the time being, to be by him appropriated in the establishment and maintenance of a school, first in the town or village of Old Harbour, and then of such other schools in the old parish of St. Dorothy as the Governor may think fit, with the view of providing for those of all denominations who are destitute of the means of elementary instruction, such as is provided by the 18th Victoria, chapter 54, in the parishes of Vere and Manchester. And I hereby declare that I leave to the Governor of this Island, for the time being, the establishment of such schools upon such rules and regulations for their proper conduct and government as he shall think best, so that whilst the instruction of the destitute poor may be provided for, others who may be in better circumstances may also be admitted to the said schools on such terms and conditions and under such regulations as the Governor may think proper."

There are three elementary schools supported by the Trust with the help of the usual government grant, at Old Harbour, Old Harbour Bay and Good Hope.

GUTHRIE DAVIDSON'S BEQUEST.

THIS is a bequest of £1,000 sunk under the provisions of the 4th sec. of 28 Vic. cap. 23, and yielding a perpetual annuity thereunder of £60 for the maintenance and education of one boy and one girl of the parish of St. James.

In 1898 the Jamaica Schools Commission drew up a scheme, ordered by the Governor in Privy Council to come into force on the 1st November, 1898, under which the half of the bequest hitherto devoted to the education and maintenance of one boy was to be devoted to the education of four boys at the Montego Bay Secondary School, and the other half to the education of four girls.

Four boys are now being educated under the provisions of the trust at the Montego Bay Secondary School.

Four girls, elected as beneficiaries, are now being educated at the Church of England High School, Montego Bay.

The election of beneficiaries is in the hands of the Parochial Board of St. James.

MORGAN'S BEQUEST.

THE will of Michael Cuff Morgan, proved 29th July, 1889, provides that a sum not exceeding £500 be paid from the residue of his estate to the Jamaica Schools Commission to provide two scholarships at the Female Training College at Shortwood for two poor girls from the parish of St. Elizabeth, to be nominated by the Custos of that parish. £473 19s. 0d. was paid over in November, 1893, and invested in inscribed stock, bringing in an annual interest of £18.

The trust is administered by the Schools Commission under rules originally passed in 1895 and revised in 1907.

MERRICK'S CHARITY.

Charles Merrick, of the parish of St. George (now a district of Portland) said in his Will, made in September, 1821:—

"I give and bequeath in trust for ever to the two Members of Assembly, the Custos and three senior Magistrates of the parish of St. George for the time being, and to their successors, £2,609 currency for the uses and purposes hereafter mentioned, that is to say, £1,000 to be put out at interest, on good security, and the interest arising therefrom to be applied towards the support of the poor and indigent of every description of colour of the said parish of St. George, and £1,000 to be put out at interest, in like manner, for the express purpose of educating one poor boy, either a white or free boy of colour, for three years, which period ought to be sufficient to afford such a share of instruction as it may be hoped would give to the person partaking of it the prospect of becoming a useful member of Society; then to be succeeded by another boy in like manner, and so to be continued forever.

"But with regard to the last bequest it is my desire, in the event of an establishment being formed for the promotion of education in the said parish through the means of individual benevolence or legislative aid, the Trustees heretofore mentioned in this particular bequest shall be empowered, at their discretion, to unite the funds herein bequeathed for the purpose of promoting a more enlarged and extensive plan of education to those who stand in need of it."

The income of the Charity is derived from a sum of £1,200 sterling permanently sunk under the provisions of the 28th Vic. chap. 23, and a further sum of £400 similarly sunk, which produce a yearly income of £96; this was supplemented by the sum of £138 which was paid by the Government out of the Education Vote.

The administration of the Trust was for a time carried out virtually by the Custos of the parish of St. George alone, but in 1871 a Law (14) was passed empowering the Governor to appoint a Trustee or Trustees in lieu of the then existing ones.

In 1872 the Buff Bay River Estate in the district of St. George was purchased and a Model School was established; it was attended principally by the children of the Charles Town Maroons. In 1888 after considerable correspondence had taken place between the Government and the Jamaica Schools Commission as to the disposal of the educational half of the Charity, the Governor decided in Privy Council that the school at Buff Bay River Estate should be abolished.

The Director of Education the Chairman of the Board of Supervision, and the member of the Legislative Council for Portland for the time being, and the Custos of St. Mary, are the trustees appointed by the Governor.

Under Law 18 of 1915, Scholarships are offered as follows:—

- (A) annually, beginning in January, 1917, a scholarship of the annual value of £15 at the Farm School for three years, subject to re-election at the end of the first and second year, and
- (B) in alternate years, beginning in January 1917 a scholarship of the annual value of £45, tenable at a school approved by the Board of Education for Scholarships under articles 124-127 of the Regulations of the Education Department for four years, subject to re-election at the end of the first, second and third year.

The boys eligible for the scholarships must be the children of persons who,

- (a) are in the opinion of the Trustees unable to pay for such higher education as is to be given,
- (b) have continuously lived within the District consisting of the former parish of St. George for at least three years next preceding the year in which the Scholarships begin.

Under (A) no candidate of sufficient merit was forthcoming at the examination in December, 1916.

The first Scholarship under (B) has been awarded to Keith Royston Middleton.

CALABAR HIGH SCHOOL.

(Chetolah Park, Kingston.)

This school was opened on the 12th September, 1912. At first it was a simple endeavour on the part of the Baptist Denomination to extend the scope of Calabar College in order to provide education for the sons of its own Ministers. The scheme, however, was modified at the request of some parents outside the Baptist Churches who promised to send their sons if opportunity were afforded, and in response to this demand accommodation was provided for 20 boarders and 20 day boys. The preliminary prospectus set forth that an endeavour would be made to give a thoroughly modern education in a definitely religious atmosphere, with a view to earnest life in the professional or commercial world either in Jamaica or elsewhere, and that the whole aim of the school life would be to develop self-reliance, honour and courage, and to train boys to these by allowing them as much liberty as possible and by the introduction of self-government under the monitorial system. The school was soon full, and a demand for further places led to an increase in the accommodation, until now there are over 80 boys in attendance, half of whom are boarders.

The year 1914, saw the addition to the school equipment of a beautiful new Chapel; the foundation stone was laid by His Excellency the Governor on June 22 and the doors were opened on Sept. 23rd by Mrs. Graham.

All ordinary school subjects, Latin, Spanish, Mathematics, History, Geography, Drawing, etc., are taught, and the school's curriculum each year is arranged in order to prepare for the Cambridge Local Examinations.

The fees are as follows:—For Day-Boys, £8 per year (£9 for those entering over 13 years of age); for Boarders £36 per year. Books and sports are charged extra.

The School is in no sense sectarian. Families of every branch of the Christian Church have their boys at the school; but parents who do not share the convictions of the Governors as to the importance of definite Christian instruction are not invited to send their children. Early application for vacancies is generally necessary.

JAMAICA CHURCH THEOLOGICAL COLLEGE.

The Jamaica Church Theological College was established (1) to assist in the preparation of candidates for Holy Orders in the diocese of Jamaica. (2) to direct and assist the catechists and evangelists in the diocese of Jamaica in their studies and in practical preparation for their work.

The property of the College is vested in the Incorporated Lay Body of the Church of England in Jamaica. The general management of the college is entrusted to a General Committee, and the studies and discipline to an Executive Board. Further information may be obtained from the Statutes of Jamaica Church Theological College, Section V. of Appendix to the Canons of the Church of England in Jamaica and the Annual Reports published in the Appendix to the Journal of Synod.

The College stands in its own grounds between Bishop's Lodge and Up-Park Camp. The College is affiliated with Durham University.

ST. GEORGE'S COLLEGE.

(Winchester Park, North Street.)

St. George's College was founded in 1850 and is under the direct control of the Fathers of the Society of Jesus who are personally responsible for the training of the students entrusted to their care.

The object of the college is to prepare students for a commercial or a professional career by solid and complete education which is based upon careful religious training.

The institution is a day school, though accommodations are offered by respectable families in and about Kingston to board such students as are desirous of attending St. George's College and are recommended by the faculty.

Applicants for admission to the college, unless personally known to some member of the faculty, must bring a satisfactory testimonial of good conduct. Those who come from other secondary schools must present a like testimonial from the school authorities.

The tuition fee is £2 per quarter, payable in advance, as follows:—

First quarter payable January 10th, second quarter payable March 20th, third quarter payable May 30th, and fourth quarter payable October 10th.

The organizations at the College include The Debating Society, St. George's College Dramatic Association, The Athletic Association, the Sodality of Our Lady, and the League of the Sacred Heart.

Teaching Staff.

Head Master, Rev. Francis X. Delany, S.J.; *Assistant Masters*, Rev. J. V. Kelly, S.J.; Rev. Francis J. Kelly, S.J.

Teacher of Shorthand, C. A. Warner.

THE CONTINUATION SCHOOL, R.C.

This School was opened on August 30th, 1908, at the junction of Church and Sutton streets, Kingston. It is intended for boys who have completed their fourteenth year and are desirous of continuing their studies. All advanced elementary branches are taught. Book-keeping, Stenography, Drawing, Vocal Music and Elocution and the Principles of Debate may be taken as extra subjects.

The pupils at present number 76.

CONVENT OF THE IMMACULATE CONCEPTION.

THE Sisters of the Third Order of St. Francis established a Boarding School in Kingston in 1858. There are upwards of 40 boarders, and 70 day scholars.

Desiring to give the pupils, who may be committed to their care, an education equal to that enjoyed by the young ladies of Europe, they have adopted the course of instruction pursued in the most celebrated convents of England and France.

The ordinary course of education consists of the English and French languages, Catechism, Geography, History, Arithmetic, Algebra, Book-keeping, Astronomy, Type-Writing, Shorthand, Chronology, plain and ornamental Writing, plain and fancy Needle Work. Wax Flowers and Fruits, Gold and Silk Embroidery, are taught without extra charge.

There is a country residence, belonging to the Convent, two miles from town to which twice a year, the boarders go, with the Sisters, to spend the vacations.

The terms, payable quarterly in advance, are for boarders:—

For board, lodging and education, £10 0s. 0d. per quarter. Vocal and Instrumental Music, Drawing and Painting form extra charges.

For day boarders the terms are £1 10s payable as above.

The Sisters of this Convent have charge of the elementary schools in the Convent, a training college for women teachers and first class elementary schools at Hope Road, North St., Orange St.

The Mother Superioress of the Convent—Mother M. Veronica.

CONVENT OF MERCY, ST. MARY'S ("ALPHA").

HIGH SCHOOL, ORPHANAGE, HOUSE OF MERCY, INDUSTRIAL AND ELEMENTARY SCHOOLS.

THE Convent High School was opened for the benefit of the children of the upper classes. It comprises boarding and day schools in which a high class English education is imparted. If desired, pupils are prepared for the Cambridge Local Examinations and for the Musical Examinations of the Associated Board of the R.A.M. and R.C.M. This school has attained a high standard of excellence, and gained first-class diplomas for art needlework and kindergarten at local exhibitions. In connection with it there is a select preparatory school for little boys. The boarding school, in an admirably healthy situation, with spacious dormitory and beautiful surroundings, offers every advantage and home comfort.

The Orphanage contains at present 45 children. A sound elementary education is given them in addition to a training in such domestic duties as may assist them afterwards in the earning of a livelihood. This branch of the institution receives no manner of government or public support, but is maintained by the Sisters of Mercy.

The House of Mercy is for the protection of young women of good character, irrespective of religious belief. The girls who have been in the industrial school are encouraged to pass on to this part of the institution where the training commenced in the industrial school is continued. The inmates at present number 33. To support them there is a laundry in connection with the House of Mercy.

The boys in the industrial school, whilst being grounded in elementary education, at the same time receive practical instruction in the culture of vegetables, fruits, flowers, etc.

When old enough the boys are apprenticed to trades, so that on leaving the institution they are actually supporting themselves; having been transformed from waifs preying on society into wealth-producing members of the community.

The elementary schools have 877 children on the books. There is a Kindergarten for the little ones, in which the latest methods and appliances are in use. These schools also rank high in the first class.

The Sisters are also in charge of the elementary school known as East Branch, and an elementary school in Spanish Town.

A new school was opened in 1912 on the Windward Road, the number on the books is 125.

In the Industrial Schools there are 114 boys and 55 girls.

DOMINICAN SISTERS OF THE PERPETUAL ROSARY.

This Order was introduced into Jamaica by His Lordship Bishop Collins on October 19th, 1911.

The Sisters conduct a Private Elementary and Continuation School at the Convent at Cavaliers, Kingston.

Mother M. Magdalin—Prioress.

BELMONT ORPHANAGE AND INDUSTRIAL SCHOOL.

(Stony Hill.)

THE Belmont Orphanage was established in November, 1892, as a home and industrial school for orphan and destitute children, and is registered to accommodate twenty-six girls.

The object of the institution is to provide a comfortable, though frugal, home where a number of children, so limited as to be not much larger than a good sized family, may be cared for and trained for the duties of life, chiefly as domestic servants. The orphanage was built, and is partly supported, by voluntary contributions; it receives also the Government grant-in-aid under the Industrial Schools Law. The training provided includes the ordinary branches of household work, cooking, house cleaning, washing and needlework. The children are also taught baking, and the Orphanage supplies a few families with bread. Straw plaiting is also taught, and orders for hats and baskets are executed. The children work a small field, and cure coffee, prepare starch,

arrowroot, coco-nut oil, fruit preserves and cassava-flour chiefly for home use. Those who are old enough attend the day school for three hours a day, doing supplementary book-work at home. They also attend the Sunday school and Church services at St. Jude's. There is a board of visitors for the Orphanage consisting of the Bishop of Jamaica, Canon Wortley, Dr. Turton, Mrs. Nuttall, Mrs. R. H. Jackson, Mrs. Turton and Miss Nuttall. The actual work of the institution is carried on under the general direction of Miss Nuttall, Secretary and Resident Principal, and the Bishop of Jamaica, Treasurer and Manager for the purposes specified by the Industrial Schools Law. Contributions for, or communications respecting, the Orphanage may be sent to Miss Nuttall, Belmont Orphanage, Stony Hill P.O.

SOCIETY OF FRIENDS.

HAPPY GROVE SCHOOL.

HAPPY GROVE School is situated at Happy Grove, Hectors River P. O., Portland. It is under the management of the Society of Friends, (American) and is endorsed by the Educational Department of the Jamaica Government which contributes to its support.

The object of the School is to provide a secondary course of study and training in various industries. There are separate Departments for boys and girls.

GIRLS' DEPARTMENT.

The girls department was opened in 1898. The Academic work of the school corresponds to the course necessary to prepare for the Cambridge Junior examinations. Regular lessons are given in dress-making, laundry work, cooking and general housekeeping.

BOYS' DEPARTMENT.

The boys department was reorganized and reopened in January, 1915. The academic work is identical with that of the girls department. At present instruction is given in cabinet making, carpentry, tailoring and agriculture. Other trades will be added from time to time.

The teaching staff is as follows:—

Headmistress—Miss A. M. Andrews, B. DID.

Headmaster—Rev. W. G. Farr, B.A.

Assistants—Mrs. W. G. Farr, B.A.

M. E. Hoffman, B.A.

H. B. Kangaroo.

Instructor in Agriculture—L. A. Wates, J.P.

Instructor in Tailoring—G. Hoffman.

HAPPY GROVE INDUSTRIAL SCHOOL, (ORPHANAGE FOR EAST INDIANS.)

In September, 1904, Happy Grove Industrial School was certified by the Governor under Laws 34 of 1881 and 13 of 1891 to be an Industrial School for 12 East Indian female children. This school is conducted on the same premises as the girls department of Happy Grove School.

Superintendent and Corresponding Manager—Miss A. M. Andrews, B. DID.

Assistant to Superintendent—Miss M. E. Allen.

CHURCH OF ENGLAND DEACONESS HOME.

(93 Hanover Street, Kingston.)

THIS institution was opened in the year, 1890. Its objects are the providing of a centre for the work of Deaconesses in religious, educational and social efforts, the training of Jamaica women as parochial workers and nurses; and also of some teachers for the schools connected with the Institution. The home is in the charge of Sisters from London. There is a Bureau at the Deaconess Home in connection with the Nurses Union whence

nurses can be obtained for private cases on application to the Directress either personally or by telephone, telegram or letter

In connection with the same Union there are two district nurses working among the poor.

There is a Nursing Hostel at 116 East Street, where private patients are received. They have there the advantage of skilled nursing, and can be attended by their own medical men.

There are nine schools under the superintendence of the Deaconess Home, namely a Boarding and Day School for girls, the preparatory department of which boys under 9 years of age are admitted, at the Deaconess Home, Kingston; a Deaconess Home High School at 95 Hanover Street on the Deaconess Home premises, Kingston; Church Schools for girls and young boys at Richmond and Rockfort, Kingston; and a High School for girls at each of the following places :—Spanish Town; Montego Bay; St. Ann's Bay; Brown's Town, and Oracabessa. Arrangements can be made for boarding pupils attending the above schools on application to the Head Deaconess, Deaconess Home, Kingston, or to the local rector.

The following is the Council of Management of the Deaconess Home :—

His Lordship the Bishop of Jamaica, *Chairman*.

Rev. Canon Wortley.

Mrs. Phillippo.

Mrs. Barclay.

Mrs. Nuttall.

Mrs. A. Douet.

Mrs. Ripley.

Mrs. R. Hill Jackson.

Mrs. J. R. Williams.

Sister Madeline, *Head Deaconess*.

Revd. J. L. Ramson, M.A., *Chaplain*.

Treasurer—I. R. Latreille.

Hon. Secretary—Miss F. C. Burke.

A book stall for the sale of devotional literature, etc., was opened in October, 1906, and is being carried on with increasing success.

The Earthquake of January 14th, 1907, rendered uninhabitable the premises at 93 Hanover St., but they were restored. The house at 23½ Charles St., their temporary residence and the house adjoining are now the home of boarders who are pupils of the Deaconess Home School. In 1914 the property adjoining the Home at 95 Hanover St., was acquired and schoolrooms were built for the accommodation of the Deaconess Home High School. A few boarders are taken there.

Applications concerning any part of the work of the Deaconess Home or the institutions connected with it, may be made to the Head Deaconess, 93 Hanover St., Kingston.

PART IX.

ECCLESIASTICAL AND RELIGIOUS.

THE CHURCH OF ENGLAND IN JAMAICA.

THE early history of the Church of England in Jamaica from its establishment in 1662 under the deputy governorship of Sir Charles Lyttelton up to the year 1866, the time of the inauguration of crown government, has been published in previous numbers of the Jamaica Handbook, and to these the reader is referred for such information as he needs prior to the advent in Jamaica of Sir John Peter Grant.

"Law 30 of 1870," Sir J. P. Grant stated in his Blue Book Report, "regulated the dis-establishment and the gradual disendowment of the Church of England in this Island, and authorized a constitution to be formed for the future government of the Church on the voluntary principle; gave power to Her Majesty, whenever the proper time arrived, to incorporate by charter the duly appointed representatives of the Church Communion, after which incorporation the Governor would have the power to vest in such Corporate Body all Church property." The Law, framed on the Canadian and Irish precedents, also made provision "for the continuance of their stipends to those Clergymen upon the late Establishment who should continue in the due discharge of their ecclesiastical duties as members of the voluntary communion."

A constitution was then drawn up, by which the Church is governed to-day. The government of the Church vested in a synod consisting of a bishop, the clergy and the representatives of the laity chosen by the registered male communicants and by such of the non-communicant members as may declare themselves to belong to no other religious denomination. All representatives to synod are to be themselves communicants. A Diocesan Council consisting of twelve clergymen and twelve laymen, "to advise and assist the Bishop in all matters connected with the administration of the Diocese, not specially committed to the management of the Financial Board" is appointed annually. The Diocesan Financial Board administers such central funds as may be committed to its control, and the revenues of church property, according to such rules as the synod may approve, and consists of the bishop, the archdeacons and commissaries, the members of the corporate body and 12 elected members, one of whom was annually to be chosen by the synod as chairman of such board. The corporate body (or rather the Incorporated Lay Body of the Church of England in Jamaica) holds the property and funds of the Church and exercises all the other rights and duties required of them under the law of disestablishment, and consists of four communicant lay-members of the church to be appointed by the synod.

The management of the parochial or local affairs of the Church is placed in the hands of church committees, elected by those qualified to vote for lay representatives, and to consist of not more than twelve members, two-thirds of whom should be communicants. The clergyman of the church served was given the power of nomination and was made chairman of the committee when in session. Two churchwardens were to be appointed for each church from the elected church committee—one to be chosen by the incumbent, the other by the church committee itself—and their duties were the care of the church buildings, churchyards, and other church property, the allocation of pews and sittings and the preservation of order in the churches.

The Diocese of Jamaica is divided into fourteen Rural Deaneries, which are generally coterminous with the civil parishes of the Island. A Council called "The Parochial Council" is appointed in each deanery, and consists of the clergymen in the parish or deanery and one communicant member of the Committee of each Church. The Councils are principally advisory bodies to the Bishop and central bodies of the Church. The duties of a Parochial Council are to obtain the annual returns required by Synod, and to see that they are forwarded to the Secretary of the Synod, to receive reports

every quarter from all the clergymen in the Deanery or combined Deaderies; to manage the local affairs of the Jamaica Home and Foreign Missionary Society; to enquire into the ecclesiastical condition and wants of the Deanery or Deaneries; the titles and tenure of land or property; the condition or repair of Churches and other buildings, any cases of complaint against a congregation or its clergyman, or any other matter referred to the Parochial Council by the Diocesan Council, or the Diocesan Financial Board.

Bishop Courtenay retired in April, 1879, after a connection of a quarter of a century with the Diocese, and Dr. Tozer, formerly Missionary Bishop of Eastern Africa, was appointed as his successor; but Bishop Tozer, after six months' service, had to retire on account of ill-health. On the 15th July 1880, a Special Synod was held for the election of another bishop. The Rev. Enos Nuttall, B.D., the incumbent of St. George's church, Kingston, was chosen, and was subsequently consecrated in St. Paul's cathedral, London, on 28th October, 1880. Dr. Nuttall returned to the colony on the 20th November, 1880, and immediately assumed his duties as bishop of Jamaica.

In 1893 Bishop Nuttall was elected Primate of the West Indian Province; and under date 3rd May, 1893, the then Lord Bishop of Antigua (as Senior Bishop) duly notified the election to the Bishops of the Province.

At a meeting of the Provincial Synod of the West Indies, held in London in July, 1897, Dr. Nuttall was unanimously chosen to be the first Archbishop of the West Indies.

In the year 1908 the Archbishop of the West Indies received the honorary degrees of D.C.L. and LL.D. from the Universities of Durham and Cambridge, respectively.

At a Special Synod held on the 12th September, 1888, it was unanimously resolved "that the appointment of an Assistant Bishop was necessary to assist the Bishop of Jamaica, in consequence of the growth of the Diocese and the heavy work which its missionary character entails on him." The Synod thereupon proceeded to consider the appointment, and having received a nomination of the Venerable Archdeacon Charles Frederick Douet, M.A., from His Lordship the Bishop, the question as to the confirmation of the nomination was put and unanimously agreed to. Archdeacon Douet proceeded to England and was consecrated a Bishop in Westminster Abbey on the 30th November. He returned to Jamaica on the 29th December, 1888, and retired from the office on the 30th September, 1904.

At the Synod of February, 1905, the matter of the appointment of a successor to Bishop Douet was duly considered, and it was decided to appoint a Co-adjutor Bishop, with right of succession.

The selection of his co-adjutor was entrusted to the Archbishop, and the Rev. Albert Ernest Joscelyne, D.D., Vicar of St. Peter's, Islington, accepted office. He was consecrated Bishop in Westminster Abbey on St. Luke's Day, October 18th, 1905, and arrived in Jamaica on 14th December, 1905. Towards the close of 1912 Bishop Joscelyne resigned office as from the 31st March, 1913.

The Synod of 1913 decided that the Archbishop's Assistant should be Assistant Bishop without right of succession. A special Synod was held on 15th July 1913 to receive the Archbishop's nomination of his assistant, with a view to his election and appointment if the Synod so decided. The result was the unanimous election of the Archbishop's nominee, the Rev. George Frederic Cecil deCarteret, M.A., Vicar of Christ Church, East Greenwich, London. He was consecrated by the Archbishop of Canterbury in Southwark Cathedral on 18th October, and arrived in Jamaica on 7th November.

On 31st May, 1916, Archbishop Nuttall died at Bishop Lodge, Kingston, and Bishop deCarteret administered the Diocese till 10th August, 1916, when at a special synod of the Diocese he was unanimously elected Bishop of Jamaica; and the election was also unanimously confirmed by the other Bishops of the Province of the West Indies.

According to the latest printed returns (with omissions supplied and mistakes corrected) there are about 41,000 registered communicants of the Church of England in Jamaica. This figure, however, does not include the large number of adherents of the church who, though they are nominally members and attend the services, have not been enrolled as full members taking an active share in the work and responsibilities of the church.

At the Census in 1911 236,478 persons returned themselves as belonging to the Church of England.

In regard to the finances of the church for 1915 it may be stated that the receipts of money for all purposes paid into the credit of the Diocesan Church Fund for that year amounted to £28,541.

The Expenditure for Episcopal Supervision was £1,392 13s. 4d.

The Diocesan Expenses Fund shows an expenditure of £1,750 15s. 0d. This fund has no endowment and the whole expenditure has to be met by assessments on the churches. It should, however, be borne in mind that this fund contributed £100 to the Clergy Pension Fund and £48 0s. 0d. to a Special Clergy Pension Fund; £50 15s. 0d. for removal expenses of Clergy and £100 for Episcopal Travelling allowance. The staff connected with the office—including Secretaries to the Synod, Diocesan Council, Diocesan Financial Board and Diocesan Education Board, the Accountant, two Clerks, and the Auditor—costs £941 0s. 9d. The contribution from this fund to the "Jamaica Churchman" is £20. The other items of expenditure in this account comprise Law account, Printing, Postages, Stationery, Rent, Furniture, Books and Contingencies, &c.

The grants from the General Sustentation Fund to the poor churches amounted in 1915 o £741 5s. 8d.

Some portion of the money expended consists of grants made by societies in England which now pass through the books of the Diocesan Financial Board, the appropriation of some of which is regulated by the bishop of the diocese.

The great bulk of the expenditure goes to meet the salaries of the clergy and catechists, and may roughly be stated at £12,529.

The capital funds of the church on 31st December, 1915, consisted of £44,050 in debentures, Jamaica Local Inscribed Stock £31,410, and Colonial Bishoprics Fund, £2,600. Total £78,060.

THE CHURCH OF SCOTLAND.

THE Church of Scotland in Jamaica has twelve churches, four clergymen, one paid and two unpaid lay missionaries and 3,000 to 3,400 communicants, ten day schools, ten Sunday Schools with scholars to the number of 1,200 and upwards. Its adherents are over 8,000.

The General Assembly of the Church, which met at Edinburgh in May, 1890, gave its sanction and approval to the formation of a Presbytery, the members of which shall be the ordained Ministers of the Church labouring in Jamaica and in the Island of Grenada, along with a representative Elder from each Kirk Session.

There is one church in Kingston, and there are eleven others situated in the parishes of Manchester and St. Elizabeth.

The Scotch Church in Kingston was opened for service in the year 1819. It cost over £12,000 sterling in its erection. It was ruined by the earthquake; but was restored in 1910 at a cost of over £2,000. An organ built by Messrs. Butt of London, England, was installed at a cost of £1,000.

There is a Young Men's Guild in connection with the church. It meets from October to July on every alternate Tuesday evening at 7.30. It is affiliated with the Guild in Scotland. Any young man coming to Jamaica from Scotland should bring his letters of connection with him. There is a gymnasium and reading room in connection with the guild. There is also a Woman's Guild which meets during the same months on the first Monday at 5 o'clock of each month. It, too, is affiliated with the Woman's Guild of Scotland.

PRESBYTERY: Rev. W. Graham is Moderator. W. Morrison, Solicitor, Kingston, Clerk.

The value of buildings and other property belonging to the Church of Scotland in Manchester and St. Elizabeth is about £5,000.

ROMAN CATHOLIC CHURCH.

THE Roman Catholic population of Jamaica numbers about 31,760 souls, of whom 17,000 are residents of Kingston.

Their principal church is the Cathedral of Holy Trinity. It is situated at the eastern end of North Street. St. Anne's, in Oxford Street, forms a large parish.

Throughout Jamaica there are 69 churches, chapels or stations served by the Fathers from Kingston or by pastors resident in the outlying districts.

There are 46 Catholic schools in the island.

JAMAICA BAPTIST MISSION.

THE published report of the Jamaica Baptist Union for 1915 shews that there are 215 churches connected with it, 199 in Jamaica and 16 in the Cayman Islands and Central America. In these churches there are 33,160 members and 3,271 inquirers. There are 1,025 members in the churches abroad. The Chapel accommodation provided is sufficient for about 84,000 persons. There are many very commodious and substantial places of worship belonging to the Baptists in the island, such as at East Queen Street, Kingston, Spanish Town, Porus, Salter's Hill, Annotto Bay, Lucea, Montego Bay, Mount Carey, Bethel Town, Falmouth, St. Ann's Bay, Brown's Town, Jericho, and many others. In 1914 the churches contributed £2,200 for building purposes. The congregations support their own pastors without extraneous aid.

The figures given above relate only to the churches included in the Jamaica Baptist Union. There are numerous Baptist churches in the island which do not belong to the Union.

The Officers of the Union for 1917, are

Chairman—Rev. A. G. Eccleston.

Vice Chairman—Rev. A. G. Kirkham.

Secretary—Rev. P. Williams, Bethel Town.

There are several important Denominational Institutions connected with the Baptist Body in Jamaica.

1. *Calabar College*, for the education of Ministers.

2. *The Jamaica Baptist Missionary Society*.—Secretary, Rev. A. G. Kirkham, Petersfield P.O. This society was founded, on its present basis, in 1855, and its objects are thus set forth: To provide for the spiritual destitution of various parts of the island—to support the Calabar Institution—to assist Sunday schools—to send the Gospel to Africa, Central America and the islands by which we are surrounded, and to aid churches in the Jamaica Baptist Union in their building operations.

The income for 1915 was £1,495 14s. 0d. and there are at present 4 foreign and 2 home missionaries, connected with the society. The foreign missionaries are labouring in the Cayman Islands, Bocas-del Toro and Hayti.

3. *The Sunday School Society*.—Secretary, Rev. W. Head, Cave Valley P.O.

This Society exists to encourage and stimulate the Churches in their Sunday School efforts. There are about 2,028 Teachers and 24,015 scholars in the Sunday Schools.

The following are the recognized Baptist Ministers who reside in the Island, with their postal addresses:—

PRESBYTERIAN CHURCH OF JAMAICA.

The Presbyterian Church of Jamaica dates from 1823. In that year the Scottish Missionary Society (which, in 1796, was formed by Presbyterians of various sections in Edinburgh) received a request from several proprietors of Estates in Jamaica to send out a minister to instruct their slaves.

In 1847 the Scottish Missionary Society handed over all its church buildings and congregations to the care of the Synod of the United Presbyterian Church, and these, together with the others since gathered or added, in all now sixty-nine, form the Presbyterian Church of Jamaica. They are scattered over ten of the parishes of the island. Besides what are counted regularly organized congregations there are eighteen out-stations where meetings are conducted for the worship of God and religious instruction.

In 1900 the United Presbyterian and the Free Church in Scotland were united to form the United Free Church of Scotland with which the Presbyterian Church of Jamaica is connected.

The Synod of 1894 resolved to establish a mission to the East Indian immigrants in the island. In September of that year East Indian converts who had been trained as Catechists in Trinidad by the mission of the Presbyterian Church of Canada arrived and the mission was commenced. There are now five Catechists at work, all of whom have been trained in Jamaica.

Some schools have been established for the education of East Indian Children. This mission is superintended by the Rev. J. F. Gartshore, M.A.

The official organ of the Synod is "The Presbyterian," a monthly religious periodical edited by the Rev. J. F. Gartshore, M.A., St. Paul's Manse, 128 Duke St., Kingston.

In 1884 the Presbyterian Incorporating and Vesting Law was passed by which all the mission property is held in trust. The Corporation are, Rev. R. Johnston, M.A., B.D., Rev. G. McNeill, *Chairman*, Adam Roxburgh, Rev. A. W. Ross, Rev. H. H. Hamilton, Rev. D. A. Rothnie, M.A., and T. L. Roxburgh, C.M.G.

General Board:—Rev. A. W. Ross, *Chairman*; Adam Roxburgh, *Ex-officio*; South-Eastern Presbytery, Revs. J. F. Gartshore, M.A., and R. E. Philips North-Eastern Presbytery, Revs. H. H. Hamilton and A. A. Barclay Western Presbytery, Revs. I. A. Dell and T. Rodpath; Northern Presbytery, Revs. T. B. Prentice and G. S. Grey; Southern Presbytery; Revs. J. W. Grant and Q. R. Noble; Grand Cayman Presbytery, Revs. J. S. Blackman and R. Johnson, M.A. B.D.

The General Board meets three times a year—in August, January, and after Synod. It has the oversight of the Mission work of the church, and deals with the questions of finance and education.

CONSTITUTION.—Each congregation is under the government of a "Session of Elders" chosen by the communicants, at whose meetings the Minister presides. From any decision of the Session there is an appeal to the Presbytery of the district, which consists of the ministers and an elder from each of the charges; and from their decision there is an appeal to the Synod, which meets once a year, and consists of all the ministers and an elder from each charge, presided over by a Moderator elected annually. There are six Presbyteries, North-eastern, South-eastern, Northern, Western, Southern, and Grand Cayman and in these the elders and ministers all vote as one order. The same is the rule of voting in the Synod.

STATISTICS: PERSONAL AND FINANCIAL.—On the roll of the Synod there are 69 congregations, 20 outstations, and 33 ordained ministers, of whom 14 have been sent by the Mother Church, and 19 are natives of the island. There are 27 Catechists, 5 East Indian Catechists and 411 ruling elders in the various congregations. The communicants at 31st December, 1915, numbered 11,968; the candidates, 1,171; Sunday Schools, 106; Sabbath classes, 885; adults in these classes 2,169; children 8,922; Teachers, 907; Day Schools 60; Scholars on Roll, 7,625; Average Attendance, 4,602; money given for all purposes, £7,749 19s. 0d. For Ministers' Stipends £3,748 10s. 7d.

There is Church accommodation for nearly 20,000 persons.

The Moderator for the year 1916 is the Rev. T. H. Grant.

The Clerk of the Synod is the Rev. D. A. Rothnie, M.A., Lucea P.O.

CONGREGATIONAL UNION.

THESE Churches were founded by the London Missionary Society, which commenced its operations in Jamaica in 1834.

When the Society relinquished its responsibility for the maintenance of its churches in the island, the Congregational or Independent form of church government was adopted; and, in 1876, the Congregational Union of Jamaica was formed.

In connection with this Union there are 30 churches, and a number of out-stations and cottage meeting houses. The principal preaching stations are given below.

There are 8 ordained ministers, 2 Lay Pastors, 3,422 church members (communicants), and 308 candidates and inquirers. In connection with the Sabbath schools there are 42 schools, 223 teachers, and 3,367 scholars.

The educational work of the churches is represented by 26 public day schools, in which there are 3,000 children, with an average attendance of about 1,950.

The Secretary of the Union is Rev. Wm. Priestnal, Kingston.

The following table gives particulars as to the names of the Congregational ministers and the stations in which they labour.

THE WESLEYAN METHODIST CHURCH IN JAMAICA.

The Wesleyan Methodist Church in the West Indies results from the labours of the Wesleyan Methodist Missionary Society. Its history in Jamaica dates from 1789.

The Churches in the West Indies are grouped into five Districts under the care and control of the Wesleyan Methodist Missionary Society.

The Jamaica District, which includes missions in the Republics of Panama and Costa Rica, numbers about 21,000 full and accredited members, 14,500 Sunday School Scholars, 42 Ministers and Preachers on trial, 412 Lay Preachers and 1,800 Class Leaders.

FOREIGN MISSIONS.

The Methodist Connexion in Jamaica commenced the work of Foreign Missions in 1888, by sending its first missionary to the Isthmus of Panama, whose mission is to the Spanish-speaking population as well as the English-speaking people on the Isthmus. There are now other stations, and resident missionaries are living in Colon, Costa Rica and Bocas Del Toro.

Rev. J. H. Cartwright is Chairman of the District and General Superintendent. Rev. J. Kissock Braham, B.D., is the Secretary. The Synod meets annually in Jamaica.

STATISTICS FOR THE JAMAICA DISTRICT.

Chapels	138	Attendants at public worship,

UNITED METHODIST FREE CHURCHES.

THE United Methodist Free Churches were formed in 1857—by the union in England of two previously existing bodies—the Wesleyan Methodist Association, dating from 1835, and the Wesleyan Reformers, dating from 1849, both of which bodies were branches from the Wesleyan Methodist Church.

The Jamaica mission consisting of nine groups of churches, comprising 44 individual churches and mission stations, is under the jurisdiction of the Jamaica District meeting which has power to make arrangements for carrying on the work.

Each church conducts its internal affairs for itself, subject to the provisions of the foundation deed of the church and the laws passed by the Jamaica District meeting.

The Annual District meeting is held in Kingston the third week of January in each year.

All the churches have the privilege of sending representatives to this meeting.

The church property in this island is settled by an act of incorporation, Law 25 of 1895, on a Board of Trustees consisting of all the Superintendents of circuits in Jamaica and an equal number of laymen to be appointed by the Jamaica District meeting.

The following is a list of stations and ministers for 1915:— (Later information has not been received.)

Rev. G. L. Young, Bartons P.O., *District Chairman*.

Rev. G. A. Miller, Claremont P.O., *District Secretary*.

THE CHRISTIAN CHURCH.

"The Christian Church" or "The Church of the Disciples of Christ" represents in Jamaica a religious movement which was commenced in America in the year 1809, having for its object the union of all Christians on the ground of New Testament teaching alone. At the present time it numbers in the United States about 18,000 congregations, 10,000

ministers and 1,600,000 members. There are about 450 missionaries in the foreign field, and the church sustains 40 Universities, Colleges and Schools.

There are now in Jamaica, twenty-six churches, grouped in ten districts, and constituting "The Jamaica Association of Christian Churches."

MORAVIAN CHURCH.

THE Protestant Episcopal Church of the Unitas Fratrum, or United Brethren (commonly and now officially styled The Moravian Church, from the fact, that the original seats were in Bohemia and Moravia), commenced its labours in Jamaica as far back as 1754.

The number of communicants at the close of 1915 was 6,562, with a total membership of 13,731. There were 58 schools with an average attendance of 8,412. Of these schools 26 are first-class, 25 second class and 7 third. The latest census gives the number of professed adherents as 30,000.

The Church for many years maintained two training colleges, one for males at Fairfield the other for women at Bethlehem. Within recent years these colleges have received Government aid. The Fairfield College was begun in 1839, under the direction of the Rev. Mr. Holland, and was successfully carried on till 1899, when, owing to the enlargement of the Mico Training College and the subsequent withdrawal of aid by the Government from voluntary colleges for training male teachers, it was closed.

The Training College for women was begun at Bethabara in 1861. It was temporarily removed to Salem in Westmoreland in 1888; but has now been established in commodious buildings at Bethlehem, in the Santa Cruz Mountains. The teaching staff consists of the Rev. S. C. Ashton, Director; with three resident instructresses.

The Church in Jamaica is governed by the Synod which meets, as a rule, once in 3 years. The Church is directed, between Synod, by its Executive, the Provincial Elders' Conference, the members of which are Rev. J. Reinke (Chairman), the Rev. F. P. Wilde, and the Rev. S. C. Ashton. The Right Rev. Bishop Westphal. B.D., is the Bishop in the Jamaica Province.

THE SALVATION ARMY.

KINGSTON, JAMAICA, is the Headquarters for the Salvation Army throughout the British West India islands, Panama, Costa Rica and British Guiana. The Offices of administration are at 96 Orange Street, Kingston.

The chief officers of the Salvation Army are Colonel and Mrs. Bullard, resident in Kingston. The officers in charge of the Jamaica Division are Brigadier and Mrs. Souter. The official organ of the Army for the West Indies The "War Cry," is published in Kingston, and has a circulation of 5,000 copies.

There are branches of work in the following towns and districts outside of Kingston namely:—

Spanish Town, Port Antonio, Montego Bay, Buff Bay, Louisiana, Annotto Bay, Port Maria, St. Ann's Bay, Moneague, Dunsville, Black River, Southfield, Bluefields, Caledonia, Savanna-la-Mar, Logwoods, Haddo, Linstead and other places.

In Kingston there are Halls at Jones' Pen, 18 Prince of Wales Street, Allman Town, and the Central Hall and Training College, and Officers residence at 96 Orange Street.

The *Young Women's Industrial Home* is at 153½ Orange Street. This Institution receives orphans, and also young children and young girls from questionable or inconvenient surroundings, and teaches them domestic and womanly arts. The Home is supported by voluntary contributions, and by any profits accruing from work performed by the inmates. Correspondence referring to the Home should be addressed to Mrs. Colonel Bullard.

The *Men's Metropole* is in Peter's Lane. Cheap lodgings are provided at this Institution for men only, and cases of distress are there dealt with.

There are 50 Officers working in Jamaica.

Brigadier Geo. Souter and Major Walter Shaw, are appointed Marriage Officers for the Salvation Army in Jamaica.

THE AFRICAN METHODIST EPISCOPAL CHURCH.

Allen Temple, 75 Beeston Street.

The African Methodist Episcopal Church Connection was established in Philadelphia Pa., U.S.A., in November, 1787. The Jamaica Branch was organized in August, 1914, by the Rev. Alfonso Dumar, B.D., Superintendent of Missions with four ordained Ministers and 696 members. Present membership, 2,000 and 6 ordained ministers.

SEVENTH DAY ADVENTISTS

THE first Seventh-day Adventist Church in Jamaica was organized in Kingston January 12, 1894. Their meetings were at first conducted in a private house, later a property was secured at 32 Text Lane and a building erected. This building was destroyed by the earthquake in 1907. A lot on the corner of North and James Street was purchased and a suitable building constructed.

At the present time they have forty-six organized churches and thirty-two companies, with a membership of about two thousand. They employ eight ordained ministers, two licensed ministers. Sixty-six Sabbath schools have been organized with a membership of two thousand three hundred. They also conduct three day schools. The officers of the Jamaica Conference are as follows:—

E. C. Boger, *President*.

Charles Degering, *Secretary and Treasurer*.

Executive Committee—Pastors E. C. Boger, W. M. Crothers, W. H. Randle, C. H.

Keslake, Charles Degering, W. F. Burkley, and C. C. McCatty,

Headquarters for the Conference and Tract Society, 124 Manchester Square, Kingston, Jamaica.

JEWISH CONGREGATIONS.

THE Spanish and Portuguese Synagogue, situated in Princess Street, Kingston, was, with all its appurtenances, with the exception of one register book of Births, Marriages and Deaths, entirely consumed by the fire of December, 1882.

The English and German Synagogue in Orange Street met, likewise, with a similar fate on the same occasion; its paraphernalia, however, was saved through the promptitude of the late Mr. H. A. Joseph.

Soon after the eventful conflagration, a complete union of the entire Jewish Community was contemplated, but owing to some difficulties which arose with regard to the Ritual, a good number of the members of the Spanish and Portuguese Congregation under the leadership of the late Mr. David Martin, withdrew from the movement and erected a small but handsome Synagogue in East Street which was consecrated on the 3rd of September, 1884.

A very small number of the members of the English and German Congregation also withdrew from the proposed union, but owing to want of means, their Synagogue remained in ruins until 1893 when it was re-built and consecrated on the 23rd of September, 1894.

The majority of both congregations, however, united themselves under the designation of "The Amalgamated Congregation of Israelites," and raised funds for the erection of a synagogue in the upper part of Duke Street, the site being purchased for £800. The foundation stone was laid in August, 1885, and the consecration of a fine brick building took place on the 19th July, 1888.

Thus instead of one united congregation, as was contemplated, there were three which continued separate until the 28th of December, 1900 when the Amalgamated and Spanish and Portuguese congregations, united and worshipped under one roof.

In the earthquake of the 14th January, 1907, besides the walls of the Jewish Burial Grounds being thrown down, the "Jewish Home" and the three Synagogues were wrecked, but through the energy of Mr. Arthur S. Finzi and the late Mr. Aaron M. Sollas, the President and Treasurer, respectively, the little Synagogue in East Street, was again erected and consecrated on Friday evening the 22nd March, 1907, the eve of *Shabat Agadol*.

This little Synagogue bears the proud record of being the first place of worship re-erected in Kingston and St. Andrew, after the catastrophe.

The members of the English and German Congregation having since sold the ground in Orange Street, on which their old Synagogue stood and having purchased a plot of land in Hanover Street, erected a Synagogue thereon, which was consecrated on the 20th April, 1910.

The re-building of the Synagogue of the United Congregation of Israelites, having been completed, was dedicated on the 28th March, 1912. Service is now held in this Synagogue, instead of the one in East Street.

PART X.

PAROCHIAL INFORMATION.

THE PARISHES.

GENERAL HISTORY.

IN HICKERINGILL'S "Jamaica View'd" published in the year 1661, appears what is probably the oldest English map of the island. With the exception of Guanaboa, The Seven Plantations, The Angels and St. Jago de la Vega, only towns on the sea-board are mentioned in it, and there is no attempt to divide the island into parishes.

In a census taken on 1632 (cf. Bridges's "Annals" I 427) the Island was divided into ten districts as follows:—the Precincts of Port Moranto; Morant; Yealoth; and Legene; the town of Saint Angelo Delvega [St. Jago de la Vega]; Between Black River, Bowen-Savanna and thereabouts; In the Angels Quarter; In the Seven Plantations, Macaria, Quathebeca; In the Quarters Quanaboa and Quarcelona; and Upon Point Cagway.

Sir Thomas Modyford, in his "View of the condition of Jamaica, the 1st of October 1664," reprinted in the appendix to the first volume of the "Journals of the House of Assembly" (Spanish Town, 1811), says "there is in the said island but seven established parishes: *videlicet*, the town and parish of St. Katherine's, St. John's, the town and parish of Port Royal, Clarendon, St. David's, St. Andrew's, and St. Thomas, which are very large, and in them all but one church, that at St. Katherine's."

The parish of St. David was part of the precinct of St. Thomas-in-the-East, and St. George was part of the precinct of St. Mary.

As a result of the survey ordered by Sir Thomas Modyford, and made by "Serjeant-Major John Man, Surveyor-General for His Majesty," who calculated that the island comprised seven millions of acres, a map was prepared by Man and copied by "Mr. Innians, the surveyor," and published in the Blome's "Description of the island of Jamaica" in 1671. There are included on this map in addition to two unnamed precincts occupying approximately the positions of the present Hanover and Manchester: the precincts of St. Catherine, St. Andrew, Port Royal, St. David, St. Thomas, St. George, St. Mary, St. John, St. Ann, St. James, St. Elizabeth and Clarendon.

In the year 1673, Vere was formed by cutting off a portion of Clarendon but it still remained part of the precinct of Clarendon; and in 1675 when an act was passed for dividing his Majesty's Island of Jamaica into several parishes and precincts, St. Thomas-in-the-Vale was taken from St. Catherine; and Clarendon lost another piece out of which was formed St. Dorothy, which parish became part of the precinct of St. Catherine.

In "The State of Jamaica under Sir Thomas Lynch. His Majesty's present Captain General and Chief Governour, September 20th 1683," prefixed to the "Laws of Jamaica." (London 1684), it states "since that time (1661) it has been divided into Fifteen Parishes and they into eight Provinces or Precincts."

The first act on record having reference to the parishes of the island was read on the 11th May, 1675, by the Council, and sent to the Assembly with this amendment, that the Magotty be annexed to the sixteen-mile-walk, but continue still to pay all parochial duties to St. John's except to the repairing of the highways, until a church be built and a parish settled in the parish of St. Thomas-in-the-Vale (Journals of Assembly I. 9). A law was passed in 1677. The law itself had not been preserved, but it is recited in a law passed in 1681 (33 Car. 2) "An Act for the maintenance of Ministers and the Poor, and erecting and repairing of churches." ("The laws of Jamaica," London 1684): "and whereas this island, in the twenty-ninth year of His Majesty's reign, by an Act of this Country, was divided into fifteen parishes, which were called, distinguished and known, by the several names hereafter mentioned, that is to say, *St. Thomas, St. David's, Port Royal, St. Andrews, St. Katherine's, St. Dorothy's, St. Thomas in the Valley, Clarendon, Vere, St. Johns, St. Georges, St. Maris, St. Anns, St. James and St. Elizabeths*; Be it therefore enacted and ordained by the Authority aforesaid, That all and every of the said Parishes rest remain and for ever hereafter be distinguished and known by the afore-

said respective Names, and by no other whatsoever, anything in this or any other Law to the contrary notwithstanding."

In 1692, on the destruction of the greater part of Port Royal by earthquake, most of the inhabitants that survived settled in hastily erected buildings in St. Andrew, on the harbour, and in the following year the parish of Kingston was formed.

In 1703, Westmoreland was formed out of a portion of St. Elizabeth. In 1723, Portland was formed, the land being taken partly from St. Thomas-in-the-East, and partly from St. George (by 10 Geo. I.); and Hanover was formed out of part of Westmoreland. In 1739 (12 Geo. II. ch. 6) parts of the Carpenters Mountains, heretofore esteemed part of St. Elizabeth and Clarendon, were transferred to Vere.

In 1758, the three counties of Surrey, Middlesex and Cornwall were created (by 31 Geo. II. ch. 15.) with a view to the more convenient holding of courts of justice. Kingston was declared the county town of Surrey; St. Jago de la Vega, that of Middlesex; and Savanna-la-Mar that of Cornwall. In the first named were the seven parishes of Port Royal, Kingston, St. Andrew, St. David, Portland, St. George and St. Thomas-in-the-East; Middlesex comprised St. Catherine, St. John, St. Thomas-in-the-Vale, St. Dorothy, Clarendon, Vere, St. Ann, and St. Mary; while Cornwall had but four parishes. St. Elizabeth, Westmoreland, Hanover, and St. James. The next change was in 1770 when Trelawny was formed out of a portion of St. James.

In 1814 Manchester was created by taking parts from Clarendon, Vere and St. Elizabeth, thus transferring a portion of Cornwall to Middlesex.

In 1809 a law was passed (50 Geo. III.) for fixing the boundaries of the several Counties and Parishes of this Island by which the extent and boundaries of the said several and respective Counties and Parishes of this Island, as laid down and delineated in the three maps of the representative counties and the general map of this Island, made and published by James Robertson, were taken as the bounds of the counties and parishes, and printed copies of the maps were recognized as evidence in all Courts of Justice in the Island of the boundaries of the said several counties and parishes.

In 1831, McGeachy and Smith, surveyors, proposed to publish by subscription maps of the three counties at £20 a piece. They received the names of eighty-six subscribers but the maps were never published. (*St. Jago Gazette*, Feb. 12, 1831.)

In 1841, the last parish to be created in the history of Jamaica, Metcalfe, was formed out of the parishes of St. Mary and St. George, whereby Middlesex again gained land this time at the expense of Surrey. The parishes then numbered 22. In 1844, an Act, (8 Vic. c. 39) was passed defining the boundaries of Kingston harbour.

In 1867, was passed the law for the reduction of the number of parishes. In Surrey, Kingston was increased by taking part of St. Andrew, a part of the parish and the whole town of Port Royal. St. Andrew took the remaining part of Port Royal parish; and St. David was merged into St. Thomas-in-the-East, and St. George into Portland, which also took the Manchieneal district of St. Thomas-in-the-East.

In Middlesex the recently created parish of Metcalfe was merged again into the parish of St. Mary. St. Thomas-in-the-Vale, St. John and St. Dorothy were all merged into St. Catherine, and Vere again became part of Clarendon; St. Ann and Manchester remaining as they were. In Cornwall there was no alteration, the five parishes remaining as they were.

In 1900 Port Royal was made a separate parish for municipal purposes, remaining still part of the electoral district of Kingston.

KINGSTON.

Topography.—Kingston is the capital of the island of Jamaica and is the largest and most important commercial town in the British West Indies. It covers, with its suburbs an area of about 1,080 acres, and is beautifully situated on regularly sloping ground (of about 90 feet per mile) on the northern shores of the harbour bearing its name.

The streets, at right angles to the sea were originally laid out by compass north and south; those parallel to the general run of the shore line, east and west; but, in consequence of the variation of the compass, the north and south streets now have a bearing of north two degrees east, and the east and west street bear north-west and south-east eighty-eight degrees. In consequence of former neglect, in permitting flood waters to flow down the north and south streets, they are now so worn as to be much below the general level.

King Street, running north and south, was originally the centre of the town and laid out at 66 feet wide; Queen Street, also 66 feet wide, was the centre running east and west,

but, in consequence of the town having been extended northerly and easterly, these streets do not now form the centres of the town. At the intersections of King and Queen streets a plaza or parade ground was reserved, forming a square of ten acres in the centre of the town. This was formerly used as a market place and parade ground for the troops and militia, but the central portion is now enclosed and converted into a garden, which adds much to the appearance of the town and to the comfort and enjoyment of the inhabitants.

The soil is a gravel bed formed by the detritus of centuries, produced by the Hope river and other smaller streams from the Liguanea mountains. It may here be mentioned that the ancient course of the Hope river (which now discharges at the back of the Long Mountain, six miles to the east of Kingston) is distinctly traceable through Papine and Mona and near the Hope Road and down to the sea about a mile-and-a-half to the east of Kingston.

On account of the gravelly nature of the soil on which Kingston stands surplus water readily sinks and finds its way to the sea; it, therefore, has little opportunity of creating malarial conditions.

Kingston was originally supplied with water by wells, most of which, in consequence of the gravelly nature of the soil, had to reach the sea level before water was obtained. About the year 1848 a private company brought down water from the Hope River for the supply of the city. The government purchased the entire plant from the company and have very much improved the supply, not only by building reservoirs and filter beds and furnishing a larger quantity of water, but by extending the supply to districts formerly destitute of water. The pressure in the lower part of the town is sufficient, in cases of fire, to throw the water to the top of the highest houses. A further supply of water was obtained from the Wag Water, a river which flows to the northside of the island. This water is brought by a tunnel, of ancient construction through the main ridge of the island. The rights of Constant Spring and Temple Hall estates to this water have been purchased by the Government, as has the Mona Estates with its water rights. This further supply of water largely augmented the delivery; but the increase of population, particularly in the suburbs, rendered it necessary to seek additional sources of supply, and these were obtained by purchase of the water rights of the Ferry River, about seven miles to the west of the city.

History.—The site of Kingston was not the first chosen by the English for the commercial capital of the island. Port Royal flourished as such until 1692, in which year occurred the great earthquake which destroyed that place and caused the death of 3 000 of its inhabitants. That dealt it a fearful blow. Many people remained there but most of the survivors removed to the lower part of Liguanea in St. Andrew, then the property of Sir William Beeston, Lieut.-Governor of the Island. They procured for their settlement the status of a town, a plan for which was drawn up by Colonel Christian Lilly, under the direction of the Government, the name selected being Kingston. There was not at first much progress in its settlement, the recollection of the former wealth and greatness of Port Royal giving the colonists a continued preference for that place; but the fire of 1703 completely destroyed the favourite town, and the disheartened inhabitants went in large numbers to Kingston, which the Assembly caused to be divided into lots and given to those who had lost their houses. A law was also passed directing the slave owners in the parish of St. Andrew to send one out of every twenty of their slaves to build temporary huts for the refugees, and, as an encouragement for the early settlement of the new town, every house built within the year (1703) was exempted from taxes for seven years. Soon after this another law was passed declaring Kingston to be "the chief seat of trade and head port of entry" of the island.

From this time the prosperity of the town was assured, and in the year 1713 it was declared by law that the place should "for ever be taken and esteemed as an entire and distinct parish, with all the powers of any other parish," and, further, that it should have the right of sending three Representatives to the Assembly."

So rapidly had the town grown that in 1716 it was thus described by a historian of the time:—

"Within the harbour and about six miles from the town of Port Royal lies the town of Kingston, first laid out and partially settled after the great earthquake. * * * It is now become greatly increased in houses, stores, wharves and other conveniences for trade and business, so that it is by much the largest town in the island; and if the island shall increase in people and new settlements (the consequences of trade and riches) it is likely to be much the fairest town in all the Indies for 'tis most commodiously laid out, happily and beautifully situated, has many spacious houses in it, and more are daily building, is the residence of the greatest merchants and traders, and has resorting to it most of

the ships or vessels that come to the island, and in it is managed the greatest part of the trade of Jamaica."

In 1721 an Act was passed empowering the inhabitants to erect a Court House and Exchange: and for nearly half a century the town continued to grow in size and opulence and so important had it become in 1755 that the attempt was then made to constitute it the seat of government. The Governor (Admiral Knowles) twice proposed and the Assembly twice rejected a bill for that purpose, but at length the Assembly gave way and a law was passed giving effect to the arrangement. Soon after the public archives were removed to Kingston and the superior courts were established there. But the change was unpopular throughout the island and numerous petitions against it were sent to the King. On the 3rd October, 1758, (after Knowles had left) the disallowance of the law was proclaimed and the records were returned to Spanish Town, escorted by "a considerable body of military."

In 1780 the town was severely stricken by a great fire which broke out at about 2 o'clock in the morning of the 16th May and continued until the following evening. The large and closely built portion of the town lying between King and Orange Streets was burnt down, the destruction of property being estimated at £30,000. But the town soon recovered from the effects of the conflagration and prospered to such an extent that in 1802 it was granted a Corporation under the style of "The Mayor, Aldermen and Common Council of the City and Parish of Kingston." The Court of Common Council was given a seal and empowered to make and ordain by-laws, ordinances and regulations for the good order of the city, not repugnant to prerogative or to the laws of the island. The following is a description of the city seal: On the obverse the island arms, crest, supporters and mottoes. Legend. *Sigi Commune Civit: Kingston in Jamaica* Reverse, Britannia in the dress of Minerva, holding a trident in one hand, and in the other a mirror, reflecting the rays of the benign influence of Heaven on the produce of the Island; behind her the British Lion, supporting her shield, a conch shell at her feet, and at a distance a ship under sail. Legend. *Hos fovet, hos curat, servatque, Britannia Mater.*

In 1843 another great fire devastated a large portion of the city. It began shortly before 10 a.m. on the 26th of August in a foundry situated at the east end of Harbour street and extended diagonally across the city until it reached the old Roman Catholic Chapel at the corner of Duke Street. Many of the best dwellings and much valuable property were consumed and a large number of persons were left in utter destitution. The sum of £10,149 16s. 2d. was distributed among the sufferers, of which £5,000 was voted by the House of Assembly. At this period a great deal of the foreign trade of Kingston had disappeared in consequence of the establishing of direct steam communication between the European and Spanish American States; still Kingston continued an important centre of commerce.

In March, 1862, another great fire occurred by which the commercial division of the city was devastated. Nineteen of the principal stores in Harbour and Port Royal streets, three wharves, and the extensive and well built three storied house in which the Commercial Hotel was kept, were burnt down at a loss of £30,000. The value of the merchandise, furniture, &c., destroyed was estimated at £60,830, making a total of £90,830. Of this £9,400 was covered by insurances, leaving £81,530 as the total loss to the owners of the premises and stock.

Three years afterwards Representative Government was abandoned in Jamaica, and Kingston ceased to be a corporate city. All the powers and immunities of the Common Council were transferred to a nominated Municipal Board created by Law 8 of 1866, the privilege of making ordinances for the regulation of the city being transferred to the Governor in Privy Council. Since 1885, its affairs have been administered by a Mayor and City Council, elected every three years, similar to the parochial boards of the other parishes.

For many years it had become evident that the convenience of the Government and of the general public would be best served by a transfer of the seat of government from Spanish Town, and in 1872 Sir John Grant, with the approval of the Secretary of State for the Colonies, gave effect to the change. The chief courts of law had been removed a few years before, as well as the offices of some departments of government and the transfer of the Governor's permanent residence and of the Colonial Secretariat alone remained to be effected. Room for this department was provided in the spacious premises known as Head Quarters House (the official residence of the Officer in Command of the Troops) which was purchased for £5,000, whilst Bishop's Lodge, (the former residence of the Bishops of Jamaica situated in the Liguanea plain, was also purchased for conversion into a Government House. The Legislative Council was thereafter con-

vened in Kingston and a Chamber for its deliberations found in the large hall of the ground floor of Head-Quarters House.

A calamitous fire occurred in Kingston on the 11th December, 1882, by which a large section of the business portion of the city was destroyed. The total number of houses entirely destroyed was five hundred and seventy-seven, whilst twelve were partially destroyed. These places were inhabited by about six thousand persons. The total loss of house property was estimated at between £150,000 and £220,000. The number of houses totally destroyed in the several streets and lanes reached by the fire was as follows: Barry Street, 36; Church Street, 26; Duke Street, 2; Harbour Street, 55; King Street, 30; Little Port Royal Street, 3; Orange Street, 69; Port Royal Street 55; Princess Street 75; Tower Street, 58; West Street, 13; Luke Lane, 87; Mark Lane, 1; Matthew's Lane, 35; Peter's Lane, 36; Temple Lane, 9; and Water Lane 37; whilst one house in Duke Street, one in Orange Street, two houses in Port Royal Street, four in West Street, one in Luke Lane, two in Matthew's Lane, and one in Peter's Lane were partially destroyed; Amongst the buildings destroyed were the two Jewish Synagogues; the premises of the Ordnance Department; the Government Savings Bank; the office of the Jamaica Mutual Life Assurance Society; part of the premises of the Colonial Bank and several wharf premises.

On the 14th January, 1907, the city suffered great damage from the disastrous Earthquake of that date and from fire. Much the same area as that devastated by fire in 1882 was destroyed in the fire of 1907 in addition to the havoc caused by the Earthquake. The loss of life was variously estimated as between 1,000 and 1,500. The value of property destroyed amounted to between £1,000,000 and £1,500,000. A Mansion House fund for the relief of the sufferers, amounted to £55,395, and a free Imperial grant was made by Parliament of £150,000 and a loan of £800,000 was authorised. The relief funds were distributed by a Relief Committee afterwards the Assistance Committee, constituted by the Assistance Committee Law 20 of 1907. After considerable delay and much negotiations, and on the failure of an appeal in a test case to the Judicial Committee of the Privy Council, the Insurance Companies agreed to pay the claims to the extent of 85 per cent. on the face values of the policies, and the money was distributed in 1909.

The Imperial Loan is administered by a Loan Board created by Law. Up to 31st March, 1910, loans had been made to the value of £326,000.

The city has in great measure recovered from the disaster of 1907. Myrtle Bank hotel is rebuilt; and in King street substantial structures have been erected. Among these may be specially named the new Bank of Nova Scotia and the building of Messrs. Nathan and Co., Ltd., Messrs. D. Henderson & Co., the Royal Bank of Canada and the Bee Hive. On the western and eastern sides stand the blocks of the new Public Buildings. The western block houses the Post Office, Treasury, Audit Office, and Customs; the eastern block contains the Supreme Court and Law Offices, the office of Titles, Surveyor General and Inspector General of Police and Prisons and the Education Department. The Colonial Bank in Harbour Street also demands notice.

The Roman Catholic Cathedral in North street was opened for service on Sunday, 5th February, 1911. It is dedicated to Holy Trinity, and is a substantial building, beautifully decorated internally with mural paintings. In East street there is the rebuilt Institute of Jamaica. The Ward Theatre, North Parade, was presented to the city by the late Lieut. Colonel Ward, C.M.G., for many years Custos of the city. The offices of the Royal Mail Company in Port Royal street and the Colonial Bank in Harbour street are also worthy of note.

The population of the city by the Census of 1911, was 59,674; males 25,037, females 34,637.

There are two Building Societies doing business in the city and many of the important Fire and Life Insurance Companies of the world are represented by agents in Kingston. Besides these a Discount Society, an Ice Company, a Marine Insurance Company, a Telephone Company, an Electric Light and Power Company, and an Electric Tramway Company are in successful operation. The Banks now doing business are the Colonial Bank the Bank of Nova Scotia and the Royal Bank of Canada.

The city is lighted with gas, and many of the public and private buildings with electric light. The principal thoroughfares are traversed by electric cars. There is a commodious market at the lower end of King Street. In connection with this structure is a public landing place; and another market in Orange Street, near the Parade. In the upper part of King Street and immediately opposite to the principal entrance of the Kingston Parade Gardens is a statue of Queen Victoria, by Gefowski, erected in commemoration of the sixtieth anniversary of her accession to the throne by a vote of the

Legislature. A statue of Sir Charles Metcalfe stands at the foot of King street. On the eastern side of the parade (just without the garden fence) stands another full length marble statue, that of Edward Jordan, C.B., "who through a long series of years and in times of danger, fearlessly stood forward as the champion of emancipation and for the removal of civil disabilities," erected by public subscription. The statue of another distinguished Jamaican, Doctor Lewis Q. Bowerbank, was erected in the year 1881, on the northern side of the Garden, by his numerous friends and admirers. A statue of Father Dupont, a Roman Catholic priest, who for many years laboured among the poor of the city, erected at the north-east corner of the Garden, was destroyed by the earthquake of 1907. There is a convenient building in Orange Street known as the "Night Shelter" for the convenience of the peasantry coming to the Kingston markets.

Lines of steamers touch at Kingston regularly, keeping up communication direct with England, the United States, Canada and Europe. Electric cars run to Constant Spring to the north and Papine Corner to the north-east about six miles in each direction. A branch runs along the harbour shore to Rock Fort Gardens. Another branch runs through Up-Park Camp and connects with Cross Roads.

Two daily and several weekly, tri-weekly and monthly newspapers are published in the city. Postal deliveries take place three times a day, and posts are made up for the home parishes and some of the country parishes daily and by all trains leaving Kingston, and for all the country parishes. The markets are plentifully supplied. Fruit, vegetables and fish are abundant at reasonable rates.

The climate is dry. The thermometer has been as high as 93° in the hot months and has stood as low as 66° in the cool months.

PORT ROYAL.

The Harbour of Kingston is enclosed to the southward by a narrow strip about 7 miles in length; at the western extremity of which, at the mouth of the harbour lies the old town of Port Royal. This strip is known as the Palisadoes, and the town formed part of the parish of Kingston until 1900 when a law was passed creating the separate parish of Port Royal with a Parochial Board consisting of 1 naval and 1 military member, and 2 elected members, with the Commodore as chairman *ex officio* until the removal of the Naval Authorities from Jamaica and the closing of the dock-yard on 31st March, 1905. By section 10 of the law (13 of 1900) it is provided that for purposes of collection of rates and taxes, Registration of Voters and for all judicial purposes the parish shall still form a part of the parish of Kingston. Port Royal was, prior to the great earthquake, "the finest town in the West Indies and at that time the richest spot in the universe," the headquarters of the buccaneers, and as such the emporium and mart of their ill-gotten wealth.

At half-past 11 o'clock on the morning of the 7th June, 1692, the town was shaken by a tremendous earthquake. The rector of the parish at that time states in his narrative of the occurrence: "Whole streets with their inhabitants were swallowed up by the opening of the earth, which when shut upon them squeezed the people to death, and in that manner several were left with their heads above ground, and others covered with dust and earth, by the people who remained in the place. It was a sad sight to see the harbour covered with dead bodies of people of all conditions, floating up and down without burial, for the burying place was destroyed by the earthquake which dashed to pieces tombs, and the sea washed the carcasses of those who had been buried out of their graves." At Green Bay there is still the tomb of Lewis Galdy who, according to the inscription thereon, "was swallowed up by the earthquake, and by the providence of God was by another shock thrown into the sea and miraculously saved by swimming until a boat took him up. He lived many years after in great reputation, beloved by all who knew him and much lamented at his death."

As terror after the earthquake subsided new houses were erected and the place under the privateering system of the time, began again to flourish, but in the beginning of the year 1703 a fire broke out at one of the crowded warehouses where a quantity of gunpowder was deposited and in a few hours the whole town was in flames. With the exception of the Royal Forts and magazines not a building was left.

Notwithstanding these occurrences a number of persons who had left Port Royal returned to it and began its re-establishment. New houses were built and trade began to be restored; but on the 22nd August, 1722, a storm passed over the town which swept the greater portion of the buildings into the sea and destroyed a number of lives. Of fifty vessels which were in Port Royal harbour on that day four men-of-war and two merchant ships alone rode out the storm, but with all their masts and booms blown away. This further calamity was in time forgotten and Port Royal was again crowded with

houses and enriched by the profitable trade caused by the war in which Great Britain was then engaged.

In 1779 Nelson was in command at Fort Charles, when the island was in a critical state through fear of invasion.

In 1816, on the 13th July, about midday, a fire broke out which in a few hours destroyed nearly the whole of the town, including the naval hospital; and left many of the inhabitants utterly destitute. A subscription was set on foot for their relief, which was liberally responded to, Kingston alone subscribing eleven thousand pounds. Since the occurrence of the fire the town has ceased to be a commercial centre and Port Royal for several years was of importance only as a naval and military station. Its importance in this respect has, however, been much reduced by the recent abolition of the naval yard and the removal of the Commodore from the station. Victoria Battery and other parts of Port Royal were much injured in the earthquake of 1907.

The following description of this famous British Station is retained for historic purposes only. The naval hospital, which is now in charge of the Military Authorities, is a very fine building, built of iron and stone and is 380 feet long and 57½ feet broad. It can accommodate about 130 patients in the upper portion, and the ground floor, which is available for use in the event of any emergency arising, will accommodate about half as many more, so that the hospital can find room for 200 patients in all. A yellow fever hospital was added by Dr. Thomas Colan, as Deputy Inspector General, in which yellow fever cases could be isolated and treated, and the necessity of the main hospital being put in quarantine is thus obviated.

Port Royal has always hitherto been considered important as a naval station. As recently as the American war and the French occupation of Mexico the fleet on the North American and West Indian station numbered some twenty-five ships, a goodly portion of which were constantly calling at Port Royal to coal, to obtain fresh provisions and to refit, and the Archduke Maximilian on his way to Mexico was met there by eleven ships-of-war.

A line of pipes laid by the Imperial authorities from Rock Spring at the head of the harbour along the Palisadoes supplies the garrison and town with water.

The place is generally reputed to be healthy, although as a matter of history epidemics of cholera, small-pox and yellow fever have occurred there. At one time Port Royal laid claim to be regarded as a sanitarium or marine resort, but owing to the want of house accommodation and other causes the people of Kingston do not now resort to it for change. In the church is a monument by Roubiliac.

ST. ANDREW.

This parish was originally called Liguanea, and the name still lingers round the plain. It now consists of what before the passing of Law 20 of 1867 comprised the parish of Port Royal and the parish of St. Andrew, less the parts known as Smith's Village, Hannah's Town, Fletcher's Town and the town of Port Royal. There are no towns in St. Andrew and the principal villages are Halfway Tree, Gordon Town and Stony Hill, while a large settlement of villa residences has recently sprung up round Cross Roads where a market has been erected.

Halfway Tree, which is situated about three miles from Kingston, derives its name from a cotton tree dating from the conquest, which as late as 1866 stood at the intersection of four roads from Passage Fort to Stony Hill, and Spanish Town to Gordon Town, near the church. It is the head court station of the parish and has a post and a telegraph office, and a revenue office. It is also centrally situated in regard to the residences of the higher officials of the colony and of some of the leading merchants of Kingston. There is a market, a structure of iron and wood, which dates from 1881. The parish church, which was built in the reign of Queen Anne, has been enlarged and renovated from time to time at considerable cost. It was much damaged by the earthquake of 1907, but has since been restored and enlarged. The original church stood on the old burial ground between King's House and the Constant Spring road. There are some interesting memorial slabs and stones in the church and churchyard. There is a good monument inside the church to James Lawes, son of Sir Nicholas Lawes, once governor of the island, by John Cheer; monuments also to General Villetes, commander of the forces, to Admiral Davers, to Zachary Bayley and to Sir James Fergusson killed in the earthquake of 1907, whilst Lieutenant-Governor Rushworth, C.M.G., and Christopher Lipscomb, bishop of Jamaica, are commemorated in the churchyard. In the centre of this village stands a clock tower erected in 1913 in memory of Edward VII. Not far from Halfway Tree is situated King's House, (rebuilt since the earthquake of 1907) the official residence of the Governor of Jamaica; and there is a large hotel at Constant Spring, closed at present, three miles

AA

distant. Between Halfway Tree and Gordon Town on the Hope land are the Government Experimental Plantations with the office of the Director of Agriculture, the Island Chemist's Laboratory, the Farm School and the head works and reservoirs of the Kingston and Liguanea Water Works. The buildings of the Jamaica College stand on a portion of the Hope lands. The cars of the West India Electric Company run between Kingston and Halfway Tree, and between Halfway Tree, Constant Spring and Hope Gardens.

There are two social clubs, the Liguanea, between Half-way Tree and Cross Roads, and the St. Andrew by Cross Roads. At both lawn tennis is a great attraction. At the former there is golf course.

Gordon Town is distant about nine miles from Kingston, in a north-easterly direction, and contains a constabulary station, a court house and a post office and telegraph station. A little further up, at the foot of the hill leading to Newcastle, is a picket house in connection with the cantonment at that place.

The detachment of British Infantry (before its withdrawal from Jamaica in 1905) was stationed at the military cantonment at Newcastle, on one of the spurs of the Blue Mountain Range. It is situated 3,974 feet above the sea amid charming scenery and in a very healthy climate.

Stony Hill is situated about ten miles from Kingston on the main road leading to Annotto Bay. The buildings at this place which formerly constituted the military barracks, are now used for the purposes of a Boys and Girls Industrial School.

Up-Park Camp Barracks, about 1½ miles north of Kingston, contain the head quarters of a West Indian Regiment and the Brigade and other military offices and a chapel. The situation of this place is admittedly healthy and a constant sea breeze blowing over it makes the hottest days endurable. There is a splendid view of the harbour to be obtained from these barracks, which consist of parallel lines of buildings, two stories high. Most of them have been reconstructed since the earthquake of 1907. There is a Garrison Chapel, a hospital for the troops and a swimming bath of running water. The quarters of the field officers are separate buildings, each standing in its own compound.

On the northern boundary of Kingston are the Mico College which was wrecked by the earthquake, rebuilt, and since destroyed by fire, and again reconstructed, and Wolmer's Schools removed from Kingston in 1908.

On the introduction of coffee into the island in the year 1778 it was planted in this parish of which it has ever since been the principal production. The coffee grown in St. Andrew, especially in the higher altitudes, commands a high price in the English markets. The properties were much damaged by the floods of 1909. In 1837 there were as many as one hundred coffee plantations in the parish but the number is now considerably less. The Government established, many years ago, a Cinchona Plantation at Bellevue, some 5,000 feet above the level of the sea, and the cultivation of cinchona was carried on by private proprietors, considerable tracts of crown lands being purchased under the very favourable terms conceded by the Government with a view to the encouragement of cinchona planting. Owing, however, to the heavy fall in the price of bark the cultivation was discontinued and the exportation ceased. The cultivation of tea was taken up at the Government Cinchona Plantation but was not a success. The cultivation of tobacco is carried on principally at Temple Hall where it is conducted by Cubans. Bananas, pine apples and oranges are also productions of this parish. The area of the parish is 166 square miles.

Resident Magistrates' Courts and Petty Sessions Courts are held at Halfway Tree, Gordon Town and Stony Hill.

There is a house to house post office delivery in part of lower St. Andrew twice daily.

According to the Census of 1911 the population of St. Andrew was 52,773; 24,861 males and 27,912 females. The parish is divided for the purpose of the parochial elections into 3 divisions, returning 15 members to the Parochial Board.

ST. THOMAS.

The parish of St. Thomas, which now embraces the old parish of St. David, is one of the oldest parishes in the island. It may have been named after Thomas, Lord Windsor, Governor in 1662. It was settled by the Spaniards and was thus described by General

Venables of the army of occupation in 1655: "Morante is a large and beautiful hato, being four leagues in length, consisting of many small savannahs, and has wild cattle and hogs in very great plenty, and ends at the mine, which is at the cape or point of Morante itself, by which towards the north is the port of Antonio."

In respect of physical beauty this parish ranks high in the island. The sugar estates and banana plantations in the Plantain Carden River district present a pretty view when seen from the eminence above them called Quaw Hill. From this point to Port Antonio the whole district was once covered by flourishing sugar estates but is now utilized largely for banana cultivation. There are still some large sugar estates in cultivation in the parish. One of the oldest of these is Belvedere, the original proprietor of which, Robert Freeman, was the first speaker of the first House of Assembly.

In addition to the Dry River and the Falls river there are two important rivers in St. Thomas, namely, the Yallahs and Morant Bay rivers, which when swollen by heavy rains, become formidable torrents and are quite impassable. Of late years additional bridges have, however, been built in the parish. The Morant Point Light House (erected by Sir George Grove, better known in connection with music) stands at the east end of the island in this parish. The principal towns or villages are Morant Bay, Port Morant, Easington, Bath and Yallahs Bay.

Morant Bay is the chief town and shipping port and is noted as being the principal scene of the disturbances of 1865. Nearly all the public buildings were then burnt down.

The town now contains a public general hospital, an alms house, a court house, a constabulary station, a post office and telegraph station, an Episcopal church and Wesleyan and Baptist Chapels, an iron market and a system of Water Works. Morant Bay is an open roadstead and the only danger in approaching the anchorage is Galatea Rock which has only 16 feet of water over it. As the soundings shoal gradually, vessels of any draught can anchor at Morant Bay. There are five fathoms of water within three cables of the beach and three fathoms within half that distance.

Port Morant, lying seven miles eastward of Morant Bay, was formerly a shipping port of great importance; at present it has but little shipping. It is a very secure harbour, and vessels can, as a rule, leave as well as enter with the regular trade wind. At Bowden is the Wireless Station of the Direct West India Cable Company.

The village of Trinityville, about 10½ miles from Morant Bay, is a populous and thriving place.

Bath is a populous village having a large number of dwellings, an Episcopal church and a Wesleyan chapel. A sulphurous hot mineral spring (of which an account is given in another portion of this work) is situated a little above the village. The original Botanic Garden of the island is in the village itself and is still maintained for the sake of its valuable trees and palms and for the propagation of cocoa.

There are an Episcopal church (originally built in the 17th century) and Wesleyan and Baptist chapels at Yallahs Bay; and in the vicinity are two large salt ponds, which supply an abundance of fine fish and are a source of livelihood to the villagers.

Easington which is in the interior of the parish, was the capital of the parish of St. David before it was merged into that of St. Thomas-in-the-East. There is a steel girder bridge over the Yallahs river at Easington. Golden Grove is a collection of stores on the estate of that name, on which there is also a small Episcopal church.

The area of this parish is 274 square miles. According to the census of 1911 the population of the parish was 39,330; males 18,873, females 20,457.

PORTLAND.

A lengthy essay on the Natural and Political History of Portland, by Andrew Gregory Johnston, was published in the "Literary and Scientific Journal" in 1848, having won one of the prizes of £50 offered to each parish of the island by the Government for the best account of such parish. This parish was named after the Duke of Portland, who was governor of the island at the date of its formation. It includes the old parish of St. George and part of St. Thomas, from which it was originally taken in 1723 in accordance with proposals made by Sir Nicholas Lawes, a former Governor, for revesting in the Crown Lands in the North-east of the island to be made available for intending settlers from the Virgin Islands. It extends from the sea coast to the highest peak of the Blue Mountains and is noted for its fertility and the beauty of its scenery. The chief towns and villages are Port Antonio, Buff Bay Manchioneal, Hope Bay and St. Margaret's Bay.

Port Antonio has two of the finest and securest harbours in the island. The western

harbour is sheltered by a small islet called the Navy Island. The entrance has been widened to suit the convenience of large vessels which can lie alongside its wharves. Port Antonio is divided into Upper and Lower Titchfield. Upper Titchfield stands on a peninsula and contains, besides the residences of the gentry, Fort George, the old military barracks, which have been converted into a school managed by a Local Board, the Titchfield School Board, financed by the Titchfield Trust, under the Jamaica Schools Commission. Lower Titchfield, or Port Antonio proper, extends along the sea shore where the stores, wharves, court house, gaol, &c., are built. The Episcopal church stands conspicuously in the middle of the lower portion of the town at the south-east end.

There is a light-house on the Folly Point at the entrance of the harbour, which is a great aid to navigation. The light shows a flashing white light which gives a flash of 2 seconds duration followed by 8 seconds darkness, visible 13 nautical miles over an arc of 153° and is a 4th order dioptric. It was first lighted in 1888. Port Antonio is supplied with very good water by means of pipes from a stream at Red Hazel, the reservoir being only a mile and a half from the town. The supply has been improved by the erection of a reservoir of 10 millions gallons capacity, and the use of mechanical pressure filters, the first of the kind to be used in the island. These improvements cost nearly £7,000. Port Antonio is a very favourite place with Americans. The Hotel Titchfield, which was totally destroyed by fire in January, 1910, was rebuilt during the same year and extended in 1911, to accommodate 250 guests.

There is a large and handsome Town Hall. The lower storey contains the offices of the court and parochial offices and the upper storey forms a town hall and court room. Market buildings were completed in Port Antonio, one on either side of West street, in 1885; the north-eastern building has however been recently removed to the rear of the south-west building, and a square has been thus provided and is being laid out in palms, etc. A substantial building roofed with earthen tiles for revenue offices was built in 1886. The extension of Port Antonio was previously retarded by the fact that all the lands in the immediate vicinity of the town are the properties of the Titchfield Trustees and the United Fruit Company. A law was passed giving power to sell the Titchfield lands, but it has not been thought advisable to put it in force. The Trustees have, however, realized the possibilities of the land, and are filling up the swampy portions and joining the Government and the Parochial Board in constructing concrete cement drains through them, also laying out new roads, and leasing the lands on easier terms. Five acres of these lands have been leased by the Parochial Board, who have laid it out as a Park and Pleasure Ground, called the Olivier Park, after the late governor, who opened it in 1904. The Port Antonio Cricket Club have also leased eight acres of the swampy land, reclaimed it and converted it into one of the best recreation grounds in the island. An American gentleman also purchased a property called the Folly, adjacent to these lands and expended a considerable sum in erecting the first reinforced concrete building here, in filling the adjacent swamps, and laying out the ground as a beautiful private park. Over £3,000 has been expended in recent years in improving the streets and laying concrete drains. Most of the residences, and all the streets and public buildings are lighted with electricity. The population of Port Antonio has increased from 1,784 in 1891 to a little over 7,000 at the census taken in April 1911.

The fruit trade, which was opened up in Portland in the year 1868, has made Port Antonio a town of considerable importance, and the parish of Portland one of the wealthiest communities in the island. Fruit cultivation is the business of the large proprietor as well as the peasant, and the shipments of fruits constitutes the great bulk of the trade of the port. At Port Antonio are the headquarters of the fruit business in Jamaica. Five shipping companies having their chief offices here, and the United Fruit Company own a large acreage of land in the parish. All the companies' steamers leave constantly for the United States.

The Maroon settlement, called Moore Town, is nine miles from Port Antonio on the banks of the Rio Grande, which is the second largest river in the island, but on account of the rapids formed by the hilly nature of the country through which it runs it is of no use for navigation.

St Margaret's Bay is a thriving village on the west of the Rio Grande and on the railway line between Kingston and Port Antonio; it contains a substantial Episcopal Church and carries on an extensive business in fruit. There is a police station and the United Fruit Company have constructed a fine wharf here, and also at Hope Bay,

a village lying a little further west. Hope Bay contains an Episcopal church, about 500 inhabitants, a Wesleyan church and a constabulary station.

Buff Bay was the chief town of the old parish of St. George; it lies between the Spanish River and the Buff Bay River and is on the railway line between Kingston and Port Antonio. This town contains a fine Episcopal church, and Wesleyan, Baptist and Roman Catholic chapels, a Court House and Town Hall, the alms-house, a public general hospital, a constabulary station, a telegraph station and a market. Buff Bay is a rising and prosperous place, and is an important centre of the fruit trade, and there are two wharves, but owing to the exposed character of the coast they are only available in fair weather. At times during the "northers," the coast is unapproachable by vessels. About two miles out of the town, on one aide of Buff Bay river, lies a township of the Maroons called Charles Town. From Spring Garden east of Buff Bay River, going up the Spanish River Valley for four and a half miles at Chepstowe there is a very fine waterfall known as "Fishdone." The scenery up this valley exceeds in beauty the well-known Bog Walk. On Spring Garden are the ruins of an old fort constructed to repel the buccaneers. There are at Low Layton 105 feet above sea-level, the remains of an extinct volcano. The Rio Grande, Buff Bay, Spanish, Swift and White rivers which formerly presented formidable obstacles to the traveller during the rainy seasons, have now been bridged. The bridge over the Rio Grande is the longest in the island, the iron work alone being 480 feet in length, in six spans of 80 feet each.

Manchioneal lies on the north-eastern coast of the island; it is become of some importance since the fruit trade has been established. In the town are an Episcopal church, a Wesleyan chapel and a Court House. Its principal exports are bananas and coco-nuts. The harbour, situated at the southern extremity of a coco-nut plantation, is very small; the entrance is only about half a cable wide and leads to an anchorage close off Shifto Point, barely exceeding one cable in diameter. From the anchorage to the southward is a narrow well-protected haven for small vessels. Manchioneal was the scene of some of the exploits of 'Tom Cringle,' recorded in his Log; and the Great House on Muirton is said to be one to which he was taken on his arrival from Cuba with yellow fever.

Darlingford, an extensive coco-nut plantation belonging to the heirs of the late Sir Charles Darling, Governor of Jamaica, stands around the village of Manchioneal.

There are great demands for lands with roads to them, especially by the small cultivators in the parish, owing to nearly all the large land-owners needing their lands for other purposes, and steps are being taken to open up new roads soon, some of which will give access to Crown Lands. Strong representations have been made and are still being urged upon the Government by the Parochial Board for providing more roads to open up the thousands of acres of fertile land so as to increase the output of the small cultivators.

The area of the parish is 285 square miles. According to the census of 1911 the population of the parish was 49,360; 24,843 males and 24,517 females.

ST. MARY.

This parish was probably called after the Spanish port, Santa Maria. It includes the late parish of Metcalfe, as well as a part of the old parish of St. George, and possesses a great variety of agricultural resources, combined with much that is interesting from a geological, as well as a physical point of view. Nearly every product of the colony can be produced in it, although the supply of labour is very precarious, necessitating the somewhat extensive employment of East Indian immigrants. The roads, owing to the natural formation of the soil and the heavy traffic they are called upon to carry are difficult to keep in good condition. The copper mines at Job's Hill and the ferruginous springs of Newport only require easy means of access to become useful. The parish is exceptionally seasonable and is intersected by large rivers. The climate on the upland plains is warm and humid and vegetation is rapid; while in the hills it is cool though moist. Generally speaking the climate is healthy, the prevailing sickness being intermittent fever unattended with much mortality. The chief products are bananas, oranges, logwood, fustic, pimento, cocoa, coffee and coco-nuts and sugar (manufactured chiefly by the small settlers). The Banana cultivation is considerable, and the exports of the fruit exceed those of any other parish in the island.

The parish has three considerable towns, namely: Port Maria, Annotto Bay and Oracabessa, the last named having come into prominence as the result of the banana trade and of its good harbour. There are also in the parish several thriving villages and out bays; the chief of the former being Highgate, Hampstead, Gayle and Richmond and of the latter Salt Gut and Rio Nuevo. The chief town and shipping port is Port Maria, situated somewhat nearer the western than eastern end of the parish with a fairly good harbour, its complete exposure to "northers" being broken by Cabaritta Isle, which acts to a certain extent as a natural breakwater. Port Maria contains a public general hospital and an alms-house, a church, a kirk, a Baptist chapel, a Wesleyan chapel, a court house, a fine market, a post office and telegraph office and a government elementary school. The municipal buildings, which are very substantial and commodious, being built of stone, were erected out of the bequest of Thomas Manning. They contain the town hall, the court house and offices, the revenue and parochial board offices and the constabulary station.

The St. Mary Poor House at Simpson Hill $1\frac{1}{2}$ miles from the town was built in 1896 at a cost of £4,200, has accommodation for 120 inmates and the staff. There are also several fine stores, seven wharves and a comfortable hotel. The Victoria Park, opened in commemoration of Queen Victoria's Jubilee, is in the old parade ground next to the church. Gray's Charity is on Fort Haldane, where evidence of its military uses in the past still exist, in the vicinity of, and possessing a commanding view of the town and harbour. Here a substantial building has been erected for the inmates connected with the charity. A supply of wholesome water is afforded the town by works constructed in 1886, and subsequently improved and extended. There is an organized Fire Brigade.

Annotto Bay on the railway line between Kingston and Port Antonio, is situated on the eastern side of the mouth of the Wag Water river (a corruption of *Agua alta*) and is distant about sixteen miles from Port Maria and thirty miles from Kingston, from which it is approached by what is termed the Junction road. The town of Annotto Bay is intersected by three sluggish rivers which create swamps in the neighbourhood and render it, at certain seasons of the year, unhealthy; but the inhabitants on the whole enjoy tolerably fair health and longevity. It is a considerable shipping port, especially for logwood and bananas, the shipment of which is greatly facilitated by the recent construction of a railway to the siding at the sea beach. The town contains a public general hospital and alms-house, a court house and constabulary station, post office and telegraph office; also a fine large church at the eastern end of the town, Baptist and Wesleyan chapels and a government elementary school. The Maroon Town of Scott's Hall is situated on the Junction road behind Castleton Gardens, 11 miles from Annotto Bay and 19 miles from Kingston. The parochial board in the year 1910 furnished the town with a fine and abundant supply of water, meeting the cost, nearly £5,000, entirely from its own resources. The reclaiming of the swamp lands is receiving attention.

Oracabessa (Golden Head), situated eight miles west of Port Maria on the main road to St. Ann's Bay, has a safe little harbour, and is visited by steamers for bananas. It has a post and telegraph office, several small stores and wharves, a Baptist and a Wesleyan chapel and schools and a police station. The town is considered healthy and is visited as a health resort.

On the western side of the Gayle estate, is the village of Gayle. It contains a post and telegraph office, a market, pound and a constabulary station, a church and a school. The court house a mile away was destroyed by the earthquake in 1907, and the local courts are now held at the old court house at Retreat where there is a constabulary station.

The village of Highgate is eight miles from Port Maria on the main road to Richmond. Owing to the proximity to the railway station at that place, and being within a mile of the recently constructed railway siding it has made considerable progress within the past few years. There are a market, a number of shops, a post and telegraph office, a church and an elementary school.

The village of Richmond (Meek Spring) sprung into existence as the result of railway extension. Upon its selection for a railway station many stores, shops, and residences were erected, and now Richmond is a populous and thriving centre in which a large volume of business connected with the fruit trade is transacted; there is a court house and constabulary station, a post and telegraph office, a market, a pound and a social and tennis club.

It was near Rio Nuevo Bay that the last Spanish governor of Jamaica, Sasi, built a fort when he attempted to re-conquer the island. The fort having been captured by the English, Sasi escaped and left the island from Runaway Bay in St. Ann.

The chief rivers from east to west are the Dry River, Annotto River, Wag Water, Antrim river, Oracabessa river, Rio Nuevo and White river; there are also White Hall river, Haughton, Tiber, Flint and Pencar rivers, all of which are now bridged.

The area of the parish is 249 square miles. According to the census of 1911 the population of the parish was 37,523 males and 35,433 females.

ST. ANN.

This parish was named after Ann Hyde, wife of James II. It is one of the larger parishes of the island and has been appropriately designated "The Garden of Jamaica." "When Columbus," says Bryan Edwards, "first discovered Jamaica he approached it "on the northside, and beholding that part of the country which now constitutes the "parish of St. Ann he was filled with delight and admiration at the novelty, variety "and beauty of the prospect." Hill, in his "Lights and Shadows of Jamaica History," thus writes of the parish: "Earth has nothing more lovely than the pastures and pimento groves of St. Ann;—nothing more enchanting than its hills and vales, delicious in verdure and redolent with the fragrance of spices. Embellished with wood and water, from the deep forests, from whence the streams descend to the ocean in falls, the blue haze of the air blends and harmonizes all into beauty."

St. Ann's Bay, the "Santa Gloria" of Columbus, is a town of some importance, in which considerable trade is carried on. It contains an Episcopal church, a Wesleyan chapel, a Baptist chapel, a court house, a public general hospital, a post office, a telegraph station, a good hotel. There is a fine market, and an excellent water supply obtained from the Roaring river. It does a large shipping trade, to which trade the regular steam communication between the United States and Jamaica has been a great incentive. Two miles to the westward of the town are the poor houses.

Not more than a mile to the west of St. Ann's Bay is the site of the first capital of the island, "Sevilla Nueva" or "Sevilla d'Oro," as it was afterwards called. This town was founded by Juan d'Esquivel, the first Spanish Governor of Jamaica, he having been commissioned and sent over by Diego Columbus (Christopher's son) the Hereditary Viceroy of the New World, to establish a colony there. Esquivel arrived in Jamaica in November 1509, accompanied by a number of the Viceroy's friends. "Bringing with them the refinements of taste and the means of displaying it, they assisted in the foundation of Sevilla Nuevo, whose fame long attested its superiority over every other town which has since been built here." The town contained many buildings worthy of note, amongst which were a monastery, a cathedral, a theatre and many palaces. Sevilla did not long, however, continue the capital, having been abandoned for St. Jago de la Vega. The reason for the change is not quite agreed upon; some say that it was owing to the Spanish inhabitants of Sevilla having in their wars with the natives been suddenly and entirely cut off, and others assigned the desertion to "a visitation of innumerable ants" that destroyed all the provision grounds of the people and compelled them to find a home elsewhere. Bridges, however, attributes the abandonment to the depredations of the French filibusters, and states that "the northern coast of Jamaica afforded frequent spoils to this bold band of corsairs." To the eastward of St. Ann's Bay, at Drax Hall estate there is a narrow cove described in the maps as Don Christopher's Cove, where Columbus on his fourth and last voyage to the West Indies is supposed to have stranded his two remaining vessels. Priory contains the remains of an old English church. Midway between St. Ann's Bay and Ocho Rios are the Roaring River Falls, the largest in the island; the scenery there and for some miles round is much admired by visitors and is well worth a visit. Application to the gate keeper of Roaring River and the payment of a small fee for keeping the road in repair will always ensure permission to view the Falls, and a guide can easily be obtained.

Colonel Charles Drax left a sum of money and a claim on the estate for founding a free school, which was held for a time at Waton, near Moneague. In 1885 this was, by law, merged in the Jamaica High School (now Jamaica College) at Hope, in St. Andrew.

Fonthill, once the property of William Beckford (now attached to Drax Hall), was named after Beckford's property in England, Fonthill Abbey.

The principal towns are St. Ann's Bay, Ocho Rios, Brown's Town, Dry Harbour and Claremont.

Ocho Rios, formerly called "Chereras," the "Bay of the Waterfalls," lies about seven miles to the east of St. Ann's Bay. The town is increasing in importance and the harbour, which is easy of approach, affords good shelter for vessels. For this reason and on account of the facilities in the way of getting good water and provisions, Ocho Rios was at one time very frequently visited by British war ships for the purpose of giving leave to the crews. Near the town is Shaw Park estate where Sasi, the last of the Spanish Governors, had pitched his tent and where he was discovered and pursued by the British troops. He subsequently escaped in a canoe to Cuba, from a spot about ten miles from St. Ann's Bay, which has since been known as Runaway Bay. Ocho Rios has an Episcopal church, Wesleyan and Baptist chapels, a post office and telegraph station, a market, court house and police station. On the way to Moneague the road runs through the celebrated Fern Gully.

Brown's Town is the largest of the rural townships of St. Ann, and is situated in the western interior part of the parish; it contains an Episcopal church, a Wesleyan chapel, a Baptist chapel, an Evangelist tabernacle, a court house, a hotel, two private schools, a government elementary school, a police station and a market called the "Norman Market," with a clock tower, in which is a clock presented by Sir Henry Norman. Brown's Town is a thriving place, and a good produce trade is carried on there.

Dry Harbour, so called on account of there being no fresh water stream or well there, is a town increasing in trade and prosperity and the harbour affords excellent shelter for vessels. It was at Dry Harbour that Columbus landed and took formal possession of the island. There are some very large caves about a mile-and-a-half from the village; they are often visited by tourists and are well worth the trouble which is necessary to thoroughly explore them: a guide can always be obtained at Dry Harbour or Runaway Bay.

In the Dry Harbour Mountains there is a fine underground stream (probably the Cave River) flowing through a natural tunnel which can be explored for a considerable distance.

At Cave Valley there is a thriving market and a police station.

At Moseley Hall in the south-eastern corner of the parish there is a very fine cave that used to be frequently visited and there are several smaller but not less interesting ones in other parts of the parish.

In the Pedro Hills is Edinburgh Castle on which property is situated the "sink hole" where the murderer Hutchinson is supposed to have thrown down the bodies of all his victims. At Pedro River there is a market.

The village of Claremont, (formerly called Finger Post) is increasing in size and importance; it has an Episcopal church and Wesleyan and London Missionary Society chapels, a post office and telegraph station, a market, a police station and a clock tower. Above Claremont on the Pedro Road is the Rumble tea estate the first and only extensive tea plantation and factory in the West Indies.

Moneague, ten miles from Ewarton, is situated in a cool and pleasant part of the parish; it has a court house, a police station, a post office and telegraph station and a market; a good produce business is done here. There is also a fine hotel on a commanding site. The building is a handsome and comfortable one, and situate as it is in one of the most charming districts of the island, attracts visitors from northern climates seeking to escape the severity of the winter. There is also an hotel at Holly Mount on Mount Diabolo whence very fine views are obtained.

The productions of this parish are principally sugar, rum, pimento and coffee. The cultivation of bananas is extending, and the orange trees yield abundantly. Pimento, the "all-spice" of commerce, grows luxuriantly in St. Ann, in which it is indigenous.

The area of the parish is 476 square miles. According to the census of 1911 the population of the parish was 70,651; 34,024 males and 36,627 females.

TRELAWNY.

This parish derives its name from a former governor of the colony, Sir William Trelawny, who died in Jamaica in 1772. It was taken out of part of St. James in 1770. The principal towns are Falmouth, Stewart Town, Duncans, Clark's Town and Ulster Spring.

Falmouth was a town of considerable importance, and is more regularly laid out than any other town in the island, except Kingston; the streets are wide and clean and the

public buildings are substantial and handsome. The court house, a building erected in the days of Jamaica's extravagance, is lofty and spacious and affords accommodation for nearly all the parochial officers. It contains full length portraits of General Sir John Keane, lieutenant governor from 1827 to 1829, and of Sir Charles Theophilus Metcalfe governor from 1839 to 1842. The other public buildings are the former district prison, now used as constabulary barracks and alms house, and the public general hospital. The Episcopal church, the Wesleyan chapel and the kirk are all good buildings and well situated. The spacious Baptist chapel was erected under the auspices of William Knibb who played an important part in Trelwany both before and after Emancipation. The military barracks, now unoccupied, are spacious, solid buildings and are capable of accommodating 700 men; they have always been regarded as being particularly healthy. The town is supplied with water from the Martha Brae river, it is conveyed to a reservoir built in the market square, from which the inhabitants are supplied by pipes laid down to their houses or by means of carriers employed for the purpose. There is a market in the square, and a Victoria Park.

The entrance to the harbour, which was difficult of access owing to a very narrow and intricate channel, has recently been deepened. The depth of water in the harbour is ample and there is accommodation for a number of ships or steamers of large size.

Martha Brae, one-and-a-half miles inland from Falmouth, is supposed by some to have been the site of the old Spanish settlement of Melilla, which was abandoned soon after its establishment owing to the depredations of the French filibusters. The secret gold mine of the Spaniards is said to be in the neighbourhood of Martha Brae.

Clarke's Town, ten miles from Falmouth, is the next largest town in the parish, and is becoming important by reason of its central position. There is a good trade in produce here, and the ground provisions from Ulster Spring, are nearly all sold here. There is an Episcopal church, a Baptist church, a post office, a government dispensary, a police station and a court house.

Stewart Town is the centre of a considerable trade in produce from the interior of Trelwany and the neighbouring parishes. It contains an Episcopal church and spacious chapels of the Wesleyan and Baptist denominations, a post office and police station; and there is a high school for girls at Westwood, hard by.

Duncans is a town not very distant from the sea coast in which a brisk trade is carried on. There is a post office, telegraph station and police station.

Rio Bueno was once an important shipping roadstead. A plentiful supply of water can be obtained a short distance up the river. It contains an Episcopal church and a police station. There are other villages in the parish of some importance, namely, the Rock, Salt Marsh, Sawyers and Ulster Spring. The last named village has become a place of importance. The land is very fertile and there are numbers of prosperous small settlers in the district. There is a large Episcopal church at a place called Spring Garden in the immediate vicinity of the village; a Wesleyan chapel and a Baptist chapel. A large schoolroom is attached to each of these places of worship which are well attended by the children of the peasantry. There is a constabulary station and a telegraph office in this district.

The productions of this parish are principally sugar and rum, pimento, coffee and ginger and a small quantity of dyewoods. The parish is noted for its fine flavoured rums the prices obtained for which have enabled many of the estates to keep up cultivation in spite of adverse seasons and when the price of sugar did not repay the cost of production. The estates have all along and still have a comparatively plentiful supply of native labour. By the in-givings of 1837 Trelwany contained 76 fine sugar estates, two coffee plantations and several pens and settlements. It was then said that the parish produced more sugar than any other parish in the island. The cultivation of bananas is considerable.

The area is 332½ square miles. According to the census of 1911 the population of the parish is 35,463; 16,432 males and 19,031 females.

ST. JAMES.

This, one of the smaller parishes of the island, was named after the Duke of York (afterwards James II). Montego Bay, the most important town in the parish ranks next to Kingston and Port Antonio in point of population. The chief buildings in the town are the court house, the Episcopal church, with the monument to Rosa Palmer by Bacon, and Trinity chapel, the Presbyterian church, the Roman Catholic Church, the chapels belonging to the Wesleyan and the Baptist denominations, the custom house

and the old barracks. The terminus of the railway line from Kingston is at Montego Bay.

The sanitary condition of the town has been much improved by the filling up of the swamp adjoining the creek, which had been a nuisance of long standing. There is a large market, and extensive mercantile stores indicate the commercial importance of the town.

Montego Bay was called "Manteca Bay" by the Spaniards from its being the great emporium for lard. Sir Hans Sloane states that the boiling of swine's flesh into lard constituted the early commerce of the place. The bay is an open roadstead and the anchorage is quite safe during the period of the ordinary land and sea breezes which range from N.N.E. to S.E.; but between November and March, when northers sometimes blow in, accompanied by a heavy sea, a second anchor is sometimes necessary and accidents have been known to occur. Sea-bathing is a great institution at Montego Bay, the inhabitants claiming that the "Doctor's Cove" and the White Sands are the best bathing places in the island. The town has a supply of excellent water. There is an ice factory and a telephone system in the town, which is lighted by acetelyne gas.

The surrounding hills are dotted with fine residences, some of which like Grove Hill (mentioned in "Tom Cringle's Log") have historic interest.

The Spring Hill Hotel, overlooks the Bay while adjoining it is Pleasant Hill, the Montego Bay Secondary School, with accommodation for boarders as well as day scholars.

The productions of this parish are principally sugar, rum, coffee and bananas.

The increase in the acreage under cultivation in bananas is rapidly increasing

At Ducketts, Seven Rivers, and Chesterfield, in a district of large rainfall, are considerable estates in banana cultivation, while the United Fruit Company have recently put into cultivation a large area at Mocho, near Catadupa station.

Cambridge, now the second place of importance in the parish, owes its position entirely to the fruit cultivation in its vicinity.

The provision of a road from Catadupa station into the interior has immensely stimulated the development of a district rich in agricultural resources, while the land in the Montego Bay River Valley is eagerly sought and rapidly rising in value.

A fine central factory has been built by the North-side Estates Company, at Little River, and there is a factory at Rose Hall.

The area is 234 square miles. According to the census of 1911 the population of the parish was 18,767 males and 22,609 females.

HANOVER

Kingston and Port Royal excepted, this is the smallest parish in area in the island. When it was formed the Assembly wished to call it St. Sophia in honour of the mother of George I., but in this it was over-ruled by the Council, and the name was chosen with reference to the reigning family in England. The only town, Lucea, is one of the most picturesque of the towns of Jamaica. It contains amongst its principal buildings a handsome court house, the Episcopal and Presbyterian churches and schools, and chapels belonging to the Wesleyan and Baptist denominations and a market. The Episcopal Church is beautifully situated at the entrance of the fine harbour. The whole western shore of the landlocked harbour is fringed with houses and the hills above are studded with residences embowered in foliage which are fanned the live-long day with the pure, fresh sea-breeze. The harbour, although of small dimensions, is one of the best harbours on the north side of Jamaica. Its entrance is about three cables wide, but within, it sweeps round into a most picturesque basin, about three quarters of a mile in diameter, capable of receiving vessels of the largest size. The banana trade has attained to considerable dimensions here, while the export trade in yams to the ports of the island and the Isthmus is vigorously maintained. Fort Charlotte, which was built for the defence of the harbour, stands on the peninsula that over-looks the channel. In the barracks is kept Rusca's school, which affords secondary education for boys and girls. The former prison buildings are used as constabulary barracks and almshouse.

The village at Green Island, further westward, is a shipping port in which are Episcopal and Presbyterian churches, and a Baptist chapel. Of recent years this township

has witnessed considerable development chiefly of the banana trade.

On the other side of Lucea, about 8 miles eastward, Mosquito Cove is buoyed and is a port of call.

There are some very valuable grazing pens in this parish, of which the best known is Knockalva, which is between 4,000 and 5,000 acres in extent. A traveller who visited this property in 1866 wrote in a work subsequently published by him, that "the manager had introduced the Hereford breed and shewed grass-fed oxen of fine form and enormous size, which would attract admiration and possibly carry off prizes at the great English cattle shows." Shettlewood, Ramble, Haughton Grove, Burnt Ground and Chatacoom Castle are amongst the other most valuable breeding pens in this parish. Shettlewood is now famous for its Indian cattle which are preferred by planters for working purpose to any other description, owing to their activity and hardihood as well as their immunity from the attacks of ticks.

The parish is mountainous and well watered, the highest summit is the Dolphin Head, which affords a good land-mark for mariners.

The productions of the parish are principally bananas, sugar and rum, pimento, ginger and arrowroot. The peasantry are chiefly employed in planting ground provisions, of which the 'Lucea yam' enjoys a great reputation in the island.

The area is 167 square miles. According to the Census of 1911 the population of the parish was 17,615 males and 19,817 females.

WESTMORELAND.

Westmoreland was so called because it is the westernmost parish in the colony.

Savanna-la-Mar, the chief town, is one of the most important towns in the island in regard to the extent of its commerce. The chief places of worship are the Episcopal church, the Presbyterian church, the Baptist chapel and the Wesleyan chapel. Distributed through the parish are at least 20 large and substantial places of worship belonging to all the principal Christian denominations. The town is supplied with water from one of the numerous springs which rise from the rock at Sweet River Pen, four miles distant. A drinking fountain and a horse trough were presented to the town by the late Mr. E. J. Sadler: a commodious new market was opened during 1892. There is also a telephone service and an ice factory. A reading room has been established and there is a Masonic Lodge and a Forester's Court.

Contiguous to the town of Savanna-la-Mar is Manning's Free School, managed by a local board under the Jamaica Schools Commission, which offers the means of obtaining a liberal education, and takes a good place among the educational institutions of the island.

The sad fate of Savanna-la-Mar in the hurricane of 1744 can never be remembered without horror. "The sea bursting its ancient limits overwhelmed that unhappy town and swept it to instant destruction, leaving not a vestige of man, beast or habitation behind. So sudden and comprehensive was the stroke," says Bryan Edwards, "that I think the catastrophe of Savanna-la-Mar was even more terrible, in many respects, than that of Port Royal."

Besides Savanna-la-Mar there are Bluefields, Parker's Bay, Scott's Cove, and Negril as shipping places, and several small townships. Bluefields was the site of the Spanish town of Oristan, and was for a time the residence of Gosse the naturalist. The "Spanish road from Bluefields Bay to Martha Brea, by the head of the Great River," as Long wrote, is said to be still in existence.

Some 10,000 to 12,000 acres of the parish are morass lands, which however afford maintenance in dry weather to numbers of stock. Making allowance for this, fully three-fourths of the remainder of its area consists of hills of moderate elevation, amongst which many of the chief breeding pens are located, the remaining one-fourth being lowlands of alluvial formation in which are situate the sugar estates.

Of late years an impetus has been given to the growing of sugar cane for which the parish has always been famous and in 1909 a large factory was established at Frome, at which the canes grown on Belle Isle, Fontabelle and Frome are made into sugar.

Westmoreland is still fairly wooded, and has long been remarkable for the regularity of its annual rains, a natural advantage enabling its agricultural operations to be carried on without much fluctuation and to the great advantage of its labouring population.

The parish is also well watered by numerous rivers and streams, the principal of which are the Negril, New Savanna, Morgan's Gut, Smithfield, Bowen's River, Bluefields, Robins, Roaring River, Great River and the Cabaritta, the latter of which is navigable for boats of about 8 tons for some 12 miles from its mouth.

There is a considerable Coolie settlement at a place called Paul Island, where the marsh lands are suitable for the growth of rice. The coolies successfully grow large quantities of that article and sell it at remunerative prices to the shopkeepers in the neighbourhood. Considerable business is also done in logwood.

Coffee and ginger are cultivated to some extent in the higher lands and the abundance of logwood trees, as well as of flowering or fruit trees throughout the pens or other settled lands, afford encouragement to the keeper of bees. Rum and sugar are the chief products.

Between 16th and 18th November, 1912, the parish was visited by a hurricane which caused destruction and destitution throughout the parish: only one life however was reported lost.

Owing to the great destruction of houses and the need for accommodation for the poorer classes of persons the Parochial Board erected six tenement buildings, four on the Poor House land and two at Newmarket.

The area of the parish is 308 square miles. The population in 1911 was males 31,795 and females 34,661, the increase for the last twenty year-period being 13,006.

ST. ELIZABETH.

Saint Elizabeth, one of the largest parishes, was probably named in honour of Elizabeth, wife of Sir Thomas Modyford. It comprises an area of 462 square miles.

The chief town and shipping port is Black River, situated at the mouth of the river of the same name. The appearance of the town has been very much improved during recent years. More business is transacted in Black River than in most places of the same size, while its unsavoury reputation for unhealthiness is perhaps scarcely warranted by the Registrar General's statistics. The principal buildings are the court house, the public general hospital—both of which are situated at some distance to the westward of the town itself—the parish church, the prison and the market. The court house presents a fine appearance from the sea and at once attracts the attention of the visitor. In the parish church are many interesting memorial tablets recalling to the memory of the living the many good qualities of the departed Saint Elizabeth gentry. The handsomest of these mural tablets are those on either side of the chancel to the memory of Caleb Dickenson and Robert Hugh Munro, founders of the Munro and Dickenson's Trust. The market place is a plain but graceful iron structure; excellent markets are held twice a week, on Wednesdays and Saturdays. The town enjoys an ample house to house supply of pure water brought from the Y. S. river. It is lighted by electric light, and was the first town in Jamaica lighted by this means.

An interesting feature of the town of Black River is the large quantity of logwood piled up on the wharves awaiting shipment. The bar at the mouth of the river is a serious hindrance to the speedy loading and despatching of the vessels; the lighters which convey the cargoes from the wharves on either bank of the river to the shipping frequently ground on the bar, causing waste of time and much extra labour. At Lacovia there is a factory for the extraction of dye from logwood.

The principal villages of the parish are Lacovia, Santa Cruz, Balaclava, Newport, Siloah and Malvern. There is also a Maroon township called Accompong on the northern boundary of the parish.

St. Elizabeth is more diversified by mountains and plains than any other parish of the island. The northern and north-eastern parts are mountainous while an extensive plain occupies the central and southern districts. Through this plain, dividing it into two sections, runs from north to south the Santa Cruz range of mountains; at the southern extremity the range terminates abruptly in a sheer precipice which descends 1,600 feet to the sea.

The Santa Cruz Mountains are well known for their charming climate which is at the same time both cool and dry. The thermometer seldom rises above 80° F. in the hottest months, while there is an entire absence of that excessive humidity which is a serious drawback to much of the higher land of the island. The district is a centre of educational activity. Foremost among the schools situated in the bracing air of these mountains, are the two schools of the Munro and Dickenson's Trust, that for girls at Hampton

and that for boys at Potsdam, and the Moravian Female Training School at Bethlehem. On the slope of the mountain is the Manning Home for waifs and stray children.

At Malvern there are boarding houses. The lowlands of the parish may be divided into three parts; one portion—and that a very considerable one—being taken up with morass; a second consisting of savannahs; and the third comprising some of the finest country for stock raising and grazing purposes in the island. Rising far up in the northern interior of the parish, tumbling down through the gorges there until it reaches the plain and then sluggishly creeping through the morass, comes the Black River. The stream is navigable for lighters for nearly 30 miles of its course and forms a valuable highway for the conveyance of the produce of the upper parts of the parish to the sea, while goods are conveyed by the same means from the seaport to the interior. The Grosmond and Y. S. tributaries have been opened up. The river abounds with crocodiles; while in it as in the less important streams which flow through the morass, fish are plentiful. The Y. S. Falls are an object of interest to sightseers, as are the Magotty Falls on the Black river.

The savannahs deserve some notice. In dry weather they are huge brown wastes but after rain no land recovers more quickly or is more wonderfully fertile. The well-being of the inhabitants of these districts therefore depends more directly than elsewhere on the rainfall. St. Elizabeth is the largest corn-producing parish in the island, most of it being grown on the savannahs, where, in good seasons, the yield is very large. Parts of the savannahs are also famous for horses, which are reckoned amongst the best bred in Jamaica. These are raised principally by settlers, some of whom possess beautiful specimens of the stud horse and brood mare. The abundance of corn naturally enables the owners to feed their stock well, and they declare that there is a peculiarly nutritive property in their savannah grass, which renders it superior to any other for horses.

The lowlands of St. Elizabeth boast of such properties as Gilnock, Font Hill, Pepper, Longhill, Goshen, Friendship and Warminster; these and many others being famous for the quality of their cattle, horses and mules.

St. Elizabeth produces sugar, rum, pimento, coffee, logwood, ginger and tobacco, besides the minor products. Some districts are particularly well adapted for the cultivation of ground provisions, of which there is usually a good supply throughout the parish. Recently experiments have been made in banana cultivation with good hope of success.

At Santa Cruz there is a well organized alms house, with an infirmary attached. Poor relief is also afforded to some extent on the out-door system. The parish is traversed in all directions by excellent roads. One hundred and ten miles of parochial roads were transferred to the Public Works Department under Law 17 of 1890, thus leaving a larger amount of local funds for the improvement and maintenance of the roads which still remain in the care of the parochial authorities.

According to the Census of 1911 the population was 36,967 males and 41,733 females. The increase since the Census of 1891 was 16,444.

MANCHESTER.

Manchester was separated from the adjoining parishes of St. Elizabeth, Clarendon and Vere in 1814, and was named after the Duke of Manchester who was governor of the island at the time. In August, 1816, a meeting of the committee of the vestry was held to arrange the erection of a court house, church, gaol and parsonage to make the town of Mandeville. Sixty acres were purchased from Robert Crawford, owner of Caledonia property, and thus Mandeville, the chief town, and one of the prettiest towns in the island, came into being. Its situation on the top of a mountain 2,200 feet above sea level is very picturesque and the tidiness and cleanliness in which the buildings are kept are remarkable. It is in a central part of the parish and contains an Episcopal church, a Wesleyan chapel, a chapel belonging to the London Missionary Society, a Baptist chapel, a free school, a court house, a constabulary station and a public general hospital, a large and convenient market and an aerated water factory. It has billiard, tennis, golf, cricket, and ladies clubs, and polo and gymkhana grounds.

It has a very good water supply, two large reservoirs have lately been built, holding capacity being 800,000 gallons. The hotels, boarding-houses and hospital are supplied with water from the reservoir. There are two private schools one for girls and one for boys, and the middle grade school managed by the trustees of the Manchester schools. There is a branch of the Bank of Nova Scotia.

Mandeville is much frequented as a winter resort for visitors from Great Britain, Canada, and the United States. The climate is salubrious and the temperature ranges from 70° to 75° in the day time, to 48° to 54° at night.

Porus is a populous village; containing an Episcopal church, a Baptist chapel and a fine chapel of the London Missionary Society, a court house and a constabulary station. Christiana is the centre of the ginger growing district. Alligator Pond is a shipping port of some importance. There are four railway stations in the parish: Porus, Williamsfield, Kendal and Green Vale. The nearest station to Mandeville is Williamsfield, four miles distant. The Manchester orange has obtained a name in the American markets for its flavour, and is exported to a considerable extent. The principal products of the parish are coffee, pimento and ginger.

The area of the parish is 302 square miles. According to the Census of 1911 the population of the parish was 65,194; 30,931 males and 34,262 females.

CLARENDON.

This parish was named in honour of the celebrated Lord Chancellor. It is one of the largest parishes in the island and for electoral and revenue purposes it is divided into three districts, upper, middle and lower.

The principal towns or villages in the upper district are Chapelton, Rock River and Frankfield; in the middle district, May Pen, Four Paths and Hayes; and in the Vere or lower district, the Alley and Milk River. The shipping ports and wharves are at Salt River, Carlisle Bay and Milk River.

Chapelton is a town of considerable commercial importance and a trade in coffee is carried on there. A few years ago large quantities of sugar, cultivated by small settlers, cured in barrels, used to be sold in Chapelton, but that trade considerably declined during the recent years of depression in the sugar market. On better prices being obtained, however, the peasantry immediately resumed the use of the small sugar mills (commonly called "John Crow Mills," from the number of stock formerly killed in working them and devoured by the John Crows.) The owners of these mills had to submit to their being inspected and certified in terms of "The Prevention of Accidents at Sugar Mills Law," which was passed in 1888. Altogether there are about 800 small sugar mills in Clarendon, of which over 600 are in the Upper District.

Chapelton is the railway terminus of the Rio Minho branch of the Jamaica Railway, and contains an Episcopal church, St. Paul's, recently restored; an Independent chapel Salem, in connection with the London Missionary Society; a small Presbyterian church; a court house, (containing offices of an Assistant Collector of Taxes, and the Clerk of the Courts, both stationed in Chapelton) constabulary barracks, and Inspector's quarters, a public general hospital, public works office and store, a large covered market, post and telegraph office, and several large stores. The population of Chapelton is about 900. It stands on a small hill which is naturally drained on every side, and is remarkably healthy, as indeed are undoubtedly the whole of Upper Clarendon and the Clarendon mountains.

Rock River is a small village about five miles to the east of Chapelton, near a sugar estate of the same name, and contains a constabulary station and a few shops.

Frankfield is an important village 12 miles to the northwest of Chapelton on a good driving road, and is the centre of a large and flourishing agricultural district. In the village are a church, a post office, a dispensary regularly attended by the District Medical Officer from Chapelton, and several shops.

May Pen is the head station of the parish, under Law 20 of 1867, and in the court house are the courts office, collectorate and parochial offices. There is a police station, an iron market, and a post and telegraph office. It is an important railway station and collects the traffic of a large part of the valley of the Rio Minho. Close to the station the river (here called the Dry River from the fact of its bed being dry for the greater part of the year) is spanned by a handsome lattice girder bridge, used for both road and railway. A large trade in logwood is carried on. The public general hospital has been closed and the building loaned to the parochial board by the government for

the purposes of an alms house to take the place of those at Chapelton and the Alley which have been closed.

Four Paths is situated on the main road about four miles west of May Pen. There is a railway station in its immediate vicinity. The trade of the place has fallen off of late years. It has a public market, constabulary station and a post office.

Hayes is a small village about seven miles south of May Pen, built on a savannah of the same name. It would be difficult to account for its existence on so arid and unproductive a site, but it has nevertheless a substantial public market, generally well attended and supplied, post office, and numerous small stores. The water supply has been improved at the instance of the parochial board by the erection of a force pump in the only available well in the locality.

Milk River (formerly called The Rest) is reached by an excellent level road, a branch from the main road between Four Paths and Porus, or from Clarendon Park station, a distance of 10 or 11 miles. The village has a church, several good stores, a post and telegraph office, and a constabulary station. The Milk River is navigable for lighters for four or five miles. The custom house and several wharves are on the banks of the river. A large business in logwood and other produce is done there. The river used to abound in crocodiles, but the constant passage of boats has made them scarce. The Milk River Bath (of which an account is given in another part of this Handbook) stands on the west bank of the river about three miles from the village.

The Alley, which was formerly the capital of the parish of Vere (now incorporated with Clarendon) is a small village on the banks of the Rio Minho and is rendered of some importance from the fact of its being in the immediate proximity to a large number of sugar estates. In this district may be seen some of the finest cane cultivation in the island, the estate of Money Musk, Amity Hall, Bog, Moreland, Hillside, and having very large acreages in canes, while they have also all the latest and most improved machinery and appliances for the manufacture of sugar and rum. The village contains an interesting old Episcopal church, a court house, (with a sub-collectorate), constabulary station, a post and telegraph office; and in the vicinity is a large public general hospital and poor house. [For an account of the irrigation works see Vere Irrigation, Part XIII of this Handbook.]

Carlisle Bay is noted as being the spot where the colonial militia met the French under DuCasse in 1694, and after three days' gallant resistance drove them to their ships with a loss of 700 men. The invaders had already for nearly a month plundered and destroyed the sea-side plantations and murdered or kidnapped the gentry and their slaves. This, in words of Bridges, was "the most formidable attack which was ever made upon the shores of Jamaica."

Sawkins says in his report on the Geology of Jamaica: "The geology of this parish is perhaps more interesting than that of any in the island. The Clarendon mines at Charing Cross and Stanford Hill afford a nearer approach to true lodes or mineral veins than any of the other metalliferous deposits of Jamaica." Copper mining is now being carried on in the neighbourhood.

There is a very fine main road from Chapelton to Cave Valley in St. Ann, and under the provisions of Law 17 of 1890, the Public Works Department has taken over and reconstructed some 90 miles of the most important of the old parochial roads, thus making wheeled traffic possible to nearly every district of the parish.

The Bull Head, rising to a height of 3,600 feet or thereabouts and situated near its northern limit, is the highest land in the parish. This mountain is as nearly as possible the centre of the island and is a conspicuous object to vessels making the island from the south. The ascent is easy and the view from it on a clear day magnificent. It commands the entire parish; to the north lies the parish of St. Ann; to the west the Manchester hills, and eastward an uninterrupted prospect to the Blue Mountain Peak.

The Round Hill in Vere is a conspicuous object arising out of the plain, and seen from great distances.

The climate of Upper Clarendon including the Mocho Mountains is unsurpassed in the island, and the scenery is beautiful.

The prosperity of the parish generally has suffered and is suffering from the abandonment of sugar estates, over thirty having reverted to bush in the upper district within the past generation, while nearly every year the number decreases on the seaboard. In 1837 there were 69 sugar estates in full working order in the parish (including the district of Vere), and in addition there were then 38 coffee plantations. There is a central sugar factory at Amity Hall in Vere.

A fine tobacco plantation was for some years worked principally by Cubans at Morgan's Valley, near Chapelton (once the property of Sir Henry Morgan, who settled it

and called it after his own name). It was abandoned some years ago, but tobacco cultivation on a considerable scale has since been resumed. Several indigo walks were established in the Vere district by the early English settlers, but they had to be abandoned in consequence of the heavy import duty which was levied on the article in the English market. At one time 50,000 cwts. of indigo per annum were produced from these indigo plantations.

The area of the parish is 474 square miles. According to the census of 1911 the population of the parish was 73,914; 36,412 males and 37,502 females.

ST. CATHERINE.

This parish derived its name from the Queen of Charles II. In the first act in which it is mentioned it is correctly spelled Katherine. It consists of what before the passing of Law 20 of 1867 constituted the parishes of St. Catherine, St. Dorothy, St. John and St. Thomas-in-the-Vale. The chief towns and villages are Spanish Town, Old Harbour and Linstead.

Spanish Town, or Saint Jago de la Vega, was the ancient capital of the island. It is situated on the banks of the Rio Cobre, from which it derives its water supply. Amongst the more important public buildings are the old King's House (formerly the official residence of governors of the island), the building formerly used for the House of Assembly and the Legislative Council, the cathedral, the court house, the Record Office, the Registrar General's Office, the Middlesex and Surrey County Gaol, the St. Catherine district prison, the Lepers' Home, and the constabulary depot buildings. There are two Episcopal churches, namely, the cathedral church, dedicated to St. Catherine, and Trinity chapel. The remains of several of the Governors of Jamaica and of their wives and of the more eminent early settlers of the colony are interred within the cathedral or in the church yard attached. There are several good monuments by Bacon, the Effingham tomb and others. The town also contains a Roman Catholic church, and chapels attached to the Wesleyan and Baptist bodies; commodious markets, an alms house and a public general hospital, Beckford and Smith's Middle Grade School, partly endowed. There is also a town hall, in which there is a stage for dramatic representations, and a club; the Hotel Rio Cobre is owned by the Government. There is a telephone service. At this town is the junction of the north and west branches of the railway.

Among the antiquities of the town may be noted the marble statue of Rodney, by Bacon, and the two large bronze guns which were captured by the Admiral in 1782 from the French fleet under Count de Grasse; the "Eagle House," once surrounded by a moat, and formerly the residence of the Earl of Inchiquin when governor of Jamaica; a tamarind tree in the grounds of the Infant School, which local tradition points out as that under which Colonels Tyson and Raymond were shot for mutiny in 1660, and the foundations of the old Spanish White Cross Church and of the Convent attached to it, which may still be traced in the street named thereafter.

The drive from Spanish Town to Bog Walk, past the power station which supplies the electric motive power for the Kingston tramways from the Rio Cobre, is a favourite with visitors. The "Bog Walk" affords one of the finest bits of scenery in the island.

"A torrent gushing in misty depths and fighting its downward course among scattered rocks, the narrowness of the long ravine or den through which it rushes, and the steepness and loftiness of the precipices on either side, with the richness and variety of tropical vegetation growing in all the exuberance of its foliage on every spot where a plant can rest—these features unite in imparting to the scene all the imposing effect of blending beauty and grandeur."—(*King*.)

Old Harbour contains a court house, an Episcopal church, a Wesleyan chapel and a public market. About a mile from the town stands the old parish church, built by the earlier English settlers. The town is supplied with water from a river six miles off. The Ludford Endowed School is also here.

Old Harbour Bay was formerly called "Esquivel," after the Spanish Governor of that name, who established it as a ship-building port. It possesses a fine harbour studded with little low cays and rocky islets. When Columbus discovered it, it was inhabited by thousands of Indians, the most intelligent and the most civilized of all the aborigenes of the Antilles that he had seen. There are an Episcopal church and a Baptist chapel in the village.

Linstead, which is situated in the centre of an almost circular hollow, shut in by mountains, is a thriving township. It contains a court house a Presbyterian church, a Wesleyan chapel, a Public General Hospital, an alms house and many fine stores. There is a good water supply and a market. An Episcopal church and a Baptist chapel are in the vicinity. The railway extension to this place

developed the great resources of the surrounding country and rendered it one of the most important trading centres in the island. The Episcopal church near Linstead has become historical from the circumstance of all the public records having been deposited there under a militia guard during the period of the anticipated French invasion of 1805. Ewarton is the terminus of one branch of the railway which joins the Port Antonio branch at Bog Walk.

Six miles from Spanish Town to the south-east is Passage Fort, the landing place of the English conquerors in 1655, and the place where the Rio Cobre empties itself into the sea. It was once a port of some importance and was connected with Spanish Town (then the seat of government) by a line of stage-coaches; it is now a fishing village, with a few houses, the principal building being a small chapel belonging to the Baptist denomination.

About four miles from Passage Fort and six miles from Spanish Town lies the sea-side village of Port Henderson, which was once a place of considerable resort for change of air. It contains a mineral spring which is enclosed as a bath. The buildings afford comfortable accommodation for visitors. There is a main road between Spanish Town and this place. In the immediate neighbourhood is the quarantine station (of which a full account is given in another part of this work). On the hill at the back of the lodgings is Rodney's lookout, from which the admiral kept watch over the adjacent sea. On the grounds of the quarantine station (Green Bay) there is still the tomb of Lewis Galdy who was "miraculously saved" from the earthquake of 1692.

Between Port Henderson and Passage Fort (on the seaward) is Fort Augusta, which was once a military station. All ammunition and other combustible materials used to be deposited here by vessels proceeding to Kingston. The fort was planned by Captain Knowles (afterwards governor of the island) for the protection of Kingston.

There are many grazing pens in the plains of St. Catherine which are remuneratively managed as sheep and cattle farms; and the salt ponds district (lying between Spanish Town, Port Henderson, and Passage Fort) is noted for the excellent quality of its mutton, and for the fine fish taken from the large salt pond, especially the well known calipeva. The inhabitants of Spanish Town were formerly supplied with salt to the extent of 5,000 bushels a year from the pond referred to.

The principal products of the parish are sugar, rum, coffee, bananas, oranges, grape fruit, corn, tobacco, cocoa, grass and milk. The Rio Cobre canal which irrigates the St. Catherine's plains has proved a boon to the inhabitants in rendering profitable the cultivation of bananas and other fruits and various kinds of cereals. The cultivation of fruit, especially bananas, is fast superseding the sugarcane. There is an important factory of logwood dye at Spanish Town.

The area of the parish is 470 square miles. According to the Census of 1911 the population was 88,104, of whom 43,359 were males and 44,745 were females. The increase since the Census of 1891 was 22,595.

PAROCHIAL BOARDS.

THE Parochial Board of each parish except Port Royal, consists of the person representing the electoral district in the Legislative Council, the Custos of the parish, and from 9 to 15 persons elected by the taxpayers who are qualified to vote at elections for members of the Legislative Council. In 1900 Port Royal was constituted a separate parish for all purposes of municipal administration, and a Board was formed consisting of the Commodore (Chairman), a Naval Officer, Military Officer and two elected members (Law 13 of 1900). When the naval station was abandoned the senior military officer became chairman. In Kingston the corporate name of the Board is the "Mayor and Council of Kingston;" the Chairman of the Board is styled "Mayor of Kingston" and the members are called Councillors.

The Parochial Boards manage all the local affairs that had formerly been in the hands of the Municipal and Road Boards. This change was effected by Law 16 of 1885 now repealed, with amendment Laws; and Law 17 of 1901 is the consolidated Law.

THE MAYOR AND COUNCIL OF KINGSTON.

The Council consists of twelve elected members

The Custos and the member of the Legislative Council for the parish are members *ex officio*.

PART XI.

AGRICULTURAL AND PASTORAL.

IMPERIAL DEPARTMENT OF AGRICULTURE.

FOR THE WEST INDIES.

In 1898, in accordance with the recommendations of the West India Royal Commission, a Special Department of Agriculture, supported by Imperial Funds, was created for the West Indies and placed under the charge of a Commissioner, with headquarters at Barbados. The Commissioner is in charge of the Botanic Gardens, Stations for Cane Sugar Experiments Agricultural Schools and Local Experiment Plots at Grenada, St. Vincent, St. Lucia, Dominica, Montserrat, Antigua, St. Kitts-Nevis and the Virgin Islands. His services are also available as Consulting Officer in agricultural matters to the Governments of Jamaica, British Guiana, Trinidad, British Honduras, Bahamas and Bermuda. He visits these colonies at the invitation of the Governments concerned when his advice on agricultural matters is desired.

The following are the principal officers on the staff of the Department:—

Imperial Commissioner of Agriculture for the West Indies—Francis Watts
C.M.G., D. Sc., F.I.C., F.C.S.

Scientific Assistant—W. R. Dunlop.

Entomologist—Henry A. Ballou, M.Sc.

Mycologist and Agricultural Lecturer—W. Nowell, D.I.C.

Chief Clerk—Alleyne Graham Howell.

Publications.—Official Journal, "The West Indian Bulletin," issued quarterly, "The Agricultural News," issued fortnightly, with numerous Pamphlets, Leaflets, &c., &c.

The West Indian Head Quarters of the Department are at Barbados, where the Commissioner resides.

DEPARTMENT OF AGRICULTURE.

The following establishments are maintained under the Department of Agriculture:—

1. *Hope Gardens and Agricultural Experiment Station*, near the foot of the hills in the Liguanea Plain, $5\frac{1}{2}$ miles from Kingston, consist of about 200 acres under cultivation. The inner portion is laid out as a botanical garden and experimental station. There are large nurseries containing plants, such as cocoa, citrus, rubber, nutmeg, tropical plants, fruit, etc., a large assortment of ornamental foliage and flowering plants. Elevation between 600 and 700 feet. Annual mean temperature 76.1° Fah.; average rainfall for 32 years is 54.74 inches.

2. *Castleton*, the Botanic Garden in the parish of St. Mary, on the road connecting Kingston with Annotto Bay, nineteen miles from Kingston and eleven from Annotto Bay, contains a large collection of tropical plants. The chief features are the palmetum and a collection of economic, spice and fruit trees. Elevation 496 feet. Annual mean temperature 75.5° Fah.; average annual rainfall 117.89 inches for 39 years.

3. *The Hill Gardens*, in the parish of St. Andrew on the slopes of the Blue Mountains about 21 miles from Kingston, by way of Gordon Town.

Elevation, 4,900 feet. Annual mean temperature 62.3° Fah.; average rainfall 103.97 inches both for 42 years.

4. *Kingston Parade Garden*, the public pleasure garden of Kingston, is kept up with shade and ornamental trees, flowering plants, and tanks for aquatics. Area 7 acres. Elevation 60 feet. Annual mean temperature 78.6° Fah.; average rainfall for 34 years is 32.24 inches.

5. *The Public Gardens*, Kingston, in the neighbourhood of the Public Buildings, with lawns, flower beds and palms.

6. *The Bath Garden*, St. Thomas-in-the-East. This old garden has been resuscitated and is now used as a centre for the propagation of cocoa.

7. *King's House Garden and Grounds*, 4 miles from Kingston, contain about 177 acres, of which about 30 acres are kept up as an ornamental garden attached to the official residence of the Governor. Many valuable economic plants and fruit trees are also under cultivation, as well as the rarer tropical palms and orchids. Elevation 400 feet. Annual mean temperature 78.4° Fah.; average rainfall for 19 years is 47.31 inches.

The Director of Agriculture issues annually "The Bulletin of the Department of Agriculture," which was originally the Bulletin of the Department of Public Gardens and Plantations. The Bulletin is supplied (at 1/ per annum) to residents in the island, and is a most useful agent in the dissemination of information among all classes.

GOVERNMENT FARM SCHOOL.

The Farm School, situated at Hope, was founded in 1909. Buildings were altered and new ones put up, affording accommodation for 25 boarders. The first term opened January 25th, 1910, with a full complement of students. Provision was made in 1911 for receiving 12 additional students at the school, and in 1912 for 8 more.

The Hope Estate of over 1,700 acres has recently been purchased, and a number of well-bred animals have been purchased for the farm.

The object of the Institution is to give young men and lads of over 15 years of age a sound knowledge of the principles of agricultural science and as complete a training as possible in all branches of practical tropical agriculture. The course includes:—1. Cultivation of staple crops and vegetables; 2. General management of live-stock; 3. Dairying; 4. Poultry rearing; 5. Bee-keeping; 6. Veterinary work; 7. Farriery; 8. Carpentry; 9. Land Measurement. Instruction is also given in English, Arithmetic and Book-keeping.

A full course extends over three years and at the end of that time successful students are granted a certificate.

All students must pay in advance a fee of £5 per term to cover the cost of board. There are 3 terms in the year of 12 weeks each. Tuition is free. A candidate for admission must furnish:—

- (a) Evidence of being over 15 years of age.
- (b) A certificate of good character from a minister of religion or a justice of the peace.

Applications for admission, or for further information, should be addressed to the Director of Agriculture, Hope Gardens, Kingston P.O.

Director in Charge—Hon. H. H. Cousins, M.A., F.C.S.

STAFF—Head Master—P. W. Murray; Assistant Masters—H. G. Coote and A. F. Thelwell; Veterinary Consultant—Geo. Rushie Gray, B.Sc., M.R.C.V.S.; Farm Superintendent—P. W. Murray (acting). Foremen—E. U. Lewis, G. T. Johnson.

VISITING INSTRUCTORS—Beekeeping—C. N. Eddowes; Medical Officer—Dr. Lewis Crooks. Drill Instructor—Sgt. Dysche, M.P.S.C.

GOVERNMENT LABORATORY.

The Government Laboratory was in 1901 made a branch of the Agricultural service, and is now a part of the Department of Agriculture (*See part V.*)

JAMAICA AGRICULTURAL SOCIETY.

Office—11 North Parade, Kingston.

A Society of Agriculture was formed in 1895, with the Governor as President, the objects being to obtain useful information and disseminate it, encourage improved cultivation of products, improved breeds of stock, and watch over the interests of the agricultural industry generally.

A Board of Management was formed originally, consisting of the elected members of the Legislative Council, who were members of the board *ex officio*, 14 members elected by the society, and 14 members nominated by the Governor, who held office for three years.

Changes have been made and the Board now consists of the Governor as president, the Director of Agriculture *ex officio*; two vice-presidents, and fifteen members elected by the society.

The Society receives a grant from the Government.

The subscription for membership of the Society is four shillings per annum, foreign members five shillings.

BOARD OF MANAGEMENT.

His Excellency the Governor, *President*.

Elected.—Hon. Sir J. Pringle, K.C.M.G., Clonmel, and Hon. P. C. Cork, C.M.G., Barbican, St. Andrew, *Vice-Presidents*; Robert Craig, Clarendon, Hon. D. Campbell, St. Catherine, A. W. Douet, St. Catherine, G. P. Dewar, Trelawny, Jas. Dougall, St. Ann, Rev. W. T. Graham, St. Mary, H. Q. Levy, Clarendon, A. C. L. Martin, Manchester, E. W. Muirhead, Manchester, Adam Roxburgh, St. Ann, Hon. R. P. Simmonds, St. Mary, Hon. S. S. Stedman, Portland, A. W. Farquharson, Vere, Conrad Watson, Clarendon, Hon. H. H. Cousins, M.A., Director of Agriculture.

Secretary—John Barclay, Salary £400 and travelling expenses.

One of the first matters undertaken was that of organizing local associations of agriculturists in different parts of the island; and there are now 150 affiliated Branch Societies at work in the various parishes. Some of the Branch Societies are important local organizations, holding shows and local competitions in agriculture, and watching over the agricultural interests of their community.

Premiums have been offered for new cultivations of staple products. Seeds and plants together with printed instructions, have been widely distributed. Lectures and demonstrations under the auspices of the Society are regularly given by the various Agricultural Instructors, of which there are now twelve.

The attention of the society was given to the important question of stock-breeding. Two Hackney stallions, one Welsh pony stallion and a number of well bred pigs, goats and poultry were imported from Great Britain, the United States and Canada. The good results of the action of the Board in this direction are now most marked. Premiums were also given for selected stallions and bulls, to stand in certain districts at reduced fees, but these having served their purpose were discontinued. The late Sir Alfred Jones presented to the society in 1903 two Aberdeen Angus bulls and one Shorthorn bull, and in 1906 presented two dairy Shorthorn bulls to the government which were placed in the care of the society. His late Majesty King Edward VII. presented the

island with a Hereford and a Shorthorn bull from his herds at Windsor, and these were placed in the care of the society.

The society publishes a monthly journal, the first number of which was issued in January, 1897. It is sent free to all members of the society and of the local branches and has an issue of about 5,600 copies per month. The society has undertaken a number of experiments in various products, has caused special investigations to be made, when necessary, into obscure diseases among live stock and fruit trees, has sought to encourage the extension of present industries and to start new ones and to open up fresh markets for island products. The office of the society is regarded in the light of a bureau of agricultural information, and constant applications, local and foreign, are received and dealt with by the staff on almost every conceivable subject connected with the agriculture of the colony. The office has also proved of great use as a medium for the supply of agricultural wants, and for the bringing of buyers and sellers of live stock, plants and seeds together. In 1901, the society appointed local agricultural instructors in Manchester, St. Ann, Trelawny, and Clarendon, with the principal aim of improving the cultivations, and the quality of the produce of small settlers, and generally to advise them in their agricultural operations. In 1906, on the recommendation of the Society an arrangement was made by the Government with Elder Dempster and Co. for £500 per annum to be paid in lieu of the appointment of Instructors under the Direct Line Contract, and with this amount an extension of the work of the society's Instructors was arranged. This sum ceased at the expiration of the contract in January, 1911. The number of Instructors, however, has been gradually increased, as this work commended itself to agriculturists.

The following are now the instructural districts and Instructors:—St. Mary and West Portland, W. Cradwick, assistant, E. A. Gunter; St. Ann and Upper Trelawny, E. Arnett; Lower Trelawny and St. James, M. Rennie; Hanover and Westmoreland, R. C. Somerville; West Central, J. Briscoe; North Manchester and Northern, St. Elizabeth, Thomas Powell; South Manchester and Southern St. Elizabeth, H. W. Lynch; Clarendon, S. A. Schleifer; St. Catherine, H. L. Mossman; St. Andrew and Western St. Thomas, A. P. Hanson; East Portland and Eastern St. Thomas, L. A. Wates. The Secretary also acts as Travelling Supervisor of Instructors.

In December, 1900, a Banana Conference, in 1901 and 1905, Orange Conferences and in 1904 a Cotton Conference were held in Kingston under the auspices of the Society.

A competitive scheme for prizes for best kept small holdings is now in force and groups of parishes are being dealt with each year in rotation,—the amount to be awarded each year in three classes being £25 for each parish competing.

The Society also offers prizes for competitions in School Gardens. Grants are also made to Agricultural Shows held under the auspices of the Branch Societies, for some years past, averaging ten shows a year.

The grant for shows and prize holding competitions have been withdrawn during the period of the War.

CULTIVATION.

RETURNS published by the Revenue Department for the year ending 31st March, 1915, and compiled from ingivings made by taxpayers under the provisions of Laws 26 of 1868 and 17 of 1890, show the acreage alienated from the Crown and vested in individuals or Trusts as 2,209,205. Of these 1,221,526 acres are returned as being in wood and ruinate, and 987,679 acres as under care and cultivation. This latter acreage may in its turn be divided into land appropriated to pastoral purposes, and that devoted to agriculture in the more limited application of the term, 709,417 acres of the whole being grazing lands and 278,262 acres of lands which have been subjected to tillage. Of the tilled lands 33,830 acres are under cultivation of cane, and, besides providing for home consumption, the products of this crop exported during the year ended 31st December 1915, were as follows:—

Sugar, 302,885 cwts.	£256,190
Rum, 1,309,103 galls., valued at	£185,456

The area in cultivation of coffee is given as 18,383 acres of the crop lands, and the exports of the berry amounted to 63,624 cwt., valued at £129,104. The area in bananas is shown at 89,477 acres, the output of this fruit reaching the total of 8,156,860 stems, valued at £599,529. Coco-nut palms are shown to cover an area of 30,072 acres, the Export Table giving the shipments at 27,329,650 nuts, valued at £102,486. The only other specific cultivation covering any appreciable area, is that of cocoa, which is returned as 11,432 acres, the exports being 68,487 cwt. valued at £204,321.

The following are the tables showing the area under cultivation in each of the last ten years:—

CATTLE TRESPASS.

THIS matter is regulated by Law 13 of 1888, as amended by Law 14 of 1892, the provisions of which are briefly these: It is the duty of the proprietor of stock (including horsekind, cattle, sheep, pigs, goats, and poultry) to take proper and effective measures to prevent such stock from trespassing on the land of other persons and he is responsible in damages in respect of any injury done by such stock trespassing on the land of other persons provided that within 48 hours of the discovery of such injury the party aggrieved gives notice of the nature thereof to the proprietor or person in charge of the stock, and allows him and his valuers free ingress to the land. No person in occupation of any land abutting on a public road is entitled to recover any damages for trespass by stock being lawfully driven on such road under proper care and control, unless the land is secured by a fence sufficient to keep out ordinary stock of the class of animal committing the trespass. If in any action under this law the owner of the stock proves that his land is enclosed by good and sufficient fences and that he has adopted all reasonable and proper precautions for the confinement of his stock and that they have nevertheless, through some accident beyond his control and which he could not reasonably have provided against, escaped from his land the party complaining will not be entitled to recover any sum unless he can show that he had fenced his land with a fence sufficient to keep out ordinary tame cattle and horsekind.

Any person who wilfully opens or leaves open any gate, or breaks down or injures any fence or other contrivance provided for the purpose of confining any stock, with intent to allow such stock to trespass off the land on which the same is confined, is liable on conviction in a resident magistrate's court, to imprisonment with or without hard labour for a period not exceeding twelve calendar months.

POUNDS.

In 1897 the old Pound Laws 15 Vic., chapter 11, 22 Vic., chapter 17, and sections 1 and 7 of Law 16 of 1872 were repealed, and a new Pound Law, No. 19 of 1897 was passed.

It enacts that the control of all pounds be vested in the parochial board of the parish, and that charges shall be paid out of the General Purposes Fund to which all fees shall be paid in. Parochial boards to appoint keepers and make rules, with the approval of the Privy Council.

The owner of land may impound stock trespassing thereon. Animals to be impounded within 24 hours, unless a Sunday intervenes. The distrainer may claim seizure fees from the owner of any animal or from Poundkeeper when pounded.

The Poundkeeper when owner of impounded stock is known must serve a notice on him and may claim a fee for doing so as also on delivering animal to owner, a fee may be charged and expenses of keep if kept over one day.

Animals are to be kept separate and must be fed.

A separate enclosure must be provided for animals suffering from disease, and such animals may be destroyed, on the order of a Justice of the Peace, and the carcass burned.

Sheep need only be advertized in the Gazette for two weeks, and it is not necessary to advertize goats and pigs. A notice respecting the pounding of such animals must be posted at the pound and at the nearest constabulary station.

Animals may be sold with the consent of a justice of the peace after advertising the proposed sale. The title of a purchaser is secured under the Law. The owner of the animal so sold is entitled to the net proceeds of the sale if proving ownership within one month.

If proceeds do not cover expenses poundkeeper may recover from owner.

Goats, kids, hogs, pigs (or poultry—Law 6 of 1904) may be killed by the person on whose land they may be trespassing—but notice must be immediately given to the owner of the animal, who may have the carcass, which he must remove within six hours or it may be buried, destroyed or removed by the owner of land.

Enticing an animal to trespass, in order to pound it, is an offence under the law. The parochial board is responsible for the death of animals dying from want of food or care, unless there is proof that there was no wilful act of neglect.

It is an offence to illtreat or make use of pounded animals, or to rescue or attempt a rescue of pounded animals.

Animals are not to be impounded singly when there are more than one, to increase the expense to owner or the fees to the distrainor.

All actions under the Law must be commenced within three months of the cause of action. A penalty not exceeding £20 may be imposed where none has been specially provided for and may be recovered by summary process before a resident magistrate or two justices of the peace.

SCHEDULE II.

Seizure Fees to be paid to the Distrainor either by the owner of the animal or by the Poundkeeper as the case may be.

1. (a.) For every mare, gelding, foal, colt, mule, ass, cow ox, steer, heifer, or calf, if seized singly	s. d. 1 0
(b.) For every animal as above if two or three be seized at one time or brought in together	0 6
(c) For any number above three, if seized or brought in together for the first three	1 6
and for each head above that number an additional sum of	0 6
2. For every bull, entire horse, mule or ass, double the rates aforesaid	
3. For every sheep, lamb, goat, kid, hog or pig	0 6
When any animal is kept on any land during a Sunday, the owner of such animal shall be charged double the above rates.	

NOTE—The sums above-mentioned shall respectively include all charges for the keep of an animal.

SCHEDULE III.

Table of Pound fees and of amounts to be paid to the Poundkeeper by the owner of an animal before he is entitled to its delivery.

FOR SEIZURE FEES the amount actually paid by the Poundkeeper to the Distrainor.

FOR POUND FEES—	s. d.
1. For every mare, gelding, foal, colt, mule, ass, cow, ox, steer, heifer, or calf	1 6
2. For every bull, entire horse, mule or ass, double the above rates	
3. For every sheep, lamb, goat, kid, hog, or pig, for the first day of detention	0 6

FOR FODDER FEES payable for each day during which the animals herein-after mentioned are impounded

For every horse, mare, gelding, mule	1 6
For every ass, bull, cow, ox, steer, or heifer	1 0
For every sheep, goat, or pig	0 6

NOTE—There shall be no fodder fees for young animals still following the mother.

For costs of advertizing or publication, expenses actually incurred.

For notice of impounding when given to the owner	0 6

DIVIDING FENCES LAW

PREVIOUS to 1888, the laws on the subject of Dividing Fences were 15 Vic. c. 22 and Section 24 of 15 Vic. c. 11.

Law 14 of 1888 placed the matter on a more satisfactory basis. Section 3 of the Law enacts that "every occupier of land shall, as between himself and the occupier of the adjoining land, be liable to bear one half of the expense of erecting and maintaining a sufficient dividing fence to separate their respective holdings," while section 5 provides for giving notice by the one occupier to the adjoining one, for construction or repairs of the fences, and enables the former to have the work done if his neighbour refuses, and to recover half the cost of the work so done.

Section 10 enacts with certain provisos that "where the occupier of land is not the owner thereof, and is not as between himself and the owner bound by the terms of his tenancy to bear the expenses of erecting or repairing the fence dividing such land from the adjoining land, he shall, on being obliged to defray any such expense under the provisions of this Law, be entitled to recover the same from his landlord as money paid at his request, or to deduct the same from his rent as the same falls due."

INSPECTION AND QUARANTINE OF IMPORTED ANIMALS.

THE Laws at present regulating the inspection and quarantine of imported animals are Laws 24 of 1890, 33 of 1893, 17 of 1895, 1 of 1898 and 19 of 1909.

Law 24 of 1890 defines the words, "cattle," "animals," "disease," and "foreign"—

1. "Cattle" means bulls, cows, oxen, heifers, steers and calves. Horses, mules and asses are included in the term by Law 1 of 1898.

2. "Animals," except where it is otherwise expressed, means cattle, sheep, goats and swine. Dogs are added by Law 19 of 1909.

3. "Disease" means cattle plague or rinderpest, anthrax, contagious pleuro-pneumonia, foot and mouth disease, sheep pox or sheep scab, or any other contagious disease which is known to attack cattle or other animals. Glanders and farcy are added by Law 1 of 1898 and rabies by Law 19 of 1909.

4. "Foreign" denotes a country outside of the Island of Jamaica and its Dependencies, and when applied to animals and things, means brought to Jamaica from a foreign country.

Law 24 of 1890 provides that "all cattle and animals" imported from a foreign country shall, on arrival and *before* being landed, be examined and inspected by an Inspector appointed by the Governor, and shall then be placed in a depot on the coast to be provided by the Government, and be there kept in quarantine at the risk and expense of the importer for not less than 14 days exclusive of the day of landing.

Cattle or animals, however, imported from the United Kingdom or any British possession or from the United States of North America are exempt from this provision provided the importer declares in writing that they are, and the inspector believes them to be, imported for breeding purposes only.

Law 33 of 1893 provides that, whilst cattle or animals are kept in quarantine, if it should appear to the Inspector that any animal is diseased, it shall be lawful for the Inspector, in his discretion, to cause such animal to be slaughtered; and the Inspector shall also keep in quarantine for at least 14 days, or such longer period as the Governor may from time to time determine from the day when any animal is found to be diseased any animal that shall have been within the same enclosure as such diseased animal.

Should it happen that disease breaks out among any cattle or animals in quarantine to such an extent that the Inspector considers that it would be dangerous to the Island to let them or any of them out of quarantine, all such animals shall be slaughtered with the approval of the Governor.

Cattle and animals quarantined under the Law must be inspected by the Inspector before being released.

The Governor in Privy Council is empowered—

1. To fix a scale of fees and charges to be paid by the owner or consignee of cattle or animals landed at the quarantine depot.
2. To make such general or special orders as he may think fit for prescribing the ports or limits of ports at which alone foreign animals may be landed.

At present Kingston is the only prescribed port at which cattle may be landed and the cattle quarantine ground of the port is at Rock Fort, 3 miles from Kingston.

Fees for inspection of imported animals.

The Inspector shall be paid by the person importing cattle or animals a fee of four shillings per head on "cattle" as defined above and 2s. per head on the smaller animals, i.e., sheep, goats, swine and dogs. All fees are to be paid before the animals are landed, or when in quarantine before being removed.

There is a standing order absolutely prohibiting the importation of dogs from any country but Great Britain.

The Governor in Privy Council is empowered at any time to make such general or special orders as he may think fit for the better execution of the Laws to prevent the importation of cattle or animals suffering from contagious or infectious diseases, or for the purpose of in any manner preventing the introduction or spreading of disease by carcasses, fodder, litter or other thing whereby disease may be introduced or spread.

SEASONS AND PRICES FOR FRUITS, VEGETABLES, AND OTHER ECONOMIC PRODUCTS IN KINGSTON, JAMAICA.

(Compiled by Wm. Harris, F.L.S., Superintendent of Public Gardens.)

As there is a good deal of misapprehension with regard to the seasons for the various crops grown in Jamaica, and the duration of the season for each crop, the compiler visited the principal market in Kingston once a week for twelve months for the purpose of noting the various products offered for sale, and the prices charged to consumers. These prices are at least one-third, and frequently three or four times higher than the prices paid by the retail dealers to the growers of the commodities enumerated. The prices noted for economic products such as ginger, annatta, &c., were those paid by a large exporting firm to the producers.

It will be readily understood that the seasons vary somewhat according to prevailing weather conditions, and the prices also vary according to supply and demand.

Approximate Seasons for fruits, vegetables and other products.

N.B.—The prices quoted are given as a rough guide to general value but are in no sense commercially accurate.

MARITIME.

STEAM COMMUNICATION.

SPECIAL WAR NOTICE.

During the present state of War the ordinary sailings of all Steamship lines are very much dislocated.

The usual information is given here *PRO FORMA* but there is no dependence to be placed on dates of sailings given, names of ships on the route or on quotations of rates of passage on any of the lines.

The Hamburg-American Line has of course ceased running, and the usual information concerning this company is omitted.

The Royal Mail Steamers have been temporarily withdrawn from Jamaica, both as regards the New York route and the European connection via Central American ports and Trinidad. The Coastal Steamer of this Company has also been withdrawn. By Notice dated 13th November, 1916, the New York Service of this Line was resumed as from 13th January 1917, as a fortnightly service.

Elders and Fyffes Steamers run only at irregular intervals.

The Leyland and Harrison Line cannot depend on being in a position to despatch their boats by any schedule.

The United Fruit Company's ships now sail under the American flag.

In all cases direct correspondence with the Companies Agents in Jamaica is at all times recommended when any information is required.

THE MARINE BOARD.

THE Marine Board, constituted by Law 17 of 1896, takes the place of the several pilotage and harbour boards established under laws 36 of 1873 and 21 of 1891, the boards and the pilotage and harbour districts under those laws being now abolished.

The Marine Board have all the powers and authority formerly vested in the pilotage and harbour boards, as well as the superintendence and control of all lights and beacons other than light houses.

They have power to make enquiry as to shipwrecks and other casualties affecting ships and into charges of incompetency or misconduct on the part of masters, mates and engineers of ships and to summon such witnesses for the purpose as they may think fit.

They have power to order the survey of any ship if they have reason to believe that she is in any way defective, and to detain her if they think such a course necessary.

They can examine and grant certificates to ships engaged in the coasting and home trade and can examine persons applying to be masters, mates, or engineers of coasting and home trading ships.

The board also have the duty of examining persons applying for pilot licenses.

The present members of the Board are:—

Hon. A. H. Miles, *President*, Major A. Peel, R.M.L.I., T. C. D. Thompson, Harbour Master, A. H. DaCosta, Hon. J. H. W. Park and Lieut. F. H. Marshall, R.N.R.; *Secretary*, T. R. Mould, Customs, Kingston.

HARBOURS AND HARBOUR MASTERS.

Law 36 of 1873 effected the consolidation of all the then existing enactments relating to harbours, a proceeding which was much required as a matter of convenience as those enactments extended over nearly two hundred years, namely, from the year 1681 to the year 1872. This law provides *inter alia* for the constitution of harbours by the Governor in privy council, for the appointment of harbour masters and their removal from office; for the removal of wrecks and other obstructions in harbours; for the preservation, repair and renewal of buoys, &c. Under section 6 of law 17 of 1896 harbour masters are placed under the control and superintendence and direction of the Marine Board by that law created. Under the law of 1873 the harbour masters' fees were assessed on the draught of water of vessels, and as in many cases difficulties arose in reference to the ascertainment of the proper draught the legislature deemed it expedient to calculate the fees on registered tonnage, and to this end passed Law 24 of 1889. The following table gives the fees now payable:—

Harbour.	Registered Tonnage.	Vessels trading between the Tropics.	All other Vessels except Coasting Vessels.	Coasting Vessels.

KINGSTON HARBOUR.

Law 12 of 1904 enacts as follows:—

1—Anything in any law of this Colony to the contrary notwithstanding, any Vessel which shall enter any harbour of this Island, solely for the purpose of effecting necessary repairs, or of obtaining medical assistance for any sick person on board such Vessel, shall not be liable to pay any harbour fees or light dues: and any Vessel which shall enter any

harbour of this Island, solely for the purpose of calling for orders, or of obtaining coal, water, ships' stores, or necessary provisions, shall be liable to pay one half only of the usual harbour fees and light dues. Provided always, that if such Vessel, except for the purpose of enabling repairs to be effected, takes in or discharges any cargo or ballast, or takes on board, or lands any passenger, other than a passenger whom it is necessary to land on account of the state of his health, she shall not be entitled to any relief or exemption under this Law, and she shall before Customs clearance is granted to her on her outward voyage, pay to the Collector of the Port, the difference between the full light and harbour dues, and the amount of such dues that has actually been paid. Provided further, that the proviso to Section 6 of Law 8 of 1900, shall not apply to any Vessel which has obtained relief under this Law.

Vessels proceed from Port Royal to Kingston by a channel varying from 6 to 9 fathoms in depth, which in the narrowest part is a little over a cable in width, the channel throughout to the anchorage off Kingston being well buoyed and staked.

The Wigam Continuous burning Lamps erected to mark the approaches to Port Royal and Kingston are hereby advertised as permanent lights under section 9 of Law 17 of 1896, and came into general use on the 1st January, 1903.

The lamps hitherto provided under No. 16 of the rules relative to the harbour of Kingston have been discontinued.

The following is a description of the Wigam Lamps referred to:—

Gun Cay Light—A flashing red light, upon a concrete pedestal in about 2 feet of water. The light will show 10 feet above water.

Its exact position is as follows:—

	Angles.
N Tangent Lime Cay and W Tangent Drunkenman's Cay	75° 38'
W Tangent Drunkenman's Cay and S end Lazaretto	78° 37'

Rackham Cay Light—A flashing fixed white light on Tripod Beacon, 15 feet above water, painted white. It is in 18 feet of water and marks the northern edge of Rackham Cay. Its position is as follows:—

	Angles.
Lazaretto and Dockyard Tower	70° 0'
Dockyard Tower and Rocky Point	78° 9'

Beacon Shoal Light—A fixed red light upon 3 piles, will show 30 feet above water, it is on the northern edge of shoal in 19 feet of water.

Burial Ground Light—A fixed red light upon a pile in 18 feet of water, will show 10 feet above water.

Its exact position is as follows:—

	Angles.
Plumb Point Light House and Parish Church	36° 10'
Plumb Point Light House and Clock Tower, Port Royal	47° 51'

Fort Augusta Light—A flashing red light shows red to both south and east. It is 37 feet above water.

Off Kingston there is good holding ground anchorage in from 6 to 8 fathoms off the town; the majority of vessels lay alongside the different wharves to discharge or take in cargo, the depth of water ranging from 12 to 36 feet.

COALS and provisions can be readily obtained in Kingston at reasonable market prices.

WATER for shipping is charged by the Water Commissioners at the following rates, viz.:—

	Under	50	Tons	4s.
50 and	do	100	do	8s.

7,500	do	10,000	do	180s.
10,000 and upwards	200s.

These rates are subject to an increase of 10% to cover cost to wharf owners for supplying from their wharf when the vessel requiring a supply of water is supplied from a wharf that is not owned or leased by the owner or charterer of the vessel so supplied.

Owners and lessees of wharves, who are not also the owners or charterers of the vessels supplied with water, will be allowed a commission of 10% on all shipping bills collected from Masters of vessels supplied when such wharf owners and lessees requisition the supply of water and pay therefor within fifteen days of the completion of the supply.

Sailing vessels in the coastal trade will be supplied from any wharf in Kingston at the rate of one shilling per hundred gallons on obtaining permission from the wharf owner to have the supply taken from his wharf and on the Master of the vessel paying the cost in advance.

BALLAST is obtained through the authorities at the General Penitentiary from the Quarry at Rock Fort. It is put on board vessels by convict labour, at a charge at the Quarry Wharf of 2/ a ton, and at Kingston of 3/6 a ton.

RECEIVERS OF WRECK.

UNDER the 4th section of Law 14 of 1875, a law relating to wrecks, casualties to ships and salvage, which was passed in consequence of the old act, 53 Geo. III., cap. 25, having been found insufficient to protect the interests of ship-owners and insurers, and to give adequate redress to persons injured by wrecking, the Governor may appoint any officer of customs, revenue officer or other person to be a receiver of wreck in any district, and may fix, and from time to time alter, the limits of the district for which any receiver is appointed.

The existing districts of receivers of wreck and their limits as fixed by the Governor are as follows:—

- (1.) Kingston—Cockpit River on the West to Cow Bay inclusive on the East.
- (2.) Morant Bay—Cow Bay Point to Prospect Point.
- (3.) Port Morant—Prospect Point to Southern Bank of Hector's River.
- (4.) Port Antonio—Southern Bank of Hector's River to the Eastern Bank of Little Spanish River.
- (5.) Annotto Bay—Eastern Bank of Little Spanish River to Don Christopher's Point.
- (6.) Port Maria—Don Christopher's Point to Eastern Bank of White River.
- (7.) St. Ann's Bay—Eastern Bank of White River to Western Bank of easternmost of the Three Rivers at Pear Tree Bottom.
- (8.) Dry Harbour—Western Bank of the easternmost of the Three Rivers at Pear Tree Bottom to Bengal Point.
- (9.) Falmouth—Bengal Point to Western side of Long Bay.
- (10.) Montego Bay—Western side of Long Bay to Round Hill Bluff.
- (11.) Lucea—Round Hill Bluff to North Negril Point.
- (12.) Savanna-la-Mar—North Negril Point to Whitehouse Point.
- (13.) Black River—Whitehouse Point to Cuckold Point.
- (14.) Milk River—Cuckold Point to mouth of Cockpit River.

The following public officers are Receivers of Wreck for the several districts:—

No. 13 Black River	..	A. B. McCatty, Assistant Collector of Taxes.
No. 14 Milk River	..	J. W. Weller, Landing Waiter.

The duties of the receivers of wreck may be briefly classified as follow:—

- (a.) To render assistance in cases of stranded or distressed ships or boats, including the preservation of life and property, and the suppression of plunder, disorder or obstruction;
- (b.) To institute inquiries into wrecks and casualties at sea ;
- (c.) To see to the safe custody of wrecked property and the restoration thereof to the owners;
- (d.) To arrange the settlement of salvage claims;
- (e.) To see to the protection of the Customs Revenue in respect of wrecked goods.

The following table shows the fees payable to receivers, one moiety of which is paid into the Treasury and the other retained by the receivers for their personal use:—

For every examination on oath instituted by a receiver with respect to any ship or boat which may be, or may have been, in distress a fee not exceeding £1 0 0

But so that in no case shall a larger fee than two pounds be charged for examinations taken in respect of the same ship and the same occurrence, whatever may be the number of the deponents.

For every report required to be sent by the Receiver to the Governor the sum of £0 10 0

For wreck taken by the Receiver into his custody, a per centage of five per cent. upon the value thereof, but in no case shall the whole amount of per centage so payable exceed twenty pounds.

In cases where any services are rendered by a Receiver in respect of any ship or boat in distress not being wreck, or in respect of the cargo or other articles belonging thereto, the following fees, instead of a per centage, that is to say:—

If such ship or boat, with her cargo, equals or exceeds in value six hundred pounds, the sum of two pounds for the first, and the sum of one pound for every subsequent day during which the Receiver is employed on such service; but if such ship or boat with her cargo is less in value than six hundred pounds one moiety of the above mentioned sum.

LIGHT-HOUSES.

THE care and management of all light-houses are by law 8 of 1900, vested in the Director of Public Works.

MORANT POINT.—This light-house is situated at the extreme east end of the island, and carries a revolving white light, elevated 100 feet above high water which is visible at a distance of 21 miles at sea in clear weather.

The illuminating apparatus is a third order holophotal light, revolving once in eight minutes, and giving a flash every minute. This was erected in 1889, in place of the original apparatus.

The illuminant used in this and the other Light Houses in the Island is mineral oil, with the exception of Folly Point, where compressed acetylene was substituted after the destruction of original oil apparatus by hurricane in 1915.

The position of the light-house is in latitude 17° 55' north, and longitude 76° 12' west.

PLUMB POINT.—This light-house stands on the Palisadoes, at Great Plumb Point, at the entrance to Kingston harbour; the tower is constructed of stone and iron, and after the earthquake of 1907 strengthened at the base with a massive reinforced concrete casing, and is 70 feet in height, and was erected in the year 1853. It exhibits a third order dioptric light from an incandescent lamp and is arranged to show a white light over the entrance of the Eastern navigable channel and a red light over the foul ground and the south channel for a distance of 12 miles, thus reversing the arrangement existing previously. The white light is visible at a distance of about 20 miles in clear weather. The position of the light-house is in latitude $17^{\circ} 56'$ north, longitude $76^{\circ} 47' 30''$ west.

FOLLY POINT, PORT ANTONIO.—This light-house was built under the powers of law 17 of 1886, the mercantile community having guaranteed the Government that the revenue from dues would suffice to meet the cost of maintenance, and the interest and sinking fund on the first cost. The tower is constructed of masonry and is fire-proof throughout. The optical apparatus is dioptric of the fourth order shewing a flashing white light, which gives a flash of 2 seconds duration followed by 8 seconds darkness. The light is visible at 13 miles distance over an arc of 153° , the backward rays being reflected by a dioptric mirror. The illuminant used is compressed acetylene gas. The position of the light-house is in latitude $18^{\circ} 11'$ north, longitude $76^{\circ} 27'$ west.

NEGRIL POINT.—A light-house was erected at South Negril Point at the extreme western end of the island in July 1895.

The tower is of concrete 66 feet high above ground, and the light is elevated 100 feet above sea level.

The apparatus is a second order dioptric, with a 5 wick burner, occulting, exhibiting the light for $57\frac{1}{2}$ seconds, with periods of $2\frac{1}{2}$ seconds of darkness intervening.

The position of the light-house is in latitude $18^{\circ} 15'$ north, longitude $78^{\circ} 23'$ west.

GALINA POINT.—A framed steel tower was erected at Galina Point (in St. Mary) to carry a three wick Wigham light. Its position is approximately latitude $18^{\circ} 25'$ north, longitude $76^{\circ} 55'$ west. The light is 44 feet above high water and is visible at a distance of 12 miles and much appreciated by coastwise shipping between bearings N 40° west and S. 68° E. (The tower was swept away by the hurricane of 12th Aug., 1915, but has now been replaced by a concrete structure.)

PART XIII.

ADMINISTRATIVE BODIES, &c.

THE RIO COBRE IRRIGATION CANAL.

THE total length of canals and branches constructed and at present under maintenance is as follows:—

	Miles.	Chains.
Main Canal	5	73
Subsidiary Channels	0	35
Old Harbour Branch	9	28
Subsidiary Channels	6	30
Port Henderson Branch	4	25
Subsidiary Channels	2	7½
Cumberland Pen Branch	4	31
Subsidiary Channels	7	63½
Caymanas Branch	4	11
Subsidiary Channels	3	20
Total	48	3½

These branches can be extended and others constructed whenever required for the further development of the scheme.

The area embraced by the canal and its branches is nearly 50,000 acres. A portion of this cannot be irrigated, as it is broken and hilly ground; but, after making all deductions, including those for roads, gullies, Spanish Town, &c., there remain fully 30,000 acres capable of being irrigated. Nearly one-half of this land is very suitable for irrigation and, with water and proper cultivation, might be made to grow almost any crop, as it is a loamy soil, slightly porous and capable of taking up water without letting it through too rapidly. The remainder is a clay soil which produces, with irrigation, excellent crops of sugar-cane and guinea grass.

The total number of acres now under irrigation is about 13,900, and the total quantity of water regularly supplied is 15,000 cubic yards per hour.

The gross revenue in 1915-1916 was £13,295 5s. 10½d. It is derived from the sale of water for irrigation, for watering stock, for supplying the Spanish Town water works, from the sale of fruit, &c., grown on the canal banks. A number of coco-nut and other fruit trees have been planted on the banks.

The natural slope of the ground over which the canal is carried is considerable, and the canal therefore is capable of yielding a large mill-power. It offers a good field for the establishment of central factories for the manufacture of sugar. Amongst the crops which may be cultivated with profit are the following: sugar-cane, bananas, plantains, cocoa, oranges and limes.

Below are the details of the acreage irrigated and of the water consumed for each description of cultivation for year ending 31.3.16.

Cultivation.	Acreage irrigated.	Cubic yds. of water taken per hour.
Bananas	9,700	13,500
Sugar	1,250	1,000
Guinea Grass	2,400	644
Mixed cultivation	150	150
Oranges and cocoanuts	400	135
Machinery and domestic use	—	167
Totals	13,900	15,596

The following scale of rates were settled by the Governor in Privy Council and published in Gazette of 20th July, 1911, together with regulations for the management and care of the works, etc., rescinding the regulations previously in force, and to take effect from 1st August, 1911.

5. Water will be supplied to Consumers at the discretion of the Colonial Secretary, all supplies being subject to uniform abatements dependent upon the maximum available flow in the canal, and will be paid for at the rate set out in the Regulation 8 (b).

Payments will be subject to rebate in the event of shortage in supply, subject to the provisions in Regulation No. 10 being complied with.

6. Any reduction of water under any Agreement whether such reduction be under the preceding regulation or any other regulation or otherwise, shall be deemed to be an "accident or other cause beyond the control of the Colonial Secretary" within the meaning of Regulation 10 hereof.

7. The water is to be conducted to the fence line of the canal by appliances provided by the Director of Public Works. All arrangements, appliances or works for conducting and using the water beyond the fence line of the canal must be provided by the consumer; but, should he desire it, the Director of Public Works may consider any special application for the construction by his officers of such appliances or works at the cost of the consumer.

8. Payments according to the following scale of rates shall be made by persons who take water from the canals or works, provided also that no water, except as hereinafter provided, shall be supplied for any period less than six months:—

(a) When water is taken only for purposes other than irrigation the following rates shall be paid:—

1. For supplies of 5 cubic yards per hour or less, a sum of £12 per annum.
2. For supplies of more than 5 and not exceeding 10 cubic yards per hour, at the rate of £2 5s. per cubic yard per hour per annum.
3. For supplies of more than ten and less than fifteen cubic yards per hour, at the rate of £2 2s. 6d. per cubic yard per hour per annum.
4. For supplies of fifteen cubic yards or over per hour, at the rate of £2 per cubic yard per hour per annum.

(b) When the water is taken and used for irrigation, at the rate of 16/8 per cubic yard per hour per annum.

(c) For permission, at the option of the Director of Public Works, to take water at bridges or other places for domestic use only, the rate of six shillings per annum shall be paid unless a water cart is used, in which case the rate shall be twelve shillings per annum for each person.

(d) Special prices and terms may be made by the Director of Public Works for water for driving machinery or for other special purposes.

(e) When water is taken for irrigation, arrangements may be made, at the option of the Director of Public Works, for giving an accumulated supply at certain fixed periods in lieu of a constant supply; also for varying the points of delivery.

(f) The total water sold under the above regulations 8 (a) to 8 (e) shall not exceed 15,000 cubic yards per hour. Provided that when in the opinion of the Director of Public Works water in excess of 15,000 cubic yards per hour is available he may grant temporarily for periods not more than one month at a time supplies of not less than 15 cubic yards per hour for any purpose and such supply shall be paid for at the rate of two shillings and sixpence a month for each cubic yard per hour.

(g) Where any supply is measured by a self recording apparatus satisfactory to the Director of Public Works erected to his satisfaction and open to inspection on demand by him or by one of his officers duly appointed for the purpose all the above rates shall be subject to a rebate of 2d. per cubic yard per annum.

9. The abatements of supply under Regulation No. 5 will be calculated by the Director of Public Works and his decision in regard to the amount of any abatements and the corresponding rebate shall be final and binding upon the consumer.

10. If the stipulated supply of water should at any time be stopped or reduced in quantity by any accident or other cause beyond the control of the Colonial Secretary or purposely for the sake of altering or repairing the canal or any works in connection therewith, the Colonial Secretary shall not be responsible for any damage that may in consequence thereof accrue to the consumer; and the payments to be made by the consumer shall not abate in consequence of such stoppage, unless the supply of water shall have been stopped for a continuous period of seven days or more, nor shall any deduction be

made in respect of any claim on account of short delivery unless and except a notice thereof in writing is given by the consumer to the Engineer of the Works at the time when such short delivery occurs, in which cases a deduction in proportion to the whole time the water shall have been so stopped, or to the amount of such short delivery, as the case may be, shall be made from the amount of payment otherwise claimable. The flow of water in the canals will, in general, be stopped during continuous rainy weather and, notwithstanding anything hereinbefore provided, no abatement from the payments hereinbefore specified to be made by the consumer will be allowed on account of such stoppages of water.

11. The payments hereby prescribed are to be made to such officer or person as the Colonial Secretary shall appoint to receive the same and if any such payment be not made within fourteen days after the day on which it shall have become due, the Director of Public Works by his agents shall be at liberty to cut off and discontinue the supply of water without any notice whatever and without prejudice to the rights of the Colonial Secretary.

Superintendent—F. E. Taylor, £300, travelling allowance, £75; appointed 1st Oct., 1897.

VERE IRRIGATION WORKS.

THE Vere Irrigation Works were constructed and are being conducted under the provisions of law 39 of 1897 and various amending laws.

They are managed by a commission styled the Vere Irrigation Commission, consisting of 5 members, 3 of whom are nominated by the Governor and 2 elected by the owners of the properties, who guarantee the revenue necessary for the maintenance of the works and the redemption of the loans sanctioned by the laws.

COMMISSIONERS.

A. W. Farquharson, *Chairman*.

*Superintendent of the Milk River
Works*—
H. Upton, Race Course P.O.

The original works were constructed during the years 1901 to 1903, under the supervision of the Director of Public Works, and comprise the head-works or dam and sluice on the Milk River at St. Jago, in Lower Clarendon, to divert the water of the river into the main canal, which runs in a south-easterly direction across the plain of Vere, and was intended to carry about 7,000 cubic yards of water per hour, as far as the Rio Minho, and 6,000 cubic yards thence to the reservoir at Raymond's. Between St. Jago and the crossing to the Rio Minho at Dry River estate the canal is carried over ten gullies aqueducts consisting of steel troughing carried on abutments and piers of cement concrete. At Dry River it is carried under the Rio Minho by a steel syphon 650 feet long and 2 feet 6 inches in diameter, and thence continues, crossing four more gullies by means of aqueducts, to Raymond's estate, discharging into an impounding reservoir created there by the erection of a dam across the valley of the Raymond's gully. The total length of the main canal was sixteen miles seventeen chains, and that of the aqueducts about 2,000 feet.

The reservoir at Raymond's was calculated to hold about 4,610,000 cubic yards, equivalent to about a month's supply at the rate of 5,000 cubic yards per hour, or to the amount required for irrigating 5,000 acres at one cubic yard per hour. Distribution channels for the supply of water to the estates west of the Rio Minho were taken off from the main canal, and another one for the estates east of the river commenced at Raymond's dam, branching off in several directions to give the supplies where needed.

The failure of the water supply in the Milk River rendered a reconsideration of the whole subject necessary in 1913, which resulted in the passing of Law 16 of 1913 for rendering certain relief to the guarantors of the original scheme and of Law 17 of 1913 authorizing the obtaining of a supply of water from the Cockpit river.

The following are the lengths of the Main and Distribution Canals on the Milk River scheme now in use:—

		M.	C.
Main Canal, St. Jago to Raymond's Reservoir	..	16	0
Branches	..	8	0
Total	..	24	00

The Cockpit works are in course of construction and will shortly be completed when it is hoped the operation of the two schemes will result in a good and reliable supply of water for irrigation purposes in the district.

THE KINGSTON GENERAL COMMISSIONERS.

By a law passed in the session of 1897 by the Legislative Council, called the Kingston General Commissioners law, No. 24 of 1897, the several commissions hitherto governing the Kingston Markets, the Kingston and Liguanea water works, the gas works, the slaughter houses, and the Kingston Improvements, under the law of 1890, were amalgamated, and their united powers conferred upon a body of commissioners, called the Kingston General Commissioners. The various undertakings controlled and managed by this body are described in the following articles under their respective heads.

By order in Privy Council 20th November, 1907—under the powers given by section 20 of Law 24 of 1907—the Kingston General Commissioners were invested with all rights powers, duties, immunities and discretions conferred on the Mayor and Council of Kingston by Laws 5 of 1883 and 24 of 1907, and the Commissioners were constituted the Building Authority for the purposes of these Laws.

By order in Privy Council dated 20th November, 1907, the Governor transferred the powers given by the Kingston Building Law, Amendment Law, 1907, from the Mayor and Council of Kingston to the Kingston General Commissioners, to take effect on 1st December, 1907, Mr. H. Gould is the surveyor under the law.

KINGSTON GAS WORKS.

The subject of lighting Kingston with gas seems to have been first mooted in 1866 when the late Hon. S. C. Burke agitated the question. Nothing, however, was done in the matter till 1870, when Mr. W. Climie applied to the Governor, Sir J. P. Grant, on

behalf of some capitalists in England for a concession to erect gas works for the supply of the city, such concession to extend over a period of thirty years. The further terms proposed were: that the maximum price should be 18/ per 1,000 cubic feet; that the gas should be used for lighting the streets and all public buildings; and that all imported materials should be duty free. These terms did not prove acceptable to Sir J. P. Grant, who considered that such a concession would place it beyond the power of the inhabitants of Kingston to obtain gas on what he thought reasonable, or anything approaching reasonable terms. The same answer was returned to the late Mr. T. L. Harvey who applied in 1871 for a similar concession; the Governor remarking that if gas was to be provided he would recommend that the provision be made for establishing Government gas works thereby avoiding all the very serious objections to long monopolies to private parties.

On Sir J. P. Grant referring the proposal to establish Government gas works to the Kingston Municipal Board he was met by the very curious objection that the lighting up of the streets would be attended with considerable disadvantage, unless accompanied by a more efficient Police Force, in consequence of the fact that the "unscientific and ignorant depredating class of the community have great fear of darkness, and generally take advantage of the light of the moon for their operations." In other respects the proposal was hailed with satisfaction. The objection, somewhat surprised the Governor, who thereupon called on the Police Authorities for their opinion. Major Prenderville (the Inspector General) showed that of the 74 burglaries and larcenies committed between January 1870 and September 1871, inclusive, only eighteen were committed on dark and partly moonlight nights, which were two hundred and fifty-four in number. The unanimous opinion of the Officers of Police was that street lighting would be a help to the Constabulary and a difficulty in the way of the thief.

Sir J. P. Grant, fortified by these opinions, caused a bill to be passed through the Legislative Council during the session of 1872, appointing as Gas Commissioners the persons holding for the time being the respective offices of Colonial Secretary, Director of Public Works, Auditor General, Custos of Kingston and Custos of St. Andrew, and empowering them to raise by debentures the sum of £30,000 for the purpose of erecting gas works and working the same.

The works were commenced early in 1875 and completed in 1877, the town being lighted with gas for the first time on the 10th May. The works were constructed under the superintendence of Mr. John Stiven. They consisted of a retort house containing six beds of retorts, a building containing the exhauster engine, the two scrubbers, the station meter, the governor and photometer, the purifying and lime house, the coal-shed, and two gas-holders capable of holding 30,000 cubic feet each, or about one day's supply. The cost of the works, including the mains and 699 street lamps for lighting the city, was £39,313 18s. 10d. The works are situated beyond the Railway station.

The retort house has now been extended, new benches of four regenerative settings have been erected.

The quantity of gas made in 1915-16 was 28 million cubic feet; the coals carbonised amounting to 2,580 tons. The public lights consume about one half the quantity of gas made, the street lamps being lit on an average 190 hours per month.

The receipts for the year ended the 31st March, 1914, were £9,072 16s. 1d., and the expenditure £6,546 9s. 6d., without the charges for Interest, Sinking Fund, &c. The prices charged for gas, &c., are as follow:—

For each street lamp, per annum	..	£5	0	0	
For gas consumed for illuminating purposes—per 1,000 cubic feet	..	0	8	0	less 12½ % discount for prompt payment.
For gas consumed for cooking and motive power 1,000 cubic feet	..	0	6	0	less 16½ % discount for prompt payment.
For coke, per ton	1	10	0
For tar, per gallon	0	0	6 retail.
For temper lime, per puncheon	2	4	3
For temper lime, per barrel	0	7	3

The introduction of incandescent gas lighting has effected a marked improvement in illuminating power, with a considerable reduction in consumption and consequent cost of lighting. With a single Welsbach burner and mantle an illumination equal to

100 standard sperm candles can be produced at the cost of one-third of penny per hour, a similar light by means of the ordinary flat flame burner would require 6 No. 5 burners costing 2½d. per hour, while the same illuminating power produced by an electric incandescent lamp, with current at one shilling per unit, would cost 4½d.

The Parade Gardens are effectively lighted by means of eleven self-intensifying incandescent gas lamps giving an aggregate of 3,300 candle power, a successful example of the latest development of incandescent gas lighting, and the incandescent principle is gradually superseding the old flat flame lamps.

KINGSTON AND LIGUANEA WATER WORKS.

THE city of Kingston and the plain of Liguanea are supplied with water from three sources, namely, the Hope River, the Wag Water and the Ferry River. The town and district were formerly dependent entirely on water supplied by wells and that yielded by a few springs along the harbour. A company was incorporated in 1848 to supply Kingston from a subterranean source supposed to exist near Barbican. Many thousands of pounds were spent in sinking shafts, driving adits and constructing a tunnel to lead the water by gravitation to Halfway Tree. The scheme proved a total failure, but the company in 1849 were fortunate enough in being able to purchase from the Duke of Buckingham a portion of the Hope estate, together with the water rights to four-ninths of the supply in the Hope River. Reservoirs were built at Hope and Montgomery's Corner (now called Cross Roads) and a line of 9-inch mains was laid for the supply of the city. These works delivered an indifferent supply of unfiltered water once or twice a day for house hold purposes. The pressure was so poor that little or no protection was afforded to the inhabitants against fire.

In 1871 the Government purchased the rights of the old company for the sum of £51,200, and immediately set to work to construct new works at a further expenditure of £87,000. These works, completed in 1876, consist of:—

- 1st. A concrete culvert over three miles in length, from Hope to Cavaliers.
- 2nd. A large settling reservoir, 256 feet long by 160 in breadth and 20 in depth, capable of containing 2½ million gallons.
- 3rd. Two filter beds, each 200 feet long by 100 broad by 7 feet in depth. They contain the necessary filtering materials, such as small stone, gravel and sand, superposed in layers, and are each capable of filtering 1,500,000 gallons in 24 hours.
- 4th. A pure water tank, 200 feet by 180 and 20 feet in depth, capable of holding 3,000,000 gallons, an average day's supply to the city.

The water for the town supply is drawn from this tank, the bottom of which is 156 feet above the mean sea level, by a 21-inch main and is then distributed over the city by means of 12, 6, 4 and 2-inch cast iron mains measuring in the aggregate some 60 miles.

Owing to successive droughts the water supplied by the Hope was found insufficient for the growing needs of Kingston and St. Andrew, and in 1885 the Water Commissioners obtained powers to enable them to obtain the water rights belonging to Constant Spring estate. These were bought, together with nearly 800 acres of land, for the sum of £8,000. Works for utilizing this additional supply were begun in 1886 and completed in 1887 at a total cost, including the purchase of water rights and land, of £19,112.

The works themselves comprised an arched concrete intake on the bank of the river the opening being guarded by a stout iron grating. An open culvert conducts the water to the tunnel which is 23 chains in length and varies in size very considerably, being some 6 feet high by 4 feet wide at the north end, but diminishing to the south end to 4½ feet by 3 feet. This tunnel was constructed about a hundred years ago for the supply of Constant Spring estate and is stated to have cost with the immense masonry dam to the aqueduct, together with the expenses of a lawsuit caused by diverting the water of the river, some £80,000. A new tunnel, circular in form, and 5 ft. in diameter, has been constructed to a grade of 1 in 200 in place of the old one. The water after leaving the tunnel flows in 12-inch pipes to the gutter, where it is joined by a spring that rises on the south side of the range. From the junction the water is conveyed about 40 chains by an open conduit, terminating in a circular catch pit from whence the water is led into two reservoirs each 200 feet long by 100 feet wide by 16 feet deep. These reservoirs contain 1½ million of gallons each and are constructed of cement concrete, backed by a layer of clay puddle. A 10-inch and a 9-inch main, 3 miles long, carry the water to within half a mile of Halfway Tree, where a junction is effected with the existing system of mains. A 12-inch trunk main now connects Constant Spring with the Cavaliers Works direct. Branch mains have been laid to supply Swallowfield, Penwood, Molyneux, Cassia Park, Grants' Pen and Leader's Lane. The town mains have also been extended along the Spanish Town Road and the Windward Road. In all upwards of 20 miles of pipes have been laid

The limits within which such rates are payable are as follows: From a line beginning at the harbour at the southern end of Paradise Street, running northerly to the Windward Road, then along that road to the eastern boundary of Brown's Town, thence northerly along the eastern boundary of Brown's Town, Passmore Town and Franklin Town to the northern boundary of the parish of Kingston, as defined by Law 20 of 1867; following that boundary westward as far as the South Camp Road; then southerly to the northern boundary of Villa Pen, then westerly to the Arnold Road; thence along the Arnold Road northerly to the northern boundary of Kingston, following that boundary westward to the Spanish Town Road, thence south-easterly along the Spanish Town Road to the Kingston Pen Road; thence southerly along the line of the Kingston Pen Road to the Harbour; and thence along the shore of the harbour to the point of starting.

The occupier of a property, used for any of the purposes mentioned in the 2nd sub-section of the 6th section of Law 18 of 1875, pays in addition to the prescribed rate such sum as the Commissioners may in each case specially declare.

The occupier of a property not used as a residence, nor for any of the purposes last referred to, pays a sum equal to one-third of the prescribed rate.

The quantity of water to which each ratepayer is entitled under the 9th section of Law 18 of 1875 is as follows:—

1/6 per month	..	100 gallons a day.	6/6 per month	..	400 gallons a day.
2/	"	.. 150 "	8/	"	.. 500 "

			Stores	"	.. 250 "

Scales shewing the additional sums to be paid under section 10 of Law 18 of 1875 by ratepayers requiring an extra supply of water for purposes not comprehended in the 2nd sub-section of section 6:—

For a bath exceeding 200 gallons in capacity, 1s. 3d. per month for every 100 gallons of capacity or fraction of 100 gallons above 200, or such other payment as may be in any case specially agreed to by the Commissioners.

For a garden exceeding 600 square yards in area, 1s. per month for every 200 square yards or fraction of 200 square yards above 600 square yards, or such other payment as may be in any case specially agreed to by the Commissioners.

For every fountain or stand pipe 2s. a month; provided that no ratepayer shall be required to pay for a fountain or stand pipe in a garden as well as for excess of area of a garden; but if a fountain or stand pipe be provided in a garden exceeding 600 square yards in area the ratepayer shall be charged, at the rate hereinbefore stated, for either the fountain or stand pipe only, or for the excess of area of the garden only, at the option of the Commissioners.

For extra supplies of water under section 10 of Law 18 of 1875 at the rate of 1s. for 1,000 gallons, except as hereinbefore provided for baths of large size, for gardens and for fountains and stand pipes.

MARKETS.

THE VICTORIA AND JUBILEE MARKETS IN KINGSTON.

THE Victoria Market building is a handsome and commodious iron structure. It is within a rectangular space which is enclosed by an iron railing on a brick wall, the dimensions of the enclosure being 306 feet north to south and 159 feet east to west. In the centre of each of the four sides are the entrance gates, the principal one being on the western side from King Street; this entrance is by an arched way between two rooms which serve as offices, the whole being surmounted by a clock tower. There is a fountain immediately opposite the main entrance.

The building is supported by 40 cast iron columns fifteen feet in height and octagonal in form, placed at distances forty-five feet apart from north to south and twenty-four

feet nine inches from east to west. The span of the roof trusses is forty-five feet and they are placed eight feet three inches apart. The roof covering is of galvanized corrugated iron, the area under cover being 3,837 square yards.

The building is entirely surrounded by a verandah, seven feet in width supported by eight columns of the same character as the main columns, giving additional protection against rain and the slanting rays of the sun.

There are 92 benches of cast iron with slate tops to receive the articles exposed for sale; each twenty feet long and four feet wide. They are so arranged as to form lanes twelve feet in width running north and south for the public to circulate in. Between the backs of the ranges of benches a space four feet nine inches in width is set apart for the sellers. These benches are so divided as to give 246 stalls with an aggregate lineal space of 1,840 feet.

The flooring of the market is of Portland cement on a strong bed of concrete, the drains being formed of the same material and covered with perforated cast iron plates. Water is laid on to 20 taps attached to columns, in various parts of the building. Sanitary arrangements of modern description are provided for the use of the staff, attendants and the public using the markets.

The cost of the market, including the lands purchased, was £22,778.

The public landing place of the city is opposite to the southern gate of the market; it is 105 feet in length and 21 feet in breadth, with wooden flooring and stone steps leading into the sea; the structure is covered with a light iron roof. The cost of this landing place, with that of an adjacent one for the use of trading boats, &c., was £2,238. This sum includes the cost of building a cut stone quay-wall along the beach and in front of the market 233 feet in length.

The total amount for these structures, £25,016, was raised by a loan, guaranteed by the Government, of £20,000, and an advance of £5,016 from the Public Treasury.

The market was first opened to the public on the 24th May, 1872, when the Governor—Sir John Peter Grant, named it "The Victoria Market."

A Public Market called The Sollas Market was for over a century held in the upper part of Orange Street. It consisted of an open space, surrounded by a wooden structure, and was devoid of every convenience for those by whom it was frequented. The people through rain and sunshine, sat huddled together on the ground in the centre space, with no protection from the elements. For some time the Market Commissioners of Kingston contemplated the rebuilding of the market, but they delayed this necessary undertaking until the hurricane of 1886 blew down the fragile structure and compelled them to take action. A plan was obtained from Mr. G. N. Cox. Thirty stalls were erected in the new market and space was provided for a thousand persons. The stalls were covered with well constructed sheds and ten powerful gas lamps were distributed in the building. The total cost was £1,096 3s. 2d. It was opened by Sir Henry W. Norman on the 29th June, 1887, as part of the ceremonials in connection with the Jubilee of Her late Majesty and named "The Jubilee Market" in commemoration of the event. This market was considerably enlarged in 1894 at a cost of £956.

The revenue of both markets for the financial year 1913-14 was £4,328 7s. 8d., and the expenditure for maintenance, management, &c., £2,308 4s. 0d. without the charge of £1,000 0s. 0d. for interest and sinking fund.

PAROCHIAL MARKETS.

The law affecting market-places throughout the island, other than in Kingston, is law 9 of 1874, "A Law to make provision for the erection and regulation of makets throughout the island," which consolidated and amended the laws previously in force in the matter.

All markets are placed under the control of the parochial boards of the parishes in which they are respectively situated. The income arising from the markets is to be applied to their support and maintenance and any surplus may be applied, with the approval of the Governor, to any local objects for the benefit of the town or of the immediate neighbourhood in which the markets concerned are situated.

This law empowers the Governor to advance money from the Treasury, on the application of the Parochial Board of any parish, for the erection of market buildings, or the

repair, improvement or enlargement of existing markets, on receiving such particulars and estimates of the proposed works as he may think fit to call for; such advances are charged on the income of the markets, the net balance on market account each year being applied in discharge or reduction of interest and principal of advances.

The law further gives the parochial boards power to acquire lands under the Lands Clauses Law, 1872, and otherwise for market purposes; to alter, with the concurrence of the Director of Public Works, the public approaches to markets; to appoint and remove Clerks of Markets and other servants; to lease or rent markets or stalls in markets; and to frame rules for the order and government of markets, to be approved by the Governor in Privy Council. The establishment of markets otherwise than in accordance with the law, and the slaughtering of animals except in authorized places, are prohibited by this law, under penalties.

As there was no provision in this law to prevent people from selling at places other than markets, and as it was desirable on many grounds that in places where markets might be established the people should be required to sell in these markets and nowhere else within certain limits, the subsequent Law, 5 of 1880, was passed by the Legislative Council to impose a limitation of sale of certain articles in the towns to which the law is made to apply.

KINGSTON SLAUGHTER HOUSE.

THESE buildings were erected by the Public Works Department under the provisions of Law 37 of 1872 for the purpose of securing to the inhabitants of Kingston a supply of good and wholesome meat.

The Slaughter House was first opened for use on the 1st day of March, 1876, at which date all private slaughter yards had been dispensed with, the value of them having been paid to the proprietors in accordance with section 24 of the law.

The sum expended in the purchase of land, erection of buildings, cattle pens and wharf and for compensation to the owners of private slaughter yards was £10.506 10s. 8d.

The revenue for the financial year ended 31st March, 1913, amounted to £1,324 6s. 6d, the expenditure to £650 14s. 8d. without the charge of £500 for interest and Sinking Fund.

The number of animals, turtle, etc., slaughtered during the period referred to was as follows:—Oxen, 5,841, Calves 15, Sheep 899, Pigs 782, Turtle 79, goats 587, Total 8,203.

The fees charged for slaughtering are as follows:—

KINGSTON IMPROVEMENTS.

Law 31 of 1890, provides for the sewerage of Kingston and for the re-construction of the streets. The Commissioners empowered under the law to carry out the necessary work, secured the services of Mr. Osbert Chadwick, C.M.G., to prepare a project for the sewerage works and to advise the commissioners during their execution.

The plans prepared by Mr. Chadwick were approved by the Governor in Privy Council on June 3, 1893, and a resident engineer arrived in Jamaica to begin operations in October, 1893.

Mr. Chadwick's project is a system of self-cleansing sewers of the smallest practicable diameter, having ample falls so that there will be no stagnation or deposit even of a temporary character; and in order to reduce the size of the sewers, rain water is excluded as far as possible.

The intercepting and outfall sewers are of cast iron, and the streets sewers and house drains of glazed fire-clay pipes.

The intercepting sewer runs along the centre of Harbour street at a depth of 5 to 20 feet below the surface and will receive the sewage of the whole town and convey it to the pump well at the pumping station near the gas works. From the pumping station a cast iron pumping main is laid along Tower Street and the Windward road, and conveys the sewage to the sea near the mouth of the Hope River.

At the pumping station 3 steam vertical single acting Plunger pumps are provided. The sewage is received into a pump well which is closed by an air tight deck.

In the month of March, 1894, work on the intercepting sewer commenced and was completed on September 30th, 1895.

The buildings at the pumping station were completed on 30th October, 1895, and all the pumping machinery erected and ready for working in 1896 and have been working continuously since then.

The work on the street sewers has been completed. A total mileage of about 46 miles, including the corresponding house connections, have been laid.

The improvement of the streets and lanes was taken in hand in November, 1897. About 12 miles have been reconstructed to date. King Street and portions of Harbour and Orange Streets have been paved with vitrified bricks laid on a foundation of cement concrete; East Street, from Harbour to East Queen Street has been paved with sheet asphalt; Gold Street from Harbour to East Queen Street has been laid in tar macadam; the remainder of the streets reconstructed have been macadamised.

Extensive works for the diversion of storm water have been carried out in connection with the street improvements.

An extension of the sewerage system embracing the remaining portions of Kingston, not included in the original scheme, and portions of lower St. Andrew, is in contemplation. Additional pumping machinery in connection with this scheme is now in course of erection.

THE KINGSTON LOAN BOARD.

Office: Public Buildings, Kingston.

THE Kingston Loan Board was constituted under the provisions of The Earthquake Loan Administration Law, 1907, for the purpose of making, administering and recovering loans out of the moneys raised under The Earthquake Loan Imperial Law, 1907.

The Board consists of eight persons, three of whom are appointed by the Governor, on the nomination of the elected members of the Legislative Council, and five appointed by the Governor together with the Chairman.

BOARD.

Hon. Colonial Secretary, *Chairman*Hon. Attorney General, *Vice-Chairman*

E. W. Lucie Smith

David Henderson

G. P. Myers

Hon. H. A. L. Simpson

Philip Stern

Hon. Dugald Campbell

Appointed by the Governor.

Appointed by the Governor on the nomination of the Legislative Council.

Secretary—C. C. Anderson—£100.

Loans under the law could be made in the defined district of any parish for the purpose of restoring or repairing buildings damaged or destroyed by the earthquake of 14th January, 1907, or subsequent fire; or for erecting new buildings of substantial value in the district damaged by the earthquake or fire to an extent not exceeding the amount of such loss or damage. No person was precluded from obtaining a loan from the Board, because he has prior to applying for same, replaced or restored or erected the buildings on the premises in respect of which the application is made. All loans made by the Loan Board are secured on a first mortgage of the freehold in respect of which the same is made. The making of loans has ceased. The Board has power, however, to make a new loan on the realization of a security. Such loans are very few in number.

The defined Districts under section 9 of the Law are:—

The whole of the parishes of Kingston, St. Andrew, Port Royal, St. Catherine.

St. Thomas, Portland, and the Richmond District of the parish of St. Mary.

The loans are payable by annuities under the following scale.

On a loan of £100 for	7 years.	10 years.	12 years.	15 years.	20 years.
	£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.

Quarterly payments	4 7 2	3 5 3	2 16 9	2 8 4	2 0 0

To 31st March, 1916, loans amounting to £372,105 had been made, and £225,657 11s. 8d. received in payment at the same date. The balance of assets over liabilities was £20,833 13s. 3d. or 14.26% of the amount outstanding on loans.

AGRICULTURAL LOAN SOCIETIES BOARD.

A Law for the Encouragement of Agricultural Loan Societies was passed by the Legislative Council in 1912. Under Section 2, the Governor appointed Mr. C. C. Anderson, the Hon. R. P. Simmonds, M.L.C., and the Hon. Robt. Johnstone, I.S.O., members of the Agricultural Loan Societies Board, with the first named as Chairman. The Hon. H. I. Brown was later appointed a member.

The Board framed Rules under section 5, sub-section (1), for the control and superintendence of such Societies as may borrow from the funds placed at the disposal of the Board by the Legislative Council for the purpose of making loans. These Rules were approved by the Governor in Privy Council on 15th October, 1912.

To meet the situation caused by the hurricane and drought of 1912, the Legislative Council passed Law 36 of 1912; and resolutions approving of advances over £200 being made by the Treasurer, on the recommendation of the Board, to owners and lessees of sugar works and plantations damaged or destroyed by the hurricane, as well as on cane crops on the ground.

Under Law 36 of 1912, Agricultural Loan Banks were used as the medium for distributing loans up to £200 to hurricane and drought sufferers. Under this head, the Board made loans to 31st December, 1916, amounting to £48,821; of which £35,764 1s. 7d., have been repaid.

It was necessary to frame new Rules to meet the situation; and such Rules were approved by the Governor in Privy Council on 23rd January, 1913, rescinding those passed on 15th October, 1912. The Board was strengthened by the appointment of Mr. A. W. Douet as a member; and he first took his seat on 4th January, 1913.

Under the Resolutions of the Council, the Government approved of loans, on the recommendation of the Board, as under:—

On cane crops on the ground	£2,500
To owners and lessees of sugar works and plantations	14,910

Up to 31st December, 1914, 23 Banks had obtained loans from the Board.

Mr. C. J. Hay was appointed Secretary on 6th November, 1912; and on 3rd April, 1914, was appointed a Public Auditor for the purposes of the Board under Law 6 of 1912, Section 5, sub-section (1).

The office of the Board is located in the Treasury, Public Buildings.

On 23rd September, 1915, the Legislative Council allocated £2,500 for the purpose of making loans to repair damage done by the storm of August, 1915. Loans amounting to £3,136 9s. 0d. were made under Law 6 of 1912, of which £997 0s. 0d., have been repaid. Under Law 37 of 1916, Loans have been granted for £20,025 17s. 8d., of which £16,308 1s. 6d. have been paid out up to 31st December, 1916.

WATER SUPPLY.

The name Jamaica is said to mean "Island of Springs" and the name is justified by the large number of springs and rivers of moderate size and the numerous water holes, some of great beauty, which are found in the Island. The rainfall, except in certain areas near the sea board, is not deficient, but occurs irregularly, the two principal rainy seasons being in May and October, but there is usually more or less rain all through the summer months.

The lack of water for domestic supply, cattle and irrigation purposes, from which considerable districts of the Island suffer periodically, is due chiefly to the large areas of porous limestone forming or directly underlying the surface. The rains are rapidly absorbed into this limestone, and flow in a large number of cases in underground channels, sometimes appearing on the surface at lower levels for a mile or two and then sinking again, and finally discharge at or near sea level. In many cases small ponds have been constructed with clay bottoms on the limestone to retain water for cattle, and artificial catchments supply tanks for domestic use. Impounding reservoirs can be constructed only in certain places outside the limestone areas and are of small size.

Because of these conditions, if there is any temporary deficiency in rainfall the poorer people in the Island are affected almost immediately, because they make little or no provision for storage during rains.

To supply this need as far as possible, the legislature passed law 24 of 1873, to enable the Governor to advance money from general revenue to the municipal (now the parochial) boards for the purpose of constructing water works in their parishes, to provide for the re-payment of such advances, to authorise the acquisition of land by the municipal boards, and to regulate the management of the works and the supply of water therefrom. The water supply was to be charged to those who used it, and any deficiency was to be made good from the poor rates of the parish in which the works were situated. Under the subsequent law of 1881 a compulsory water-rate was leviable in the particular district of a parish benefitted by a water supply obtained by advances from general revenue under the provisions of law 24 of 1873.

When the drought of 1884-85 occurred considerable privation was experienced in a large portion of the island. The Government again brought the necessity of devising plans for the supply or storage of water to the earnest attention of the parochial authorities, and law 8 of 1886 was passed in amendment of the previous enactments. By this law water-rates are made payable in respect of all houses in a district in which a water supply is established under the provisions of the recited laws, and on all horsekind and horned and other stock owned or possessed within such district by any resident therein. Law 29 of 1888, amended by Law 28 of 1889, was passed to meet cases in which the supply of water throughout the district was not uniform.

The assistance of the Government in making advances from general revenue for providing water-works has since been invoked for the districts of Savanna-la-Mar in the parish of Westmoreland, Morant Bay in the parish of St. Thomas, St. Ann's Bay and Brown's Town in the parish of St. Ann, Port Antonio in the parish of Portland, Port

Maria in the parish of St. Mary, Old Harbour and Linstead in the parish of St. Catherine, Montego Bay in the parish of St. James, Lucea in the parish of Hanover and Black River in the parish of St. Elizabeth.

Because of the distress in 1912 and previous years in the dry districts from lack of water due to a series of dry years the Government appropriated a large sum of money in the Estimates for 1912-13 for the provision of tanks in aid of country water supplies and as a reserve against drought, and as a result a number of district tanks with catchments have been constructed by the Parochial Boards of St. Ann, Manchester and St. Elizabeth.

This is not considered by Government to be a complete and satisfactory solution of the problem of water supply, but it will be of very substantial benefit pending the utilisation of possible sources of continuous supply.

THE SPANISH TOWN WATER WORKS.

In 1836, the Marquis of Sligo being Governor, a Company was formed for supplying Spanish Town with water from the Rio Cobre, which was obtained by pumping and was distributed through the town in cast iron pipes. From that year until 1870 the company continued in operation, but the supply of water distributed was limited.

In 1870 the works were purchased by the Government and put in thorough order; the mains were relaid and extended, suitable pumping machinery was erected, and a new masonry service reservoir built to hold 150,000 gallons.

The supply of water under the new arrangement was not continuous, each ratepayer being entitled to water only for a certain number of hours daily, Sundays excepted, when no water was supplied.

In 1877 a bill was passed through the Council (law 16 of 1877) for providing Spanish Town with a constant supply of water from the Rio Cobre irrigation canal by gravitation. The new works were commenced early in 1879 and were sufficiently advanced by August in that year for pumping to be discontinued. The water was taken from the main canal at Hog Hole Pen, about two miles to the north of Spanish Town, and was led into two settling reservoirs, having a capacity of $4\frac{1}{2}$ million gallons. From the reservoirs the water was conveyed to Spanish Town in an eight-inch cast iron main. Service pipes are laid on to every house in the town and the supply is continuous.

Owing to there not being sufficient fall from Hog Hole the pressure in the town was low, and at times the upper portion of the town was without water; in 1910-12 three powerful hydraulic rams were erected which can now deliver water into a steel tank 30ft. above the old water level in the reservoirs, the town supply is now connected to this tower, and the highest point of the town is well supplied.

The old settling reservoirs are still used for supplying the rams and the town with clean water, and should any accident occur to the rams, the reservoir supply is ample.

The Rio Cobre Canal Commissioners, who were also the Spanish Town Water Commissioners, having been abolished, the Colonial Secretary of Jamaica, was by Law 23 of 1898, substituted for them.

Within certain limits the water-rate is compulsory under the new system. The prevailing minimum rate is 1s. per month, while formerly for an intermittent supply it was 5s. per month.

These Water Works are under the management of the Director of Public Works.

Collector—The Collector of Taxes for St. Catherine.

Superintendent of Works—F. E. Taylor, salary £40 per annum.

WATER RATE.

The following is the compulsory water rates within the prescribed limits:—

One shilling per month, and in addition thereto one penny half penny for every £10 or fractional part thereof when the property shall exceed £40, provided that the rate payable shall in no case exceed 12s. per month.

Inns, taverns, wholesale or retail spirit stores, laundries, livery stables, lodging houses, manufactories, or printing offices, or for any trade or business requiring water other than for domestic use; such additional rate shall be paid, as the Colonial Secretary shall specially declare. If the property is not used as a residence or for any of the purposes aforesaid the rate shall be one-fourth of the prescribed rate.

OLD HARBOUR WATER WORKS.

In 1876 the late Hon. L. F. Mackinnon, then Custos of St. Catherine, brought the necessity of a Water Supply for Old Harbour to the notice of the Government, and at the same time a petition was extensively signed for the construction of the works. It was decided in 1878 that the best available supply was to be obtained from Bower's River, at a point about five miles north of Old Harbour on the Colbeck Estate, and Works were commenced in 1881 under the supervision of the Director of Public Works. (Law 18 of 1881, section 10).

Water was delivered in Old Harbour and service pipes were connected to householders premises by April 1st, 1882.

The scheme as constructed included a double line of four inch cast iron pipes from the intake at Bower's River to Old Harbour and distributing mains in Old Harbour of 957 yards of four-inch and 2,024 of two-inch cast iron pipes.

Hydrants for fire purposes and for flushing the mains are located in the town.

The water has been connected to 360 Houses through half-inch galvanized wrought iron service pipes. The service has since been extended to Old Harbour Bay, and Church and Bower's Pen district by stand pipe supply. The Jamaica Government Railway and several properties outside the original limits have been supplied with water at special rates.

The cost of the original scheme was £3,710 17s. 8d., and the Works were maintained by the Director of Public Works to August 1st, 1882, when they were handed over to the St. Catherine Municipal Board.

The Government subsequently made a further advance of £2,347 2s. 2d., for laying a four-inch auxiliary main and for the construction of a tank. The area of supply was increased in 1916 to include the districts of Davis, Baylis Pen and Bannister, the rates for these three districts being as follows:—

Houses rated from £20 to £50	..	9d. per month.
" " " £51 " £150	..	1/ " "
" " " £151 " £350	..	1/6 " "

Some further improvements were carried out in 1912. About 1½ miles of open conduit, conveying water to the service reservoir have been replaced by a cast iron main. This has had the effect of improving the supply and of reducing risk of pollution.

The following is the scale of monthly rates for houses within the limits of the Old Harbour water supply district, Davis, Baylis Pen and Bannister excepted paid monthly in advance:—

On all properties below £40 in gross value—Sixpence on each unit of £10.

And on all properties of £40 and over in gross value, an additional 2d. in every £10 of gross value or fraction thereof.

LINSTEAD WATER WORKS.

In the month of July, 1885, the Director of Public Works had (through the Colonial Secretary) presented to the municipal board of Saint Catherine estimates and plans for a water supply to the village of Linstead, to be either taken from Spring Vale estate or from the Berkshire Hall lands, and recommending the Spring Vale supply as being the best and most economical. The parochial Board made overtures to the owner of Spring Vale, for the water rights but failed to obtain them.

Of necessity recourse was had to the Berkshire Hall supply, the right to which was purchased from the owner for the sum of £370. Contracts were then entered into with Messrs. Purdon and Cox for the performance of the work, which cost in the aggregate £6,892 2s. 1½d. inclusive of the £370 above mentioned.

The supply is from two distinct streams, the one called the Berkshire Hall river and the other the Cistern gully.

The distance traversed in the laying of the mains is. for the 4-inch pipes 2½ miles and for 6 inch pipes 6 miles. The source of the Berkshire Hall stream is 340 feet above Linstead, and that of the Cistern gully 540 feet. At the present time it is found that the Berkshire Hall stream is more than sufficient to supply Linstead, and the Cistern Gully supply is therefore locked off.

The number of houses supplied at present is about 343, each having a ½-inch galvanized pipe, with stop cock, and the revenue derived is about £500 per annum.

The works were completed and came into operation in July, 1893, but rates were not collected until March, 1894. Several hydrants are laid in the streets of the town and a

valuable supply of water is to be had in case of fire. The area in which the water pipes are laid is about $1\frac{1}{2}$ miles in diameter.

The following is the scale of monthly rates for houses within the limits of the Linstead water supply district payable monthly in advance:—

On every property under the value of £40—One shilling.

On every property of the value of £40 and upwards but under the value of £70—One shilling and sixpence, and in addition thereto sixpence for every ten pounds or fractional part of ten pounds by which such value shall exceed £49.

On every property of the value of £70 and upwards but under the value of £210, two shillings and ninepence and in addition thereto threepence for every ten pounds or fractional part of ten pounds by which such value shall exceed £79.

On every property of the value of £210 and upwards but under the value of £360, six shillings and twopence and in addition thereto twopence for every ten pounds or fractional part of ten pounds by which such value shall exceed £219.

On every property of the value of £360 and upwards—eight shillings and sevenpence and in addition one penny for every ten pounds or fractional part of ten pounds by which such value shall exceed £369, provided always that the rate chargeable on any single and undivided property shall not exceed twelve shillings and threepence.

In accordance with Law 19 of 1900 these Water Works were taken over by the Director of Public Works on the 2nd July, 1900. The works were handed back to the Board on 1st April, 1908.

THE FALMOUTH WATER WORKS.

This company was established by an act of incorporation (40 Geo. III., chap. 29) in 1799 for supplying the town of Falmouth and the shipping resorting to the port with water from the Martha Brae river.

The subscribed capital of the company was £12,000 in 400 shares of £30 each. There are extant but 299 of these shares.

The water is brought into the town from the Martha Brae river by pipes a distance of about one and a half miles, being raised at the source of supply by a dam and Persian wheel; the works also include a steam engine and force pump, used as auxiliary to the Persian wheel when necessary.

The plant and rights of the company were acquired by the parochial board of Trelawny for £1,600 and possession was taken over on 14th September 1903.

The parochial Board under the water supply law requested the Director of Public Works to carry out the improvements necessary to make the water supply service of Falmouth an up to date and efficient one, and under the directions of that officer Mr. G. N. Cox, prepared plans shewing in detail the nature of the proposed improvement—together with an estimate of the cost totalling to £3,760 13s. 0d. in addition to the purchase money of £1,600.

In 1906 the board decided on account of the bad condition of the old main conveying the water from the head works at the Martha Brae into the town, to take up this portion of the improvements first; by laying down all the new mains which would be required.

The board then obtained an instalment of £1,500 from the Government to lay down the mains.

Shortly after the beginning of the Financial Year, 1908-9, the work of laying down a 6 in. main along the Holland road into the town was commenced. It was then discovered that it would require a much larger amount than £1,500 to undertake the necessary work. The Parochial Board endeavoured to obtain a full advance from the Government to give each householder of the town a service pipe; but the Government was of opinion that a larger loan than £3,500 could not be financed by the Board and this sum would only put down the new mains, attach existing service pipes to them (between two and three hundreds) and re-adjust the wheel and receiving trough at the headworks. The work of laying down new mains and connecting existing service pipes was completed by the P.W.D. and handed over to the Parochial Board on the 20th May, 1911. The dam at Martha Brae has been renewed by the Board and is now in good order. The water supply for the town is satisfactory.

THE MILK RIVER BATH.

Is situated on the right or western bank of the Milk river, at the base of a precipitous hill known as the round hill, in the south-western corner of the district of Vere in the parish of Clarendon, 12 miles from Clarendon Park railway station, 13 miles from the May Pen railway station, and two miles south of the Rest village where there are stores, a market, a post and telegraph office, and about two miles from the sea. The curative powers of the waters of this bath are not surpassed by any mineral bath in the world. Gout, rheumatism, sciatica, lumbago, neuralgia, eczema and troubles of the liver are the complaints for which the Bath is specially recommended. The waters of this bath are not supplied by the large river whence it derives its name, and on the banks of which it has been built, but from a spring which issues out of the hill which slopes down to within fifty yards of the river's edge.

All the lodging-houses are now screened against mosquitoes, the greater portion of the expenditure incurred in carrying out this important work was provided by a grant of money from the Malaria Commission.

The river which was overgrown with hyacinths has been cleaned from the sea to some distance above the Baths.

While there has been a falling off in the number of foreign visitors there has been a steady increase of visitors from different parts of the Island.

The following charges are now made:—

No. 1 House—(a) One person occupying 1 room in the No. 1 Lodging House for 7 days or more at the rate of 4s. per day.

(b) Two persons occupying 1 bedroom 5s. per day for a period not exceeding 14 days, except with the consent of the Directors

No. 2 House.—2/ for one person, with free baths; when two persons occupy one bedroom the charge for each is 1/6.

For each bath taken by a Visitor to the 1st House	..	1s.
“ “ “ 2nd House	..	6d.
“ “ “ 3rd House	..	3d.

Visitors are restricted to the use of the bath corresponding with the lodging house occupied by them.

Paupers from any of the parishes are admitted free of charge for accommodation and baths, provided they are furnished with a certificate by a government medical officer countersigned by the Inspector of Poor of the parish, the Parochial Board for such parish agreeing to pay 1/6 per day for the maintenance of each pauper sent to the institution.

The matron boards visitors at rates varying according to bill of fare, from 4/ to 5/ per diem. Special rates for families or parties of 3 or 4 persons. Wines and spirits may be obtained on payment.

The river from the Bath to the sea is somewhat over a mile; it abounds in fish, and the scenery is very picturesque. A pleasure boat is kept by the directors for the use of visitors.

It is requested that complaints may be made in writing and addressed to the Secretary, May Pen P.O.

The analysis of the Milk River Bath water gives the following mineral constituents in 1,000 parts of water, viz.:

Chloride of Sodium	..	20.77	Chloride of Potassium	0.16
Sulphate of Soda	..	3.40	Chloride of Calcium	1.50
Chloride of Magnesium		4.12	Besides traces of Lithia, Bromine and Silica	

The distance from May Pen Station to the Bath is 13½ miles and the fares (for conveyance) are, for 1 person, 12s.; for 2, 15s. One shilling for portage must be paid on all telegrams to the matron.

It will be found to the greater convenience of visitors to take buggy at May Pen Station. At May Pen buggies may be obtained from Messrs. T. E. Doyen, W. E. Buchanan and T. B. Thompson, and at Milk River from S. Briscoe. From Clarendon Park to the Bath the fares are, for 1 person 8/, for 2, 12/.

Vehicles are run from Milk River to Clarendon Park Railway station and also to May Pen Station.

BATH OF ST. THOMAS THE APOSTLE.

THIS thermal spring is situated a mile and a half from the town of Bath in the parish of St. Thomas. The road from the town to the spring follows the windings of a deep and narrow valley or gorge, in the bottom of which flows a perennial stream to which, rolling down the rocky sides covered in fern, numerous rills contribute.

The mineral springs occur in a short space breaking out from the rocks at different levels, and by their warmth their waters are at once distinguished from the ordinary waters of the gorge. The largest spring issues from the face of a perpendicular rock. A covered reservoir of masonry has been built around its outlet, and a pipe fixed in it carries the water to the bath house, while a plug gives the means of emptying it and of preventing the flow of water to the baths. In wet weather the temperature of the water, as it runs from the rock, was taken at 128° F., and it rises in dry weather to 130° F.

A short distance further up the gorge is a spring surrounded with masonry in a similar manner to the main spring. Its temperature was taken at 120° F.

These waters are of special value in rheumatic, and kindred ailments. Tradition asserts that they were discovered by a negro who in his own person found their efficacy.

The legislature of the day granted £1,250 currency (equal to £750 sterling) to purchase the springs and 1,130 acres of land surrounding them. Directors were appointed and empowered to make a road, erect buildings and provide necessities for patients. In 1749 the directors were empowered to dispose of part of the land and to form a town, and the town of Bath thus sprung into existence; it was for many years the resort of the *elite* of Jamaica Society. Dr. Daucier, the Island Botanist, was in charge of both bath and garden at the close of the 18th century.

The Government having disallowed the vote for the up-keep of the garden, the corporation has taken it over and maintain it. The Jamaica Agricultural Society now uses it for a cocoa nursery. The acreage of land now in possession of the corporation is 179½ acres.

A building has been erected at the bath for the accommodation of visitors. It is two stories high, divided into two apartments for ladies and gentlemen, respectively. The upper part contains a spacious hall for gentlemen and a sitting room for ladies with a pleasantly situated piazza. This portion of the building is fitted up as a lodging. The lower part of the building contains a dressing room and two baths for ladies, and a sitting room for gentlemen, with four baths of the same size as the ladies' baths. There is also a matron's quarters.

The analysis of the Bath water gives the following mineral constituents in one gallon of water.

Chloride of Sodium ..	13.84	Silica ..	2.72
Chloride of Potassium ..	0.32	Oxide of Sodium, com- }	1.00
Sulphate of Calcium ..	5.01	bined with Silica }	
Sulphate of Soda ..	6.37		
Carbonate of Soda ..	1.69	Organic matter	0.99

By law 23 of 1896, the Member for the Legislative Council, the Custos, the Resident Magistrate, the Collector of Taxes and the Chairman of the Parochial Board for the parish of St. Thomas, were incorporated by the name of "The Directors of the Bath of St. Thomas the Apostle" with power to sell, mortgage or lease the lands and other property, subject to the approval of the Governor in Privy Council. It was found that this law left much to be desired since the directors were (owing to the duties of their respective offices) unable to give the time and attention necessary to improve the corporation. Law 17 of 1904, the Bath Corporation Laws Amendment Law, 1904, was therefore en-

acted. This law makes the number of directors seven—the Custos and the Member of the Legislative Council for the parish of St. Thomas, together with five other persons to be appointed from time to time by the Governor.

The following are the charges at the Baths lodgings—single person, per night, 2/6; per week 14/. Two persons in one room, per night, 4/; per week, 24/6. One bath, 1/; two baths (taken on the same day), 1/6. A reduction of 25% is allowed on Baths and Lodgings for visitors staying a month or more.

The terms for board may be ascertained from the matron.

Stabling provided without charge.

THE MAY PEN CEMETERY.

THE land comprising the May Pen Cemetery, situated about one mile from Kingston, on the main road to Spanish Town, was purchased in 1851 with a sum of money voted by the Legislature for the purpose of providing a new burial ground for the parish of Kingston. In consequence of questions which arose as to the persons entitled to a legal and equitable estate in the property under a deed of conveyance to the Bishop of Jamaica and the Rector and Churchwardens of Kingston, upon certain trusts which were not in conformity with the intention of the Legislature, it was deemed advisable to resort to legislation to vest the estate in the municipal board of Kingston. Law 21 of 1874 was therefore passed for this purpose, and for the establishment and general management of the cemetery, which latter is placed in the hands of the board, subject to the power of the Governor to make regulations and special orders. This law further provides for the assignment of portions of the burial ground to the several religious denominations, and for the discontinuance of burials in existing burial grounds by order in Council, and the imposition of penalties for contravention of such orders.

Many of the unknown victims of the earthquake of 1907 lie buried in May Pen Cemetery. A memorial was erected in memory of them in 1909.

The scale of charges for all interments and for permission to erect permanent monuments over or railings around graves (such monuments not exceeding 3 feet 6 inches in height) is as follows:—

For each interment, including the digging of a grave, if for an adult irrespective of bodies sent from public institutions	..	£0	8	0
For digging of grave for children not exceeding 8 years	..	0	6	0
Such graves to be of the following dimensions:—				

If for an adult, at least 5 feet deep, 7 feet long and 2 feet 6 inches wide; and graves for children shall be of such depth and dimensions as in the discretion of the keeper of the cemetery, may be found necessary in each particular case.

The fee must be paid to the Clerk at his office at the time of giving in the requisition for the grave.

JAMAICA CIVIL SERVICE MUTUAL GUARANTEE ASSOCIATION.

BEFORE the passing of Law 45 of 1872 the law in force in regard to the giving of security by Public Officers for fidelity in office was Law 33 of 1867, by which every person having the collection, receipt or payment of any moneys of the public revenue was required to enter into security to the Sovereign in one of two ways, viz., by giving a joint and several bond with one or more sureties or by giving the guarantee of the European Assurance Society. As bonds with sureties such as above indicated were considered by the Government an objectionable form of security, as the European Assurance Society has become bankrupt, as other persons besides the persons mentioned in Law 33 of 1867 were required to give security, and as it was felt necessary that a sound and uniform system of giving security should be established, Law 45 of 1872 was passed. By this law it is provided that every person in the employment of the Government of Jamaica who is required to give pecuniary security for the due discharge in any respect of the duties of his office, whether in regard to money matters or otherwise, shall give such security in one or other of three ways of which one is "by personal bond and the guarantee of any Association of Civil Servants of the Crown in Jamaica formed for purposes of mutual guarantee, and whereof the business is conducted according to rules that shall be approved by the Governor in Privy Council, as may be notified from time to time in the Gazette." This Law was amended by the passing of Law 25 of 1909 which authorized the Association to guarantee any person appointed by the Governor to hold an office paid from Public or Parochial Funds. It was further agreed with the introduction of that Law for the Association to guarantee the office held by an associate for a period of three months during the temporary absence of the holder.

The Jamaica Civil Service Mutual Guarantee Association was established under the first law; it is recognized by the Government thereunder; and is managed by a committee of four public officers, none of them being of a lower rank than chief clerk. The appointment of two managers is vested in the Governor and they hold office during his Excellency's pleasure; the other two are elected by the associates for a term of three consecutive years. At meetings of the committee the senior member by date of appointment is chairman and two members form a quorum. In the transaction of business the managers are bound by rules, approved by the Governor in Privy Council, the managers having the power to amend the rules on obtaining the assent of the Governor and of a majority of the associates.

Any civil servant of the crown who has obtained the Governor's permission to give security in the shape of the guarantee of the association, and who has expressed his willingness to be bound by its rules is eligible for membership, and the managers are required to give full and fair consideration within a reasonable time to all applications, deciding whether they will accede to them or not and communicating the result forthwith to the applicant and the government. When an associate has been admitted to membership he can withdraw only by obtaining the Governor's permission and giving the managers twelve month's notice, but by giving one month's notice the managers can exclude any associate from further membership.

Immediately on his acceptance and the guarantee of his fidelity being given an associate becomes liable to contribute, and is required to contribute by way of loan, a sum not exceeding 5 per cent. of the amount of his bond, payable monthly at the rate of one per cent. per annum for a period of five years. The managers however, have the power to call upon the associates to contribute a further loan at one fixed rate per cent., when they are of opinion that the ordinary loans are insufficient to yield the income required to carry on the business; there has never been any necessity to do this. On the contrary the interest accruing on the subscribed loans has so accumulated as to induce the managers during the year 1886 so to amend the rules of the association as to allow its division every third year, among associates whose bonds are then in full force and effect, and in terms of this amendment a sum of £3,144 14s. 3d. has been written up to credit of associates.

On the withdrawal from the association an associate is entitled to a refund of the full amount of his contributions and share of profits, if the Association has incurred no losses during his membership, or to the proportion remaining to his credit after the losses have been provided for.

The rules of the association were first approved by the Governor in Privy Council on the 27th August, 1872 and the preliminary arrangements being completed guarantees were issued on the 1st October in that year. From that date to the 31st March, 1916, a period of nearly forty-four years, guarantees to the amount of £665,250 were issued,

and losses by the defalcations of associates incurred to the amount of £3,717 17s 3d.

The loans of associates are levied at the Public Treasury from time to time as they become due and placed to the credit of the Managers, who are required to invest the amount in island debentures or deposit it in the Government Savings Bank. The assets of the association on 31st March 1916 amounted to £7,278 8s. 4d., namely, Island Debentures and Inscribed Stock £6,552 7s. 6d.; Government Savings Bank £272 11s. 3d. Treasury £450 11s. 9d. Of the total assets £7,107 2s. 0d. are held to the credit of the Associates, and £171 6s. 4d. to the credit of the Association. But however satisfactory the financial position of the association may be, a review of the transactions of the period presents a more gratifying feature in the testimony it bears to the completeness of the supervision and audit of accounts and to the integrity of the officers employed in the collection and disbursement of public moneys. When it is considered that this association guaranteed more than nine-tenths of the public officers required to give security, and included in that number the whole of the officers charged with the collection of the excise, customs and internal revenue, all the Parochial Treasurers through whom local disbursements are made and many other disbursing officers, no stronger evidence can be adduced of the integrity of the public officers of the colony than the fact that the losses of the association for a period of upwards of forty-four years have been under £85 per annum.

The office is at the Collector-General's Office, Kingston.

MANAGERS.

G. M. Livingston. Hon. A. H. Miles, C.M.G., I.S.O., appointed by the Governor. Hon. J. H. W. Park, C. C. Anderson, elected by the Associates; *Secretary*, R. Nosworthy.

SECURITY OF PUBLIC OFFICERS.

THE following are the ways in which Public Officers can give security for their fidelity in office, as laid down in Law 45 of 1872 and Law 2 of 1893.

1. By personal bond and deposit with the Treasurer, to the extent required, of Jamaica government debentures, or debentures of any public commission by law established in Jamaica, duly endorsed in favour of the Treasurer, or by personal bond and lodgment in the Government Savings Bank to such extent, in the name of the Treasurer.

2. By personal bond and the guarantee of any association of civil servants of the Crown in Jamaica for purposes of mutual guarantee, whereof the business is conducted according to the rules that shall be approved by the Governor in Privy Council, as may be notified from time to time in the "Jamaica Gazette." (*See previous article.*)

3. By personal bond and the guarantee of any public company or association, provided such company or association has been approved of by the Governor in Privy Council as a company or association whose guarantee may be taken.

Under Law 14 of 1905 every person in public employment who is required to give pecuniary security for the due discharge in any respect of the duties of his office, but who is not entitled to give such security through the guarantee of the Jamaica Civil Service Mutual Guarantee Association, may give such security by his own personal bond and the bond or bonds of one or more sureties; provided, such surety or sureties are approved by the Auditor General.

PART XIV

BENEVOLENT AND TRUST FUNDS AND INSTITUTIONS.

RECTORS FUND.

THE Jamaica Rectors Fund was established about 70 years before the creation of that of the Island Curates. It was intended to provide annuities for the widows and orphans of the then clergy of the island. The capital on the 31st March 1916, was £10,605 13s. 3d. on which the Treasury pays six per cent. under the authority of law. By a legislative enactment Law 14 of 1882, the government has guaranteed the pensions at the full rates of £52 a year to widows and £26 and £17 6s. 8d. a year to orphans of each class, respectively, as a set-off to the claims of the trustees in regard to lapsed rectories. After receiving a report on the condition of the fund by the actuary, the trustees, with the sanction of the Government, have, since 1st October, 1899, paid the following rates:—widows, £60; first class orphans, £30 a year; second class orphans, £20 a year. The Act further constitutes the Incorporated Lay Body of the Church of England in Jamaica the residuary legatee of the Rectors' Fund.

Sons cease to receive the benefits of the fund at 18 years of age; daughters receive their annuities till marriage or death. The annuities paid by the Fund in 1915-1916 amounted to £768 12s. 0d. The Trustees are the members of the Diocesan Financial Board for the time being. *Secretary, I. R. Latreille.*

ISLAND CURATES FUND.

THE Jamaica Island Curates Fund was established prior to the disestablishment of the Church of England in Jamaica by an act of the legislature. It is intended for the benefit of widows and children of deceased Island and other curates. The amount of twenty-five pounds four shillings a year is deducted by the Public Treasurer from the stipend of each island curate, and credited to the account of the fund. The capital on 31st March, 1916, was £28,736 9s. 11d. This existing capital will still further be gradually drawn upon for payment of annuities as the number of subscribers decreases, a process which is now going on very rapidly, the Church being disestablished. The allowances to widows are at the rate of fifty-five pounds per annum and to children £18 6s. 8d. per annum. Children under age who have lost both father and mother receive double allowances. Sons cease to receive the benefits of the fund when they come of age. Daughters continue to receive their annuities till marriage or death. Under the provisions of the law, and subject to the advice of the actuary, the fund is managed by a Board consisting of resident subscribers and the members of the Diocesan Financial Board for the time being. The annuities paid by the Fund in 1915-1916 amounted to £1,593 9s. 0d. *Secretary, Rev. Canon Harty.*

WIDOWS AND ORPHANS OF CLERGYMEN OF THE DISESTABLISHED CHURCH.

THIS fund provides pensions for the widows and orphans of deceased clergymen of the disestablished church of Jamaica.

It is maintained by abatements at the rate of four per cent. from the salaries of the non-state-paid clergymen; of one half of the amount received as offertories from the churches for the purposes of this fund and of the Clergy Pension Fund; of donations and bequests of property or money from societies, institutions or individuals and of the proceeds of insurances or other investments.

The pensions are thus regulated: On the death of an associate leaving a widow and children by such widow only his widow receives a pension according to the actuarial table attached to the canon regulating the fund, and on her marriage or death the amount is divided among the orphans of such associate in the following proportions: If three in number or less each receives one-fourth of the amount to which the widow was entitled, but if more than three the pension is equally divided between them. If the clergyman dies leaving orphans but not a widow the amount to which his wife would have been entitled had she survived him is divided among the orphans in the propor-

tions above stated. If a clergyman dies leaving a widow and also children by a previous wife entitled to pensions the total pension is divided on fixed principles laid down in the Canon. The pensions of boys cease at the age of eighteen, and of girls on marriage or at the age of twenty-one.

From the amount received as donations or offertories the Financial Board may make such monthly or other grants to the widows and orphans of non-state-paid clergymen (whether they were associates or not) as to the board may seem necessary.

On the formation of the fund in January, 1881, 37 of the then non-state-paid clergymen became associates. It being compulsory "on every future clergyman of the Diocese to contribute to the fund," all the Clergymen who have since been ordained have been enrolled. The result was a membership of 96 on the 31st December, 1915. A canon was passed by the Synod of 1890 requiring medical examination in the cases of future associates. Of the number of clergymen who became associates nine have died, two as bachelors and seven leaving widows and children. Seven widows are at present pensioners on the Fund.

The abatement from salaries during the year 1915 on account of the Widows and Orphans' Branch of the Fund amounted to £382 13s. 0d.; the interest on the money invested yielded £284 2s. 11d. Grant from guarantee account in aid of interest £142 1s. 5d. Matured and surrendered value of Policies, £347 6s. 0d. The sum of £1 4s. 0d. was received for interest on Ice Shares. The payments were, for insurance premiums £176 12s. 4d., pensions £266 14s. 6d. Transfer to W. & O. Guarantee a/c and Interest a/c £2,846 10s. 10d.; Refunds £17 10s. 0d.; Bonuses, £16 9s. 7d., Doctors' fees, £4 4s. 0d., Sundries, £0 10s. 6d., leaving a balance of £7,594 13s. 11d. to the credit of the Fund on January 1, 1916.

The lives of 31 clergymen are insured for £150 each (23 in the Jamaica Mutual and 8 in the Standard Assurance Company) on account of the Fund. The value of these policies is an asset of the Fund in addition to the cash balance just mentioned, as is also a balance of £4,737 6s. 4d. on Guarantee Account.

Fifteen churches contributed to the Voluntary Fund during the year 1915, giving a total of £17 15s. 9d., or an average of £1 3s. 8d. each.

From this fund £12 0s. 0d. was given to the widows of deceased clergymen, and there is a credit balance, of £8 1s. 5d.

The Financial Board is required to invest all moneys and property received on behalf of the Fund and to manage its general affairs. The details of management are left to a committee of the Board.

According to Law 14 of 1882 the Widows and Orphans' branch of the Fund has been made the residuary legatee of the Rectors and Curates Funds of the late Established Church in Jamaica.

COMMITTEE OF MANAGEMENT.

The Rt. Rev. Lord Bishop of Jamaica. Ven. Archdeacon Simms, M.A.

J. M. Nethersole.

Honorary Secretary: Ven. Archdeacon Simms, Ropley, Gordon Town P.O.

PENSION FUND FOR CLERGYMEN OF THE DISESTABLISHED CHURCH.

This fund provides for the pensioning of superannuated clergymen of the disestablished church. Its resources consist of an annual contribution from the Diocesan Expenses Fund of the diocese of not less than one hundred pounds; of half the offertories made for this and the Widows and Orphans' Funds; and of donations, bequests, and collections made specially for this branch of the fund.

A clergyman on reaching 65 years of age may claim a retiring pension; and any clergyman who by a joint resolution of the Bishop, the Diocesan Council and the Financial Board may be declared superannuated (whether at, before, or after sixty-five years of age) may claim a retiring allowance. The pension is for the present fixed at the rate of one-sixtieth of the minimum stipend for each year of continuous service; but no pension can exceed two-thirds of the minimum.

No pension can be paid for less than ten years continuous service; but any clergyman who may be compelled to retire before he has completed that period may be paid a gratuity not exceeding ten pounds for each year of service.

The fund opened the year 1915 with a credit of £5,252 1s. 7d. This, with a grant of £100 from the Diocesan Expenses Fund and £317 8s. 6d. for interest, gives a total of £5,669 10s. 1d. Pensions amounting to £239 0s. 0d. have been paid, leaving £5,430 10s. 1d. as the balance of the Fund at the end of the year 1915.

The Fund is managed by the same Committee of the Financial Board as the Widows and Orphans' Fund.

FLETCHER'S TRUST, KINGSTON.

MARTHA BELLINGER FLETCHER, by her will dated 15th July, 1847, devised and bequeathed her real and personal estate to the Hon. Hector Mitchell and Thomas B. Wiltshire upon trust to manage and rent out the same, and with power to sell and invest and apply the clear yearly revenue among such of the blind, poor and destitute of Kingston as should be recommended to the trustees by the ministers of the churches or places of worship to which they may belong. Hector Mitchell and Thomas Wiltshire proved the will and sold all the personal and certain portions of the real estate.

On the 27th May, 1853, Mitchel died, leaving Wiltshire surviving. By instrument made between Thomas Wiltshire of the first part, Rev. D. H. Campbell, Rev. W. West and Rev. D. J. East of the second part, and the churchwardens of Kingston of the third part, the churchwardens were appointed trustees in the room of Hector Mitchell and Thomas Wiltshire. It appears that Wiltshire never interfered with the management of the estate.

On the death of Mitchell his creditors filed a suit in chancery against his estate, and the churchwardens of Kingston on their appointment as trustees of Fletcher's Trust filed a petition in the suit for the recovery of the sum of £314 2s. 1d. which was in his hands at the time of his death. The result of this petition was that the sum of £187 19s. 3d. was recovered as the *pro rata* proportion of the debt which was due to the trust.

The sum received, less solicitor's costs, namely, £130 0s. 0d., was by direction of the Chancellor paid into the Treasury and thereafter drawn out on the receipt of the churchwardens (Dr. C. Campbell and Mr. C. Goldie) and lodged to the credit of an account called "Fletcher's Trust" in the Government Savings Bank, where it remained until 1912 when it was invested in Local Inscribed Stock yielding 3½ o/o. The interest up to 30th September, 1880, was distributed in the Christmas of that year, among the poor of Kingston, and the interest to 31st March, 1892, on 1st January, 1893. The interest to 31st March, 1903, was distributed on the eve of Victoria Day, 1903, and the interest to 31st March, 1909, was distributed at Christmas, 1909 to such of the poor as were also blind. The interest to the 31st July, 1914, was distributed at Xmas 1914.

SARAH MORRIS' TRUST, KINGSTON AND ST. ANDREW.

This trust arose out of a legacy of a Miss Sarah Morris of Kingston, whose will was proved on the 22nd of December, 1809, in which, after making several bequests, she "bequeathed all the rest, residue and remainder of her estate, both real and personal, to be sold and invested, and the proceeds to arise therefrom, at interest, to be distributed from time to time unto and among the poor of the parishes of Kingston and St. Andrew, who receive the pay or bounty of the said parishes, in proportion to the number of the poor of the said parishes."

The money of the trust is invested in Island Debentures and in Local Inscribed Stock the total sum so invested being £2,150. The interest is divided between the parishes of Kingston and St. Andrew in proportion to their total pauper expenditure. Out of the sum received by Kingston, the City Council distributes annually during the Christmas season small doles to the poor in addition to their usual allowances. In view of the large amount at credit applicable to the Kingston poor from this trust the City Council gave during the Jubilee holidays a substantial dinner to the in-door poor as well as an extra allowance of money and clothing to the out-door poor.

D'ESPINOSE'S BEQUEST.

CHARLES D'ESPINOSE, formerly a merchant in the city of Kingston, who died in Paris on the 7th of April, 1875, by his will dated 7th June, 1867, bequeathed the sum of one thousand pounds "in aid of any fund or establishment that may be formed for the relief of the destitute poor of Kingston." To this will there was a codicil, dated the 25th May 1872, declaring that this legacy should be increased to £2,000, "subject to the conditions and control already stated in the will."

In the absence of any fund or establishment which could be considered in keeping with the Testator's intention, the executrices and executor of Mr. D'Espinose's will in 1882

proposed to the City Council of Kingston that the money should be invested for the benefit of the City Dispensary, with the Bishop of Jamaica, and the Vicar Apostolic of the Roman Catholic Church, as Trustees, and the Board approved of this appropriation of the bequest.

WOOD'S BEQUEST.

R. T. Wood bequeathed in 1879 a sum of £1,900 in Island Debentures to the City Council of Kingston, the interest to be distributed amongst the poor of Kingston. The interest is distributed annually at New Year.

GREGORY'S CHARITY.

MATTHEW GREGORY, doctor of medicine (who died 31st December, 1779, aged 86) by deed, dated 22nd March, 1765, conveyed certain property in trust, the proceeds of which and profits arising therefrom were to be applied towards relieving any distressed persons in or from any part of the colony, to bind out poor children to trades, or to portion poor girls at marriage. By Law 34 of George III the trustees are the Chief Justice of the Island, the Custos of St. Catherine and the clergyman for the time being in charge of the Cathedral, Spanish Town; the last-named of whom has the administration of the fund, the annual income of which is £144 (vide 28 Vic., Cap. 23). About 40 distressed persons receive help.

FLETCHER'S CHARITY, SPANISH TOWN.

IN March, 1714, George Fletcher by will bequeathed, after sundry intermediate devises to the churchwardens and vestrymen of St. Catherine all his real estate to be applied to the use of three poor widows of the parish of St. Catherine, to be selected from time to time by the said churchwardens and vestrymen.

The real estate consisted of 800 acres of land in St. Elizabeth, 227 acres near Highgate, St. Catherine, a pen near the Angels, and a house in Spanish Town in which the widows were to reside.

The churchwardens and vestrymen sold from time to time all the property except the house in Spanish Town which was until the passing of Law 32 of 1908 in the possession of the parish. The moneys derived from the sales were appropriated to the use of the parish, part having been expended in the building of a House of Correction, now the District Prison.

The annual value of the trust property after the final sale of the lands was set down at £91 4s.

In 1847 the Act 10 Vic., cap. 45 was passed, which authorized the justices and vestry to raise a sum for the payment of the annuities as an item of parochial expenditure, but there is no record of any rate having been levied for this purpose, although provision was made for the widows' pensions each year in the parochial estimates.

By the Act 21 Vic. cap. 44 the power of the parishes to raise taxes was abolished and the liabilities of all the parishes were assumed by the Government. Since then provision has been made for the payment of the pensions at the rate of £30 8s. per annum out of general revenue.

Three ladies of Spanish Town are now receiving under the trust the pensions fixed by the law.

GRAY'S CHARITY.

ON the 10th of May, 1854, John William Gray, of the parish of Saint Mary, merchant, made a will, in which he directed that after his death a sum of £5,000 should be paid by his executors into the hands of the Governor of Jamaica for the time being, "to be by him appropriated for the use and benefit of the respectable poor of the parish of Saint Mary in the establishment of a poor house for the exclusive benefit of the respectable poor of the parish of Saint Mary, to be established and secured by legislative enactment in the manner he, the Governor, may deem best, so that it may be of lasting advantage."

Gray died in 1854, one month after making his will. Owing to delay in realizing the estate the bequest of £5,000 was not paid over to the Governor until the year 1863, when it was invested in the island securities.

Some correspondence thereafter ensued between the executors and the Government as to the best means of carrying out the wishes of the testator, but, with the exception of its having been arranged that Fort Haldane, at Port Maria, which was transferred

to the Jamaica Government by the Secretary of State for War under the provisions of the Act 25 Vic. Cap. 4, should be sold to the Charity for the purposes of a poorhouse for the sum of £250, no practical step was taken in connection with the bequest until July 1872, when Law 42 of 1872, "A Law to establish and secure Gray's Charity, and to authorise the Governor to appoint Trustees for the management thereof," was passed. By this time the bequest had increased by accumulation of interest to the sum of £8,056 14s. 5d. The Governor, Sir John Peter Grant, under this law, appointed as trustees the Auditor-General, the Custos of Saint Mary and the Inspector-General of Police.

Matters dragged on—still without any benefits being conferred by the Charity—until July, 1877, when rules for the management of the charity were passed by the Governor in Privy Council under the 6th section of Law 42 of 1872. These rules provide, *inter alia*, that fourteen inmates should be admitted to the poorhouse, who were to receive a weekly allowance of 5s. 6d., with water and furniture, but were to provide their own food. These rules further regulated the expenditure on account of the institution, the duties of the clerk and matron, and the arrangements for quarterly meetings of the trustees.

It does not appear that any inmates were received into the charity until the 15th of August, 1880; but since that date a home has been found in the charity for twelve suitable persons. The total amount of the funds of the charity was on 31st March, 1916, £15,872 8s. 8½d., of which amount £15,278 0s. 0d. is invested in Jamaica Debentures and Inscribed Stock and £106 5s. 4½d. in the Government Savings Bank. The remainder £488 3s. 4½d. was uninvested at that date.

Trustees—Hon. Sir John Pringle, M.B., K.C.M.G.; E. H. Kerr, Rev. J. H. H. Graham A. Davidson Goffe, Hon. R. P. Simmonds, M.L.C., and T. McLean Gray.

Clerk—Sidney C. McCutchin.

THE HEBREW BENEVOLENT SOCIETY.

THIS society was established in 1851 immediately after the terrible epidemic of cholera which raged in that and the preceding year. Indeed, it owes its origin to that epidemic and to the energy and philanthropy of the late B. A. Franklin, who was untiring in his exertions to aid the afflicted of all denominations while the scourge continued, and it was during the prosecution of this good work that the extent of the distress which prevailed among the Jewish poor became apparent; the establishment of this charity was the result of the discovery. At this time out-door relief only was given, but in 1863 it was determined, if practicable, to establish alms-houses, and this was accomplished principally with the proceeds of a grand bazaar in Kingston which amounted to upwards of £900. The charity was supported by voluntary contributions, and a collector calls weekly on those who are willing to pay a regular subscription, which is fixed at 3d. per week, as the minimum. There are 38 inmates in the Home principally aged, and children, who receive coffee and a loaf of bread each, every morning, a substantial dinner at noon, and a loaf of bread in the evening. The funds amount to about £300. "The Jewish Home" which was wrecked in the earthquake of 1907, was rebuilt and consecrated in 1910.

GEMILUT HASADIM SOCIETY.

THIS society has been in existence over a century. It provides for the burial of the dead besides giving relief to respectable poor outside of the Home.

President—N. M. Alexander; *Treasurer*—C. D. Davies.

NIGHT REFUGE AND PAROCHIAL DISPENSARY.

The building at No. 3 Hanover Street used as a Night Refuge and Parochial Dispensary was destroyed on 14th January, 1907. The temporary office of the Inspector of Poor is at the old Wolmer's School, the entrance being from Church Street or Temple Lane. The Dispensary is at No. 17 Mark Lane.

JAMAICA MASONIC BENEVOLENCE.

THE purposes of this institution are the relief of necessitous and impoverished members of the masonic order, their widows, orphans or other dependent relatives, by weekly, monthly, or yearly allowances; by donations; by the granting to them of clothing, food or implements of workmanship; by providing education for their children; by aiding in their passage from the island; or by such other charitable means as may come within the scope and objects of the Association.

The funds are raised by voluntary donations and, by annual subscriptions from lodges and chapters and from individual masons and others; and include collections made at masonic banquets and the proceeds of concerts, bazaars, dramatic and other entertainments.

The funds and general affairs of the association are under the control and direction of a board of directors consisting of the presiding officers of the district grand lodges of England and Scotland in the island and their deputies; the presiding masters and immediate past masters of the subscribing lodges, and twenty-four master masons annually elected from amongst the subscribers. Every mason subscribing 10s. or more per annum is entitled to vote for the members of the board of directors and to all the other privileges of membership.

A report of the transactions of the association is annually prepared by the directors and distributed amongst the lodges and individual subscribers to fund, but the names of the recipients of charity are not included in such report. Particulars in this regard are only furnished confidentially to individual subscribers or to subscribing lodges on application to the Treasurer. In cases of emergency the President (and in his absence from Kingston a vice president) is empowered to dispense in charity any amount not exceeding five pounds. The Income for 1916 was £203 18s. 7d.

The grants to distressed brethren, widows, wives and children of masons, during 1916, amounted to £180 16s. 0d; for education fees, £21.

The working expenses, including printing, postage and stationery, amounted to £4 18s. 11d., leaving a balance, on 31st December 1916, of £559 1s. 1d; of this amount £500 are in Government Debentures, Masonic Association, £88, and £71 0s. 1d. in Bank of Nova Scotia.

CITY DISPENSARY.

THIS institution was founded in 1876, upon the suggestion of W. C. Wright, and through the indefatigable exertions of B. A. Franklin. The object for which it came into existence and in the promotion of which it continues is to provide medical attendance and medicine for the labouring and artisan classes and others, at threepence per week.

Children of members admitted free of entrance fee, and attended up to two years free; and from two until ten years the subscription is at the rate of 1½d. per week.

Persons unmarried whose income does not exceed £150, and married persons £200, are eligible for admission to membership.

Married women whose husbands and children are members are attended in midwifery free after one year's membership.

Employers may arrange for medical care of servants through the dispensary, with the right of substituting one name for another in case of change.

Entrance fee—one shilling, and one shilling for four weeks subscription.

Subscription payable in advance weekly, monthly or quarterly.

The D'Espinose's bequest of £2,000, which yields £80 per annum, enables the Dispensary to render aid to 75 free recipients, nominated by the trustees of the trust, namely, Archbishop Nuttall and Bishop Collins. Further, from the growing resources of the institution provision is now made for the attendance of a qualified nurse in cases of confinement; the nurse holds an order to summon the medical officer if complications arise. The sum of £5 6s. has been expended on this department during the year.

The nurses now employed hold certificates from the Jubilee Lying-in Hospital.

The building completed in 1895 was wrecked in the earthquake of January, 1907. It was rebuilt at a cost of £869 15s. 6d. A grant of £500 was made, by the Assistance Committee.

THE LADY MUSGRAVE WOMEN'S SELF-HELP SOCIETY.

Corner Harbour and Duke Sts.

THE Women's Self-Help Society was founded by Lady Musgrave, and formally opened as a depository by Dr. Nuttall, (late Archbishop of the West Indies) on 1st November, 1879. During these years it has successfully carried out its objects, viz.: the development of some of the specially feminine industries of the island (thereby fostering self-help), and that of providing employment for poor needle women.

At the sale rooms of the society, there is a large assortment of Jamaica curiosities, baskets, jippi-jappa hats, drawn-thread work, embroidery, etc., as well as preserves, chutney and pickles. There is also a stock of useful clothing for servants and working people.

The premises at 8 Church St., opened in 1890, were built in memory of Mrs. Charles and Mrs. Duncan Campbell, who were associated with Lady Musgrave in the foundation of the society, and by their untiring labours, aided in placing it in its present position of success and efficiency. These premises were destroyed in the earthquake and fire, but through the courtesy of the Mayor and Council of Kingston, who gave rooms in the Council building, the society's work was continued. A new building was erected in 1911 at the corner of Duke and Harbour streets.

The society is self-supporting but the members of the committee pay an annual subscription, and this amount, together with periodical donations from some friends in England and Jamaica, is devoted to charity. Depositors are charged 1d. in the shilling for commission on articles sold.

THE KINGSTON SAILORS HOME.

42 Church Street.

THIS institution was founded in 1864 through the exertions of the Rev. George Cheyne with the co-operation of other philanthropists.

The institution was maintained by annual subscriptions from the merchants and other leading members of the community, and for some years prospered. But in the year 1879 it was found that, while the contributions received were inadequate for the efficient support of the Home, there were no means of preventing defalcations on the part of dishonest inmates and an appeal was made to the government for aid. A law was thereupon passed by the legislative council, Law 30 of 1879, placing the Institution on a more substantial footing than before. A corporate body was established for the management of the institution and the office of superintendent was created with definite powers. The principle on which government grants were to be made was laid down to be that of a sum equal to double the total amount of voluntary subscriptions received during the previous year. Since then the institution has annually received a liberal grant from the government. The section of the law providing for the government grant, has been amended by law 32 of 1906, to read as follows—"or such less sum as the Governor may think necessary or desirable for the carrying on of the Home in a proper and efficient manner."

In the year 1883 the directors succeeded in providing better accommodation for the inmates. Having purchased a site in Church street they erected thereon suitable buildings at a cost of £1,065, and the same were formally opened by the Governor Sir H. W. Norman on Thursday the 6th March, 1884. The building was destroyed by the earthquake of 1907, but was rebuilt in 1908 and was re-opened for use in January 1909, by Sir Sydney Olivier.

The following are the particulars of Receipts for 1915-1916 to March 31st:—

Balance brought from 1914-1915	£3 17 5

SAILORS REST AND READING ROOM.

18 Duke Street.

THIS institution was started by Mrs. Denniston 19 years ago to give sailors visiting the port a pleasant room in which to sit, read papers and books, play games and have music and write letters home. Cool drinks, cigar and cigarettes, tea and lunch provided and beds for any who do not return to their ship at night.

Funds are greatly needed, as the sole support has to rest on Mrs. Denniston.

The Sailors Rest does not in any way interfere with the Sailors' Home which is exclusively for the use of stranded sailors who are paid for by their own nationalities and also for sailors paying for themselves.

COMMITTEE.

Mrs. Denniston, A. V. Kingdon, R.M., G. MacNab Livingston, C. W. Magnan, E. B. Hopkins, W. P. Clark, R.M., G. P. Myers, M. J. Martilliere, J. O. Latrielle, the Mayor of Kingston.

KINGSTON AND ST. ANDREW UNION POOR HOUSE.

THIS institution opened on the 1st July, 1870, is situated on Admiral's Pen land in St. Andrew. It is maintained by the poor rates of Kingston and St. Andrew. No person who is capable of earning his or her own livelihood, can be admitted. Orders for admission must be obtained through the inspector of poor for Kingston or St. Andrew.

The institution accommodates over 700 inmates. The average cost of each is about 6½d. per day, including all expenses, with the exception of medical attendance, the medical officer for lower Saint Andrew visiting the inmates daily. The inmates are fed in accordance with a regular diet scale. The clothing is partly made up by the inmates under the superintendence of the master and the matron.

The institution is conducted by a board of managers composed of—the Mayor of Kingston and the chairman of the Parochial Board, St. Andrew, and four other members from the parochial Boards of the parishes of Kingston and St. Andrew. Three members form a quorum. The board elects its chairman and vice-chairman. annually. The chairman for the time being has a casting, as well as an initial vote.

The remaining members of the Mayor and Council of Kingston and the Parochial Board of St. Andrew constitute an ex-officio board of visitors to the institution.

Chairman—W. T. Connolly; *Vice-Chairman*—C. A. DeLeon; *Master*—F. G. DaCosta, salary £175; *Matron*—Mrs. Church, salary £70; *Clerk*—J. Montague Simpson, £84.

Assistant to the Master, Storekeeper and Dispenser—E. A. Martin salary £80.

DISCHARGED PRISONERS' AID SOCIETY.

THIS society was formed in 1898 on the initiative of Mr. W. P. Clark, then Resident Magistrate of Clarendon.

In its efforts to assist discharged prisoners the society is influenced, so far as possible, by the evidences of individual desire, on their part, to help themselves. It will only recommend and help those who, upon thorough investigation into their record, and after careful inquiry into their conduct give evidence that they are anxious to live honest and industrious lives; and further state their willingness to hand over whatever gratuity shall be paid to them by the prison authorities, to the funds of the society, if this is required. This gratuity, however, must be wholly used for the individual to whom it was originally granted.

The funds of the society, other than prisoners' gratuities, are disbursed in one or other of the following ways:—

1. By the Executive of the Society according to arrangements agreed upon for each separate case brought before the monthly meeting, which meeting authorizes payments of money by the Secretary-Treasurer. When necessary, such authorized payments are forwarded to a Local Secretary, or other person approved (a member of the Society if possible) together with the name of the discharged prisoner in whose behalf it is sent, and the Local Secretary or other person, is desired to exercise a discretion in appropriating such sum so as to secure the best possible results in the work of reclaiming the recommended person.

2. In those parishes where the Parochial Committee elects to disburse its own funds, the Secretary notifies, on occasion, the Local Secretary of those prisoners to be discharged in his parish, to whom the Society's card will be issued; and the Parochial Committee in their discretion, distributes such funds as are in their hands for the benefit of those so recommended.

The aim of the Discharged Prisoners Aid Society is to help discharged prisoners to become better men and women, and useful citizens. It attempts to fulfil this object by aiding the ex-prisoners to find and secure work, by providing them with tools, and clothes when necessary, by helping them with food and lodging as a temporary provision when they are destitute, and attempting to influence them to attain a better moral and spiritual standard.

Outside the fact that the society's efforts are rigidly and painfully limited by the small sums subscribed to its funds, the main difficulty has been as usual, that of securing work for the ex-prisoners. There is, first of all, the fact that there are not in any case many opportunities for obtaining work open in this island, but the main difficulty for us lies in two further facts; first, there are few who are ready to employ ex-prisoners; and second, there does not exist in Jamaica a properly organized labour bureau in which information is focussed, showing just where labour is wanted. The very kind co-operation of a few employers is most gratefully acknowledged, and the Committee records with pleasure the fact that during the last year, a few more friends of the work have assisted in this way, but the task of getting work for the men and women who apply to the society is on the whole not only very difficult but in instances is practically impossible. It must be remembered that the society which receives meagre financial support from the public also does its work through a Committee and executive consisting of ladies and gentlemen already occupied with many other duties.

The society has a Branch in Lucea. There is also a Branch at Montego Bay.

OFFICERS AND EXECUTIVE COMMITTEE.

THE KINGSTON CHARITY ORGANIZATION SOCIETY.

THE objects of the Society are the Charitable Relief and the general welfare of the the Poor of Kingston and the adjacent parts of the parish of St. Andrew. It will seek:

1. To bring into harmonious co-operation with each other and the Poor Law Authorities, the various charitable agencies and individuals in the district, and thus to check the evils of overlapping relief caused by simultaneous but independent action.
2. To investigate thoroughly the cases of all applicants for charitable relief, and to secure from the proper charities, or from charitable individuals suitable and adequate relief for deserving cases.
3. To assist from its funds all suitable cases in which temporary aid will tend to permanent advantage, and for which adequate assistance cannot be obtained from other sources. This assistance may (when possible and desirable) take the form of loans, or gifts of money for the individuals needing it.
4. To repress mendicancy by the above-named means, by the distribution of investigation tickets, and by dealing with cases of imposture.
5. To inculcate habits of prudence, self-reliance and thrift on the part of those who are aided.
6. To promote the establishment of subsidiary efforts, dealing with such matters as
 - (a) Free Registry of all classes of labour; (b) Provision of food for hungry persons; (c) The proper housing of the Poor; (d) Assisting moneyless people to return home; (e) The establishment of suitable industries to supply work for the poor, including market-gardening or any other light agricultural work.

JAMAICA NURSES' UNION.

AND DISTRICT NURSES' FUND.

THE Jamaica Nurses' Union was founded in 1904 by His Grace the Archbishop of the West Indies, in conjunction with ministers of various denominations. Its object is to facilitate communion between nurses and medical men, or patients requiring their services, and to aid in keeping up the moral, social and professional status of nurses. At the bureau of information at the Deaconess Home, 93 Hanover St., a register of nurses is kept under the direction of the Sisters of the Deaconess Home. Two nurses are permanently employed by the committee for nursing among the sick poor in Kingston.

SOCIETY FOR THE PROTECTION OF ANIMALS IN JAMAICA.

THE object of the society which was founded 1903, is, as its name implies, the *protection* of animals. It endeavours to attain this aim by education, encouragement, example and, where these fail by recourse to the law. Two agents are employed to this end.

A subscription of 2s. 6d. entitles to membership; donations and subscriptions are thankfully received and are urgently required with a view to extending the work of the society. Many prizes have been awarded at Agricultural Shows throughout the country for animals showing the best care.

President—Sir John Pringle, K.C.M.G.

EXECUTIVE COMMITTEE

UPWARD AND ONWARD SOCIETY.

MONTEGO BAY SELF HELP HOME.

THE work of the "Montego Bay Self Help Home" was started in a small way on the 23rd June, 1903, by a few ladies under the auspices of "The Upward and Onward Society." Object—to befriend and get employment for girls of the peasant class.

"The Self Help Home" was opened for the further development of the work on 5th March, 1906. There is a salesroom for Jamaica curiosities, baskets, jippi jappa hats, embroidery, crochet, etc., as well as pickles and preserves.

There is an embroidery class and a laundry.

In July, 1912, the society, through the "Building Society," bought the premises they occupied in Market street for £400.

The income, for 1915, including subscriptions, was £239 2s. 1d.

During 1914, two girls have been sent out as domestic servants.

A St. James 'Womens' War Committee has been formed and is now in operation.

Money is also collected for the funds of the "Red Cross Society."

In January, 1915, a soup kitchen was started and is still carried on.

President—Mrs. J. E. Kerr; *Vice-Presidents*—Mrs. D. Mills and Mrs. W. Coke Kerr; *Honorary Secretary and Treasurer*—Miss B. Mills.

MOTHERS' UNION.

THERE are 20 branches of the Mothers' Union in Jamaica and 881 members belonging to this Society.

The Jamaica Branch has within the last year become incorporated with the Central Society in England and is in constant touch with it. Several branches in Jamaica are also affiliated to branches of the Union in different parts of England.

There is also a branch at Camp, but that belongs to the Army Division, though the Secretary and President attend the Diocesan Council of the Union in Jamaica.

Diocesan President—Mrs. Ripley; *Vice-President*—Mrs. Gruchy; *Diocesan Secretary*—Mrs. Arthur Douet, Halfway Tree.

THE JAMAICA SOCIAL PURITY ASSOCIATION.

THIS association was founded in 1916. Its object is the furtherance of Social Purity in the Island of Jamaica with a view to the combating of immorality and venereal disease. The headquarters are in Kingston, but there are already branches formed in Port Antonio, Annotto Bay and Mandeville. In addition to the general Committee, sub-Committees deal with Expansion, Study and Statistics, Law, Vigilance, Publicity and the Education of youth.

PUBLIC COMPANIES.

JAMAICA PERMANENT BUILDING SOCIETY.

THIS society, formed in the year 1878, was incorporated in 1906. The published report shows the amount of £14,530 at credit of proprietary shares to the 31st December, 1915. The amount of loans during the year 1915 amounted to £7,945 2s. 5d., and the total advanced on mortgages to the end of the same period is £40,236 8s. 0d. The special feature of this society is its proprietary shares which give it a permanent capital to lend out, and perfect security for subscribing members and borrowers. Deposits, on which 5% is paid half-yearly and which are a first charge on the assets of the Society, are received subject to three months notice on either side for re-payment. Loans are made on building property at $7\frac{1}{2}$ per cent. interest, re-payable by £10 shares in 4, 7, or 10 years, at 3s. 9d., 2s., and 1s. 3d. respectively and interest 1s. 3d. per month.

VICTORIA MUTUAL BUILDING SOCIETY.

THIS, the second building society formed in Kingston, was established on the 1st December, 1878, under the patronage of Sir Anthony Musgrave, then Governor of the island, and under the authority of the Benefit Building Societies Act, 1865, and was incorporated Dec. 1898, under the Building Societies Amendment Law of 1897.

The objects which the Victoria Mutual Building Society offers are two-fold. Firstly, to provide for shareholders and depositors a perfectly sound and profitable investment for large or small sums of money; and secondly, to employ the funds thus obtained in making advances by way of mortgage; principal and interest being repaid by easy monthly instalments. The system adopted by this society of requiring loans to be repaid by equal monthly instalments is such that as each repayment includes a portion of the capital sum, the margin of security is ever increasing and the possibility of risk is ever diminishing.

The ultimate value of each share is twenty pounds, exclusive of bonus, realizable by a monthly payment of two shillings and sixpence, during a period of ten years.

Borrowers are charged interest at the rate of $7\frac{1}{2}$ per cent. payable monthly, but in return the society awards interest and bonus, thus, one share on which £15 shall have been paid will be worth, at the end of ten years £20, irrespective of the bonus which may be granted.

Loans on mortgages are granted for a period of ten years, but if at any time the mortgagor wishes to reduce his payments, he can do so by, with the permission of the Directors, getting his loan capitalized. This means smaller payments for shares and interest, with the result that the capitalized loan exists for a further ten years period. This arrangement does not entail any additional law charges.

The law charges vary from 35s. to 40s. on a loan of £60 to £8 7s. 0d. or £8 12s. 0d. for a loan of £800, and thereafter 15s. extra for every additional £100.

Temporary loans are promptly made to shareholders on their unincumbered shares to the extent, as determined by recent legislation, of two-thirds of the amount which they may have at credit.

The society affords a safe means for investment of capital for fixed periods at 5 per cent. per annum, payable half-yearly, on 1st June and 1st December.

ST. THOMAS MUTUAL BENEFIT BUILDING SOCIETY.

THIS society was established in 1897, and has been very useful to the parish—the progress has been very steady.

The rate of interest is $7\frac{1}{2}$ per cent. Subscription shares are 2s. 6d. each per month for a term of 10 years, at expiration of which each share is worth £20.

BOARD OF DIRECTORS.

ST. ANN BENEFIT BUILDING SOCIETY.

THIS society was inaugurated early in 1874 and incorporated in 1901, active operations began in July of 1874. Its establishment was largely due to the efforts of its first president, the Hon. Michael Solomon, and its secretary and founder the Rev. Josias Cork, both of whom died in 1892.

The history of the society shows a steady progress. Its benefits have been felt more in the parish and adjoining parishes generally, than at St. Ann's Bay recently. This is chiefly owing to the fact that there have been but few lots available for building purposes within the precincts of the town; and although the number of new buildings erected is, on an average, more than two in each year of the society's existence, purchases of house property, not requiring more than repairs, have taken place and the acquiring of freeholds which could not have been effected except with the aid of the society, besides many have been enabled by their savings to settle and help themselves in various ways who without the existence of the society would have found it utterly impossible. A feature of the society is a depositor's branch or savings department for small sums and this is fulfilling its objects admirably.

THE BROWN'S TOWN BENEFIT BUILDING SOCIETY.

The Brown's Town Benefit Building Society was established in the year 1893 and incorporated in 1899. The Reserve Funds at the end of its twenty-third financial year stood at £1,167 17s 11½d.; the assets were £17,805 16s. 1½d. Deposits received during the year amounted to £2,766 10s. 1d. The total bonus payable on each £10 matured share was in Class A 20%; Class B 30% and each share two years old and upwards, even if withdrawn before maturity, gets a bonus.

This society issues subscription shares in four classes, viz.—Class A, 7 years; Class B, 10 years; Class C, 15 years; Class D, 20 years; and Paid Up Shares in Class A, 7 years. The value of each share in each class at maturity is £10 with bonus in addition.

Deposits are also received and interest calculated thereon at 4 per cent. and 5 per cent. according to amount.

Loans are made on landed security, at rates varying from 6 per cent. to $7\frac{1}{2}$ per cent, according to amount and period.

TRELAWNY BENEFIT BUILDING SOCIETY.

THIS society was established on the 1st April, 1875. Incorporated 30th October, 1911, for the purpose of providing for the purchase, erection, repair and improvement of freehold houses for its members. A principal object of the founders was the improvement of the dwellings of the working classes of the town and parish.

Subscription Shares of the Society are divided into two classes, viz.:—A and B. The A shares of 4s. per month mature in 7 years, at the end of which, the principal, interest and profits are paid over. The B shares of 2s. 8d. per month mature in 10 years, at the end of which, the principal interest and profits are paid over.

Paid-up Shares in the Society are allotted at £14 15s. each and accepted for the full term of 7 years. They bear interest at the rate of 14s. 9d. or 5% per annum for six years and 16s. 6d. for the seventh year, making a total of over 5% for the term of 7 years, and are payable at any time with interest, but if allowed to mature are worth £20 each with bonus in addition. All shares are withdrawable with full interest at any time before maturity. Notice of withdrawal always waived.

The Society makes loans on real property for a period of 7 or 10 years. Temporary loans are also made to shareholders on the security of their shares to the extent of two-thirds the amount standing to their credit.

Applicants on large loans need not hold an equal value in shares.

Interest is charged on all loans at 7½% per annum.

Advances are made on a basis of two-thirds of the value of the security offered an entrance fee of 1s. is charged on each new share taken. Pass Book 1s. No entrance fee is charged on new deposit accounts.

Sums of any amount from 1s. upwards are taken on deposit by the Society and bear interest at 5% per annum on each completed £ from the first day of the month after deposits till the last day of the month prior to withdrawal. Notice of Withdrawals always waived.

ST. JAMES BENEFIT BUILDING SOCIETY.

(INCORPORATED, 1906.)

THE St. James Benefit Building Society was established in Montego Bay in July 1874. At the close of its first financial year it had on the register 285 shares, and on 31st July, 1916, 3,680 shares.

The society was incorporated under the Building Societies Law of 1897, in 1906. The amount at credit of the Reserve Fund was £1,476 16s. 4d. on 31st July, 1916, and £245 0s. 4d. was added, making £1,691 16s. 8d.

Subscription shares A and B are payable by monthly instalments of 4s. and 2s. 7d. each for 84 and 120 consecutive months. Interest is credited on each share at the end of the financial year. Both subscription and paid-up shares participate in the bonus of the financial year in which they become perfected and matured.

The board of directors accept deposits at interest at 4% per annum payable half-yearly. The deposits amount to £19,688 5s. 4d.

The bonus declared on the matured shares perfected in 1915-1916 was £2 2s. per share and on 31st July, 1916, the net surplus was £3,620 8s. 4d. and the amount due on shares A, B and C, £26,896 16s. 6d.

Interest on loans is charged at 7½ per cent. per annum.

Loans are effected on the mortgage or real estate and on the security of shares of the society and are contemporaneous with the shares. Interest on loans is payable monthly. The total amount of loans on the 31st July, 1916, was £43,191 13s. 10d.

The value of premises in possession of the society is £685 5s. 6d.

Cash in hand £8,482 17s. 10d. The bonus declared for 1915-16 is £2 2s.

The directors have advanced loans for the erection of several modern ornamental cottages in the town of Montego Bay; and will consider applications for the same purpose from members of the society.

WESTMORELAND BUILDING SOCIETY.

SAVANNA-LA-MAR.

THIS society was established in January, 1874, and was incorporated in December, 1907. During the forty-two years ended in December, 1915, its receipts have amounted to £910,981 14s 5d. It has been the means of erecting and repairing a large number of houses in the parish of Westmoreland, and has considerably increased the value of land throughout the parish by affording facilities for sale and improvement, while its transactions have now extended all over the island.

The rate of interest on loans of under £250 is 9 per cent. From £250 and below £1,500 the interest is $7\frac{1}{2}$ per cent., and from £1,500 upwards 6 per cent., and borrowers may repay a specified portion of the loan every year instead of taking shares if they prefer that arrangement. This society allows quarterly payments of shares and interest free of fines.

The price of a paid-up share is £15, with interest at the rate of 4 per cent. or twelve shillings per annum, if drawn before maturity. The value to be £20 with the bonus in addition when matured. Sums of any amount from one shilling upwards are received on deposit at 5 per cent. interest on each completed pound. The present capital is £114,593 13s. 10d. The gross reserve fund amounts to £12,670 8s. 4d., with a clear nett surplus of £6,947 2s 6d., after providing for interest accrued on shares, &c. The total amount of losses during the 40 years is £275 4s. 7d., while for the past 19 years a bonus of 50s. per share has been paid on all matured shares which is by far the largest bonus paid by any Building Society in the island.

MODEL DWELLINGS, LIMITED.

THE Model Dwellings Limited was incorporated in 1910 under the Companies Laws 1864 to 1908, with a capital of £2,000 divided into 2,000 shares of £1 each.

The principal objects for which the company is established are:—

To purchase and acquire from time to time parcels of land in the parishes of Kingston and St. Andrew for the purpose of erecting thereon residences, rooms, cottages, or other buildings to be let to tenants, or sold to tenant-purchasers at such rental or upon such terms as may from time to time be decided upon by the company—the intention being that such residences, cottages, rooms, and other buildings, are to be occupied as dwellings of a better class than are at present available by working people of limited resources at a moderate rental, and the profits and dividends on shares are to be limited to 5% on the amount of capital paid up from time to time after payment of all necessary working expenses. The company purchased premises No. 47 Highholborn street, and has erected buildings containing sixteen rooms. There are also provided kitchens and a washhouse for the use of the tenants.

The buildings were opened in November, 1910. They present a graceful appearance and are well ventilated and provided with extensive verandahs.

The company has paid two dividends of 2½ per cent. each, and two of 1 per cent.

THE WEST INDIA ELECTRIC COMPANY (LIMITED).

BOND ISSUE—\$600,000.

CAPITAL—\$800,000.

(£160,000).

THIS company, which is incorporated under laws 33 of 1897 and 38 of 1898, acquired the property of the Jamaica Street Car Company in December, 1897.

The company acquired property and rights for the development of water power on the Rio Cobre near Bog Walk. This power has been developed and is transmitted 21 miles to the transforming station in Kingston, where it is distributed to the trolley lines through Kingston and St. Andrew for tramway purposes.

Construction was commenced June 23rd, 1898, and the whole system came into operation on March 31st, 1899. The construction is of the most improved description, and the plant is up to date and standard. There are in all 25 miles of track supplying not only a complete service in the city but extending into the residential suburbs as far as Constant Spring, and Papine at the end of the Hope Road towards the north, and out to the Rock Fort Gardens towards the east. The cars are all open, with ample seating accommodation. The area covered is divided into three districts, and the fares charged are two-pence on one tramway in each district.

This company is also the lessee of the property and business of the Jamaica Light and Power Company, Ltd., of Canada, which company is the successor of the Jamaica Electric and Power Company, Ltd., and as such operates the electric lighting and power business of Kingston, St. Andrews and St. Catherine.

PEOPLE'S DISCOUNT AND DEPOSIT COMPANY (LIMITED).

THE People's Discount and Deposit Company (Limited) was established in 1879 by the Rev. W. Clarke Murray, aided by a few gentlemen to whom he made his plan known. His main object was to provide help for a large class of industrious and enterprising people who, not having influence to secure them business relationships with the Colonial Bank, were reduced to the necessity of applying to private individuals for the means necessary to aid them in their business undertakings. A company was therefore formed to raise a capital fund, by the issue of shares, for the purpose of discounting island and other bills of exchange or promissory notes, or other obligations, making advances of money on mortgage and other securities, and otherwise transacting business as bankers.

HOTEL COMPANIES.

THE necessity of providing hotel accommodation for visitors to the proposed inter nation exhibition of 1891 caused the government to pass Law 27 of 1890, which Law guaranteed the payment of interest at the rate of 3 per cent. upon capital invested in the erection and maintenance of hotels "on such terms and conditions as may be approved by the Governor in Privy Council." All building materials and furniture required for such hotels were to be admitted duty free, and debentures and other documents were to be free of stamp duty.

The facilities given by this Law induced the formation of companies by which the following hotels were constructed:—

Myrtle Bank Hotel, Harbour street, Kingston, by the Kingston Hotels Co.

Constant Spring Hotel, by the American Hotels Co.

Queen's Hotel, Heywood street, Kingston, by the Jamaica Hotels Co.

Hotel Rio Cobre, Spanish Town, by the St. Catherine Hotels Co.

Moneague Hotel, St. Ann, by the Moneague Hotels Co.

These Hotels were taken over by the Government under Section 10 of the Law on failure to fulfil the conditions of the contract.

The Moneague and Rio Cobre Hotels are now being held for the Government by caretakers who, however, provide accommodation upon request. The Constant Spring Hotel was leased for some years to, but was finally bought by, the Elder Dempster Co., who have closed it as a hotel. The Rio Cobre Hotel has been offered for sale by the Government (1914.)

The Myrtle Bank Hotel was also leased to the Elder Dempster Company but it was completely wrecked by the earthquake of 1907 and the lease fell in. The site has since been sold to a local Company who have erected a fine modern hotel thereon.

In 1904 a large and commodious hotel was built at Port Antonio known as the Hotel Titchfield, but this was destroyed by fire in January 1910. It was, however, replaced in 1911 by another hotel. This hotel is opened only from January to March in each year.

A stimulus was given to hotel development by Law 15 of 1904 which enabled persons erecting an hotel of more than 40 bedrooms to obtain an import license from the Governor whereby they might obtain the importation free of duty of all materials, fixtures and furniture necessary for the building and equipment of the hotel and were exempt for 10 years from increased taxation—attributable to hotel buildings. This law, however, expired on the 30th June 1907, but has been renewed by legislation to extend the facilities thereof (except as regards taxation) to the Titchfield Hotel at Port Antonio and to the Myrtle Bank and South Camp road Hotels in Kingston.

THE KINGSTON ICE-MAKING COMPANY, LIMITED.

This company was established in 1884. The present capital is in 27,436 old shares of £1 each and 6,632 new shares on which there has been paid £29,850 15s. The company commenced operations with a 5-ton machine; in 1885 a 10-ton was added. The demand for ice having increased and the necessity being apparent for spare machinery to meet daily requirements in event of accident, a 20-ton machine was erected in 1888. The latest addition was the erection in 1897 of a machine of the latest improvements, capable of producing 60 tons ice per day. The plant and business of the Consumers' Ice Manufacturing Company were purchased by the Kingston Ice Making Company, which sells ice at 2s. per 100lb. wholesale, and retail at one farthing per lb.

1. The Bermuda route is practically an All-Cable Connection between Jamaica and New York, Jamaica and Boston, and Jamaica and Ireland. There are two transmissions only, viz., at Halifax and Canso, as direct working from Jamaica to Halifax is secured by a special arrangement at Bermuda.

2. The Companies' arrangements secure to them several Atlantic cables, and telegrams to Canso for Great Britain pass over British territory only.

3. A complete land line and cable connection to all parts of Canada and the United States, &c., and the above Companies' working arrangements with the Canadian Pacific Railway Telegraphs (Head Office, Montreal) and the Postal Telegraph and Commercial Cable Companies (Head Office, New York), provide them with collecting offices and agents in all parts of Canada, the United States, Great Britain and Ireland and the Continent of Europe.

4. The Joint Telegraph systems are the most complete in the world. They are entirely free of all outside control, and have established a name for accuracy, speed and economy.

To their combined efforts is due the existence of the present low rates now charged on telegrams passing between Great Britain, Canada, the United States and the West Indies.

JAMAICA CO-OPERATIVE FIRE INSURANCE COMPANY, LIMITED.

This company was formed in July, 1873 (under the patronage of Sir John Peter Grant, then Governor of Jamaica, and under the chairmanship of Hon. L. Q. Bowerbank) with the object of reducing the rates of fire insurance in this island and of retaining in the island the large amount of money annually sent away as premiums; in which object it has been very successful.

THE JAMAICA MUTUAL LIFE ASSURANCE SOCIETY.

At the close of the year 1843, seven gentlemen met for the purpose of forming a Life Assurance Society in Jamaica. Those gentlemen were W. W. Anderson, the founder of the Society, Alexander Barclay, Edward Jordon, James Davidson, John

Samuel Brown, Henry Franklin. and John V. Purrier, Esqs. Having arranged the necessary preliminaries a public meeting was held at the Kingston Court House on the 26th January, 1844, when it was agreed that "the Jamaica Mutual Life Assurance Society be now formed." Application was then made to the House of Assembly for the necessary Law of Incorporation and the draft Bill was referred to a Committee of the House. In the Committee it was proposed to receive the Society's moneys at 5 per cent. Mr. John S. Brown, also one of the founders of the Institution, and for twenty-two years its valued and highly esteemed Secretary, did good service in his place as a member of that Committee by proposing and carrying an amendment for 6 per cent. instead of 5, on the ground that 6 per cent. was the usual interest of the island, and that the project was in the nature of a Friendly Society. Mr. Darling (afterwards Governor of the Colony) then a member of Assembly, seconded and ably supported Mr. Brown's amendment and it was carried.

On the passing of the Law a Board of Directors consisting of the gentlemen first named, with Mr. Alexander Barclay as Chairman, was appointed, and the first policy was issued, on the 1st May, 1844. To the end of that year 53 policies were issued, assuring £31,450.

The Society commenced business without capital—not a shilling! Provision was made that should any policy become a claim by death before the Society's funds had reached the amount, interest should be paid to the claimant and the claim should be a first charge on the funds: this arrangement was never resorted to as the necessity never arose.

The success of the Society under the able and prudent management of the Directors during the past seventy-three years has indeed been remarkable; it has experienced uninterrupted prosperity, and this is strikingly demonstrated by the fact that in no instance have the Directors found it necessary to disturb the investments in order to meet any claims made on the Society. The early-supporters and subsequent upholders can with pleasurable pride refer not only to the prosperity that has attended the Society, but to the substantial benefits conferred on the families of deceased Assurers; and it is with no little gratification that the Directors have been able to announce that the operations of the Society have in 73 years reached over a million sterling.

Twenty-three bonuses have been paid	..	£294,399	6	2
Claims by death and endowments paid	..	597,810	10	5
Accumulated Funds	301,659	5	2
		<u>1,193,869</u>	<u>1</u>	<u>9</u>

The income of the society now exceeds £47,000 per annum.

The whole of the profits are divided among the Policyholders and it is believed they exceed those of any other similar society in the island.

ANCIENT ORDER OF FORESTERS.

THERE are seventeen Courts in the island, ten of which are governed by a District which was instituted on the 8th June, 1900, by dispensation from the Executive Council in England.

The main objects of the Society are to provide for the sick and distressed, to bury the dead and to assist the widows and orphans of deceased brethren.

The following are the names of the Courts, their Secretaries and address:—

Court Hinds, S. E. McKenzie, Kingston.	Court Pringle, R. W. Main, Annotto Bay.
Court Jackson, C. M. Hinchcliffe, Spanish Town.	Court Kerr, F. H. Nicholls, Montego Bay.
Court C. J. Ward, L. Sherwood, Kingston	Court Saint Thomas, A. McBeth, Morant Bay
Court Robinson, W. H. McLeary, Kingston.	Court Star of Iere, C. Stoute, Kingston.
Court Vickers, C. A. Taylor, Sav-la-Mar.	Court Clarendon, J. A. Rhoden, May Pen.

There are over six hundred members in the several Courts. Court Hinds is the oldest Court, having been formed by Brother Jacob Hinds, of Barbados, in 1863, of Court "Western Star." He died at Kingston, 11th April, 1883.

Courts meet every month for the transaction of business.

DISTRICT SECRETARY—J. T. Munroe, Rollington Pen School, Kingston.

DISTRICT COURT A.O.F.

	L. D. Bursterman, D. T., Kingston.
Jas. Alex Stewart, D.S.C.R., Kingston.	S. E. McKenzie, D. Asst. Sec., Kingston.

The District meets quarterly. The annual meeting takes place in October of each year, when the officers are elected.

INDEPENDENT ORDER OF ODD FELLOWS, MANCHESTER UNITY.

THE Manchester Unity of the Independent Order of Odd Fellows was established in Kingston under the jurisdiction of the Barbados District in the year 1885. Three Lodges, in that year, were opened, viz., the "Kingston Lily," the "Jamaica" and the "St. Lawrence." The "Jamaica" Lodge has since been closed. Since the formation of the Jamaica District 14 new Lodges have been opened.

The objects of the society are (a) to provide by entrance fees, contributions of the members, fines, donations and by interest on capital, for insuring a sum of money to be paid on the death of a member, or for the funeral expenses of any member's wife or child, or the widow of a deceased member; (b) for the relief or maintenance of the members (or in the cases in the general rules, or in the rules of branch provided) the wives, children, fathers, mothers, brothers, or sisters, nephews, nieces, or wards (being orphans) of members during sickness or other infirmity whether bodily or mental, in old age or in widowhood; (c) for the relief or maintenance of the orphan children of members during minority; (d) for providing proper medicine and medical attendance for members; (e) for granting temporary assistance to the widows and orphans of deceased members; (f) for providing members with assistance when travelling in search of employment; and (g) for assisting members when in distressed circumstances.

The "Clarence," "Pearl of the Antilles," the "Lily," "Pride of the North," "Bethesda" and "Prince George" Lodges every alternate, Tuesday; the "St. Lawrence," every alternate Thursday.

The regular meetings of the Jamaica District are held on the first Thursday after the second day in the months of January, May and September. The annual meeting is held in January.

The Grand Lodge meetings are held in the months of January, April, July and October.

The following are the names of Presiding Officers and Secretaries of the District and Lodges.

JAMAICA CLUB.

THE Jamaica Club—the successor of the Jamaica Club which existed in 1813 in Duke Street and in 1818 in North Street—was first organized in the latter part of 1872 and was formally declared open on the 15th January of the following year at temporary and very circumscribed premises situated in King street. The present home of the club is at No. 59, 61 and 63 Hanover street, Kingston. The former club house, a massive brick structure, erected in 1891, was completely wrecked by the earthquake of the 14th January, 1907. The present club house is designed on a somewhat different plan, is less massive but in

its construction all the known safeguards against earthquake effects have been introduced. No. 65 Hanover street has since been purchased, the building thereon taken down, and the land added to the club premises.

The club is managed by a committee consisting of 20 elected members, two of whom are by vote of the others chosen president and vice-president.

The election of candidates for membership is in the hands of the committee by ballot and every candidate must be proposed by one member and seconded by another, to both of whom he must be personally known. The names of candidates, their places of residence and professions, with the names of their proposers and seconders, must be recorded in the candidate's book at least 21 days prior to election, the book being placed for reference on the table of the reading room of the club.

The entrance fee is £7 7s. and the annual subscription is £4 4s. for members residing within a radius of 12 miles of Kingston, and £2 12s. 6d. for country members. For members residing permanently out of the Island, the subscription is 10s. 6d. Officers of the army and navy are admitted, after the usual ballot, to membership on payment of an annual subscription of £2 2s. The Governor, the Commander of the Forces, and the officers of H.M. fleet visiting the station, are honorary members.

A gentleman on a visit to the island may be introduced once in any period of three months by a member as an honorary member, by entering the name of such gentleman and his own in the book kept for that purpose. On approval by the Committee at the next subsequent meeting, such gentleman may continue as honorary member, until the expiry of fourteen days from his introduction, without charge. Should he desire to have this period extended, the committee may, on application, accede thereto for a period not exceeding six months on payment by him of the sum of 21/ monthly in advance; but should he in the meantime become a permanent member of the club such payments shall be deducted from the regular subscription payable on election. The committee has power at any time to withdraw the privileges granted to an honorary member. No honorary member has the privilege of introducing a guest to the club. A member may not introduce as an honorary member any person who he shall have been notified is considered objectionable, by the committee. Games of hazard are not allowed, and the removal from the club house of books, newspapers, &c., is strictly forbidden.

MANAGING COMMITTEE.

President, Sir J. Pringle, K.C.M.G.; *Vice-President*, Hon. P. C. Cork, C.M.G.; Hon. A. H. Miles, C.M.G., I.S.O., T. H. Sharp, Arthur W. Farquharson, W. Baggett Gray, J. F. Milholland, A. Pawsey, L. J. Stone, Otto Crowden, Lionel DeMercado, W. Morrison, E. Verley, J. C. Ford, Hon. H. W. Griffith, E. H. Sanguinetti, E. C. McLeod, Dr. D. J. Williams, Hon. D. S. Gideon, E. W. Lucie-Smith, Mr. Justice Cargill; *Hon. Treasurer*, Hon. A. H. Miles, *Hon. Secretary*, T. H. Sharp.

ST. ANDREW CLUB.

THIS club was formed in the early part of 1895 by 40 proprietary members at £10 each, and by certain other gentlemen as ordinary members.

The club premises, which are approached from the Marescaux road, and by a private road from Cross Roads, consist of 170 feet by 330 feet of land on the Up-Park Villa estate, with a suitable and commodious club house, sufficient for the present needs of the club and capable of addition and improvement.

The present club house consists of large and airy billiard and card rooms; a reading and committee room with wide and comfortable verandahs. The grounds afford space for six tennis courts.

The committee of management consists of fifteen elected members.

Candidates for membership are elected by ballot by the committee and every candidate must be proposed by a member of the club and seconded by another member, and the proposer and seconder must vouch for the candidate from personal knowledge. The names of candidates must be recorded in the book kept for that purpose in the club house at least fourteen days prior to election.

The entrance fee is £2 2s. and the annual subscription £2 2s. for town members, and £1 1s. for country members and 10/6 for lady members, who are members for tennis only, while £1 1s. is paid by officers of the army and navy and mercantile marine,

admitted after the usual ballot to membership. Special members elected by the committee for a period not exceeding three months pay a fee of 15s. Candidates who are already members of Jamaica Club, Liguanea Club or certain other social clubs in the Island are admitted free of entrance fee.

The committee have the power to elect any distinguished visitor to the island as an honorary member.

Members have the privilege of introducing a friend residing at a distance exceeding ten miles from the club house as a privileged member for a period not exceeding two weeks. The names of such friend and his introducer, and also that of a member of the committee as seconder, must be entered in a book kept in the club house for the purpose.

A member may introduce visitors to the club. Such visitors may not, however, be introduced more than twice in any one month, and their names must be recorded in the visitor's book on entering the club. Games of hazard are not allowed

ROYAL JAMAICA YACHT CLUB.

THE objects of the club are the encouragement of yachting and boating. The club consists of over one hundred members and is managed by a committee consisting of a commodore, a vice-commodore, a rear commodore, a secretary, a treasurer and sixteen other members. The ensign is the blue ensign of H. M. Fleet with the island's crest (crocodile) in gold surmounted by a crown on the fly. The burgee is white with blue St. George's cross and crown in centre. The subscription is one guinea per annum for members residing beyond 10 miles from Kingston—two guineas per annum for members residing within that distance, and 10s. 6d. per annum for junior members (under 21 years of age) payable in advance. The members of the club are elected by the committee of management, two black balls excluding. Naval and military commissioned officers on the station may be service members or may be elected members in the ordinary way and may be allowed to enter the boats under their command

in club races, subject to the approval of the Sailing Committee. Club boats competing for a race must be steered throughout the match by a member of the club. Boats that are employed in trade are excluded from competition in club races or from being entered on the list of club yachts. All prizes sailed for by club boats must be given in plate or other suitable articles but not in money.

The club house stands on a site in Rae Town commanding a splendid view of Kingston Harbour.

The annual regatta is generally held in May, and other regattas are held at various times. Hospitality is also shown to foreign ships of war and yachts visiting the port. An annual dinner is held at such time and place as the committee may appoint.

THE KINGSTON ATHENÆUM.

THE Kingston Athenæum is a literary society, the object of which is "the promotion of the moral, intellectual and social welfare of its members." It was founded on the 1st March, 1899, in connection with St. Andrew's Kirk, Kingston, but was subsequently reconstituted on a wholly independent basis. The society holds its meetings at the lecture hall of the Institute of Jamaica at present, and keeps its library on the upper floor of the Cowen Music Rooms, No. 14 King street.

The library is open daily from 9 a.m. until 4 p.m. It now contains over 3,700 volumes.

There are 683 members, 440 being gentlemen and 243 ladies.

Payment of subscriptions for at least one quarter in advance entitles members of the Athenæum to be admitted as members of the Institute of Jamaica without any further payment. The subscription is six shillings per annum.

THE BOY SCOUTS ASSOCIATION, JAMAICA.

THE movement, which has its headquarters at 116 Victoria Street, Westminster, London, S.W., was started in Jamaica soon after the present association at Wolmer's School by the late Lt. D. P. Stephenson, who was then an Assistant Master at the School, and Mr. Harry Mills, an ex-Scoutmaster of a troop in Brighton, England, lately employed at the Jamaica Government Railway now serving as Lieut. R.G.A., and stationed in Colombo, Ceylon.

The first Troop, viz., 1st Kingston Troop, was registered in May 1911, and became the pioneer Troop in the island.

In November, 1911, Scoutmaster Mills was removed to May Pen in connection with work on the Chapeltown Branch Railway and Mr. Duncan A. McCorkell, accepted the appointment of Scoutmaster and took charge of the Troop.

In January 1912, the Chief Scout, Lt. General Sir R. S. Baden-Powell, visited Jamaica whilst on a world-tour and was met at the Royal Mail wharf by a party of Scouts under Scoutmaster McCorkell.

The Chief Scouts visit was followed by that of Major T. Featherstonhaugh, a Commissioner appointed to organize the over seas Scouts.

The Major lectured to a large audience at the Conversorium in Kingston and also at Port Antonio. Monday 26th May, 1913, saw the inauguration of the 1st Spanish Town Troop. The history of scouting since then was one of hard work and active propaganda on the part of Scoutmasters McCorkell, of Kingston, and Messias of Spanish Town, with the result that the movement became more and more popular until at the present moment, March, 1916, there are 32 registered Troops in Jamaica (of which 14 are in Kingston) having a membership of over one thousand Scouts.

Since the arrival of the present Governor Sir. W. H. Manning to the Island, he has been an enthusiastic supporter of the Scout movement.

A great deal of the success of the movement is also due to Brigadier-General L. S. Blackden and Lt. L. E. Otteley, President and later Commissioner respectively, for their enthusiastic support and active help.

The following appears in the Jamaica Gazette of January, 1915.

"In view of the public services which have been rendered by the Boy Scouts Association to the military authorities and offers of further services, which it is proposed to take advantage of, the uniform of the Boy Scouts is recognized by His Excellency the Governor as the uniform of a Public Service non-military body."

The movement shows signs of increasing popularity and steady progress, its great educational value being fully recognized.

They have rendered valuable services to the military at the Contingent Camp, and in connection with recruiting.

The Boy Scouts Association is one of the most valuable institutions in the British Empire.

Over 50 Scoutmasters and Scouts have joined the several Contingents and several went to England on their own account and have enlisted in English Regiments and are on service at the front.

ROYAL JAMAICA SOCIETY OF AGRICULTURE AND COMMERCE AND MERCHANTS' EXCHANGE.

Office: Upstairs of the Bank of Nova Scotia, King Street.

A Jamaica Chamber of Commerce existed about 1840. The present society was established in May, 1885, its objects being as follow: 1. To take action in all matters connected with the agriculture and trade of the colony. 2. To offer facilities for considering and discussing all schemes or proposals having for their object the increased development of the industrial resources of the colony by means of improved methods of cultivation, scientific process of manufacture, new implements or appliances of husbandry, or any other available agency. 3. To promote interchange of experiences among the members of the Society with reference to the improvement of the breed of stock, the opening up of new markets for the sale of cattle, horses, etc., as well as of the agricultural products of the colony and the practicability of enlarging the area of minor products. 4. To co-operate with kindred Associations in the West Indies and elsewhere, in constitutional efforts for the removal of all unjust fiscal or other disabilities, such as foreign export bounties, which deprive the colony of the natural advantages of soil and climate, and exert an injurious influence on every department of commercial and industrial activity. 5. To afford opportunities for reading papers, delivering lectures, or holding discussions upon subjects of general interest and importance in connection with the general welfare of the colony. 6. To aid the holding and conducting of agricultural shows, fairs and competitions in different parts of the island. 7. To perform in its capacity of a regularly constituted responsible Association the functions of a recognized medium of communication with the Government, conducting the correspondence and representing the interests of its members in all matters falling within the province of the Society. 8. To exercise the province of Arbitrators (when solicited so to do by contending parties) in all matters agricultural or commercial, with a view to an economical and peaceable solution of differences.

The government of the society is vested in a council chosen from the general body of members in the month of October in each year. The election of members is entrusted to the council. Gentlemen residing outside the island are eligible for membership. The roll of to-day numbers 300 members. The society is now in communication with most of the Chambers of Commerce throughout the world to which its annual reports are regularly forwarded. Correspondence is regularly maintained with the West Indian Committee and the West Indian Section of the Incorporated Chamber of Commerce Liverpool. Subscriptions £1 1s. annually are received thereto by the Secretary of this Society.

On the 1st February, 1886, the Society opened for the use of members "The Merchants' Exchange," where the latest shipping intelligence may be obtained. The arrival and departure of vessels, the nature of their cargoes the market quotations of imports and exports, are all recorded for the use and convenience of members. Corresponding Agents are also appointed at the outports who forward regularly to the Exchange valuable information. A signal station is maintained at Kingston, and by the courtesy of the Agent of the United Fruit Company at Bowden reports are received of vessels passing Port Morant.

Books are kept in which are posted the daily arrivals and departures of vessels from Kingston and the outports of the island, also of the imports into the island and exports therefrom, together with a record of passengers arriving at Kingston and departing therefrom by steamers, etc., and also a book of casualties in connection with which, through the courtesy of the Collector General, arrangements have been made for advising the "Exchange" immediately of all wrecks, strandings, etc., around the coast. These statistics form a valuable addition to the general information which the Merchants Exchange endeavours to supply to the public in fulfilment of the objects for which it was instituted.

The annual minimum subscription entitling the subscriber to the privileges of the Exchange is one guinea, which includes membership of the Society of Agriculture and Commerce. The Society also publishes statistics to Commercial men:—"The Weekly Confidential Records," the annual subscription to which is also one guinea.

JAMAICA BRANCH OF THE VICTORIA LEAGUE.

The Jamaica Branch of the Victoria League was formed at a meeting held at Wolmer's Girls School on February 4th, 1910.

The aim of the Victoria League is to promote mutual understanding between all citizens of the British Empire. Its work has been called the "organization of sentiment." Few people are without some feeling of sympathy with and interest in the distant lands which equally with their own, make up the King's dominions; and there are few who would not do something however small, to increase good feeling and serve the great cause of Imperial unity. The League is the outcome of an attempt to focus these feelings and aspirations, and to promote an organization through which members of the Empire may come into personal touch with one another and obtain the understanding which comes of mutual service. The Victoria League is absolutely outside of all party politics, comprising men and women of every shade of political opinion, and is so constituted that while carrying on a permanent organization for hospitality and educational work, it can readily form a special committee to deal on non-party lines with any Imperial question which may be of interest at the moment.

To become a member of the Victoria League means to join a large body of people, living in all parts of the world, who are seeking to study the problems of the Empire—to exchange hospitality, and to become acquainted with all the aspects of life and the different points of view of the citizens of both mother country and daughter lands. The League provides opportunities for every one of its members to do something to attain these great ends, and to give practical expression to the feeling of Imperial responsibility.

Arrangements are made whereby local schools affiliate with the Branch—At present there are six schools so affiliated.

Each year the Branch distributes a number of Union Jacks among public elementary schools of a certain degree of merit. During the latter part of 1914 it distributed a number of pamphlets bearing on the war.

Committee meetings are held quarterly or more frequently if necessary.

The subscription to the Jamaica Branch is one shilling per annum; but larger subscriptions are accepted in order to assist the Branch to carry out its objects. The membership is 150.

CRICKET IN JAMAICA.

THIS fine old English game is exceedingly popular in Jamaica, and cricket clubs exist in nearly all the parishes in the island. The game has made vast strides in recent years and has received a great impetus from the visits of teams of English cricketers.

The best known clubs are the Kingston, Garrison, Kensington, Melbourne Lucas and Clovelly Clubs in Kingston, the St. Catherine C.C., the St. Elizabeth Club, the Middlesex C. C. in St. Mary, the Port Antonio C. C. in Portland, the Brown's Town C. C. in St. Ann, the Montego Bay C. C. and the Guild C. C. in St. James.

In Kingston yearly competitions exist for challenge cups. The winners in 1916 being as follows:—

Senior—Cloveley, C. C. Minor—Jamaica College, C. C. Junior—Police C. C.

As stated above, teams composed of prominent English cricketers have in recent years made visits to the Island and contributed greatly to the improvement in the standard of play. The last of these visited the colony in March 1911, under the auspices of the M. C. C. Mr A. F. Somerset captained the team. Two matches were drawn and the third resulted in a tie after some exciting cricket.

Jamaica had two representatives on the team of West Indian Cricketers which visited England in 1906 under the auspices of the West India Club.

The Kingston Cricket Club is the leading club in the Island, having been in existence for many years, and is now one of the established institutions of the city. Honorary members pay a subscription of £1 1s. a year and playing members £2 8s. a year with an entrance fee of 21s. Country members pay a yearly subscription of 6s. The election to membership is in the hands of the committee. The ground, on which there is a handsome pavilion, is situate at Sabina Park, on the South Camp road. A practising net is up on every week day. A well-organised system of club prizes exists, for the reward of those who have excelled in each year in the various departments of the game. Lawn Tennis is played on every week-day. Football and Hockey are also played from September to January in each year.

FOOTBALL.

FOOTBALL is very popular in Jamaica. The official season lasts from 1st August to 31st March, but the game is really played from October to February.

It has been thought advisable to permit the game to be played for a minimum time of 40 minutes instead of 60 minutes, the usual duration.

The Jamaica Association Football Challenge Shield Competition (commonly known as the "League") was inaugurated in 1898, and the Championship has always been won by Military Teams, except in 1907-08, and 1914-15 when it was secured by the Kingston Club.

In 1913-14, this competition was, by mutual consent, placed under the direct control of the Jamaica Football Association.

The association is governed by a Committee consisting of the officers and eight other members annually elected. All past presidents are *ex-officio* members of this Committee.

Referees are examined and receive an honorarium to cover travelling expenses whilst several medical gentlemen have accepted appointments as Honorary Surgeons.

The Association also manages the Martinez Cup competition for civilian clubs only. This takes the place of a previous Martinez Competition started in 1906 and ended in 1913-14 by the Kingston C.C. team winning the trophy outright.

A new Martinez trophy was presented to the Association for competition, the first winners being the Kingston F. C. in 1914-15.

In 1909, the Governor, Sir Sydney Olivier, presented a Shield for competition confined to teams from secondary schools. At present it is held by the Jamaica College. The Jamaica College is also the first winner of the competition for a cup presented by the present Governor, Sir W. H. Manning for competition amongst secondary schools in and near Kingston.

LAWN TENNIS.

THE Jamaica Lawn Tennis Association is affiliated to the Lawn Tennis Association, England, and is composed of the following clubs :—The Kingston C.C., the St. Andrew Club, the Garrison Club, the Melbourne C.C. and the Liguanea Club. All these clubs possess excellent grass courts.

A yearly inter-club competition for a cup, and an annual "All Jamaica" Tournament have been held since the year 1904. These tournaments have been very successful and have proved beneficial in improving the standard of play in the island. The Tournament is also open to certain visitors to the Island and advantage thereof has been taken by visitors each year.

No competition was held in 1915 or 1916, owing to the war and for the same reason the Committee have decided not to hold any for 1917.

The present holders of the annual Cup are the Liguanea Club.

The following are the committee of the Jamaica Lawn Tennis Association :—

C. S. Morrison and S. Binns, Kingston C.C.; F. L. Pearce (*President*) and H. V. Alexander, St. Andrew Club; T. B. Nicholson and J. S. Biscoe, Garrison Club; C. H. Dickson and C. S. Brandon, Melbourne C. C.; J. H. Cargill and S. R. Cargill, Liguanea Club. *Hon. Secretary*, H. V. Alexander.

GOLF IN JAMAICA.

GOLF owes its introduction in Jamaica to the little Mandeville course which in about 1891 consisted of 6 holes at Brumalia, the property of Mr. Lewis. The course has now been extended to nine holes. The natural beauty of the position with the delightful climate at such an altitude, renders these links almost ideal—the course itself consisting of a rolling close cropped sward of pimento grass—giving naturally good lies and enabling a brassie to be used almost everywhere in the fairway.

In 1896 various leading gentlemen combined to inaugurate a club near Kingston. The result was the formation of the Kingston and St. Andrew Golf Club on the 10th October, 1896—being registered under the English Golf Clubs Association. A site for links was chosen at Solomon's Pen.

In 1902 it was decided to accept the offer of a site round the Constant Spring Hotel, which was offered free to the club. The course of 9 holes was laid out, the club house was removed to the new course.

In June 1908 the old name of the club was changed to the Jamaica Golf Club, but since the closing of the Constant Spring Hotel the course has not been kept up, and the club is in abeyance.

In 1908 a nine hole course was laid out around the Moneague Hotel. Various country families have had small courses laid out round their houses for their own private amusement, and a course has been laid out at the Liguanea Club at Knutsford Park, in St. Andrew, which is largely used.

A professional is engaged during the winter. Mr. George Cumming of Toronto Golf Club is the professional.

The annual competition for the Challenge Cup presented by the late Sir Augustus Hemming, which is practically the Amateur Golf Championship of Jamaica is played for over the Liguanea Links in the month of April. The holder for 1916 is Mr. M. P. Tennant.

There is also a Ladies Championship. The holder for 1916 is Miss Rhodes.

There are also two other cups—one presented by the late Colonel Ward, which are played for under handicap rules yearly.

A very pretty and sporting links of 9 holes along the coast, has recently been laid out at Port Antonio, where a professional is engaged during the winter months.

POLO.

POLO has been played in the Island for many years, and latterly has become very popular, there being now seven recognized clubs of which the Garrison, Kingston and St. Ann are the oldest.

On several occasions teams from Jamaica have visited other West Indian Islands and Costa Rica, when they have invariably been victorious.

A cup presented by Sir Thomas Dewar was competed for for some years prior to 1906 when the All Jamaica Polo Association was formed and a Challenge Cup, called the All Jamaica Polo Cup was subscribed for by the several clubs.

The Cup was originally played for in December, of each year but since 1908 the competition have been held twice annually.

In 1908 Sir John Pringle, presented a Cup to the Association for competition among junior teams.

In 1911 the Handicap Points tournaments were inaugurated but they, in common with the cup competitions have lapsed since the summer of 1914.

A handy annual issued by the All Jamaica Polo Association and compiled by W. G. Clark, made its appearance in 1914; copies may be obtained from the Hon. Secretary of the Association.

JOCKEY CLUB.

THE Jamaica Jockey Club, Limited, was in May, 1905, incorporated with a capital of £8,000, with the following among the chief objects for which the company was established:—

To restore racing in Jamaica as a sport, and to promote and carry on such racing on the principle of and subject to the rules governing racing in Great Britain with such modifications only as the directors shall resolve to be necessary to meet the local circumstances and the exigencies of any meeting.

To promote inter-colonial racing.

To undertake, promote and develop horse-breeding and to improve the breed of horses in Jamaica.

To carry on in Jamaica the business of a race course company in all its branches and to conduct, hold and promote race meetings and athletic sports, polo, lawn tennis and other matches, agricultural, horse, flower, and other shows and exhibitions, and otherwise utilise the company's property and rights and to give and contribute towards prizes, cups, stakes and other rewards.

In the autumn of 1905 Knutsford Park property, near Kingston, was acquired and a racing track of one mile, a chain wide, was laid out with an inner exercise track $\frac{1}{2}$ a chain wide, the inaugural meeting being held in December, 1905.

The fixed annual meetings are 1st and 2nd January, Easter Monday and Tuesday, 1st Monday and Tuesday in August and a three day's meeting in the second week in December.

MOTOR CARS.

THE use of motor cars in Jamaica is regulated by Law 26 of 1905, amended by Law 9 of 1911 which gives power to the Governor in Privy Council to make regulations for the control of Motor Cars, the same to have the force of law.

Regulations of the Governor in Privy Council under these Laws were published in Gazette February 1, 1912, and January 8, 1914, and a pamphlet has been issued containing these regulations and extracts from the laws from the Government Printing Office.

A "motor car" must not exceed 3 tons weight unladen.

A "Motor cycle" is defined as a motor carriage having not more than three wheels, weighing not more than 3 cwt.

Reckless driving is an offence. Every car must have a registration letter and a number for identification. The letters assigned to the several parochial registries are:—Kingston A; St. Andrew B; St. Thomas C; Portland D; St. Mary E; St. Ann F; Trelawny G; St. James H; Hanover K; Westmoreland L; St. Elizabeth M; Manchester N; Clarendon O; and St. Catherine P. [Jamaica Gazette, 8th January, 1914.]

Refusal to stop and give name and address or giving a false name and address is punishable.

All motor cars must be registered with the Collector of Taxes and have a registered number on 2 plates—one in front and one at the back of the car—figures or letters 3 inches in height, white on a black ground.

The fee for registering motor cars is 10s., for motor cycles, 5s.

Drivers of motor cars must be licensed by the Collector of Taxes, fee 5s.—duration of license 12 months.

Forging or altering a license, or allowing it to be used by others than the licensee is an offence.

Proper lamps must be used and horns or other means of giving audible warning must be carried.

Motor cars are taxed the same as any other wheeled carriages.

Offences may be tried summarily before a resident magistrate or two justices of the Peace.

The following amended regulation was published in November, 1913.

Visitors to the island may bring in their auto cars, gasoline launches, carriages, horses, bicycles, guns, fishing tackle and such like articles for *personal* use without payment of import duty. Thirty per cent. of the amount of duty payable at time of importation must, however, be deposited, by way of guarantee, with the Collector who

will return it on the article being taken away from the island within two months, and on receipt of a declaration made by such visitor to the effect that such auto cars, &c., have during that time been used solely for their personal use and not for gain or reward. Auto cars, carriages, horses and bicycles coming under this privilege may be used on the public roads free of taxes for six weeks. Should an auto car or other article admitted free under this rule be not exported within two months of importation the Collector shall withhold a sum equal to 5% of the duty for each month or part of a month during which such article is kept in the island beyond the specified period of two months up to the limit of the thirty per cent. deposited. If sold or not exported within eight months of date of importation the car or other article shall be deemed to have been finally imported and must be entered and duty paid according to law on value at time of importation, allowance being made for any interim payments already made under this rule. Articles not so entered and duty paid on being sold or kept in the island beyond eight months are liable to be seized as "uncustomed" goods under the provisions of section 156 of Law 18 of 1877, or duty may be recorded under section 32 of Law 24 of 1885.

The term "Visitor" for the purpose of this rule shall mean a person not domiciled in the island but one who is a temporary sojourner in search of health, pleasure, change of climate or some investment of capital or business.

JAMAICA MOTOR CLUB.

This Club now takes the place of the Jamaica Motor Union which has ceased to exist. The Club was founded in 1911 and is affiliated with the Royal Automobile Club. Its principal objects are the encouragement of the use of mechanically propelled road vehicles; the discouragement of inconsiderate driving; the supplying of information on general subjects connected with motoring; the opposing of public and private bills introduced in the Legislative Council and local by-laws embodying proposals restrictive of automobilism; and the negotiating with local authorities for the improvement of roads and the removal of dangerous corners.

There are 97 members. Cable "Jamotor," Jamaica.

SOLICITORS COMMITTEE.

Prior to the year 1896, persons wishing to enter the legal profession (solicitor branch) in this island had to pass a preliminary examination in certain prescribed subjects conducted by some local examiner appointed by the Supreme Court, or if they had passed the University of Cambridge local examination, or such like examinations, they were exempted from preliminary examination and were allowed to enter into articles. At the expiry of due service under articles they were examined in Law by papers set by one of the Judges of the Supreme Court. The syllabus of subjects for Intermediate and Final examination each year are published in the Jamaica Gazette.

On the passing of Law 36 of 1896 the conduct of all the examinations was placed in the hands of a committee constituted under that Law, two of whom, namely, the Attorney General and the Crown Solicitor, are *ex-officio* members, and the other members (5 in number) practising solicitors appointed by the Judges of the Supreme Court. In addition to the preliminary and final examinations articulated clerks are required to pass an intermediate examination (Book-keeping being one of the subjects) as in England. The preliminary examination is conducted by the committee locally, but the intermediate and final papers are set by the Law Society's examiners in England, and transmitted to the committee in this island through the Government.

In addition to the conduct of the above examinations, the committee has entrusted to it the investigation of complaints of parties alleging professional misconduct against any solicitor. Should the complainant establish a *prima facie* case of misconduct against the Solicitor a report is then made to the judges of the supreme court and the matter brought before that court by motion and dealt with

KK

Under the Imperial Act (Colonial Solicitors Act, 1900) in certain cases mentioned in the act and the order of council made in pursuance thereto on May 16, 1904, Jamaica solicitors who have been in practice before the supreme court of the island for not less than 3 years, and being male British subjects, on complying with certain prescribed requirements, may be admitted solicitors in any part of the United Kingdom, viz.: England, Scotland or Ireland, or in any two of those parts only, on application to the Master of the Rolls in England, to the Lord Chancellor of Ireland in Ireland and for admission as a law agent in Scotland to the court of sessions in Scotland. (A perusal of a copy of the order in council may be obtained on application to the secretary to the Solicitors Committee.)

English solicitors are admitted to practice as solicitors in Jamaica on payment of a stamp duty and on satisfying the Supreme Court or a Judge of that Court as to identity, character, and that such applicant is a duly admitted solicitor in England.

Persons desirous of entering into articles are advised to refer to Laws 9 of 1869 and 36 of 1896, and the regulations made under the latter law. The same can be had on application to the Secretary to the Solicitors Committee.

SOLICITORS COMMITTEE.

Hon. E. St. John Branch, K.C., Attorney-General; J. F. Milholland, Crown Solicitor; A. J. Corinaldi, L. L. Samuel, William Morrison, the Hon. J. H. Allwood and O'Connor deCordova; S. R. Cargill, *Secretary and Solicitor to the Committee*.

BRITISH MEDICAL ASSOCIATION.

THE Jamaica Branch of the British Medical Association, the first colonial offshoot of the parent association, itself incorporated in 1874 and now numbering over 18,000 members, was founded at Kingston in December, 1877.

The objects of the Branch, like those of the home association as declared in the articles of association, are the "promotion of medical and the allied sciences and the maintenance of the honour and interest of the Medical Profession." The laws of the branch are based upon those of the Reading Branch, Buckinghamshire.

The Executive consists of a President, a President elect, an Honorary Secretary (and Treasurer) and seven members of Council. The office bearers are elected annually.

All legally qualified and registered medical practitioners are eligible for admission, the election being determined by a majority at a general meeting. Applicants for membership must be proposed by three members, to two at least of whom they are personally known, and are required to fill in a form of application which is to be obtained from the secretary. The elections take place at the general meeting following that at which the candidates are nominated. Members of the Association in England are admitted members of the branch on signifying to the Honorary Secretary their desire to have their names enrolled as such. The members of the branch number 54.

The general meetings are held on the last Wednesday in January, March, May, July, September and November at the Institute of Jamaica, when papers are read and discussed and notes of interesting cases are brought to the notice of the members. At the meeting in December the retiring President delivers a valedictory address and the President-elect assumes office.

There have been 21 presidents since the foundation of the Branch, in the following order:

Thomas Clark, M.D., Edin.	G. C. Henderson, M.D., Lon.
D. P. Ross, M.D., F.R.C.S., Edin.	J. W. Plaxton, M.R.C.S., Eng.

MEDICAL COUNCIL OF JAMAICA.

THIS Council was established by Law 47 of 1872 and consists of five registered medical practitioners, appointed for three years by the Governor and eligible for re-appointment.

The appointment of a president and the election of a secretary are placed by the law in the hands of the council.

The business of the Council includes—

- a. The framing of rules, &c., which have the effect of law after having been approved by the Governor in Privy Council.
- b. The consideration of the diploma, license, or certificate of any person claiming to be registered as a medical practitioner in this island.
- c. The removal from the register of any registered practitioner convicted of felony or misdemeanor, or who might be guilty of infamous conduct in any professional respect.

Law 28 of 1885 requires the registration of any person who holds a diploma, license or certificate "conferring or evidencing the possession by him of any qualification entitling him to registration." Any person not qualified to be registered but who holds a diploma, or license or certificate granted to him by any university, or by any college or faculty of physicians or surgeons, after and in consequence of his having passed through the course of study and examinations prescribed by such college or faculty of physicians or surgeons and who wishes to become qualified and to be registered as a medical practitioner in this island, may become so qualified and be so registered on passing a satisfactory examination in medicine, surgery and midwifery. Such examination must be conducted by a Board of Examiners to be appointed by the Governor from the Medical Council, and "shall be practically as searching as the least searching final examination required to be passed in the United Kingdom prior to, and as a condition of, the obtaining of a qualification entitling the person examined to be registered in the United Kingdom."

If the Board of Examiners find the candidate sufficiently informed or sufficiently skilled, they shall give him a certificate entitling him to be registered under the medical laws of this island. The fees for examination amount to £12 12s. and must be deposited before hand with the secretary. A fee of three guineas is given to each member of the Board of Examiners and three guineas to the Secretary of the Medical Council who is *ex officio* Secretary to the Board of Examiners. A fee of one pound is to be paid to the Registrar-General in every case of registration in ordinary cases [See article on Registration Department, page 201 as to the registration of Medical and Surgical Practitioners and also Law 26 of 1896, "The Medical Laws Amendment Law, and Law 49 of 1908."]

MEDICAL COUNCIL.

President, Francis Henry Saunders, M.R.C.S., Eng.; Hon. John Errington Ker, M.R.C.S.; L. Gifford, M.B., M.S., Edin; H. H. Scott, M.D. Lond.; *Secretary*, G. F. DaCosta M.B.

PART XVII.

MEANS OF COMMUNICATION.

TRAVELLING IN JAMAICA.

By way of introduction to the information about means of travelling in Jamaica it will be useful to give a brief outline of the main roads of the island, these being the means usually adopted for through travel, although some of the better kept parochial roads are used to a considerable extent.

The island has been divided physically by nature, into the northside and the southside, the existence of the central mountainous country being the cause of the division. In the eastern end of the island the lofty range of the Blue Mountains extending from north of Kingston to the sea coast near Manchioneal accentuates the division. In the central and western portion it is by no means so marked, in fact in the very centre of the island there is a stretch of country running east and west of about 30 miles in length occupied by the valleys of three rivers, each of these sinking into the limestone soil and with no visible connection with the sea.

On account of the conformation of the island as above described, the system of main roads, until comparatively recent years, consisted of a belt line running round the island, with few exceptions, along the sea coast, with loop lines on the plains of St. Andrew, St. Catherine and St. Elizabeth, and with three cross connections from the south to the north; one by way of Stony Hill from Kingston to Annotto Bay; a second, from Spanish Town to St. Ann's Bay, by way of Mount Diablo, and the third from Savanna-la-Mar to Montego Bay via Mackfield; these three roads crossing the central range of hills at elevations of about 1,350 feet, 1,800 feet, and 1,000 feet, respectively. Commencing at Kingston and going to the east-end, then turning westerly along the northside until Green Island is reached and then returning by the southside to Kingston, the old system of main roads passed through all the principal ports and towns in the island. Founded on it as a basis, there have been, either constructed as new roads, or more generally taken over from parochial roads and reconstructed, a very large number of other main roads, creating with the original roads a network over the whole of the inhabited portion of the island, and affording communication between the old northside and southside lines by some fifteen different routes, the whole length of main roads aggregating at the present time 1,944 miles, of which nearly the whole are driving roads, of a width nearly everywhere sufficient for a double line of traffic, and generally maintained in very good condition, although necessarily liable in times of excessively heavy weather to severe damage from flooded rivers and landslips, and from the heavy scouring effect of the rains on the surface of the roads, especially those on steep gradients. On some of the roads, especially on some of the parochial roads recently taken over, heavy gradients are to be encountered, but it has been the aim in recent years to improve the roads in this respect. Many improvements in this direction have taken place, and in new roads steep gradients have been very carefully avoided.

Some of the main roads of recent construction attain much greater elevations than those of the original system. In St. Elizabeth the road over the Santa Cruz mountains reaches a height of 2,200 feet at Malvern; in Manchester the road from Shooter's Hill through Christians to Ulster Spring touches the 3,000 feet level at Coleyville; the driving road up the Blue Mountain Valley in St. Thomas attains 2,750 feet at Arnully Gap; while the road from near Gordon Town via Newcastle to Buff Bay crosses the main ridge of the Blue Mountain at Hardwar Gap at a height somewhat over 4,000 feet; and the road to Mavis Bank rises to a height of 2,800 ft. at the gap at Guava Ridge. All of these roads, as also many others in various parts of the island, afford exquisite views to the traveller, but the Newcastle road gives a succession of views of hills, plains and sea, which are surpassingly striking and beautiful.

SEASON TICKETS—TERMS AND CONDITIONS OF ISSUE.

(a.) Season tickets entitle the holders, for the period named therein, to travel, subject to the regulations, between the stations, and in the class of carriage for which the tickets are issued, by any of the ordinary passenger trains (exclusive of excursion and other special trains) stopping at such stations, and are issued for periods of one, three and six months.

(b.) Applications for season tickets must be made to the Accountant, Kingston, at least three clear days before they are required.

(c.) Season tickets are issued subject to the ordinary contingencies, and the holders are not entitled to any rebate of price or allowance of any kind in the event of their being, from illness or any other cause, unable to use such tickets during any period of time for which they are issued.

(d.) The right is reserved to alter and vary the trains without liability to the holders of season tickets. The railway will not be held accountable for want of accommodation in the trains, or for any stoppage or delay arising from any cause.

(e.) Holders of season tickets must produce their tickets when called upon to do so by officers or servants of the railway.

In case of default, the holder must pay the ordinary single fare for the journey he has made or is making, plus the booking fee as per clause 58.

Such amounts may be refunded on application, but the right is reserved to decline such in cases of willful, habitual or unreasonable refusal on the part of the holder to produce his ticket when called upon to do so.

(f.) Season tickets are not transferable, and if used by any other person than the one in whose favour they are issued, they will be forfeited and the ordinary fare must be paid.

(g.) In the event of a season ticket being lost, notice must at once be given to the accountant, Kingston, who will issue a new one upon payment of 2/6.

(h.) Season tickets will be issued at quarter rates to school children under 14, and at half rates to persons under 18 years of age, who are in employment, or are articulated apprentices, or who are travelling for the sole purpose of receiving instruction in any day school, upon production of a certificate duly signed by the employer, master or mistress, as the case may be, also to school teachers at half rates, subject to their *bona fides* being satisfactorily proved.

(i.) Season tickets at half rates will be issued to vendors of books and magazines, subject to the approval of the Director (and subject to such season tickets being cancelled at any time for any breach of the regulations or rules of the railway), for the purpose of selling newspapers, books and magazines on the trains. The maximum weight of books, periodicals and newspapers which such vendors are allowed to carry free is 28 lbs.

(j.) Season ticket holders who wish to renew their tickets, must give at least three clear days' notice in writing to the accountant, Kingston.

All expired season tickets must at once be sent to the accountant.

(k.) The Government reserves the right to refuse to issue a new ticket except upon production of the old one.

(l.) All season tickets are available on the regular trains on Sunday and passengers are permitted to have their baggage checked as with ordinary tickets.

SPECIAL TRAINS.

(a.) On not less than 24 hours previous notice being given to the Director of the Railway, special trains may be provided on the following conditions:—

For a special train starting and completing the journey between the hours of 6 a.m. and 6 p.m.

(b.) For a Single Journey—Minimum of 60 1st Class, or 120 2nd Class, ordinary fares. This entitles the number of passengers as above to travel. Any excess of passengers over 60 1st Class, or 120 2nd Class, must pay the ordinary fare.

(c.) For a Return Journey made the same day.—Same minimums and rates as for a single journey plus 50 per cent.

(d.) For Return Journeys made the following day.—The charge will be double the charge for a single journey.

(e.) For journeys made after 6 p.m. or before 6 a.m. or on Sundays, 25 per cent. additional will be charged.

The additional 25 per cent. will be charged only on the proportion of the time occupied after 6 p.m. or before 6 a.m. or on Sundays, in making the journey. (Delays on account of accident or unavoidable causes not charged for.)

(f.) Empty Miles.—The distance a train or engine has to run empty to commence a service, or after completing a service, will, in addition to the above, be charged for at 2s. 6d. per mile, subject to 25 per cent. additional for the proportion of the time (occupied in going to or returning from the service) after 6 p.m. or before 6 a.m. or on Sundays.

(g.) Detention.—The charge for a special train not starting at the time fixed or detained through no fault of the Railway beyond the time occupied in the running is 20s. an hour.

(h.) Cancelling Order for a Special Train.—A charge of £5 will be made for a special train ordered and cancelled, and in addition any empty miles run in either direction in connection with the same as per paragraph (f.), unless sufficient notice is given of the change so as to prevent the Railway from incurring any expense thereby.

(i.) Minimum Charge.—The minimum charge for any special train run on week days between 6 a.m. and 6 p.m. for a single journey is £10 and for a return journey is £15, plus 25 per cent. additional as per paragraph (e.) for the night or on Sundays.

The minimum charge for the running of a special train must be lodged in advance when the train is ordered.

(j.) Special trains will be run only at the option of the Government.

(k.) The right is reserved to the Government to forward any of its ordinary traffic by any special train, but no reduction of the special train rates will be made on account of the train being so utilized.

(l.) Servants and waiters on special trains will be conveyed free of charge to the following extent; 2 to every 20 First Class or 40 Second Class passengers.

Omnibusses (or Cabs) are to be had in Kingston, Spanish Town, Old Harbour, Port Antonio, Porus, Linstead and Ewarton and in Kingston Hackney Carriages may be hired. The Motor Cars of the Jamaica Motor Cab Co., (Limited), ply for hire.

KINGSTON.

Regulations as to Fares.

Every owner or driver of a hackney carriage plying for hire shall be entitled to demand and take for the hire of such carriage the rate or fare prescribed by the following table; and in every case the hiring shall be by distance, unless the hirer express at the commencement of the hiring his desire to engage by time, in which case the same shall be determined by time.

Table of fares by distance.

For every person conveyed in any hackney carriage for any distance within the following boundaries of Kingston	6d.
--	----	----	----	----	-----

Northern and Eastern Boundaries.

North street from its junction with the Spanish Town road along North street, up Bond street, along Blunt street, Hospital lane, on the north, down Slipe Pen road into and along Drummond street, up Orange street, as far as York Villa, and then by a line drawn thence eastward along the southern boundary of the race course along Hannah street into Kingston Gardens, thence eastward along the remaining northern and eastern boundaries of Kingston Gardens into North street, and thence eastward to the junction with the road leading to Park Lodge and Up-Park Camp, including Hannah's Town, Fletcher's Town, Manchester Square, the road bounding the race course on the south and Kingston Gardens.

From the eastern extremity of North street along the Park Lodge road to Park Lodge and thence eastward to the junction of the Windward road with Paradise street, and thence down Paradise street to the sea.

Southern Boundary.

The Harbour of Kingston.

Western Boundary.

The Spanish Town road from its junction with North street to the Kingston Pen road and this latter road to the sea, crossing the Railway at Barry street.

The limits or boundaries as defined above shall include the whole width of the said several Roads and Streets.

For every half mile or proportion thereof beyond the boundaries as above defined for every person carried	6d.
For every child under the age of 10 years	3d.
No charge shall be made for infants carried on the arm.	
For any time within and not exceeding 20 minutes	1s.
Above 20 minutes and not exceeding 40 minutes	2s.
Above 40 minutes and not exceeding 1 hour	3s.
For every additional 20 minutes or part of 20 minutes after the first hour	1s.

If the hiring be for conveyance within the distance fixed for 6d. fares, such fares by time to be in full for the hire of the whole of such hackney carriage, and the driver shall be compelled to carry, if required, the full number of persons the hackney carriage is permitted to carry. But if the hiring be to a place or places beyond the distance aforesaid then the Driver shall be entitled to be paid in addition, for one more person or two more persons carried, one half of the above fares in respect of such additional person or persons.

Between the hours of 10 p.m. and 6 a.m. the fares set forth in the table of fares shall be increased by one half the amount of the said fares.

No hackney carriage shall be permitted to ply for hire unless a legibly printed copy of the table of fares be conspicuously exhibited in such hackney carriage for the information of passengers.

Any driver may agree to drive for a lower fare than those fixed, in such case he shall not demand more than the fare agreed upon.

If a hackney carriage is hired by distance and in the course of the hiring the driver is at the request of the hirer made to wait (including waiting before starting) the driver shall be entitled to charge (in addition to what is due to him for distance) an extra payment of 3d. for each period of 10 minutes completed, whether in one stoppage or in several stoppages; but the driver shall not be entitled to receive any extra payment for waiting if such waiting has not exceeded in the whole 10 minutes. Provided, if the total fare by distance together with the extra payment of 3d. for stoppages for every 10 minutes, amounts to less than 1s. 6d. for half an hour then such driver shall be at liberty to make a total charge of 1s. 6d. for every half hour so completed.

Every owner or driver of a hackney carriage shall have a right to demand his fare of the person or persons employing him, on their entering his carriage, or ordering him to wait, or to drive further, and may refuse to convey any such person who does not comply with such demand and may require any constable to remove and expel from the carriage any person so refusing to pay his fare.

STANDS FOR HACKNEY CARRIAGES.

The following shall be the stands for hackney carriages:—Between Harbour street and Port Royal Street in the forenoon on the east side, and in the afternoon on the west side of the following streets: Orange, Church, Duke and East Streets, and in King street as follows:—

- (A) A general stand abreast of the Victoria Market on both sides of the street.
- (B) At the following points in King street, where not more than two hackney carriages shall be permitted to stand at any time, that is to say:
 - (a) between Port Royal and Harbour streets;
 - (b) at or near the corner of Tower street, on the north side of that street;
 - (c) at the south side of the Park railings, at the head of King street.

Regulations affecting "Motor Hackney Carriages," passed by the Governor in Privy Council under Law 36 of 1881.

78. The table of fares provided by regulation No. 37 passed at a meeting of the Mayor and Council of Kingston on the 6th day of August, 1888, shall not apply to hackney carriages capable of carrying four or more passengers propelled or driven by motive power.

79. Every owner or driver of a motor hackney carriage capable of carrying four or more passengers and propelled or driven by motive power, plying for hire shall be entitled to demand and take for the hire of such carriage the rate of fare prescribed by the following table, and in every case the hiring shall be by distance, unless the hirer expresses at the commencement of the hiring his desire to engage by time, in which case, the same shall be determined by time.

Table of Fares by distance.

For every person conveyed in any motor hackney carriage within the boundaries of Kingston as defined by Regulation No. 37 passed on the 6th day of August, 1888, for each mile or part of a mile	6d.
For every half mile or part thereof beyond the said boundaries, for every person carried	6d.

Table of Fares by Time.

For every hour or part of an hour within the said boundaries of Kingston for one person	4/
For every person after the first	2/
For the hire of the whole of a motor hackney carriage, or for any distance beyond the said boundaries of Kingston, in which cases the driver shall be compelled to carry, if required, the full number of persons the motor hackney carriage is permitted to carry, for each hour or part of an hour	10s.

80. Regulations Nos. 38, 39, 40, 41 and 42, made and passed on the 6th day of August 1888, shall apply to motor hackney carriages capable of carrying four or more passengers and propelled or driven by motive power, save that the extra payment for waiting shall be threepence for each period of five minutes instead of threepence for each period of ten minutes as provided in Regulation No. 38.

81. A motor hackney carriage which is also registered as a motor car shall not be required to have the hackney carriage number painted on the back, provided that the requirements of the Motor Car Law in respect of registration have been complied with.

82. The driver of a motor hackney carriage also registered as a motor car, need not wear a driver's badge upon his arm, but shall wear on his hat or cap a badge or device to be from time to time approved by the Mayor and Council, and which badge or device shall bear the number of his license to drive a hackney carriage.

LOCAL DEFENCE FORCES.

MILITIA HISTORY.

The Restoration in England in 1660 was followed by the substitution in Jamaica of a Civil Governor for the Military Officer, who up till that time had administered the affairs of the Colony. This was followed in 1662 by the conversion by Lord Windsor, the first royalist governor, of the greater part of the garrison into 5 regiments of Militia. This militia was composed exclusively of European residents in the island, and negroes were rigidly excluded. In the 18th and early 19th centuries, the organization was more or less feudal, and each estate was called upon to provide its quota for the militia. Towards the end of the 18th century, natives were admitted to the force, and records show that its strength in 1783 was 6,793; and in 1792 it was 8,172, of which one quarter were natives. It was then organized as 3 regiments of horse and 14 of foot. In 1805 during the war with France, the militia rose to what appears to have been its maximum strength, 10,000 foot, and 1,000 horse. There were three regiments of horse, one in each county; and eighteen regiments of foot, one for each parish.

The Volunteer movement in England was reflected by the establishment of a small Volunteer Force in Jamaica. This rose to a strength of 84 officers, 583 other ranks, and 260 horse. They were however, shortly afterwards disbanded and the Kingston Light Horse alone remained in existence. After good service in the 1865 Rebellion, this also ceased to muster for parades and the volunteer movement died.

In 1879 a Militia law was passed which was amended in 1887 and 1891. Under these laws, the Jamaica Militia Artillery and Jamaica Militia Infantry were raised. The latter was finally disbanded in 1906.

Some of the members of the Jamaica Militia Infantry formed themselves into the St. Andrew Rifle Corps, and this body was kept up at the expense of the public though never recognised as a military body by the Imperial Government, owing to their organisation. Members of this corps have been re-embodied as the Kingston Infantry Volunteers.

KINGSTON INFANTRY VOLUNTEERS.

Prior to the outbreak of the war there existed an unrecognized Volunteer Corps known as the St. Andrew Rifle Corps. This Corps, though not recognized as a military body, was partly supported by the Government, grants being made to it each year for training and for ammunition and transport. The majority of its members had been members of the former Kingston Infantry Militia.

On the outbreak of war, when it was found desirable to enrol the Corps as part of the new Volunteer Force, it was decided to disband the Corps and to re-enlist the men in a Company of the Volunteer Force to be designated as "The Kingston Infantry Volunteers." The Commanding Officer of the Corps was accordingly authorized, under Warrant by the Governor, to enlist persons to serve as members of a Company of the Volunteer Force to be designated as the Kingston Infantry Volunteers. This was done and Commissions were issued to the Officers of the Corps.

The present Officers of the Kingston Infantry Volunteers, are:—

CENTRAL RECRUITING COMMITTEE.

The proposal to recruit men in Jamaica for His Majesty's Army, originated with Mr. Wm. Wilson who outlined his scheme in a letter to the Gleaner of the 23rd April, 1915.

A number of influential Gentlemen at once took up the suggestion, and the first meeting of the War Contingent Committee was held in Mr. Wm. Wilson's office on the 26th April, 1915. Mr. Wm. Wilson, Convenor of the meeting, Mr. Baggett Gray, Mr. Michael deCordova and Mr. Frank Jackson, formed the first provisional Committee.

Voluntary subscriptions to the extent of upwards of £10,000 were collected by the Committee for the purpose of equipping and transporting this force.

It was agreed to ask the Daily Gleaner to acknowledge contributions through its columns also that all monies received be lodged at the Bank of Nova Scotia in an account to be opened in the name of the Jamaica War Contingent Fund.

His Excellency Sir William Henry Manning, K.C.M.G., C.B., and Brigadier-General Blackden, G.O.C., at once consented to be members of the Committee, thus giving it Official recognition, and the Hon. S. Couper, Director of the Government Railway, and Messrs. J. Tapley, and J. Barclay, were added thereto.

The matter was later brought formally to the attention of the Government through the elected Members of the Legislative Council, and it was recommended that Jamaica should contribute 500 men afterwards increased to 550 to assist the mother Country in the War.

The Government then communicated with the War Office, which subsequently expressed its willingness to accept an increased number of men.

It was ultimately decided that Jamaica should contribute a force of 2,550 men with reinforcing drafts, and under this arrangement the Colony is committed to provide 5,100 men before the end of December 1916 with reinforcements at the rate of 2,550 men for each year the war continues thereafter.

It having been found that the men cannot be accommodated in Camp as fast as they enlist, a regular system of Registration has been adopted under which Secretaries of Parochial Recruiting Committees can at any time say the number of men available and can send them to Camp in such numbers as may be required on receipt of the necessary information from the Central Committee. The Registers provide for the division of the Recruits into three classes (a) men suitable for appointments as N. C. O.'s. (b) men otherwise suitable. (c) illiterates.

A Central Recruiting Committee composed of the following gentlemen was appointed by the Governor.

President.—Hon. J. H. W. Park, Hon. S. Couper, Hon. H. A. L. Simpson, Hon. Dr. J. E. Ker, The Staff Officer Local Forces, Lt. Col. C. Durrant, Messrs. A. H. Jones, W. Wilson, M. deCordova, W. Baggett Gray, J. Tapley, D. N. Barr and A. B. Wood, Secretary.

The duties of this Central Recruiting Committee are to co-operate with the various committees and sub-committees engaged in Recruiting throughout the Island, with a view to regulating the flow of recruits, so that men shall be enlisted for the Jamaica War Contingent and sent to Up-Park Camp for training, as and when required. In this connection it has to be remembered that Jamaica is not only committed to sending a force of men to the Front, but it has undertaken to maintain it there, and to this end it is probable Recruits will be required, to keep the original force at full strength.

His Excellency also appointed Recruiting Committees in each Parish, and the Chairmen and Secretaries are as given below:—

Parish.	Chairman.	Secretary.
St. Andrew	.. Hon. B. S. Gossett	.. J. W. Vancuylenberg
St. Thomas	.. " H. Cork	.. J. M. Fonseca
Portland	.. " E. C. Hall	.. P. B. Spence

Clarendon	.. " H. T. Ronaldson	.. L. A. Hopwood
St. Catherine	.. " Geo. McGrath	.. J. R. Taylor

The Central Committee act as Parochial Committee for Kingston.

These Parochial Committees appointed sub-committees on the different districts of their parishes, and by these committees and sub-committees recruiting meetings have been held, in many of which His Excellency the Governor, Brigadier-General Blackden and other speakers have taken part. These efforts have been very successful, the young men of Jamaica responding in large numbers and about 10,000 have offered their services at the various meetings.

After enlistment, the men are transported to Camp, special facilities being offered to this end by the Jamaica Government Railway and the West India Electric Company. On arrival at Camp, the men are medically examined, and when found physically fit, and willing to serve abroad, they are duly attested, as members of the "West Indies Regiment." The men are then daily drilled and given preliminary instruction by the military authorities as to their future duties, before being transported to Europe to be finally equipped and drilled prior to despatch to Egypt where the West Indies Battalion is expected to serve. General Blackden and the Officers of the W.I.R., have expressed their satisfaction with the enthusiasm and intelligence displayed by the Recruits.

To date the following Officers and Men have been sent to England:—

Date.		Officers.	Men.
1915—			
Nov. 8th, S.S. "Verdalla"	..	12	722
Dec. 24th, S.S. "Quillota"	..	2	53
1916—			
Jany. 9th, S.S. "Verdalla"	..	24	1,100
March 6th	24	1,115
Sept. 30th	36	726
Total	..	98	3,716

Of these numbers 2 Officers and 159 Men have died abroad while 666 Men have been returned to the Colony (28.2.17), from various causes.

As was to be expected a number of the men who proceeded abroad have been returned to the Colony from time to time owing to disablement or sickness.

COMMISSIONED OFFICERS OF H. M. NAVAL AND MILITARY FORCES CONNECTED WITH JAMAICA.

The list of commissioned Officers of H. M. Forces connected with Jamaica, first published in last year's edition, has been carefully revised and made as complete as possible.

All those gentlemen who have joined the several contingents up to the date of publication are now included as well as those who have in other ways offered their services to the King in the Navy and Army for the present war, or were already Officers of the Royal Forces when war was declared.

It is hoped that friends and relatives who find any errors or omissions, will point them out to the editors, who will be grateful for any information that will help to make the present list a full and truthful record of the island's patriotic efforts to help the Empire in this great crisis.

PART XIX.

MISCELLANEOUS INFORMATION.

NATURALIZATION OF ALIENS, PASSPORTS, &c.

I. NATURALIZATION OF ALIENS.

By the 1st section of the Act 35 Charles II., cap. 3, the Governor of Jamaica is empowered, by instrument under the broad seal of the island, "to make an alien or aliens, foreigner or foreigners, being already settled in the island, or such as shall hereafter come to settle and plant in it, having first taken the oath of allegiance, to be, to all intents and purposes, fully and completely naturalized;" and the person so naturalized thenceforward has and enjoys for himself and his heirs "the same immunities and rights of, and unto, the laws and privileges of this island in as full and ample manner as any of His Majesty's natural born subjects have or enjoy within the same," or as if the person concerned had been born within any of His Majesty's realms or dominions.

The provisions of this Act have frequently been had recourse to, and this was especially the case in the years during which emigration to a large extent from Cuba and Hayti took place in consequence of the disturbances in those countries.

The procedure under this Act is as follows : A petition is presented to the Governor setting forth particulars of the individual desirous of naturalization, the fact of his having settled in the island or his intention to do so, as the case may be, and his willingness to take the oath of allegiance. To this petition should be affixed the signatures of at least two respectable citizens as a guarantee of the good character and *bona fides* of the petitioner. If after such further enquiry as may be deemed necessary the Governor should decide on granting letters of naturalization, a writ of *dedimus* is issued for the administration of the oath of allegiance to the applicant, and, when this writ is returned executed, the letters of naturalization are issued, and an intimation to that effect is published in the Jamaica Gazette by Authority. Letters of Naturalization are subject to a Stamp Duty of £2.

Under the 6th section of the Act 14 Vic. cap. 40, any woman married to a natural born subject or person naturalized in Jamaica shall be deemed to be herself naturalized and to have all the rights and privileges of a natural born subject.

It has been held that the children of an alien who has been naturalized in the colony, born before their father's naturalization, do not become British subjects by the naturalization of their father, whether they are, or are not, of age at the time of their father's naturalization.

Certificates of naturalization granted in Great Britain do not give the holders the rights and privileges of British subjects in the colonies.

The British Nationality and Status of Aliens Act 1914.

The above Law now regulates the Naturalization of Aliens in the United Kingdom. The following section gives the authority to the Government of any British Possession to grant Certificates of Naturalization to Aliens:—

8.—(1) The Government of any British Possession shall have the same power to grant a certificate of naturalization as the Secretary of State has under this Act, and the provisions of this Act as to the grant and revocation of such a certificate shall apply accordingly, with the substitution of the Government of the Possession for the Secretary of State, and the Possession for the United Kingdom, and also, in a Possession where any

language is recognised as on an equality with the English language, with the substitution of the English language or that language for the English language.

Provided that, in any British Possession other than British India and a Dominion specified in the First Schedule to this Act, the powers of the Government of the Possession under this section shall be exercised by the Governor or a person acting under his authority, but shall be subject in each case to the approval of the Secretary of State, and any certificate proposed to be granted shall be submitted to him for his approval.

(2) Any certificate of naturalization granted under this section shall have the same effect as a certificate of naturalization granted by the Secretary of State under this Act.

An applicant for a certificate of Naturalization must satisfy the Governor:

(a) That he has resided in His Majesty's Dominions for not less than 5 years, in the following manner, that is to say for one year immediately preceding the application in the colony and for a period of four years within the last eight years before the application either in the colony or in some other part of His Majesty's dominions.

(b) That he is of good character and has an adequate knowledge of the English language, and

(c) That he intends if his application is granted either to reside in His Majesty's Dominions or to serve under the Crown.

II. PASSPORTS.

THE following Rules, governing the issue of Passports, were published in accordance with instructions from the Secretary of State, 14th August, 1915.

RULES GOVERNING THE ISSUE OF PASSPORTS IN JAMAICA.

1. Applications for Passports must be made to the Colonial Secretary in writing in the authorised form (A) in time to reach his Office at least two clear days before the passport is required. All applications must be accompanied by a small unmounted photograph in duplicate of the applicant.

2. Under Law 22 of 1898 Stamp Duty of 5/ is payable on all Passports, and this sum must accompany the application.

3. Passports are granted to:—

(a) Natural-born British subjects.

(b) Wives and widows of such persons.

(c) Persons naturalized in the United Kingdom, in the British Colonies, or in India. A married woman is deemed to be a subject of the State of which her husband is for the time being a subject.

4. Passports are granted:—

(1) In the case of Natural-born British subjects, upon the production of a Declaration by the applicant in the authorised form (A) verified by a Declaration made by a Magistrate, Justice of the Peace, Minister of Religion, Collector of Taxes or Clerk of the Courts resident in the Colony. The Applicant's Certificate of Birth and other evidence may also be required.

(2) In the case of Naturalized British subjects, upon production of a Declaration by the applicant in the authorised form (A) accompanied by the original Letters of Naturalization granted to the Applicant, and verified by a Declaration made by a Magistrate, Justice of the Peace, Minister of Religion, Collector of Taxes or Clerk of the Courts.

(3) In the case of children under the age of 16 years requiring a separate Passport, upon production of a Declaration made by the child's parent or guardian in a Form (B) to be obtained from the Colonial Secretary's Office.

5. No Passport will be issued to a Naturalized British Subject who has not been naturalized for upwards of one year, or to persons of Asiatic origin who desire to travel in the Republic of Costa Rica, the Government of that Republic refusing to permit the immigration of any such persons. There are also restrictions in the case of persons of Asiatic origin who desire to travel in the Republic of Panama.

6. Chinese, naturalized as British Subjects, and the children of such Chinese, even if born within the British Dominions, are not entitled to protection in China, and a note to this effect will be made on Passports issued to such persons.

7. Naturalized British Subjects will be described as such in their Passports, which will be issued subject to the necessary qualifications.

8. Passports are not valid beyond two years from the date of issue. They may be renewed for four further periods of two years each, after which fresh Passports must be obtained. The fee for each renewal is 2/.

9. Applicants are required to call at the Colonial Secretariat to affix their signatures to their Passports. In special cases passports may be sent by post.

10. Passports cannot be issued to persons not resident in the Colony. Such persons should apply to the nearest British Mission or Consulate. Passports must not be sent out of the Island by Post.

Passports for foreign travel are issued by the Governor also to born British Subjects on application, and on payment of a Stamp Duty of five shillings.

Under the Emigrant Labourers Protection Law, 23 of 1902, as amended by Law 5 of 1905, a permit is required by all persons proceeding as passengers from the Island to places proclaimed under the former Law. The following sections relate to the granting of such permits:—

On application in writing by a person desiring to leave the island for a proclaimed place a permit shall be granted by such person or persons as the Governor may appoint for the purpose, or by the Inspector or other Chief Officer of Constabulary (hereinafter referred to as the Inspector) of the parish of Kingston, subject to the following rules:—

- (i.) If the applicant establishes to the satisfaction of any person appointed as above provided, or of the Inspector, that he is not a native of or domiciled in this Island, or that he has already made such proclaimed place his temporary home, or is carrying on business there, or that, being a native of or domiciled in this Island, he is possessed of independent means sufficient to remove all risk of his having to be repatriated at any time at the cost of this Colony, or that he has deposited one Pound and five shillings in the Treasury to cover such risk, or that, if he has been recruited by a recruiting agent such agent has paid into the Treasury, the sum of one Pound and five shillings and entered into such agreement as is hereinafter mentioned, the permit shall be granted forthwith.
- (ii.) If an applicant for a permit who has deposited twenty-five shillings in the Treasury, is recruited by a recruiting agent who pays into the Treasury in respect of such recruit the sum of twenty-five shillings, as he is by this Law required to do, such recruit shall on application, have repaid to him personally or to his legal personal representative, the sum of twenty-five shillings deposited by him in the Treasury, and any permit granted to any such recruit by reason of the deposit by him in the Treasury of twenty-five shillings, shall on his being recruited as aforesaid, be void, and a new permit shall be obtained by him.
- (iii.) No person recruited by a duly registered recruiting agent shall receive a permit, unless a contract has been entered into between such person and the recruiting agent on behalf of his principal, and the form and substance of such contract has been approved by the Governor in Privy Council.

(iv.) Any such contract shall, *inter alia*, provide:

- (a.) That the agent or his principal may not at any time deduct from the wages of the Emigrant or otherwise obtain from him, re-payment of the sum of one Pound five Shillings, or any part thereof, paid by the said recruiting Agent under the terms of this Law.
- (b.) That the contract shall be cognizable before, and enforceable, in the Courts of this Island, or of the place of employment, at the option of the Emigrant, and
- (c.) That no person shall be at liberty to contract himself out of the provisions of this Sub-section of this Law.

(v.) Any such permit as aforesaid shall be in force for six weeks from the granting thereof, and no longer.

Section 1 of Law 5 of 1905 provides that—Passengers to any Proclaimed place shall leave the Island from the ports of Kingston, Montego Bay, or Port Antonio, and from no other port, unless the Government shall in any case otherwise permit.

Pauper immigrants Law—25 of 1905, gives power to forbid the landing in Jamaica of any person not a native or domiciled in the Island who in the opinion of the Harbour Master, Health Officer or senior Customs Officer is unable to maintain himself, or is likely to become chargeable on Poor Rates. Provided that bond may be given by acceptable persons to refund any such charges to the Government if incurred. Penalties summarily recoverable before a Resident Magistrate's Court may be inflicted on the ships (*maritime lien*), or on the master of such ship, or on the person forbidden, (or any persons aiding him) to land.

LETTERS PATENT FOR INVENTIONS.

THE legal formalities in the matter of the application for and obtaining Letters Patent for Inventions are enacted in the Act 21 Vic., cap. 30, "The Patent Law Amendment Act, 1857," as amended by Law 15 of 1891. A brief outline, in general terms, of the course to be pursued in applying for Letters Patent is given below:—

The person desiring that Letters Patent for an invention should be granted to him should first forward to the Governor his formal petition in the form annexed to 21 Vic., cap. 30, accompanied by a declaration that he is the true inventor or discoverer of the thing for which he desires the Letters Patent, together with a description or specification, with drawings where necessary, shewing in clear and exact terms the nature of the invention. He should then publish for at least four weeks in the Jamaica Gazette and in one local newspaper a notice of his having made such application, stating in general terms the nature of the invention in respect of which Letters Patent are sought. Copies of the Gazette and Newspaper containing this notice should be lodged in the office of the Colonial Secretary.

The Governor will then give his order for the reference of these papers to the Attorney General for examination, and if the Attorney-General is satisfied that the application for the Letters Patent may properly be granted he returns the papers to the Governor with a certificate to this effect; and if he sees reason for disallowing the application he gives a certificate embodying his reasons for this conclusion.

The applicant for Letters Patent is required to send up with his petition the sum of £3, which is sent to the Attorney General as his fee when the papers are referred to him by the Governor. Letters Patent are subject to stamp duties to the amount of £2 10s. and 5s. on a Power of Attorney, if necessary.

Letters Patent have effect for a period of 14 years from the time of being granted which may be extended by the Governor for a further term of seven years.

LAND SURVEYORS.

THE law now in force relating to land surveyors is law 31 of 1894, amended by Law 20 of 1902, which repealed law 33 of 1869, the previously existing statute on the subject.

The law provides for the infliction of a penalty not exceeding £50 on any person (a) who runs a boundary, or opens lines between two properties, the occupier of which do not both concur in engaging his services; or (b) describes himself, or holds himself out as a surveyor of land, or falsely takes or uses in the Island any name, title or addition, implying a qualification as a land surveyor.

Section 4 of the law provides that no person shall be qualified to receive a commission as a land surveyor unless he is at least 21 years of age and produces satisfactory evidence as to character, and either a corporate member of the Institute of Surveyors of England, or of the Institution of Civil Engineers of England; or has passed the Cambridge Junior Local Examination in Arithmetic, Grammar, Dictation, Geography, Algebra, Euclid, plane Geometry and plane Trigonometry; has subsequently to his passing such examination been bound by indenture to serve for three years as an apprentice to a commissioned

surveyor of land; and, has after the expiration of such terms of service, duly passed the examination referred to in sections 9 and 10 of the law.

Law 20 of 1902 amended this section by the insertion after the words "Cambridge Junior Local Examination" the words "or other examination or examinations of at least equal standard approved by the Governor in Privy Council."

Law 20 of 1908 further amended Section 4 of Law 31 of 1894 by inserting between the words "England" and "or" in the third line of sub-section 1 the following words:—"or possesses some other qualification of at least equal standards, approved by the Governor in Privy Council."

The sections of the law quoted below are those of greatest general importance:—

9—Any apprentice who has duly served his full term of three years in conformity with the provisions of this law may apply by way of motion to the Supreme Court for an order to be examined under the provisions of this law; and it shall be lawful for the Supreme Court, on being furnished with satisfactory proof, that such person is at least twenty-one years of age, and is of good character, and that he has duly served for three years under articles of apprenticeship duly executed and recorded, and has otherwise complied with the requirements of this law, to make an order directing the Surveyor-General and a commissioned surveyor to be appointed by the Court to examine such person as to his qualifications to receive a commission as a surveyor of land.

10—Such examination shall embrace the theory and practice of land surveying and levelling, and the accurate and neat delineation to scale upon paper of the notes taken in the field, the practical use of the principal instruments used therein and their adjustments, and topographical drawing:—and if the result of such examination shall appear satisfactory to the examiners, they shall certify to the supreme court, or to one of the judges thereof, in chambers, if the said court is not sitting, that such person hath been found qualified, and the said court or judge shall thereupon cause an order to be entered up in the office of the registrar of the court authorizing such person to take out a commission to act as surveyor of land.

11—On presentation to the Governor of an attested copy of the said order or, in the case of a person apprenticed before the coming into operation of this law, of an order made under section 8 of law 33 of 1869, the person named therein shall be entitled to receive a commission as a land surveyor, which commission shall be impressed with a stamp duty of thirty pounds in lieu of all other stamps and fees whatsoever, and shall be signed by the Governor, and shall be published in the "Jamaica Gazette:" Provided, that if the stamp duty of thirty pounds on articles of apprenticeship made and entered into before the coming into operation of this law shall have been already paid, then such commission shall bear a stamp of one pound only.

13—Any commissioned surveyor who shall intentionally, or through negligence, carelessness, or culpable ignorance, make an incorrect survey, or deliver an incorrect plan of any land, shall be liable on the complaint of any person aggrieved thereby to have his commission as a commissioned surveyor cancelled by order of a judge of the supreme court, or to be temporarily suspended from the exercise of his office as a surveyor during such time as may be fixed by a judge of the supreme court, or to incur a penalty not exceeding fifty pounds, and such surveyor shall further be required to re-pay any sums of money that he may have received from the complainant in consideration of such survey or plan, if it be so ordered by such judge.

The following is the scale of fees which surveyors are entitled to charge under the law:—

Traversing road, per chain	£0	0	2

PETROLEUM.

Rules made by the Governor in Privy Council under sections 18 and 19 of the Petroleum Law, 1906. (Law 37 of 1906), for the importation, transportation and keeping for sale of petroleum

N.B.—Section 1 of the said Law defines the term “petroleum” as used in that Law and these rules.

Section 3 prohibits the importation, storage or sale of petroleum giving off inflammable vapour at any temperature lower than 95° Fahr. in vessels other than are herein prescribed. Section 4 provides that any breach of section 3 shall be an offence against section 157 of the Customs Consolidation Law, and that an offender shall on conviction be liable to the pains and forfeitures therein mentioned. Section 5 provides that petroleum imported, stored, or sold in contravention of section 3 shall be deemed to be an article included in the term “dangerous explosives” for the purposes of Law 6 of 1899.

Section 6 provides that no petroleum shall be kept in quantity exceeding fifty gallons, and that petroleum giving off inflammable vapour at any temperature lower than 95° Fahr. shall not be kept in quantity exceeding eight gallons otherwise than in a building specially appointed for the purpose by the Governor, and under conditions prescribed by him; and that any petroleum kept in contravention of this section shall be forfeited and the occupier of the premises where it is so kept shall be liable to a penalty of £20 a day for every day during which such petroleum is so kept.

Definitions.

The term “The Law” as used in these rules means the Petroleum Law, 1906 (Law 37 of 1906).

The term “gasolene” as used in these rules means and includes all petroleum which

gives off an inflammable vapour at a temperature lower than 95° Fahrenheit as defined in the Law.

The term "Petroleum Store" as used in these rules means a building specially appointed by the Governor for the storage of petroleum.

The term "Prescribed" as used in these rules means prescribed, appointed or authorised by the Law, these rules, or the Governor.

The Laws affecting the Storage and Sale of Petroleum, are, 18 of 1877, 2 of 1905, 37 of 1906, 1 of 1907, 37 of 1908, 30 of 1912.

RULES

Importation.

1. The master of any ship, drogher or other vessel arriving in any port of this Island, having on board any gasoline, otherwise than in conformity with the Law, shall be subject to the provisions of section 4 of law 6 of 1899.

2. Gasolene landed otherwise than as prescribed shall be deemed to be prohibited goods at the port of arrival and dealt with accordingly by the Customs authorities.

Transportation.

3. Petroleum shall not be transported along any public highway, otherwise than in such vessels as are prescribed for the storage of petroleum.

4. Care shall be taken to so load vessels containing petroleum on any vehicle that there shall be no risk of injury being done to them or any of them during the transportation thereof.

5. Vessels containing gasolene must be protected from the direct rays of the sun.

6. The person in charge of any vehicle carrying petroleum must be notified of the nature of the goods thereon and he must prevent any lighted candle, lamp, or any ignited tobacco or other substance from approaching or being near to any vessel containing it.

Applications for Petroleum Stores.

7. Any person desiring to have a petroleum store on his premises shall make an application in writing to the Director of Public Works requesting him to inspect the building which he wishes the Governor to appoint for that purpose, and to forward the application to the Governor, together with his report thereon.

8. If the Director of Public Works is not satisfied that the building complies with the requirements of the Law and these rules he will so inform the applicant and will not forward the application to the Governor. Otherwise the Governor's decision will be communicated to the applicant by the Colonial Secretary.

9. The conditions to be prescribed by the Governor when appointing a building as a petroleum store under section 6 of the law as to the mode of storage, the nature of the goods with which petroleum may be stored and the testing of such petroleum from time to time are contained in these rules.

Storage.

10. A petroleum store must be isolated from all other buildings, unless the entire building of which it forms part be constructed entirely of incombustible and spark-proof materials, and the petroleum store be completely separated from every other part of the building by solid fire-proof walls, ceiling and floor.

11. Every petroleum store must be externally spark-proof and so situated with regard to other buildings in the neighbourhood and to the nature and contents of such buildings that it may be deemed safe from ignition externally; and if any part of a petroleum store be within 30 feet distant from a dwelling house or store it must be constructed entirely of solid and incombustible materials.

12. Every motor car registered under law 26 of 1905 requiring petroleum for its propulsion shall be deemed to be a petroleum store for a quantity not exceeding that required for a distance of 150 miles.

13. In order that the temperature of the petroleum may be kept low and to permit as free a perfilation of air as possible, every petroleum store must be provided with floor and roof or ceiling ventilation constructed in such a manner as to prevent so far as is possible fire from being communicated to the interior of the store from without.

14. The doorways of petroleum stores must be of not less than three feet six inches clear width and the doors must open outwards so as to permit of the contents of the store being removed as quickly as possible.

15. No other inflammable goods shall be kept in a petroleum store.

16. Petroleum may be kept in the same vessels in which it is permitted to be imported, provided that such vessels are in durable and air-tight condition, or other vessels complying with the same conditions, including fixed metallic tanks the inlets and outlets of

which must be closed by air tight covers or taps, except when petroleum is being introduced or withdrawn. If the vessels are imported in wooden cases containing one or more they may be so kept in the store.

17. Any vessel containing petroleum which shall become defective in condition shall forthwith, on being found to be so, be removed from the store and the petroleum shall be transferred to a vessel in perfect condition which may be returned to the store.

18. Casks or vessels containing more than 25 gallons of petroleum each shall be stored in tiers or rows, the tier or row next any wall shall be not more than one cask or vessel in width and two in height, with a clear passage of at least four feet between it and the next tier or row; all other tiers or rows may consist of two casks or vessels in width and two in height, with a similar passage of at least four feet between the tiers or rows, and every such passage between the tiers or rows shall be connected with the door of the store by a passage of at least four feet in width.

Vessels or cases containing 25 gallons or less each shall be similarly stored in tiers or rows, and the first tier or row next any wall shall be not more than two vessels or cases in width and four in height, with a clear passage of at least three feet between it and the next tier or row; all other tiers or rows may consist of four vessels or cases in width and four in height, with a similar passage of at least three feet between the tiers or rows, and every such passage between the tiers or rows shall be connected with the door of the store by a passage of at least three feet in width.

19. Vessels containing gasoline must be stored apart from vessels containing petroleum of other descriptions and separated therefrom by a space or spaces not less than three feet in width.

20. The door of a petroleum store shall be provided with a strong lock attached to the inside of the door and also with a sufficient hasp and staple and a padlock on the outside, and if it be a double door the half to which the lock is not attached shall be provided with strong tower bolts at top and bottom on the inside. The keys of the locks must be kept by the proprietor in his own possession or in his absence in that of the person whom he leaves in charge of the premises. The door must be kept securely closed and fastened by both locks at night and by at least one lock in day time, except when petroleum is being received into or removed from the store.

21. No petroleum shall be received into or removed from any store except during daylight.

22. No lighted candle, lamp or lantern nor any match shall at any time be taken into a petroleum store under any pretence or for any purpose whatever. No smoking shall under any circumstances be permitted in any petroleum store.

A conspicuous notice containing these prohibitions shall be posted outside and inside every petroleum store.

23. If petroleum becomes ignited the application of water tends to spread the fire. Earth, sand or blankets and rugs should be thrown on the flames to extinguish them. A supply of about a cubic yard of earth or sand shall be always kept conveniently near every petroleum store.

24. Any Officer or Sub-officer of Constabulary or any Officer of Excise or Customs shall on demand at any reasonable time be afforded access to any petroleum store for the purpose of inspecting the store or testing the petroleum.

25. The Senior Officer of Constabulary for any parish shall inspect or cause to be inspected by a sub-Officer every petroleum store in that parish and its contents at least once in every year and shall take such lawful steps as may be necessary to enforce compliance with the law and these rules. In any case of persistent or continuous non-compliance such Senior Officer shall report fully to the Colonial Secretary through the Inspector General.

Sale

26. Petroleum for sale by retail shall be kept in such vessels as are prescribed for the storage thereof.

No quantity exceeding four gallons shall be delivered at one time to any single purchaser except in an air-tight metal vessel, unless an entire cask as imported be purchased. Smaller quantities may be drawn from a vessel kept for the purpose into bottles or suitable cans and so delivered.

Arrangements shall be made to the satisfaction of the Senior Officer of Constabulary for the parish for the preventing so far as possible the escape of petroleum in the process of transfer from the original container to the bottles or cans in which is delivered and for the collection of any petroleum so escaping in a metal receptacle from which it can be transferred to a safe place.

No lighted candle, lamp or any ignited tobacco or other substance shall be allowed to approach or to be near the place where petroleum is so kept or transferred. Vessels containing gasoline and the arrangements for its delivery in small quantities shall be completely separated from those for petroleum of other descriptions.

27. A copy of these rules shall be kept constantly posted on or near the door of every petroleum store. A copy of Rule 26 shall be printed on the back of every license to sell petroleum by retail.

Penalties.

28. Any persons contravening any of these rules or refusing or neglecting to comply with any requirements under these rules or obstructing any person in the lawful exercise of any powers given by or under these rules, shall be liable to a penalty not exceeding five pounds.

Approved by the Governor in Privy Council, on the 31st October, 1906.

CALCIUM CARBIDE.

Law 5 of 1901 defines *Calcium Carbide* to mean "any substance capable of evolving *Acetylene* when treated with water" and enacts that after June 1st, 1901, no one shall sell or store Calcium Carbide without a License, under a maximum penalty of £20. Quantities not over 5lbs. may be kept in hermetically closed vessels, each containing not exceeding 1lb., without a License. The Governor in Privy Council is empowered to make rules to govern the storage of Calcium Carbide, which rules are to be published in the *Gazette* and are not to apply to buildings distant more than 100 feet from other buildings. Licenses are granted and cancelled by the Colonial Secretary, and the granting or cancellation must be published in the *Gazette* and take effect from the date of such publication.

The law prohibits the sale of such impure Carbide of Calcium as may be liable to spontaneous ignition. All vessels containing the said Calcium Carbide shall bear in conspicuous characters the words "Calcium Carbide," "dangerous if not kept dry" with the following caution:—

"The contents of this package are liable, if brought into contact with moisture, to give off a highly inflammable gas;" and with the addition:—

- (a) In the case of a vessel kept, of the name and address of the consignee or owner;
- (b) In the case of a vessel sent or conveyed, of the name or address of the sender;
- (c) In the case of a vessel sold or exposed for sale, the name and address of vendor.

The Customs or Police authorities may take samples of Calcium Carbide imported or offered for sale for analysis, and if impure it may be confiscated.

Offences against the Law not otherwise provided for, or against the Regulations made thereunder, may be punished by a maximum penalty of £5, which may be recovered summarily.

The following Privy Council Regulations were published on April 18, 1901.

RULES AS TO CALCIUM CARBIDE STORES.

A building used for the storage of Calcium Carbide must be isolated and distant not less than 30 feet from any dwelling and any other building in which any inflammable article is kept, unless it have walls, floor, ceiling, doors and shutters of incombustible material and be solidly and imperviously cut off from all communication with other parts of the block.

2. Every building used for the storage of Calcium Carbide must be so built and situated that the interior surfaces of the walls, ceiling and floor shall not be liable to become wet, and must be provided with ample floor and roof ventilation so constructed as to prevent the ingress of water. All doors and shutters must open outwards and be so constructed that when closed water will be prevented from entering the building. All doors and shutters must be kept securely locked, except when necessarily open to give access to the interior of the store.

3. No inflammable goods or damp goods shall be kept in the same store with Calcium Carbide.

Approved by the Governor in Privy Council on the 3rd April, 1901.

GUNPOWDER AND EXPLOSIVES.

The importation, sale, storage and use of gunpowder and other explosives are governed by Law 6 of 1899, which consolidated and amended previous laws on the subject. "Gunpowder" is defined as meaning the kind of powder commonly known as "gunpowder, or blasting powder, percussion caps or cartridges adapted for use in connection with guns, rifles, revolvers or pistols."

The definition of "dangerous explosives" is dynamite, nitro-glycerine or other explosive substance other than "gunpowder" as above defined.

No gunpowder or dangerous explosive may be landed without a license under a penalty of £100. Such substances must be placed in the magazine nearest to the port of arrival of the vessel. Dealers in such substances and in fire-arms must take out a license; 100lbs. weight is the maximum quantity that can be kept other than in the public magazines.

Rules are laid down for the safe storage, packing and carriage of explosives, and justices of the peace may issue search warrants in case of suspicion of the storage of explosives and fire-arms in unallowed places. The Governor in Privy Council has power to frame regulations under the Law as may from time to time be necessary. A penalty of £20 may be exacted for any offence against the law. See Rules made by the Governor in Privy Council under Section 22 of Law 6 of 1899 published in the Jamaica Gazette-September 19, 1912.

BIRDS AND FISH PROTECTION.

THE indiscriminate destruction of fish in the rivers and streams of the island by the use of explosives and of poisonous and intoxicating herbs (of which latter there is great variety in Jamaica, and which are easily accessible to any one who wishes to make use of them), and the wholesale destruction of wild birds of all kinds in and out of season which prevailed, rendered a law for the protection of birds and fish absolutely necessary. Law 32 of 1885 was therefore passed by the Legislature.

In this law certain birds which were being rapidly exterminated on account of the value of their plumage, as well as others that are specially useful to agriculture as insect destroyers, are now absolutely protected, while certain edible birds, fishes and creatures have now a close season provided, during which it is unlawful to kill them.

The protected birds are divided into two classes: those named in the one class are protected all the year round and those named in the other class are protected during certain months only.

A general Consolidating Law, 33 of 1914, repealed, previous legislation on this subject and enacted under Section 2 of the Law, Schedule I, the following:—

Sec. 2—(1) Any person who shall kill, wound or take, any bird or the eggs of any bird specified in the first Schedule to this Law, or who shall have in his possession any such bird killed, wounded or taken, or the eggs of any such bird taken, after the passing of this Law, or any part thereof, shall be guilty of an offence against this Law.

Sec. 3—(1) There shall be a close season for each of the birds, fishes and creatures, enumerated in the second Schedule to this Law. Such season shall, until another shall be provided in lieu thereof in manner hereafter provided, be the period set opposite in the said Schedule to the name of each such bird, fish or creature.

SECOND SCHEDULE (Section 3).

CLOSE SEASON.

Ground Doves or Groo-groo-doo	..	1st March to 15th August.
Coots	..	1st March to 25th July.
Peadoves	..	1st March to 11th August.
Whitewings or Lapwings	..	
Baldpates	..	1st March to 11th August save in the parishes of St. Elizabeth, Westmoreland and Hanover, where the close season shall be from 1st March to 31st July.
Blue Pigeons	..	1st March to 25th July, save in the parish of St. Elizabeth where the close season shall be from 1st March to 15th July.
Ringtail Pigeons	..	1st March to 25th July.

Petcharies	..	
Wild Guinea Fowls	..	1st March to 30th September.
Quail	..	
Oysters	..	1st May to 21st August.

Sub-Section 2 of section 3 gives power to the Governor to alter and amend the close season, thus prescribed, as may be advisable.

Notice in Gazette 12th August, 1915, withdrew Parrakeets and Yellow-bellied Parrots, from 1st Schedule and placed them in Schedule II with close season from 1st March to 11th August.

The laws referred to extend to fishes. The object is to prevent the indiscriminate destruction of fishes in the waters of Jamaica and its dependencies. The licenses under section 14 of Law 32 of 1885 are, under Law 38 of 1888, extended to all fresh water fish.

No fish can be taken in any river or stream between the 1st June and the 1st October, and any pot, net or engine used in any river or stream during that period may be destroyed by any person. In July, 1899, the Governor acting under Law 16 of 1889 declared that the provisions of Sec. 6 of Law 32 of 1885, should cease to apply so far as the Cabaritta River in Westmoreland and the adjoining morass are concerned, to Mudfish, Blackfish, Godamies and Eels. It is unlawful to use at any time any method of poisoning, stupefying, or intoxicating fish, or to destroy fish by explosion of dynamite or other explosive substance, in any harbour, bay, creek, pond, river or stream, or to make use of any seine, net, pot, or engine for catching fish with meshes or spaces of less than 1½ inches between knot and knot, or bar and bar. In any harbour or bay (but not in any river or stream) a cast or shrimp net not above 2½ fathoms long and not joined to any other net may be used.

Oysters are protected from the 1st May to the 31st August. Turtle, including land turtle, are not protected; but turtle eggs may not be taken at any time or destroyed.

Every offence against the Laws (32 of 1885 and 4 of 1887) is punishable on summary conviction with a fine not exceeding five pounds.

THE BLUE MOUNTAIN PEAK.

THE Blue Mountain Peak—an altitude of 7,388 feet at the highest point—was at one time a somewhat arduous undertaking as there was no riding road to the summit, and the ascent had to be made on foot by a very steep and ill-defined track. Through the generosity of Governor Sir Henry Norman, and a few gentlemen having property in the district, a riding road to the Peak was constructed, and the ascent can now be made, in good weather, on horseback or on foot.

Two days suffice for the trip. The first part of the journey, a distance of nine miles to Gordon Town, can be made by buggy; but the electric cars to Papine, will take the visitor to within a short distance of Gordon Town, and vehicles are obtainable thence to Gordon Town, where riding ponies can be procured at a charge of 10/ per day, but arrangements can be made for a round sum for the trip. A small hut has been erected for the shelter of those who desire to spend the night on the Peak to witness the sunrise. Extensive views of the south, north and eastern coasts of the island may be obtained on a clear day—and the coast of Cuba is sometimes visible to the north.

Information as to this trip may be obtained from the Jamaica Tourist Association "Coronation Buildings," Barry Street, Kingston. (See page 538.)

ELECTION INFORMATION.

THE duty of registering the persons entitled to vote at elections for Members of the Legislative Council and of the Parochial Boards (including the City Council of Kingston) is discharged by the Collectors of Taxes of the several parishes.

The lists are revised and settled in March and April of each year at Courts held for the purpose by the Resident Magistrates who are the "Revising Judges."

Under Her Majesty's Order in Council, of 3rd October, 1895, each parish of the island now of itself constitutes an electoral district having the right to elect a member to the Legislative Council.

Returning Officers for Legislative Council elections are appointed by the Governor under Section 2 of Law 21 of 1884, and for Parochial General Elections under Section 12 of Law 17 of 1901. At Bye-elections for the Parochial Board the Returning Officer is appointed by the Chairman of the Board.

MISCELLANEOUS EXPENSES.

Expenditure incurred for such services as:—Hire of Room for holding Elections, carpenter's work, conveyance of ballot boxes, cleaning out polling station and incidental expenses will be allowed, provided the amount be reasonable, and must be supported by vouchers.

VISITING POLLING STATIONS.

Not more than one visit should be paid by a Returning Officer to a Polling Station if at that visit the arrangements prescribed in Section 12 of Law 21 of 1884, can be satisfactorily made. If on any occasion it should be found necessary to pay more than one visit an explanation of the circumstances which rendered such visit necessary should be furnished.

The fees payable to Returning Officers as above shall include remuneration for services performed by them as Presiding Officers.

No person shall receive fees in respect of more than one Office at any one Election.

The following Tables show the Returning Officers, the Head Polling Stations and District Polling Stations in the several Electoral Districts:—

A. H. MILES, Collector-General.

WEIGHTS AND MEASURES.

1. MEASURE OF LENGTH.

12	Inches	=	1 Foot
3	Feet	=	1 Yard
5½	Yards	=	1 Rod or Pole
40	Poles	=	1 Furlong
8	Furlongs	=	1 Mile
69 1/510	Miles	=	1 Degree of a Great Circle of the Earth.

An inch is the smallest lineal measure to which a name is given, but sub-divisions are used for many purposes. Among mechanics the inch is commonly divided into *eighths*. By the officers of the revenue and by scientific persons it is divided into *tenths*, *hundredths*, &c.

Particular Measures of Length.

A Nail	=	2½ Inches	Used for measuring cloth of all kinds.
Quarter	=	4 Nails	
Yard	=	4 Quarters	
Ell	=	5 Quarters	
Hand	=	4 Inches	Used for height of horses.
Fathom	=	6 Feet	Used in measuring depths
Link	=	7 In. 92 hdths	Used in Land Measure to facilitate computation of the content, 10 square chains being equal to an acre.
Chain	=	100 Links or 66 ft.	

2. MEASURE OF SURFACE.

144	Sq. Inches	=	1 Sq. Foot
9	Sq. Feet	=	1 Sq. Yard
30½	Sq. yards	=	1 Perch or rod
40	Perches	=	1 Rood
4	Roods	=	1 Acre
640	Acres	=	1 Sq. Mile

3. MEASURE OF SOLIDITY AND CAPACITY.

DIVISION I.—SOLIDITY.

1728	Cubic Inches	=	1 Cubic Foot.
27	Cubic Feet	=	1 Cubic Yard.

DIVISION II.—CAPACITY.

4	Gills	=	1 Pint	=	34½	cub. ins.	nearly
2	Pints	=	1 Quart	=	69½	—	—
4	Qrts.	=	1 Gallon	=	277½	—	—
2	Galls.	=	1 Peck	=	554½	—	—
8	Galls.	=	1 Bushel	=	2218 1-5	—	—
8	Bush.	=	1 Quarter	=	10½	cub. ft.	nearly
4	Qrs.	=	1 Load	=	51½	—	—

The four last denominations are used for dry goods only. For liquids several denominations have been heretofore adopted, viz:—

For Beer, the Firkin of 9 Gallons, the Kilderkin of 18, the Barrel of 36, the Hogshead of 54, and the Butt of 108 Galls. Flour is sold nominally by measure but actually by weight reckoned at 7lbs. avoirdupois to a gallon.

4. MEASURE OF WEIGHT.

DIVISION I.—AVOIRDUPOIS WEIGHT.

27½	Grains	=	1 Drachm	=	27½	gr.
16	Drachms	=	1 Ounce	=	437½	—
16	Ounces	=	1 Pound (lb.)	=	7000	—
28	Pounds	=	1 Quarter (qr.)			
4	Quarters	=	1 Hundredweight (cwt.)			
20	Cwt.	=	Ton			

This weight is used in almost all commercial transactions and in the common dealings of life.

The particular weights belonging to this Division are as follows:—cwt. qr. lb.

14	Pounds	=	1 Stone	=	0	0	14	Used
2	Stone	=	1 Tod	=	0	1	0	in the
6½	Tod	=	1 Wey	=	1	2	14	
2	Wey	=	1 Sack	=	3	1	0	Trade
12	Sacks	=	1 Last	=	39	0	0	

DIVISION II.—TROY WEIGHT.

24 Grains	=	1 Pennyweight	=	24gr.
20 Pennyweights	=	1 Ounce	=	480—
12 Ounces	=	1 Pound	=	5760—

These are the denominations of Troy Weights when used for weighing gold, silver, and precious stones, except diamonds. But Troy Weight is also used by Apothecaries in compounding medicines, and by them the ounce is divided into 8 drams, and the dram into 3 scruples, so that the scruple is equal to 20 grains.

For scientific purposes the grain only is used; and sets of weights are constructed in decimal progression from 100,000 grains downwards to 1.100th of a grain.

The *carat*, used for weighing diamonds, is 3½ grains. The term, however when used to express the fineness of gold, has a relative meaning only. Every mass of alloyed gold is supposed to be divided into 24 equal parts; thus the standard for coin is 22 carat fine, that is, it consists of 22 parts of pure gold and 2 parts of alloy.

5. ANGULAR MEASURE.

OR DIVISIONS OF THE CIRCLE.

60	Seconds	=	1 Minute
60	Minutes	=	1 Degree
30	Degrees	=	1 Sign
90	Degrees	=	1 Quadrant
360	Degrees or 12 Signs	=	1 Circumference.

WEIGHTS AND MEASURES, *continued.*

6. MEASURE OF TIME.		WEIGHT OF ENGLISH COINS.	
60 Seconds	= 1 Minute	<i>Gold.</i>	
60 Minutes	= 1 Hour		dwt. gr.
24 Hours	= 1 Day	Double Sovereign	10 6½
7 Days	= 1 Week	Sovereign	5 3½
28 Days	= 1 Lunar Month	Half Sovereign	2 13½
28, 29, 30, or 31 days	= 1 Calendar Month		
12 Calendar Months	= 1 Year	<i>Silver.</i>	
365 Days	= 1 Common Year	Crown	18 4 4-11
366 Days	= 1 Leap Year	Half Crown	9 2 2-11
		Florin	7 6 6-11
		Shilling	3 15 3-11
		Sixpence	19 7-11
		Fourpence	5 1-11

In 400 years 97 are leap years and 303 common.

THE METRIC SYSTEM.

WEIGHTS.

[The Metric unit of weight is the GRAMME = 15.44 grains English. It is the weight of a cubic centimetre of distilled water.]

Milligramme	= 1000th of a gramme	= .0154 grains English
Centigramme	= 100th "	= .1544 "
Décigramme	= 10th "	= 1.544 "
GRAMME		= 15.44 "
Décagramme	= 10 grammes	= 154.4 "
Hectogramme	= 100 "	= 1544 "
Kilogramme	= 1000 "	= 32½ oz. Troy = 2.2057 lbs. av.
Myriagramme	= 10000 "	= 321½ oz. " = 22.057 "

* * * 51 Kilogrammes make 1 cwt. and very nearly ½ lb. besides.

MEASURES.

Length.

[The Metric unit of linear measure is the METRE = 39.3708 inches. It is the 10 millionth part of the arc of the meridian from the equator to the pole.]

Millimètre	= 1000th of a metre	..	= .03937 inches
Centimètre	= 100th "	..	= .39371 "
Décimètre	= 10th "	..	= 3.93708 "
METRE		..	= 39.3708 = 3.2809 ft.
Décamètre	= 10 metres	..	= 32.809 ft. = 10.9363 yds.
Hectomètre	= 100 "	..	= 328.09 ft. = 109.363 yds.
Kilomètre	= 1000 "	..	= 1093.63 yds. = .62138 miles
Myriamètre	= 10000 "	..	= 10936.33 yds. = 6.21382 miles

NOTE 1.—Since the fraction of $\frac{1}{5}$ is equal to the decimal .625, the Metric kilomètre differs but little from the $\frac{1}{5}$ ths of an English mile; the difference being .625— .62138 = .00362, which is less than the 4-1000th, or the 1-250th of a mile; so that by estimating a kilomètre at $\frac{1}{5}$ ths of an English mile, we make an error in excess, of less than one mile in 250 miles. For the ordinary purposes of comparison therefore we may regard 8 kilomètres as equal to five miles; so that the distance between any two places, expressed in kilomètres, may be converted into English miles, near enough for general itinerary objects, by multiplying the number of kilomètres by 5, and then dividing the product by 8; as in the instance in the margin, where we see that 40 kilometres make 25 miles.

40 kilos.

8) 200
25miles.

Surface.

[The Metric unit of superficial measure is the **ARE** = 119.603 sq. yds. It is the square of 10 mètres; that is, of a *décamètre*.]

Centiare = 100th of an <i>are</i> = 1 square mètre	=	1.196 sq. yds.
ARE	=	119.603 "
Decare = 10 ares	=	.2471 acres
Hectare = 100 ares	=	2.471 "

Capacity.

[The Metric unit of capacity is the **LITRE** = 61.02705 cubic inches. It is the cube of one-tenth of a mètre, that is, of a *décimètre*.]

Millitre = 1000th of a litre = 1 cubic centimètre	=	.06103 cub. in.
Centilitre = 100th "	=	.6103 "
Décilitre = 10th "	=	6.1027 "
LITRE	=	61.02705 "
Décalitre = 10 litres	=	610.2705 "
	{	= 2.201 gallons
Hectolitre = 100 litres	=	3.53166 cub. ft. = 22.0097 gal.
Kilolitre = 1000 " = a cub. metre	=	35.31658 " = 220.0967 "
Myrialitre = 10000 "	=	353.1658 " = 2200.9667 "

In the measurement of *solids*, a cubic metre is called a *stère*, a 10th part of which is a *Décistère*, and 10 *stères* is a *Décastère*.

It will be seen, from the preceding Tables of Weights and Measures, that the *Mètre*,—the unit of *length*, is an element entering into even the system of *weights*, as well as into linear, superficial, solid, and quantitative measurements. It is on this account that this system of weights and measures is called the **METRIC SYSTEM**: it is at the same time a *Decimal* system; because, proceeding from the fundamental unit, the ascending gradations are uniformly at a tenfold rate, and the descending gradations are uniformly by *tenths*.

PARISH GENERAL RATES AND ROAD RATES.

The following Parish General Rates and Parish Road Rates on every ten pounds (£10) or fractional part of ten pounds (£10) of the value of rateable property have been fixed in respect of the following parishes for the financial year, beginning on the 1st April 1916, viz.:—

DEPENDENCIES OF JAMAICA.

TURKS AND CAICOS ISLANDS.

THE Turks and Caicos Islands, geographically the most south-eastern of the Bahama group of Islands, lie between 21° and 22° N. lat. and 71° and 72° 37' W. long.

These islands were discovered by John Ponce deLeon in 1512. It was long contended and with some show of reason, that "Grand Turk" was identical with "Guanahani," the "Landfall" of Columbus on his first voyage, but the claim has been allowed in favour of another island of the Bahama group. The Turks Islands (so called from a peculiar species of cactus, somewhat in the form of a Turk's fez, at one time abounding there,) which consist of Grand Turk, Salt Cay and a few uninhabited Cays, were settled upon by immigrants from Bermuda in 1670, whose custom it was for many years to spend only a portion of the year upon the islands raking salt, returning to Bermuda when the season was over. After various attempts by the French and Spaniards to obtain possession of them it was thought necessary in 1766 to appoint some educated person there to protect the rights of the British Crown and an agent was sent from Nassau for this purpose. Referring to the appointment Mr. Secretary Conway wrote to the Lieutenant Governor of Jamaica as follows:—"The pretence for that violation (seizure of boat by the French) seems to have been that Turks Island was considered as derelict and the people supposed to be out of all protection. To prevent therefore any renewal of such a pretence, idle as it is, and, also for the better means of observing what views other Powers may entertain it has pleased His Majesty to appoint an Agent to reside there and by his residence on the spot to insure the right of the island to His Majesty. A Mr. Andrew Symmer is the person his Majesty has fixed upon for this purpose." By an order in Council dated the 29th June, 1781, sundry regulations were approved of for managing the salinas and for the preservation of order in general amongst the inhabitants.

In 1790 Colonel the Honourable Alexander Murray, second son of the fourth Earl of Dunmore, then Governor of the Bahamas, arrived as the agent of His Majesty, and in 1799, after great opposition from the Bermuda settlers, an act was passed by the Bahama Legislature, which, by its consequence, placed the Turks and Caicos Islands under the Bahama Government, and so they remained, notwithstanding frequent protests, until 1848 when, on the petition of 521 inhabitants of the Turks and Caicos Islands to the House of Assembly of the Bahamas, setting forth the difficulties of communication between Nassau and Turks Islands, a distance of 450 miles, and on account of conflicting interests, Her Majesty was pleased to grant a separate charter to the "Turks Islands and the Islands and Cays commonly known as the Caicos Islands," together with all Cays situate and lying to the eastward of the said Turks and Caicos Islands," which includes the Silver Cays and Banks, 100 miles to the eastward of Turks Islands. Under this charter the Islands enjoyed an elective Legislative Council and a President administering the Government; but this elaborate system was found too burdensome in the face of altered circumstances, caused by the heavy fall in the price of salt, so that a petition was presented to Her Majesty the Queen from the Legislative Council, dated 17th February 1873, praying for the abrogation of the charter. The Imperial Act, 36 Vic., chap. 6, and the Order in Council of the 4th August, 1873, setting forth the terms and conditions on which the Turks and Caicos Islands were annexed to Jamaica was the result of this action on the part of the colonists. Under this new arrangement the Government is administered by a Commissioner, as chief executive officer, who is also President of the Legislative Board. The Legislative Board consists of the President, the Judge of the Supreme Court (who is an *ex officio* member) and not less than two or more than four other members nominated by the Crown. The Governor of Jamaica has a supervising power over the local government and is the medium of communication between the Commissioner and the Colonial Office. The assent of the Governor of Jamaica to the ordinances of the Legislative Board is necessary. Besides this the Legislature of Jamaica has the power to pass laws applying to the Turks and Caicos Islands. The Supreme Court of Judicature of Jamaica has jurisdiction in matrimonial and divorce causes, and has recently been constituted a Court of Appeal from the Supreme Court of the dependency.

Grand Turk is the capital of the group of islands and the Commissioner resides there. The town was described by Sir Henry Norman (in an account of his visit to his depen-

dency of his Government in March, 1884) as "neat and clean and without the appearance of poverty, although the inhabitants complain of depression and ruin." There are in the town several consulates, various stores where most moderate wants can be supplied, a good market place, and a public library and reading room. There are also an Episcopal church, Wesleyan and Baptist chapels, Masonic and other society lodges, a fairly commodious court house, a small prison and a school house.

Grand Turk is 7 miles long and $1\frac{1}{2}$ miles wide. The island of Salt Cay, 9 miles S.W. of Grand Turk, has resident there a Government Officer, who performs the duties of revenue officer and foreman of works. Cockburn Harbour, on South Caicos, is on the west side of the Turks Islands passage about 22 miles due west of Grand Turk, and has also a district Commissioner resident there. Grand Turk and Salt Cay in the Turks Islands group and Cockburn Harbour on South Caicos are the principal ports and salt-producing islands.

There are 231 acres of salt ponds at Grand Turk, 114 at Salt Cay and 248 at Cockburn Harbour. Roughly estimating each acre should yield about 4,000 bushels of salt per annum, but this is dependent upon fine weather. A heavy thunderstorm will upset all calculations. Salt is shipped in bulk in sailing vessels and about 40 bushels to each registered ton is roughly calculated as the quantity carried in a ship. A bushel of coarse salt weighs about 80lbs. and one of ground salt about 95lbs. A lighter, manned by ten men carries from 50 to 70 tons of salt to a vessel in a day, and a ship of 200 tons is by four boats often loaded in one day, which is very quick despatch.

The staple export is salt, which has a good reputation for quality and of which a large quantity is shipped annually to the United States as coarse salt, and a small quantity to British North America as fish or ground salt, for crushing which there are two steam engines at Grand Turk and one at Cockburn Harbour, Aermotor machinery for the same purpose has also been recently put up at Salt Cay. This description of salt brings a higher price than coarse salt.

Sir Henry Norman in the account of his visit above referred to remarked that "at Turks Islands, Salt Cay and Cockburn Harbour, the one anxiety is as to the out-turn of salt and the price at which it can be sold. It is alleged that owing to competition with other places and to a ring in the United States, to which the bulk of the salt goes, the price now obtained is not remunerative. When I was there, "said His Excellency, "6 cents a bushel was being given for 3,000 bushels shipping at Salt Cay. At that price I believe there is some slight profit, but at times only $5\frac{1}{2}$ cents can be obtained. Nevertheless, I believe that the labouring classes at all events are prospering, even if the merchants do not do much more than clear their expenses. A good deal of money must be brought in and expended among those who take the salt and put it on board ship when we find that in a year of depression, as 1883 was considered, 1,705,000 bushels of salt were exported, valued at about £25 000. The total exports indeed were valued at £33,000, some of which no doubt, were goods in transit, but £6,265 was the value of cave-earth deposits. It is also significant to note that with a total population of 5,700 persons there were imports to the value of £24,557. I think these figures conclusively show that the position of the settlement is not as bad as some of the inhabitants would make out."

There are no port charges, but pilotage is compulsory. The light dues are fourpence per ton; they were imposed for the maintenance of a light at Grand Turk which, in the nature of a flashing light, is displayed in a circular iron light-house 60 feet high. The anchorages are open roadsteads about a quarter of a mile from the shore on the leeside of the several islands and are safe in ordinary weather.

There is no direct taxation. The revenue is mainly derived from the import duties, levied according to a tariff, which was revised in 1905, and from the royalty on salt. This royalty paid on shipment, is at the rate of 10 per cent. on the market value, at present 3d. a bushel, and should yield annually about £2,500. This royalty is in lieu of rent formerly charged for the salinas, for which titles in fee simple were granted in 1862 on condition of the payment of such a royalty, which, up to 1874, was kept separate from the general revenue of the colony and was known as the crown fund. By recent legislation the larger part of the royalty collected in any year is refunded in the year following by way of grants to be expended in labour in the Salinas. £1,970 was so refunded in 1914.

According to the census of 1911 the population of Grand Turk comprised 169 whites, 1,512 coloured persons and blacks; and at Salt Cay there were 14 whites, 384 coloured and blacks. In the Caicos Islands, comprising South Caicos (in which Cockburn Harbour is situate) East Caicos, Grand Caicos, North Caicos, Providence, Caicos and West Caicos, there were 103 white persons, and 3,433 coloured and blacks. The population of the dependency is 5,615.

"The people in the Caicos Islands," says Sir Henry Norman, "are for the most part negroes. It is understood that they are principally the descendants of slaves brought over by loyalist refugees from Georgia after the declaration of their independence by the United States. These loyalist settlers constructed substantial stone houses and made roads, traces of which still remain. They had horses and cattle and raised crops, but the settlers themselves have long since disappeared. It is believed that some insects destroyed their crops and that this led to their departure. The blacks who remained lapsed into something little short of savagery and the islands became overgrown with bush. It is only of late years that efforts have been made to improve the condition of these people and to encourage them to undertake agricultural operations in a systematic manner. As yet not much progress has been made and education is lamentably backward, but attention having been once directed to these people it is to be hoped that continuous efforts will be made to raise them in the social scale and to put them in the way of adding to their material comforts."

The sea surrounding these small islands or cays on the Caicos Group contains fields of sponge of different varieties. The "sponging" as it is called, is carried on by two parties who have establishments on outlying cays of North Caicos. The sponges when gathered by the different boats engaged in the pursuit are dried, assorted and baled on the cays and sent to Grand Turk, from whence they are shipped to New York. The business has proved a profitable one and affords work to the natives at fair wages.

Here also is the home of the conch from which is obtained the valuable pink pearl. Prices run high even in the local market for this gem and one successful find may raise the lucky "Caiconian" to a boat of his own—the usual summit of his ambition. But of course for one "find" thousands of conchs have, in local parlance, to be "dove" for. The expenditure of labour is not however wasted, for the conch is a universal article of diet among them and when "curried" is not to be despised even by more educated palates.

Since 1890, attention has been given to the cultivation of the pita or sisal plant and companies for this purpose have been formed, which have plantations at West Caicos, and Breezy Point, East Caicos.

There are four places of worship of the Church of England and the same number of the Wesleyan denomination with eleven belonging to the Baptist. There are ten government elementary schools, and a public grant is made of £600 a year in support of them.

A public library is maintained at Grand Turk partly by Government help and is located in a building erected partly by public subscription, in commemoration of Queen Victoria's Jubilee. There is a Masonic Lodge in good standing, one Good Templars Lodge in working order, which have proved of great benefit, and several Mutual Relief Societies, also doing good work. These institutions are signs that though isolated, the people are not much behind those of more favoured places in their desire for mutual improvement.

There is no drinking water fit for human consumption in Turks Islands except rain water, and arrangements are made by the Government and by private individuals for collecting and storing it. There are several public tanks at Grand Turk capable of containing 230,000 gallons, one of which is built in the side of a hillock of rock from the top of which it derives its catch. There are also a few "springs" of water which are generally fresh enough for cattle and for washing purposes, but after a drought for any period the water gets too brackish for use.

Fresh meat and vegetables are scarce, but the supply of fish of all sorts is plentiful, except in rough weather. Poultry can generally be procured but of small size. The want of fresh provisions make a residence to Europeans for any length of time very trying, but the climate is healthy. While a hurricane which passed over the islands on the 21st of August, 1891, did little damage to property, that of September 1908 did damage to the extent of £13,000.

Clyde's steamers from New York touch at Grand Turk fortnightly on their trips to and

from San Domingo. Regular postal communication with Halifax and Jamaica is maintained by means of a steamer of Messrs. Pickford and Black's Line which is subsidized for the purpose and makes monthly trips, calling at Grand Turk each way.

Grand Turk is connected with Jamaica and the West Indies and with the United States, Canada and Europe by Direct Cable.

THE CAYMAN ISLANDS.

THE Cayman Islands, forming part of the colony of Jamaica and consisting of Grand Cayman, Little Cayman and Cayman Brac, are between the meridians of 79° 38' and 81° 30' W., and the parallels of 19° 16' and 19° 45' N. They were discovered by Columbus on May 10, 1503, on his return voyage from Porto Bello to Hispanolia (Hayti) and were named by him Las Tortugas, on account of the turtle with which the coast was swarmed. The present name is supposed to be derived from "Caiman"—the alligator—which animal abounded on the islands of Cayman Brac and Little Cayman, and even is now frequently caught there. The Lesser Islands were the first discovered and inhabited, Grand Cayman getting its name from the Lesser Caymans. Alligators were never seen on the largest island, Grand Cayman.

The prefixes "Grand" and "Little" sufficiently explain themselves, but the word "Brac" is not so easy. Cayman Brac is characterized by a large ridge of rock called the Bluff running down its eastern side, and it is from this the island gets its name Brac meaning a ridge or bluff.

Grand Cayman, which is the largest of the three islands, is distant W.N.W. from Negril, Point 178 miles. It is 17 miles in greatest length east and west, 4 miles in breadth at the east end, and 7 miles at the west. The coast is in some parts bold and rock-bound but with no elevation exceeding 40 feet; the eastern and most of the northern shores are protected by coral reefs enclosing harbours of considerable size but of moderate depth, the entrances to which are however too narrow and intricate to admit other than small vessels. One of these harbours, the Great Sound, on the north, measures over 6 miles across. The usual anchorage for large vessels at Grand Cayman is off Georgetown, the capital of the islands; but during a "norther" vessels have to shift their berths. Land fetches from £5 to £15 an acre in Georgetown: in the country about £2.

The island is well wooded and produces dyewoods and mahogany, cedar and other timber. The palm thatch grows in abundance, and the opened leaves furnish an excellent thatch much in use, while from the fibre of the unopened "tops" ropes, fishing lines, hats, baskets, fans, and sieves are made.

The products of the soil are similar to those of Jamaica, as are its flora and fauna. There are, however, some orchids not found elsewhere. Parrots are plentiful. There is good pasturage, principally Guinea grass; and horses, cattle, pigs, poultry, &c., are reared in sufficient numbers to meet local demand and to provide an export trade to Cuba and elsewhere occasionally. Cattle and ponies fetch from £4 to £5 a piece; goats 5s. to 10s. Poultry from 3d. to 4½d. a lb. Rabbits brought from Nicaragua have become thoroughly acclimatized, and run wild.

Phosphate deposits of considerable value exist but they have not been worked for some time.

Fish is not plentiful, but is usually sold at 2d. per lb. in Georgetown, 1½d. in Bodden town and 1d. at East End. Pink pearls are found. The principal occupation of the men is going to sea either as sailors on cargo vessels or on turtlers. There are no manufactures. Many go to the southern States of America and work there, sending home part of their earnings. Shipbuilding finds employment for a few in Georgetown and Cayman Brac. Among natural curiosities of the islands are a cave at Bodden Town which extends some hundreds of yards under the sea, and a natural cistern stated to be from 40 to 42 feet deep, containing clear sweet spring water, at East End. This cistern measures about 70 feet long and 50 feet wide, and is situated in the middle of a cliff of solid flint rock. It is said that on the approach of a storm the water assumes a turbid milky appearance and emits offensive smells. There is also a cave on the north side of the island, about 1½ miles inland from Old Man's Bay, containing wide subterranean passages.

The Cayman Islands were, as hidden treasure discovered from time to time shows, at one time the rendezvous of buccaneers, who preyed upon passing ships, which they boarded at night, far from shore in large armed boats called piraguas. These marauders protected themselves against attack by means of heavy guns mounted upon the rocky shore within the coral reefs, where they could only be approached in boats. On finding the islands untenable, owing to the occasional presence of ships of war, the buccaneers escaped to America in their boats and landed on the shores of the Mississippi.

Between the years 1734 and 1741 Grand Cayman was formally colonized, and the following patents of land in the island are on record in the Island Record Office in Jamaica.

3,000 acres to Danl. Campbell, John Middleton and Mary Campbell, dated 7th September, 1734, including most of the land on the north, binding on the Great Sound.

1,000 acres to Mrs. Mary Bodden, dated 6th January, 1741, probably the site of the present Bodden Town.

1,000 acres to William Foster, dated 28th November, 1741, the site of the present George Town, capital of the island.

1,000 acres to Murray Crymble, dated 28th November, 1741, locality uncertain.

1,000 acres to Saml. Spofforth, dated 28th November, 1741, locality uncertain. The names of Campbell and Middleton are now extinct. Murray Crymble was Receiver-General of Jamaica.

To some extent the present inhabitants are descended from the settlers under these patents and their servants, as each patentee was compelled to carry with him a certain number of white men besides slaves. According to Long there were in 1774 one hundred and six white persons on the island; they had a "Chief or Governor of their own choosing and Magistrates appointed by the Governor of Jamaica, and conducted their own affairs."

The destiny of the Cayman Islands has been in the hands of various officers.

The population in June 1911 was 5,564 (2,322 white, 2,211 coloured and 1,031 black). The chief industry is turtle catching on the banks, reefs and bars lying for several miles beyond the Mosquito Shore. Just now the fishing rights are the subject of dispute with Nicaragua and are in course of settlement by diplomatic means. Meanwhile certain places in dispute are placed 'out of bounds' for the fishermen and much distress is the result to the island in general.

The turtle when caught are "crawled" at a convenient place in the locality of the fishing grounds and sold to the agents of foreign dealers.

The foregoing applies to green turtle the delight of lord mayors and aldermen; but a considerable trade is done in the shell of the hawk's bill turtle, which is valuable. When this species is caught it is summarily deprived of its armour. Its flesh is poor. Another turtle, the "loggerhead," is also poor eating, but portions of what in the trade is called "skin" are dried in the sun and exported.

The chief towns or hamlets of Grand Cayman are Georgetown, the capital, Bodden Town, West Bay, Prospect and East End; and there are several other villages of more or less importance; these settlements are all on the sea coast. There is a Presbyterian church, a court house, including public offices, a school house and a prison (a very inferior building) at Georgetown. There are chapels belonging to the Presbyterian church at Bodden Town, West Bay, and East End. There are also court houses and gaols in the other districts.

In addition to the turtle industry, about 1,700 cattle and 300 horsekind are reared. Rope made from the thatch palm is exported. A turtle canning factory has been established in Georgetown, the annual output of which will amount approximately to 4,000 cases, each case containing 24 tins of canned meat.

For judicial purposes the island is divided into six districts, and petty courts and petty sessions courts are held periodically and as occasion requires. The Grand Court is held semi-annually at Georgetown in June and December. At this Court the Commissioner presides. There is an appeal from the latter court to the Supreme Court of Jamaica.

The revenue arises from import duties, a poll tax, a tax on schooners and canoes, anchorage dues from transient vessels, and a tax on cattle and horses.

The taxation is of an extremely mild character. There is no house or land tax.

Irregular postal communication exists between Grand Cayman and Jamaica. The Cayman Islands have been admitted into the Postal Union and issue stamps of their own to the values of ¼d., ½d., 1d., 2d., 3d., 4d., 6d., 1s., 5s., and 10s.

There are post offices at Georgetown, Boddentown, Cayman Brac, West Bay and Gun Bay, but the bulk of the postal business is done at Georgetown.

The mails are despatched and received at irregular intervals to and from Jamaica by sailing vessels and irregularly from the Southern States of America.

A money order system is in operation under convention with the Jamaica Post Office and is availed of to a large extent, the principal business being with the United States of America.

The climate of Grand Cayman is warm in the summer. In the autumn, winter and spring, say from November to March, it is refreshingly cool, at times quite cold. There are cases of malaria occurring from time to time and digestive troubles traceable to starch food, but taking it all round the island is very healthy. 43.84 inches of rain fell in 1913-1914.

There is no pauper-roll, and little actual poverty. A feature in the domestic economy of the Island is that each family has its own homestead. A rented house is practically unknown.

The tidiness of the homesteads is a matter of remark by strangers visiting the island, Georgetown has been a port of registry since 1903, and there were 8 vessels registered with an aggregate tonnage of 307 in 1914.

Education has been neglected in the past but it is hoped that a system of free and compulsory education will be established in the near future. Schools are provided by the Government at West Bay, Prospect, Boddentown, East End and Northside (the school at Georgetown is the property of the Presbyterian Church). Teachers receive 5s. per annum capitation grant, and with a very few exceptions, the parents pay the school fees for their children. There are also a few small private schools receiving no aid from the Government. There are very few children who do not attend school where schools are provided.

Of the smaller Cayman Islands Little Cayman is 9 miles long in an E.N.E. and W.S.W. direction and about a mile broad; and Cayman Brac is 10 miles long E.N.E. and W.S.W. and about one mile in breadth. They lie in a north-easterly direction from East End, Grand Cayman, from which they are distant about 58 miles. The two islands are separated by a channel about seven miles wide and are consequently within sight of each other.

It is estimated that there is a population of about 1,000 persons in Cayman Brac and Little Cayman. These Islands are prosperous, owing to the large coco-nut gardens in existence. The annual export of coco-nuts is considerable.

In both places there are chapels connected with the Baptist denomination.

There are many vessels built here and the same may be said of Grand Cayman mainly out of native woods, such as mahogany, pempero, &c., and the builders are really masters of their craft and proud of their reputation. The vessels not built specially for local trade are taken over to Cuba and Central America, and find ready sale.

Three "lights" are supported by the Government, one at Georgetown and another at East End, Grand Cayman, the third being at Stakes Bay, Cayman Brac.

The affairs of the Cayman Islands are managed by a body styled the "Justices and Vestry" composed of magistrates appointed by the Governor of Jamaica and elected vestrymen. The enactments of this body become law when assented to by the Governor of Jamaica, whose power in this and other respects is defined by the Imperial Act 26 and 27 Vic., cap. 31.

Small plantations of Sisal and Sugar Cane have been laid out in Grand Cayman, which if successful should find employment for a portion of the pradial population.

Under the provisions of law 24 of 1898, the Governor of Jamaica has power to appoint a Commissioner for the Cayman Islands, at a salary of not exceeding £300. The Commissioner, in addition to being the Chief Executive Officer, performs the duties heretofore assigned to the Collector General and Treasurer of the Islands, respectively, and the appointment annuls the existence of the office of Custos of the Islands.

For judicial purposes the Commissioner has, when sitting alone in the Grand Court, the powers of three Justices, and in the Petty Sessions and Petty Courts, the power of two Justices.

There are Customs offices at Georgetown, East End and Cayman Brac.

Georgetown and Cayman Brac are the principal ports of entry. There is an *ad valorem* duty of 5 per cent. on everything imported into the dependency with the following extra duties on:

Beer 4½d. per gallon, Spirits 6s. per gallon, Wines and Bay Rum 1s. 6d. per gallon. The following is the value of the Imports during the last three years, 1912-13, £20,000; 1913-14, £17,401; 1914-15, £17,346.

Coco-nuts, pay 1s. per thousand export duty. There is no other export duty.

Internal Taxation.

Poll Tax (on all males between 18 and 60)	6s.
Horses, Cattle, Asses, Mules	9d.
Dogs	6d.
Sailing Vessels under 50 tons	5s. 0d.
“ “ 100 “	7s. 6d.
“ “ over 100 “	10s. 0d.
Boats and Canoes	6d.

Sums received from Internal Taxation:

1911-12, £301 16s. 9d.; 1912-13 £310. 1913-14. £280. 1914-15, £372.

Licenses—Spirit licenses only are issued. £10 per annum. Beer, wines and tobacco may be sold without a license.

The chief *Imports* are food stuffs, sugar, flour, rice and canned goods, also dry goods, the majority coming via Jamaica from the United States of America. Very little is imported from the United Kingdom, owing presumably to the expensive freight and length of time elapsing between the order and delivery.

Lumber is imported in large quantities direct from the United States for house and ship-building.

The chief *exports* are:

Canned Turtle, hawk's bill, turtle-shell, rope, cattle and horses, dried skins, log-wood, coco-nuts, conch pearls, conch shells.

The total value of the exports in 1913-14 was £4,168.

The great discrepancy between the value of Imports and Exports is due to the fact that many of the schooners built in the dependency are taken abroad and sold, their value not being included in these returns.

THE MORANT CAYS AND PEDRO CAYS.

THE Morant Cays and the Pedro Cays were taken possession of on behalf of the British Crown in the years 1862 and 1863, respectively, and it was at first intended that they should be annexed to Jamaica. It was, however, subsequently decided not to annex these cays to any colony but to give the Governor of Jamaica power to “deal with” all guano islands or cays within the West Indian naval station which were not already dependencies of any British Colony and which were, or might be, declared to be subject to British Sovereignty. Accordingly letters patent were issued in June, 1864, authorising the Governor of Jamaica to grant leases of and licenses to take guano from such islands. Leases have under this authority from time to time been granted by the Governor of Jamaica to different persons. In 1906 the Morant Cays were leased for seven years to Captain S. E. Bodden, and the Pedro Cays for seven years to Captain John Greenwood.

The original intention was later carried out, and by letters patent under the Great Seal of the United Kingdom these Cays have been formally annexed to the Colony of Jamaica, so as to give the Governor, Courts of Law and Magistrates full jurisdiction

over them, and the then Governor, Sir Anthony Musgrave, on the 9th of May, 1882 under the authority of those Letters Patent, issued a Proclamation declaring that the date of annexation should be the 1st of June, 1882. For judicial purposes these cays form part of the parish of Kingston.

The Morant Cays are situated about 33 miles to the southeast of Morant Point, Jamaica and consist of three small islets. The sea birds arrive at these cays in great numbers during March, and in April the islets are covered with their eggs, which are collected and conveyed in schooners to Jamaica; later in the summer turtle are caught but the supply is becoming scarcer every year.

The Pedro Cays are situated some 40 or 50 miles to the S.W. of Portland Point on the south coast of Jamaica and consist of four Cays or islets, known, respectively, as North-east, Middle, South-west and South Cays. Temporary huts have been erected on these cays and coco-nut trees have been planted on the N.E. and S.W. Cays.

PLAGUE, CHOLERA AND YELLOW FEVER.

TO CAPTAINS OF VESSELS.

Instructions particularly when there is no doctor on board, to enable them to carry out the provisions of the International Sanitary Convention signed at Paris on 3rd December, 1903, with respect to Plague, Cholera and Yellow Fever.

GENERAL RULES TO BE ADOPTED BY VESSELS.

PRIOR to taking in cargo or embarking passengers at infected or suspected ports, ships should have clean holds, fore-castle and steerage, and the bilges and lumbers be free from odour or deposit. The water supply should be above suspicion (especially in cholera infected ports) and in such the drinking water should be boiled and all food should be protected against flies, etc. At places where plague prevails every precaution must be taken against rats, mice, and vermin of all kind. At such ports the vessel should, if possible, lie off in the stream or harbour when not taking in cargo or ballast. When moored alongside wharves or in dock, all ropes used for moorings should be provided with suitable rat-guards, and the chain cables should be tarred from the hawse pipe to the water's edge. Similar precautions to be used when lighters are alongside, which latter should haul off at sun set and not come alongside until after sunrise (or when working hour commences). Where yellow fever prevails measures against the introduction of mosquitoes should be taken. Water tanks, barrels and other collections of water aboard the vessel shall be guarded, so as not to become breeding places for mosquitoes; and all such found on board shall be destroyed. At such infected places, communication with the shore should be reduced to a minimum, and sleeping on shore at night prohibited. Earth, loam, sand, street-sweepings or organic refuse should be refused as ballast. Passengers should not be shipped from an infected port if there is no Medical Officer on board nor should any crew be shipped either unless certified after *medical* examination as free from any symptoms of disease.

REQUIREMENTS WHILST AT SEA.

The "heads" latrines, water-closets, etc., and all places liable to harbour infection should be kept rigorously clean by frequent flushing and occasional disinfection. The bilge water should be pumped out and a strong solution of carbolic acid (one in twenty) or chloride of lime (Burnett's fluid) or other disinfecting fluid poured in. Free ventilation and cleanliness should be maintained in all portions of the ship during the voyage, and measures taken to destroy rats, mosquitoes and all vermin. If a case of sickness occurs among passengers or crew with symptoms suggestive of any of the three diseases to be described later on, it should be isolated without delay, and a member of the crew be detailed for his care—a volunteer among the passengers if the sick person is a passenger, or a ship-mate, if one of the ships company is ill, is preferable. Communications between patient or nurse and others should be reduced to a minimum. The compartment from whence sick person is removed should be disinfected and used clothes or bedding of nurse or patient should be immersed in disinfecting solution and boiling water poured on them. Yellow Fever patients should be placed under a mosquito net if such is available.

FORMULA FOR DISINFECTING SOLUTIONS.

No. I. Bichloride of Mercury (1-500) No. I.			
Bichloride of Mercury or corrosive sublimate	..	one part.	
Sea water	..	500 parts.	
No. II. Carbolic Acid 5 per cent. No. II.			
Alcohol (spts. of wine)	..	50 parts.	
	mix.		
Carbolic acid, pure	..	50 parts.	
Add fresh water	..	900 parts.	

These solutions can be strengthened or weakened according as required.

The following methods of disinfection are given by way of a guide:—

Old, useless or badly soiled personal clothing, rags, infected dressings, papers and articles of no value (contaminated) should be burnt. Personal effects, mattresses bedding (infected) can be efficiently disinfected, either by a high pressure steam disinfecting chamber at a temp. of 100c., or by exposure to formal vapours. Articles such as coverlets and bed linen, etc., that can be steeped in anti-septic solutions without damage, can be disinfected by the No. I. or II. solutions. The period of contact must be from 4 to 6 hours.

To destroy rats or vermin, etc., various processes are recommended; the simplest and perhaps the most effective is by generating sulphur dioxide gas by burning sulphur powder in an iron pot or Dutch oven standing in a bucket or tin dish containing a couple of pints of water, four lbs. of sulphur to 1000 cubic feet of space is required, and the sulphur is best ignited by lighting the two or three oz. of spirits of wine or methylated spirits poured into a cone-shaped depression made in the middle of the sulphur powder in the pot when in position in the hold or compartment, care being taken to place it in a safe place away from any ignitable material and if possible on an iron disk or sheet of iron. The holds, fore-castle, cabins, lavatories, w.c., etc., etc., to be kept closed during the process of fumigation for at least four hours. It is desirable to remove all leather articles, steel and silver or plated goods, mirrors, etc., from such places during the process of fumigation.

If rats are dying in large numbers, they should be thrown over board care being taken to use a pair of tongs or other implement as hand contact is dangerous. Every effort should be made to catch or destroy the vermin and rid the ship of them.

SYNOPSIS OF SYMPTOMS OF THE THREE DISEASES AND THEIR TREATMENT.

Cholera.

Incubation period said to be two or three days, sometimes less. First symptoms are: Diarrhœa with griping pain, "singing" or noises in the ear, a feeling of exhaustion and "sinking" with nausea and vomiting. Patient has anxious and pallid expression; soon diarrhœa becomes profuse and watery like whey or like water in which rice has been boiled, described as "rice water stools." The vomited fluid is of the same character. Soon cramps are complained of, at first in the feet then calves, sometimes in thigh, hands, chest and abdomen of an agonizing character. This is followed by collapse which appears in 6 to 8 hours. The surface of body becomes cold, livid and shrunken, absence of pulse at wrist, features have leaden hue and eyeballs are buried in their sockets; skin is often covered with profuse sweat. There is acute lassitude, apathy and suppression of urine. The disease terminates fatally in 12 hours, sometimes life lasts 24 hours or longer.

Treatment.—An early hypodermic injection of hydrochlorate of morphia $\frac{1}{4}$ or $\frac{1}{2}$ grain by inducing rest and sleep is recommended: water in moderate quantities at a time should be frequently given: weak fresh lemonade has been recommended. The burning sensation felt at epigastrium may be relieved by a mustard plaster: cramps are sometimes relieved by a strong stimulating liniment of Belladonna or chloroform with "Opodeldoc" (soap liniment) rubbed in vigorously with the hand. Stimulants in small quantities with effervescing drinks have been found useful: preparations of opium should be given guardedly and sparingly as they are liable to accumulate and if repeated in too large quantities may produce ill after effects: rest and sleep are the sheet anchors of treatment: during the reaction and convalescence the greatest care is required in dieting patient: if liquid nourishment induces vomiting the nourishment must be given by the rectum (small quantities of beef tea or chicken broth and a teaspoonful or two of brandy). Hot water bottles covered with flannel to be applied to body, etc.

Plague.

There are two varieties of plague: (a) Bubonic (b) Pneumonic. There are also minor forms. The period of incubation varies from 3 to 7 days. The onset is frequently sudden but there is generally a period of from 24 to 48 hours before the characteristic symptoms appear, during which time headache, weakness, vertigo and vomiting are present, also chills and fever. The next stage or bubo formation is associated with staggering gait, tremulous speech and restlessness; temp. 104 or over, pulse full 120 or more. The countenance presents an anxious, drawn, pallid appearance. Bubos or glandular swellings painful and tender to the touch rapidly develop in the groins, arm-pits, or neck. As the bubos enlarge the temp. falls as a rule 2 or 3 degrees also the pulse rate. This occurs on or about the 3rd day of the disease. The patient appears relieved, but invariably this is misleading: the fever again sets in and continues between 103 and 105 for about a week during which time the bubos become fully develop and soon are "ripe," or matter is formed in them, this occurs about the 10th day. The disease now assumes a more hopeful stage and becomes more a local than a constitutional one; but it is also a critical period as it is associated with heart failure and great debility, the patient requiring extra careful nursing, as well as stimulants and nourishing food of a suitable character. Convalescence is slow and liable to complication.

The Pneumonic variety of plague is generally very rapidly fatal in 3 or 4 days and there may be no bubonic enlargement or only very partial. It commences with rigors (shiverings), high temperature, pains in the limbs, headache, chest pain, cough (not always present), difficulty and accelerated breathing and delirium a very marked symptom, ending in coma and death. Expectoration blood stained and viscid, later it becomes watery and sometimes pure blood flows from mouth. Very few cases recover. This variety is said not to occur more than in a ratio of 3 per cent.

The treatment in ordinary bubonic plague is: abundance of fresh air, strength to be sustained by suitable nourishing food and stimulants. patient to be kept lying down for a long period during convalescence, rest and sleep being the great factors as accessory to food. The open bubos are to be carefully dressed twice a day, the dressing to be thrown overboard when ship is at sea, if in a roadstead to be destroyed by fire.

Yellow Fever.

This fever has, as a rule, a very quick onset. The first symptoms are headache general (malaise) discomfort and febrile disturbance. The temperature rises to 103 F. or 104 or more; the eyes assume an infected or "ferrety" appearance, face becomes flushed, soon severe backache (lumbar) is complained of, the stomach becomes irritable and everything is vomited (and with considerable violence as a rule); the epigastrium (or pit of stomach) is tender on pressure. The gums may be swollen and inclined to bleed, as well as slight bleeding from the nose—a symptom of much diagnostic value (at this stage). Constipation is the rule, and urine is scant and as a rule high coloured. About the 3rd day of the fever, a "lull" occurs, and patient and inexperienced attendant or nurse are sanguine that the sickness is about to abate. There is about then noticed commencing jaundice or yellow discolouration of the white of eye and skin (if a white subject) which increases in intensity; soon bleeding from the nose, gums, and "black vomit" set in—the urine has for some time become albuminous (if about a tablespoonful of the patient's urine is gradually boiled in a glass tube over a lighted spirit lamp to which 3 or 4 drops of pure nitric acid have been added, a deposit of what resembles curdled milk will be seen in the fluid urine, this is with the others already mentioned, an unvarying symptom of yellow fever.

Treatment—On suspecting the case to be one of Yellow Fever patient should be isolated in an airy apartment, if in the tropics in the open air, under an awning and with a mosquito net over patient day and night. All mosquitoes should be destroyed as far as practicable. Patient should get a full dose of castor oil to commence with, and small doses of calomel and Bi-carbonate of potash in powders gr. one of the former and five of the latter 4 or 5 times a day, or if the vomiting is excessive and continuous, the calomel alone placed on the tongue and wash down by a couple of tablespoons of iced (or cold water). A good way to get the calomel powders would be to weigh 12 grains of calomel and divide it into a dozen powders. The patient will require careful nursing and stimulants are pretty sure to be necessary. Iced hock, champagne or good French brandy and soda water in small doses are the best. The bowels will have to be moved by enemata if necessary, or salines if they can be retained on the stomach. Diet: milk, egg-flip chicken tea and bovril are indicated.

The Walton, or Rio Ho, Lake appeared in St. Ann, owing to the heavy rainfall.

The Sugar Commission reported to the Governor.

The Legislative Council met on 7th March. The Governor's opening address expressed the hope that the vast measure in the Allied preparations for the offensive would see during the year a victorious advance by the Allied Powers.

Serious rain storms had occurred in the Island resulting in great damage to Roads and Bridges, and the necessity for heavy expenditure for repairs.

The deficit of Revenue for 1915-16 was estimated at £61,923. The estimated deficit for 1916-17 was £115,562, a total of £177,485.

This was due to war, hurricane and flood rains.

A reduction of Revenue had been caused principally by the dearth of shipping affecting the volume of imports. Efforts would be made to remedy this by the Imperial Government.

Permanent provision should be made for the liabilities which the Colony had loyally undertaken for contributions of men to aid the great cause and to meet the expenditure incurred during the current year and also the expenditure estimated for the year 1916-17.

Proposals would be made for raising extra revenue to meet this expenditure by increased taxation. Among these proposals were an Export Tax on the chief items of the Colony's products a method which should only be invoked in very exceptional circumstances. He believed he was right in saying that the industries concerned were not likely to be adversely affected, and this source of revenue had been called upon to aid falling revenues in the Empire generally.

Land tax would be increased from 8d. to 1/.

A Customs Surtax of 10 per cent. would be imposed on the existing tax of 10½ per cent.

Flour would be excluded from this increased burden and the surtax would be increased to 20 per cent. on imported wines and spirits and a special surtax would be levied on imported cigars, cigarettes and tobacco.

A surtax of ten per cent. on all licenses would be proposed and a surtax of 10 per cent. on Excise duties except on cigars which would bear a higher rate and cigarettes which would bear a surtax of 5d. per 100. Sugar would pay an Excise duty of 7/6 per ton. Logwood Extract would pay an Excise duty equivalent to 3/ per ton on logwood.

There would be a temporary abolition of the Free List except in certain articles such as Government Importations and certain articles under Law 21 of 1911.

His Excellency further indicated that Stamp Duties would be increased and the scale extended. Estate duties would be increased. Postages and Telegrams, Money and Postal Orders would also bear their share.

Various other sources of revenue would be tapped.

The increased income from these sources was estimated at £180,250.

For the most part it was proposed that these taxes should only be in existence for the financial year 1916-17.

They would remember that he addressed to Members of the Council last year a letter in which he set forth the proposals for the sending to the Mother Country a Contingent from the Island of Jamaica to assist the Empire in the prosecution of the Great War; and he received a unanimous reply accepting these proposals.

Briefly, the Island of Jamaica was prepared to finance its Contingents up to a total of a sum representing an annual charge for interest and sinking fund of £60,000 per annum for 40 years. This undertaking might be assumed to represent a capital expenditure up to £1,000,000, or a capital expenditure on account of recruiting plus the capitalised expenditure on account of separation allowances and disability gratuities and pensions amounting to £1,000,000.

It was evident that it was desirable to set on one side as earmarked to meet this annual charge, certain items of the new sources of Revenue, which would enable the Colony to meet such charges without trenching upon its normal expenditure as required for development and for the maintenance of the usual services; this, however, did not preclude the elimination, entire or partial, of these imposts if, and when more prosperous conditions returned and expanding Revenues permitted of this course.

The increases which it was proposed to recommend as permanent were as follows:—

The land tax increase bringing in	£16,000 p.a.
Stamp duties	7,000 "
Estate Duty	7,500 "
Post Office & Telegraphs increase bringing in	10,100 "
Certain articles on the Free List to be permanently removed from that list bringing in	14,900 "
Certain articles hitherto exempted by Privy Council bringing in	3,400 "
Totalling	£58,900

Our burden of taxation was but light compared with that of the Mother Country upon whose shoulders would fall the heaviest load for many years to come.

In our case it was mainly our own necessities born of our misfortunes which accounted for the greater part of what was but mostly a temporary load of increased taxation.

Therefore in commending this matter to them he felt that he was right in asking them to bear this point in mind, there have been sent to the United Kingdom over 3,000 men to form Jamaica's Contingents for the British West Indies Regiment over three battalions practically complete with officers had left the Island. A fourth battalion would shortly proceed, leaving about 1,000 of the 5,000 for which we pledged for the year 1916-17 to be sent.

The Central Recruiting Committee and the Parochial Recruiting Committees had made easy what appeared at first sight to be an undertaking of considerable difficulty and complexity. Of all the West Indies Jamaica stood out foremost in the aid that it had furnished at this crisis, and that would be a proud memory for generations to come.

He could not allow that occasion to pass without again expressing admiration and appreciation of all those who had worked for, and who had contributed to all the various funds raised for the War. "A continuous stream of presents and contributions for the troops had been poured out."

The Council adjourned on 30th March *sine die* and resumed on 26th September and adjourned again *sine die* on 4th October.

On the resumption of the Session on 26th September, the Governor stated that he had called the Council together to consider certain proposals in regard to the hurricane of 15th August and set before them the conditions arising from this disaster in which 16 lives were lost, 12 of which were due to drowning at sea.

The Governor presented a statement of the condition of the Island Finances to that date.

The deficit for the year 1915-16 of £61,923 had become an actual surplus of £10,730. Additional taxation brought in £19,975 and general improvement in trade which resulted in increased revenue brought up the increased receipts to £61,426. There had also been a saving in expenditure over that estimated of £11,428.

During the session 41 Bills were passed into Law of which the most important were: Law 1. to impose a temporary War duty on Certain Exports. Export duties are placed on Cocoa, Coconuts, Hides, Logwood, Logwood Extracts, Rum and Sugar.

Law 2. to Impose an Excise Duty on Certain Sugar used in the Island. Imposes an Excise duty of 7/6 per ton on all sugar sold from a sugar estate and prescribes the returns required to be kept and made.

Law 3. to Increase the Import Duties imposed by Tariff Law 1911 and its Amendments and to remove certain articles from the Free List. Increases Advalorem Duties to 16½ per cent.

30 articles are removed from the Free List also certain horses and live stock.

Law 5, to Increase the Tax under the Property Tax Law 15, 1903. The Tax levied except in Kingston is 1/ in every £10 of value. Kingston pays 8d.

Law 6. to Impose a Surtax of Ten per cent. on Certain Licenses, adds 10 per cent. to the cost of licenses generally.

Law 7. increases Stamp Duties by a new amended schedule.

Law 8 imposes a special War Tax on certain postal matter. Letters and postcards to United Kingdom and British Colonies and Dominions one half-penny. Parcel Post Packets 3d.

Parcel Post Packets to United Kingdom and British Colonies and Possessions except to Army and Navy 3d.

Law 13 increases certain Duties of Excise, viz rum, beer, cigars, cigarettes and tobacco.

Law 14 to further amend Law 21 of 1911 entitled a Law to Consolidate and Amend the Laws relating to Duties on Imports, increases duties on Cement, Condensed Milk Galvanized Iron, Photographic Apparatus and Chemicals.

Law 19. A Law regulating recruiting for the British West Indies Regiment.

Law 21. The Estate Duty Law, a most important Law and one which has excited much controversy and opposition, largely increases the duties on property passing on death and fixes the methods of assessment on collection. It is largely based on the English Statute and enacts a schedule or table of Estate Duty payable in a sliding scale from 3 per cent. on values of £100 to 20 per cent. on estates valued at £500,000 and upwards.

Laws 22 and 23 are Laws to facilitate the Customs in dealing with the Exportation and Importation of foods which are specially affected by prohibitions due to a state of war.

Law 25 inflicts penalties for Trading with the Enemy.

Law 29 provides for the winding up of the business and affairs of Alien Enemies and sets forth the machinery for appointing Liquidators, their rights, and powers, and enabling the Governor to make regulations having the effect of Law and fixes penalties.

Law 41 repeals the previous Act, Law 29 (see above) and re-enacts its provisions in different form, reserving to the Governor the power to grant certificates empowering the Liquidators to wind up Enemy Concerns and places the onus of proof that the trade is not an Enemy trade upon the persons so stating. The Law defines the power and authority of the Liquidators, provides penalties and gives power to the Governor to make regulations having the force of law.

ROLL OF HONOUR.

MEN OF JAMAICA WHO HAVE LAID DOWN THEIR LIVES FOR THE EMPIRE.

Commissioned Officers.

Edward Leicester Stuart Astwood, 2nd Lieut., 26th (S) Battalion Royal Fusiliers (Bankers), son of E. W. Astwood of the Colonial Treasury, Jamaica, and of Agnes Astwood, was born in St. Andrew, Jamaica; he was educated first at the Jamaica College and afterwards at the Oundle School, Northamptonshire, England—Engineering side. He returned to Jamaica and was employed in the Engineering Branch of the Jamaica Government Railway for a period of about 3 years. On the outbreak of War he resigned his position and proceeded to England to offer his services to the War Office, and having had the advantage of some previous military training in the Officers' Training Corps of Oundle School he was gazetted to a Commission in the 14th Reserve Battalion of the Royal Fusiliers at Shoreham. He rapidly acquired efficiency and was shortly after this appointed a Musketry Instructor and ordered to join the 26th (Service) Battalion of the same Regiment at Aldershot. This Battalion proceeded to France in May, 1916, on which occasion he acted as Adjutant to the advance Section, and after several attacks at the front in which he displayed much courage he fell mortally wounded in the great advance of September 15th, 1916, whilst working a Lewis Machine Gun very near the enemy trenches at a point to the north of Flers. He was rescued by his devoted friend and loyal comrade, Lieutenant Pelham Aldrich with much difficulty and at great personal risk and sent to a Base Hospital where he was entrained for Rouen in Princess Christian's Ambulance Train. He, however, succumbed to his serious injuries whilst in this train on the 20th September, 1916, and his body was buried at the Military Cemetery of St. Sever, Rouen. For his gallant act of working a machine gun under very heavy fire he received the commendation of Major General Sydney Lawford, commanding the 41st Division, and has been highly spoken of by his Colonel and Captain as having been a most popular and promising officer. He was 23 years of age.

G. E. K. Bemand, 2nd Lieut., Royal Field Artillery, son of Mr. and Mrs. Geo. Bemand of this City, and grandson of the late Mr. Geo. Adams. Shortly after war was declared he gave up his employment as an engineer, in England, and joined the Army. He was killed in action in France on the 26th December, 1916.

Rolf Guillaume de la Vieuville Bertram, Lieut., 8 Winnipeg. Educated at Cheltenham College. Trooper in the Fort Garry Horse. Promoted to Lieutenant Dec. 1915. Died on Sept. 6, 1916 of wounds received on May 16.

Arthur Worsley Blackden, 2nd Lieut., R.F.A., son of Brigadier-General L. S. Blackden, Commanding Troops, Jamaica, late of the West India Regt., and of Mrs. Blackden Trafalgar Park, Jamaica. Killed in action in the Gird Support Trench, North-east of Flers, near the Somme, France, while selecting an advanced position for his Battery under very heavy shell fire, on the 28th September, 1916, aged 18 years and nine months nearly. The G.O.C. of his Division said of him "He was a most gallant young officer and had already shewn marked ability in his profession."

Dennis John Freeland Bradbury, Second Lieut. The King's Own, Royal Lancaster Regiment, son of P. J. O'Leary Bradbury and his wife Ellen, daughter of the late Dr. John Freeland of Antigua, B.W.I.: was born in Antigua 30th June, 1897. He came to Jamaica in 1900 and went to England in 1907. He left Fulneck School, York-shires, at the end of the Summer term, 1915, after a successful school career during which he won the School batting average for 3 years, the bowling average 2 years, and the Athletic Championship 2 years. He was gazetted Second Lieut. in the 11th Batt. The King's Own, Royal Lancaster Regiment in September 1915, and after a course of instruction at Fort Purbrook near Portsmouth, was engaged in training recruits till 15th July, 1916, when he was sent to the front "somewhere in France." In September he was attached to the 10th Batt. Loyal North Lancashire Regiment as Battalion Bombing Officer. He was wounded whilst leading his men in an attack on a German trench on 15th November, and died of wounds on the following day. The particulars of the engagements he took part in and the place of his death have not yet been made known.

Kenneth William Calder, Lieut. Royal Field Artillery, son of the Hon. J. V. Calder, born at Stanmore, St. Elizabeth, was educated at Potsdam School and gained the Rhodes Scholarship in 1912. He entered Corpus Christi College, Oxford and took 2nd Class Mathematical honours (Mods) the following year. He joined King Edward's Horse. He visited Jamaica in 1914 on vacation leave. He returned to England on the outbreak of the present war and enlisted in Hon. Artillery Company, London. Given a Commission as 2nd Lieut. in the Royal Field Artillery, he went to Gallipoli July, 1915. He died at Malta, of wounds received in action on 21st December, 1915.

Charles Wigram Marshall Castle, Senior Medical Officer of the Public Hospital. He was born in India in 1859 and was the son of Capt. Charles T. Castle of the Leicester Regt., and afterward of the Indian Police. He was educated at Elizabeth College, Guernsey, and afterwards entered King's College Hospital, he took his degrees there and went up for the R.A.M.C., but failing sight in one eye spoilt his chance of a Commission and he came on to Jamaica in 1887 under the auspices of the late Sir Henry Norman and the Hon. James Farquharson, and entered the Island Medical Service. After strenuous years of work in the Chapeltown and Pt. Royal Mountains districts, he was appointed Senior Medical Officer of the Public Hospital, Kingston. He left in the latter part of 1915 with a view to joining the R.A.M.C. In the early part of 1916 he obtained a position on the staff of medical men to examine recruits for Lord Kitchener's Army. He, however, decided to return to Jamaica and resume his duties, but whilst working in London he was seized with a chronic trouble he had fought for years which caused his death.

John Chandler, Second Lieut. 1st County of London Regiment, (Military Cross) eldest son of Rev. J. T. H. Chandler and his wife Anna Mary, daughter of late Honble. J. C. Melville Custos of St. Andrew. (son of the late Lionel Philip Payne-Galwey, Director of Public Works in British Guiana, and Mrs. Taylor of Highfield, Spanish Town) of the 1st Grenadier Guards, was killed in action on 25th September at the taking of Combes. He was educated at S. Pauls School, was Champion Light weight boxer of the Public Schools of England. He was in Penang when the war broke out, came over with the Malay Contingent, enlisted in the King Edward's Horse. Was given a Commission and after 3 weeks was transferred to the Grenadier Guards. Lived at Spanish Town until he was 12 years old.

Walter Williamson Park, Lieut. Hertfordshire Regt., elder son of the Honourable J. H. W. Park, Director of Public Works, was born at Foresthill, London, S.E. on the 4th March, 1897 and educated at St. Chads N. Wales and Haileybury College. He had

been in the Officers' Training Corps for some years and had represented his school at Bisleigh. On leaving school in 1913 he joined the Hertfordshire Regiment and was sent to France in March, 1916. He was killed by a shell on the 2nd April, 1916 at Bacquerot near La Bassée.

Robert Campbell Pierce, Lieut.-Col. Royal Inniskilling Fusiliers, served in Burma 1891-2. Took part in operation on N. W. frontier of India 1897-8. With Peshawar column, 5th Brigade Tirah Expeditionary Force. Medal with clasps. Killed in front of his Regiment at the battle of the Somme. Son of the Rev. William Edward Pierce, once Rector of St. Michael's Church, Kingston, who was the uncle of Hon. Robt. Johnstone, C.M.G., I.S.O., Acting Colonial Secretary of Jamaica.

Harold H. Proudfoot, M.B., Ch.B., D.Ph., Capt. R.A.M.C., Royal Field Artillery. He was born at Green Park, St. Ann, Jamaica in 1889, son of Mr. James Proudfoot of 279 Derby Road, Nottingham. He was killed in France on the 2nd Sept., 1916.

Arthur Hugh Rich Saunders, Capt. 1st Batt. 2nd King Edward's Own Gurkha Rifles (Sirmoor Rifles), son of the late Dr. Arthur Saunders, formerly principal of Drs. Saunders and Saunders, Kingston. He was born in Kingston on the 28th April, 1882, and was educated at the Collegiate School under the late Mr. W. Morrison, M.A. He held the rank of 2nd Lieut. in the old Jamaica Infantry Militia. In 1909 he joined the East Yorkshire Regt. as Second Lieut. In the same year he was employed with the King's African Rifles. Later he was transferred to the Indian Army and posted to the famous Second Gurkhas. In January, 1914, he obtained his captaincy in the Regt. He was killed while serving with his Regiment on the 8th March, 1916.

Robert Gordon Spalding, 2nd Lieut. South Lancashire Regt. He was born at Potosi Estate, St. Thomas. He was wounded in Flanders on Sept. 25th, 1915, and died in hospital in France on Sept. 28th, aged 30 years.

Daniel Pike Stephenson, Second Lieut. 4th North Staffordshire Regiment, was a pupil and subsequently master at Wolmer's School, Kingston. In 1911 Stephenson was awarded the Rhodes Scholarship, he then proceeded to Lincoln College, Oxford, and graduated as a Bachelor of Arts. Stephenson served three years in King Edward's Horse, and at the outbreak of war received a commission as Second Lieutenant in the 4th Staffordshire Regiment and was attached to the First Cheshire Regiment, ordered to the front on March 17th, 1915. He was mortally wounded while throwing bombs into a German trench near Yprès, and died in hospital at Boulogne in France on May 4, 1915.

Sturridge, of Jamaica and 29 Wimpole Street, London, was born in Kingston, Jamaica, on August 14th, 1895, and after spending a year at the Jesuit College of St. Michael in Brussels, was educated at University College School, Hampstead. He entered University College Hospital, and had completed his first year in the conjoint medical and dental course when the war broke out, and he joined the army. He received his commission in August, 1914, and went to France with the King's Own Yorkshire Light Infantry in May, 1915. He was present at two important battles at Ypres and Hooge, and during eight months' fighting in the Ypres salient he was constantly under fire, and had many narrow escapes. He was promoted in the field to the rank of Captain, but his promotion had not been gazetted when his brilliant young life was cut short. Whilst he was drilling his men a bomb thrown by one of them exploded prematurely, injuring fourteen men and Lieutenant Sturridge, who died of his wounds ten hours later, on December 30th. His Colonel writes:—"I am truly grieved that, after all he has been through, he should get knocked out like this. The battalion is losing one of the very best and most promising officers I ever met in my twenty-five years of soldiering. He was a 'natural' soldier 'absolutely fearless, and the men would do anything for him.'"

Harry Reid Thomas, Captain, Royal Garrison Artillery, (King's Medal, 5 Clasps Boer War) son of Inspector Herbert Thomas, was born in Kingston in 1883. At nine years of age he won an open Scholarship to the Jamaica High School (now Jamaica College). In 1900 he went to the Bedford Grammar School in England, and in the following year entered Baden Powell's South African Constabulary, and fought during the last fifteen months of the Boer War, gaining the King's medal with five clasps. In 1905 he returned to England and received a commission in the Durham Artillery Militia, from which he passed in the following year into the Royal Garrison Artillery. In 1909 while serving in Malta he was transferred to the Indian Battalion of the Royal

Garrison Artillery and served in Singapore and Hong Kong. At the outbreak of war he was called home and assisted in training recruits till August, 1915, when he accompanied his battery (the 34th) to France. He was killed in action on Christmas Day.

F. H. Thomas, Captain R.M.L.I., D.S.C. (Military Cross), second son of Inspector H. T. Thomas of the Constabulary. Born at Morant Bay in 1885. OBITUARY FOR THE YEAR 1916.

Captain WELLINGTON PEPLOE FORWOOD, J. P., first came to Jamaica many years ago in command of one of the ships of the old "Atlas" Line. Of this he became Agent in Jamaica, in which capacity he retained office when the line was acquired by the Hamburg-American Company. He was for many years a member of the Marine Board. He founded and became Chairman of the Jamaica Telephone Company. He died on the 7th of December.

ASTON WILLIAM GARDNER, J. P., the eldest son of the Rev. William Gardner, Congregationalist minister and author, was born in Jamaica on the 4th of November, 1854. After a short time spent at the old Collegiate School, Kingston, he went to England to Blackheath School. After acquiring commercial experience in London he returned to Jamaica in 1880 and became first manager for, and then partner with the late George Henderson, whose business he acquired in 1889, when he combined with printing, binding and bookselling, an export trade of Jamaica fruits and preserves. He was a Justice of the Peace, and from 1908 to 1912 had a seat on the Kingston General Commissioners. He was a Director of the Victoria Mutual Building Society. He died on the 21st May.

ROBERT CUNNINGHAM GUY came to Jamaica in or about 1890 as a minister of the Scotch Church in Kingston. Relinquishing active work in the Ministry he became a Master in the then Kingston Grammar School. He then edited the "Jamaica Post" for some time. He founded the "Daily Telegraph" in 1898, which in 1910 became the "Telegraph and Guardian," the "Guardian" having been founded by him in 1908. He then became editor of the "Gleaner" and later of the "Chronicle." In his capacity as editor he had considerable power in moulding public opinion, especially in the earlier years of his career. He returned to Scotland in May 1915, but long residence in the tropics had rendered him unable to stand the Scottish climate. He died in Glasgow on the 18th of May.

GEORGE COURTENAY HENDERSON, M.D., the son of the late George Henderson, a member of the Legislative Council of Jamaica, was born at Clonea, County Monaghan, Ireland, on the 17th of November, 1833. He was educated at the old Collegiate School and at Potsdam in Jamaica; and later at University College and London University where he obtained the degree of M.D., being gold medalist. From 1878-80 he was Resident Medical Officer of University College Hospital; Assistant Physician to the London Fever Hospital in 1880, and pathologist, St. Mary's Hospital, London, in 1881-83. He then came out to Jamaica and was appointed District Medical Officer for the Gordon Town district. After a few years he removed to Kingston and started private practice, soon rising to be one of the leading medical men of the colony. He was from 1910 Consulting Physician to the Kingston General Hospital. He was a member of the Clinical, the Pathological, the Epidermiological and the Harveian Societies of London. For eighteen years he was a member, and latterly Chairman of the Kingston General Commissioners, taking a prominent part in the development of the sewerage system and the water supply of the city. From 1890 till his death (with short breaks owing to conditions imposed by the amending law) he was a member of the Board of Governors of the Institute of Jamaica, and for the last few years he had been a member of the Board of Directors of the Mico College, and a member (and latterly Vice-Chairman) of the Jamaica Schools Commission. On the formation of the Rhodes Scholarship Selection Committee in 1903, he was elected to the one membership not held ex-officio. Other positions he could have held, such as the Custodianship of Kingston, but press of work and failing health led him on more than one occasion to decline such offers. Generally, he took a keen interest in all that tended to the advancement of Jamaica; and his medical experience, the result of his wide reading, and his general knowledge were ever at the disposal of any worthy undertaking. His services were given not only in debate but in quiet unostentatious work. His chief recreation lay in photography and rifle-shooting; and he was instrumental in forming and maintaining various rifle clubs, the last being the Henderson Miniature Rifle Club of Christiania, founded in 1915. Whenever he felt himself called upon to take action, he never hesitated to enter into controversy. He wielded a trenchant pen, and spoke forcibly; but withal courtesy prevailed. He bequeathed his library, which contained valuable works on Central America, to the Institute of Jamaica.

COLIN LIDDELL, I.S.O., who was born in Jamaica on the 8th of February, 1862, entered the Civil Service of the colony in 1881 and succeeded his father-in-law, the late Thomas

Harrison, in the office of Surveyor-General in 1894. He devoted his whole life to the work of his office and knew Jamaica as few people knew it. He was made a member of the Imperial Service Order in 1913. For the last few years of his life he had been preparing a large-scale map of the island. Hard work and worries incidental to the office had an effect on his brain, and he died by his own hand on the 5th of October.

Sir NATHANIEL NATHAN, son of Jonah Nathan, of Kensington, London, was educated at University College and graduated B.A. at London University. He was called to the Bar at the Inner Temple in 1866 and joined the Midland Circuit.

In 1888 he was appointed Resident Magistrate in Jamaica, and acted first in St. Thomas-in-the-East, and afterwards in Kingston, and in 1891-2, he acted a puisne judge in the Supreme Court. In 1893 he became Judge of the Supreme Court of Trinidad, and from 1898 till 1903, when he retired, he was Attorney General, acting as Chief Justice in 1901. He was knighted in 1903.

He died in London in February.

Most Reverend ENOS NUTTALL, see p. 644.

FERDINAND CHARLES HUNGERFORD POWELL, was born in St. Elizabeth in 1881, was educated at Potsdam and won the Jamaica Scholarship in 1900. He went to London and continued his studies at King's College and graduated as L.S.A. He returned to Jamaica and practised as a physician at Linstead, Morant Bay, Port Maria, Manchioneal and Kingston, where he died on April 19th.

LUKE AUGUSTUS RATTIGAN, who was born in 1840 in Jamaica, served for many years in the internal revenue department, and was on his retirement in 1909 Collector of Taxes for Kingston. He took a keen interest in matters of finance and contributed numerous letters to the press on taxation of income, land, food, and the like. He originated and carried through the erection of the King Edward Memorial Clock Tower at Halfway Tree. He died in Kingston on the 12th of December.

SAMUEL PAGE SMEETON, I.S.O., who was born in South Lincolnshire, England, came to Jamaica in 1862 and entered the Colonial Secretary's Office. In 1878 he was appointed Registrar General, and in 1899 he was made Deputy Keeper of Records, the two offices being amalgamated. He carried through the Jamaica census of 1881 and 1891. He was a captain in the Militia and a Justice of the Peace. He was created a member of the Imperial Service Order in 1903. He retired from the Civil Service in 1908, and went to live in Edmonton, Canada, where he died in July, at the age of 74 years.

JAMES ROWLAND WILLIAMS, M.A., a member of a family which has resided continually for some seven generations in Westmoreland, was born at Kew Park in that parish on the 16th March, 1860. After spending the first years of his life in pastoral pursuits he went at the age of fourteen to Somersetshire College, Bath, whence he won in 1879 an open scholarship at Trinity College, Oxford, and took a second class in the final classical schools in 1883, taking his M.A. in 1888. On his return to Jamaica he assumed the management of the family properties; in addition he was appointed Inspector of Schools in 1884, and on the retirement of the Hon. Thomas Capper in 1909 he was appointed head of the Education Department as Director of Education; having acted from November 1906 to February 1907 as Assistant Colonial Secretary, at a time of great stress.

In 1908 he represented Jamaica at the Canadian Reciprocity Conference held in Barbados. He was also a delegate to the Agricultural Conference in Trinidad in 1905, to the Cotton Conference in 1908, to the Moral Education Conference in the same year in London, and to the Negro Education Conference at Tuskegee in 1912.

He became a nominated member of the Legislative Council in 1909; he was one of the original members of the Jamaica Agricultural Society at its formation in 1896, becoming a member of the Board of Management in 1901; and he was a prominent member of the Agricultural Instructors Committee of that Board. His knowledge of Agriculture enabled him to compile a manual entitled "Suggestions for School Gardens for the use of Elementary Schools."

On the reconstitution in 1909 of the Board of Governors of the Institute of Jamaica he was one of the first four elected by the members to a seat on that Board which he retained for three years during two of which he was chairman. He was a member of the Committee and latterly Chairman of the Society for the Protection of Animals in

Jamaica. Always taking a deep interest in the welfare of the people of Westmoreland he gave a plot of land and liberal contributions to the expenses of building St. Michael's Church at Kew Park.

Owing to ill-health, due largely to the self-sacrificing manner to which he devoted himself to his duties, he retired from public service in January, 1916. He died on the 23rd April following.

Wise in council and a ready speaker, he ever rendered valuable services at conferences, debates or in committee work. His wide knowledge and experience of the conditions of the island enabled him to effect many improvements during his tenure of office as Director of Education, in the staffing of the schools, the better remuneration and housing of teachers and a pension scheme.

"Cheerful, urbane and equable, he moved

Along the thorny pathways of control;

A kindly, patient, loving, gentle soul,

Who, known the more, became the more beloved."

▲ BRIEF MEMOIR OF ENOS NUTTALL, ARCHBISHOP OF THE WEST INDIES: A RECORD OF FIFTY-THREE YEARS SPENT FOR JAMAICA.

By FRANK CUNDALL.

[This bare outline of work accomplished during many years of labour has been prepared in the hope that it may help to pave the way for a complete life of the Archbishop in the future.]

THE MOST REVEREND ENOS NUTTALL—Bishop of Jamaica and Archbishop of the West Indies—the son of James Nuttall and Alice, daughter of William Armistead, was born on the 26th of January, 1842, at Thornton-in-Craven, in the West-Riding of Yorkshire, a village which then had some six thousand inhabitants. From both his parents he inherited a love of the practical affairs of life, especially agriculture. Of education in its scholastic sense he received but a small amount; the best of it at the village school at Craven and at the Sunday School of St. Mary-le-Gill, hard by. His early life was devoted to assisting his father in building work and to employment on a farm to which he added theological studies and philanthropic labour, often studying at night. He himself in later life alluded to his early educational experiences as unique. His mother, who died when he was ten years old, and whose memory he revered through life, was a Churchwoman, his father a Wesleyan; and he attended the services of both; the church by day, the chapel in the evening, but finally entered the Wesleyan fold and became a local preacher. He then felt strongly drawn towards preaching the gospel to the heathen; and offered himself to the Wesleyan Missionary Society for work in the mission field. After preliminary training in London, under Dr. Kesson, he came to Jamaica in December 1862, when but twenty years of age, landing on the 21st of December, St. Thomas's day, which may perhaps have influenced him in after years in selecting St. Thomas as the patron saint for Kingston parish church. Attached to Coke chapel as an unordained missionary he soon gained a reputation as a preacher. After mature deliberation on the lack of association between the two bodies which he found in Jamaica, he decided to leave the Wesleyans and enter the Church of England, into which he was accepted in January 1866. He was admitted to the office of deacon at Spanish Town on the 18th of February by Dr. Courtenay, Bishop of Kingston, the Governor, Sir Henry Storks being present; and on the 8th of April, so great was the Bishop's confidence in him, he was ordained priest at the parish church, Kingston. As Island Curate he was appointed incumbent of St. George's, Kingston, then chapel-of-ease to the parish church. This cure he held, nominally after his election as Bishop, to the day of his death: receiving from Government the emoluments of the office.

He soon made his presence felt not only in the church but in the social affairs of the community of his adoption. Amongst his early efforts were those made on behalf of the recently founded Sailors Home, and of the medical relief of the poor which later resulted in the founding of the Kingston Dispensary. He started and edited a church magazine which became "the Jamaica Church Chronicle" and after a varying career developed into the "Jamaica Churchman."

In 1869 it was generally acknowledged that the conditions in the Church of England in Jamaica, under which Catechists received their appointments and performed their duties, were unsatisfactory; and Mr. Nuttall took a prominent part in drawing up suggestions for improvement; and he contributed to "Suggestions for the better selecting, preparing and appointing the Catechists of the Church of England in Jamaica, with remarks on Honorary Lay-Readers," published at Kingston in that year. There is no author's name on the title page, but a preparatory note states "This paper has been prepared at the request of his Lordship the Bishop and the Missionary Committee, by the Rev. D. H. Campbell, and Rev. E. Nuttall."

In the December of that year a meeting of clergy was held to discuss the future prospects of the church. He wrote at the time "When I got to Central School I found the clergy in a state of consternation, the news having arrived that disestablishment and disendowment were to take place from 31st inst., and nothing to be saved but life interests of actual incumbents. The few of us who had insisted that this would be the course events would take have been up to the present thought almost mad."

When disestablishment took place in 1870, the Rev. Enos Nuttall was one of those who met the altered conditions in a spirit of confidence and hope, and he played an important part in the framing of rules for the future guidance of the church then left in a large degree to her own resources, with a body of clergy reduced by the non-filling of vacancies, from 92 to 52, and his Wesleyan training here stood him in good stead. Disestablishment undoubtedly worked for the ultimate good of the church. That this was so was in no small measure due to the wise direction of Enos Nuttall and others of the state-paid clergy. He had so far the confidence of the leaders of the church, both clerical and lay, that he interviewed the Governor, Sir John Peter Grant, on their behalf. On April 25th he sailed for England on the first of many journeys subsequently made in the interests of the Church of England in Jamaica. On his return he threw himself energetically into the work of re-organization and spent many hours over drafting resolutions and reports for the church authorities. In November of 1872 he had to go to England for his health's sake, and he remained there until the following August.

On his return he added the charge of St. Christopher's to his work at St. George's for which he built a rectory—the first of many important building operations throughout the diocese which were carried out under his control. In 1874 he was appointed Secretary of the Diocesan Financial Board on account of his grasp of the financial situation, and this he continued to display throughout a long career. In that year he commenced to visit Stony Hill for change and rest, which shortly afterwards led to his acquisition of his mountain home of Belmont. This retreat cannot have been without its drawbacks in later years. After a hard day's work in town on a Saturday ending with a protracted evening meeting, to drive up to St. Jude's in time for early service and then on to meetings in upper St. Andrew only reaching Belmont at 2 p.m., cannot have made for much rest, even with the remainder of the day at leisure. At this time he performed many of his duties "often amidst great weakness" and in 1876 he was so ill that the rumour spread that he was dead. In 1878 his medical advisers insisted on his taking rest and he was off the island from August till December in America and England, but he then, as ever after, tenched on his needed rest by work for the church. In July 1879 he received the honorary degree of Bachelor of Divinity awarded by the Archbishop of Canterbury "for special services rendered to missionary and colonial churches," and certain laymen of Kingston, in appreciation of these services, paid the £65 fees involved.

In 1879 Bishop Courtenay, left the island and in July 1880 the short episcopate of Bishop Tozer, who had succeeded to the bishopric the year before, came to an end, owing to his failure in health. After a prolonged and somewhat heated discussion over the three nominations—the English Committee of Reference, the Rev. C. F. Douet, and the Rev. Enos Nuttall—the Rev. Enos Nuttall was elected by Synod to the vacant see, and on the following day, by a unanimous vote, a request was forwarded to England to the Archbishop of Canterbury to consecrate him: the late Bishop Douet being later appointed Assistant Bishop. On the 28th of October 1880, the newly-elected bishop, to whom was given the customary Lambeth degree of D.D., was consecrated by Archbishop Tait in St. Paul's Cathedral. He held his first confirmation at Halfway-Tree Church on December 21st, 1880. In the following year he commenced those series of visitation to all parts of the diocese which continued throughout his episcopacy so long as will power was able to overcome conditions of health. In his

many journeys about the island he was no more free from accident and discomfort incidental to such travelling than other folk.

The wide interest which he took in all that concerned Kingston, was evidenced by a paper which appeared in 1882 entitled "The reconstruction of the city. A paper read at a meeting of the Fire Relief Committee," printed by request of the Committee which had to deal with the disastrous fire of December 11th, which Committee he, in conjunction with the Custos, had got together. The paper was dated only nine days after the event.

In January of 1883 he left St. Ann's Bay on the "Ceto" for Belize and dealt with church matters in that colony, holding a Synod which created a diocese, getting a bill passed by the legislature: and he then held probably the first ordination service in Belize; Bishop Lipscomb having in 1826 consecrated the church of St. John the Baptist the first Episcopal Church in Spanish America. In this year he founded the Divinity School, which soon became the Theological College, and started a mission to Jamaica Labourers on the Isthmus of Panama. He early in his career as bishop took a leading part in drawing up the constitution and canons of the Provincial Synod, which first met in Jamaica in the October of that year, the various West Indian Bishops coming here for the purpose of constituting it; and he then foreshadowed that influence which he later wielded to good effect in the Province as a whole. In 1884 he had again to go for rest to America being away from August to December. In 1885 he arranged with the Bishop of the Falkland Islands for the transfer of Panama from that Diocese to Jamaica.

In May 1887 he left to attend the West India Provincial Synod at Barbados, spending a short time in America *en route*. All his alterations in the canons were passed with but slight amendments.

In 1887 he published an "Address by the Bishop to Clergy and Lay-Helpers at a conference held in Spanish Town, August 12th, 1887," dealing with a Parochial Mission for the diocese to be held at the close of the year.

In the same year appeared in Jamaica a 'Book of Special Services together with Special Prayers for use in the Diocese of Jamaica.' A revised edition appeared in London in 1900, published by the Society for promoting Christian knowledge. Its title was altered from "for use in the Diocese of Jamaica" to "authorized for use in the Diocese of Jamaica, and so prepared as to be available for use in any other Diocese of the province of the West Indies, if authorized by the Bishop of the Diocese."

Towards the close of 1887 the Bishop was warned by his medical advisers that he must not only take a long rest but must in future abstain from attempting as much work as he had done in the past. But to do only a moderate amount of work proved an impossibility to Bishop Nuttall. This, warning, however, led to the appointment of an Assistant Bishop—the contemplated office of Co-adjutor Bishop being abandoned in deference to the wish of the English authorities. The Bishop throughout the years of Bishop Douet's holding of the office frequently gave the warmest testimony to the latter's loyal assistance and support.

In 1889 he took a keen interest in the proposed Exhibition to be held in 1891, and was appointed president of the Education and Art section.

In 1890, after much persuasion on the part of the Bishop who foresaw what good would result, two deaconesses, Sisters Isabel (Wise) and Kate (Vick), arrived from "Mildmay" England, and the work then organized gradually spread under his guidance from Kingston throughout the island. In that year he edited "Sermons for the use of Catechists and Lay Readers, Diocese of Jamaica," which was printed in Kingston. In 1891 he attended a Provincial Synod at Barbados, and then went on to England to settle church matters in connection with the colony of British Honduras. He then paid, as he ever afterwards did, when plans permitted, a flying visit to Thornton-in-Craven. He published in 1892 by request "The Importance and Possibility of attaining reliable religious knowledge. An address to men delivered by the Bishop of Jamaica in the Parish Church, Kingston, on 8th April, 1892," and at that time he sowed the seed of the church extension which later took place in Kingston.

In 1893 appeared, published in Kingston, "The Churchman's Manual: a book of instruction and devotion intended chiefly for the use of members of the Church of England in Jamaica," for which he had been collecting and arranging material for many years. Even then his duties were so onerous that he said in the preface: "My own time is so completely occupied with multifarious, and often distracting and apparently

incongruous, public and private duties, that I have had to do all the writing, compiling, re-arranging, and abridging necessary, in mere snatches of time, often not more than five or ten minutes long, between important business engagements." This was typical of the methodical manner in which he turned every minute of a busy life to its fullest account. A second edition of the Manual was published in London and New York in answer to a request for it in other parts of the West Indies and in England, the preface being dated London, July 16, 1894; and in 1912 he published through the Society for promoting Christian knowledge the catechism contained therein under the title of "Catechisms and Directions for children and young people."

In 1893 the Bishop of Jamaica succeeded Bishop Austin, who had died in the previous November, as Primate of the West Indies; and in 1897 he assumed in common with some other Primates, by decision of the Lambeth Conference, the title of Archbishop.

In May 1894 he sailed for England and was away until November. He devoted much time to interviews with the Society for the propagation of the Gospel, the Society for the promotion of Christian knowledge, the Colonial and Continental Church Society and other agencies which he felt he could influence in connection with church work in Jamaica. He started a society in England in aid of the Jamaica Church, the Jamaica Church Aid Association, with a magazine to impart information, which became the "Jamaica"; the Society, which later developed branches in Oxford, Bristol, Bournemouth, Manchester, Rochester, Torquay, Lewisham and other parts of England, has not infrequently contributed liberally in aid of the Jamaica Church when in special need, in addition to regular assistance. He also arranged for the affiliation of the Theological College with Durham University.

He took part in a conference which had for its object the placing on a better footing of the Rio Pongo Mission in Sierra Leone, and from that time onward he did all he could to encourage the sending of Jamaica missionaries to West Africa.

In 1895 he took a prominent part in the inauguration of the Jamaica Agricultural Society. He presided over the provincial Synod held in Demerara, being away from February 19th till March 15th. The "Address delivered by the Bishop of Jamaica, Primate of the Province of the West Indies, at a meeting of the Bishops of the Provincial Synod and of the Clergy and Laity, Georgetown, Demerara, on March 5th, 1895" was printed at Kingston. Later in the year he visited Panama in order to organize church matters there.

In 1896 the Archbishop was drawn into a controversy with the late Bishop Gordon who had in "Catholic Opinion" for March 1896, taken exception to some remarks made by Bishop Nuttall in his recent address to Synod on the subject of Education and Christian unity, as reported in the newspapers. This led to a newspaper controversy which was printed in pamphlet form as "The Worship of the Virgin Mary, and other points of controversy by the Bishop of Jamaica in reply to the Bishop of Thyatira." Another pamphlet on the same subject appeared, also in 1896, entitled "Are Catholics Idolaters?" Full account of the controversy between Bishop Gordon and Bishop Nuttall.

In the same year appeared "Letter to professing christian persons and congregations in Jamaica, 1896."

On the 11th of April he sailed for Antigua where he took part in the Provincial Synod; returning in May for another seven months of hard work, of which elementary education took a large share.

In May of 1897 he again visited England, by way of New York. He saw the Jubilee celebration from the steps of St. Paul's Cathedral. He received the degree of Doctor of Divinity from Oxford University; he read a paper at a Conference of the Society for the propagation of the gospel; and took part in the Lambeth Conference, and also a West India Provincial Synod. He sat to Miss Goodchild, for a half length portrait in the possession of Mr. Klein (with whom he always stayed when in England) a replica being at Bishop's Lodge, Jamaica. He also sat to Mr. E. A. Walton for a full length portrait, which is in the possession of Mr. Ernest Nuttall. He returned to Jamaica by way of America where he attended a meeting of the Brotherhood of St. Andrew, a branch of which he was instrumental in forming in Jamaica. In 1898 he took an interest in the Spirit License Bill and the Criminal Law Amendment Law. He was a member and Vice-Chairman of the Education Commission presided over by Dr. (later Sir Charles) Lumb, on Elementary Education and took a large share in drawing up its elaborate report.

In the same year appeared "A statement and appeal by the Archbishop of the West Indies respecting Church and Educational work and needs in the Diocese of Jamaica," which was issued in connection with a deputation intended to leave Jamaica in the April of that year to appeal to English Church societies, churchmen and others interested in Jamaica for funds towards various Diocesan needs and gave a clear exposition of the state of the Church at that date and its needs for the future.

The year 1899 saw the formation of the Cathedral Chapter at Spanish Town. In May the Archbishop sailed for St. Vincent where he advised on many matters of church organization, and then attended the Provincial Synod at Barbados. In England he arranged for the transfer of Porto Rico from the Diocese of Antigua to the United States. He there met Booker Washington: had an important interview with Mr. Chamberlain at the Colonial office and made a speech at a Mansion House banquet.

In 1900 he played an important part in the inauguration of the Direct Line of Steamers from England, and in the organization of the work of the newly formed Board of Agriculture; but in July the need for rest and change saw him again on board ship bound for England.

In 1901 the provincial synod of the Church of England in the West Indies was held in Jamaica, and there was then printed a "Pastoral letter of the Archbishop and Bishops of the Church of England in the province of the West Indies in 1901."

In that year he visited England to attend at Lambeth Palace the first meeting of the consultative Body of the Church formed in connection with the Lambeth Conference, of which he was a valued member.

In 1902 the Archbishop published "Catechisms and Devotions for children and young people" printed in Kingston.

In 1903 he played an important part in drawing up Regulations for the selection of a Rhodes scholar annually, for Jamaica; he becoming, in virtue of his office as Chairman of the Jamaica Schools Commission, a member of the Selection Committee. In June he visited England, returning by way of America where he attended at Washington a Conference of American Bishops.

In 1904 in view of the fact that there was a strong desire on the part of many people in Jamaica that effective religious teaching should be given to the children in the Elementary Day Schools, strengthened by the consciousness that a large number of them were not likely otherwise to be brought under the influence of moral and religious teaching, the Archbishop got together a committee of which he was chairman, consisting of the leading men of the Protestant ministry in the island of all denominations.

The first edition of the catechism "prepared for use in the Public Elementary Schools in Jamaica" was published in Jamaica in January 1905; another edition appeared in the same year which had on the title page, "For use in the Public Elementary Schools of Jamaica. (as intended to be included in the Code in accordance with a Resolution of the Board of Education passed 25th April 1905). Prepared by a representative committee of Ministers of Religion." The third edition appeared in 1906 in which it was called "The Jamaica Day School Catechism; a catechism for use in the Public Elementary Schools of Jamaica, prepared by a representative committee of Ministers of Religion, and adopted by the Board of Education." It was only a small opposition that prevented its compulsory use in elementary schools.

In 1904 was published "Five Lectures on the Life of the World to come. Delivered by the Archbishop of the West Indies in the Parish Church, Kingston, Jamaica, during Lent 1904," printed in Kingston.

In 1905 the Synod left to him the appointment of a successor to Bishop Douet, who had retired through ill-health in 1904, with the result that Dr. Joseclyn was appointed Co-adjutor Bishop. On his way to England he presided over a provincial synod at Barbados. In England he arranged for the transfer of the church work on the isthmus of Panama to America.

In 1907 he took a deep interest in the Agricultural Conference which he had been instrumental in bringing about.

When Jamaica, and especially Kingston, was stricken by the earthquake of January 14th, it would hardly be an exaggeration to say that the Archbishop, by his foresight and power to lead, averted a grave danger. On the morning after the earthquake he formed a committee for the purpose of organizing relief for the destitute, and this was formally constituted by the Governor's commission on the following day. As chairman of this hastily formed committee, and later of its successor the Assistance

Committee, he dealt with every difficulty that arose in a manner that settled many a petty quarrel, and evoked the admiration of all classes; residing the while in his coach-house, all that was habitable of Bishop's Lodge; and one wonders how amidst this ceaseless and anxious work he found time within the first four weeks to prepare an elaborate address to Synod dealing with many subjects. After the hungry had been fed, the sick attended to, the homeless afforded shelter, he devoted his attention to the great question of the reconstruction of Kingston; and, associated with Mr. A. W. Farquharson, he went on the 14th of March as a deputation to England—selected by the unanimous wish of the people—to ask for help for Jamaica in her hour of need. He interviewed in the cause of Jamaica a number of people of influence, Lord Elgin, Mr. Winston Churchill, Professor Milne, Mr. Arnold Foster, Mr. Asquith, Dr. Parkin, Mr. (now Sir Sydney) Olivier and many others. While on his errand of mercy for Jamaica he took advantage to plead for the Jamaica Churches. On his return he received a hearty public welcome, and votes of thanks from several influential bodies.

From that time onwards he devoted much time to establishing a principle, secured in 1911, of insuring church property against hurricane and earthquake as well as fire.

In August of the same year he sailed for America, where he took part in the laying of the foundation stone of Washington Cathedral, and attended at Richmond a general convention of the American church.

In May of 1908 he sailed for England. He received the degrees of Doctor of Civil Law from Durham University, and Doctor of Laws from Cambridge. He presided over a West India Provincial Synod, and took a prominent part in the Lambeth Conference and the deliberations of the Consultative Committee. He was present at receptions at Windsor Castle, Marlborough House, the Foreign Office and the Colonial office. He then met his younger brother, who had risen to high honour in the Wesleyan Methodist church, from South Africa, the Rev. Ezra Nuttall, whom he had not seen for forty years. Together they visited their native Yorkshire, and on one occasion the Archbishop walked five miles across the moors. He presided over a Provincial Synod of the West Indies that year held in London, the only place where all the bishops of the province have hitherto found it possible to meet. He also attended the Pan Anglican Congress and presided at one of its meetings.

In 1909 he took a special interest in the formation of the Discharged Prisoners Aid Society; housing for the poor of Kingston and model dwellings, which resulted in the formation of the Kingston Model Dwellings, Limited.

In 1910 he paid a visit to England, being absent from June 16 to November 10th, and presided over a Provincial Synod of the West Indies; and arranged for the visit of the Bishops of 1911 for the purpose of consecrating the churches of Kingston and the neighbourhood which had replaced those destroyed by the earthquake of 1907.

In 1911 the Archbishop, in conjunction with Dr. (now Sir John) Pringle, represented Jamaica at the Coronation, and on the Sunday following that event he preached in St. Paul's Cathedral.

The months of September and October 1912, were spent at Clifton Springs Sanatorium in America, where he benefited by the rest, change and treatment; and the months of June to September 1913, were spent in England where he saw after many matters concerning Jamaica, from the appointment of Dr. deCarteret as Assistant Bishop (consequent on Dr. Joscelyn's demission of office, early in year) to discussing with the Secretary of State for the Colonies the proposed American tax on Bananas. Pressure of work compelled him to decline the proposal that he should head a deputation from Jamaica to Washington in connection with the matter.

Towards the close of 1913 the Archbishop had a sudden breakdown in health, and his annual address to Synod in 1914 was read in his absence. In the summer of that year while in England (going and returning via the United States) for health's sake, he attended meetings of the Consultative Body of the Lambeth Conference held especially with reference to the Kikuyu controversy, to which he had been strongly invited by the Archbishop of Canterbury. This was one of the last occasions on which he was able to render valued advice at Lambeth Palace.

He spent two months at Mandeville in the summer of 1915, but the rest gave but temporary relief. In January, 1916, he published "Notes on the Religious teaching in the Jamaica Day Schools."

Many years of unceasing labour told on the Archbishop's strength, which had never been robust; for years he had performed much work with difficulty but without hesitation. He paid his last visit to Stony Hill on May 2nd, he having preached his last sermon at St. Jude's, there, on the 5th of the preceding December. After a few weeks of more acute suffering he died at Bishop's Lodge on the morning of the 31st of May. On the following day—after a lying-in-state at St. George's and a service at the parish church, Kingston—he was buried in the churchyard of the parish church of St. Andrew at Halfway-Tree, near the place where he had laid his second child, a daughter, in 1870—"a quiet beautiful spot." The funeral, semi-official in its arrangement, was the largest gathering of the kind ever seen in Jamaica, his body being followed to the grave by all classes of the community from the Governor downwards, the concourse of mourners being both spontaneous and genuine.

Resolutions were passed by numerous bodies, educational boards, parochial boards, agricultural societies and teachers associations in Jamaica, and many messages of condolence were received from England and America. Memorial services were held, on the Sunday following the funeral, throughout the diocese by all denominations.

For many years it had been the Archbishop's habit to preach on the first Sunday in the year at his old church of St. George, Kingston, and on the last Sunday in the year at the parish church of St. Andrew. In 1900 the sermon was printed, "A sermon preached by the Archbishop of the West Indies at the Parish Church, St. Andrew, Halfway Tree on Sunday morning, 31st December 1900."

To "Mankind and the Church: being an attempt to estimate the contribution of great races to the fulness of the Church of God," by seven Bishops, edited by Bishop Montgomery, he contributed in 1907 an article on "The special influence which the African or Negro Race may exercise on the future developments of christianity;" and to "Church and Empire" edited by the Rev. J. Ellison, M.A., and the Rev. G. H. S. Walpole, D.D., he contributed also in 1907 in collaboration with the Rev. Thomas Parker George, then curate of the parish church, Kingston (whose collaboration was sought owing to the many calls on the Archbishop's time), an article entitled "The West Indies."

From 1894 till the year of his death he was wont to deliver an annual address to Synod, dealing in his usual frank, methodical and detailed manner, not only with the matters that concerned the Church as a body but also with wider interests affecting the Island's welfare; and the addresses form, in a small degree, a record of his career during that period. Some of them are printed in the Journals of Synod. Those for the years 1888, 1894, 1897, 1898, 1899 1901, 1904 to 1916 were printed in pamphlet form.

His interest in the welfare of the various phases of church life in the diocese was intense. There is scarcely a church in the diocese that he did not assist to build, rebuild, enlarge or restore. Though conscious of the beauty of English parish churches, he deliberately set himself as a rule the task of obtaining the largest substantially built church that the funds, almost invariably too small, would supply; and beauty had perforce to be of secondary consideration.

When his whole energies were devoted for many years to all forms of church work it seems invidious to mention any special features. But of church institutions he took a deep interest in the Theological College completed in 1893 at Cross Roads, and he often made time to lecture to the students on Homiletics. The Belmont Orphanage at Stony Hill, founded in 1892 near to his home, on land given by himself, was dear to his heart; and the Deaconess Home founded in 1890, with its Nursing Hostel as well as the various Deaconess Schools throughout the diocese, at Kingston, Spanish Town, Brown's Town, Montego Bay and elsewhere, all of which he founded and all of which he incessantly aided by wise counsel and direction and with funds provided by friends in England and America, had a special interest for him.

Next to Religion the cause of Education possibly made the greatest demand on the Archbishop's thoughts and time. In 1881 he was appointed a member of the Jamaica Schools Commission, and in 1883 became its Chairman, and from that date onwards he unstintingly devoted all the time he could spare and his great ability and energy to the work of the Commission and of Secondary Education generally. He was one of those first consulted as to the creation of the Board of Education and as to the scope of its work, and he was elected Vice-Chairman at the Board's first meeting on July 19th, 1892; the Superintending Inspector of Schools (now called Director of Education) being Chairman *ex-officio*. He was annually re-elected to that position and continued to hold the office, except when absent from the Island, until 1902 when he expressed a wish that

some one else should be appointed; but he still continued to be one of its most prominent members until the day of his death. He brought his wide experience to bear in many difficult problems that from time to time were encountered in the development of Elementary Education.

In January 1904 he, in common with eleven other educationists of various denominations, signed a pamphlet entitled "Statement of suggested changes in the Elementary Education of Jamaica," its aim being to meet in a comprehensive manner what was vital to the convictions of different sections of the community without unfairness to others; and he dealt on the subject at some length in his annual address to Synod.

In 1905 he published "Education in Jamaica in its relation to skilled handicraft and agricultural work" which was written at the request of the Board of Education in England, and was embodied as an Appendix in volume XII, Part I of the "Special Reports," issued by the Board, dealing with The West Indies and Central America; St. Helena; Cyprus and Gibraltar.

In 1908 he published a letter to "His Excellency Sir Sydney Olivier, K.C.M.G., Governor of Jamaica, Kings House," with reference to the educational needs of the island as discussed at a recent meeting of the Board of Education at which the Governor had been present.

Of the many spheres of patriotic and philanthropic labour in which he indulged outside the borders of church work, none was nearer to his heart than the Mico College. When in 1882, in a measure at his instigation, a Board of Directors replaced the old Board of Visitors, of which he had been a member, and latterly Chairman, the Bishop of Jamaica became its Chairman, and to that office he was re-elected at each annual meeting. In every stage of the growth of the College, in building and rebuilding (after earthquake and fire), increasing the number of the students, improving the staff and providing for their pensions, and in other ways, incentive and direction came mainly from the chairman. Through him the bequest of Lady Mico and the exertions of Buxton and Lushington and other philanthropists were brought to a ripe fulfilment in Jamaica.

He was also chairman of the Board of Directors of Shortwood College for training female teachers, and it was mainly through his foresight and persistent effort that the College was saved when threatened with extinction by retrenchment.

He married on the 14th of March, 1867, at Birnamwood, Lillie, youngest daughter of the late Rev. P. Chapman, Wesleyan Missionary, who survives him.

His elder son is Mr. Ernest Nuttall, Solicitor of Kingston, and Solicitor to the Church of England in this diocese; his younger, the Rev. Charles Ewen Nuttall, is Rector of St. Thomas, Winchester. His elder daughter, Miss Clare Nuttall, has been for years Superintendent of Belmont Orphanage; his younger, Miss Isabel Nuttall, lives in London where she acted as Secretary and materially assisted her father on his numerous visits to England.

He left by his will £100 towards the endowment of a scholarship at the Jamaica Church Theological College, to which he bequeathed his library.

Full of deep sympathy where sympathy was deserved, patient under difficulties, hopeful in times of trouble, he was above all, wise in counsel, and his advice was sought by rich and poor, not only in his own church but by those of other denominations. Successive Governors of Jamaica profited by his advice; and in England both at the Colonial Office and in commercial circles, his judgment was highly valued; in church conferences and by church dignitaries his experience was held in high esteem for his sound judgment and wide experience of colonial life. He had the fullest confidence of four successive Archbishops of Canterbury.

His sermons were prepared solely with a view to the message they had to convey, and were not based on any desire for rhetorical or literary effect. He held that the truth simply told had its effect, whether addressed to Oxford dons from St. Mary's pulpit, or to a rural congregation in Jamaica from the shade of a giant cotton-tree. And the same was the case with his published writings. His clearness of diction was remarkable.

It is said that all work and no play makes for dulness. This was not the case with the Archbishop: a sense of humour was often to be seen in his eye even when the debate remained serious. When all allowance is made for the nature of his calling and a possible personal indifference for such matters, he was remarkable for the self-denial with which he abstained from all forms of recreation. And yet he was ever ready to sympathize in the desire for recreation in others; and did all that he possibly could to make it easy for his clergy to take leave at reasonable periods, feeling that a thorough change of surroundings could not but have a good influence. Music was the only one of the

fine arts that strongly appealed to him, and yet he indulged in this but rarely. On his very rare visits to the theatre, he was much influenced by the great care bestowed by actors on the preparation of their work. He refused, however, the offer of the proceeds of a theatrical performance in aid of a church institution.

As a chairman of meetings he had no equal in Jamaica. He let everyone express his opinion—even at times suffering fools gladly—but kept a quiet control over a debate, and usually closed it with a well-reasoned résumé; and succeeded in persuading those in opposition that their views were in accord with his own. Gifted with a marvellous power of remembering details he often knew more of what had transpired at a meeting held weeks previously than any one else present. He possessed that capacity for taking infinite pains which Disraeli said amounted to genius. His punctuality was a standing example to all who came in contact with him. The Yorkshire caution which underlay all that he did never obtruded itself unduly. Once convinced that action should be taken, he brushed aside objections and opposition. The statesmanlike qualities which were evident were apt, in the case of those who did not know him well, to overshadow the simple piety which ruled his life.

No one ever acted better than he up to Apelles's motto—*Nulla dies sine linea*; and the amount of work which he sometimes managed to crowd into his working hours was remarkable.

There was nothing of the dilettante about him. He touched nothing without going thoroughly into the matter in hand. He kept in addition to an engagement-book, a journal, dating from 1866, which was rarely allowed to get more than a day or two in arrear. From it many of the facts of this brief memoir have been taken. It is to be regretted that it is—in the main—but a confirmation of the engagement books, with here and there slight comments which make one wish that time and health had been given to him to prepare an autobiography.

His was a remarkable personality, possessing charity, disregard of wealth and power for their own sake, and perseverance under discouragement. He was a great organizer, an untiring and methodical worker.

His best epitaph is perhaps to be found in the cablegram sent by the Archbishop of Canterbury on receipt of the news of his death. "Thanksgiving for a life of noble service."
